The community we loved and were told that the space was zoned for residential construction for the possibility of new friends instead of commercial that will only attract who knows what off the freeway into our backyard. This once quiet safe community is going to be thrust into the middle of a shopping center that will only risk our kids safety, decrease our property values, increase criminal activity and ruin our close-knit happy community. **I ask you to imagine yourself in this situation. Wouldn't you do anything you could to protect your children and the future of your community?**

Please don't let another big corporation ruin what little is left of our small town community. We are fortunate to have Desert Ridge Marketplace, Costco, and many other options just down the street that offer everything we need and more. I ask you to please consider the needs of your fellow community members; we chose this beautiful neighborhood to avoid the dense, congested, commercial areas and enjoy our small piece of Phoenix. Please support us in continuing to raise our families in this beautiful please we call home. No Black Mountain Village!

Sincerely,
Jennifer Larson Popnoe

**Subject:** Opposition to commercial rezoning request in Desert Ridge

Mr. Grande ---

I write you in hopes of garnering your support for residents (and our children) in Desert Ridge.

I was frustrated to learn of Vestar's rezoning request (GPA-DSTV-2-23-2, GPA-DSTV-3-23-2, and Z-39-23-2) geared towards generating massive profits despite the risks and negative impacts created for residents. I live a short distance from the parcel, and am already a firsthand witness to the daily debacle of traffic & pedestrian issues near the high school & in my neighborhood (Copper View). Radically changing the existing plan (that we as homeowners considered a promise to properly manage our community) to introduce a massive grocer, gas station, fast food, etc. will only create more risks, especially for our neighborhood children.

I'm incensed with the thought that there would be support despite the many issues (noise, pollution, crime) that this commercial entity will drop into the heart of our community. My son is currently a fifth grader at Fireside Elementary, which is also a short distance from the parcel. The most extreme risks are created for high schoolers --- easy access to alcohol/nicotine, no oversight, traffic --- but nearby, our most vulnerable will now also pay the price if Vestar's greed is satisfied by lining up behind the ask to mangle our closeknit community.

**I plead with you to support homeowners and residents by opposing this rezoning request**. This parcel should stay zoned for residential use to allow more families to join our thriving community. Vestar can achieve their profit targets using one of the multiple, available parcels in the area already zoned for commercial use. Please help protect our community and families.

Respectfully,
Justin J. Popnoe

| **Date:** | Thursday, September 21, 2023 7:33:56 PM |

Dear Mr. Grande and Councilman Waring,

I built my home in Fireside over 10 years ago, with my backyard facing Black Mountain Boulevard. I have a view fence, paid a premium for my lot and was promised the land behind my home across Black Mountain Blvd was zoned as single-family residential. My husband and I have 3 sons who were toddlers at the time. Now, they are teenagers attending Explorer Middle School and Pinnacle High. We did much research to find the perfect neighborhood/lot to build our house and raise our family. I am opposed to the Black Mountain Village Commercial Development. My reasons for opposing the project include:

- Horrific traffic when one considers the daily chaos that exists at the adjoining high school and nearby elementary school.
- Threats to the safety of students at the high school and nearby elementary school.
- Introduction of twenty-four-hour noise, light, and air pollution into a residential environment, specifically concerning since our bedroom windows will look out over this development.
- Establishing a 24-hour hang-out for unsupervised adolescents from the adjoining high school.
- Litter, crime, vandalism and transient individuals.
- Pollution from cars lined up at drive-through operations.
- Lack of any reasonable justification for a major amendment to the Desert Ridge Specific Plan to the detriment of innocent homebuyers who relied on the plan.
- Decrease in property values for residents of Fireside and Sky Crossing.
- Diversion of traffic from SR 51 that would otherwise head west on SR 101.

We love our Fireside and Desert Ridge Community. Please take these points into consideration and help us to preserve the sanctity of this beautiful area of Phoenix, that we feel good to call our home. Thank you for your attention to this matter.

Sincerely,

Laura Richards

| **Subject:** | Letter of Explanation by Resident regarding zoning GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2 |
| **Date:** | Thursday, September 21, 2023 4:12:13 PM |
| **Attachments:** | Letter of Explanation Resident Final.docx |

Dear Council members,
A rezoning request was submitted by the attorneys of Gammage & Burnham on behalf of Vestar to convert a Residentially zoned 20 acres into a Commercial zone (C2).
It seems like this council asked 10 very pertinent questions to further explain how this proposal would impact the neighborhood and they submitted their answers in a Letter of Explanation (dated July 16st)
I assume the explanation was accepted and the case was subsequently filed. GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2

Although the Letter of Explanation by this law firm indicated that support for this proposal was abundant. I'm writing to you to let you know that nothing is further from the truth. This proposal should be denied.
In fact, this proposal has triggered a lot of opposition from the residents in Desert Ridge, because it is proposed adjacent to our High School and Elementary School and contrary to what the attorneys stated, **WILL** damage our community. There are many more reasons for opposing this case which are explained in my version of the attached "Letter of Explanation Resident"

I hope that the detail and the amount of work I put into writing this gives you a good summary of what is at stake and that the current version of our Master Community specific plan is what residents are expecting.
This does not entail allowing 20 acres of big box commercial businesses, who will be creating a lot of issues for all residents and schools to deal with in the coming year.
**I urge you to deny this proposal in all its forms.**

Rather than outlining the issues we anticipate, I have included alternatives for you to consider and suggested items that are within our plan and would benefit our community and make it an even better place to live.
If the developer's goal is to add a new brand of grocery store to the area, please note that there are plenty of commercial zones available to build on immediately, which is also highlighted in the appendices.

In my previous contact with the City, I have raised awareness regarding the traffic situation around our schools and I also rallied our community to participate in the survey for Vision Zero.
I was pleased to see that within the budget approved by this council, you have allocated money for schools to improve a "Safe Route To School".
This proposal would endanger our kids walking to school with the increase of local traffic and non-resident traffic and ruin our community with big box retailers, alcohol and cigarette sales near schools, fast food restaurants and gas stations.

Please deny this proposal completely.
Thank you for your consideration.

Regards
Wouter Roodenburg.

RE: SWC of Deer Valley Drive and Black Mountain Parkway; Minor General Plan and Major Specific Plan amendment request.

To whom it may concern:

I'm writing to you as a concerned resident impacted by the rezoning requests GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2

Upon reading the Letter of Explanation provide to you by the attorneys of Gammage & Burnham (GBlaw), dated July 16th, 2023 (rev July 10th, 2023), I feel that you should also have the other perspective to the great questions you submitted regarding this proposal.

First and foremost, GBlaw informs you at the end of their letter that "*Vestar has received positive feedback from the **Desert Ridge Community Association**. As the Site Plan has evolved, the applicant and Vestar have met with the Association in order to keep them informed and updated on the project. The continuous question that has been asked throughout this outreach is "When will you start construction?" The eagerness of this community to have shopping alternatives, grocery in particular, simply cannot be overstated. "*

This statement was completely misleading and unfounded. When we confronted the Desert Ridge Community Association about this statement during their monthly meeting, they claimed that they are "just concerned with applying the CC&R's of the community and cannot be supporting either side of this proposal". Who did GBlaw quote here and in what capacity? It cannot be further from the truth.

Why did the DRCA not run this by the communities it represents? Was this the basis for your committee to decided to move forward? Did the committee assumed that the support was already there based on that statement?

A lot of people do NOT agree with this proposal, it was started under wrong pretenses and now the community has to spend our time fighting this proposal. This should have been stopped at the start

based on the guidelines – which I will highlight later on – of the specific plan and the conflict the site has near 2 schools, affecting the safety of kids going to school. It is NOT in line with the Phoenix General plan to create more residents walking somewhere, NOR do any of the fast food restaurants add to residents getting together, other than queuing up behind each other at all the drive throughs. It will ruin our community and if this passes then developers will continue to expand and try the same thing on other locations. Please stop this now, stick to the plan.

Please bear in mind that there has been zero efforts from any organization to ask our communities what we would like or need. Before this proposal, every resident was under the impression that we have a very detailed specific plan for Desert Ridge which currently perfectly describes what the community will look like once it's finished. That is what people bought into and paid a premium to live in this area.

What you will notice in subsequent events is the fact that GBlaw has started campaigning for support **AFTER** the first public meeting. Our community was getting ads (appendix 2) that created an impression of an innocent small neighborhood grocery store for people to quickly click on, not being informed of the consequences or full plans. Why did GBlaw give you the impression during the letter of explanation that community support already existed?

Giving the push back that you have seen, how much value can be placed on any other answer provided in that letter, other then GBlaw hiding the real intentions of this developer. This developer wants to make it 20 acres and put on a 50,000-100,000 sqft grocery store, fast food restaurants, gas stations, more traffic in our area. It shows complete disregard for our great community and it also conflicts with a lot of the design principles of our specific plan on many levels. Equally deceptive was the highlighting of existing traffic issues at the Desert Ridge Marketplace. Their solution: move all the traffic issues closer to 2 schools full of kids walking to school? Unacceptable.

**What are the alternatives?**

There are no compromises to the current proposal. We (those who voted NO on our petition) do not want 20 acres of commercial on that land. As a planning committee and city council, you should stick to the existing great and specific plan for Desert Ridge. This plan shows these superblock being Low Density Residential.

Perhaps you consider new stipulations in the plan for the next residential builder to take on the unintended traffic issues that have been created over time and possibly create a new drop off route for the highschool using 32nd street and increase the schools parking lots.(Appendix 8).

Or using the Vision Zero plan, approved by the council to use "Safe Route to School" grants to make our drop off areas safer.

Another consideration, which is already mentioned In our community plan, would be building a Library and/or Park and Ride parking lots. That would be a huge benefit to this community, especially considering the fact that is right next to 2 schools. These things make sense.

Ultimately, if people want more choice in grocery stores, then there are pre-approved zones available very closeby. City North also has room for an additional grocery store and currently hosts (a real!) neighborhood Sprouts convenience store. There is is land available on 56th and the freeway also. Plenty of alternatives and good enough to host their proposal, without ruining our neighborhood.

**Further details in response to original the Letter of Explanation.**

I want to continue with my response to address the way these attorneys chose to answer your questions, downplaying the impact it would have and leaving out important details that you should consider and be aware of. They are experts to provide you only with details that they've learned helps getting approvals from you and put the wheels in motion.

They described it as "low impact" commercial development. How do they determine this? They claim there is no final plan. Once approved they can do what they want. AND they're proposing this to be next to an elementary and high school and in the middle of a quit community, which is unacceptable because of the dangers they're introducing to the school and kids. Half-truths are being told.

I would like to select a few of your questions and provide another perspective and have included appendices to clarify my comments.

**Questions Selected:**

*Q3; How many potential housing units would be created or lost by approving and implementing the proposed amendment?*

GBlaw response states : "The benefit of bringing much needed commercial to this area far outweighs the minimal loss of housing from the proposed amendments"

**My Response**: They fail to mention that there are pre-approved commercial zones are only 1 block north of the proposed site along Pinnacle Peak and leave out the fact that City North still has 50% land available, which is adjacent to Desert Ridge marketplace. Why would they need to amend our residential master plan for 20 acres to insert a commercial development when bigger lots are available?
(See Appendix 1)

*Q4: Is there a need for the proposed use(s) or density(ies) in the requested location?*

GBlaw response states: "unintended consequences of creating the large and hugely successful Desert Ridge Marketplace and surrounding retail uses is that the intensity of those uses has led to traffic congestions and parking issues."

**My Response**: There was never any research done or input requested from residents regarding the impact of the marketplace, nor were we asked what our needs are. This proposal is purely economical and not driven by an identified need. My response would have been that I can confirm traffic congestion caused by drive through restaurants and those will remain and new ones will be created by their proposal.

Their responses continue to emphasis the current traffic issues but their proposal will bring exponential more traffic to our neighborhood due to new (non resident) people now choosing to come off the 51 at Black Mountain blvd to get their groceries that previously went to the marketplace. Children are walking home from Elementary School and the High School are being put at unnecessary risk.

If I was asked for what this community needs, it would be more recreational parks, a promised library, preserve the land for High School expansion requirements to accommodate more students, parking and

a safer route to school and drop off areas around the school. That is what we need, not light, air, noise pollution and gas station or any other shop next to a high school and elementary school. People are also very concerned about the crimes that go along with such a commercial center.

*Q5: What impact would the proposal amendment have on adjacent or nearby land?*

GBLaw states: "The addition of quick service food and retail options at this location will provide a safe alternative to the students at nearby Pinnacle High School before school, after school and during the lunch hour. The Applicant met with Pinnacle High School Principal Chad Smith, who indicated that the proposal development would potentially reduce the number of off-campus trips by car"

**My Response**: The impact will be bad. More traffic, More pollution, More smells, More homeless people on corners, More cars idling, More noises and light pollution into the night.

PLUS Every parent knows that putting temptation in front of teenagers, they will jump on the occasion to skip school, find a way to buy alcohol and cigarettes and create a hangout for these teenagers that will lead to all sorts of trouble, fights and crimes. The school is a closed campus school, so only seniors that are already driving themselves might be interested, but it also highlights their commercial interests in this area and trying to capture this captive audience and provide bad fast food and other bad choices. Nothing safe about their proposal that will benefit High school students.

Secondly, I would highly recommend that you independently meet with the Principal of Pinnacle High School and Fireside Elementary School and they will paint you an entirely different picture and **strongly oppose this development.** Don't take my word for it. Please have someone verify this statement as this was another technique to give you the impression that they reached out with concerned parties and only shared what they wanted to hear. Not their full version and misrepresentation of their opinion. Parents have brought this up with the Principal during various meetings at the start of the school year.

*Q6: How will the proposed amendment affect traffic generation and the transportation system?*

GBlaw states; "Black mountain blvd and Deer Valley drive are both major arterials adjacent to the property. As such, Black mountain village is proposed at an appropriate location"

**My Response**: Notice how short this answer is compared to all the other answers. They are not even directly addressing the core of your question. Great avoiding technique of the hot potato.

See Appendix 1 – the traffic is terrible at the moment, during drop off and pickup times, during rush hour, as drivers trying to avoid the 101 and 51 take Deer Valley and they use all of our community road to take short cuts and therefor causing people speeding on mayo blvd and 40th street to get to where they need to go. With the attraction of gas stations, fast food and grocery stores, more (non resident) people will start taking this route.

*Q8: Community Benefits; How does the request address the community's unique opportunities and challenges related to prosperity, health and the environment? See pages 18-26 in the Phoenix General Plan*

GBlaw States: One of the visions discussed in the PlanPhx 2015 General Plan, is to make Phoenix a "Connected Oasis." Put another way, residents have expressed a desire for the City to have more places at which citizens can connect with one another. This new shopping center in the Desert Ridge area will provide such a place. Moreover, the addition of a retail shopping center that can more conveniently serve the western portion of Desert Ridge will reduce transportation burdens on residents to reach grocery and other retail opportunities; potentially increase the health of Desert Ridge residents by providing a destination to which they can walk or bike and reduce the emissions from residents driving to Desert Ridge Marketplace which can lead to a healthier environment. A reduction is transportation burdens, increased opportunities for exercise and a cleaner environment lead to an overall increase in health and prosperity.

**My Response**: This is pure nonsense as there has ***NOT*** been any survey done about what we want and need or desire. And if they claim this, it can only been hearsay from a few residents close to this project or overheard in an HOA board meeting. Not even our HOA's have done such a survey to gather input from their residents**. GBLaw only started to gather signatures around September, whilst the letter is dated July 1st.**

However, if you know anything about Aviano, Sky Crossing and my community Fireside, then you know **this community is already very connected to their neighbors**, we have long time residents that have seen their kids grow up and go through each of the 3 schools in the area as well as many community events that are organized by paid community directors every month where we all connect with each other. Firework displays paid for by HOA's. Our Halloween celebrations are known throughout Phoenix and we have to block off our streets to accommodate everyone safely.

The proposal is not promoting any of the things they advertise, nor will any of their proposed commercial properties promote any new healthy activities due to the nature of the Gas station, Fast food restaurants and none of the 100,000 sqft grocery stores. They are expecting increased traffic for their tenants to be successful.

Other examples to promote these great goals outlined in your General Plan, are libraries and park areas for our families that will allow coaches to run their practices and young families to have play areas.

*Q9: How will the proposed amendment affect the character and image of the adjacent area, neighborhood, and village?*

GBlaw states: "The proposed amendments will advance the land use principles in the Desert View Village Character Plan and the Desert Ridge Specific Plan. The Desert View Village Character Area Plan has several principles that are supported by the proposed amendments. The first is a land use principle that suggests that new development in or near residential areas should be compatible with existing uses and consistent with adopted plans. Next is a design principle that seeks to protect and enhance the character of each neighborhood and its various housing lifestyles through new development that is compatible in scale, design, and appearance. Finally, the last principle is design-related and requires

impact-mitigating features when new nonresidential uses abut existing residential uses or are adjacent to arterial streets or freeway corridors."

**My Response**: These design principles should simply state –

1) **DO NOT BUILD COMMERCIAL PROPERTIES NEAR HIGH AND ELEMENTARY SCHOOLS DUE TO KNOW RISK AND SAFETY ISSUES THESE TYPES OF PROJECTS BRING**, especially if there are pre-approved commercial zones already available in the same vicinity. The buffering that is mentioned is a small walk for anybody, so claiming the design being "away" from the public school is just putting lipstick on a pig.
2) **DO NOT BUILD COMMERCIAL PROPERTIES IN THE MIDDLE OF 3 RESPECTABLE COMMUNITIES DUE TO THE TRAFFIC AND CRIMES THESE TYPES OF PROJECTS BRING.** The grocery will be giving access to alcohol and tabacco near the schools. The gas stations will bring homeless people
3) **THERE NO IMPACT MITIGATING FEATURES INCLUDED FOR NON RESIDENTIAL USES.** In fact, the viability of this commercial proposal is counting on non residents to start visiting this area.

It will also affect the image of Pinnacle High School, which is putting a lot of effort into increasing their image and provide superior education and is seeing increased enrollment numbers. This include the fact that schools are graded on their students attendance and Tardiness. Having this development next door will most certainly impact their school standings today.

*Q10. Additional comments as appropriate*

GBlaw states: Vestar has received positive feedback from the Desert Ridge Community Association. As the Site Plan has evolved, the applicant and Vestar have met with the Association in order to keep them informed and updated on the project. The continuous question that has been asked throughout this outreach is "When will you start construction?" The eagerness of this community to have shopping alternatives, grocery in particular, simply cannot be overstated.

**My Response:** These additional comments are possibly based on the opinion of 1 person within the Desert ridge HOA board. There will be no evidence to support these statements. In fact, every HOA meeting GBlaw has attended after the initial public hearing, has been met with more opposition. There is ZERO EAGERNESS by this community, demonstrated by all the emails you have been receiving on this proposal and further strengthened by the votes on our petition and people that have or will be speaking at the public meetings. (Appendix 5)

But first and foremost, the opposition to this proposal underlines that this proposal might be a classic bait-and-switch and they assumed this would slide under radar of this community. They were wrong.

**PETITIONS / Social Media / Advertising:**

In response to various ads and website activity by Vestar and GBlaw, our community has setup our own website ( https://defenddesertridge.godaddysites.com/ ) and our Petition on Change.org and Hand written signature petitions to make sure that we are not undercut by this corporations tactics to show support. Residents cannot match their corporate budget and social media skills, but we hope that you see that efforts were made on our side and that it should be weighed more.

ALL of their activity to back up their statements, are DATED AFTER their "Explanation Letter", thus the statements and references made to our community's eagerness for this, has been vastly overstated.

We have since also seen various ads show up on our Facebook and other social media platforms ( Appendix 2) that paint a “dream” appealing to a random public that this is a neighborhood grocer, when the fact is that it could be 50,000-100,000 sqft grocer. This is never mentioned anywhere. A gas station is never mentioned anywhere. The audience they target could be outside of Desert Ridge.

Other ads lead to a petition on Change.org, which in turn has a link back to the GBlaw website in order to submit support emails. (Appendix 3 & 4)

- There is NO Validation where these emails are coming from.
- There is NO Validation whether any of the submissions are coming from automated software
- There is NO Validation – if they were real people – where they live and even part of desert ridge
- They’re sharing very little information about the full scope of the project.

**IN CONCLUSION**

I’m completely blown away by the amount of effort that these attorneys and developers put behind their proposals in order to ruin neighborhoods, endanger school areas, and negatively impact sought after communities for their profits.

There is no eagerness in this community and online petitions and handwritten signatures underline that this proposal was based on misinformation and not substantiated by any research of community needs.

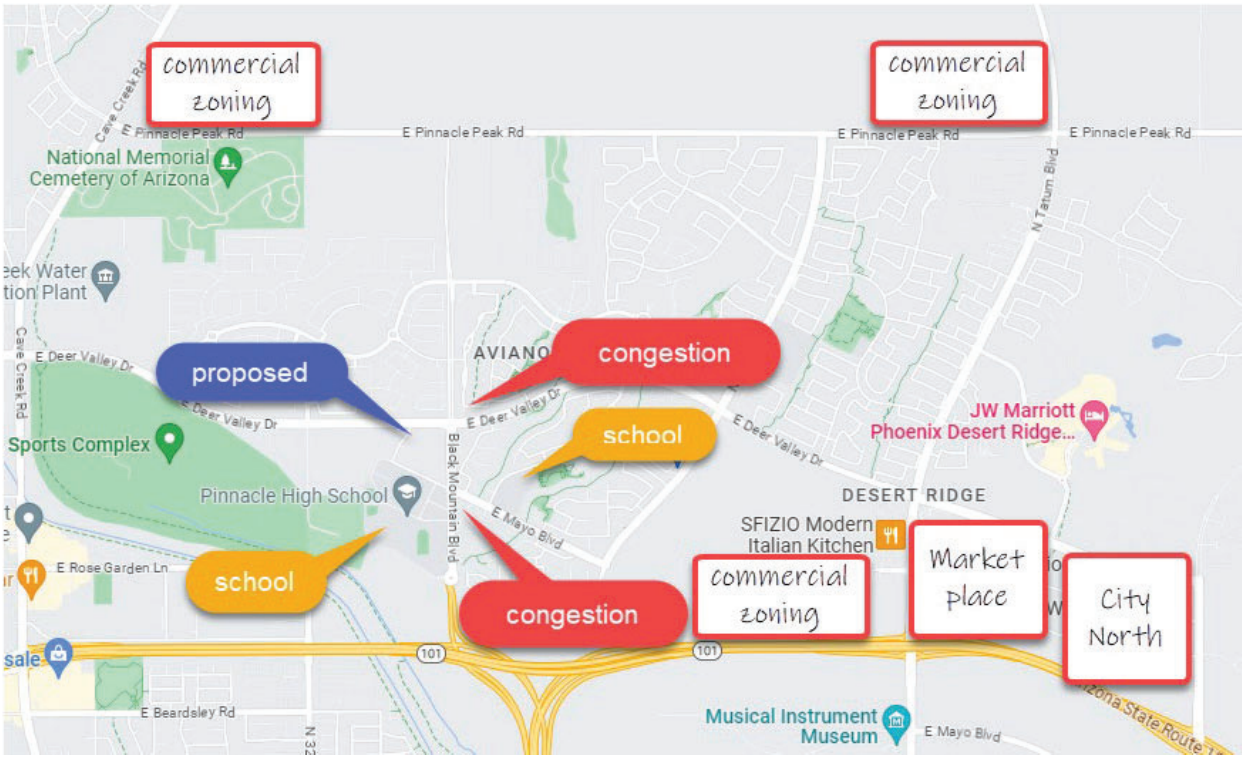
I sincerely hope that the City Planner, City Planning Committee and City Council will see this development for what it is and oppose the zoning change, **without compromise**. There is nothing that will be accepted by this community, other than the current zoning.

Please decline the entire proposal in all its forms and keep the residential zoning as it is, or pro-actively work with our community directly to find a more valuable use for this land around Pinnacle high school and near our 3 communities and stop any incoming future proposals immediately.

Sincerely,

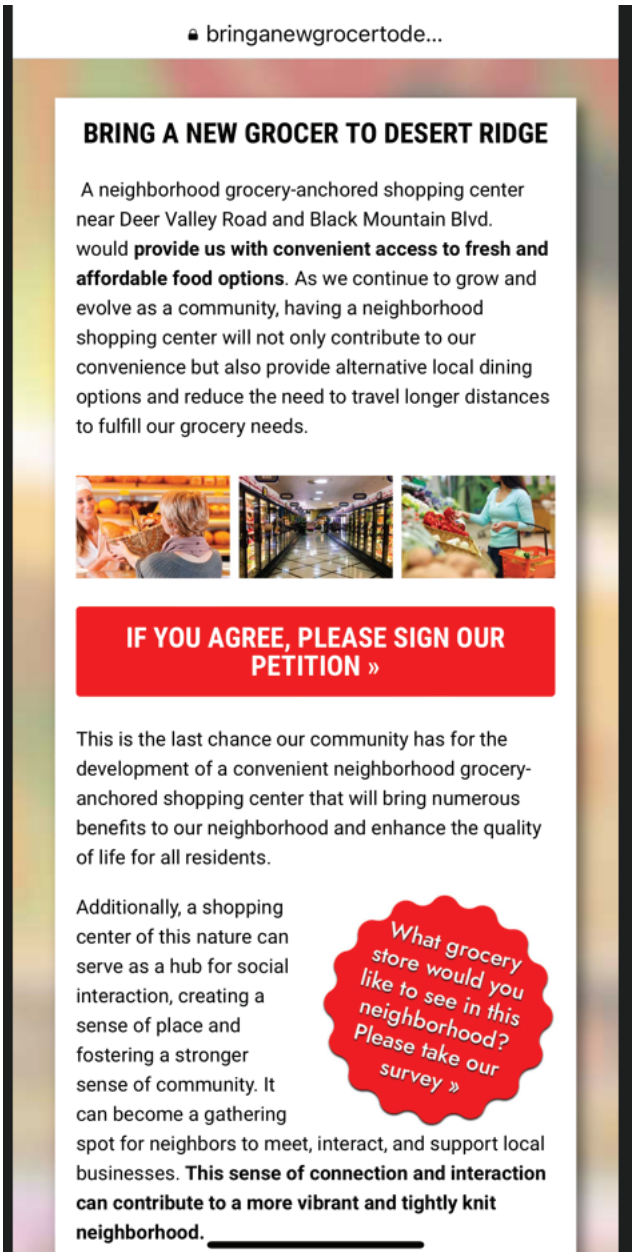
Wouter Roodenburg

APPENDIX 1: TRAFFIC CONGESTION and COMMERCIAL ZONING



APPENDIX 2 – FACEBOOK ADS

They are misrepresenting the full plan of this proposal in order to get people to vote for this.



APPENDIX 3 GBlaw submission form and petition Link

## Why this petition matters

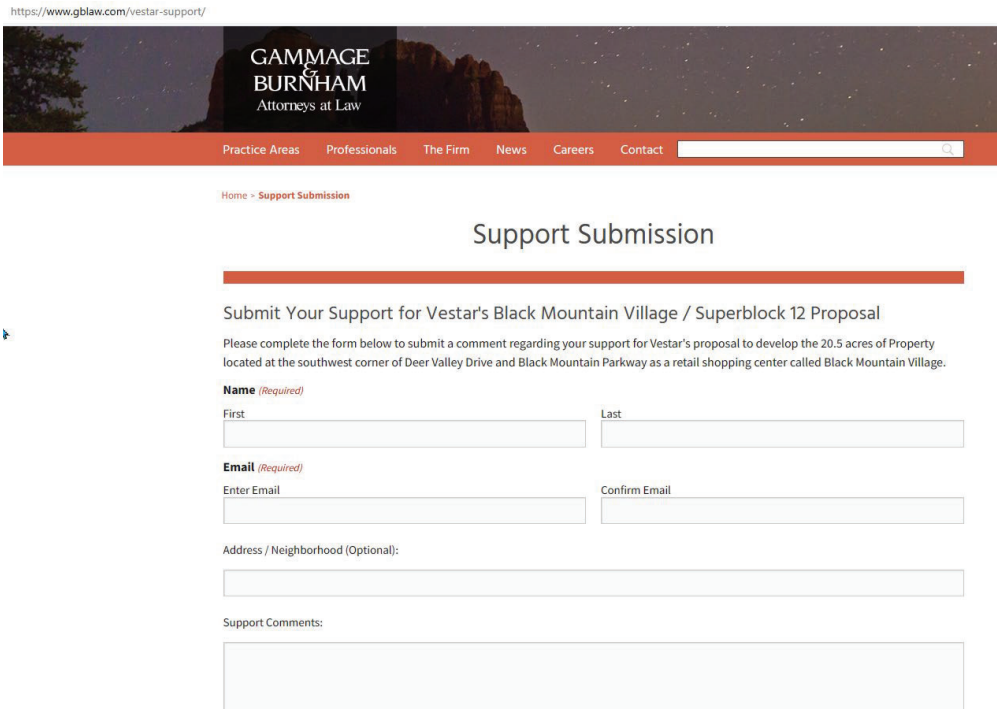
Started by **New Grocer**

A neighborhood grocery-anchored shopping center near Deer Valley Road and Black Mountain Blvd. would provide us with convenient access to fresh and affordable food options. Having a neighborhood shopping center will provide alternative local dining options and reduce the need to travel longer distances to fulfill our grocery needs.

This is the last chance our community has for the development of a convenient neighborhood grocery-anchored shopping center. We believe that such a development will bring numerous benefits to our neighborhood and enhance the quality of life for all residents.

A well-planned and community-oriented development of this kind will also add significant value to our neighborhood without compromising its unique character.

Please **follow this link** to let city leaders know you support more grocery options.



APPENDIX 4 – Gblaw petition: BRING NEW GROCER petition (per 9/19/23)

https://www.change.org/p/help-bring-a-new-grocer-to-desert-ridge-please-sign-our-petition

This was started in September, a full 2 months after the letter of explanation was send.

# Help Bring A New Grocer To Desert Ridge. Please Sign Our Petition.

Started September 1, 2023

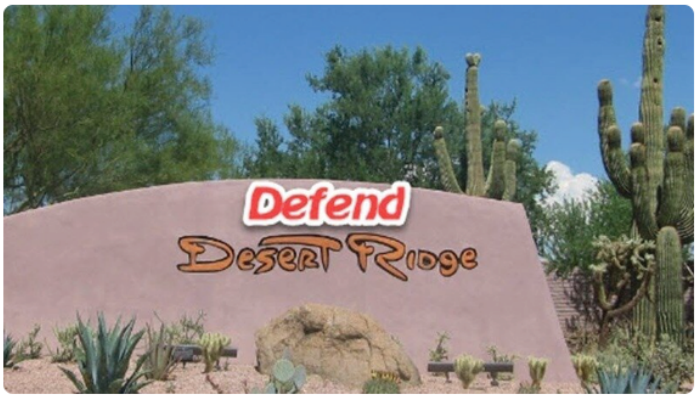
So far we have TWICE the support to oppose the proposal, excluding written signatures.

# Oppose Commercial rezoning in Desert Ridge



Started September 13, 2023

## Why this petition matters

Started by **Defend Desert Ridge**

Oppose the rezoning request at Black Mountain Blvd / Deer Valley. It is currently zoned residential as part of our Master Plan but a developer is looking to make it Commercial, so that they can put in a new grocer and other big box retailers, fast food restaurants and gas station and other types of shops right near Fireside Elementary and Pinnacle High school and in the middle of your community. This provides liquor and cigarettes near children. Rezoning proposal case GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2. Anthony.Grande@phoenix.gov is the city planner assigned to the case in case you have further questions.

APPENDIX 6 Desert Ridge Specific Plan – Current Plan around 3 acre neighborhood centers

NOTE: I thought it would be helpful to include these chapters around the original intent of neighborhood convenience commercial.

1) Convenience commercial NOT more then 3 acres max
2) Neighborhood convenience store can be 5000 sqft max (see site design) NOT 100,000
3) Away from Arterial streets
4) No Drive Through
5) Only Beer/Wine allowed

*Neighborhood Unit Concept as the Basis for Community Design*

One of the principal problems of our sprawling western cities is the lack of connection residents feel to each other, and any sense of identification with the population at large. Desert Ridge is structured to build in a strong sense of identification and orientation.

Each neighborhood superblock generally consists of one square mile of residential uses. At the heart of most superblocks is a neighborhood park, an elementary school and no more than 10,000 square feet, excluding child care facilities, of neighborhood convenience commercial uses on a minimum of one acre and maximum of three acres. The convenience commercial uses are intended to be very limited in size, yet provide a range of necessary goods and services. They will be located internal to superblocks, at least 600 feet from arterial streets, so as to be accessible only from the internal collector road system and from a pedestrian path system. This location will present an opportunity to reduce the number of potential automobile trips taken for convenience shopping purposes. Potential neighborhood convenience centers are illustrated on Figures 7 and Figure 8. ***1**

The relationship between the convenience commercial, elementary school and neighborhood park uses will require special attention to inherent conflicts between and among these uses (e.g. school children and park users with vehicular traffic). As a rule, the convenience center will be located a minimum of 300 feet from any school uses. There should be no commercial development located adjacent to elementary schools. Possible relationships between these uses are illustrated on Figures 9 and Figure 10. ***1**

A total of 18 neighborhood convenience commercial acres, or a maximum of 90,000 square feet of gross leasable area, excluding child care facilities, for all of Desert Ridge outside of the Village Center will be allowed subject to the criteria and standards in Chapter 6. This criteria will minimize the adverse environmental impact on the residential neighborhoods typically associated with commercial development. ***1**

Depending on each residential development, a neighborhood could include a small community center, a swimming pool, tennis courts and other recreational facilities. These recreational facilities may be located in all superblocks. These facilities may be developed in conjunction with local subdivision associations. Child care facilities, however, will be located in all but three of the smallest superblocks. Each neighborhood is designed to be developed independently, encouraging individual character and identify; a range of housing densities is included in each neighborhood, allowing for a healthy economic mix. Provisions should be made for housing for the elderly and retired persons, as well as persons living in assisted care facilities. ***1**

The neighborhoods are bounded and served by major arterial boulevards, with collector streets accessed from the boulevards occurring at no less than one quarter mile intervals. The local streets will loop through residential areas creating a neighborhood character. No shortcuts between arterials through the neighborhoods will be found, discouraging any traffic other than local.

The majority of residences will be within a five to ten minute walk of the local park, elementary school and neighborhood convenience commercial uses in most superblocks. A system of pedestrian/bicycle paths along the wash corridors will meander through most neighborhoods, providing direct linkage to the neighborhood center, encouraging walking and reducing dependence on the automobile for local trips. Children will, in most cases, be able to walk to their elementary school on paths within wash corridors without ever having to cross an arterial street. Each neighborhood will feel pedestrian oriented, encouraging a sense of community among residents. ***1**

## C.3 Convenience Commercial Uses

### C.3.A General

Most residential superblocks have neighborhood convenience commercial centers. These centers are planned to be located in proximity to the elementary school, and neighborhood park within each superblock as presented in Chapter 5. These centers are located internal to superblocks at least 600 feet from an arterial street, so as to be accessible only from the internal collector residential loop road system and from the pedestrian trail system within the wash corridors. This presents an opportunity to create a self-sustaining community within a superblock thereby reducing the number of potential automobile trips taken for convenience shopping purposes.

The neighborhood convenience commercial centers are very limited in size. They are intended to serve only the superblock in which they are located and are not intended to serve a population outside the superblock boundary. The maximum total acreage for neighborhood retail uses, including buildings, parking, landscaping, and any other items related to the existence of the neighborhood retail use, shall be three (3) net acres, while the minimum acreage will be one (1) net acre.

**C.3.B.2 Modified City of Phoenix Regulations Imposed by this Specific Plan.**

a. Minimum Lots Size/Maximum Lot Size

The minimum lot size shall be one (1) acre exclusive of street rights-of-way. The maximum lot size shall be three (3) acres exclusive of street rights-of-way.

b. Maximum Building Area

Maximum of 10,000 square feet of gross leasable floor area per superblock, exclusive of floor area required for one child care facility per superblock (in other words, the child care facility may be in addition to the 10,000 square feet of gross leasable area); no more than 7,500 square feet of gross leasable floor area per superblock devoted to convenience market retail uses. The convenience parcel must be landscaped similar to the surrounding area until development of the parcel occurs. ***2**

c. Permitted Uses:

Only the following uses are permitted in this district.

- Child Care Center
- Dry Cleaner/Laundry outlet, not plants **+2**
- Convenience Market (selling and display space for beer and wine shall be limited to a maximum of 15% of total selling space) **+2**
- Delicatessen or other sales of prepared food limited to maximum of 1,000 square feet exclusive of outdoor dining areas ***2**
- Bakery, retail sales **+2**
- Beer and wine sales only; no hard liquor sales
- Beauty/Barber Salon
- Video tape rentals as part of convenience market.
- Florist
- Pharmacy
- Shoe Repair
- Booksellers and Rentals, except adult bookstores **+2**
- Candy Shops/Confectioneries, retail sales **+2**
- Gift Shops/Novelties/Stationers, retail sales **+2**
- Hobby Goods Stores **+2**

- Ice Cream Shops **+2**
- Picture Framing, custom **+2**
- Residential Office **+9**
- Travel Bureau **+2**
- The Boys and Girls Club **+10**

d. Prohibited Uses:

Other than the uses listed above as permitted uses, all uses are expressly prohibited including the following:

- Mechanical or electronic video games or arcade - type devices for amusement purposes.
- Drive-through uses
- Sales of package liquor other than beer or wine.

e. Maximum Building Height: 1 story not to exceed 20 feet

f. Minimum Building, Parking Lot, and Setbacks: 25 feet away from any property line and/or right-of-way line. **-2**

g. Parking requirements: One stall per 300 square feet gross building floor area, or per City Ordinance. **+2**

h. Signage

1. Temporary signage

   Signage will be developed during a subsequent planning stage. See Appendices.

2. Permanent Signage

   Signage will be developed during a subsequent planning stage. See Appendices.

Appendix 7 – Desert Ridge Specific Plan – Public Facility Plan

This chapter describes the provisions for public facilities like Ride-and-Go and Libraries

These are currently in the planning and would increase our sense of community.
What if a Planning Commission would decide to put library next to 2 schools for kids to go to.
What a great concept and it fits right into the goal of bringing a neighborhood together.

Also – please note that in this version of the plan, a Park and Ride parking lot is showing on the proposed site. Why wouldn't we want to do that and execute the plan.

## F. PUBLIC FACILITIES PLAN

At buildout, Desert Ridge is a planned community for over 59,000 residents and 20,000 employees. Public facilities are an essential element for the planning and development of a large master planned community such as Desert Ridge. The following public facilities have been located within Desert Ridge using the approved planning criteria of each responsible government agency, department and school district.

- Parks
- Library
- Fire Station
- Community Center
- Public Schools

The locations of these facilities is illustrated on Figure 17, *Public Facilities Plan*.

| **Subject:** | Vestar Rezoning near Sky Crossing- Not your normal opposition email |
| **Date:** | Thursday, September 21, 2023 9:06:42 AM |
| **Attachments:** | image.png |

Hello Anthony,
As a homeowner in the Sky Crossings community I am writing to you today to voice my concerns about the rezoning proposed by Vestar development for the plot of land on the corner of Black Mountain and Deer Valley.

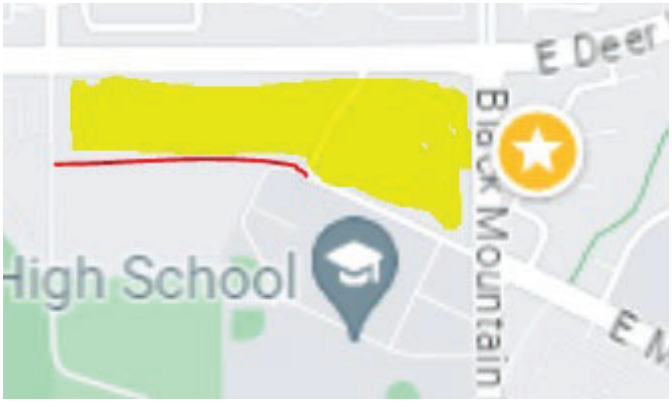
**My intention with this email may be a bit different than some others that are opposing the rezoning as I am only opposed to the change based on the current guidelines. The concerns I have are with the lack of limitations placed on the development proposed and the traffic patterns suggested for nearby residents. Let me explain.**

As I understand it the Max sq footage of the proposed grocery store would be 100,000 sq ft. In my opinion this is far too large for the community. **I would be in favor if the max sq ft was closer to 50,000 as this would attract a smaller more neighborhood friendly store and allow more retail space for local businesses which serve to bring the community together better than a big grocery.**
This would even lend itself to a development plan that could **recreate more of a "main street" feel with business lining a small street**. It would be nice to incorporate a small park for people to gather or even a space for organized neighborhood gatherings and events. It could be a destination, within walking distance, for the community to gather, shop, eat and for kids to play. There is nothing like that nearby currently that brings all of the nearby neighborhoods together.

**My other major concern is the traffic pattern proposed.**
There would be no way for someone leaving that development to get to Sky Crossing without taking a U-turn or cutting across traffic to get to a turn lane. **This could be remedied by extending the proposed Mayo Blvd improvements all the way to 32nd street as then there would be a light allowing people to safely exit the area in either direction.**

In summations, I would love to see that entire space (see pic below) turned into a retail / public use space that would include a small grocery, shopping, a park, a small amphitheater for neighborhood concerts and events. **I'd like to see something that welcomes neighbors in and encourages us to spend time (and $$) as a community, building friendships and memories together as our kids grow up.**

***This is an opportunity to do something different and set a precedent for neighborhood planning and development to come.***



I understand that the highlighted area is larger than what's proposed but wouldn't it be a great place to bring people together?

Thanks for your time .

---

Dear Sir,
I have been a Desert Ridge resident since 2001. During this time i've gotten married, had a child and she has enjoyed the relaxed
family environment that these neighborhoods currently provide and well as safety and bike riding.
Please consider the values that this neighborhood has offered and desired prior to this refining issue. Some thing are best left alone and this neighborhood is one of those places here in the valley.

Sincerely,
Susan

**From:** Robin Bowie
**To:** Council District 2 PCC
**Cc:** Anthony M Grande
**Subject:** Rezoning of 20.52 acres
**Date:** Friday, September 22, 2023 10:36:26 AM

---

Dear Councilman Waring and Mr. Grande:

My name is Robin Bowie and I have been a resident of Desert Ridge since 2004. My husband, Charlie Bowie, was the former President of Toll Brothers Arizona Division and worked closely with the City of Phoenix and the Planning Commission to build one of the best master planned communities in Arizona, Aviano.

I wanted to voice my concerns about the rezoning of approximately 20.52 acres located at the southwest corner of Black Mountain Boulevard and Deer Valley Drive (GPA-DSTV-2-23-2 (Companion Cases GPA-DSTV-3-23-2 and Z-39-23-2).

By rezoning this parcel from Residential 2 to 5 dwelling units per acre to Commercial directly affects the following:

1. The already problematic traffic in the morning and afternoons with the school start and stop times. The newer drivers from Pinnacle High School navigating that area on a daily basis will be at even more at risk with the additional traffic from the shopping center, especially if a coffee shop (as was eluded to by Vestar's attorney at the August 1st Planning Committee meeting) will be put there.

2. The possibility of a gas station being added to the Plan really is the worst of the worst. Now you are talking light pollution, large noisy trucks delivering the fuel and supplies, as well as possible contamination of the soil with any gas or oil leaks. And then there is the vagrancy issue. The homeless and panhandling has already been an issue sprouting up in Desert Ridge and now with the new shopping center they will start migrating there.

3. Crime - inevitable things that happen when there is a shopping center. And add to that the proximity of the on/off ramp of SR51. That exit will then be used by more vehicles who will want to use that shopping center, especially if there is a gas station there. I would also think that having a shopping center right next to the high school would draw those same kids into becoming a nuisance as well. Just ask anyone about the teen problem at the Marketplace and how Target had to hire a Police Officer to guard their store with all of the teens hanging out there. And the same holds true for adding a fast food chain. Look at what happened a few months ago at In and Out Burger with the teens getting into fights and the young man who lost all of his front teeth. Teens are going to be teens but again, why do we want to bring that right into the middle of our neighborhood.

5. By adding a "boutique" or any other grocery store you have the issue of loading docks and large semi-trucks coming in the middle of the night with their loud engines and beeping noises unloading merchandise so close to the houses in that general vicinity.

The project summary on the Gammage & Burnham website claims: "growing demand and need for additional commercial and retail options in the Desert Ridge area." Desert Ridge Marketplace already encompasses a large parcel of land, High Street with its restaurants, shops and a small grocery store and add to that City North which is currently in the developing

stages. "City North will be an "urban core" that upon completion will bring over 3,400 additional apartment units, over 2 million square feet of Class A office development along the Loop 101 freeway, ±1,000 hotel rooms and several new restaurants to the heart of the Desert Ridge, Arizona's largest master planned community." (This paragraph copied from https://www.citynorthdesertridge.com/ [citynorthdesertridge.com]). Desert Ridge has plenty of "additional and retail options" especially given the fact that it is already becoming more and more dense with traffic from the existing Marketplace, the new housing all along 56th Street, as well as Deer Valley Road, City North, and the new apartments slated for the Northeast corner of Tatum/Deer Valley.

I personally have spoken to several homeowners and they are all in agreement that this is not wanted or needed. I have signed the Petition that is currently circling the area. I understand that the Developer is going from door to door looking to convince the neighbors that this is a good idea.

It is my hope that the Planning Committee will take my comments and the comments of the other neighbors who are signing the petition and writing letters into consideration when making their decision on whether or not to rezone this parcel. When I moved to Desert Ridge back in 2004 everything surrounding Aviano was zoned residential. I have watched all of the new developments come to life around me. I'm fine with that and am not a NIMBY. My husband was a builder. The people most directly affected by this, the ones whose properties will look at or back to this new shopping center, do not deserve this. Residents purchased their homes in this community assuming that, according to the Public Report given to every homeowner purchasing a home, that this parcel was zoned residential, not commercial. Pinnacle High School has been and continues to be bursting at the seams. The parking situation is such that there is not enough parking for all of the students, the pickup and drop-off to the school is a nightmare and if there are any school events there is not enough parking for all of the attendees. If any zoning modifications are going to be made to this piece it should be that the State Trust Land Department should either donate a a piece of this land to the school or possibly have the school district buy it.

I had suggested, as did others at the Public Meeting held on August 1, 2023 that Vestar should look into the parcel that is at the southwest corner of Pinnacle Peak Road and Cave Creek Road. There are plenty of houses surrounding that area to support a shopping center there. Vestar is not looking to make the lives of the residents in this neighborhood better by having things more convenient for them, they are looking at how much more money this will make for them. Commercial development belongs on the outside of a neighborhood, not smack dab in the middle. Convenience comes at a price and I for one do not want to pay that price. I'm happy to get in my car and drive 3-5 minutes to get gas, groceries, coffee and fast food.

Thank you for your time and consideration.

---

Hello Mr. Grande and City Councilman Waring,

I wanted to write and let you know that hundreds of people are having discussions around the land that is just north of Deer Valley Road and west of Black Mountain Blvd in North Phoenix (Zip 85050).

There is so much discussion and misleading information that is getting shared across social media platforms and even legal firms are sending out notes to try and persuade residents in our communities to be in favor of new land development.

I moved to Arizona 12 years ago and built a home in the Fireside Community, I also have lived in the Aviano community and now live in the Sky Crossing community. **I'm very much opposed to building out a large grocery store & gas station/fast food mall/commercial development on this patch of land.**

If you need any further information from me, please let me know.

Thanks for listening and I look forward to meeting you on October 3rd.

Kevin

**Subject:** Proposed Redevelopment at Black Mountain and Deer Valley
**Date:** Friday, September 22, 2023 12:03:27 PM

---

Hello Mr. Grande- I am a resident in the Sky Crossing subdivision, which is to the north of the proposed redevelopment of the land that is at the southwest corner of Deer Valley and Black Mountain. I am writing to express my concerns regarding the proposed redevelopment.

1. Traffic Concerns :Traffic during the school year between the hours of 7:10-7:30 am and 2:00-3:00 pm is already very high in the immediate area. It is considerably worse during that afternoon block, as there are a large number of parents in the area to pick their high schoolers up from school. This makes it very difficult to get through the intersection. In addition, high school students are haphazardly crossing major streets during this time. Two students were hit by vehicles last year while trying to cross the street. While I understand that this is somewhat of an issue for PV schools to figure out, it seems as if the developer has not addressed this other than to acknowledge that there will be increased traffic in the area. I would encourage members of the planning committee to drive by that area during those times to get a sense of the congestion. My hope is that if the redevelopment is approved, the developer agrees to fund and construct a walkway over Deer Valley (similar to the one over Black Mountain) so that the high school students walking from Sky Crossing can safely make it to school. Unfortunately, there is no bus service for these students due to the close proximity of the school and the increased traffic is only going to make it more dangerous for them.
2. Liquor Sales: It is my understanding that the developer is asking for a variance from the liquor law rules in order to be able to develop the space to include a gas station, grocery store and restaurants that serve alcohol. I would encourage the committee to consider the fact that there is a high school within the immediate vicinity and a large potential for children to attempt to illegally purchase alcohol.
3. Aesthetic Concerns: Understanding the high likelihood that this land will be re-zoned, my hope is that it can be developed in a thoughtful way that takes into account the aesthetics of the area and the high property values of the nearby homes. This could include a small/higher end grocery store (like an AJs or Whole Foods) with higher end restaurants and shops rather than the developer seeking to maximize their profit on the space by including a gas station, fast-food restaurants, large grocery store (Frys/Safeway), etc. The noise, light and traffic coming from the area will definitely change the aesthetic of the area, so anything that can be done to minimize that would be appreciated.

Thank you for your time,
Melissa Mitschke

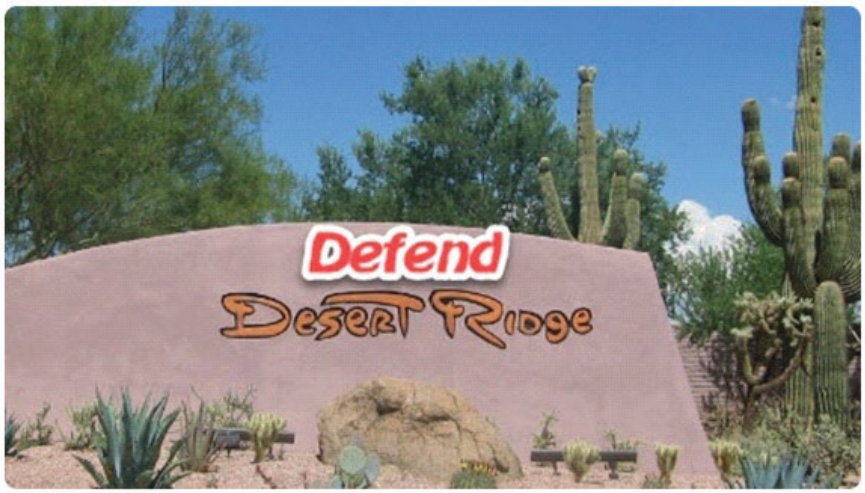
Kind regards,

Wouter.

# Oppose Commercial rezoning in Desert Ridge



Started September 13, 2023

## Why this petition matters

Started by **Defend Desert Ridge**

Oppose the rezoning request at Black Mountain Blvd / Deer Valley. It is currently zoned residential as part of our Master Plan but a developer is looking to make it Commercial, so that they can put in a new grocer and other big box retailers, fast food restaurants and gas station and other types of shops right near Fireside Elementary and Pinnacle High school and in the middle of your community. This provides liquor and cigarettes near children. Rezoning proposal case GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2. Anthony.Grande@phoenix.gov is the city planner assigned to the case in case you have further questions.

Copy link

We oppose because it will significantly increase traffic in your neighborhood and impact safety around the schools, it will increase light, air and noise pollution to our quiet neighborhood. It will attract all of the problems and crimes you see already at Desert Ridge Marketplace, Fast Food Restaurants and around Gas Stations today. Furthermore it will negatively impact the behaviors of high school students and endanger kids attending the elementary school. In short, nothing good will come of this.

If you want a new grocer, encourage them in the pre-approved commercial zones around the corner on Cave Creek and Pinnacle Peak that should be used instead of encroaching on our beloved neighborhood.

By signing this petition, you would like to let the Planning Committee and City Council know that you oppose this rezoning request and the land should stay residential.

Goto : **defenddesertridge.godaddysites.com** for more information.

- **Sign BEFORE September 19 for your voice to be heard.**
- **Please ATTEND the review meeting at PV Community center on October 3rd @ 6:30pm to show your support.**

Could I sneak in one final comment into the case file that was just getting brought up last night? People are now getting emails from Vestar trying to promote the need for more grocery stores in this area. The verbiage they are using was that Desert Ridge incredibly only has one grocery store in a 21-mile square area. Talk about incredibly confusing and misleading. 21-mile square area? Who speaks that way? Did they mean 21 square miles? They used 21-mile square area intentionally to confuse people. These people are spreading lies to try getting people to sign their ONLINE petitions. I would be very interested to see how many of these people that have signed their ONLINE petition live outside of the Desert Ridge area.

Another thing I would ask Gammage and Burham how many of these people signed their petition, while voting for a Sprouts or Trader Joes in their online survey? They are deceiving the public with this survey when they knew before they began the survey that these smaller grocery stores aren't even an option to be used as the grocer.

I would like the City and the Village Planning Committee to request the results of their online survey become public records. I would be willing to bet over 50% of their supporters are looking for something Vestar already knew wasn't an option.

Thanks,
Dan Richards

Dear Mr. Grande and Councilman Waring,

I submitted an email on September 13 pertaining to my opposition to the proposed development . One of the points made in my previous email was stating the amount of gas stations and grocery stores within a 3-mile radius of the Deer Valley and Black Mountain intersection. I mentioned 11 gas stations within a 3-mile radius, but the correct number is **12 gas stations**.

It was brought to my attention that Gammage and Burnham met with the residents of Sky Crossing shared an exhibit showing the lack of gas stations and grocery store options within a 5-mile radius. They failed to show all the options south of the 101 in their exhibit, which is incredibly misleading. I have attached a map that shows all the gas stations and grocery stores in a 3-mile radius. If you change your search to a 4-mile radius, you find **18-gas stations**. The grocery store options are quite vast as well.

**Grocery Stores included within a 4-mile radius include:**

- Costco
- Walmart
- Target
- Sprouts Market Express
- 2 Fry's
- 2 Albertson's
- Food City

Please take this into consideration when Vestar continues to tell people that Desert Ridge is lacking grocery and gas station options. It's simply not true. Our neighbors do not want this development to be built. We all live in the residential superblock portion of Desert Ridge. If we wanted to live within walking distance to restaurants, we would have moved closer to Desert Ridge Marketplace. This isn't for the residents of Desert Ridge. They're looking at this parcel because they want the traffic from the 51.

Thanks,

**Dan Richards**

---

Please do not rezone. My kids go to Pinnacle High School and this is a stupid idea. There is enough traffic there now. Please do not let Vestar come in. We need that land to stay undeveloped.

Thank you.

As someone who lives in the area and drives that intersection every day, I fully oppose this re-zoning. Traffics is already a mess in the mornings and afternoons.

I would love to have a grocery store in the area but that location is awful.

Warmest Regards,
Kathy Green

| **Subject:** | Vestar Development Amendment and Zoning Requests for Superblock 12 in Desert Ridge |
| **Date:** | Sunday, September 24, 2023 2:12:13 PM |

To All Concerned With This Issue:

I recently attended a Desert Ridge Community Association meeting in which representatives for Vestar presented a rough sketch of their development plan for approximately 20 acres carved out of Superblock 12. Listening to them, one would surmise that this development was for the benefit of our neighborhood. They discussed a neighborhood grocery store, some small retail businesses, and dining options. A rather straightforward design, you might think. What Vestar's rep didn't mention was the inclusion of a gas station, fast food drive-throughs, and even a city bus stop. A plan that sounded innocent enough at the time now begs the question of how a development such as this would impact our neighborhood.

Vestar wants to rezone Superblock 12 from an R-2 residential designation to a C-2 commercial designation. With this rezoning would come a commercial development, such as Vestar's, right at our back door. There are many troubling issues associated with this proposal. I am limiting my comments to the environmental impact that Vestar's proposal would have on our community.

One of the most significant pollutants of our environment is gas stations. For instance, during fueling, toxic compounds such as Benzene (a known carcinogen), Ethyl Benzene, Toluene, and Xylene (BTEX) are released into the air. Likewise, these same compounds will pollute the air when there is leakage from the storage tank vents. Spills from fueling and spills from emptying tanker trucks can occur, causing soil, groundwater, surface water and air contamination. Even idling engines of vehicles contribute to air pollution with the release of harmful chemicals, gases, and particles. Add to this the road noise associated with an overwhelming number of vehicles driving in and out of the gas station and one must conclude that gas stations are one of the most significant polluters of our environment.

Grocery stores and fast food restaurants are right behind gas stations when we consider the extent to which they pollute the environment. The average grocery store emits almost two tons of carbon dioxide from the electricity and natural gas that it uses each year. In addition to that, grocery stores and fast food restaurants generate tons of litter and garbage yearly. Proper disposal of these then becomes a major issue. If strict guidelines aren't followed, we are then dealing with air and soil pollution, in addition to the environmental issues posed by rodents and other pests attracted to the area. Another concern is the amount of traffic generated by these businesses. Their customer traffic, their delivery trucks, and their trash collection vehicles make a substantial contribution to both noise and air pollution. Lastly, it is not surprising that air pollution is the direct result of food preparation.

With the kitchen exhaust fans we have the release of organic aerosol into the environment. With grills, stoves, and ovens we have the release of formaldehyde, carbon dioxide and carbon monoxide into the air. Naturally, these airborne particulates are inhaled by everyone nearby. With ongoing exposure, these particulates can be extremely harmful to individuals. This is especially true for asthmatics and individuals dealing with long-term breathing problems such as COPD.

It is obvious that the environmental impact of Vestar's proposed development would not be limited to noise, air, soil, and light pollution. Their proposal would guarantee both traffic pollution and people pollution, as well. Is it fair to assume that crime in our neighborhood would not be far behind, if Vestar's proposal were to be approved?

The negative impact that Vestar's commercial development would have on our neighborhood far outweighs any benefits of a grocery store, a gas station, and fast food restaurants. With these services and many more just minutes away in the Desert Ridge Marketplace, we don't need them in our own back yard.. We must keep Superblock 12 zoned R-2 Residential, as it was originally intended.

Please say NO to Vestar.

| Traffic during school pickup/drop off and rush hour is already stressing the traffic flow in this area. The traffic associated with a big box retailer would make this intersection/area much worse. |

**Dear Anthony,**

I am writing to let you know I'm very concerned with the new zoning up for approval. reference case numbers below.

This zoning in my opinion is way to close to Pinnacle High School. The traffic is already so congested with the onramp of hwy 51, and with new drivers (young from the high school) potential accidents would be a huge concern.

I vote NO for the new commercial zoning.  It needs to stay residential

Case No. SPA-DS1 V-2-23-2, Case No. CPA-DSTV-3-23-2 and Case No. 1-39-23.

Thank you, Jennifer Garcia

| **Date:** | Monday, September 25, 2023 8:07:45 PM |

Hello,

I'd like to document my opposition to the rezoning of superblock 12. I am a homeowner across the street at 3609 E Cat Balue Dr Phoenix AZ 85050 and do not want to see this area rezoned for commercial use. Here are the case numbers:

**Case No. SPA-DS1 V-2-23-2, Case No. CPA-DSTV-3-23-2 and Case No. 1-39-23.**

Thank you,

Jayme Mesecher

Reference : Case No. SPA-DS1 V-2-23-2, Case No. CPA-DSTV-3-23-2 and Case No. 1-39-23.

Hello Sir,
This is regarding rezoning of superblock 12 - Case No. SPA-DS1 V-2-23-2, Case No. CPA-DSTV-3-23-2 and Case No. 1-39-23.

I am a resident of the Fireside community in Desert Ridge. I would like to voice my concerns on rezoning superblock 12.

Rezoning to commercial would change the neighbourhood characteristics to be less desirable and affect the peace and quiet of the Fireside community. We already have sufficient access to grocery and other businesses within a couple of miles in multiple directions.
If rezoning is still being considered, I would be for restricting the hours of operations of the commercial establishments to be before 10pm (or restrict it to such types of establishments). And not have other establishments like gas stations that tend to operate very late in the night.

Thanks,
Thejas

**Date:** Monday, September 25, 2023 4:24:16 PM

---

My family wanted to weigh in on the proposed black mountain village project.
We are Opposed to the building of a gas station, grocery store, or any large project that will increase traffic, crime, and accidents.
A nice restaurant or 2 would be great,  but Vape shops, Liquor stores, Pawn shops and gas stations do not help wonderful neighborhoods like Aviano.
Thanks.

Hello,

Please consider this email my vote and my wife's vote in opposition of rezoning the area for commercial use. It is too close to the schools in the neighborhood. Desert ridge shopping complex is not that far. We don't need another complex here. Also, the traffic for drop off and pick up to Pinnacle and Fireside schools is already backed up. A commercial complex will further complicate traffic and lead to traffic mishaps.

Please NO.

Sincerely,
Dr. Uppalapu and Dr. Veeranki

Anthony,
My spouse and I are very excited about the proposed project at the above corner. We badly need a second option for groceries. This additional competition will be great for the residents of Desert Ridge. It will also increase property values. Hope this project is approved and ground is broken soon.

Hi there,

I am a resident near the proposed zoning change at the intersection of deer valley and black mountain. I support the zoning change to a small commercial to allow for a small grocery store/retail shop/restaurant. Ideally a small grocery store like trader Joe's would be ideal. Encourage bistros like Panera/chipotle or a local business to setup shop. Bike friendly lanes and bike locks with shaded/mature trees around stops would enhance the experience. Future growth for a public library adjacent would serve the area well.

Thank you
Nahian Latif
Local resident

Hi Anthony,
I just wanted to express my support for this project. I live in Fireside and would love to have amenities closer to my house without having to go to Desert Ridge.

Thank you,

Riley Dresser

Just voicing our opinion for what it is worth.
We are not against the rezone. But we are against a gas station and drive thru fast food. Additionally if this is rezoned, there must be traffic modifications on Black Mountain. My kids do not attend pinnacle but we get stuck in the backlog daily and this is without additional people entering or exiting a shopping plaza.

We hope the city listens to the citizens.

Mr. Grande,

I am sending this e-mail to indicate that I am **IN FAVOR** of the proposed development. You are likely to see a bunch of people trying to complain, and my guess is that those people will try to drown out the people who do want the project. I would strongly prefer if there was no gas station, but I understand the realities of the situation. To the extent there is a compromise, I would suggest no gas station.

---

Hello Mr. Grande,

I am writing to you regarding the Black Mountain Village project on the corner of Deer Valley and Black Mountain Dr. I am a resident of the Sky Crossing neighborhood directly across from the proposed project. I welcome the zoning change from residential to commercial with a few stipulations.

1. No gas station. It will increase loitering, traffic, and light pollution in the neighborhood.

2. Grocery store must be a smaller, neighborhood grocery store (Trader Joes, Sprouts, Whole Foods). A large Fry's or Albertsons type store would not fit into our residential area, especially since there is already an Albertsons in Desert Ridge and on Cave Creek.

3. The businesses must be in line with the demographics of the neighborhood. Desert Ridge and Sky Crossing are neighborhoods with high end homes. We need high end businesses, shops and restaurants that would enhance our community and not degrade it like a large grocery store and gas station would. This would also hopefully include appropriate lightscaping and landscaping, so the business park blends into the desert area that we all bought houses here for. We moved here because it was a quiet, residential area and we do not want to see it turn into another corner of concrete, traffic, litter, and loitering.

Thank you for your concern and I look forward to hearing about the next steps of the project.

Shawn Kline
Sky Crossing Resident

**Subject:** Zoning Changes Near Black Mountain and Deer Valley RDs
**Date:** Monday, August 7, 2023 4:32:42 PM

---

Hi,
I'd like to suggest a compromise for the city to consider regarding the parcel near Black Mountain and Deer Valley Rds. I agree we need more shopping in the area, however this is still a large residential neighborhood and I'd like the city to consider putting some restrictions on the new zoning, similar to what many shopping centers in Scottsdale have done.

Please consider rezoning with conditions including:
a maximum size for the grocery
prohibiting gas stations
dimmer lighting
larger landscape setbacks
shaded walking and bike paths
ample outdoor dining spaces

These conditions would still allow a company to develop the land, while also keeping it as close to a neighborhood feel as possible.

Thank you for your consideration.

Lisa Abrams

I am currently building a home in Desert Ridge and am extremely supportive of additional retail and commercial opportunities in this area. Desert Ridge Marketplace is hugely successful, but that comes with a convenience fee for people who actually live in the area. Additional options for groceries, restaurants and neighborhood retail on a smaller scale would actually serve the needs of people who live in and around the area, and an additional option to avoid the traffic and crowds of Desert Ridge Marketplace that has become a destination shopping center. My understanding is that the current entitlements would allow for additional housing units. While I am moving to the area and think that housing is important, the opportunity to have additional retail and commercial as a future homeowner in this area is exciting and would seem to actually serve the needs of the people that already live and are actively building homes there. Thanks for your favorable consideration of the requests.

hi, I guess people are saying to contact the planner about this development and that's you I guess? anyways, this is great news. we need more commercial in this area. it's a major intersection and just what should be happening here. I'm emailing because I'm sure people will complain. because that's what people do. and usually, the most vocal are the minority. I want to make sure you guys know that there are plenty of people excited about this happening. but will probably never attend a meeting or voice their excitement, because people usually only do that when they complain. so if you need anybody to point to in the community that has no vested interest at all, that is excited and 100% in favor of this, that would be me. thanks and good luck with the complainers

As a resident of Desert Ridge for over 3 years, I am excited for the opportunity to have additional options for groceries, restaurants and neighborhood retail in the area. This area has seen a lot of residential development in the past 5 to 10 years, but there has been a lack of additional commercial development. However, I don't want to see this site end up as another huge big box store (like a Wal-Mart) for several reasons. For one, we have a Target and other big box stores at Desert Ridge that fill that need. Second, it might cause too many traffic problems at the site and the surrounding area. I think this site should focus on a smaller, high quality grocery store and related restaurants and commercial uses. I would be in support of a square footage cap to prevent any big box stores from going in and to promote the possible attraction of a Sprouts or Trader Joe's type grocery store.

Mr. Grande,

My family and I are residents of Sky Crossing, and I am writing in support of the re-zoning of the land proposed for Black Mountain Village.

To say I am disappointed in my community members who oppose this project is an understatement. Apparently others do not care about growth and development of a neighborhood. Apparently others do not care about their property values increasing because of convenience. Apparently the principal of Pinnacle High School is urging us to protest the re-zoning, and because the school cannot figure out how to manage the flow of kids arriving to school, they are using this development as a scapegoat.

Granted, while I love the concept of the development, I do oppose the gas station idea unless it is only a gas station without a convenience store. Convenience stores, no matter the location, seem to draw people out of the woodwork. I don't know what latitude the city has to stipulate the details of the plan, but that would be my request as a resident.

I do plan on attending the October 3rd meeting, but will all those in attendance have the opportunity to vote on the decision?

Looking forward to the meeting.

Thank you,

Scott Corwin

Hello,
I am a resident of Sky Crossing and wanted to write to share my thoughts as I have seen a lot of chatter in the Sky Crossing community FB account.
I am not opposed to a smaller shopping mall with a small grocery store and food/coffee options. Nice mall like Gainey Ranch or DC Ranch. I would be opposed to a gas station as I believe it will bring traffic from the freeway, not community members. As well as the noise of refueling trucks.
Just wanted to share my thoughts - commercial property yes; as long as no gas stations are included.
Thank you,
Cecilia Martin

Anthony,

I hope you are enjoying your Friday! I wanted to reach out as your email was provided by a neighbor in Sky Crossing as a point of contact on this proposed project.

I live in one of the homes that backs up to Deer Valley and to the piece of land which is being submitted for rezoning from Residential to Commercial.

I actually love the idea of having a retail center on the plot of land - I absolutely hate the idea of a gas station being part of the project, especially on the North side of the project as it would be the first thing I would see out of my back window. I can tell you that opinion within the neighborhood on the Sky Crossing Facebook group seems to be split 50/50. One thing, however, that seems to be consensus - nobody wants a gas station as part of the project.

I am in the mortgage lending world, and I can share that if a gas station is placed at the very northern edge of the parcel, it would render the homes on the other side of Deer Valley unlendable for certain mortgage products, which seems incredibly unfair to the folks who bought homes here 3 years ago none the wiser to future changes that might occur.

I would stand firmly against a gas station, but would support a well designed retail center that would serve our community. I have lived in Desert Ridge for the last 15 years, and the project seems very exciting if done correctly.

Please feel free to call my cell below if you would like any further input or have any questions.

| I’m for no gas station, as we have had a big increase in homelessness in north Phoenix in the last couple of years as a gas station will increase homeless presence. A small grocery story like sprouts, Aldi, or Trader Joe’s will be nice as these stores typically don’t attract homelessness and close at a decent hour. |

Anthony,

Hope all is well. I live in Sky Crossing and want to make you (and the other city planners) know that my family supports this new development. This area continues to grow and we need more amenities like another grocery store, etc.

I can tell you that the FB group for my neighborhood gets all fired up about every little issue and this is no different. People are clearly frustrated about pinnacle traffic at 7am… can't imagine a grocery center is going to have a ton of extra traffic at that time. They seem to be forgetting the convenience + likely property value appreciation by having more amenities within walking distance.

I support this development and from what I can tell, Vestar seems like a very reputable firm with a great track record of great shopping centers.

Apologize in advance if you are getting many emails very different from this one. Appreciate all that the city does!

-Jimmy

| I support the proposal but would like it without a gas station. Perhaps we can do some kind of awesome charging station with higher end convenience store. Also, no Walmart or Walmart market…an AJs or Trader Joe's or even a frys would be fantastic. |

I just wanted to let you know that as a Aviano resident I am very happy to hear about this development. I would welcome a grocery store, a coffee shop and other retail, and hopefully also getting dust under better control once the construction is done. So, good luck and keep us posted.

I do want to request that some thought be given to control of any petty crime that may arise from this development as there will be increased activity in the surrounding areas.

Hi Michelle,
Nice talking to you today. My spouse and I are very excited about the proposed project at the above corner. We badly need a second option for groceries. This additional competition will be great for the residents of Desert Ridge. It will also increase property values. Hope this project is approved and ground is broken soon.

Hi there,

I am a resident near the proposed zoning change at the intersection of deer valley and black mountain. I support the zoning change to a small commercial to allow for a small grocery store/retail shop/restaurant. Ideally a small grocery store like trader Joe's would be ideal. Encourage bistros like Panera/chipotle or a local business to setup shop. Bike friendly lanes and bike locks with shaded/mature trees around stops would enhance the experience.  Future growth for a public library adjacent would serve the area well.

Thank you
Nahian
Local resident

**Subject:** Sky Crossing Resident / Black Mountain Village

Hello,

I am a resident of Sky Crossing and very in-favor of this proposed development. For what it's worth, the community seems overly concerned about 1) the additional traffic around Pinnacle high school at drop off and pick up, 2) the potential for a gas station and 3) the "aesthetic" of the project.

For me, this seems like a no-brainer given we need a grocery store + other amenities (this helps our property values). I look forward to attending the town hall on Tuesday

Thanks,
Jimmy

| **Subject:** | Aviano resident FOR commercial rezoning |
| **Date:** | Saturday, September 9, 2023 9:10:41 AM |

Hello Anthony,
I am a resident that is beyond excited about the potential rezoning near Pinnacle HS! I am shocked by the negative response being organized by some here in Desert Ridge. We DESPERATELY need more commercial businesses to support the homes/community that are already here. It is horrendous that we only have ONE grocery store and ONE gas station and ONE fast food restaurant for this many homes in one area- and there are many more homes still being built. One of the biggest complaints by people is that these businesses will bring in crime and homelessness. Well guess what?! It's already been moving in and the problem isn't businesses. The problem is that we have voted in a mayor who is SOFT on crime and our police force is over worked, under staffed and under funded. Commercial businesses are what we NEED!!

We have lived in Aviano for 14 years and had already been saying for several years that we hoped businesses would develop somewhere along this stretch of Deer Valley. We were so excited to hear about this proposal and couldn't be more disappointed or disheartened by how "noisy" the ones against this have been. We truly hope they don't ruin this much needed opportunity for growth in our community.

**Date:** Saturday, September 9, 2023 8:16:54 AM

---

Hi Mr Grande,

My name is Martina McConnon, I live in the Fireside community and have been hearing about the planned rezoning & possible shopping area coming to Black Mountain next to Pinnacle High School. Just wanted to let you know that our family would very much welcome a grocer like Trader Joes or Sprouts to get that spot. We do not need more fast food options as we have plenty in Desert Ridge. But another grocery store would be great, especially a healthier alternative to Albertsons.

Thank you!

| **To:** | Anthony M Grande |
| **Subject:** | Support for Black Mountain Village Project |
| **Date:** | Saturday, September 9, 2023 11:19:25 AM |

Mr. Grande,

I am a resident of the Sky Crossing community, and am writing this email in support of the rezoning of Vestar's proposed Black Mountain Village project. For the planning committee's consideration, I want to offer some thoughts about the project:

1. Traffic - I have seen a lot of input from community members opposing the rezoning because of traffic concerns. If it is eventually developed into homes, that'll be another 20+ single family homes built. If it's developed into townhomes, it'll be another 400 units. If it'll be developed into apartments, the number of residents will be even higher. Regardless of the outcome of residential development, residential development will also create more traffic for that area. Those those oppose the rezoning to commercial don't seem to offer that as a consideration. Some/any level of additional residential development will further congest DRM. The Vestar development of this land at least offers additional shopping and dining options, which I would hope offloads DRM to some degree. I see that as a positive. However, I would hope the City would partner with Vestar to assess entrance and egress points, especially during the morning when PHS students are driving or being dropped off. I do agree it'll create more traffic at certain points of the day, so I would hope that is already on the docket to evaluate.

2. Types of businesses on the property - I would ask the planning committee to not support a gas station with a convenience store. I would rather have a gas station alone, like Costco, with limited hours. A convenience store option will likely cause more harm than good, in terms of the people who would be shopping or loitering at the store.

3. There are many concerns about noise from residents in my community and the community to the immediate east of the proposed development. My house is located 5 houses Black Mountain Boulevard, and we are objectively closer to the proposed development than 60% of Sky Crossing. In the two+ years that we've lived in this community, I've never heard any noise from BM boulevard. I can't even hear the football games at Pinnacle High School. I've seen many people via our community's Facebook and Desert Ridge's community Facebook groups share this concern as a reason to oppose the development. How can people 2-3 miles away complain about noise when noise present no impact to them today? Rhetorical question, but people are grasping at straws.

Overall, while this proposed project is not by any means perfect and there are some legitimate concerns (like traffic), additional commercial development for this area will be a boost for property values, tax revenue, economic growth, and some level of job creation. I strongly, strongly support this rezoning in favor of the Vestar development.

Thank you,

Vanessa Corwin

Not sure if this is the right forum but I am writing to add my FULL SUPPORT for this project.

I live in Aviano and would love to have a coffee shop and a grocery store within walking distance. The land will definitely go the apartment route if left alone for long. Can't build more than 6-7 houses in the lot. Can't imagine anyone preferring that to a neighbourhood market. I am definitely for it for environmental as well and logistics reasons.

Thank you

Mr. Grande,

I am sending this e-mail to reaffirm my position that I am **IN FAVOR** of the proposed development. I attended the information session by the developer and Gammage and Burnham at Sky Crossing yesterday evening, and I was impressed with what Vestar was agreeing to do as far as infrastructure in and around this proposed project. If this project is denied, I do not see a residential developer agreeing to do what Vestar is agreeing to do. Nevertheless, although I do not pretend to be a traffic engineer, I believe that it makes sense to have a light at 34th street and Deer Valley. This is even though there is a light nearby at Deer Valley and Black Mountain. Again, I am not a traffic engineer, but it seems to me as a layperson that 75% of Sky Crossing traffic would be inclined to head west down Deer Valley and enter Sky Crossing at 32nd Street and/or Sky Crossing Way. I suspect that a lot of people who live around Cave Creek and Deer Valley would also prefer to have a light at 34th Street. This is something to consider. Again, I am **IN FAVOR** of the proposed development.

-Adam

Mr. Grande,

I am sending this e-mail to indicate that I am **IN FAVOR** of the proposed development. You are likely to see a bunch of people trying to complain, and my guess is that those people will try to drown out the people who do want the project. I would strongly prefer if there was no gas station, but I understand the realities of the situation. To the extent there is a compromise, I would suggest no gas station.

from the sounds of it, you're getting obliterated with negative comments about this. just wanted to make sure you know many of us here approve of this project. we were promised for years we'd be getting a second grocery store. the people complaining are mostly people that have been here only a year or 2. many of them back the major roads to this. this has 2 major roads and leads to the interstate. and backs a high school. should the rest of the community be deprived of this development because they bought houses that back these major roads? I don't think so. I've been here since 2009 and have always known there was commercial coming. anyways, thanks for hearing me out.

**From:** Robert Berto
**To:** Anthony M Grande
**Subject:** Rezoning near Pinnacle High School
**Date:** Friday, September 15, 2023 8:28:08 AM

---

I just would say not all residents in this area are opposed to finally building on land that looks like a deserted field that has not been maintained and does not align with the atmosphere of surrounding homes in the area. Finally something can be put in place with some amenities north of the 101.

I do have a question though.
Is there a plan to build anything north of Pinnacle Peak and Black Mountain? This land as well looks like overgrown weeds that have not been maintained.
Not only that, but it is a dark busy road on Pinnacle Peak. Wildlife darts out from the side of the road and could pose a risk to drivers trying to avoid hitting a coyote chasing a rabbit. I know from experience. I drive it multiple times a night.

I look forward to seeing more commercial establishments that will help the community that continues to grow.

I just wanted to give some input as I live in the area and my son goes to Pinnacle High School.

Thank You,
Robert Berto

| Hey Gammage and Burnham - these silly Facebook groups are not a good idea. I actually like the idea of Black Mountain Village, but having a law firm with no vested interest in the neighborhood aside from the development being approved creating a Facebook/Instagram group to drum up support for the project makes your law firm look absolutely desperate, pathetic, and borderline deceptive. Please discontinue this type of advertising. |

Definitely in favor of the commercial development on Black Mtn and Deer Valley. Closer grocery store (maybe gas too?) retail restaurants (a coffee shop) would be awesome. Right now we have to go to desert ridge and it's too trafficked. Also, growing up and in High School eating at our local restaurants nearby school was a huge part of the community experience and right now I fear that doesn't exist. As long as it's thoughtful re: loitering and lighting and traffic there really isn't a downside here at all. Hope we can get this approved!!

As someone that has live near this area since 2011, I am excited for the potential to build more commercial stores, including a grocery store other than Albertsons nearby. Our only nearby options for this is Desert Ridge which is getting ridiculously crowded now that Sky Crossing exists. It's funny that I see them as the ones complaining, but we were all very opposed to more residential homes in that area for two reasons. 1 - it made things even more congested and 2 - now our school boundaries risk being redrawn. I purchased land at cave creek and deer valley for Pinnacle High, now the extra residential growth is putting our ability to attend that school in the future at risk.

I do NOT want more residential homes at the corner at Black Mountain and Deer Valley. Commercial property is what I would love to see. It would also create more jobs for our area, especially the older teens / young adults.

This area is in desperate need of additional shopping. The traffic is way too congested at Tatum and Deer Valley. It's also a safety issue for our teens that have to cross Tatum or Deer Valley to get to the only shopping at Desert Ridge Marketplace. The business revenue for City of Phoenix would be substantial as multiple businesses are ready to expand to this area. Another grocery anchor is what we really need. Our options are very limited especially with the expansion off of 56th St. And Deer Valley.

Black Mountain Village is a much needed addition for Desert Ridge residents. Albertsons needs competition and the current mall is already too congested. I don't shop there because the ingress and egress are so terrible.

With thousands of new residents coming to Desert Ridge in at least four apartment complexes, new condos and Talin additional shopping options are absolutely necessary.

| It would be very beneficial to build a Trader Joe’s at Deer Valley Dr and Black Mountain Pkwy. This area is saturated with customers and shopping. However, having more grocery options gives people more choices. Having a Trader Joe’s also appeals to a younger audience and is highly desirable. |

To begin with, the proposed development will be closer to where our family lives than Desert Ridge Marketplace. Sometimes, one just needs to make a really quick dash to the store to make a much-needed quick family dinner, when running late.

I also appreciate the Fuel Station - again for the convenience of proximity when one needs to get the kids to school or get oneself to work.

If the following stores (Trader Joe's, Whole Foods, Fry's, Sprouts or Safeway) were brought closer to the Desert Ridge residences, it would be a big plus as we usually travel little longer to one of their locations.

In summary, proximity, quality and variety of options, are key for my family and I.

I would love a neighborhood shopping center catering to the local community as getting in and out of Desert Ridge Marketplace can be quite congested. I prefer a smaller grocery store like a Trader Joe's over a larger store like Fry's. I am opposed to having a gas station in station the complex. Based on my discussions with people in the community if the shopping center had Trader Joe's and no gas station more people would support the development.

I love this idea and have been waiting for news on its development.

Going to desert ridge marketplace is a pain in the butt for the essentials, it will be nice to have a place that is much closer. It’s a huge win for people who want to bike and walk too.

I think the developers can secure a big win if they scrap the gas station idea. I also think having a left hand turn option on 34th street would be a big win.

I also think you should include more studies on how convenient/walkable areas like this improve properly values.

Many of the naysayers also site traffic, however for most residents of SC it’s a net win since they will drive less to DRM. The safety concerns are also silly cuz there’s already traffic, and the new improvements will actually make it safer.

Boulder creek at desert foothills subdivision

**Support Comments**

I think this proposed plan adds value and convenience to the north Phoenix area. With the growing number of houses going up and no new stores, especially grocery, going up, this will be a positive and impactful addition to our neighborhood. We don’t want more houses or apartments crammed together. We want something that will actually be of use in the day to day life.

| As senior living in the area, having a new neighborhood grocery store would help me to age in place in my current home. Currently I live more than 5 miles away from any grocery store. |

Subject: Support for Black Mountain Village Project

Mr. Grande,

I will not be able to attend the meeting on October 3 but write to provide my strong support for the Black Mountain Village rezoning project. As a homeowner in the Sky Crossing community I view this project favorably. It will be a good use of the land and provide homeowners in the surrounding neighborhoods with options not found in the immediate vicinity. I would much prefer a commercial rezoning to a multi family project and believe those opposed may be not realizing other potential and less favorable uses for the land.

As a former member of the PV Village Planning Committee, this project has my full support, and I urge the committee to vote to approve on October 3.

Thanks,

Aaron Lloyd

Hello,

I strongly support this project as a neighbor in the Sky Crossing community. I believe the project will be an asset to the neighboring communities, provide additional services not found in the immediate neighborhood, and be a good use of the land. I strongly recommend that the planning committee approve the project at the upcoming meeting!

Thanks,

Aaron Lloyd

| The ability to walk to a grocer can greatly reduce the traffic strain that is clearly obvious in front of Desert Ridge Marketplace. The more walkable the surrounding neighborhoods, the cheaper and less deleterious the use of cars becomes. |

| A grocery store is badly needed and the Desert Ridge area with all the new apartments and homes being built and only Albertsons available within a few miles. I totally support a grocery store at the southwest corner of Deer Valley and Black Mountain |

| My support for this development is contingent upon 3 things:<br>1. Grocer is guaranteed to be Sprouts, Whole Foods, or AJ's<br>2. No gas station, given the above grocers don't do accessory stations.<br>3. Lighting plan is implemented to be similar to lights at the Shops at Gainey Village. |

Hi,
I know you are probably inundated with notes about the development on BMB and Deer Valley. Thank you for taking the time to consider all of the suggestions.

I support a form of development with limitations. I would strongly support a C-1 designation (rather than the proposed c-2) with no gas stations or fast food drive through pads. I support a true neighborhood community commercial development.

The area immediately surrounding this parcel has homes worth over a million dollars and I think Vestar made a tactical error by trying to build too much on the property. The current proposal isn't aligned with the 'feeling' of the immediately surrounding neighborhood, which is quieter, more residential, and further from the Desert Ridge core. If a more modest commercial development was proposed, I think it could make a positive difference in the community and be better received.

Thank you again,
Dan Oseran

RE: Case# Z-39-23 Black Mountain Village

Dear Mayor and Council Members:

I am a nearby Aviano resident, and I am writing to express my SUPPORT for the proposed new commercial development located at the southwest corner of Deer Valley Drive and Black Mountain Parkway. This area is in desperate need of more neighborhood amenities to serve the community. A grocery store at this location would be an especially welcome addition to the neighborhood as well. I have seen the plans and believe this will be a quality project.

I urge you to support this request!

Sincerely,

Robert Adams

RE: Case# Z-39-23 Black Mountain Village

Dear Mayor and Council Members:

I am a nearby Aviano resident, and I am writing to express my SUPPORT for the proposed new commercial development located at the southwest corner of Deer Valley Drive and Black Mountain Parkway. This area is in desperate need of more neighborhood amenities to serve the community. A grocery store at this location would be an especially welcome addition to the neighborhood as well. I have seen the plans and believe this will be a quality project.

I urge you to support this request!

Sincerely,

[illegible]

I will strongly support a Trader Joe’s store .
We don’t have any of those close by and I’m sure it will be the best since we have 3 other ones you mention already and close by too .
Thank you !

RE: Case# Z-39-23 Black Mountain Village

Dear Mayor and Council Members:

I am a nearby Aviano resident, and I am writing to express my SUPPORT for the proposed new commercial development located at the southwest corner of Deer Valley Drive and Black Mountain Parkway. This area is in desperate need of more neighborhood amenities to serve the community. A grocery store at this location would be an especially welcome addition to the neighborhood as well. I have seen the plans and believe this will be a quality project.

I urge you to support this request!

Sincerely,

ROBERT L. REFUERZO

**Support Comments**

I am writing the comments below to support Vestar's proposal to develop the 20.5 acres of Property located at the southwest corner of Deer Valley Drive and Black Mountain Parkway as a retail shopping center called Black Mountain Village.
I believed the new grocery store will have the following benefit:
1.Local Economic Growth
2.Convenience and Accessibility
3.Community Gathering Place
4.Environmental Sustainability

Anthony—

It amazes me that the applicant would want to put in a shopping center of that magnitude only 2.5 miles from Desert Ridge. Why isn't the currently designated 2-5 du/ac housing more important than changing the General Plan to provide Commercial?

Marcia Busching

**Subject:** Review & Comment on General Plan Amendment in the Desert View Village (GPA-DSTV-2-23-2 & GPA-DSTV-3-23-2)

Attached for your review is an amendment to the General Plan for Phoenix that has been filed:

**DESERT VIEW VILLAGE**
Application **GPA-DSTV-2-23-2** at the southwest Corner of Black Mountain Boulevard and Deer Valley Drive. Request for a Map Amendment to change the General Plan land use designation on approximately 20.5 acres from Residential 2-5 du/acre (20.5 acres) to Commercial (20.5 acres) to allow commercial land uses.

Application **GPA-DSTV-3-23-2** at the southwest Corner of Black Mountain Boulevard and Deer Valley Drive. Request for an amendment to the Desert Ridge Specific Plan Section 6.C.5, Superblock 12, Parcel 12.L.

These applications are proceeding concurrently with a rezoning request (Z-39-23-2) for the same property, approximately 20.5 acres from S-1 (Approved R1-6 and R-2) to C-2 to allow a commercial shopping center.

Please forward your comments prior to **August 22, 2023** to:

| **Subject:** | Input re: requested rezoning E. Deer Valley Dr/Black Mountain Blvd near Pinnacle High School |
| **Date:** | Monday, August 14, 2023 5:05:46 AM |

To: Anthony Grande, Planner, City of Phoenix Planning & Development Department
Cc: Mr. Jim Warring, Councilman – District 2, City of Phoenix

Good morning gentlemen,

My wife, Mary, and I recently purchased a home in the Sky Crossing neighborhood immediately north of the proposed rezoning on E. Deer Valley Drive and Black Mountain Boulevard near Pinnacle High School (Desert View Village GPA-DSTV-2-23-2). We are excited to become active members of the community and have been impressed by how the City of Phoenix has thoughtfully managed development. We understand that the proposed rezoning transitions the parcel from residential to commercial, and while we don't object to the rezoning of the parcel we do have a number of significant concerns.

First, we understand that proposed development plans include the construction of a gas station on part of the parcel – we would like to express our strongest reservations as to the inclusion of a gas station within the final plan given the traffic it is likely to draw, the likely extended hours of operations including intrusive late-night lighting in the area, and the environmental impact. There are nearby stations located both at E. Deer Valley Drive/Cave Creek and at E. Deer Valley Drive/Tatum which should more than suffice to address local demand.

Second, the area already deals with significant traffic challenges associated with ingress/egress to Pinnacle High School. Any rezoning and associated development should be coordinated with the traffic needs of the high school both to mitigate impact to overall traffic flow and to enhance safety in a high traffic area. As development continues north of our community, confident that the AZ-51 access point will only see increased traffic volume – plans should be made to address not only existing traffic due to the high school but increased traffic due to the proposed redevelopment.

Third, we have been made aware of increased random acts of violence associated with late night hours at Desert Ridge Marketplace and we don't wish to see those issues brought closer to our community. Should the rezoning be approved, we would ask that conditions be placed on the hours of operations for tenants to minimize late night traffic to the property (preferably no later than 9pm) and that coordination be pursued with the City of Phoenix Police Department to ensure appropriate police resources are dedicated to the area.

We understand the importance of continued development across Phoenix and believe that reasonable accommodations can be made that both permit development while addressing resident concerns. Thank you for providing us the opportunity to voice our concerns.

Warmest regards,

Paul & Mary Bierbusse

| There is an existing parking problem at Pinnacle HS that needs to be solved before the development of retail center. At 6pm last night, there were 200 overflow cars in desert on future retail center site. AZ State Land, PVUSD and possibly retail developer need to solve problem first. Perhaps retail center purchases extra 5 acres and delivers to PVUSD west of retail? |

VILLAGE PLANNING COMMITTEE

# Village Planning Committee Meeting Summary
## GPA-DSTV-2-23-2

| | |
|---|---|
| **Date of VPC Meeting** | October 1, 2024 |
| **Request From** | Residential 2 to 5 dwelling units per acre |
| **Request To** | Commercial |
| **Proposal** | Commercial uses |
| **Location** | Southwest corner of Black Mountain Boulevard and Deer Valley Drive |
| **VPC Recommendation** | Approval |
| **VPC Vote** | 9-2 |

**VPC DISCUSSION:**

*Item No. 4 (GPA-DSTV-2-23-2), Item No. 5 (GPA-DSTV-3-23-2), and Item No. 6 (Z-39-23-2) are companion cases and were heard together.*

*Fifty-two members of the public registered to speak on this item, 18 in opposition, 34 in support.*

*Twelve members of the public registered in opposition, not wishing to speak.*

*Twenty-six members of the public registered in support, not wishing to speak.*

STAFF PRESENTATION
**Anthony Grande**, staff, provided an overview of the location of the subject site and the surrounding area, the proposed amendments to the General Plan Land Use Map and the Desert Ridge Specific Plan, and the rezoning request. Mr. Grande further described the proposed development, the correspondence received from the public, and the staff recommendations on all three cases, including recommended stipulations for the rezoning case.

APPLICANT PRESENTATION
**Ashley Marsh**, representing the applicant with Gammage & Burnham, PLC, provided a presentation, highlighting the work the applicant has done with the community since the last meeting and the aspects of the proposed development that have been modified. **Ryan Ash** with Vestar provided an overview of the company and the project, including the process of deciding on the subject site for this project. **Dawn Cartier** with CivTech

described the proposed street improvements in the surrounding area and the impacts on the traffic.

QUESTIONS FROM COMMITTEE

**Vice Chair Lagrave** asked about the provision of crossing guards and whether the applicant would be open to prohibiting car washes. **Ms. Marsh** stated that the applicant would provide the crossing guards and would be open to prohibiting car washes.

**Committee Member Israel** asked about the enforceability of the requirements of the Desert Ridge Specific Plan and about the responsibility to street improvements. **Mr. Grande** replied that the requirements of the specific plan are regulatory and would be enforced for any future development at the site and that developers are generally responsible for street improvements on their half of the street.

**Committee Member Younger** asked about auto-oriented businesses. **Ms. Marsh** replied that the zoning would allow what's found in the C-2 zoning use list.

**Committee Member Nowell** asked about drive throughs and the traffic and noise generated from them. **Ms. Marsh** stated that every drive through is different and has to be reviewed through a use permit for each one.

**Mr. Nowell** asked about the timing of street improvements. **Ms. Marsh** replied that all street improvements would need to be done first before development of the site.

**Committee Member Kollar** asked about the bus stop pad. **Ms. Marsh** replied that it would be incorporated for any future bus routes that may serve the area.

**Mr. Younger** commented on the traffic pattern example mentioned at Xavier College Preparatory School and asked if it would be similar here. **Ms. Cartier** replied that these would be more controlled movements because of the medians.

**Committee Member Carlucci** asked about signal timing changes at Black Mountain Boulevard and Deer Valley Drive. **Ms. Cartier** replied that the timing would be adjusted to allow pedestrians time to cross. **Mr. Carlucci** asked about the overall traffic modeling. **Ms. Cartier** provided details of the level of service in several scenarios.

**Committee Member Kirkilas** asked about the size of the grocery store and asked for clarification on the definition of adult uses. **Mr. Ash** replied that the site plan is conceptual and that negotiations will begin after zoning is in place, which will solidify the store size. **Ms. Marsh** provided a clarification on adult uses.

**Mr. Israel** asked about limiting all auto-oriented uses in C-2. **Mr. Grande** explained that individual uses could be prohibited in the Desert Ridge Specific Plan.

**Mr. Younger** asked about the height limit. **Mr. Ash** replied that it would be two stories, 30 feet.

**Mr. Carlucci** asked about the estimated investment in infrastructure for this project and whether prohibiting drive throughs would negatively impact the project. **Mr. Ash** replied with investment details and stated that prohibiting drive throughs would limit many future restaurant options. **Chair Bowser** added that in the post-Covid market, there are many more pick-up windows and drive throughs than before.

PUBLIC COMMENTS

**Ted Weis** introduced himself and spoke in support of the proposal, highlighting that it will provide more options for the area.

**Stephen Applebaum** introduced himself and spoke in opposition to the proposal, stating that it will provide opportunities for bad behavior for students.

**Jackie Zicarelli** introduced herself and spoke in opposition to the proposal, stating that this will only shift where people spend money, and that housing would be more important to building due to the housing crisis.

**Gary Smith** introduced himself and spoke in support of the proposal, stating that Desert Ridge Marketplace is too crowded, and this will provide an alternative.

**Yana Dashevsky** introduced herself and spoke in support of the proposal, highlighting the parking issues at Desert Ridge Marketplace.

**Aimee Sinclair** introduced herself and spoke in support of the proposal, stating that Desert Ridge is growing, and this proposal will make it safer to walk and bike.

**Kristen Cassuto** introduced herself and spoke in support of the proposal, highlighting the parking issues at Desert Ridge Marketplace.

**David Barge** introduced himself and spoke in support of the proposal, stating that he did not like the original proposal but is in support due to the changes Vestar made.

**Allie Lucyk** read a letter from **Geraldine Belafsky** in support of the proposal.

**Roland Ward** introduced himself and spoke in support of the proposal, stating it will provide an alternative to Desert Ridge Marketplace, which is too busy.

**Payton Sinclair** introduced himself and spoke in support of the proposal, stating it would be good to have job opportunities nearby.

**Andrea Remke** introduced herself and spoke in opposition to the proposal, stating she bought her home to be able to safely walk to school, not to have retail neaby.

**Mike Coppola** introduced himself and spoke in opposition to the proposal, stating that it will cause a traffic nightmare.

**Suzanne Sayegh** introduced herself and spoke in opposition to the proposal, stating that this is not a neighborhood shopping center, that stores people are looking for do not want to locate here, and that street improvements would be made by any new development.

**Chris Sinclair** introduced himself and spoke in support of the proposal.

**Allie Lucyk** introduced herself and spoke in support of the proposal.

A member of the public read a letter of support from **Greg Abrams**.

**Justin Popnoe** introduced himself and spoke in opposition to the proposal, stating this will have a negative impact on the nearby schools and highlighting the issue of child trafficking.

**William King** introduced himself and spoke in support of the proposal, stating they expected new retail to be built to accommodate new housing coming in.

**Wouter Roodenburg** introduced himself and spoke in opposition to the proposal, highlighting a petition submitted of people against the proposal.

**Jason Epstein** introduced himself and spoke in opposition to the proposal, stating there are too many unknowns.

**Megan Lloyd** introduced herself and spoke in support of the proposal, stating that having closer retail options is a good thing.

**Ben Butler** introduced himself and spoke in support of the proposal, stating support for additional retail and that Vestar is a good developer.

**Ron Bookholder** introduced himself and spoke in opposition to the proposal, stating the retail center will be regional due to the presence of the SR-51 and that this will be detrimental to the kids.

**Aaron Lloyd** introduced himself and spoke in support of the proposal, stating it will bring amenities to the area.

A member of the public read a letter of support from **Bob Hamer**.

**Layla Saikley** introduced herself and spoke in opposition to the proposal, stating that the area is a quiet, peaceful community.

A member of the public read a letter of support from **Erin Reese**.

A member of the public read a letter of support from **Richard Kovacik**.

**Dan Richards** introduced himself and spoke in opposition to the proposal, stating that he moved to the area to enjoy the distance from retail, that he was told this parcel would be residential, and that the shopping center is not needed.

A member of the public read a letter of support from **Rick Merritt**.

**Ronald Diamant** introduced himself and spoke in opposition to the proposal, stating it will bring in more traffic with the proximity of the SR-51.

**Helen Doyle** introduced herself and spoke in opposition to the proposal, stating that this intersection will end up busier than Tatum Boulevard.

**Neeraj Chandak** introduced himself and spoke in opposition to the proposal, stating that the shopping center will be just as bad as Desert Ridge Marketplace and highlighting the issue of homelessness.

**Irina Butler** introduced herself and spoke in support of the proposal, stating that Vestar did a good job of responding to the community's concerns.

**Linda Miles** introduced herself and spoke in support of the proposal.

**Sara Johnson** introduced herself and spoke in support of the proposal.

**Paul Dunn** introduced himself and spoke in opposition to the proposal, stating that it is spot zoning and should be invalidated, and that the existing allowed use is single-family residential.

**Carolyn Dunn** introduced herself and spoke in opposition to the proposal, playing a video showing the traffic issues around the school.

A member of the public read a letter of support from **Harrison Cole**, stating the need for new commercial development to support the new housing.

A member of the public read a letter of support from **Caryn Marchuk**, stating the peak times are better with retail than with residential.

**Nathan** and **Ilene Friedland** introduced themselves and spoke in support of the proposal.

**Candy Huether** introduced herself and spoke in opposition to the proposal, stating that parking and crime are issues, noting the issue of children crossing the street.

**Robert Miles** introduced himself and spoke in support of the proposal, stating the area is not currently walkable and that this proposal will take vehicles off the road.

**John Norris** introduced himself and spoke in support of the proposal, stating it will enhance the value of the area by providing an amenity.

**Jim Farley** introduced himself and spoke in support of the proposal, stating that Vestar responded to community concerns.

**Greg Collins** introduced himself and spoke in support of the proposal, stating this will provide options for kids and enhance walkability.

**James Tuffin** introduced himself and spoke in opposition to the proposal, stating that people bought homes based on the Desert Ridge Specific Plan and highlighting the issues with drive throughs.

A member of the public read a letter of support from **Bill Knapp**.

**Christian Jacob** introduced himself and spoke in support of the proposal, stating that friendships are formed at spaces like this and that other similar centers provide a safe space.

**Peggy Neely** introduced herself as the former Councilperson for the area and spoke in support of the proposal, stating that Vestar is a good developer and that the project will benefit the area.

APPLICANT RESPONSE

**Ms. Marsh** showed a drone video highlighting the traffic conditions of the area and discussed the history of the Desert Ridge Specific Plan being amended in the past.

COMMITTEE DISCUSSION

**Committee Member Warren** stated a concern about having retail next to the school, adding that he would be supportive if it was in a different location.

**Vice Chair Lagrave** commented about other examples of shopping centers near schools and noted that he was previously opposed to this because of the size of the grocery store and the gas station, which have been addressed by the applicant, adding that he would be supportive with the condition that there is no car wash.

**Committee Member Younger** asked about the bid process and timing. **Ms. Marsh** provided clarification.

**MOTION**
**Vice Chair Lagrave** made a motion to recommend approval of GPA-DSTV-2-23-2. **Richard Carlucci** seconded the motion.

**VOTE**
**9-2;** motion to recommend approval of GPA-DSTV-2-23-2 passed; Committee Members Barto, Carlucci, Israel, Kollar, Nowell, Reynolds, Younger, Lagrave, and Bowser in favor; Committee Members Kirkilas and Warren opposed.

**STAFF COMMENTS REGARDING VPC RECOMMENDATION:**

None.

| | |
|---|---|
| **Date of VPC Meeting** | October 3, 2023 |
| **Request From** | Residential 2 to 5 dwelling units per acre |
| **Request To** | Commercial |
| **Proposal** | Commercial uses |
| **Location** | Southwest corner of Black Mountain Boulevard and Deer Valley Drive |
| **VPC Recommendation** | Denial |
| **VPC Vote** | 9-1 |

**VPC DISCUSSION:**

*Item No. 5 (GPA-DSTV-2-23-2), Item No. 6 (GPA-DSTV-3-23-2), and Item No. 7 (Z-39-23-2) are companion cases and were heard together.*

*Twenty members of the public registered to speak on this item, 17 in opposition, three in support.*

*Thirty-three members of the public registered in opposition, not wishing to speak.*

*Three members of the public registered in support, not wishing to speak.*

STAFF PRESENTATION
**Anthony Grande**, staff, provided an overview of the location of the subject site and the surrounding area, the proposed amendments to the General Plan Land Use Map and the Desert Ridge Specific Plan, and the rezoning request. He further described the proposed development, the correspondence received from the public, and the staff recommendations on all three cases, including recommended stipulations for the rezoning case.

APPLICANT PRESENTATION
**Stephen Anderson**, representing the applicant with Gammage & Burnham, provided a presentation, describing the need for an additional grocery store in the area and highlighting details of the proposed development, including limitations on uses and upgrades to the adjacent streets. Mr. Anderson further noted responses to concerns raised and reviewed data regarding support for the proposal in the community.

QUESTIONS FROM COMMITTEE

**Committee Member Bunnell** asked about the ownership of the property. **Mr. Anderson** replied that the property is owned by the Arizona State Land Department and provided clarification about the future auction process.

**Committee Member Nowell** asked if alcohol sales would be permitted at the grocery store. **Mr. Anderson** replied that it would be permitted.

**Chair Bowser** asked for clarification on uses allowed in proximity to the school. **Mr. Anderson** stated that alcohol is not permitted within 300 feet of the school and that the proposed specific plan text would not permit alcohol sales as a primary use, but it would be allowed as an accessory use.

**Committee Member Kirkilas** asked if the gas station would be permitted to sell alcohol. **Mr. Anderson** replied that a gas station with a convenience store would not be permitted on the site.

**Committee Member Younger** asked whether dispensaries would be allowed on the site. **Mr. Anderson** replied that they would be prohibited by the proposed text.

**Committee Member Kollar** asked about parking management plans for the site. **Mr. Anderson** replied that the developer has experience managing complex parking situations, including at Desert Ridge Marketplace.

**Committee Member Kirkilas** asked about the distance from the site to the Albertsons and if there is a standard distance expected between grocery stores. **Mr. Anderson** stated that the distance is about two miles and noted that the distance to the nearest grocery store from Albertsons is currently around five miles, which is an unusually large separation for the Phoenix area.

**Committee Member Nowell** asked about the median extension stipulation. **Mr. Anderson** provided clarification, noting that the curbing would be added where it is currently striped.

**Committee Member Israel** asked about street conditions on Mayo Boulevard before and after the proposed development. **Mr. Anderson** stated that Mayo Boulevard is currently a half-street and described the proposed street improvements.

**Committee Member Bunnell** stated that bike lanes should be provided in both directions.

PUBLIC COMMENTS

**Dan Richards** introduced himself and spoke in opposition to the proposal, stating that residents in the area did their research and expected this parcel to be residential and

that the proposed commercial use will bring customers from the SR-51 freeway and create issues with lighting, safety, loitering, and property values.

**Wouter Roodenburg** introduced himself and spoke in opposition to the proposal, stating that neighborhood retail is limited to three acres in the specific plan and it doesn't need to be changed because it already accomplishes the goals of the General Plan, further noting safety concerns with students walking to school and pedestrian and bike fatalities in relation to Vision Zero.

**James Tuffin** introduced himself and spoke in opposition to the proposal, stating that commercial activity should take place in the core and reduce in intensity away from the core, further noting that there are other shopping options nearby and that people bought their homes expecting this parcel to be residential.

**Paul Dunn** introduced himself and spoke in opposition to the proposal, highlighting the large footprint of the proposed grocery store and stating that the proposal will not be low impact and will cause traffic issues, in addition to air and light pollution.

**Jackie Zicarelli** introduced herself and spoke in opposition to the proposal, stating that the statements made by the applicant, including alcohol sales prohibition and the inclusion of Trader Joes or Whole Foods, are misleading and that C-1 zoning would be neighborhood retail, rather than C-2.

**Mallorie Laforest** introduced herself and spoke in opposition to the proposal, highlighting issues related to light pollution, traffic, and parking.

**Todd Laforest** introduced himself and spoke in opposition to the proposal, stating there was no immediate need for the development and that it would cause traffic issues, further noting that the development will not necessarily be done by Vestar.

**Randal Spence** introduced himself and spoke in opposition to the proposal, stating that there are many grocery store options in the area and that people supporting the proposal only want small grocers.

**Jeanette Vespalee** introduced herself and spoke in opposition to the proposal, stating that the master plan does not call for commercial use and that the proposal will cause congestion, traffic, and crime issues.

**Candy Huether** introduced herself and spoke in opposition to the proposal, stating that homeowners with exterior view fencing on neighboring developments expected the site to develop with residential, rather than commercial, and that crime, homeless, and human trafficking are important issues.

**Tom Carlson** introduced himself and spoke in opposition to the proposal, stating that it has transportation engineering issues and will draw traffic into the neighborhood.

**Nathan Goldberg** introduced himself and spoke in support to the proposal, stating that he is generally in favor of the proposal and the area needs more grocery stores, but he noted that he is concerned about the size of the grocery store and that the plan could be modified to include pick up and drop off areas for the school.

**Joe Hudock** introduced himself as a former chair of the committee and spoke in opposition to the proposal, stating that the purpose of the specific plan was to concentrate commercial activity in the core and that there will be opportunities to build with C-2 zoning to the north.

**Laurie Smith** introduced herself and spoke in opposition to the proposal, stating that the plan raises security concerns because residential development allows people to monitor the streets more than with commercial development.

**Jeff Smith** introduced himself and spoke in opposition to the proposal, highlighting that there is uncertainty in the final product because a different developer could come in later with a different proposal.

**Patty Farley** introduced herself and spoke in support to the proposal but noted that there should be no gas station and that a pedestrian bridge should be constructed over Deer Valley Drive.

**Jim Farley** introduced himself and spoke in support to the proposal, stating that the HAWK will be a great device for Mayo Boulevard and that there should be overhead walkways installed.

**Nathan Friedland** introduced himself and spoke in opposition to the proposal, stating that he moved to the location to get away from the lights of Reach 11 and this proposal would introduce more lighting to the area, further noting that there should be no gas station.

**Connie Ahlman** introduced herself and spoke in opposition to the proposal, stating agreement with many of the comments made and adding that Mayo Boulevard will continue to have a parking issue and that C-1 zoning would be neighborhood retail, rather than C-2.

**Andrea Remke** introduced herself and spoke in opposition to the proposal, stating that people bought homes in this area to be away from commercial growth and allow kids to safely walk to school, knowing the proposed site would be residential.

APPLICANT RESPONSE

**Mr. Anderson** stated that Black Mountain Boulevard connections to the north will be in the distant future, the adjacent streets are major arterials designed to handle a large amount of traffic, lighting limits would be in place through stipulations, and this proposal

will not set a precedent for additional commercial in the area, further reviewing Desert Ridge Marketplace traffic issues.

COMMITTEE DISCUSSION

**Committee Member Warren** stated that the concerns raised by the community about commercial activity next to the school are valid and that he has traffic concerns. **Mr. Warren** further stated that it is not a good idea to put commercial activity next to a school and that he is not supportive of the proposal.

**Vice Chair Lagrave** asked for clarification about the Arizona State Land Department's role in the process. **Mr. Grande** stated that ASLD is the property owner and submitted an authorization to allow Vestar to apply to rezone the property.

**Vice Chair Lagrave** stated that he does not support gasoline sales, that car washes should be prohibited at this location, and that 96,000 square feet is not a neighborhood grocery store. He further stated that if the application is approved, stipulations should be added to limit the size of the grocery store to 64,000 square feet, require a 50-foot building setback on Black Mountain Boulevard and Deer Valley Drive, and prohibit gasoline sales and car washes.

**Committee Member Bunnell** provided clarification on the ASLD process for auction.

**Committee Member Younger** stated that he hopes the shopping center would be moved to a different location.

**MOTION**

**Committee Member Mark Warren** made a motion to recommend denial of GPA-DSTV-2-23-2. **Committee Member Rick Nowell** seconded the motion for denial.

**VOTE**

**9-1**, motion to recommend denial of GPA-DSTV-2-23-2 passed; Committee Members Barto, Bunnell, Israel, Kirkilas, Kollar, Nowell, Warren, Younger, and Lagrave in favor; Committee Member Bowser opposed.

**STAFF COMMENTS REGARDING VPC RECOMMENDATION:**

None.

*Committee Member Michelle Santoro declared a conflict of interest, bringing quorum to 10 members.*

*Eight members of the public registered to speak on this item, seven in opposition, one with questions.*

*One member of the public registered in support, not wishing to speak.*

*One member of the public registered in opposition, not wishing to speak.*

STAFF PRESENTATION
**Anthony Grande**, staff, provided an overview of the process to amend the Desert Ridge Specific Plan and the amendment proposed by the applicant, further describing the proposed General Plan Land Use Map amendment and rezoning.

APPLICANT PRESENTATION
**Stephen Anderson**, representing the applicant with Gammage & Burnham, described the proposed commercial development, noting that the anchor would be a grocery store, described the process for development of Arizona State Land Department property and the City of Phoenix zoning and development process. He further described the proposed text change to the Desert Ridge Specific Plan, in addition to the General Plan Amendment and rezoning cases.

QUESTIONS FROM COMMITTEE

**Committee Member Kirkilas** suggested adding a prohibition on smoke shops.

**Committee Member Powell** asked about the size of the grocery store. **Mr. Anderson** stated that the size was not defined yet.

**Committee Member Nowell** stated a concern about light pollution from the proposed gas station. **Mr. Anderson** stated that there was interest in a gas station in their outreach, but they could consider shifting it south.

**Committee Member Younger** asked if the applicant had spoken with the school leadership and whether electric vehicle charging would be provided. **Mr. Anderson** replied that they had recent discussions with the school leadership, but no specific agreements have been reached. He further stated that there would be EV charging on site.

**Committee Member Kollar** asked about safety issues related to foot traffic around the school. **Mr. Anderson** replied that it was the subject of discussions with the school, adding that a safe crossing is going to be needed for Mayo Boulevard. **Dawn Cartier**, a member of the development team with CivTech, stated that a HAWK crossing is under discussion for Mayo Boulevard.

**Committee Member Kollar** asked about a traffic study for the project, citing gridlock on surrounding streets. **Ms. Cartier** stated that the traffic study is in process, noting that there will be different peak times for the proposed use and the school.

**Chair Bowser** stated that there are a lot of illegal left turns on the surrounding streets.

**Committee Member Dickson** stated that the applicant presented to the Desert Ridge organization and that people in Desert Ridge want a grocery store and gas station.

**Committee Member Kollar** asked about the presentation slides showing geographic limits on certain uses. **Mr. Anderson** replied that the graphics related to liquor licensing.

**Committee Member Nowell** asked for clarification on the proposed prohibition on liquor sales. **Mr. Anderson** replied that it would only be prohibited as a primary use but that a business like the grocery story could sell liquor as an accessory use.

PUBLIC COMMENTS

**Justin Popnoe** introduced himself and spoke in opposition to the proposal, stating that the community doesn't have interest in a gas station or any alcohol sales at this site.

**Wouter Roodenburg** introduced himself and spoke in opposition to the proposal, stating that traffic is an issue around the school in the mornings and that safety of the kids is a concern.

**Robin Bowie** introduced herself and spoke in opposition to the proposal, citing issues related to traffic in the area, crime, and homelessness, suggesting the commercial use could be located elsewhere.

**Dan Richards** introduced himself and spoke in opposition to the proposal, stating that residents in the area don't want a gas station and that the volume of traffic is very high in the area.

**James Tuffin** introduced himself and spoke in opposition to the proposal, stating that the neighborhood is clean and quiet because there is no commercial in the area and that kids going to the shopping center will be a problem.

**Taylor Moskovich** introduced herself and spoke in opposition to the proposal, stating that people bought in the area with the expectation there would be no commercial uses and that it is a family friendly area with no need for businesses.

**Amanda Jane** introduced herself and spoke in opposition to the proposal, noting that residents of Sky Crossing should be considered, even though they are not in Desert Ridge.

**Frank Soldano** introduced himself and asked for more information about the size of the grocery store, as that would make a difference on the impact, noting he would like to see a gas station at this location.

APPLICANT RESPONSE

**Mr. Anderson** stated that the applicant team will consider all of the comments made and that written comments can be submitted to City staff.

COMMITTEE DISCUSSION

**Vice Chair Lagrave** stated that the developer is going to need to work with the community to find solutions to many of the issues raised at the meeting.

**Committee Member Younger** stated that the public discussion brought up an important issue about lighting, in addition to other issues raised.

| Request: | Map Amendment |
| Location: | Southwest corner of Black Mountain Boulevard and Deer Valley Drive |
| From: | Residential 2 to 5 dwelling units per acre |
| To: | Commercial |
| Acreage: | 20.52 |
| Proposal: | Minor General Plan Amendment for commercial use. |
| Applicant: | Ryan Ash, Vestar |
| Owner: | Arizona State Land Department |
| Representative: | Ashley Z Marsh, Gammage & Burnham |

**ACTIONS:**

Staff Recommendation: Approval.

Village Planning Committee (VPC) Recommendation:
**Desert View** 8/1/2023 Information only.
**Desert View** 10/3/2023 Denial. Vote: 9-1.
**Desert View** 10/1/2024 Approval. Vote: 9-2.

Planning Commission Recommendation:
11/2/2023 Continued to the January 4, 2024 Planning Commission Hearing, without fee. Vote: 9-0.
1/4/2024 Continued to a date uncertain and remanded back to the Desert View Village Planning Committee for reconsideration. Vote: 7-0.
111/7/2024 Approval, per the Desert View Village Planning Committee recommendation.

Motion Discussion: N/A

Motion details: Commissioner Matthews made a MOTION to approve GPA-DSTV-2-23-2, per the Desert View Village Planning Committee recommendation.

Maker: Matthews
Second: Jaramillo
Vote: 8-1 (Busching)
Absent: None
Opposition Present: Yes

Findings:

1. The proposed General Plan Land Use Map designation of Commercial would allow retail and service uses that would contribute to a mix of land uses in the surrounding area, providing services to nearby residential neighborhoods.

2. The companion rezoning case, Z-39-23-2, proposes a commercial shopping center, which, as stipulated, enhances the surrounding area with features promoting pedestrian safety, facilitating alternative transportation, and providing pedestrianized amenity spaces for the community.

3. The subject site is appropriate for commercial uses with adequate street access to two arterial streets.

Report

**Agenda Date:** 12/4/2024, **Item No.** *77

## ***ITEM REVISED (SEE ATTACHED MEMO)*** Public Hearing and Ordinance Adoption - General Plan Amendment GPA-DSTV-3-23-2 - Southwest Corner of Black Mountain Boulevard and Deer Valley Drive (Ordinance G-7332) - District 2

Request to hold a public hearing on a General Plan Amendment for the following item and to consider the Planning Commission's recommendation and the related ordinance if approved. Request to amend the Desert Ridge Specific Plan. This is a companion case to GPA-DSTV-2-23-2 and Z-39-23-2 and should be heard following GPA-DSTV-2-23-2 and followed by Z-39-23-2.

### Summary

Application: GPA-DSTV-3-23-2
Proposal: Amendment to the Desert Ridge Specific Plan, Section 6.C.5, Superblock 12 to facilitate commercial development.

Owner: Arizona State Land Department
Applicant: Ryan Ash, Vestar
Representative: Ashley Z. Marsh, Gammage & Burnham

Staff Recommendation: Approval, as shown in the recommended text in Exhibit A.
VPC Information Only: The Desert View Village Planning Committee heard this item on August 1, 2023, for information only.
VPC Action: The Desert View Village Planning Committee heard this item on October 3, 2023, and recommended denial, by a vote of 7-2-1.
PC Action: The Planning Commission heard this item on January 4, 2024, and continued the item to a date uncertain and remanded the case back to the Village Planning Committee for reconsideration, by a vote of 7-0.
VPC Action: The Desert View Village Planning Committee heard this item on October 1, 2024, and recommended approval, per the staff recommendation (Addendum A), with modifications, by a vote of 10-1.
PC Action: The Planning Commission heard this item on November 7, 2024, and recommended approval, per the Desert View Village Planning Committee recommendation, by a vote of 8-1.

## Location

Southwest corner of Black Mountain Boulevard and Deer Valley Drive
Council District: 2
Parcel Addresses: 21502 and 21600 N. Black Mountain Boulevard; 21520, 21618, 21650, 21680, 21702, and 21750 N. Black Mountain Parkway; 3501 and 3517 E. Deer Valley Drive; and 3539 and 3545 E. Mayo Boulevard

## Responsible Department

This item is submitted by Deputy City Manager Alan Stephenson and the Planning and Development Department.

**City of Phoenix**
PLANNING AND DEVELOPMENT DEPARTMENT

**To:** Mayor and City Council **Date:** December 3, 2024

**From:** Joshua Bednarek
Planning and Development Director

**Subject:** ITEM 77 ON THE DECEMBER 4, 2024, FORMAL AGENDA – PUBLIC HEARING AND ORDINANCE ADOPTION - GENERAL PLAN AMENDMENT GPA-DSTV-3-23-2 - SOUTHWEST CORNER OF BLACK MOUNTAIN BOULEVARD AND DEER VALLEY DRIVE (ORDINANCE G-7332)

Item 77, is a public hearing for a General Plan Amendment request to amend the Desert Ridge Specific Plan and to consider the Planning Commission's recommendation and the related ordinance if approved.

The Desert View Village Planning Committee heard this item on October 1, 2024, and recommended approval, per the staff recommendation (Addendum A), with modifications, by a vote of 10-1.

The Planning Commission heard the case on November 7, 2024, and recommended approval, per the staff recommendation, by a vote of 8-1.

To address community concerns, the applicant has agreed to add language that requires a total combined gross leasable area for commercial uses (retail sales and restaurants) at build-out to be a minimum of 75,000 square feet.

Staff recommends approval of the revised language in **BOLD CAPITALS AND UNDERLINED.**

Revised Language:

**Amend Chapter 6 (Development Parcel Regulations), Section C.5. (Development Regulations by Superblock), Pages 6-45 to 6-46 as follows:**

**SUPERBLOCK 12**

Superblock 12 is located west of a possible future connection to the Squaw PIESTEWA Peak Parkway, which separates this superblock from the balance of the Desert Ridge community. BECAUSE OF THIS SEPARATION, THIS SUPERBLOCK CAN SUPPORT LIMITED COMMERCIAL USES WITHOUT INTERFERING WITH THE DEVELOPMENT OF THE DESERT RIDGE CORE (DEVELOPMENT PARCEL 5.A). RESIDENTIAL development parcels may vary in size by 30 percent (25 percent for R1-6 and more dense zoning categories without a minor plan amendment).

**Size:** ~~136~~ 133.41 acres
**Maximum Number of Dwelling Units:** 347
**Average Density:** 2.55 du/ac

**12.L – Development Parcel 12.L**

**Size:** ~~77~~ 55.24 acres
**Uses Permitted:**

- Single-family residential

**Density Range:** 2-5 du/ac for the entire parcel
**Maximum Number of Units**: ~~347~~ 257; ~~451~~ 334 if parcel increases in size 30 percent
**Potential Zoning to be Applied:** R1-18, R1-10, R1-8, R1-6, R-2
**Minimum Lot Size:** Zoning controls

**Special Requirements (Modifying City Regulations):**

- No attached single-family units; no multifamily units.
- Section C.4.B, Chapter 6, Desert Ridge Specific Plan applies.
- No more than 25% of the development parcel may be zoned R-2.

**Recommendations:**

- Clustering permitted subject to minimum lot size.

**12.C – DEVELOPMENT PARCEL 12.C**

**SIZE**: 20.52 ACRES
**USES PERMITTED**:

- ALL USES ALLOWED UNDER CITY OF PHOENIX ZONING DESIGNATION C-2, INTERMEDIATE COMMERCIAL, EXCEPT AS PROHIBITED **OR MODIFIED** BELOW.

**MAXIMUM NUMBER OF UNITS: 90**
**POTENTIAL ZONING TO BE APPLIED**: C-2

**SPECIAL REQUIREMENTS (MODIFYING CITY REGULATIONS):**

- MAXIMUM GROSS LEASABLE AREA FOR ANY INDIVIDUAL RETAIL TENANT/USER (E.G. GROCER) SHALL NOT EXCEED 65,000 SQUARE FEET.
- AUTOMOBILE SERVICE STATIONS ARE PROHIBITED.
- ADULT USES ARE PROHIBITED.
- RETAIL LIQUOR SALES ARE ALLOWED AS AN ACCESSORY USE BUT ARE PROHIBITED AS A PRIMARY USE.
- TOBACCO ORIENTED RETAILERS ARE ALLOWED AS AN ACCESSORY USE BUT ARE PROHIBITED AS A PRIMARY USE.
- RETAIL MARIJUANA SALES (DISPENSARIES) ARE PROHIBITED.
- CAR WASHES ARE PROHIBITED.

- **TOTAL COMBINED GROSS LEASABLE AREA PROVIDED FOR COMMERCIAL USES (RETAIL SALES AND RESTAURANTS) AT BUILD-OUT SHALL BE A MINIMUM OF 75,000 SQUARE FEET.**

**12.S – Development Parcel 12.S**

**Size:** ~~59~~ 57.65 acres
**Uses Permitted:**

- High school

**Potential Zoning to be Applied:** R1-8

Approved: _____
Alan Stephenson, Deputy City Manager

ORDINANCE G-

AN ORDINANCE AMENDING CHAPTER 6 OF THE DESERT RIDGE SPECIFIC PLAN, ADOPTED JULY 18, 1990, REFLECTING AMENDMENTS TO SUPERBLOCK 12, AS SET FORTH IN APPLICATION GPA-DSTV-3-23-2, DESCRIBED HEREIN.

_____

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF PHOENIX, as follows:

SECTION 1. That Chapter 6, (Development Parcel Regulations), Section C.5 (Development Regulations by Superblock), Page 6-72 of the Desert Ridge Specific Plan, be amended as set forth by Application GPA-DSTV-3-23-2 and in Exhibit A, attached hereto and by this reference is made a part hereof.

SECTION 2. If any section, subsection, sentence, clause, phrase or portion of this ordinance is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions hereof.

PASSED by the Council of the City of Phoenix this 4th day of December, 2024.

PLANNING & DEVELOPMENT DEPARTMENT

# GENERAL PLAN AMENDMENT
# STAFF ANALYSIS
September 26, 2023

| | |
|---|---|
| Application: | GPA-DSTV-3-23-2 |
| Owner: | Arizona State Land Department |
| Applicant: | Ryan Ash, Vestar |
| Representative: | Stephen Anderson, Gammage & Burnham |
| Proposal: | Amendment to the Desert Ridge Specific Plan Section 6.C.5.12.L-Superblock 12 to facilitate commercial development |
| Desert View Village Planning Committee Meeting Date: | October 3, 2023 |
| Staff Recommendation: | Approval, as shown in the recommended text in Exhibit A |

**FINDINGS:**

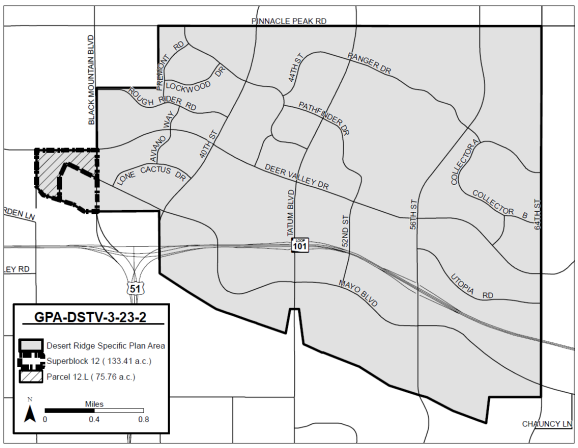
1) The proposed amendment to the Desert Ridge Specific Plan will contribute to a mix of land uses in the surrounding area, providing services closer to residential neighborhoods.

2) The companion rezoning case, Z-39-23-2, proposes a commercial shopping center, which, as stipulated, enhances the surrounding area with features promoting pedestrian safety, facilitating alternative transportation, and providing pedestrianized amenity spaces for the community.

3) The subject site is appropriate for commercial uses with adequate street access to two arterial streets.

## BACKGROUND

Desert Ridge is an approximately 5,700-acre master planned community located in northeast Phoenix generally bounded by the Central Arizona Canal, Pinnacle Peak Road, 32nd Street, and 64th Street. At its inception, the planning area consisted entirely of undeveloped land held in trust by the Arizona State Land Department. The Desert Ridge Specific Plan was approved by the Phoenix City Council in July 1990 and is the governing land use document for Desert Ridge. Desert Ridge is divided into Superblocks, each with their own individual land uses and regulations.



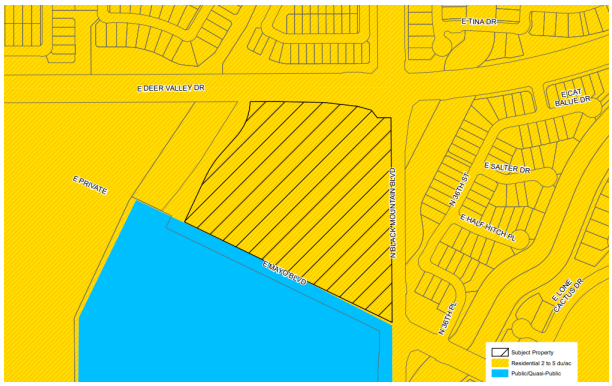
*Desert Ridge Location Map, Source: Planning and Development Department*

This amendment pertains to Superblock 12, Parcel 12.L, located at the southwest corner of Black Mountain Boulevard and Deer Valley Drive. The parcel is owned by the Arizona State Land Department and is vacant, undeveloped land. The proposed development is on a portion of Parcel 12.L, as shown on the aerial location map. The site is adjacent to single-family residential uses to the north and east, vacant land to the west, and Pinnacle High School to the south.

*Aerial Location Map, Source: Planning and Development Department*

### *Surrounding Land Uses*

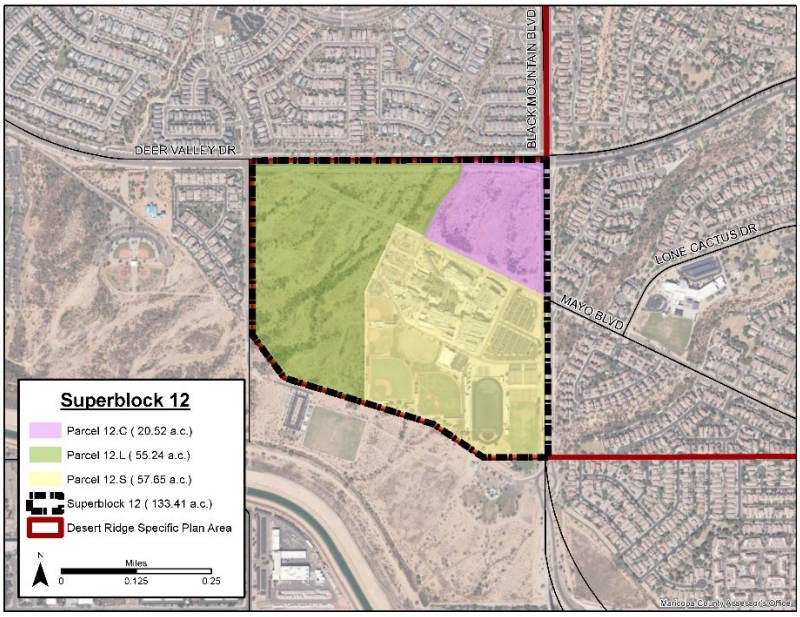
| | Land Use |
|---|---|
| North (across Deer Valley Drive) | Single-family residential |
| South (across Mayo Boulevard) | Pinnacle High School |
| East (across Black Mountain Boulevard) | Single-family residential |
| West (across 34th Street) | Vacant |



*General Plan Land Use Map, Source: Planning and Development Department*

The subject site is currently designated as Residential 2 to 5 dwelling units per acre on the General Plan Land Use Map. This is consistent with the current designation of Parcel 12.L as a single-family residential parcel with density up to five dwelling units per acre. Companion Case GPA-DSTV-2-23-2 proposes to amend the General Plan Land Use Map designation to Commercial, consistent with this proposal to amend the Desert Ridge Specific Plan to allow commercial use on the subject site. Companion case Z-39-23-2 is a rezoning request from S-1 DRSP (Approved R1-6 DRSP) (Ranch or Farm Residence, Desert Ridge Specific Plan) (Approved Single-Family Residence District, Desert Ridge Specific Plan) and S-1 DRSP (Approved R-2 DRSP) (Ranch or Farm Residence, Desert Ridge Specific Plan) (Approved Multifamily Residence District, Desert Ridge Specific Plan) to C-2 DRSP (Intermediate Commercial, Desert Ridge Specific Plan).

The proposal is to replace a portion of Parcel 12.L with a new Parcel 12.C within Superblock 12. Parcel 12.C would be designated as a commercial parcel, allowing uses consistent with the C-2 zoning district and allowing C-2 as a potential zoning to be applied to the site. Residential use would also be retained as an option with a maximum of 90 dwelling units to match the existing allowance.



*Proposed Superblock 12 Parcel Map, Source: Planning and Development Department*

The proposal, as shown in the draft language attached as Exhibit A, would create a new Parcel 12.C, adjust acreages in all parcels within Superblock 12, define allowed uses in Parcel 12.C to include C-2 zoning district uses and multifamily residential, define a maximum number of residential units, list C-2 as a potential zoning district to be applied, and define uses that are prohibited in Parcel 12.C. One of the prohibited uses is an automobile service station, unless accessory to a grocery store, which will limit the potentially undesirable use at this location and promote compatibility with the surrounding area.

## RELATIONSHIP TO GENERAL PLAN CORE VALUES AND PRINCIPLES

### *CONNECT PEOPLE AND PLACES*

- ***CORES, CENTERS, & CORRIDORS; DESIGN PRINCIPLE: Encourage centers to provide a pedestrian environment with plazas, common open space, shaded walkways, separation of pedestrian and vehicular traffic, bicycle parking, and vehicle parking in architecturally disguised structures or underground where feasible.***

  The proposal, as stipulated in the companion rezoning case, Z-39-23-2, will provide a commercial center with a pedestrian plaza, shaded walkways, enhanced features for pedestrian safety, bicycle parking, and a safe crossing to the adjacent school.

### *CELEBRATE OUR DIVERSE COMMUNITIES & NEIGHBORHOODS*

- **DIVERSE NEIGHBORHOODS; LAND USE PRINCIPLE: Communities should consist of a mix of land uses to provide housing, shopping, dining and recreational options for residents.**

  The proposal will contribute to a mix of land uses by providing retail and services closer to surrounding residential neighborhoods.

- **CONNECTED NEIGHBORHOODS; LAND USE PRINCIPLE: Locate neighborhood retail to be easily accessible to neighborhoods.**

  The proposal will enhance accessibility to retail uses by locating retail closer to neighborhoods and as stipulated in companion rezoning case Z-39-23-2, providing pedestrian and bicycle amenities that promote non-vehicular transportation.

***BUILD THE SUSTAINABLE DESERT CITY***

- ***TREES AND SHADE: DESIGN PRINCIPLE: Integrate trees and shade into the design of new development and redevelopment projects throughout Phoenix.***

  The proposed development, as stipulated in companion rezoning case Z-39-23-2, provides shaded detached sidewalks on all bounding streets and enhanced shade to pedestrian areas and surface parking areas on site, which will reduce the urban heat island effect while also improving thermal comfort to site users and the surrounding neighborhood.

## COMMUNITY INPUT SUMMARY

At the time this staff report was written, staff has received 180 letters in opposition, three petitions in opposition with a total of 663 names, 233 letters in support, 23 letters stating general support but requesting a gas station not be included, three petitions in support with a total of 753 names, and four letters providing general comments. Among those opposed, concerns include the change in the residential character of the area, increased traffic and conflicts with Pinnacle High School traffic, pedestrian safety, increased lighting, the presence of homeless individuals, crime issues, and a reduction in property values.

## CONCLUSION AND RECOMMENDATION

Staff recommends approval of GPA-DSTV-3-23-2, as shown in the recommended text in Exhibit A. The proposed amendment to the Desert Ridge Specific Plan provides additional retail and commercial service options for the surrounding area at an appropriate location.

**EXHIBIT A**
**GPA-DSTV-3-23-2**
Amendment to the Desert Ridge Specific Plan Section 6.C.5.12.L-Superblock 12 to facilitate commercial development at the southwest corner of Black Mountain Boulevard and Deer Valley Drive

Staff proposed language that may be modified during the public hearing process is as follows:

**Amend Chapter 6 (Development Parcel Regulations), Section C.5. (Development Regulations by Superblock), Pages 6-45 to 6-46 as follows:**

**SUPERBLOCK 12**

Superblock 12 is located west of a possible future connection to the ~~Squaw~~ PIESTEWA Peak Parkway, which separates this superblock from the balance of the Desert Ridge community. BECAUSE OF THIS SEPARATION, THIS SUPERBLOCK CAN SUPPORT LIMITED COMMERCIAL USES WITHOUT INTERFERING WITH THE DEVELOPMENT OF THE DESERT RIDGE CORE (DEVELOPMENT PARCEL 5.A). RESIDENTIAL development parcels may vary in size by 30 percent (25 percent for R1-6 and more dense zoning categories without a minor plan amendment).

Size: ~~136~~ 133.41 acres
Maximum Number of Dwelling Units: 347
Average Density: 2.55 du/ac

**12.L – Development Parcel 12.L**

**Size:** ~~77~~ 55.24 acres
**Uses Permitted:**
- Single-family residential

**Density Range:** 2-5 du/ac for the entire parcel
**Maximum Number of Units**: ~~347~~ 257; ~~451~~ 334 if parcel increases in size 30 percent
**Potential Zoning to be Applied:** R1-18, R1-10, R1-8, R1-6, R-2
**Minimum Lot Size:** Zoning controls

Special Requirements (Modifying City Regulations):

- No attached single-family units; no multifamily units.
- Section C.4.B, Chapter 6, Desert Ridge Specific Plan applies.
- No more than 25% of the development parcel may be zoned R-2.

Recommendations:

- Clustering permitted subject to minimum lot size.

**12.C – DEVELOPMENT PARCEL 12.C**

**SIZE**: 20.52 ACRES
**USES PERMITTED**:

- ALL USES ALLOWED UNDER CITY OF PHOENIX ZONING DESIGNATION C-2, INTERMEDIATE COMMERCIAL, EXCEPT AS PROHIBITED BELOW.

**MAXIMUM NUMBER OF UNITS**: **90**
**POTENTIAL ZONING TO BE APPLIED**: C-2

SPECIAL REQUIREMENTS (MODIFYING CITY REGULATIONS):

- **LARGE SCALE COMMERCIAL RETAIL IS PROHIBITED.**
- ADULT USES ARE PROHIBITED.
- RETAIL LIQUOR SALES ARE ALLOWED AS AN ACCESSORY USE BUT ARE PROHIBITED AS A PRIMARY USE.
- **TOBACCO ORIENTED RETAILERS ARE ALLOWED AS AN ACCESSORY USE BUT ARE PROHIBITED AS A PRIMARY USE.**
- RETAIL MARIJUANA SALES (DISPENSARIES) ARE PROHIBITED.
- **AUTOMOBILE SERVICE STATIONS ARE PROHIBITED, UNLESS ACCESSORY TO A GROCERY STORE.**

**12.S – Development Parcel 12.S**

**Size:** ~~59~~ 57.65 acres
**Uses Permitted:**

- High school

**Potential Zoning to be Applied:** R1-8

**Date:** Saturday, July 29, 2023 11:20:21 AM

---

Dear Mr Grande,
I am a resident of Aviano neighborhood and live 1 block from Deer Valley Drive and Black Mountain Blvd. I wanted to send an email that my family is opposed to rezoning the land use from residential to commercial, GPA-DSTV-2-23-2.

The reason that I am opposed is that the proposed site is next to Pinnacle High School and during the times of before and after school the area becomes very crowded with families driving their kids to school, children walking and biking to school.

Having a commercial shopping center next to the school is going to create an unsafe environment for the children walking and biking to school. There is a significant amount of vehicle congestion from drop off/pickup that makes that area very congested. Adding a commercial shopping area will make the area even more congested and unsafe. I have 4 children that may go to Pinnacle High School and think the current zoning as residential is appropriate for the area next to a high school.

Thanks

Mr. Grande:

I understand that you are the City Planner for the subject rezoning of the land parcel at the Southwest corner of Deer Valley and Black Mountain Boulevard. As a resident of Sky Crossing, directly across Deer Valley from this subject parcel, my family and I along with 1220 homeowners will be directly impacted by this proposed development.

I am not naive to believe that this development will be rejected and I appreciate our community's need for additional businesses like a grocery store and restaurants. However, I would like to bring to your attention some concerns that I have and I am sure our neighbors have relevant to this rezoning.

1. Traffic is already high on these two streets and with the addition of a large shopping center, the traffic will expand greatly bringing to our community more noise with drivers revving their engines and peeling out of the new center. This will be especially realized should a gas station be approved and built. A gas station, if approved on this parcel, must be restricted in their hours of operation with it being closed over night. In all candidness. a gas station is not really needed as there are a number of stations near by on Cave Creek and on Tatum - all within 2 to 3 miles from this area.

2. Light Pollution is another major concern. Nobody wants to see glaring bright lights during the night time that will disrupt the tranquility of our lives and interrupt our sleep over night. The developers must be required to adhere to dark sky compliance to limit the amount of blue light at night.

These two items are my current concerns and I am sure my neighbors will have other issues such as neighborhood safety and security that they will bring to your office's attention.

Thank you for your time and attention to this most important matter.

Hello Mr. Grande,

I am writing to you in regards to the Black Mountain Village Project (GPA-DSTV-2-23-2). I understand that you are the City Planner for this project and would like to share my opinion. I live in the Sky Crossing neighborhood directly across Deer Valley Rd from the proposed project. While I am in favor of commercial development on this parcel, I must urge you to only allow for businesses that will not degrade our neighborhood. For example, most neighbors are opposed to a gas station. This is an unnecessary addition as there are multiple gas stations on both Tatum and Cave Creek Rd. A gas station would bring unwanted loitering and excessive noise and traffic to this residential neighborhood.

Another issue I have is with a large grocery store (ie Frys, Albertsons, etc). Again, this being an entirely residential neighborhood it would detract from our community to have a large grocery store. I do however support a smaller grocery store with less traffic such as a Sprouts or Trader Joe's.

Both the grocery store and a gas station would create a large amount of light pollution. I would like to see building plans that involves less lighting, more landscaping and a more cohesive ambiance with the desert and the natural surroundings.

This leads me to my last point that our homes in Sky Crossing are typically selling around $1M. To me, this would indicate a higher scale neighborhood. I would appreciate if the commercial businesses fit in with the demographic of the area, similar to business parks in Scottsdale. A gas station and large grocery store would be unwelcome and an eye sore whereas a smaller neighborhood grocery store and smaller, tasteful restaurants and shops would be a welcome addition.

Please consider these points and I look forward to attending the next meeting to hear the latest development.

Rachel McLean

Re: Case number GPA-DSTV-2-23-2, GPA-DSTV-3-23-2 and Z-39-23

August 2, 2023

To whom it may concern:

Thank you for notifying me of Vestar's application. I did attend the Desert View Planning Committee Meeting last night and after hearing Vestar's presentation and comments/questions from committee members and residents, I wish to express my strong opposition to this rezoning request.

A change to the City's General Plan, and particularly a change from residential to commercial, is a major change in general and to our Desert Ridge master planned community in particular. I was struck by the very close proximity to Pinnacle High School and surrounding residential communities.

The following concerns were expressed by residents during Public Comments and are shared by me:

- Traffic in that area continues to be a major challenge, especially during drop off and pick up times at the high school. It is frankly unsafe, yet the city and the school have been unable to find solutions. A shopping center of any size will, of course, generate additional traffic.
- On Vestar's conceptual site plan three driveways are shown on Mayo Blvd, which directly adjoins the school. Pedestrian and motor traffic safety on that shared street will be real concerns. Oddly, there are fewer points of ingress/egress shown on the major roads of Black Mountain Blvd and Deer Valley.
- Drive-through fast food restaurants/coffee shops present additional concerns for lines and traffic like those seen at Starbucks on Tatum Blvd.
- Residential homes will be impacted by light and noise pollution homeowners could not have anticipated when they purchased their homes under the current General Plan.

Some homeowners paid a premium for view fences that would look right over the natural open area into the shopping center. Their quality of life and their property values will be negatively impacted.

- A gas station generated the strongest opposition, adding gas fumes to the negative impacts.
- Tanker tracks and semi-trucks making deliveries to a grocery store, restaurants and gas station will generate noise in the nighttime and early morning.
- The Arizona Republic reported, "The application also claims the development would provide options for Pinnacle High School students before and after school, and during lunch, which could reduce their car trips." I would disagree that student hangouts close to a high school would be of benefit to anyone.

I appreciated the thoughtful questions and comments from Planning Committee members last night as well as this opportunity to express my opposition. I will plan to attend the next Village Planning Committee Meeting.

Sincerely,

Laurie D. Smith

Hello Anthony and Desert View VPC,

I am a nearby resident (Fireside) of this proposed project. My main concern here is Pinnacle HS parking. The high schoolers often park in the adjacent residential neighborhoods as Pinnacle's lot are simply not large enough for its growing population. The AZ State Land Department, Paradise Valley School District and any potential bidder/buyer of this ASLD property should work together (now) to facilitate the purchase of additional 3-5 acres for more Pinnacle High School parking north of Mayo Blvd. The school parking could be on west side of future retail center. Otherwise, students and visitors for sporting events will simply park in the new commercial center, upsetting retail tenants and customers alike.

Thank you.

As Sky Crossing homeowners, we wanted to express our objection to the potential of large commercial development at this corner. When school is in session the traffic is awful. It's going to be exceptionally worse if there is a commercial structure at that corner. Moreover, I have no idea how the owner will police the students parking there. It's going to bring more traffic, crime, congestion and so on. This is not the kind of thing we want to see in our area. It's very likely to negatively impact home values as well.

Thanks so much for noting our objection.

Hi Anthony,

First I want to thank you for what you do. I worked ever so briefly in planning in Portland, OR. I know it's a tough and under appreciated role in development. So I do not like sending an email with a negative tone, but on this one I must.

Regarding the development at Black Mountain Blvd and Deer Valley I have 2 major concerns:

1. The additional traffic to an already clogged area - especially with high schoolers in the area. It increases frustration and potential for life treating accidents. (Teen brains in the mornings aren't really the the sharpest in the intersection).

2. How can we guarantee that this doesn't end up a strip mall of vape stores and liquor stores? Again the last thing that should be placed near a high school. Our kids have so much on their plate already in terms of the availability of addictive substances. Why make this any harder for them?

I do hope the City will take in consideration the development's proximity to a high school and the challenges it poses with the teens that will no doubt surround the area before and after school.

I will do my best to be at the next meeting in October.

Warm regards,
Julie

**Date:** Friday, August 4, 2023 2:17:59 PM

---

I live close by and strenuously object to developing this land for commercial use. This would place a commercial lot right in the middle of neighborhoods and a school. I happen to live in the closest adjoining neighborhood (Fireside - Copper View) and my property values will be negatively impacted by this decision. My quality of life will be negatively impacted by this decision.

From a practical perspective, this is a dangerous place to build a development of that nature. We already suffer from high school kids parking and clogging our streets in the adjoining neighborhood. At best, this would shift that burden to this new development. Having entitled parents with their bad parking/waiting habits combined with parking lots full of high school teens disobeying parking regulations and the increased pedestrian traffic there is a recipe for disaster. I sure hope they have amazing insurance - they'll need it.

This will create light and noise pollution, add more traffic to an already congested area and degrade my property values. If anything, this state land should be used for an expansion of the school itself to allow for more high school parking and activities of the existing population attending that school.

We have gas stations nearby already. We have grocery stores nearby already. We have fast food nearby already. We do not need this development.

Sincerely,

Gordon Smith

**Date:** Friday, August 4, 2023 12:42:04 PM

---

Dear Anthony Grande,

I am writing today regarding Vestar's proposals (case numbers) GPA-DSTV-2-23-2, GPA DSTV-3-23-2, and Z-39-23. As a resident of Desert Ridge, I oppose Vestar's proposal for rezoning the Southwest Corner of Black Moutain Boulevard and Deer Valley Drive from Residential to Commercial/Retail for several reasons.

First, Desert Ridge is a highly desirable planned ***residential*** community that continues to attract buyers willing to pay a premium for a prime location. Adding commercial/retail mixed-use space in the middle of the community would decrease the desirability of Desert Ridge and lower the values of residential real estate within the community.

Second, the traffic flow within Desert Ridge is already too great for the limited infrastructure within the community. Pinnacle Peak High School is located adjacent to the proposed site. The traffic caused during the morning/afternoon pick up/drop off combined with regular commuting already creates a safety issue on Black Moutain and Deer Valley with vehicles backed up in every direction. Adding unnecessary commercial/retail space would only increase the traffic and lead to safety issues.

Third, there is no need for mixed commercial/retail space in the middle of single-family homes. The area has more than ample shopping options - Desert Ridge Marketplace, High Street, and shopping off of Cave Creek Rd and the 101 are all within an extremely close distance. Finally, creating a commercial/retail space in the middle of a residential area will bring increased instances of crime which when coupled with declining property values would limit the marketability of Desert Ridge.

Given the detrimental impacts on our home values, marketability, safety, noise/light pollution, and increased traffic without adequate infrastructure these proposals should be denied. Please do not hesitate to reach out if I can provide any additional information.

Regards,

Christian Klein

I urge you or someone from your office to come by between 7 am and 7:30 and see what the traffic is like. It's unbearable. I literally have to change my work schedule by leaving either before 7 or after 7:30. Any commercial addition to that corner is going to make things exponentially worse, create more accidents or worse. Kids are walking across the street and not at the intersection because there is gridlock and they think that they can just do that.

Re: Case Number GPA-DSTV-2-23-2, GPA-DSTV-3-23-2, and Z-39-23

Dear City of Phoenix Planning and Development Department:

I recently became aware, through your notification, of Vestar's application to have the above referenced parcel rezoned from residential to commercial. After attending the Desert View Planning Committee meeting on August 1st and listening to Vestar's presentation I wish to register my strong opposition to this rezoning change.

The property in question sits directly north of Pinnacle High School and butts up against two short stretches of major roads that lead in and out of the adjacent neighborhoods. These two roads are (and have been for 10+ years) choked with traffic to the point of gridlock twice a day with the start and end of the school session. Adding a commercial development with multiple businesses and around 500 parking spaces would simply add to the congestion already present. The current traffic situation has led to numerous accidents and unsafe practices and is unacceptable. To add to it would be irrational.

Additionally, Vestar made the claim that the businesses brought in would offer the high school students options before, during, and after school. I submit that such options to allow students to "hang out" are not beneficial to our community.

Lastly, to change from residential to commercial after the fact is also unacceptable. As homeowners, we bought in a master planned community because of the master plan and its planned land use. Changing the land use from the master plan violates the conditions under which we made our decisions and has the potential to materially impact our home values in a negative way.

For these reasons and others that were expressed at the Planning Committee meeting, I urge the Department to oppose these requests for rezoning.

Sincerely,

Jeffrey Smith

Mr. Grande,

My husband and I, and our children, have lived in the Desert Ridge Community since 2010. What attracted us to this area was the quiet, beauty of the desert, and the many, many young families that live here. Our children attend all the neighborhood schools including Pinnacle High School.

We feel strongly that changing this residential land site to commercial would be detrimental to our community. The increased traffic would be catastrophic to the neighborhood environment. It is already difficult to get my children to school, this would increase substantially. We have studied the developers plans for this land and we are deeply troubled. Our neighborhood will be forever changed with drive-thrus and a gas station. Huge semi trucks will now be delivering gas and food to our quiet community. We cannot allow this to happen! We do not need another gas station or grocery store here. We can drive less than a mile to obtain that. Why destroy a neighborhood/community all for money.

We are pleading with you to put a stop to this! If you have any further questions, please let us know.

Thank you,

Darrin and Layla Saikley

Hi Mr. Grande,

This email is too put in our objection for the rezoning to make commercial the corner of Black Mountain Blvd and Deer Valley.

The traffic in that area is already very busy with the school and subdivisions. As is there is usually backups. This is a residential neighborhood with lots of families and kids. We do not need to bring additional traffic or buildings that don't belong in the middle of a residential area. There is enough stuff very close by. We did not buy in the area to have that type of stuff right in the middle of our neighborhoods.

I highly object to this and would not approve it!

Thank you,
Wendy

This development is a terrible idea. Traffic in right lane of Deer Valley is already backed up for a half mile at drop off and pick up at high school. Black Mtn is impassible with the kids crossing the street and cars parked along the sides of the roads. Some kid is going to get hit by a shopper leaving that center and everyone associated with the development is getting sued.

This is literally the worst possible use for the property.

Hi Anthony,
We have lived in Aviano for the past 17 years, when we purchased our home, in the general plan this was zoned residential. We have no problem driving to the commercial areas already developed for that type of businesses. From the sounds of the development it's catered to capture the local high school, the area is already congested in that area. Please forward this response to the City Staff responsible for the decision to change the zoning, please leave it residential.
Thank You,
Rusty Ludwig

Hi Anthony,

If possible, I hope you can restructure the thought of making Deer Valley and Black Mountain a commercial property. Our kids have to walk by this intersection everyday on their way to school. We moved into a neighborhood to have a neighborhood, not a city.
If commercial is the only option, please look at other corporations. The locations built by Vestar are tacky and unappealing, sprawling at best. We need something sophisticated and classy. We/You are beyond fortunate Sky Crossing Elementary, Fireside Elementary and Pinnacle High School are some of the BEST schools in the PV school district.
Please don't let us down in making a rash decision,
Christina Otjen

Hello Anthony,

I understand that the city would like a more detailed explanation as to why we are strongly against rezoning this tract for commercial building.

My husband and I have lived in Desert Ridge since 2004. Phoenix does not have many areas where the beauty and quiet of the desert is so prominent. However, the Desert Ridge community is one of the beautiful, quiet and family friendly neighborhoods in Phoenix. In fact when we outgrew our home and decided to buy another one we chose to remain in Phoenix in the Desert Ridge area because we love it so much.

All of our children have and do attend the neighborhood schools. The Desert Ridge area has always been a safe and quiet neighborhood. Building a commercial plot right next to Pinnacle High School would be outrageous. It would cause a dangerous amount of traffic, crime and be very disturbing to the school and surrounding neighborhoods. Desert Ridge Marketplace is less than 1 mile away.

We understand there is a proposed gas station in the plans. This is extremely short sighted. There is a gas station less than a mile away. The future is electric. In the next few years gas cars will become obsolete. Gas stations are so toxic, it is incredibly hard to convert the land when it will no longer be needed. This begs the question, is the development being funded by a gas company?

It appears that the city is being motivated by money and not seeing how this will impact a beautiful neighborhood.

Currently, the neighborhoods in Desert Ridge are very much like you'd see in the city of Scottsdale. The Desert Ridge area is highly sought after in the City of Phoenix and gives the City of Scottsdale a "run for its money". This proposed tract is obviously money motivated with no regards as to the impact it will have on Pinnacle High School and the surrounding neighborhoods and ultimately the City of Phoenix.

The City of Phoenix is already filled with unsightly commercial plots next to neighborhoods and schools which downgrades those areas immensely.

Keep the Desert Ridge neighborhood as one of the few in the City of Phoenix that is peaceful, beautiful and safe.

Be the future and preserve this neighborhood for generations to come. Please Do Not build commercial on this land. Be better and do what's right for the city.

Thank you,
Timothy and Helana Doyle

**Subject:** Parcel at Black Mtn and Deer Valley
**Date:** Thursday, August 17, 2023 2:47:26 PM

---

Hi Mr. Grande,

I want to express my opposition to the proposed rezoning of the parcel on the Southwest corner of Black Mountain and Deer Valley. It is being proposed that the land be rezoned from residential to commercial. This is a terrible idea for many reasons. I am a full time resident in Sky Crossing and below are just a few potential issues that will be created by commercial zoning.

Violence, as experienced at Desert Ridge shopping area
Increased noise
Predators/sex trafficking
Light pollution
Increased burnouts - burnouts are currently in every intersection in the area
Increased traffic in an already crowded area
Safety - speeding is rampant in the area and there was a death on Deer Valley last year
High school pedestrian safety
High school drop off and pick up is already severely congested
Increased wear and tear on roads from commercial vehicles
Increased commercial vehicles - brakes, horns, noise

There is zero need for a gas station, grocery store, or any other commercial property on this land. Those services are already conveniently located 2-3 miles in either direction.

Please don't make a decision to rezone the parcel. The future cannot be undone when issues arise. It's not always about money. Sometimes - in this case for instance - it's about keeping a neighborhood a neighborhood with residential properties as initially zoned. Home owners in Sky Crossing were sold on the idea of residential and not commercial across the street. No commercial zoning nearby was a huge selling point for property owners. Don't go back on this commitment.

Please don't rezone the parcel at Black Mountain and Deer Valley north of Pinnacle High School. Be proactive and put residents first.

Thank you for your time.

Vicki

Anthony,
We built in Desert Ridge back in 1997 and studied the Master Plan. It **DID NOT** include commercial inside the Desert Ridge Community. It is the worst idea to change the residential property into commercial. It will only bring crime, homelessness and more congestion to an already very congested area. Trying to navigate around Pinnacle High School is already ridiculous and any changes to the navigating that problem has not helped. . This was never the plan and it should not be a new plan in order to profit a few. Keep our area beautiful!!!!

Thanks everyone for your input.

What strikes me in general is that it seems a very reactive process to "wait and see" who comes up with a plan for the vacant land.

There is :

1. already a master plan for Desert Ridge,
2. the land is owned by the Arizona State Land Department, beneficiaries include the k-12 schools,
3. there is a Vision Zero plan and budget to reduce casualties,
4. there is a federal program regarding infrastructure.

On top of that,

1. the school was build in 2000 during a time when Fireside/Aviano/SkyCrossing/DesertRidge marketplace were not even there yet.
2. The school was build in 2000 whilst the freeways like 101 were not build yet, etc, etc
3. During curriculum night at the Pinnacle High School, this topic was brought up and the principal re-iterated that he was 100% against the commercial proposal – this is not what came across in the meeting and I would love to see the exact wording used that night.
4. Pinnacle High school is further expanding the number of students every year and it should be able to get the infrastructure and parking capabilities for students to get to school safely.
5. Student Drivers are mixed with in with people that need to get to work in time and this creates a recipe for disaster for these drivers and the students crossing the intersection.

Adding up all these before mentioned items and elements of existing/approved budgets, would we (as a community) be wrong to assume that there is somebody at City or State level working with the school district to alleviate the pressures that now exist in this neighborhood, proactively.
We have escalated the issue, discussions and actions have taken place between the school and the city, but this year the dropoff and pickup is in exactly the same state of chaos around the school and we're all just waiting for 1 child to get run over.
This doesn't seem in line with the Vision Zero.

My main question is this;
Does the city planner and the village planning committee have the ability to – themselves - create a proposal for this vacant land, recognizing that the area has grown tremendously over the last decade and that improvements to the infrastructure, traffic patterns, school safety, etc are now needed.

Here are the benefits:

1. The biggest benefit is the fact that Pinnacle Highschool is one of the few lucky schools that has vacant land around it to still expand and address the issues.
2. Both committees are experts in State and City guidelines and laws
3. Both committees can invite other necessary parties to the table that they know are required to make a good plan and include people from the school districts and the department of education.
4. You have inside knowledge of budget and grant opportunities at State and Federal level to plan for funding
5. Vision Zero survey results are available in more detail then what the public gets to see and it should have been highlighted by the participation of the community in Aviano and Fireside.
6. State Land should benefit the school – so why not expand the footprint for this high school directly (and not selling the land for proceeds)

I'm no expert in what it is people on this email can do or not – but I would strongly urge all of you to take my points into consideration and NOT approve the vestar proposal in any shape or form, because it is NOT what the area needs and it is NOT in the best interest of student safety.
We can only decide ONCE what will happen to this piece of land and it was already decided to NOT be commercial.
We have a great community, they have engaged with surveys and shown up at meetings. We love where we live and it's mainly because of the master plan that is already in place.

If you require further input and or participation of our community and/or have any suggestions to have this proposal stopped, please let us know.
Much appreciated if this can be added to the proposal as feedback.

Kind regards,
Wouter Roodenburg

Hi all,

I want to add some information here. Vestar has filed an application to rezone the property for commercial use. The Desert View VPC heard an informational presentation on August 1 and took public comments. I know Mr. Roodenburg, you were there and provided input on the rezoning proposal. As was discussed at the meeting, the case is still under review and won't have a formal staff recommendation until it returns to the VPC in October for public hearing and recommendation. In the meantime, we are reviewing all comments received, which will be made part of the case file and included in the staff report for the case.

Please feel free to reach out with any additional questions or comments.

Thanks,
Anthony

Mr. Roodenburg, Street Transportation Department staff forwarded your question about development plans for the circled parcel below. This parcel of land is owned by the Arizona State Land Department. They submitted a request for a pre-application review (PAPP 2206799) of a site plan and potential rezoning that proposed a shopping center on the property. At this time, the owner has not submitted any additional documents beyond the pre-application stage. Please note that details of proposed plans can change somewhat as they move past the early pre-application stage.

I have copied the village planner for that area, Anthony Grande, if you have any questions about how the rezoning process would play out from here should the applicant choose to proceed.

The State Land Department sells parcels based on guidelines in state law. Whether they legally could donate the land to the school district would be a question to address directly with the Land Department. I've included a link to their home page as a place to start. **Subject:** RE: Pinnacle High School - Traffic flow / Vision Zero

Laura,
Following our previous conversations, it seems that Pinnacle high school and the city have worked together on a better drop off procedure for this year by changing the drop off route to be going around the school.
There also seem to have been an investment in more signs everywhere and a reduction in speed at Mayo boulevard, but it won't stop the students being dropped off on the corner of mayo from where they literally cross this junction in anyway they can (no longer following the crossings). It actually has gotten worse in the last year.

Although these previous mentioned actions are positive signs, they do not seem to address the rootcauses of the traffic issue and doesn't directly help the safety of the students, nor provide extra capacity for drop off locations.
Only the land north of the school would be able to provide this with some development.

However, residents have noticed that the city is considering an application for rezoning the land North of the school with commercial intentions. ( Black Mountain Village / Superblock 12 - Gammage & Burnham | Attorneys at LawGammage & Burnham | Attorneys at Law (gblaw.com) [gblaw.com] ). See Zoning hearings sign attached.
I have copied some board members of the PV school district and hope they are aware of this rezoning application, impacting Pinnacle high school student safety.

After the Fireside residents have tried to communicate our concerns with the safety of this area with the City and our participation in the Road Safety surveys, I find it very surprising that the City is considering to add yet more traffic to this junction where a lot of high school students are and more new student drivers are going to be this year.

Are you able to share the information you have gathered last year that prompted some of the changes with this Planning commission to take into consideration?
Would you be able to advise us about the options, procedures needed to rezone/donate this exact piece of land to be of future use for Paradise Valley School district and expansion of the highschool?

Looking forward to further information on this topic.

Kind Regards,
Wouter Roodenburg.

**Subject:** RE: Pinnacle High School - Traffic flow / Vision Zero

Good morning Wouter,

I apologize for not getting back to you Monday, but I was unexpectedly out. I did leave you a voicemail yesterday afternoon, and I promised to follow up with an email today.

Staff analyzed the traffic count data and have been monitoring the two traffic signals near Pinnacle High School, especially the one at Black Mountain and Mayo boulevards, this week as school started. They determined that an adjustment to the signal at Black Mountain and Mayo was needed to allow for more green times when the signal detects an increase in vehicles. However, while the adjustment has helped some, the amount of traffic present during school pick-up and drop-off times is still causing congestion, which signal adjustment cannot remediate.

Staff also noticed some issues with the way students/pedestrians are crossing at this intersection. Therefore, staff will contact the school to work with them on safety education. Staff will also see if they can make some suggestions to the school regarding their pick-up/drop-off plans.

Unfortunately, there is no street engineering solution we can offer to solve this issue. The traffic congestion at Pinnacle High School is not unique; all high schools in the City have similar congestion issues during the peak morning and afternoon hours, which dissipate once those peak hours are over. We do have a school safety coordinator who works with schools on their pick-up and drop-off plans to minimize traffic impacts as much as possible, while also educating them on safety. However, we can only make suggestions as the City does not have the authority to force schools to change their plans. Arizona State Law exempts them from having to comply with zoning ordinance requirements as other businesses and property owners must do within the City. Schools are governed by the locally elected school district or the Department of Education at the state level.

I do understand that safety is of utmost concern to you and the other parents as it is for us, too. We will continue to provide as much assistance as we can by monitoring the signals and communicating with the school. I also urge you to contact the school board or district to solicit their assistance with your concerns.

I also want to thank you for participating in the Road Safety Action Plan Phase I survey. The results are available at phoenix.gov/streets/roadsafety. Another survey for Phase II is now open through August 31 if you'd like to take that one as well. Please keep checking the website for other community engagement opportunities and plan updates.

I do hope this information is helpful. Please feel free to call me if you have other questions or concerns.

Thank you,

Laura,

Hope you also had some time off this summer.
We're ready to have the kids go back to school and was wondering whether any changes will be made to the traffic light timing of the various lights.

As a community we continue to participate in the questionnaires that came out, etc but hope there is something the city is willing to do now to make the situation safer.

Kind regards
Wouter Roodenburg

Good morning
I wanted to follow up on the traffic light evaluation. Has it occurred yet?

There really should be some adjustments to make it safer for the kids

Will the results of the questionnaire be published ?

Much appreciate an update

Laura,
Thank you for the information. I will take this up with the school district as well.
I did post your survey on our community facebook page and you should see multiple submissions already from me and my neighbors.

I hope that traffic around schools gets prioritized appropriately in your plan.

Please start the process required to get the timing of traffic signals around that intersection reviewed again and adjusted accordingly.
The cross walk lights should be isolated and run separately from the cars to avoid accidents between the kids and cars making last minute turns.
The light from Mayo turning onto black mountain south - should be isolated and run longer to clear up the lines.

Again – there is a large group of parents in Fireside that wish to participate in any effort to make that area safer for our kids and ideally allow them to walk/bicycle more to school.
Let us know how we can help or who our contact is at the Transportation department.

Regards,
Wouter Roodenburg.

**Subject:** RE: Pinnacle High School - Traffic flow / Vision Zero

Good morning Mr. Roodenburg,

Councilman Waring's office sent your email to the Street Transportation Department for investigation.

Thank you for contacting the City of Phoenix with your concerns. Unfortunately, the Street Transportation Department has no authority over your proposals for parking ingress/egress for the school. We also have no jurisdiction over the state land parcel. We suggest taking your proposal directly to the school district first to see if they can accommodate any of your parking proposals.

What the city can offer at this time is to review the timing of the traffics signals at Black Mountain and Mayo boulevards, and Black Mountain Boulevard and Deer Valley Road to ensure they are timed appropriately for the traffic volumes.

Regarding Vision Zero, Phoenix City Council did just recently approve adopting Vision Zero with the goal of eliminating all traffic fatalities on Phoenix roadways. We are also developing a comprehensive Road Safety Action Plan (RSAP) for the city and will be incorporating

Vision Zero goals into the RSAP. We are currently requesting public input to help shape the plan, so I highly encourage you and your neighbors to visit phoenix.gov/streets/roadsafety for information on the RSAP and to take the survey.

I do hope this information is helpful and thank you again for contacting the City of Phoenix. Please let me know if I can be of any further assistance.

Thank you,

**To:** Council District 2 PCC
**Subject:** Pinnacle High School - Traffic flow / Vision Zero

Dear Councilman Waring,
We are living in Fireside Community near Pinnacle High School. Every morning dropping our kids off has turned into a nightmare.
A lot of traffic is building up around this area. Lot of frustrated drivers that I have filmed going through red lights and near collisions, mixed in with student drivers trying to park their car at the school.
Currently I'm not aware of any fatalities on this highschool junction, but we would hope the city will be pro-active in this case preventing any accidents before they happen.

Please find below a request to the city with regards to the traffic situation around Pinnacle High School.
Parents are getting very concerned about the safety of our kids.
A lot has changed in this part of phoenix, with big new housing divisions going in and black mountain blvd connecting to the 51 freeway.
The way this new road was build did not consider the kind of traffic that we're dealing with currently. A bridge to cross Black mountain blvd was build 500 feet away from the junction which is causing nobody to use it.
Available State land on the corner – highlighted below in picture - is staying vacant and would be the perfect addition to repurpose for the safety of our kids and increase the parking capacity of the school.

I have seen articles regarding "Vision Zero" and new funding being available to reduce the number of accidents and fatalities in Phoenix and would very much hope that his will be a timely request to consider by the city council.

We would very much like to understand how we can work with the city to address this dangerous situation.
Much appreciate your feedback on the matter.

Kind regards,
Wouter Roodenburg

**Subject:** Pinnacle High School - Traffic flow questions

I'm trying to find out who to speak with regarding the traffic situation at Pinnacle High school.
Most parents in our Fireside community are very concerned about the junction our kids have to cross and cars that are driving through that intersection.
I've got some video's from just 1 random day and captured a lot of dangerous driving through red lights and almost collisions.
A lot of traffic is going down the same roads trying to reach the school or get onto the 51 freeway causing a massive traffic jam every day.

We would very much like to know if we could work with the City to resolve these situations to increase the safety of our kids.
The plot of state land highlighted in light blue should ideally become part of the highschool to have additional parking for a fast growing highschool.
Closing the entrance from black mountain blvd, forcing students to go via Deer Valley instead.

I've included the situation and also some possible solutions to consider.
When the State land becomes part of PV district - Then you could have much needed additional parking and also incorporate a safe drop off and bridge to have them enter the school.
Traffic will then be diverted away from Mayo Blvd and Black mountain blvd

Much appreciate your feedback.

Kind regards,
Wouter Roodenburg

## Anthony M Grande

**From:** Chris Hanley <c3hanley@gmail.com>
**Sent:** Saturday, August 19, 2023 4:16 PM
**To:** Anthony M Grande
**Subject:** Black Mountain and Deer Valley Village

Hello Anthony,

My name is Chris Hanley and I live in the Sky Crossing community. I moved into this neighborhood in March 2020 and am the original owner of my home.

I understand there is a zoning hearing for the parcel of land on Deer Valley, West of Pinnacle High School. I also understand that a commercial developer wishes to buy the land to develop a shopping center and needs the land to be rezoned from residential to commercial.

I am opposed to this rezoning.

Sky Crossing is a new neighborhood. Many of us bought here in the last few years with the knowledge of the open land to our south being other homes, not a grocery store, gas station, and other retail. This isn't an old neighborhood where things have changed over the decades, we're less than 5 years into this.

As you know, Deer Valley is a 3 lane road in each direction. It is heavily travelled. The high school contributes to the traffic load at certain times of day. WIth Black Canyon as a feeder onto SR 51, there is high traffic already.

While I understand how that would appeal to a commercial developer, the community is highly concerned about the added traffic and congestion a shopping center would bring. In addition, the shopping center would add light pollution and added noise pollution.

As you also know, shopping centers draw in pan handling, the homeless, and additional trash. We don't need that in a family community, next to a high school and close to Sky Crossing Elementary.

Cave creek road to our West has 2 gas stations on it (north of the 101) and plenty of retail. We have an Albertsons at Tatum and Deer Valley, with a gas station, and again lots of retail at Desert Ridge. There is also a Safeway and Frys north of us at Tatum and Cave Creek. We don't need any more grocery stores and there are plenty of gas stations.

Please do not approve the rezoning. Thank you for your consideration on this matter and please reach out if you would like to discuss.

**Subject:** Opposition to Vestar Development Group's Plans for Northwest Corner Deer Valley and Black Mountain

Dear Anthony Grande,

I hope this messages finds you well. I am writing to express my very strong opposition to the proposed development and rezoning of the land from residential to commercial at the Northwest Corner of Deer Valley and Black Mountain by Vestar Development Group. The conversion of this residential area into a commercial zone would have severe consequences, detrimental implications, and potentially devastating impacts on both the environment and the community. I implore you to reconsider this decision and prioritize the well-being of the city, its residents, and its natural surroundings.

The City of Phoenix has outlined a comprehensive sustainability plan for the year 2050, with clear guidelines for responsible development that considers the efficient usage of resources, including water. One crucial aspect of this plan is the expansion of parks, preserves, and open spaces, ensuring that all residents are within a five-minute walk of such spaces, but those spaces must be sustainable or else the whole point of having a commercial center within walking distance is null. Furthermore, the goal of reducing urban heat-island effects through green infrastructure and increasing tree and shade canopy coverage is paramount.

However, the proposed development contradicts these essential sustainability goals. Converting the area into a car-centric commercial zone would undoubtedly lead to increased traffic congestion, resulting in higher CO2 emissions. The associated light and noise pollution would disrupt the delicate balance of the ecosystem and erode the serene character of the Sonoran Desert environment, its flora and fauna, and its natural aesthetic.

I urge you to consider the broader impact of this development on the city's future. Will it be in line with the City of Phoenix's sustainability regulations, ensuring that the structures incorporate features such as vertical gardens and agricultural areas on their roofs? Will there be proper infrastructure in place, including ample bicycle racks, substantial green spaces covering over 80% of the area, and designs that prioritize pedestrian and micromobility traffic over internal combustion engine vehicles? Specifically, bicycle lanes which are physically protected by a barrier to protect cyclists from traffic?

The City of Phoenix has shown a commitment to reducing air pollution and safeguarding public health through various programs and initiatives. However, this development project poses a significant threat by potentially increasing the emission of Volatile Organic Compounds (VOCs), negatively impacting the environment, ecosystem, and the health of the community.

The City of Phoenix states, “The City of Phoenix is strongly committed to reducing air pollution and protecting public health. The city implements a wide range of air quality programs to reduce ozone and particulate pollution (dust and smoke). Transit, light rail, bikeways, and pedestrian-friendly development reduce vehicle emissions and promote land use planning and urban designs for a more sustainable environment”. How will this development protect public health when in fact, it will introduce vulnerabilities witthin the community? It will actively degrade and destroy the health of the surrounding community and communities.

Equally concerning is the potential destruction of native plants in the area due to this development. The loss of biodiversity and destruction of the Sonoran Desert's unique ecosystem cannot be taken lightly.

The Environmental Protection Agency asserts that that, “Volatile organic compounds (VOC) means any compound of carbon, excluding carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates, and ammonium carbonate, which participates in atmospheric photochemical reactions”. These harmful chemicals would be released into our atmosphere if the proposed development is approved. We must oppose and condemn this egregious use of building authority with passion for the future of the City of Phoenix, and on a more global scale, the Earth itself.

In light of these concerns, I wholeheartedly disagree and very strongly oppose the Vestar Development Group's plans for the Northwest Corner of Deer Valley and Black Mountain. I urge you to immediately stop and immediately halt all current and future development plans and instead prioritize the city's sustainability goals, community well-being, and the preservation of the natural environment. By doing so, you can help shape a better future for the City of Phoenix and its residents.

Thank you for your attention to this matter.

Sincerely,

Justin M.

**Support Comments**

I do NOT support a shopping center at this location. It's already too congested as it is at that intersection and south toward the 101. This is not a prime location for something like this right near the high school and between so many large neighborhoods. Maybe great for the businesses but terrible for neighbors!

The design of our roads and infrastructure in our area was not designed and is not currently conducive for more high traffic areas. The roads will become a nightmare - even more so (esp in black mountain) than they are now.

It's relatively quiet in our area too - aside from the chaos on Tatum in Desert Ridge. Let's not bring that chaos west a few blocks!

I will not support a shopping center at this location and aside from those reasons shared above, I have a list full of others.

If anything, make parking and traffic easier on Pinnacle students and families so they don't have to block intersections, slow traffic, or bring their traffic for pick up and drop off into neighborhood streets. If anything, that high school and its community need support for better access before, during, and after school.

I guarantee if you put a shopping center in, that parking lot will be filled with student parking M-F. Make decisions that are to the benefit of the community, not for making money hungry investors richer.

Please do not allow a gas station on that corner. How about a public library? A park? A community center? Do we really need to put junk food outlets and hang outs so close to the high school? Property values won't be the same if this is not done properly. If anything a small grocer like sprouts or Trader Joe's might be ok. Prefer it was just housing.

Re: GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2; Resident Statement in Opposition

Dear Mr. Grande:

I reside in Desert Ridge, and I am opposed to the above listed applications. My home is well west of the commercial core, overlooking Black Mountain Boulevard and Pinnacle High School ("PHS"), and with a view of the parcel in question. I have reviewed the application materials posted on the website of Applicant's ("Vestar") counsel, and I attended the informational meeting of the Desert View Village Planning Committee on August 1, 2023.

The requested change is beyond inequitable, it is unconscionable. It does extreme violence to the terms of the Desert Ridge Specific Plan ("DRSP")[1] and the reasonable expectations of Desert Ridge homeowners along Black Mountain Boulevard under the terms of the plan. It does nothing to further the well-being of nearby residents and poses myriad problems. The arguments offered by Vestar to justify the change do not pass muster, as will be readily demonstrated below.

## THE PROPOSED CHANGE IS AN EXTREME DEPARTURE FROM THE DRSP

DRSP contemplates that "commercial development is restricted to the Village Center . . ." except for "neighborhood commercial uses located within the residential superblocks".[2] DRSP goes on to explain the extremely limited size and scope of such commercial uses:

> The neighborhood convenience commercial centers are very limited in size. They are intended to serve only the superblock in which they are located and not intended to serve a population outside the superblock boundary. The **maximum total acreage for neighborhood retail uses**, including buildings, parking, landscaping, and any other items related to the existence of the neighborhood retail use, **shall be three (3) net acres**, while the minimum acreage will be one (1) net acre. [3]

Furthermore, DRSP strictly limits the permitted uses within non-core superblocks, and the list does not include gas stations or drive-through coffee operations[4], both of which were touted by Vestar's counsel at the informational meeting. Indeed, DRSP specifically prohibits "Drive-through uses".[5]
Under the DRSP, no family purchasing a single-family home in a non-core superblock would reasonably anticipate having a drive-through Dutch Brothers or Starbucks, or a gas station, across the street from their home. Vestar now proposes a 20-acre commercial development in Superblock 12. [6] Vestar is essentially asking the City of Phoenix to throw out DRSP and stab nearby homeowners in the back.

## OBVIOUS INTENT TO DRAW ADDITIONAL TRAFFIC FROM SR 51

When Black Mountain Boulevard south of Mayo Boulevard was completed and made the terminal exit of SR 51, concerns of nearby residents were addressed by placing a traffic circle to slow down traffic and discourage heavy trucks, and by providing a pedestrian bridge for safe access to PHS.

The proposed change represents a complete reversal of what was until now a concerted effort to keep Black Mountain Boulevard more quiet and more safe. The placement of the proposed shopping center, at the first traffic light after the SR 51 terminal exit, is obviously intended to attract vehicles that would otherwise continue west on SR 101 and exit at Cave Creek Road or further west. It is a repudiation of DRSP's promise that homeowners could expect to live in clean, quiet neighborhoods while commercial activity was limited to the Village Commercial Core.

## MAGNET FOR UNSUPERVISED ADOLOSCENTS

Placement of the shopping center within spitting distance of PHS is problematic. This is not meant to disparage the PHS student body as a whole. Nevertheless, in any group of over 2500 teenagers[7], there will be those whose immaturity or lack of direction makes them prone to get in trouble. While the studious and industrious will disperse to more wholesome activities, there will undoubtedly be those who choose to hang out. The shopping center, just across a narrow street from PHS, will obviously become the hang out venue of choice.

There are numerous reports of problems with unsupervised teenagers in retail environments across the country[8], and unsupervised time leads to drug use and other issues.[9] Given the location, these problems will undoubtedly spill over into the surrounding residential areas, which already experience litter, graffiti, vandalism and doorbell pranking. Encouraging high concentrations of hundreds of unsupervised teenagers cannot be a benefit to the teenagers or anyone else. It is best for all concerned if the students disperse when not involved in supervised activities.

Vestar claims that the presence of the high school makes the parcel unsuitable for development as currently zoned.[10] The opposite is true. DRSP and the existing zoning contemplate Superblock 12 to contain only the high school and residential use. PHS opened in or about 2000. Nothing has changed about PHS that would justify depriving nearby homeowners of their reasonable expectations under DRSP.

## AIR, NOISE AND LIGHT POLLUTION

DRSP prohibits "Drive-through uses"[11] in non-core superblocks for very good reasons. These operations generate considerable pollution. Not only are PHS and numerous homes nearby, but Fireside Elementary is not far and generally downwind. Air pollution from idling engines is a serious problem[12], and some communities have gone so far as to try banning drive-through operations entirely[13]. The air quality in Phoenix, and Maricopa County generally, is notoriously poor with many "bad air" days. [14] Encouraging drivers to turn their motors off while waiting will never work when the temperature is over 90 degrees. DRSP's approach of limiting these operations to the Village Commercial Core is not arbitrary and should be maintained.

Although Deer Valley Drive and Black Mountain Boulevard have some traffic at rush hours, things tend to quiet down in the evening and there is a distinct residential tone to the neighborhood. This holds true when attendees disburse after PHS Friday night football. The proposed shopping center will keep the noise up and the lights on much later than nearby residents are used to, greatly diminishing the residential character of the community.

## TRAFFIC CONGESTION

I am aware that other residents have commented on traffic issues. I will not belabor the point here, except to note that in the chaos that occurs every morning when PHS is in session, I have at times been unable access westbound Mayo Boulevard from the N. 36th Way gate of my community. Vestar contemplates cars entering and exiting the shopping center on all four surrounding streets. This would include Mayo Boulevard directly across from PHS, and will surely exacerbate the existing problems.

## VESTAR'S SCHEME IS NOT JUSTIFIED

Vestar's purported justifications of its scheme do not withstand scrutiny.

**There are no traffic or parking impediments to residents obtaining daily needs at the Desert Ridge Marketplace ("DRM").**

DRM was designed to enable local folks to get to the pharmacy, gas station, grocery store, and various other businesses without getting involved with traffic headed to the big box stores, apparel outlets or entertainment district. The local needs providers are located in the northwest corner of the marketplace and are readily accessed from two curb cuts on Deer Valley Drive just east of Tatum Boulevard. The apparel and box stores, as well as the entertainment district, are closer to other, much larger, parking lots which are served by numerous additional entrances to DRM. I have lived in Desert Ridge for over 11 years and have never, even on Black Friday, had a problem finding parking at Albertson's. To illustrate this, I recorded a video at Grocery Run Sat 08-19-2023 - YouTube. [15]

**The proposed center is unlikely to provide alternative groceries.**

At the informational meeting, Vestar's counsel admitted that Vestar is unable to identify any specific grocer that would occupy the proposed grocery store. Although Vestar says it expects the grocery store to be smaller than the existing Albertson's, its counsel conceded that none of the proposed businesses are sure to occupy the shopping center. Assuming that a grocery store is established, there is no reason to believe that it will offer merchandise different that that offered at Albertsons.

**Creation of minimum wage retail jobs is not a community priority.**

The small number of jobs projected to be "created" on the new shopping center could easily be placed elsewhere. It should also be noted that substantial construction is taking place at nearby High Street and City North where much higher density residences, offices, and retail spaces are being built.

**Purported benefits to the community are illusory at best.**

*Keeping the Current Zoning will have the same effect on dust and storm runoff.*

The supposed dust control and storm runoff management benefits are speculative and unquantified. In 11 years, I have never seen significant flooding along Black Mountain Boulevard. Residential development at the site would have the same effect.

*The "safe alternative" for students is illusory.*

Encouraging teenagers to consume junk fast food benefits no one. The so called "safe alternative . . . before school, after school, and during the lunch hour" actually describes an unsupervised hangout for hundreds of teenagers with all the attendant problems described above. A concession by PHS's principal that the project "would potentially reduce the number of off-campus trips by car"[16] hardly demonstrates a full-throated endorsement of the scheme. Had there been a firm expression of general support for the project from anyone in authority at PHS or the school district, Vestar would surely have mentioned it in its explanatory letters.

*The residential remnant shows how the change is repugnant to DRSP.*

The fact that Vestar wants to gobble up 20 acres of the Superblock while leaving a mere remnant for residences demonstrates how the proposal is repugnant to both the letter and spirit of DRSP.

*The gas station and shopping center have no health benefits and will not be a community social center.*

There is nothing about the proposed project that will foster connection among the citizens. There are innumerable such shopping centers around Phoenix, and there is nothing unique about this proposal. There are no outdoor parks, exhibition or performance spaces illustrated on the Conceptual Site Plan. The purported health benefits are nothing but speculation. It is my observation after 11 years living here that very few people walk with groceries around Desert Ridge, regardless of the season. The health hazards of innumerable automobiles spewing particle pollution on the drive-through lines clearly outweigh these specious claims of health benefits.

*The proposed gas station will not provide a net benefit to the community.*

A gas station will generate excess light, noise, and fumes on a 24/7 basis. The convenience store that will inevitably accompany it will only encourage additional teenage loitering.

In my 11 years here, I have only fueled my car once or twice at the Shell station at DRM, even though it is the most conveniently located, and I am there several times a week while visiting the grocery store or the pharmacy. The problem is that Shell stations generally charge considerably more than Circle K, QT or Arco. The issue, if there is one, is the price, not the location.

The proposed gas station is obviously intended to draw traffic from SR 51 as discussed above. Located as the last gas before the freeway, competitive pricing is doubtful.

*The Desert Ridge Community Association (DRCA) has not taken a position on this project.*

Although there have been communications between DRCA and Vestar, the board of DRCA has never resolved to support this project. While I am not privy to communications that may have taken place between Vestar and DRCA's officers or board members, the Association has never formally endorsed the project. A copy of an email from DRCA confirming this is attached as Exhibit A.

## THE PROPOSED CHANGE IS AN UNCONSCIONABLE STAB IN THE BACK

Zoning determinations must be "… equitable, in terms of consistency with established regulations and procedures, respect for the rights of property owners, and the consideration of the interests of the citizens of the City."[17]

DRSP provides for a mix of densities and uses, from mixed commercial and multi dwelling to condominiums, to rental apartments to single family homes. Purchasers of single-family homes were encouraged by a central feature of the plan: all significant commercial activity is placed in the Village Commercial Core. Retail conveniences in the non-core residential superblocks are limited to a list of specified uses, limited to three acres, and drive-through operations are expressly prohibited. Thus, purchasers of single-family homes could look forward to living in

clean, quiet residential neighborhoods. Vestar now proposes to simply rip up that plan and asks the City to stab nearby homeowners in the back.

Rejecting this proposal is not unfair to any Desert Ridge Residents who may endorse, in the abstract, a gas station or additional retail operations. There was nothing about DRSP that gave them any reasonable expectation that these things would be built on Black Mountain Boulevard, and they were content to buy their homes under that plan. Vestar's plan to ruin the lives of residents along Black Mountain Boulevard is grossly unfair; indeed, it is unconscionable and must be rejected.

Respectfully submitted,

James W. Tuffin

**Subject:** TO ALL BOARD MEMBERS AND TERRENCE SMITH Re: Plan and Zoning Change Case Black Mtn and Deer Valley

Hi Folks,

It was great reconnecting with Reggie and Doug at the recent Desert Village Planning Committee meeting, and remembering the fellowship we enjoyed when I served as DRCA treasurer. Having stepped back from community affairs, I was taken by surprise by the rezoning notice and some of the things I heard at the meeting. Now I need to catch up and I hope you can help me.

At the meeting, and in an explanatory letter submitted to the City, Vestar's counsel suggested that the DRCA supports the proposed changes. I respectfully request answers to the following questions:

1. Did the DRCA ever pass a resolution supporting the proposed changes or the project in general? If so, please provide a copy of the text of the resolution(s) and the agenda(s) and minutes of the meeting(s) at which such resolution(s) was (were) adopted.

2. Is DRCA, its representatives or agents, in possession of any writings, correspondence, emails or texts showing communications between or among the DRCA, Vestar, Vestar's counsel or representatives, the City of Phoenix or the Arizona State Land Department related to the proposed project or the applications for plan and zoning changes? If so, how can association members get access to those materials?

I'm guessing you'll be seeing a bit more of me in the coming months and as always, whether we agree or disagree, as friends. As you might imagine, I need a response to each question as soon as you can do it. Please do not delay responding to question 1 if you need more time to answer question 2. I should mention, although I'm sure you know it already, that your response may be incorporated into submissions I may make to the City. As a professional courtesy, I am providing Vestar's counsel with a copy of this request.

Thank you very much.

Warm regards,

Jim (James W. Tuffin)

Hello Anthony,

I am Rajesh Gadde live in fireside at desert ridge, I would like to formally email you my opposition about building Black mountain village , I think it's going to make our safe neighborhood area into commercial area thus causing danger to kids , we don't want this at all. Please help us om this matter.

Thanks
Rajesh

HI Anthony:

I attended the recent board meeting regarding case GPA-DSTV-2-23-2 regarding the rezoning of the 20.5 acres located on the corner of Deer Valley and Black Mountain in the Desert Ridge area.

I currently live in the Fireside neighborhood, and was taken back by plans to change this lot from residential use to commercial use. I would like to see that land developed for residential as it was originally intended; or given to Pinnacle High School, as they need additional parking for their students.

In no way would I want a gas station or large grocery store to be located in that area. Not only would the light pollution from the gas station be bothersome, and the noise from delivery trucks at early hours, but the added traffic to the area as well! This is already a busy corner!

Please take the residents, the high school students, and the neighborhoods into consideration before changing this lot from residential to commercial.

Thank you,

Julia

| **To:** | Anthony M Grande |
| **Cc:** | Council District 2 PCC; Eric Molenaar |
| **Subject:** | Proposed land development at Mayo/black mtn |
| **Date:** | Sunday, August 27, 2023 9:29:11 AM |

Mr Grande, city officials, etc,

Assuming you are the proper representatives to contact regarding this matter, I'd like to please ask you and the city representatives to consider the opposition many residents here in Fireside Desert Ridge have to the proposed zoning changes of the property at Black Mountain Blvd and Mayo Blvd /Deer Valley Drive right next to Pinnacle High School.

It's currently zoned for residential and for the developer to change it to retail shopping opens this area up to increased traffic congestion and student/resident safety issues here in the area.

I invite any of you to please come observe the traffic at these intersections around the school during the peak times of dropoff 7:20-7:30 am and at 2:15-2:20 pm pickup when it's the worst. These intersections are a nightmare then. Droves of kids are walking to school and crossing/jaywalking across these intersections some are on bikes even—and they are NOT heeding any kind of traffic signals or signs because they are kids of course. Many cars are racing through yellow lights and people sitting in intersections at red lights because they tried to fit through. We have seen lots of accidents, a lot of honking and near misses. My son's Pinnacle soccer coach was just in an accident this past Friday during pickup when a man in a car not paying attention to stopped traffic on Mayo slammed into the back of him causing his car to hit the car in front of him, which was driven by a student. It happens all the time because of the sheer volume of cars and kids and mayhem happening during these times. It is only a matter of time before a kid is seriously maimed or killed at this intersection/area.

I live across the street in Fireside, a stone's throw from this land where they are going to build. My son attends the high school and my twin girls will attend next fall and then my youngest will attend in two years. We are stuck for a long time with whatever the powers that be decide should go here. I worry about the influx of traffic and congestion, the problems it brings to us as nearby residents, by way of safety especially—but also being a single mom I bought this home two years ago for its close proximity to school for my kids to walk to local schools and the safe neighborhood feel. But I'm worried at the potential drop in property values if they start putting in crappy shops or gas stations or smoke vape shops, causing our nice residential area to look, smell and sound like a truck stop dump attracting transients and homelessness, no doubt.

I know money will likely win out in the end, and something will be built here. It's a shame the school district couldn't have bought a piece of this property for added parking for the students at school because as it is currently, only seniors can park in the school lot, which is asinine. The principal at Pinnacle has even told parents last week they have addressed safety and traffic issues to Vestar but ultimately can't have a definitive say in this land development.

City officials have a duty to protect the interests of the residents here who live and work and pay taxes.

These developers have the monetary means to at least put an-over-the street walkway /sidewalk bridge from the Mayo/Black Mtn crosswalk over to the school so our kids aren't playing Frogger in traffic through red and green lights as they currently do every single school day. The existing walking bridge that some idiot designed and installed years ago is out of the way for kids to walk, located south at the 51 interchange, at the dog park entrance, so they would have to walk down there then back around to go back up to the school—it's an extra 10-15 min of walking —not a single soul is doing that and that pedestrian bridge remains not utilized.

**My question: Could the city mandate the developer to at least relocate the pedestrian bridge to the problem/ busy intersection at the school instead of that bridge uselessly sitting down the street out of the way? (I included a pic of bridge area)**

If something is built here eventually, I hope the people in charge will think first of the safety of students and residents over the quick buck they'll make in revenue at the site.

Thank you for hearing me,
Andrea Remke,
Phoenix resident of Fireside Desert Ridge

**Date:** Monday, August 28, 2023 10:28:56 AM

---

Hello Mr. Grande,

We are Desert Ridge community members. We have lived here for almost 15 years and in that time, we've seen many changes. Some are good, some not so good.
We are very concerned about the proposal to convert the property from residential to commercial at the corner of Black Mountain and Deer Valley. That corner is active all day, especially during school and sports hours. It's grown from 2 lanes into the large vein that cuts through Desert Ridge connecting Cave Creek to 56th and possibly in the future, Scottsdale Road. Added traffic and distractions could be disastrous for all drivers on the road. Traffic will become heavier (shoppers coming and going, drive-through lines, delivery trucks, etc.) creating an even more congested intersection. We would honestly love to see a traffic survey done as this is such a busy intersection and we all need to get a full idea of usage and traffic patterns.
There are 3 schools within walking distance of this area. We are very concerned about inviting strangers to the heart of our neighborhood for a quick stop. Security and issues at DR Marketplace have been escalating and we don't feel we need to invite more people into our neighborhood for some Chick-fil-A or to gas up their vehicles. We don't have the resources to handle disturbances in DR Marketplace. Why would this be any different?
We also don't believe stores and convenience markets should have the ability to sell alcohol and tobacco products that close to a high school. It will just bring issues to law enforcement that is stretched unbearably thin.
Our children are still young, but we've heard there isn't enough parking at the high school so this will just entice kids to park there and create issues with parents, the high school, and business owners. We've heard that the developer won't limit the store sizes so parking could be inadequate for the project which would add an additional level of stress for shoppers and drivers trying to find parking spots and exit or enter the center.
We feel converting this land will come with a whole host of issues that will outweigh the benefits to DR citizens. We in no way think the land developers have the community's best interest in mind. They, as many before them, build and leave. They never give a second thought to what impact they add to the communities they have worked within. Honestly, with all the new builds going up in Desert Ridge, we feel we need to proceed slower than we are to make sure the roads and area can handle all this growth. We have several big projects currently in different stages (clearing land on Deer Valley for 882 new apartments, a whole new community going in off 56th and the massive plans for City North) the added fallout including the number of new community members, additional cars on our already congested roads without an option for expansion and added pressure on the school district, etc., is yet to be seen.

Thank you for your time,
Adam and Timari Rusak

We have lived here in Aviano for 7 years. It's a great neighborhood with easy access to Fireside, Explorer, Wildfire and Pinnacle. If you allow a gas station and other stores to be built next to Pinnacle - the traffic will increase, the crime will increase, the traffic accidents will increase and our properties will devalue. Please vote against building in this area. thank you.

| **Date:** | Tuesday, August 29, 2023 5:03:20 PM |

Hello, my name is Brad Burnes, and my family and I moved to 36th St in Fireside a little over 10 years ago. I can unequivocally say the idea of a shopping center at Deer Valley and Black Mountain is an awful idea, and only a play for cash.

Have you witnessed the traffic during school dropoff and pickup? It's a disaster. Can you provide details of home values in other neighborhoods where a shopping center was allowed to be built after a re-zoning?

We moved to this area because of the vision and community aspect. If the city proceeds with this development against the majority of Desert Ridge residents, how does that value the voice of the residents?

There's plenty of land north of Pinnacle Peak. Please use common sense and do not allow this to happen.

A very concerned voter and resident,
Brad Burnes

**Date:** Tuesday, August 29, 2023 9:43:47 PM

---

Hi Anthony,

My name is Micheal Copeland and I'm a resident in Fireside. I would like to express my deep concern and opposition to the proposed rezoning by Vestar of the parcel located at the SW of Deer Valley and Black Mountain High.

Potential uses including gas stations and quick service retail with drive would have quite a negative impact on the neighborhood. It would also increase the risk to high school students next door given the already existing issues with traffic and parking.

Ultimately - I would argue that whilst it is still State Land, it should benefit the schools per Arizona laws because Public Education is the main beneficiaries of state land sales. It should not hurt a public school when they sell it.

I'd also point to the City's "Vision Zero" (zero traffic casualties) plan to highlight my concerns with regards to the traffic situation and student safety around Pinnacle High School. I have not seen anything from Vestar that would ameliorate these concerns.

Furthermore, Vestar could easily develop what they want under the existing plan on pre identified commercial zones. Given the proximity to over 600,000 square feet of retail within a mile, there simply is not a need to add additional retail on this parcel.

Sincerely,

Micheal Copeland

Sent from my iPhone
Quick reminder to everyone that tonight at 6pm is the Fireside HOA meeting. The attorneys from Vestar will be doing their presentation and answer any questions you may have.

Goto zoom.com and use meeting ID: 811-9962-3685 and Passcode : 997589

I attended the Desert Ridge Community HOA meeting last week and my conclusion was that nobody in the HOA's, nor the Village Planning Committee for our area will stop this proposal.

It will take all surrounding communities to attend all the meetings and at least write their views on the proposal and submit them to our councilman ([council.district.2@phoenix.gov](mailto:council.district.2@phoenix.gov) ) and the City Planner ([anthony.grande@phoenix.gov](mailto:anthony.grande@phoenix.gov) ). Reference : GPA-DSTV-2-23-2

They should know that it needs their attention instead of making a quick buck by selling the land. We need to separate the school traffic from the work traffic to ease the congestion around that area and we should be adding safer drop off areas behind the school and away from Blackmountain boulevard and point out that this Highschool still has vacant land available to address the situation.

Once this is sold and a big box grocery, gas station, big trucks, etc, etc are put their instead, the community will have to live with the consequences. Everyone should also be concerned about the impact of Grocery/Gas stations on the students behavior and attendance of classes. Other folks from the community have brought up other concerns as well.

Ultimately - I would argue that whilst it is still State Land, it should benefit the schools per Arizona laws because

Public Education is the main beneficiaries of state land sales. It should not hurt a public school when they sell it.

The school will be there for a long time – so we should make an effort now to keep Desert Ridge communities desirable and family friendly.

We should put student safety before anything else whilst we still can.

Please email your views!!

Let us know your thoughts on this at the meeting or on this post.

Hi Anthony,

I'm strongly against the Black Mountain Village plan and zoning changes (cases are GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2).

It feels like a bait and switch for our community (especially us in the cooper view sub-community on black mountain and deer valley who would feel this impact the hardest).

There is plenty of land closer to cave creek available and already designated for commercial purchase.

Thank you,
Andy Mesecher

Mr Grande,

I wanted to express my strong opposition for the commercial development Black Mountain Village. I am a parent of an 8th grader and a 5th grader in the community.

We purchased our home in this area for the community feel, residential zoning and walkability. The traffic near Pinnacle High School is already dangerous and adding a commercial building would surely lead to additional traffic issues and potential accidents.

Desert Ridge Marketplace and High Street already offer plenty of shopping and restaurants and we are have plenty of convenient options being so close to the freeway.

Please halt plans for the Black Mountain Village shopping center.

Thank you for your time and consideration.

| **Subject:** | Reference : GPA-DSTV-2-23-2 - Proposed development at deer Valley and Black Mountain |
| **Date:** | Wednesday, August 30, 2023 10:09:02 AM |

I am a resident of Fireside and my children attend the local schools. I am writing to tell you that I am completely opposed to the rezoning of land for commercial development at the corner or Black Mountain Pkwy and Deer Valley Rd.

The proposed development will make an already difficult traffic situation dramatically worse. Student safety crossing Black Mountain is already compromised by the lack of crossing guards and / or police presence. Cars are parked on Black Mountain and Mayo Blvd at dropoff and pickup times, already blocking normal traffic flow. Eastbound traffic on Deer Valley already gets backed up for hundreds of yards on school days during pickup and dropoff times. This new development would make it significantly worse and dangerous for pedestrians.

The property in question was previously earmarked for public space, like a park. Why is that plan being dropped?

There are other plots of land nearby (Cave Creek / Pinnacle Peak) which are already approved for the type of development being proposed. There should be no changes of the use of the property at Deer Valley and Black Mtn, until that already approved plots are sold and developed.

| **From:** | Alexandra Hyszczak |
| **To:** | Anthony M Grande |
| **Subject:** | Opposition to Black Mountain Village / Superblock 12 |
| **Date:** | Wednesday, August 30, 2023 11:47:11 AM |

Dear Anthony,

I am writing in regards to the rezoning of the land parcel at the corner of Deer Valley Rd and Black Mountain Boulevard ("Black Mountain Village / Superblock 12"). As a resident of Sky Crossing, across Deer Valley from this parcel, my family and I, along with 1220 homeowners, will be directly impacted by this proposed development.

I would like to bring to your attention some concerns that I have relevant to this rezoning.

Traffic is already high on these two streets – at morning drop-off, cars line up from the school around the corner onto Deer Valley all the way to 32nd St. The addition of a large shopping center will greatly increase this traffic, bringing more inconvenience, noise and pollution, especially so if a gas station is built. A gas station is not something we need in this location, as there are a number of gas stations nearby on Cave Creek and on Tatum, all within 2 to 3 miles from this area.

Additionally, the proposal contains multiple access/egress points with no provision for safe crossing or pedestrian/bike safety. A proposal that has the potential to create roughly double the traffic should be required to address these impacts, especially when located across from residential areas and next to a school.

The explanation letter for the project describes that for community benefit, the project has the potential to "increase health" and "reduce transportation burdens" of area residents by creating a walkable/bikeable retail/grocery destination and "may reduce emissions from residents driving to Desert Ridge Marketplace." These statements are, frankly, unproven and unsupported by the conceptual design, given the proposed rezoning contains no description of how the commercial center will cater to walking and biking.

Light Pollution is another major concern. Nobody wants to see bright lights on all night that will disrupt the tranquility of our lives and interrupt our sleep.

We chose to build our home in Sky Crossing due to its location, being *between* two retail areas (Desert Ridge and Cave Creek Rd) and not directly adjacent to those busy areas. Creating a commercial zone in this community greatly reduces the value of this location.

Thank you for your time and attention to this important matter.

To whom it may concern,

I appreciate the opportunity to have my voice heard. I am a homeowner in Fireside and I absolutely love our neighborhood. I love it how it is. I am extremely concerned for the future of our neighborhood and the other surrounding areas if this project is allowed to commence.

I absolutely do not support this development. Desert Ridge Marketplace is bad enough with all the fights, theft, and sketchy people that it draws to the area! I refuse to allow my kids to go to Desert Ridge without an adult present, and my oldest is 16! There are too many homeless panhandlers, and unsavory people that are drawn to shopping centers. To have a development right next to the high school and elementary school than my kids attend is not what we were promised when we bought our home. My kids walk to school, that's a primary reason for buying our house. I would not feel comfortable with my kids walking to/from school if it was right next to a shopping center like Desert Ridge Marketplace, I see the type of people that shopping centers draw in. Even this one, being a more high end area brings in distasteful people.

This area is residential, and it needs to stay that way. The increased traffic alone, is a huge concern. Have you ever tried to come through the area in the morning or afternoon when kids are arriving or leaving school? I pray the day NEVER comes that an impatient or inexperienced driver strikes and kills a student, but this area is like a ticking time bomb. Too many cars on too few streets. The area cannot support more traffic. Does the bottom line only come down to money? What about our kids and their safety? We bought our home here to have a safe place for our kids to grow up…this was NOT a part of the plan for this community. The safety issue comes down to more than just cars. Do you realize how easy it is for a kid to be abducted in/around a shopping center or for kids to be lured into trying drugs or alcohol as they pass by on their way home? I am not in support of this development and I truly hope that this will not just be pushed through without the consent of the taxpayers living in the surrounding neighborhoods.

Hello Anthony,
I am reaching out to voice my displeasure and to ask for your support with ensuring that Vestar/other corporations are blocked from rezoning from “residential” to “commercial” for the proposed Black Mountain Village in Desert Ridge. The *residential* zoning was absolutely a key factor when we purchased our home and would be devastating to our community if rezoning is allowed. There seems to be plenty of commercial zoning between High Street, Tatum and Cave Creek Roads.

Regards,
Zak House

re: Black Mountain Village plan and zoning changes cases GPA-DSTV-2-23-2 and GPA-DSTV-3-23-2/Z-39-23-2

Mr Grande -

Writing as a concerned resident of Desert Ridge in the Fireside neighborhood. I moved here in 2007 and have watched this neighborhood grow. Love it. Raised 3 children here, two of which are at Pinnacle High School and another starting next year.

My wife and I are quite concerned with the proposed re-zoning of the property north of Pinnacle High School at the corner of Black Mountain Blvd and Deer Valley Road. This property is smack dab in the middle of other residentially zoned homes, Thousands. There are sufficient commercially zoned properties in the Desert View Village to support future resident growth of this beautiful area... not to mention a wonderful village core in and around Desert Ridge Marketplace.

There is the issue of commercial traffic conflicting with the Pinnacle traffic which is already a safety issue. I am aware of the fact that Pinnacle High School leadership is NOT supportive of this re-zoning even though that was misrepresented by the developer at the 8/1/23 village meeting. Adding commercial traffic to this area that is not familiar with the daily high school traffic patterns (as residential traffic would be) is IRRESPONSIBLE. This issue in and of itself should be enough for the Committee to reject this re-zoning request.

On top of this are the hundreds of neighbors of mine who invested in property thinking this land would be used for future residential use.

I don't intend to hop on the NIMBY train; I just don't think this request of Vestar is in alignment with what the General Plan originally intended this land be used for and I specifically request the Committee REJECT the developer's case.

Thanks for listening -

Matt Chitwood

Anthony,

I also live adjacent to the project at Black Mountain Village proposal. From an outsider's opinion, I can see why the idea of more commercial real estate would monetarily benefit the city of Phoenix, Vestar and their attorneys Gammage & Burnham. However, **what is heavily being overlooked is the safety of our community and our children** with the rezoning from residential to commercial.

**Safety of our children:**
Our section in the Fireside community called Copper View sits adjacent to the proposed land at the southeast corner of Black Mountain and Deer Valley. Since 2012 our section has been a cut through for the aggressive drivers both parents and children of Pinnacle High School. On my street alone (Cat Balue Dr.) there are 27 children under the age of 10 years old that walk to the elementary school and play in our neighborhood. This doesn't include the other 4 streets with 50 additional homes to consider. We have seen too many close calls where our children were almost hit by these aggressive drivers! Imagine living in a community where you do not feel safe letting your kids play out front.

Additionally, Stephen, the attorney for Gammage & Burnham, said on our Fireside community call this Tuesday that the new traffic would be "counter cyclical patterns" around school hours during the week and weekend. This means to me that not only do we have to deal with aggressive drivers from Pinnacle High School, but now we must deal with aggressive drivers all day and on the weekends! We cannot live in a community where our children are at a greater risk of being hit by a car while walking to school or playing in their neighborhood.

Secondly, I am concerned that a commercial zone would bring a bus stop right at the corner of Copper View (Black Mountain & Deer Valley). There are numerous amounts of homeless people that sleep on the bus stops at Tatum & Deer Valley. I see them at all hours of the day starting at 5am when I go to Mountainside Fitness and in the evening. We do not want to attract nor give reason for more homeless to encroach our family neighborhoods with a commercial zone. This is not only a safety concern for our families but will also impact our property values. PLEASE keep our neighborhoods (Fireside, Aviano, Sky Crossing) a family suburb of Phoenix. **I am asking as a concerned parent of 3 little kids that you help us protect our children and the safety of our community by putting a stop to this project.**

I appreciate your time and commitment to keeping Desert Ridge a GREAT, family friendly community in Phoenix.

Forgot to include this: Black Mountain Village plan and zoning changes GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2

Anthony, I live adjacent to the project at Black Mountain Village proposal. We do not want to have beer, liquor and cigarette sales next to our neighborhood or Pinnacle High School. Nor do we want drive through restaurants and gas stations that are open 24/7. This will bring about crowds of people at all hours that we current have the benefit of avoiding as it stays closer to Tatum or Cave Creek roads. I feel that this completely changes the residential feel of our area in Desert Ridge and feel like this is a money grab right in our neighborhoods of Fireside, Aviano and Sky Crossing.

When we built our homes this was *never* a consideration and do not want this project proceeding. **Please help us put a stop to this project in any way we can**. If anything this area should be used as an overflow for the high school or some type of traffic mitigation for Black Mountain. We already see the overflow from the high school traffic in our direct part of the neighborhood and do not want this to increase where our kids walk to and from school every day, to their elementary school. We have 40+ children that walk every single school day and any increased traffic will up the risk of someone getting hurt through reckless driving, with people trying to avoid the traffic on Black Mountain.

Please help us and hear what we're asking before this goes forward. There are much better uses of that land and once it's commercial, all bets are off.

| **Subject:** | Desert Ridge Superblock 12 rezoning |
| **Date:** | Sunday, September 3, 2023 9:57:47 AM |
| **Importance:** | High |

Hi,

I am a long-time resident of Fireside at Desert Ridge and am very concerned with the proposed changes to the land parcel between Pinnacle High school and Deer Valley Rd (**Case No. SPA-DS1 V-2-23-2), (Case No. CPA-DSTV-3-23-2) and (Case No. Z-39-23).**

We moved here 10+ years back with an explicit understanding that this was a residential area, with high quality living and low crime rates. Over the years, several things have happened that are cumulatively of an increasing level of concern :

- Connection to Hwy 51 has significantly increased vehicular traffic and noise levels at all times for the neighborhood
- It is a nightmare getting out near Pinnacle High school in the morning, traffic back up in all directions and is a nuisance to the Fireside neighborhood. I have to go around it to drop my daughter to PVHS at that same time.
- An extension of Mayo Blvd to Tatum will make it even worse
- As more homes have been added, traffic at both Tatum and Cave Creek is getting progressively worse

If the rezoning and the development project is approved, here is what I foresee happening :

- Retail center will have bright lighting and noise at night and early morning hours with logistics
- Already horrible traffic at school times will get even worse, plus additional delivery trucks going in and out
- Crime rates are likely to increase, homelessness and drug use are already of grave concerns in the nearby areas
- Property value will take a dip

A much better use of that space would be to expand parking access to Pinnacle high school that will also alleviate some of the traffic concerns everyone can feel and have raised.

I would urge you to strongly oppose this change, and save the serenity and quality of the neighborhood that we all love and like so much. It would be shame to have money-grab development destroy the character of the community.

Regards,
Neeraj Chandak

| **Subject:** | Desert Ridge Superblock 12 rezoning- Opposing Vestar"s Balck Mountain Village proposal |
| **Date:** | Sunday, September 3, 2023 10:36:21 AM |

Hello,

As a long-time resident of Fireside at Desert Ridge I am deeply concerned with the proposed changes to the land parcel between Pinnacle High school and Deer Valley Rd (**Case No. SPA-DS1 V-2-23-2), (Case No. CPA-DSTV-3-23-2) and (Case No. Z-39-23).**

I moved here back in 2013 with my family and 2 young daughters to be part of this beautiful neighborhood with great community feel and low crime rates.
Over the years, several things have happened that are cumulatively of an increasing level of concern :

- Increased traffic and noise level due to Connection to Hwy 51.
- Dis-respect and abusing of our neighborhood by Pinnancle High School drop off and pick up crowd. Our Neighborhood has become a parking spot for Pinnacle parent drop off and pick up making it extremely difficult for residents to walk or even take their cars out for morning and afternoon commute.
- Getting out of the copper view subdivision is at nightmare due to backed up traffic for Pinnacle High school in the morning, It back up in all directions and is a nuisance to the Fireside neighborhood. I fear for my teenage daughter's safety as she drives to her high school amidst this crazy traffic.
- An extension of Mayo Blvd to Tatum will make it even worse
- As more homes have been added, traffic at both Tatum and Cave Creek is getting progressively worse

This is what I dear with the rezoning and the development project is approved.

- Crime rates are likely to increase, homelessness and drug use are already of grave concerns in the nearby area
- Retail center will have bright lighting and noise at night and early morning hours with logistics
- Already horrible traffic at school times will get even worse, plus additional delivery trucks going in and out
- Our property values will dip considerably

A much better use of that space would be to expand parking access to Pinnacle high school that will also alleviate some of the traffic concerns everyone can feel and have raised.

I strongly oppose this change and request you to not zone this as a commercial zone to save the serenity and quality of the neighborhood that we all love and like so much. I would hate to see this beautiful neighborhood being destroyed by few folks who are looking at it for mere financial gains into their pockets.

Thanks,
Kavita Chandak

Paradise Valley
Unified School District

**Superintendent's Office**
District Administrative Center
15002 North 32nd Street
Phoenix AZ 85032
602.449.2298

September 1, 2023

Dear Members of the Desert View Village Planning Committee,

Paradise Valley Unified School District appreciates the opportunity to provide input regarding the potential retail development on the southwest corner of Black Mountain Blvd. and E. Deer Valley Dr. We understand the importance of responsible and thoughtful planning in our community, and we want to share our concerns regarding the proposed development.

In a holistic evaluation, it appears that the proposed development may not be optimally situated, given the potential challenges it could pose to Pinnacle High School. In the event that the committee decides to approve the development, we respectfully request that the following considerations be taken into account as a minimum requirement.

**1. Student Safety with Crossing Mayo to Enter the Shopping Center:**
Our primary concern is the safety of our students when crossing Mayo Blvd. to access the shopping center. This may pose a significant risk, especially during peak traffic hours. If this development is approved, we urge the committee to consider safety measures such as pedestrian crosswalks, traffic signals, or other infrastructure improvements to ensure the well-being of our students.

**2. Increase in Traffic along Black Mountain and Mayo Blvds:**
The proposed retail development is likely to lead to an increase in traffic along Black Mountain Blvd., which is already a busy thoroughfare, and Mayo Blvd. The additional traffic congestion could have a detrimental impact on the flow of school buses and the safety of our students. If this development is approved, we recommend a comprehensive traffic impact analysis to assess potential congestion and to explore mitigation strategies.

**3. Parent/Student Parking at the Shopping Center:**
The existing parking capacity at Pinnacle High School is currently quite constrained, and it is highly likely that some students will opt to utilize the parking facilities within the proposed retail development. It is important to acknowledge that the school lacks the necessary staffing and resources to effectively manage or mitigate this parking issue.

**4. Shoppers Parking Along Mayo Blvd. or on School Grounds:**
Without sufficient parking spaces within the shopping center, there is a risk that shoppers may resort to parking along Mayo Blvd. or, worse, on school grounds. This could lead to disruptions and safety concerns for our educational environment. We urge you to require the developer to provide ample parking options within the development.

**5. Increase in Tardy/Truancy due to Shopping Center Services:**
We are concerned that the proximity of the shopping center to our school may lead to an increase in tardiness and truancy. Students might be tempted to leave campus to access the services provided by the shopping center, causing disruptions to their education. We recommend working with the developer to establish guidelines that minimize these distractions during school hours.

In conclusion, we have serious reservations about the impact this project will have to the safety of our students. If the development is approved, we believe it is essential to address these concerns proactively to ensure the safety and well-being of our students and maintain the quality of our educational environment.

Thank you for your attention to these matters. We look forward to collaborating with you to ensure that this development aligns with the best interests of our students, parents, and the community as a whole.

Sincerely,

Troy J. Bales, Ed.D.
Superintendent
Paradise Valley Unified School District

| **Subject:** | Application No: GPA-DSTV-2-23-2 - Rezoning Request by Vestar |
| **Date:** | Tuesday, September 5, 2023 6:52:27 AM |
| **Attachments:** | GPA-DSTV-2-23-2-App2Amend.pdf |

September 5, 2023

Greetings,

I'm writing you today regarding a rezoning request made here by Vestar application No. **GPA-DSTV-2-23-2** and some comments heard by residents resulting from a recent HOA board meeting held by Desert Ridge Community Association.

My name is William Smith and I am a resident of Regalia Bear Subdivision which is located just off Tatum Blvd and North of Marriott Drive in Desert Ridge for 13.5 years. Formally a resident in Vista Norte located at Dynamite and 57th Streets for 14 years. I've been a resident in Arizona since 1969 and have lived the majority of my life in North Scottsdale / North Phoenix 25 miles or more from downtown.

When my wife and I moved to Desert Ridge I began participating in many of the community HOA meetings assisting mostly on the Awareness Committee. I believe it's important we continue to live in a safe and healthy community. The many challenges I've witnessed over the past 13.5 years have been noise pollution, traffic congestion and bottle neck due to lack of arteries (roads), vandalism and crimes committed by an increase number of teenagers.

Noise pollution continues from above with fly overs; also truck deliveries made during overnight or early morning hours are heard by vehicles creating those loud safety warning beeps when backing up. With the increase of home deliveries since the pandemic we've seen an more delays within our Desert Ridge community and about. Thankfully a great deal of the air traffic above was reduced after our Desert Ridge community associates worked with the aviation department to reverse a decision that was made several years ago that allowed commercial places to fly directly over Desert Ridge using a new flight path. We still have a few non commercial planes and helicopters that don't always follow the appropriate flight path, but we are thankful the majority of commercial planes are no longer constantly flying low overhead. In addition, we reported to the Marriott about the noise issue from trucks backing up that could be heard for a mile in the silence of the early morning hours and that has stopped. Our voices are being heard!

As far as vehicle noise issues we continue to hear traffic due to the type of road surface and proximity of both Tatum Blvd and Marriot Drive. Everyone is racing to be first coming in both

directions cutting through our community because as we all know there aren't enough arteries (roads) that allow traffic to flow around the heart of Desert Ridge. Traffic on Tatum Blvd has met it's maximum capacity 5 years ago and its only getting worse. ***Deer Valley road is starting to show signs of stress unless we start now and think forward***.

Let's talk a little about Desert Ridge planning and how Vestar was originally involved in the design and planning of this community. I believe just 13.5 years ago when we moved here I heard mention Desert Ridge was just over 40 percent built out. Since then we seem to continue cramming more and more condos, apartments, schools, single family homes in addition to the huge development along the 101 from 56th to Tatum Blvd. There seems to be this need to fill up every inch of both Super Blocks along the 101 from 56th through to Black Canyon Blvd. We all know growth brings congestion and headaches.

Listening to representation by Vestar at community planning meetings they talk about building another marketplace in an area of Desert Ridge that is zoned **low** residential. I'm writing you here today to provide my opinion about why we ***shouldn't*** change this residential parcel as this application suggest to commercial and that we should consider looking for a location that has better access to the 101 and has the ability to get vehicles in and out of the area from all four directions without impeding traffic and causing delays. For the past 8 years or so all I've brought up to anyone that would listen that the City of Phoenix must work on a plan that will open up more arteries (roads) that allow traffic to flow more around Desert Ridge Market Place and through our community as well.

***We can not continue to build both up and out; allowing thousands of more residents, merchants, delivery vehicles and visitors to move about and not have additional access roads and arteries (roads) that will provide additional alternatives to Tatum Blvd and Deer Valley Road.***

Everyone knows it will be expensive and we need it; an access road along the 101 that will allow traffic to access both super blocks from 56th street to as far as Cave Creek Road if we have too. The idea is to take excess traffic away from Tatum Blvd and Deer Valley Road when everyone is either trying to get to and from their residence in Desert Ridge, pass through it to get home in Tatum Ranch or visit Desert Ridge Market Place to enjoy all the shops, restaurants and planned activities Vestar an their business partners plan throughout the year. Additional roads that could help the flow of traffic could be at 40th street, Black Mountain Blvd, 56th street and any additional roads developed during the super block expansion phases which should include access roads along the 101 freeway. **We can't even head east or west using Black Mountain Blvd at the 101 to help avoid using Tatum Blvd at the 101?**

We understand change is necessary and some people believe we need more growth and there is no stopping it. However, the reason Desert Ridge has lasted as long as it has being in the

spotlight a community most desirable for its amenities and location is because we live in a place beyond the boundaries of the City. ***A place between Rural and the big City life; simply a suburban experience like no other.***

If we allow another marketplace with a gas station at the location of Southwest Corner of Black Mountain Boulevard and Deer Valley Drive we are going to have big disappointment with additional traffic, noise, crime, vandalism not only during the day, ***but all night as well.*** We don't want or need any more attention drawn to close to existing residential community during the overnight hours. If you have to rezone **which I'm not for**, bring in medical therapy centers, Dental, Vision, Day Care Centers, Animal Veterinarians businesses that will bring value to the investment and more in line with education and health without attracting any negative impact we currently have going on at Desert Ridge Market Place and our Community City Parks by individuals that hang out in groups in public places with no regard for others property. There is so much open space in super block there where the fitness center is and the hotels are located that if Vestar thinks Desert Ridge needs another grocery store well go big and ***put a Walmart there along the 101***; build the access road along the 101 and make it easy to visit the store without impeding any more traffic delays on Tatum Blvd and Deer Valley Road and push the traffic away from our beautiful neighborhoods.

***Final thoughts that come to mind you can all think about …***

Observation #1 – The traffic gets so bad moving North and South on Tatum sometimes it takes 3 minutes just to exit out of my subdivision from Williams Drive onto Tatum. The traffic gets backed up so bad the distance on Tatum between Deer Valley and the 101 one can spend 6 minutes waiting for lights going in any direction. When there is construction, emergency vehicles or an accident forget being on time for any scheduled appointment. **This is not right**!

Observation #2 – Recently in the past 4 years after the completion of this new condos and new single family subdivisions we noticed in addition to Vestar bringing live entertainment along with Sip and Stroll attractions among other big events, that traffic delays have now extended everywhere including Tatum Blvd to 56$^{th}$ street going North or South along Deer Valley road. Drivers are in such a big hurry they speed illegally North on 56$^{th}$ to Pinnacle and in addition there is so much traffic during rush hours on Deer Valley from 56$^{th}$ all the way to Cave Creek and beyond due to the 101 bottlenecks experienced when approaching the 51 freeway from either direction. Drivers are not only using Deer Valley, but they are using Pinnacle Peak from Scottsdale all the way to Cave Creek Road to escape the 101 traffic debacle during rush hours.

Observation #3 -

Recently we've seen a huge increase in teenagers committing crimes and they seem to like

hanging out at Desert Ridge Marketplace. This was brought up at our meetings and Vestar did speak out regarding our community concerns about the lack of security and care anyone we would expect to be responsible for managing issues of this nature. Concerns about Target, Albertsons, In&Out Burger and Panda Express have been going on for as long as I can remember brought up at Community gatherings with our neighbors for coffee and other meetings. It's been on the news this summer about a gang of teenagers sucker punching a teenager from another group causing 15,000 worth of dental work needed. Teenagers hang out at Target and act like the sports department is there personal playground. Teens stealing a cell phone right out of another teenagers hand who was picking up a take out order from Panda Express and too often homeless people coming up to you for money in front of and in the parking lot of Albertsons. These attractions that are enticing young people to party drink and get high not only occur in the marketplace, now we are seeing these young people come into the neighborhoods within Desert Ridge causing quite a bit of damage. Our Cashman park has been vandalized at least 3 times within the last couple years that I've heard about.

**Conclusion**:

Please consider another location for this grocery store and gas station to be developed. Lets choose a location away from existing residential and try to develop existing locations already designated residential and take the idea of bringing another grocery store and gas station to already designated commercial zones.

We don't need any **24 hour a day business** on Deer Valley and Black Mountain Blvd. We already have Desert Ridge Market place a gas station on the intersection at Tatum Blvd and Deer Valley Road. Take this proposed plan and build on 20.5 acres closer to the 101 and Black Mountain Blvd. Even if you were to propose moving this development to 40th Street and Deer Valley Road my suggestion would be to insure there are enough roads leading away from Tatum and Deer Valley for vehicles to maneuver towards the 101 without impacting the already congested traffic flow on Tatum and Deer Valley.

We should consider bringing in a large super center like Walmart along the 101 in the super block between Tatum and Black Mountain Blvd's. Get the City of Phoenix and the Army Core of Engineers to build functional access roads and lets see how well traffic flows around Desert Ridge. Spread things out a bit, petition for business to build on one of the two corners on the north side of Pinnacle Peak Road.

Leave the corner next to the high school open for **residential** or if you really think businesses deserve to come in an take over that property; like I said before consider those businesses that would help families with their children's education, day care, health services (mental health services), vision and dental care along with considering Veterinarian services.

Look I could write a book on how if think about all this push for growth here in Desert Ridge, but I'm sure in the end people that have the most funding will win. In the past whenever there was a decision made about something that didn't entirely make good sense and I would later bring up my thoughts I was told where were you when during the planning stages and why didn't you speak up then. Well I decided maybe its time I did.

Thanks so much for the opportunity to speak my thought and for listening.

As Ever,

Bill Smith

City of Phoenix Planning Case Nos:
Minor General Plan Amendment GPA-DSTV-2-23-2
Specific Plan Amendment GPA-DSTV-3-23-2
Rezone Z-39-23

Dear. Mr. Grande:

This letter is regarding the proposed rezoning of the Parcel **212-38-023B** and the application by Vestar Development to develop it as a C-2 medium intensity commercial property. The current proposals for Minor General Plan and Specific Plan Amendments, as well as Rezoning to C-2 commercial development are out of step with the character of the area and should be rejected.

The intersection of Black Mountain Boulevard and Deer Valley Drive is surrounded by a unique residential area with preserved natural desert spaces and carefully integrated bike and pedestrian paths. It is unlike the majority of Phoenix neighborhoods and honors the physical geography immediately around it. Socially, it is an active, engaged community full of care for the landscape and protective of the safety of people living there. With such a significant change in land use, the proposed zoning amendment and subsequent commercial development would result in considerable new traffic to the subject site, resulting in more traffic congestion, potential car-pedestrian-bike safety conflicts, added emissions, and light and noise pollution.

Further, there are a number of disconnects with the application itself. The developers have attempted to justify their zoning amendment proposal by saying that the nearby Desert Ridge Marketplace experiences traffic congestion and parking issues. This point is unsubstantiated in their application and from a resident's point of view, completely unsupported by the experience of living in the area and regularly visiting the shopping center. There is more than enough (much more!) parking at Desert Ridge and circulation in and around the site runs smoothly. The retail offerings are substantial and do <u>not</u> leave a gap in market offerings that would be improved by adding medium-intensity commercial at Black Mountain Boulevard and Deer Valley Drive.

The conceptual site plan put forth by the developers is also incongruous with their explanation letter. They attempt to claim community benefit from "a reduction in transportation burdens, increased opportunities for exercise and a cleaner environment." However, there is nothing to support their mention of transportation burdens on the residential area surrounding the subject parcel, nor anything in the conceptual site plan to suggest it would be safe for area residents to

walk or bike to the subject site if developed as a commercial property. Further, the explanation letter states that provision has been made for 580 parking spaces (well beyond the code requirement), while the conceptual design includes 533 spaces, which is still more parking than is required by code. This will not create a cleaner environment, as the developers claim, but will create increased emissions in a sensitive area where residents would like to keep emissions to a minimum. Worse still, the conceptual plan calls out opportunity for a fueling center, yet no designated space for electric vehicle charging (which would be far more helpful in the area, given a pronounced lack of public charging). As such, increased emissions will become a core characteristic of this shopping center if built as presented. It would not result in the "connected oasis" the City hopes to achieve, nor the "village" concept the developer is attempting to sell. What it achieves is what Phoenix already sees too much of—islands of unspectacular commercial offerings drowning in a sea of parking.

The subject parcel for proposed rezoning also lies immediately north of Pinnacle High School, which sees students regularly walking and biking to school, but the concept site design does nothing to ensure student and faculty safety or effective circulation around the school. To the contrary, the conceptual site plan shows 3 access/egress points just off Mayo immediately across from the high school with no provision for safe crossing by pedestrians and bicyclists. To put the greatest number of access points to the site directly across the road from the school shows a serious lack of awareness about school zone safety, as does proposing a site plan that does not incorporate effective circulation by pedestrians and bikes (as the surrounding neighborhoods do through extensive trail systems), but to cars. And the related traffic study does nothing to elevate hope for improved traffic circulation or safety. Instead, it reflects lower levels of service on streets that already experience diminished capacity.

While the concept of community commercial may have some potential if explored at a C-1 neighborhood level, the current applications for Minor General Plan Amendment GPA-DSTV-2-23-2, Specific Plan Amendment GPA-DSTV-3-23-2, and Rezone Z-39-23 to C-2 commercial do nothing to improve livability in the area and should be rejected in the interest of public safety, as well as public health.

Thank you for your consideration,

Ellen Kennedy

**Attachments:** image001.png

---

Hello Mr. Grande and Councilman Waring,

I wanted to formally write to you both to express my opposition to Vestar Development's push to rezone the Property known as a portion of Parcel 12.L, within Superblock 12 of the Desert Ridge Specific Plan. My wife and I did a lot of research about the area prior to purchasing and building our home 10 years ago, located at 21618 N 36th Street. I've attached a map with the proposed development layered on it. You can see the yellow star located on the East side of Black Mountain Boulevard showing the location of our house. I have been very vocal at each of the previous two meetings expressing my opposition to this development from happening.

As mentioned, my wife and I did our research prior to building the home we wanted to raise our three boys in. We understood we would have a roadway in our backyard that would create some noise, and that was fine because that meant we wouldn't have another house directly behind our backyard. We love the location, being across the street from Pinnacle High School. One of our boys is currently a sophomore with our other two boys being 8th graders. When they were younger, they could walk the opposite direction to Fireside grade school, so we figured this was a perfect location for our family. If you aren't aware of this yet, Pulte homes sold the West side of 36th Street as premium lots with view fences in our backyard. We all paid extra to have a view of the wash behind our homes. We all paid this knowing that the only thing going in across the street in the future would likely be an exterior block wall of another residential development. That's what the Desert Ridge Specific Plan called for so why would anyone think differently? The news of this commercial development potentially getting built across the street has made every one of these homeowners sick to their stomachs. Talk about a bait and switch!!!!! Pulte probably wouldn't have built these lots as view fences if there was commercial development zoned for directly across the street. Serious question to Mr. Grande - Would the City even sign off on a residential development having view fences directly across the street from a commercial development if it was built after the commercial was already there?

One major concern from the residents of Copper View (36th Street from Mayo to Deer Valley) is the decrease in safety for all our families and our properties due to a commercial development being directly across the street. Shopping centers bring loiterers. Gas Stations are even worse. The increase in homelessness in the Desert Ridge area can't be ignored. If this development happens, this will make Deer Valley a main thoroughfare for these homeless people to walk down between Desert Ridge Marketplace to Black Mountain Village. Nobody wants the potential for this to happen. Several years ago, a group of neighborhood kids found a homeless encampment with mattresses in the wash near Mayo and Black Mountain Boulevard. It was in the storm sewer, under Mayo. We fear more of this will happen if you move forward with this project. None of us with a view fence, just across Black Mountain Boulevard, signed up to live across the street from this sort of development. I enjoy my backyard having a view fence. It makes these tiny yards feel a little larger. Now I will be fearing someone might jump my back fence because they see something they like.

Another major concern that Copper View resident have is light pollution. Nobody wants to live across the street from a lit up commercial development. If Vestar moves forward with plans to include a gas station with this proposal, I would imagine this would be right on the corner, where they have PAD C is shown on the map I included. That will be my new view from my backyard. A lit-up gas station. Can you even begin to imagine how upset we all were when we heard not only are we going to have a commercial development, but also a gas station? Nobody wants a bright gas station directly across the street from them. Every gas station has loiterers. No place attracts more loitering than a gas station. Copper View residents are not interested in having this across the street from us. Not to mention the constant smell of gasoline. Mr. Grande - Would the City sign off on a residential development having view fences directly across the street from a gas station if it was built after the gas station was already there? The argument for needing more gas stations within Desert Ridge is garbage. Replace Jacksons with a Circle K and I'm guessing you'll see a much higher volume of people using that gas station. Nobody uses that place because the prices are too high. I go to either Costco or Circle K on Union Hills because they're cheaper. Most people with half of a brain do the same.

A 20-acre commercial property in a mostly residential area wouldn't just be making a minor tweak to the Desert Ridge Specific Plan (DRSP). This commercial development would be taking the DRSP and completely throwing it out the window. The DRSP called for commercial development within the residential superblocks to be limited to neighborhood convenience commercial centers with a maximum of 3 net acres. During Mr. Anderson's presentation to the Desert Ridge committee, he mentioned there were 6 previous developments that could have included a neighborhood convenience commercial center but decided against adding them. These 18-acres of commercial development not getting added throughout Desert Ridge are being used to justify Vestar developing 20-acres in one location. Just because other developments decided against adding 3-acre neighborhood convenience commercial centers doesn't justify adding them all together and asking to rezone this area just because Vestar thinks it would be a good investment.

Please take into consideration the families that built around this area that thought they were moving close to commercial development, but not directly across the street from it. I know you have been contacted by several other residents expressing their concerns about the traffic impacts and proximity to the high school. I am 100% in agreement with all other concerns you have heard pertaining to these two topics. This development needs to be stopped. It's just not the right fit for this location. There are a growing number of residents that share this sentiment. We will be at the next OCT 3 Desert Village Planning Committee meeting as well as the NOV 2 City of Phoenix Planning Commission meeting to express our opposition.

Thanks,

| **To:** | Anthony M Grande; Council District 2 PCC |
| **Subject:** | Vestar Development Amendment and Zoning Requests for Superblock 12 in Desert Ridge |
| **Date:** | Wednesday, September 6, 2023 6:01:06 AM |
| **Importance:** | High |

It is indisputable that the area affected by Vestar's proposal already has a traffic problem. The 366-page October 2022 Traffic Impact Analysis commissioned by Vestar acknowledges this existing problem. Please note the following excerpt from that Analysis:

> *The results of the existing conditions analysis indicate that all study intersections operate with acceptable levels of service (LOS D or better) with the exception of the northbound approach at the intersection of Black Mountain Boulevard & Deer Valley Drive and the northbound and southbound left at the intersection of Aviano Way & Deer Valley Drive.*

This same Traffic Impact Analysis also reveals the extent to which Vestar's proposal would exacerbate this existing problem. The Analysis describes this impact as follows:

> *The Black Mountain Village proposes to rezone approximately 16-acres of undeveloped land from existing R-2 (residential) to C-2 (commercial) to consists of approximately 76,200 square feet (SF) of grocery supermarket, 41,500-SF of various commercial shops each under 40,000 SF, and 19,700-SF of fast-food restaurants with drive through window. The proposed developed is located on the southwest corner of Black Mountain Boulevard and Deer Valley Drive in the City of Phoenix, Arizona. The site is planned to provide a total of eight (8) access points, of which five (5) are planned for full movement access and the remaining three (3) are proposed restricted right-in/right-out driveways.*

This Traffic Impact Analysis does not mention that Vestar's proposal also includes a gas station. Moreover, this Traffic Impact Analysis does not analyze the traffic impact of the nearby Garden Communities 882-unit apartment complex currently underway at the northeast corner of Tatum Blvd and Deer Valley. It also does not analyze the impact of the planned development of the 410-acre parcel at the southeastern corner of Deer Valley and 40th Street purchased by Taylor Morrison and Pulte Homes for a 1,200-lot master planned community. Because the west boundary of this parcel directly abuts Mayo Blvd, traffic from this planned community would likely use Mayo Blvd for ingress and egress. Moreover, the vehicular traffic entering and exiting the community would also increase the traffic on 40th Street and Deer Valley.

Vestar's description of its proposal is disingenuous. It describes its proposal as a

"low-impact" commercial development. Their description of the proposed project mentions a "neighborhood grocery store and inline retail opportunities." However, omitted from their description is a gas station that they have acknowledged is part of their plan. Also omitted is the "19,700-SF of fast-food restaurants with drive through window" described in their Traffic Impact Analysis. How can anyone honestly describe grocery stores, gas stations, and fast food restaurants with drive through windows as "low impact" uses? Each of these operations would result in increased vehicular traffic entering the proposed site from all four bordering streets. In addition to the increased private passenger vehicular traffic, other traffic entering and exiting the proposed site would include gas tanker trucks and commercial delivery trucks. This increased traffic would be in addition to the traffic already generated by 2,600 students and their parents entering and exiting the Pinnacle High School parking lots twice daily during the school year. Also not to be overlooked are the evening activities at the school that result in numerous vehicles exiting onto Black Mountain Blvd and Mayo Blvd. Even now there are not enough traffic lanes on Mayo Blvd to efficiently handle the vehicular traffic exiting the high school parking lots.

Pinnacle High School is not the only school affected by Vestar's proposed rezoning request. The Fireside Elementary School, with 775 enrolled students, is only a short block away from Superblock 12. Vestar's rezoning request would also impact the traffic to and from this elementary school.

The Arizona State Land Department agrees with Vestar's C-2 rezoning request because it wants to sell this parcel for the highest possible price. The Land Department's position is understandable. However, in this instance, it represents a grave injustice to those homeowners who purchased their homes (many with their life savings) in this neighborhood. They justifiably believed their homes would never border a commercial development because this area was zoned **Residential**. These homeowners should not have their legitimate expectations sacrificed on an altar of money.

For the foregoing reasons, I respectfully request that Vestar's proposal **not** be approved.

Dear Mr. Grande:

An unidentified party is running a sponsored ad on Facebook directing viewers to an online "petition" for a new grocery store in Desert Ridge. The online petition page can be seen at https://chng.it/6L8mkBrdDq [chng.it] . It identifies the promoter of the petition as "New Grocer". It makes no reference to the ongoing zoning and plan amendment cases. It fails to mention, as Vestar's counsel has publicly admitted on more than one occasion, that Vestar cannot say what kind of grocery might ultimately go in. And needless to say, there is no reference to the 20 acres of drive through junk food and gas station also included in Vestar's conceptual plan for the site right next to the high school.

These deceptive tactics are unworthy of any responsible business. City staff should give no weight whatsoever to the results of this patently misleading petition drive.

Thank you for your attention to this matter.

**Subject:** Desert View Zoning Feedback - Black Mountain Village Project
**Date:** Thursday, September 7, 2023 11:09:28 AM

---

Hello Anthony,

As you and constituents consider the proposed Black Mountain Village Project (GPA-DSTV-2-23-2; GPA DSTV 3-23-2; Z-39-23), I wanted to express my strong opposition to this project. City Planners got this right the first time in the General Plan. Schools, dog parks, walking trails, community soccer fields, and four housing developments adjoin this property. Commercial real estate on this proposed parcel has no place, no real need, and only increases risks.

Living in this community, safety should always be our number one concern as residents. Within four hundred yards of this proposed project, we have two schools, Pinnacle High School and Fireside Elementary, which educate pre-school children under the age of five. Each morning and afternoon families walk their children to these schools from the surrounding homes from the north, south, east, and west. Increasing transient traffic flow, especially off the high-speed HWY 51 into this area, greatly increases risks for residents, especially our younger children. Simply there is no compelling argument for this project and only increased risk.

While traffic studies were completed, the analysis and land schematics fail to demonstrate any reference to Fireside Elementary School which is within four hundred yards of this project. How can we consider no traffic turning Left or Right from or onto Mayo Boulevard. This lack of detail shows severe disregard for our pre-school and elementary age children. In the analysis, they also fail to reference when the study was completed other than November 2022. In November, we have slower traffic patterns based on holidays, people traveling outside of Phoenix to visit family, and winter residents not yet arriving to the area. While the necessary paperwork was completed, beyond the abundance of words in the report where is the holistic detail that considers an elementary school within yards of this project.

In 2022, the Arizona Department of Housing identified shortages of over 270,000 housing units across our state. As Phoenix metro comprises over 2/3rds of our state's population, we require over 175,000 units to meet the needs of the citizens. Rezoning existing housing parcels to commercial property in the heart of a well-established family-friendly community only introduces unnecessary risks. Approving this project will only provide short-term rewards for Vestar and Gammage & Burnham associates not the community.

While developers will make the case for additional services and unsubstantiated benefits to our community, we must consider the abundance of commercial services that are already available in Desert Ridge Marketplace, Vestar project and along Cave Creek Road, and HWY 51 south. In addition, all these commercial properties have clearly defined borders which create increased safety as to not blend housing, schools, parks, and daily life, with commercial development. Within Desert View we have an abundance of services of all commercial types within one mile. Making the argument that driving one mile creates hardship is unsubstantiated, unless data is provided on how many cars each household owns in village. Desert View is not the same as an urban core, such as downtown Phoenix. Lack of concrete detail is consistent throughout the rezoning application, while there is an abundance of words and feelings including 'potentially' and 'we feel' it fails to acknowledge key considerations as I have outlined.

We have an opportunity to put families and our youngest citizens first by **DENYING** this project. Thank you for your thoughtful consideration of the data, facts, and real impact on our community for the long term. I appreciate your support in **DENYING** this rezoning request.

| **From:** | Lesley Anderson |
| **To:** | Anthony M Grande; msantoro@gblaw.com; PDD Desert View VPC |
| **Subject:** | Open Letter to the Desert View Village Planning Committee re: REZONING LAND NEAR PINNACLE HS |
| **Date:** | Friday, September 8, 2023 6:47:42 AM |

Dear Anthony Grande, Michelle Santoro, ad the Desert View Village Planning Committee,

I am one of the many **Sky Crossing residents** who found out about the **rezoning of the 20.52 acres on the SW corner of Black Mountain Blvd and Deer Valley Drive** from an article posted on a Facebook group and **not from the City of Phoenix**. I am obviously disappointed that Vestar and the City of Phoenix failed to notify about 95% of the Sky Crossing residents of this potential zoning change that will deeply affect our neighborhood.

**I personally attended the meeting on August 1, 2023** in order to get more information about the potential gas station, grocery store, and restaurants/shops that will affect neighborhood traffic as well as my property value in the near future. My hopes were high as I listened to the presentation by Gammage & Burnham. I was actually in favor of some sort of small commercial property before the meeting.

I waited for details as to the type and size of grocery store, types of restaurants, and of course a solution to the traffic problem that haunts that corner of Desert Ridge, but sadly none of that happened. **It felt like no solutions were given**. Very general information was shared on the slides. No 3D rendering of what it would look like. Will the grocery and gas station lights be on all night? What about the noise from semi trucks dropping off 3 am deliveries at the grocery store? Will the stores blend with the desert landscape like in Fountain Hills or stick out like a sore thumb? Residents were simply left with more questions than answers.

**With this in mind, I am writing to you all to express my opposition to rezoning this land from RESIDENTIAL to COMMERCIAL which would allow for a commercial shopping center.**

I think Sky Crossing residents would be more supportive of a project if it answered the questions above, and somehow solved the traffic mayhem. Perhaps Vestar could have proposed to help the school and the community by building Pinnacle High School a parking garage? **Traffic literally comes to a standstill in the morning hours** and prevents area residents from accessing the Black Canyon Road heading south in order to get on the HWY 51 on-ramp. Apparently because there is not enough parking for students, so parents have to drop their kids off every morning. Which is ridiculous. **If you live in this area, you know about the problem. The high school and the Phoenix Police are well aware of the problem.** This strip center will only add to the traffic issue.

I am but one of the many voices who oppose the rezoning of this land and the potential traffic issues it will cause. **I am asking the members of the Desert View Village Planning Committee to please vote NO when voting for the rezoning of this parcel of land. There are too many unanswered questions.**

Thank you for your time and for reading this. Much appreciation.

Regards,
**Lesley Anderson**

Dear Mr. Grande-

This message is in regards to GPA-DSTV-2-23-2
GPA-DSTV-3-23-3
Z-39-23-2

I live in the neighborhood in Fireside that is directly across Black Mtn from this currently vacant land. While we understood this to be slated as residential, it seems now someone is trying to change that.

While we are not in favor of this changing to commercial, there is a much more pressing issue for this area that should be addressed prior to any development on that land. The drop off/pick up/ and parking for students at PVHS. The current situation there is unsafe and terribly inconvenient. The fact that there is not a sufficient amount of parking for students attending the school has got to be expanded prior to anything else being developed there. The kids crossing this major intersection (Black Mtn & Mayo) to get to their awaiting rides, is a tragedy waiting to happen.

Please consider working with the school district & community before it's too late to address these issues.

And, no thank you to changing the zoning from residential to commercial.

Thank you for your time & consideration!

Jamie Bauschka

Please consider my vote AGAINST the Black Mountain Village Commercial development sought after by Vestar. My family, including two children, live in Fireside Desert Ridge and plan to stay here for the next 10-20 years, at least.

We would like to keep Fireside and the overall Desert Ridge community, as originally planned - residential.
The lot across from the Pinnacle High School could be made into a community park, perhaps with some additional parking to relieve the already horrific traffic conditions for the schools in the area. We do not need more traffic in the neighborhood or even worse - though it.

Hope our voices carry some value in these determinations.

Thank you,

Hello Anthony,

I am resident in Aviano in Desert Ridge in Phoenix and I wanted to reach out to you about the proposed Black Mountain Village Development that is up for rezoning. Unfortunately I will not be able to be present at the meeting on October 3rd and wanted to reach out on this.

I have lived in Desert Ridge since 2012 and there have been several great changes over the past 10+years including access to the 51 and widening Black Mountain. I strongly feel that the rezoning of this area would be a major mistake for several reasons.

1.) Currently Pinnacle High School has a large amount of traffic that creates a backup onto Black Mountain and sometimes Deer Valley as well which makes this area extremely difficult to get through during the week from 7-8:30am, between 3-5, and also when there are sporting and other events held at the school. Adding this development will bring increased traffic and and chaos for many new drivers that attend the high school and residents and guests of the area.

2.) Parking is a major issue at Pinnacle and students will end up parking in this new development which will create issues with the property manager/owner and tenants as well

3.) As a resident I am all about convenience and the thought of a grocery store and other stores close by my home sounds great initially, but I think there are a lot more negatives than positives for this one and the most important one is the safety of the kids and residents of the area.

Thank you for your help with this and please feel free to contact me with any questions

Hello Anthony,

We are residents of Fireside and parents of Pinnacle High School children. We are strongly opposed to th Black Mountain Village.

When we purchased our home, Fireside was advertised as a clean, quiet, and safe neighborhood oriented towards families with children. It is our understanding that commercial activities within the superblocks adjacent to Fireside are to be limited to minor conveniences of three (3) acres or less. Vestar is proposing a twenty (20) acre shopping center directly adjacent to Pinnacle High School; that, as you know, includes drive thrus (which are also prohibited commercial activities in the superblocks adjacent to Fireside).

Not only is our family concerned about what may become a falsity of how Fireside was advertised when we purchased our home seven (7) years ago, should Vestar succeed with this initiative, we are also concerned about the associated crime, noise, pollution, and traffic that will no doubt plague our residential community. We already have an issue with high-traffic volume that does not respect the posted speed limits near Fireside Elementary School and Pinnacle High School on Mayo Street, as commuters travel to Interstate 51. Vestar's initiative will only heighten this problem, and create a more dangerous situation for our children including the littlest of our children at Fireside Elementary School, who deserve the ability to walk to and from their school safely each day. Although older and presumably more ept, our Pinnacle students deserve the same consideration.

Thank you for your time.

Good Morning,
We have bought into our community at Fireside with the zoning of all residential. We are NOT in favor of changing the zoing and the plan to put in a 20 acre shopping center right across from Pinnacle High.
the Black Mountain Village

I hope you can respectfully reconsider this change in which we did NOT buy into
Thank you,

**To:** Anthony M Grande
**Subject:** CASE # GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2
**Date:** Friday, September 8, 2023 8:49:37 PM

---

Good evening Mr. Grande:
My name is Dr Chintan Patel and I am a cardiologist at our local, Thompson Peak hospital and resident within the Copper view community in Fireside here at Desert Ridge. I am writing to you in reference to case number GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2, also known as Black mountain village.

I know that you may be receiving numerous letters and petitions against this commercial community. I would like to take the opportunity to waste my concerns and join amongst the ranks of those against this proposed commercial shopping area.

The appeal of Desert Ridge and what makes it a unique location is the sense of community that we all feel and try to bring to the various neighborhoods within the Desert Ridge communities. While we may live a different neighborhoods, much of what unites us is the sense of community and safety that we sought when we first moved here. The glue that tends to bind us all here, like most neighborhoods, is our children. Personally I have two young daughters who attend Fireside elementary who are currently six and five. We moved to this community after talking with neighbors and seeing how happy they were raising their kids from elementary to high school in an area that they felt safe enough to have their kids be independent.

I do understand the financial benefits of a commercial property, but the location that is proposed is already in a high traffic area with his own intrinsic problems because of high school traffic and the on/off ramp to route 51. If the point of the shopping plaza is to serve the needs of the community, and the community has spoken that the current Desert Ridge is sufficient then the only thing this could bring are consequences. People moved to this community the way it was designed with the promise of trying to keep it from being a commercial hotspot. Bringing more homes and more families to create more neighbors only makes us stronger, but bringing in businesses that invite more outside traffic, their own self interests, and the potential negative influences only brings down the reputation of Desert Ridge and instills of distrust in the city of Phoenix and it's social responsibility to it's citizens.

I thank the city of Phoenix and representatives like you for making communities like Desert Ridge available to us and keeping it in its current splendor. All we ask is a mutual sense of trust in us to help continue to grow the community while maintaining its integrity and safety.

I appreciate your time and willingness to hear our voices.

Thank you so much,
Chintan Patel.

Dear Mr Grande:

I reside in Desert Ridge at 21214 N 36th Pl

The applications submitted to enable the Black Mountain Village must be denied. I am aware of the comments submitted by other homeowners including Mr. Tuffin, Mr. Richards and Mr Roodenburg. I will not repeat the many reasons why this project is a terrible idea. This attempted betrayal of innocent homeowners who purchased under the existing Specific Plan cannot be justified; the justifications put forward by Vestar are essentially specious and insufficient to destroy the reasonable expectations of innocent home buyers.

Thank you for your attention

Susan Sheroff

I am writing to you regarding the request to rezone in our area 85050 Black Mountain Project.

As a resident and homeowner 17 years in this area - Desert Ridge, I have seen a lot of growth in our area. I want to make sure we DO NOT REZONE THIS AREA TO COMMERCIAL. We are currently inundated with traffic from the 51 and all the traffic from the area who avoid the 51. You should be focusing on community not convenience. Save this are for Pinnacle High School. Every morning my kids walk to school and the amount of traffic is massive and congested. The 51 Black Mountain ramp has also increased the congestion and safety of residents and children who live in this area. DO NOT BE MOTIVATED OR SEDUCED BY THE ARROGANCE OF COMMERCIAL BUSINESS In our community!!!!!

Vote NO!!!!

Mr Grande -

I live across the street from the proposed Back Mountain Village Commercial development in the Desert Ridge area. This is a major issue for my family. Traffic is already crazy. The noise from Deer Valley and Black Mtn is already bad (why isn't there a noise ordinance for Harley Davidsons and tuner automobiles, by the way) and it would just get worse. The high school students next door at Pinnacle don't need this. Go to the Walgreens next to PV High School after classes get out if you want a sample of what goes on. I have two kids there right now and my third will be going there in 3 years. This is supposed to be a residential area and is currently zoned that way. The bait and switch that is going on is unacceptable. I will oppose this every way possible. Please stand up and represent your citizens and keep the peace in a neighborhood that is supposed to remain quiet.

Thanks for your help.

Dear Mr Grande.

We are residents of Sky Crossing and we received notification of the proposed re-zoning at the SW Corner of Black Mountain & Deer Valley roads because we live in close proximity of it. We are opposed to the development and rezoning of this parcel for the following reasons:

1. This project does not fit the neighborhood and it is contradictory to Desert Ridge's original plan for this area to be a low noise, light traffic community. We purchased our home in 2020 with the understanding this parcel would be a residential parcel only. We moved here to get away from the city traffic and noise.
2. The suggested development is not needed in this area because all of these services are available 2 miles in each direction on Tatum blvd and Cave Creek road. Furthermore a gas station and drive thru coffee shop/fast food restaraunt will increase pollution into neighboring communities.
3. Currently PHS turns their lights off at 9pm because of the residential zoning. This provides a quiet serine and tranquil neighborhood for all homeowners. This development would change the entire feel of the neighborhoods which is not at all fair to any homeowner that purchased as described above.
4. With the increasing concerns of rising temperatures, water shortage, high traffic and other issues within the city of Phoenix, it would seem prudent for the city council to preserve open land to insure a better quality of life for it's residents. Our temperature in the area is typically 3-7 degrees lower here than it is at Sky harbor airport where the land has been overdeveloped. We need more trees, bushes and open land and less concrete, blacktop, buildings and traffic. A better use of this land would be a park with walking paths, covered picnic area's and additional parking that could be used for PHS during the week. This would meet the needs of all of these neighborhoods and would alleviate the current problem with people using the private parks in Sky crossing, it would be a win win for everyone.

Thank you for your consideration of these issues above. We hope the city council will find another alternative for this parcel that will be better suited to the neighboring communities than a commercial development.

To All Involved,

I don't want Black Mountain Village at
Deer Valley-Sky Crossing-Black Mountain.
This land is zoned for residential and should remain so. I see no reason to add more commercial businesses to a zoned residential area. It will only bring more, crime, noise, litter, pollution, and traffic nightmares to quiet residential area. This is where very young children through high school ages are in large number playing outdoors in sports and in neighborhoods. This will be monstrosity of various issues. Especially with the exit to Black Mountain-51-101 and intersection of Black Mountain Blvd and Deer Valley. This is easy to predict. Look at the issues of traffic already. Our neighborhoods were built and purchased with this in mind of being residential. We would not have purchased otherwise. It's a promise you are conducting rescinding. To have it be a bait and switch now will only cause more ill will in our communities and with government. Please consider everyone's concerns.

Cordially,
Susan Marshall

| **Date:** | Saturday, September 9, 2023 1:26:50 PM |

Our homes were built under the Desert Ridge Specific Plan. The plan promised us clean, quiet and safe neighborhoods because commercial activity was placed in the "commercial core". Commercial activity in the "residential superblocks" is strictly limited to minor "conveniences" of no more than 3 acres and drive through operations are prohibited.
The land at Deer Valley and Black Mountain is designated residential under the plan. Vestar, the developer of the Desert Ridge Marketplace, now wants to rake in even more money by changing the zoning, and the plan, to put in a 20 acre shopping center right across from Pinnacle High School. They say it will contain drive-through fast food, drive-through coffee, a gas station, a grocery of an unknown name and type, and heaven knows what else.
Many of us are appalled by this bait-and-switch, and worried about the crime, noise, litter, pollution, and traffic nightmares that will come with this monstrosity. And we are taking action.

Sincerely,

Marty Minzer

Anthony Grande
Planner II* Village Planner
City of Phoenix
200 W Washington St
3rd Floor
Phoenix, AZ 85003

Greetings Anthony, I appreciate you taking the time to read my note regarding case number GPA-DSTV-2-23-2 and/or GPA-DSTV-3-23-2 and/or Z-39-23.

My family and I are current residents in the Sky Crossing community, living just northwest of the intersection of Black Mountain Boulevard and Deer Valley Road. We have some concerns about the proposed zoning changes for the parcel at the southwest corner of that intersection.

- We moved to our home in part due to the quiet community surroundings, including the residential neighborhoods of Aviano and Desert Ridge to the east, and Fireside to the southeast. Also, Sky Crossing is bounded by vegetation and city property to the west, the National Memorial Cemetary of Arizona to the north, and the Joni Fitts School of Horsemanship to the northeast.
- The Desert Ridge Specific Plan (in which the parcel in question lies) limits commercial activity in the residential superblocks to no more than 3 acres.
- Pinnacle High School is directly to the south of the proposed zoning change/development.

Our decision to move to this area was predicated on the quiet, residential feel of our neighborhood and surrounding areas. I know that many neighbors in Sky Crossing as well as friends and neighbors in Aviano and Fireside feel the same, and this proposed change to existing zoning conflicts with one of the primary reasons that many families may have selected these neighborhoods.

We find that existing stores and shops (essential and non-essential) as well as medical facilities and outdoor activities are all plentiful within a very reasonable distance (most less than 7 miles) from our existing home. We believe that there are multiple alternative locations in the general vicinity if further development is necessary.

Each morning during the school year, the traffic at the intersection of Deer Valley Road and Black Mountain Boulevard is horrendous. The current combination of Pinnacle High School

traffic coupled with traffic accessing SR-51 southbound from Black Mountain Boulevard creates a backup that can take 15+ minutes to travel less than one mile. This traffic situation will only worsen with any future development north of Pinnacle Peak Road, including the potential extension of Black Mountain Boulevard to connect to I-17/AZ-303 through Sonoran Desert Drive.

Our family is not in support of the proposed zoning changes:

- Adding a retail shopping center will create additional traffic, including commercial trucks and trailers delivering goods at all hours of the day and night.
- Lighting in the parking lots and the stores themselves will shine directly into homes/bedrooms along the north side of Deer Valley Road. The same homes will also have significant noise pollution from the center.
- The addition of a gas station/convenience store will also bring environmental concerns, and even greater light and noise issues.
- Any waivers granted for alcohol purchases in the center would be a significant concern with Pinnacle High School just south of the development.
- Criminal activity, which is currently minimal in our community, will very likely increase with the addition of retail and restaurant businesses directly across the street.
- Traffic at the intersection, already a significant concern each morning during the school year, will be exacerbated with multiple businesses open at that time.

Thank you again Anthony, for reviewing our concerns about the potential zoning changes.

Best regards,
Alan Walstad

Hi Anthony,

Lived here for 10 years and please tell vestar his partners and the global leaders they hang with to all take their equity BS and play the game in some other county. We have enough crazyness on these roads and riffraff pretty much all around us. We get eniugh traffic from the 51 enough from all the highschool and elementary. So forgive me when I say we don't need anymore traffic around these parts. Not to bright of an idea at all. Maybe the partners can build near their homes or kids schools. Or find another globe to pollute. Stop building new and be the globalist equity folks you claim to be.. let me k iw if you need the buildings that need some fixing since global love screams vestar, and investment of international people who should be maybe building in their own countries and stop bringing in shops that cater to worldly people. We are o lay one country and our language is English. Foreign builders should do the climate a favor and fix the the homes already up. We sure as hell don't need another drive through, hell no to a gas station and really another grocery store? No thanks if we were looking for so much crap around us we all would have moved elsewhere! Sick of these investors coming in and messing with something good. Here's a suggestion vestar can take all their ideas and I don't know maybe FIX ALL THE BUILDINGS CLOSED due some bioweapon plandamic! We don't need anymore corners with the crap we see that has all the crap they bring in! Vestar needs to leave it the way it was zoned for! Absolutely no businesses! Save the planet by using all the empty buildings do to all this equity BS! Hell no to the idea! I wasn't born yesterday and please tell vestar to take their global equity and shove it where the son don't shine! They should not be so money hungry to into our neighborhood and bring in businesses they know aren't needed! Plenty around us within a 3 mile radius. HELL NO TO VESTAR THEIR PARTNERS AND THEIR GLOBAL EQUITY BS! The word these globalists and their partners don't like is Equality cause equity is racist! Maybe vestar should go and build something in south phoenix for all the homeless and OUR VETS

Hell no to vestar in this area! Equity bs doesn't work here I've already lived that time of my life . It's equality and if vestar is a foreign entity would rather they go globalize some other suckers! I've seen what these globalists and their equity has done to Greece first hand! Hell no! Fix the buildings that are up and need a gut job remodel! Don't want nothing from vestar or their desert ridge ideas!

No more businesses around 3 schools! No riff raff needed anywhere close to any of these kids! Globalists OUT and the word is EQUALITY.

No to this build.

Hi Anthony,

I am reaching out to you with my concern about the Black Mountain Village proposal at the intersection of Black Mountain Road and Deer Valley. I am a current resident of Desert Ridge in the Fireside community. I kindly request that Case Numbers: GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2 are denied. I have no interest in this property and there is absolutely no need for it. This will only cause significant issues in our community.

I hope you consider the Phoenix residents that will be very negatively affected by this proposal if passed. Thank you for your attention.

Sincerely,
Justin Scott

Hello Anthony,

A topic was brought to my attention re: Black Mountain Village development on the corner of Deer Valley road and Black Mountain freeway. In the communication, it stated a plan to develop the area commercially.

As a resident homeowner in the Desert Ridge Aviano community, I would be opposed to such development. The expression ‘convenience has its costs’ is not a mantra that would garner local resident support.

As you are aware, with the implementation of such comes an impact on the local community. These external, non-controllable influences would add additional burden to the traffic flow, already very challenged with the high school across the street; an esthetic decline of the local neighborhood housing; an invitation to non-resident commuters; and the potential for a parabolic change of public safety in the local community.

I understand business well. The location would embrace a single family residential development, a logical option for the land. This area is a much sought after residential community and the ability to pre-sell any number of residences would be accomplished with little effort.

Albeit one email, this topic was brought to my attention by a host of local homeowners. I look forward to your consideration.

Sincerely,

Robert Donnelli

Dear Sir,

This is Praveen Mahadevaiah a resident of Fireside in Desert Ridge, Phoenix. I am writing this email to express our opposition to the proposed Black mountain village with case numbers GPA-DSTV-2-23-2/GPA-DTV-3-23-2/Z39-23-2.

Our homes were built under the Desert ridge specific plan. The plan promised us a clean, quiet and safe neighbourhood because commercial activity was placed in the "commercial core". Commercial activity in the "residential superblocks" is strictly limited to minor "conveniences" of no more than 3 acres and drive through operations are prohibited. The land at deer valley and black mountain is designated residential under the plan, Vestar, the developer of the Desert ridge marketplace, now wants to rake in more money by changing the zoning and the plan, to put in a 20 acre shopping center right across from Pinnacle high school. They say it will contain a drive through fast food, drive through coffee, a gas station and grocery of unknown name and type.

Many of us were baffled by this rezone proposal and worried about the noise, crime, litter and pollution and traffic nightmares. As state route 51 route ends at the Black mountain blvd, there is already a lot of traffic and congestion in this intersection of Deer valley and black mountain, especially during peak hours. With the proposed rezone for a commercial property, this will make matters even worse.

Our house backs up to the black mountain blvd and we are really worried about the rezone proposal and the effect it will have on our beautiful community.

We request you to consider our opposition to this proposed rezone of the residential block and we don't want the black mountain village.

Regards
Praveen

Dear Anthony,

I am writing today regarding Vestar's proposals (case numbers) GPA-DSTV-2-23-2, GPA DSTV-3-23-2, and Z-39-23. As a resident of Desert Ridge, I oppose Vestar's proposal for rezoning the Southwest Corner of Black Moutain Boulevard and Deer Valley Drive from Residential to Commercial/Retail for several reasons.

First, Desert Ridge is a highly desirable planned ***residential*** community that continues to attract buyers willing to pay a premium for a prime location. Adding commercial/retail mixed-use space in the middle of the community would decrease the desirability of Desert Ridge and lower the values of residential real estate within the community.

Second, the traffic flow within Desert Ridge is already too great for the limited infrastructure within the community. Pinnacle Peak High School is located adjacent to the proposed site. The traffic caused during the morning/afternoon pick up/drop off combined with regular commuting already creates a safety issue on Black Moutain and Deer Valley, with vehicles backed up in every direction. Adding unnecessary commercial/retail space would only increase the traffic and lead to safety issues.

Third, there is no need for mixed commercial/retail space in the middle of single-family homes. The area has more than ample shopping options - Desert Ridge Marketplace, High Street, and shopping off of Cave Creek Rd and the 101 are all within an extremely close distance. Finally, creating a commercial/retail space in the middle of a residential area will bring increased instances of crime, which, when coupled with declining property values, would limit the marketability of Desert Ridge.

Given the detrimental impacts on our home values, marketability, safety, noise/light pollution, and increased traffic without adequate infrastructure, these proposals should be denied. Please do not hesitate to reach out if I can provide any additional information.

Regards,

Yasmin Rivera

| **Date:** | Monday, September 11, 2023 3:24:52 PM |

Mr. Grande and Councilman Waring. Greetings.

As residents of Copperview Neighborhood in Fireside - Desert Ridge, my husband and I are adamantly opposed to the proposed rezoning of the property known as a portion of Parcel 12.L within Superblock 12 of the Desert Ridge Specific Plan. We realize you have probably received many letters expressing such opposition, so I will briefly list our concerns. We moved from northern California about seven years ago to be closer to two of our daughters and their families and have found a pleasant home in Copperview but already see some negative activity and really fear how the proposed Black Mountain Village Project will escalate those negative incidents. Many of the younger families in the neighborhood may have already expressed their opinions, but I feel that we older folk should also have a voice.

We live on E Abraham Lane, just off of Mayo and very close to the Black Mountain/Mayo corner where large numbers of high school students congregate at the lights waiting to cross and cars wait in long lines to either turn left to access AZ 51 or drop off their children in the right lane. We also have long lines of cars on Abraham Lane itself as well as N 36th Street during drop off and pick up times and many cars exceeding the speed limit and/or making U turns. A commercial property on Black Mountain Blvd across from the high school will add more traffic problems to all parts of the Fireside neighborhood, not just Copperview. In addition, the safety of our students going to Pinnacle High School will be adversely affected.

We have watched over the past few years as vandalism and criminal incidents have increased at Desert Ridge Shopping Center. Putting a commercial center right next to a high school is only inviting more of such behavior.

The noise and light pollution will certainly increase and woe to those neighbors whose houses back up to Black Mountain Blvd directly across from the proposed commercial project. In addition, the amount of litter produced will surely spread over into the adjoining neighborhoods.

Of course, there is a master plan for Desert Ridge, and a commercial center next to the high school was not included, for very good reasons. We realize that the land is owned by the Arizona State Land Department and proceeds from the sale of such lands is to benefit the schools, but what better way to benefit Pinnacle High School (as well as the surrounding neighborhoods, including Fireside, Aviano, and Sky Crossing) than to provide additional student parking and/or a well designed drop off/ pick up area which would alleviate and not add to current traffic problems.

If you truly feel in your heart the need to vote for rezoning, despite the very logical and well researched objections, my husband and I hope that you will fight to incorporate absolute requirements, such as including community resources (a library and funding for it would be a fantastic addition!), covered parking with solar panels to reduce electricity needs, location requirements that reduce traffic problems and light pollution, prohibiting any gas station or any all night business, to mention just a few ideas.

I hope that you will truly take the concern of your fellow citizens to heart and not just rubber stamp the rezoning request in order to replenish the city or the school districts coffers. While we may be only a small neighborhood compared to the number of people living in Phoenix, we should be respected for our opinions and needs. Please realize the adding a commercial center right next to the school and directly across from a residential area does not meet OUR needs and certainly does not show any respect for us.

Sincerely,

Susan Ze

No NO I know Money Talks But so does the residents of out neighboring communities! We DONT WANT THIS ! (Protecting the safety of our children with a high school right next door! For the safety of all the homes, for the additional traffic, NO NO)We have a beautiful shopping center with All the amenities we need and Crimes have increased WE DONT NEED THIS IN OUR BACK YARDS! I'm not sure this can be stopped because it's all about $$$ But we can try!!!!

To Whom it May Concern,

We are new residents are Fireside with 3 small children, two of which attend Fireside Elementary School. We bought our home under the pretenses that we were raising our family in a safe, quiet neighborhood and that the land around us had VERY MINIMAL commercial zoning.

This suggested rezoning is going to have such a great impact on our community, our safety, and our already overwhelmed streets. Especially Mayo, which we walk along every day to bring our kids to school. Mayo is a complete nightmare during school dropoff and pickup hours already.

Furthermore, the threat of a gas station, or drive through will bring fumes, loitering and crime to our community.

I am STRONGLY OPPOSED to this rezoning and I feel that I was sold a lie when I bought my house. Our children and our community deserve better than this.

**Subject:** Vestar Rezoning Proposal for SW Corner of Deer Valley and Black Mountain Blvd.
**Date:** Tuesday, September 12, 2023 11:58:46 AM

---

Hello Mr. Grande,

I have recently learned of the Vestar development proposal to rezone and commercially develop the land parcel on the SW corner of Deer Valley and Black Mountain Blvd. This is addressed in case no. GPA-DSTV-3-23-2 and Z-39-23.
As a resident of the Sky Crossing community, on the north side of Deer Valley, I oppose this rezoning proposal. It threatens our quality of life for the following reasons:
- The proposed commercial businesses will add additional automobile traffic, which will increase air and noise polution.
- The increased automobile traffic, just feet from Pinacle High School, will also threaten the safety of these students as motorists continuously drive in and out of this complex. As parents of a young child who will eventually attend this high school, we are very concerned about this impact.
- These businesses will add to light polution. The Sky Crossing HOA residential rules have deliberately restricted lighting on housing in order to preserve our views of the night sky. Our residents have enjoyed dark nights with full views of the stars. Bright lights from all-night businesses will impact the tranquility we have worked hard to achieve.

We moved to the Sky Crossing neighborhood in order to enjoy the relative piece and quiet afforded by this sparse residential area in northern Phoenix. The parcel on the SW corner of Deer Valley and Black Mountain Blvd., as originally zoned, is consistent with this goal, intended as a residential community. I am asking that you reject the Vestar development proposal and keep this land parcel zoned as residential for the benefit of the surrounding community.

Thank you for your attention to this matter.

In reference to Cases:
GPA-DSTV-2-23-2
GPA-DSTV-3-23-2
Z-39-23

Hi Anthony,

I just ended a community meeting with the representatives from Vestar (Gammage & Burnham) and my local community where the conceptual plan for black mountain village was discussed. I have to say I am deeply disappointed with this proposal, that includes a request for amending the districting of the land from residential to commercial and the build out of a 20 acre shopping center. From the call itself, many other community members were equally disappointed and voiced their concerns.

I've read through the plan and the commentary as provided by the representatives of this build out, that includes notes such as that this is to the benefit of the community in limiting drive time and is intended to cater to the local area residents. I am a local resident and my current shopping drive time is 5 minutes to the desert ridge shopping center. I do not agree that bringing traffic, crime, pollution, litter, noise, and light are worth the benefit of saving me 5 minutes of drive time to do my regular shopping.

I originally purchased my home in the sky crossing community as a part of the desert ridge specific plan, with the understanding that commercial placements would stay near the commercial core of the desert ridge area. Should the concept be built, it is difficult to say that the city did not intend to lure high income residents such as myself into the community with intention to later change the zoning to benefit builders and local revenues over the safety and peace of mind of it's residents. The city planners believed that this location would best serve the community as residential zoning as per the Desert Ridge Specific Plan 6-44 under section 'Superblock 12'.

It is inarguable that commercial districts bring new types of crime to residential communities. It is inarguable that commercial districts bring more traffic to local communities. The benefit of building this shopping center, right next to current homes and a large high-school, must outweigh the traffic, safety concerns, pollution, and noise that such a district would bring. Since as written by representatives of the build that this shopping center would be to our benefit, I fail to see what benefit that is that outweighs the safety of our local students and peace of mind of residents of the local communities. When asked during tonight's phone call about prioritizing pedestrian bridges for students and locals, the answers were that the associated costs were prohibitive, likely indicating that the priority is not on benefit of residents, but on revenue. Perhaps you can share the value-add that outweighs the risks of commercial traffic near a school zone?

Should this build go through, my wife and I will likely leave the community. I've personally experienced commercial districts being built next to otherwise quiet, residential locales, and have heard the song and dance of attorneys who have promised minimal impacts and benefits

to the community. This was intended to be our forever home, and should we have to contend with the risk of a large shopping center such as this one and the risks that shopping centers bring, we will find ourselves residents of a new community and will encourage the multitude of other community members who are equally disappointed to leave as well.

I ask that commercial districting stay within the current confines of existing commercial districts, that we refrain from re-zoning residential districts to commercial districts found in the desert ridge specific plan, and that the land we use keeps as planned by the original authors of the desert ridge specific plan, unless and as agreed to, by residents of the community, not builders seeking profit.

Thank you for your time and your consideration,
Josh

Hi Anthony,
As a 17 year resident of Aviano and living near deer valley I vehemently oppose the rezoning of The parcel of land near pinnacle high school. I have had 3 kids go thru that school. The traffic is horrendous, the lure of a gas station to buy tobacco and alcohol and generally hang out will be a detrimental to the kids and our nice quite pocket away from all shopping and industry will be depleted. I feel, as a real estate agent that this will lower property values and become a beacon for crime near our homes. Please reconsider. We will all be there at the October meeting. Thank you

| **Date:** | Tuesday, September 12, 2023 9:27:15 AM |

Hello Mr. Grande,

My name is Christine Taylor Morgan and I am a resident of Scarlet Ridge in the Fireside subdivision in Desert Ridge.

Over recent months I have become aware of the recent efforts by Vestar to rezone land nearby my home to create a large shopping complex. I just want to add my deep concern and opposition to such a development. I bought my house in 2011 and was comforted by the lack of commercial development nearby. Desert Ridge shopping center is close enough (only a few blocks away!) for all my shopping needs and Costco gas station is not far either and much cheaper alternative to Jacksons. I worry about the increased traffic off the 51 and on Mayo (interfering with my exiting my neighborhood), the danger to schoolchildren walking back and forth from school, the crime and loitering that will inevitably follow, the negative impact this will have on the health and safety of Pinnacle High School students, the increased light pollution and car exhaust pollution, and yes, sadly, the increase in homeless near my home. My house backs up to a wash near Black Mountain Blvd and I can foresee a future where homeless could possibly make an encampment behind my house. It makes me feel like I may need to move for my own peace of mind and safety. Honestly, I was hoping that a portion of the empty land in front of Pinnacle High School would have been turned into a parking lot for the students or parents for pick-up and drop-off. It is absolutely chaotic around the area for drop-offs and pick-ups. But of course, there is no profit in that.

I feel this development is completely unnecessary and would like to add my name to those who are vehemently opposed to it. Thank you for your consideration and involvement in this matter.

Regards,

C. Taylor Morgan

Re: cases GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2

To whom It May Concern:
I want to register my strong opposition to the proposed Black Mountain Village at Deer Valley and Black Mountain. As residents we chose to live in Fireside at Desert Ridge for a clean, quiet and safe neighborhood which was built under the Desert Ridge Specific Plan. To rezone for Vestar's commercial purposes is a complete betrayal to this community. Furthermore, this would drastically increase the traffic around the high school area and potentially put the kids at risk for traffic accidents and crime. Please DO NOT allow the zoning to be changed.

Hello
You may not live in the area, but this is a super bad idea. The location is in the middle of neighborhoods. Nobody wants the traffic or the noise this would create. We have desert ridge around the corner and cave creek rd. Both of have plenty of gas stations and food options. Please do not consider this ludicrous idea. Its not an added value location, it would be a community disrupter.

I am writing to inform you that I am extremely opposed to the Vestar plan to change the zoning from residential to commercial at Deer Valley and Black Mountain Boulevard. There is already a major traffic issue on that corner, children walk through that area and I am concerned that this will become an extreme hazard for them. Additionally, it does not fit within the desert ridge master plan, and will create chaos for homeowners across the street. We specifically moved to this area to avoid heavy commercial areas.

Thank you for your consideration, Cynthia Bennette

Hello,

I have been a resident of Fireside Desert Ridge since 2011. I now have a son at Pinnacle High School. I am strongly against re-zoning the area by his school to commercial. This was not the original plan and definitely after all the growth in this area should not be the new plan. Traffic on Black Mountain Blvd is horrendous and downright dangerous during school hours. I don't think it is a safe place to add more congestion. Please do not re-zone! The community does not want this.

Thank you,

Hi Anthony

I am OPPOSED TO REZONING the residential area off Mayo and Black Mountain Blvd.

I have living in AZ my entire life. Up the street in Aviano community from Pinnacle High School now for about 12 years. We opposed the freeway outlet onto BLack Mountian Blvd when it is being proposed due to the high school and the ineffective bridge that was built over Black Mountain Boulevard. Every day I watch highschoolers cut across the lanes near the roundabout versus using the pedestrian bridge. That bridge was a huge waste of money as the kids who live across the street do not use it. Duh teenagers many will find path of learnt resistance/ effort. so this was a huge waste of our tax dollars and money and makes it very dangerous for the kids. So not good planning there. Another negative is the traffic at PHS during rush hour traffic. Great planning to clog up the very narrow street and bring 2k+ kids to school during rush hour and adjacent to the freeway entrance. An entrance could have been built near a less busy entrance or on the west side of the school or off 40th street where there is no school.

I guess what I am saying is there seems to be little thought on what happens after things are built out and how it actually impacts the folks who use it everyday. Safety in this first example was and IS huge concern.

The principal at PHS opposes the rezoning. Many residents in nearby neighborhood and families that attend PHS oppose the rezoning. The high school has very limited parking and should be expanded to allow for the increase volume of students that attend the school. The school grows more every year. I guess if this becomes commercial where do you think all the sophomores will be parking or the kids who cannot get permits to park on campus?

I feel like Arizona for so long been inept at planning what is proper for communities, families etc. I am good with not needing a grocery store two blocks from my home. There is a ton of WOS off 40th street for development and seems more appropriate. Rezoning to commercial will be an absolute headache for the school, parking, anyone trying to use business in the proposed area. If you have not please drive though the area on a busy school morning and tell me how you feel. Or maybe attend an event at the high school. The parents who attend the school for event have to park in the fields off Mayo as there is just not enough space. I think if any change is to come it should be parking.

I am opposed to the businesses to be clear. Fast food etc is the wrong thing to put in. This will make community unhealthy, have too many More kids crossing BMB and very busy Deer Valley from neighborhoods across the way. No control of pedestrian traffic, even if you try to they are kids and may not abide. The heavily populated (family friendly)neighborhoods do not need these businesses in their vicinity as there are plenty around and better if you have to seek it out to ruin your health. Any entrance for business would be dangerous off Mayo or BMB… Further down deer valley would be better, but not at or near the corner or DV and BMB or mayo and BMB. There is just so many kids out walking and I don't think adding any congestion or entrance for business make sense.

I think desert, some parking for that area make the most sense for the community. Please help our community this time to make the right decision and hold safety, what is logical for the community, growth of the highschool at the forefront vs profits.

Thank you for your time and attention. I am OPPOSED TO REZONING TO COMMERCIAL.

I am writing to express my very strong opposition to the proposed development and rezoning of the land from residential to commercial at the Southwest Corner of Deer Valley and Black Mountain by Vestar Development Group. The conversion of this residential area into a commercial zone would have severe consequences, detrimental implications, and potentially devastating impacts on both the environment and the community. I implore you to reconsider this decision and prioritize the well-being of the city, its residents, and its natural surroundings.

The City of Phoenix has outlined a comprehensive sustainability plan for the year 2050, with clear guidelines for responsible development that considers the efficient usage of resources, including water. One crucial aspect of this plan is the expansion of parks, preserves, and open spaces, ensuring that all residents are within a five-minute walk of such spaces, but those spaces must be sustainable or else the whole point of having a commercial center within walking distance is null. Furthermore, the goal of reducing urban heat-island effects through green infrastructure and increasing tree and shade canopy coverage is paramount.

However, the proposed development contradicts these essential sustainability goals. Converting the area into a car-centric commercial zone would undoubtedly lead to increased traffic congestion, resulting in higher CO2 emissions. The associated light and noise pollution would disrupt the delicate balance of the ecosystem and erode the serene character of the Sonoran Desert environment, its flora and fauna, and its natural aesthetic.

I urge you to consider the broader impact of this development on the city's future. Will it be in line with the City of Phoenix's sustainability regulations, ensuring that the structures incorporate features such as vertical gardens and agricultural areas on their roofs? Will there be proper infrastructure in place, including ample bicycle racks, substantial green spaces covering over 80% of the area, and designs that prioritize pedestrian and micromobility traffic over internal combustion engine vehicles? Specifically, bicycle lanes which are physically protected by a barrier to protect cyclists from traffic?

The City of Phoenix has shown a commitment to reducing air pollution and safeguarding public health through various programs and initiatives. However, this development project poses a significant threat by potentially increasing the emission of Volatile Organic Compounds (VOCs), negatively impacting the environment, ecosystem, and the health of the community.

The City of Phoenix states, “The City of Phoenix is strongly committed to reducing air pollution and protecting public health. The city implements a wide range of air quality programs to reduce ozone and particulate pollution (dust and smoke). Transit, light rail, bikeways, and pedestrian-friendly development reduce vehicle emissions and promote land use planning and urban designs for a more sustainable environment”. How will this development protect public health when in fact, it will introduce vulnerabilities witthin the community? It will actively degrade and destroy the health of the surrounding community and communities.

Equally concerning is the potential destruction of native plants in the area due to this development. The loss of biodiversity and destruction of the Sonoran Desert's unique ecosystem cannot be taken lightly.

The Environmental Protection Agency asserts that that, “Volatile organic compounds (VOC) means any compound of carbon, excluding carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates, and ammonium carbonate, which participates in atmospheric photochemical reactions”. These harmful chemicals would be released into our atmosphere if the proposed development is approved. We must oppose and condemn this egregious use of building authority with passion for the future of the City of Phoenix, and on a more global scale,

the Earth itself.

In light of these concerns, I wholeheartedly disagree and very strongly oppose the Vestar Development Group's plans for the Southwest Corner of Deer Valley and Black Mountain. I urge you to immediately stop and immediately halt all current and future development plans and instead prioritize the city's sustainability goals, community well-being, and the preservation of the natural environment. By doing so, you can help shape a better future for the City of Phoenix and its residents.

Thank you for your attention to this matter.

Mr. Grande,

My daughter attended Fireside, currently attends Mountain Trail Middle School and will most likely go to Pinnacle HS next year. I am extremely opposed to rezoning the SW Corner of Black Mountain Blvd and Mayo Blvd into a commercial area.

This was intended to be a residential area not a commercial area.

People purchased their homes with the understanding they were in a residential neighborhood. Allowing a developer to come in a rezone for the developers financial benefit is a slap the neighbors face.

Neither Black Mountain Blvd nor Mayo were intended to be major commercial thorough fairs and there are plenty of businesses within 1 to 3 miles that provide these proposed services. Those areas are in commercially zoned areas and are major roads.

There are 5000+ students at this school. The area is congested enough during school drop off and pick up hours and adding more congestion to the area will create an even bigger risk of accidents especially with student pedestrians and new drivers. We currently have a jaywalking problem at that very intersection twice a day. Along with many cars parking along the road for student pickup.

Rezoning the area to commercial appears to be a ploy for businesses to target students who are still learning to manage impulse control and money management. In addition, it increases the opportunities for student truancy, loitering, littering, purchasing questionable products such as vapes/alcohol they can easily hide and take directly into school.

Because the businesses will be overwhelmed with students and students will try to park their to attend school rather than the school parking lot, I suspect many signs will be posted ... "customer parking only", no loitering, only "3 students the store at a time", "cars will be towed after two hours", "no student drop off/pickup". They might even have to higher a security service to prevent these activities creating a negative environment at the business center and the neighborhood.

Based on on those items I believe commercial area will not benefit the neighborhood but make it more stressful and unhappy to access.

Please ask yourself, would you want stores and a gas station to be built right next to your home or to your child's school? Its one thing to choose a place where that already exists, its quite another for someone to change the rules after you have already purchased your home and established your family.

Thank you for your attention in this matter.

| **Subject:** | Concerns for proposed land development |
| **Date:** | Wednesday, September 13, 2023 2:39:23 PM |

Hi Anthony,
I'd like to voice my concerns about having such a large commercial development so close to the high school. I know that this area is underserved with things like grocery stores, but I have some safety concerns. I'm concerned for a few of these reasons:

1. It will bring a bus stop to the area right outside the high school. Possibly opening it up to panhandlers and homeless individuals that we have seen on the rise in Desert Ridge. Posing safety risks to those who walk to and from school.

2. The traffic is already very bad in that area, and will likely cause more congestion and traffic.

3. Loitering after school by the high school kids, causing safety concerns, also kids from the high school parking in the shopping parking lots.

4. Noise and light pollution for those homes surrounding this area that has been proposed.

Thank you for your time and consideration in this matter.

| **Subject:** | Opposition to Applications to Amend the General Plan and Zoning Ordinance for Desert Ridge |
| **Date:** | Wednesday, September 13, 2023 9:45:37 AM |

As you are aware, there are pending City of Phoenix Planning and Development Department applications (GPA-DSTV-3-23-2 and Z-39-23), to amend the Desert Ridge Master Plan and zoning ordinance to allow building a commercial shopping center in the middle of our residential community! This level of over-development needs to stop NOW, and I request your support to deny this change. Vestar is not interested in the quality of life in our community. This commercial center would transform the neighborhood to absorb increased traffic, noise, lighting, pollution, and even crime. What possible benefit can another neighborhood retail grocery store, gas station or restaurant add to the abundance of retail shopping and dining at the Desert Ridge Mall and surrounding areas?

Instead, I would ask that you consider developing this 20.5 acre site owned by the people of Arizona (through the Arizona State Land Department) by planting trees and green landscaping for the use and pleasure of your District 2 voters and their children rather than the profits for the Vestar investors!

Sincerely,

Eugene F. Montgomery, PE

Re: GPA-DSTV-2-23-2/GPA-DSTV-3-23-2
Project located at the corner of Deer Valley Road and Black Mountain

Please do not move forward with this re-zoning. We want to keep this area commercial free as was originally planned and sold to us. There are commercial areas only a few blocks west on Tatum Blvd and a few blocks east on Cave Creek - we do not need additional commercially designated zones with ones already so close.
There is already too much congestion at that same corner during the mornings and afternoons due to the adjacent school and this will not only make it worse but also more dangerous for these students and for the neighboring residents.

Thank you for your time and attention, Camille Nassif

Hello Mr. Grande and councilman Waring,

I wanted to bring this to your attention that people in the Desert Ridge area have paid ads popping up on their Facebook page requesting people to sign their petition in support of the Vestar's Black Mountain Village Devlopement. If this advertisement is sponsored by Gammage and Burnham, is this even legal? This advertisement is very misleading, in a matter that could sway the outcome of the legal representation that they're providing to Vestar.

A major concern residents that live around this development have is that there is no way of knowing what is being considered as part of this development. Once this is approved to be rezoned, Vestar can do whatever they want with this land. The survey at the bottom of this page asks people to take a survey of which grocery store people would like to see in this development. Below are the options that people can choose from:

- Trader Joe's = Between 10,000 and 15,000 square feet
- Sprouts = 28,500 square feet
- Whole Foods = Between 21,000 - 38,000 square feet
- Safeway = 46,000 square feet
- Fry's = Between 80,000-105,000 square feet

I would say there's a massive difference between the stores they are discussing in that online survey. We need to know if they are discussing something smaller like a Trader Joe's or something massive like a Fry's. There is a huge difference between these. There is no sense of connection or community if you're planning on adding a Fry's to this development. This is also not catering to just the Desert Ridge community. Take a couple minutes to jump on the Nextdoor website/app and you'll see an incredible amount of people who live south of the 101 excited to see this development. This would allow them to stay off the 101 and just exit directly off the 51, onto Black Mountain Boulevard. This is not at all what Vestar is trying to promote with this project! They're promoting a sense of community and providing convenience for grocery stores and gas stations to Desert Ridge residents.

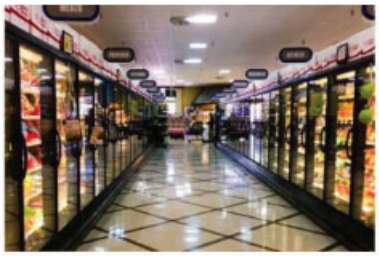
If you open up google and type in GAS STATION you will find that there are **11 gas stations within 3 miles of this intersection**. Additionally, within **3 miles of this intersection you have a Costco, Fry's, Albertsons, and Target**. I can't easily count the number of restaurants in that 3 mile range, but you have over a 20 alone near Desert Ridge and including High Street. There is absolutely no reason Vestar should be even considering a gas station at this location. The families that built either directly across the street, or very close to this development, are being punished for no reason. We were told that this is a residential superblock. The families that built in this area did so knowing that they would have a safe, quiet, area for their children to grow up around. This is not what I want directly across the street from my young family. Fireside residents, Sky Crossing resident, as well as the Estate at Ridgeview are uniting and we need to know we are being heard. This development can not just be a formality, because of the auction price is too lucrative.

I sincerely hope you take my concerns into consideration when deciding the fate of this rezoning vote. I look forward to speaking with both or you, in person, at the remaining council meetings.

Thanks,
Dan Richards
21618 N 36th Street

# BRING A NEW GROCER TO DESERT RIDGE

A neighborhood grocery-anchored shopping center near Deer Valley Road and Black Mountain Blvd. would **provide us with convenient access to fresh and affordable food options**. As we continue to grow and evolve as a community, having a neighborhood shopping center will not only contribute to our convenience but also provide alternative local dining options and reduce the need to travel longer distances to fulfill our grocery needs.



**IF YOU AGREE, PLEASE SIGN OUR PETITION »**

This is the last chance our community has for the development of a convenient neighborhood grocery-anchored shopping center that will bring numerous benefits to our neighborhood and enhance the quality of life for all residents.

Additionally, a shopping center of this nature can serve as a hub for social interaction, creating a sense of place and fostering a stronger sense of community. It can become a gathering spot for neighbors to meet, interact, and support local businesses. **This sense of connection and interaction can contribute to a more vibrant and tightly knit neighborhood.**

A well-planned and community-oriented development of this kind can add significant value to our neighborhood without compromising its unique character.

**Please consider supporting the development of a neighborhood grocery-anchored shopping center.**

**PLEASE SIGN OUR PETITION HERE »**

To whom it may concern:
I strongly opposed the development of property at Deer Valley and Black Mountain. The traffic in this area is already unmanageable and adding commercial property is only going to exacerbate this issue. It already takes an extraordinary amount of time to get children to and from Pinnacle High School. And yes, we live in district for that school. It will also create a safety hazard for students walking to and from school from the surrounding neighborhoods. There is already a shortage of parking at the school- this parcel is used for special event parking when the lot is full (football, etc.). This could lead to overflow parking now occurring in the nearby neighborhoods.

Desert Ridge Marketplace is 3 miles from this location and has everything anyone could need so the development of this small parcel in the middle of a neighborhood right next to a school (also increasing the risk of crime) is completely unnecessary. It should remained zoned for residential.

Dear Sir,

I am writing to express my opposition to the proposed re-zoning effort by Vestar. There are two schools very nearby, and I am concerned about the increased level of traffic in that area with a commercial project.

My daughter and her young family live in the subdivision directly across from this proposed area. I believe it is currently zoned for residential construction, which I believe to be the best use.

I appreciate your taking the time to consider my viewpoint.

Most respectfully,

Carol Fortune Ticgelaor

As a long time resident of this area I oppose the reZoning petition by Vestar to move the Deer Valley/Black Canyon freeway at Pinnacle peak from residential to commercial- this area has been over saturated with expansion and the particular location will encroach in an area near a high school that already sees and influx of young drivers, pedestrian and vehicular traffic.
Please support the constituency and not big business. Put your efforts towards getting bonds approved to construct a much needed new high school in the Norterra area for an already over burdened system.

Mr. Grande and Mr. Waring,

I am a resident of Desert Ridge and a father of three young children. Our family moved here this year for the distinct purpose of enjoying a quiet, safe neighborhood for our kids to grow up in. I am very upset to learn that the land on Black Mountain is being considered for rezoning as we already have so much traffic on our overwhelmed streets. Furthermore, we have two schools filled with children within a block of each other that is very burdensome to Black Mountain and Mayo.

Bringing in commercial development will further burden our streets, increase noise and pollution, lower property values, raise safety issues, and put more of our neighborhood at further risk of to commercial rezoning. I am strongly against this proposal, we moved here specifically to escape this type of living.

Respectfully,
Mike Bozzelli

| **Subject:** | Proposed rezoning on Black Mountain Blvd & Deer Valley Road |
| **Date:** | Friday, September 15, 2023 2:27:19 PM |

Good afternoon Mr. Grande,

As a long time Phoenix resident and taxpayer, it has come to my attention that there is a proposal to rezone the area of southwest Black Mountain Blvd and Deer Valley Road on the plot of land that is shared with Pinnacle High School.

Even with the widening of Deer Valley Road, the traffic in this area has grown exponentially over the last four years with the addition of a thousand new homes. The traffic at Pinnacle High School any given time of day, but especially during the morning drop off and afternoon pick up, creates gridlock. The Friday night football games, with the shortage of parking spaces, creates a foot and vehicle traffic nightmare with attendees parking wherever there is a spot on and off campus, and having to walk in the dark to and from their cars presents a danger.

Considering a rezone on this corner to add a commercial element that serves food and/or gas, whose only purpose is to serve the developers, would not only be careless and irresponsible from a safety standpoint, but inherently negligent at any number of possible detriments to our neighbors.

Your taxpayers in this area are vehemently opposed to this idea. I hope that you and your fellow city planners as well as the city council make the right decision.

Thank you for your consideration.

Dear Mr. Grande,

I am reaching out as a worried resident at Fireside Desert Ridge, deeply concerned about the safety of the students and the families of those who are attending Fireside Elementary and Pinnacle High School. The rezoning proposed in cases GPA-DSTV-2-23-2, GPA-DSTV-3-23-2, and Z-39-23-2 will severely increase traffic in our quiet community.

Every day, we see numerous students walking and bicycling to school, a sight that warms our hearts and speaks of a safe, close-knit community. Introducing a commercial hub will put these innocent lives at risk, disrupting the safety and tranquility that currently envelopes our neighborhood.

I urge you to consider the peace of mind of countless parents and guardians, and reject this rezoning proposal. Let's keep our neighborhood safe and conducive for our children's growth.

Thank you for your consideration.

Dear Mr Grande,
I am a resident of the Fireside Community and I am concerned about the potential action to change the zoning at Black Mountain and Deer Valley from residential to commercial. Most importantly is the proximity to Pinnacle High School. Looking at high schools in both Paradise Valley & Scottsdale school districts most of them, if not all, are set within the community, surrounded by homes, parks, churches and other schools. This provides easy, safer accessibility and safety for students and families within the community, and it is how the community was designed. Changing to a commercial development at that particular location is not a wise functional or safety decision for our community. I hope we can have your support to maintain the residential zoning as designed.
Respectfully,
Mary Burrell
Fireside resident Zachary Dr

To All Concerned With This Issue:

Unless you have personally been involved with transporting students to and from Pinnacle High School, as I have for the last three years, you cannot appreciate the traffic challenges that occur on a daily basis. Much like a horse race, vehicles jockey for the best position to beat the clock. We have vehicles traveling east and west on Mayo Blvd. We have vehicles traveling north and south on Black Mountain Blvd. We have vehicles traveling north and south on 34th Street. We even have vehicles from both directions turning onto Black Mountain Blvd from Deer Valley. All converge at the major intersection of Black Mountain Blvd and Mayo Blvd directly in front of the high school. Then, as each vehicle maneuvers into the correct lane for left turns, right turns, U-turns, and even the occasional illegal turn, the students gather en masse in the middle of the intersection, awaiting the signal to cross. The old adage that there is safety in numbers definitely applies here. But even under the best of conditions, some students can be seen darting across traffic, crossing against the light, and jaywalking. Add to that a plethora of parents anxious to get their students to school on time, inexperienced student drivers, and the crush of daily traffic --- and you have nothing less than a recipe for disaster.

With the high school located at the intersection of Black Mountain and Mayo Boulevards and with the never-ending vehicular traffic at that intersection, we will always have traffic congestion at this location. However, we can definitely avoid compounding these already existing traffic issues by prohibiting commercial developments in this area. Vestar's proposal promises round-the-clock businesses with round-the-clock traffic. If Vestar’s proposal were to be approved, the result would be nothing less than a first-class disaster.

Please DO NOT approve Vestar's proposal.

| **Subject:** | Re: Vestar Rezoning Proposal for SW Corner of Deer Valley and Black Mountain Blvd. |
| **Date:** | Monday, September 18, 2023 9:35:30 PM |

Hello Mr. Grande,

Last Tuesday, I had the chance to attend a briefing from Gammage & Burnham, Attorneys at Law, representing Vestar in the proposal to commercially develop the southwest corner of Black Mountain Boulevard and Deer Vally Road. The speaker was able to partially address *some* of the concerns I raised previously, but many issues remain.

Some of the points he made are below:

- **There are too few grocery stores in the area.**
  Albertson's, Costco, and Fry's are all less than a 10-minute drive from the communities surrounding this parcel. More importantly, everyone in these communities has cars and deliberately chose to live here, happily accepting the distance from their homes to the local grocery stores.

- **Any gas station must be associated with the grocery store and will not include a convenience store.**
  While this is somewhat helpful, standalone gas stations can attract aggressive driving and crime. In addition, there is no guarantee that these rules will be in place in the future. Once the infrastructure is availabie, a change to the rules (just as this zoning change was proposed) is possible with the potential to allow a standalone gas station (including an attached convenience store) to be put in its place.

- **Some of the business will have limited hours.**
  It was not clear which businesses, if not all, this curfew would apply to and the specific time of this curfew. Similar to my concerns about the gas station, all-night businesses can attract aggressive driving and crime, and add to light pollution. Also, similar to my concerns for the proposed gas station, curfews can be repealed. The only way to prevent this is to not build the infrastructure in the first place.

- **A traffic study was performed to mitigate traffic impact. Also, they expect only local community members to frequent these businesses.**
  There is nothing to prevent more cars, coming from outside the immediate area, from driving to these businesses and adding to traffic.

- **These business will increase the walkability score for the immediate neigborhood and add health benefits as they encourage more walking.**
  This seems to be an unlikely outcome since the city of Phoenix, especially the suburbs, is very much a vehicle-oriented culture. In addition, it is too hot for several months out of the year to walk. (In my own community of Sky Crossing,

most people drive to the community center even when many of them live less than half a mile away.)

I hope you will consider these concerns that are shared by many of my neighbors around re-zoning this parcel to be commercial. I encourage you to oppose it.
Thank you!

**Subject:** Vestar Rezoning Proposal for SW Corner of Deer Valley and Black Mountain Blvd.

Hello Mr. Grande,

I have recently learned of the Vestar development proposal to rezone and commercially develop the land parcel on the SW corner of Deer Valley and Black Mountain Blvd. This is addressed in case no. GPA-DSTV-3-23-2 and Z-39-23.
As a resident of the Sky Crossing community, on the north side of Deer Valley, I oppose this rezoning proposal. It threatens our quality of life for the following reasons:
- The proposed commercial businesses will add additional automobile traffic, which will increase air and noise polution.
- The increased automobile traffic, just feet from Pinacle High School, will also threaten the safety of these students as motorists continuously drive in and out of this complex. As parents of a young child who will eventually attend this high school, we are very concerned about this impact.
- These businesses will add to light polution. The Sky Crossing HOA residential rules have deliberately restricted lighting on housing in order to preserve our views of the night sky. Our residents have enjoyed dark nights with full views of the stars. Bright lights from all-night businesses will impact the tranquility we have worked hard to achieve.

We moved to the Sky Crossing neighborhood in order to enjoy the relative piece and quiet afforded by this sparse residential area in northern Phoenix. The parcel on the SW corner of Deer Valley and Black Mountain Blvd., as originally zoned, is consistent with this goal, intended as a residential community. I am asking that you reject the Vestar development proposal and keep this land parcel zoned as residential for the benefit of the surrounding community.

Thank you for your attention to this matter.

| **Date:** | Monday, September 18, 2023 7:14:34 AM |
| **Importance:** | High |

Mr. Grande, Councilmen Warring,

Please note my strong objection to the rezoning of Superblock 12 in Desert Ridge, the property at the corner of Black Mountain Blvd. and Deer Valley Road.

This project is ill-conceived and unnecessary. The safety and traffic concerns are enormous next door to a high school and across the street from an elementary school. There's no need for another grocery store in the area, and there are a number of other commercially zoned parcels in the area if a developer wants to risk their capital. There's no reason to re-zone this parcel beyond Vestar's desire to make more money and Gamage and Burnham to generate more fees.

I urge you to reject this re-zoning and any future attempts to do so.

Sincerely,

Bob Giammarco (480) 540-0644

---

Residents are opposed to this development to rezone this parcel to commercial. The developer's lawyer was less than truthful when presenting to the Sky Crossing residents and failed to show what was available South of the 101 in his 5-mile radius from the site. Nobody wants increased traffic, light, noise and air pollution.

No No No No. takes 30 min already to drop off and pick up my kids from Pinnacle. A woman came to my door last night saying she represented the developer and asked my opinion. I said I do not support it. Use that land for more parking or more High School space.

| **Subject:** | Fw: Vestar Rezoning Proposal for SW Corner of Deer Valley and Black Mountain Blvd. |
| **Date:** | Tuesday, September 19, 2023 8:40:07 AM |

Hello,
I received an out-of-office message from Anthony suggesting I contact this email address instead. I want to make sure my comments on this rezoning proposal are considered as part of the final decision.
I strongly oppose the proposal to rezone this parcel to be commercial. My reasons are in my two emails below.
Thank you for your consideration.

Jason

**Subject:** Re: Vestar Rezoning Proposal for SW Corner of Deer Valley and Black Mountain Blvd.

Hello Mr. Grande,

Last Tuesday, I had the chance to attend a briefing from Gammage & Burnham, Attorneys at Law, representing Vestar in the proposal to commercially develop the southwest corner of Black Mountain Boulevard and Deer Vally Road. The speaker was able to partially address *some* of the concerns I raised previously, but many issues remain.

Some of the points he made are below:

- **There are too few grocery stores in the area.**
  Albertson's, Costco, and Fry's are all less than a 10-minute drive from the communities surrounding this parcel. More importantly, everyone in these communities has cars and deliberately chose to live here, happily accepting the distance from their homes to the local grocery stores.

- **Any gas station must be associated with the grocery store and will not include a convenience store.**
  While this is somewhat helpful, standalone gas stations can attract aggressive driving and crime. In addition, there is no guarantee that these rules will be in place in the future. Once the infrastructure is availabie, a change to the rules (just as this zoning change was proposed) is possible with the potential to allow a standalone gas station (including an attached convenience store) to be put in its place.

- **Some of the business will have limited hours.**
  It was not clear which businesses, if not all, this curfew would apply to and the specific time of this curfew. Similar to my concerns about the gas station, all-

night businesses can attract aggressive driving and crime, and add to light pollution. Also, similar to my concerns for the proposed gas station, curfews can be repealed. The only way to prevent this is to not build the infrastructure in the first place.

- **A traffic study was performed to mitigate traffic impact. Also, they expect only local community members to frequent these businesses.**
  There is nothing to prevent more cars, coming from outside the immediate area, from driving to these businesses and adding to traffic.

- **These business will increase the walkability score for the immediate neigborhood and add health benefits as they encourage more walking.**
  This seems to be an unlikely outcome since the city of Phoenix, especially the suburbs, is very much a vehicle-oriented culture. In addition, it is too hot for several months out of the year to walk. (In my own community of Sky Crossing, most people drive to the community center even when many of them live less than half a mile away.)

I hope you will consider these concerns that are shared by many of my neighbors around re-zoning this parcel to be commercial. I encourage you to oppose it.
Thank you!

**Subject:** Vestar Rezoning Proposal for SW Corner of Deer Valley and Black Mountain Blvd.

Hello Mr. Grande,

I have recently learned of the Vestar development proposal to rezone and commercially develop the land parcel on the SW corner of Deer Valley and Black Mountain Blvd. This is addressed in case no. GPA-DSTV-3-23-2 and Z-39-23.
As a resident of the Sky Crossing community, on the north side of Deer Valley, I oppose this rezoning proposal. It threatens our quality of life for the following reasons:
- The proposed commercial businesses will add additional automobile traffic, which will increase air and noise polution.
- The increased automobile traffic, just feet from Pinacle High School, will also threaten the safety of these students as motorists continuously drive in and out of this complex. As parents of a young child who will eventually attend this high school, we are very concerned about this impact.
- These businesses will add to light polution. The Sky Crossing HOA residential rules have deliberately restricted lighting on housing in order to preserve our views of the night sky. Our residents have enjoyed dark nights with full views of the stars. Bright lights from all-night businesses will impact the tranquility we have worked hard to

achieve.

We moved to the Sky Crossing neighborhood in order to enjoy the relative piece and quiet afforded by this sparse residential area in northern Phoenix. The parcel on the SW corner of Deer Valley and Black Mountain Blvd., as originally zoned, is consistent with this goal, intended as a residential community. I am asking that you reject the Vestar development proposal and keep this land parcel zoned as residential for the benefit of the surrounding community.

Thank you for your attention to this matter.

**Date:** Tuesday, September 19, 2023 3:19:35 PM

---

Dear Mr. Grande,

We bought our home in Sky Crossing the Fall of 2019. We were told that the vacant land at Black Mountain Rd and Deer Valley Rd was zoned for residential only! Since we have been in our home, we constantly hear of violence, abductions, and drugs at Desert Ridge shopping area (just a couple miles East of our community). The last thing we want is to bring to our area are those type of issues along with more traffic. Also, this vacant land sits right in conjunction with Pinnacle HS. The traffic is already bad and we don't want drugs or violence around our kids.

Please help us ensure this are will remain zoned Residential!!

Sincerely,

Allyson Swanson

---

Dear Mr. Grande:

This email is to supplement my letter of August 23, 2023, a copy of which is attached for ease of reference. The proposed change is not justified and is highly inequitable. The justifications offered for the change are specious. The obvious goal is not to benefit nearby homeowners, but to draw traffic from SR 51 now that the terminal exit is connected to Black Mountain Boulevard.

On or about August 30, 2023, Vestar amended its request for a major amendment to the Desert Ridge Specific Plan ("DRSP"), amending Chapter 6 to state, in part, that:

> "Superblock 12 is located west of a possible future connection to the ~~Squaw~~ PIESTEWA Peak Parkway, which separates this superblock from the balance of the Desert Ridge community. BECAUSE OF THIS SEPARATION, THIS SUPERBLOCK CAN SUPPORT LIMITED COMMERCIAL USES WITHOUT INTERFERING WITH THE DEVELOPMENT OF THE DESERT RIDGE CORE (DEVELOPMENT PARCEL 5.A). RESIDENTIAL Development parcels may vary in size by 30 percent 25 percent for R1-6 and more dense zoning categories without a minor plan amendment)." [Exhibit A to GPA-DSTV-3-23-2, accessed 08/19/23 at Microsoft Word - GPA-DSTV-3-23-2 Exhibit A-Proposed Language Revised 2023-08-30.docx (gblaw.com) [gblaw.com]]

The proposed change, and the rationale offered for it, flatly contradict a fundamental principle of the DRSP. The DRSP does not accept distance from the commercial core as justification for building a 20-acre shopping center. To the contrary, it specifies that distance from the commercial core should correlate with less intensive land use:

> " . . . Desert Ridge is based on the urban village concept in that **all community and regional commercial uses are located in the Desert Ridge Village Center.** Very small neighborhood convenience commercial uses are appropriately placed internally within neighborhood units. The Desert Ridge Village Center is appropriately the "urban" core of Area C. **Land uses are the most intense in and around the Village Center in Desert Ridge, logically reducing in density with increasing distance from the commercial/employment center and continuing beyond the project boundaries.** "[DRSP 3.B. (Goal 1) @ p. 3-1, accessed 09/19/23 at Table of Contents (phoenix.gov) (emphasis supplied)] .

The DRSP acknowledges that residential neighborhoods should be protected from the adverse environmental impacts from commercial development:

> A total of 18 neighborhood convenience commercial acres, or a maximum of 90,000 square feet of gross leasable area, excluding child care facilities, for all of Desert Ridge outside of the Village Center will be allowed subject to the criteria and standards in Chapter 6. **This criteria will minimize the adverse environmental impact on the residential neighborhoods typically associated with commercial development.** [DRSP 5. C.1, @p. 5-5] (emphasis supplied).

The clear intent of the DRSP was to concentrate all significant commercial development in the core. At a community meeting, Vestar's counsel argued that because only one of the allowed commercial conveniences was ever built, a sprawling 20-acre shopping center is now justified. This turns the logic of the DRSP on its' head. The criteria were meant to protect homeowners from the evils of urban sprawl shopping centers, not to promote commercial development outside the core.

Vestar was the original developer of the Desert Ridge Marketplace ("DRM"), and presumably it had a seat at the table in determining the contents of the DRSP before ground was broken. Vestar was no doubt happy to accept the centrality of the core for retail development in Desert Ridge for many years. According to news reports, Vestar extinguished its 99 year lease and took full ownership of DRM as the sole bidder in an auction staged in December of 2022. Its claim that the proposed

change will "not interfere with the development of the Desert Ridge Core" is nothing more than a statement that Vestar does not think it will hurt itself. This cruel irony does not address any of the numerous concerns raised by the community.

I am aware of a social media campaign attempting to induce people to endorse a petition in favor of a "New Grocer" at the location. While I continue to believe that the contents of these posts are misleading, a fundamental point is that the DRSP clearly notified homebuyers that they were not to expect another shopping center in Desert Ridge. There have been no reports of malnutrition or scurvy related to a lack of grocery stores in Desert Ridge. There are grocery stores and plenty of shopping centers of the type proposed by Vestar nearby on Bell Road and other locations. The abstract desire of some residents for a Trader Joe's or AJ's (even though Vestar says it cannot identify any prospective tenant) cannot justify the concrete harm that will be done to the reasonable expectations of nearby homeowners.

The lack of one of these smaller boutique specialty grocers within the existing commercial core must be in large part the result of business decisions made by Vestar. It is widely believed in the community that Albertson's was granted extensive guarantees against competition; if that is true Vestar was surely involved in that decision.

Vestar claims, among other things, that the shopping center will provide a safe place for high schoolers to eat lunch. I have been informed that Pinnacle High School is a closed campus and that only seniors are allowed to exit the school grounds during the school day.

The DRSP acknowledges commercial development imposes adverse consequences on nearby residences. Vestar reaped enormous benefits and was perfectly satisfied to build the marketplace under the plan. Residents were clearly told not to expect a shopping center at Black Mountain and Deer Valley. That Vestar sees opportunity for profit after completion of the SR 51 terminal exit is not reason to make a major amendment to the DRSP and subject innocent homeowners to the inevitable degradation of the neighborhood.

The requested amendments should be denied.

Thank you for your consideration.

Re: GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2; Resident Statement in Opposition

Dear Mr. Grande:

I reside in Desert Ridge, and I am opposed to the above listed applications. My home is well west of the commercial core, overlooking Black Mountain Boulevard and Pinnacle High School ("PHS"), and with a view of the parcel in question. I have reviewed the application materials posted on the website of Applicant's ("Vestar") counsel, and I attended the informational meeting of the Desert View Village Planning Committee on August 1, 2023.

The requested change is beyond inequitable, it is unconscionable. It does extreme violence to the terms of the Desert Ridge Specific Plan ("DRSP")[1] and the reasonable expectations of Desert Ridge homeowners along Black Mountain Boulevard under the terms of the plan. It does nothing to further the well-being of nearby residents and poses myriad problems. The arguments offered by Vestar to justify the change do not pass muster, as will be readily demonstrated below.

## THE PROPOSED CHANGE IS AN EXTREME DEPARTURE FROM THE DRSP

DRSP contemplates that "commercial development is restricted to the Village Center . . ." except for "neighborhood commercial uses located within the residential superblocks".[2] DRSP goes on to explain the extremely limited size and scope of such commercial uses:

> The neighborhood convenience commercial centers are very limited in size. They are intended to serve only the superblock in which they are located and not intended to serve a population outside the superblock boundary. The **maximum total acreage for neighborhood retail uses**, including buildings, parking, landscaping, and any other items related to the existence of the neighborhood retail use, **shall be three (3) net acres**, while the minimum acreage will be one (1) net acre. [3]

Furthermore, DRSP strictly limits the permitted uses within non-core superblocks, and the list does not include gas stations or drive-through coffee operations[4], both of which were touted by Vestar's counsel at the informational meeting. Indeed, DRSP specifically prohibits "Drive-through uses".[5]
Under the DRSP, no family purchasing a single-family home in a non-core superblock would reasonably anticipate having a drive-through Dutch Brothers or Starbucks, or a gas station, across the street from their home. Vestar now proposes a 20-acre commercial development in Superblock 12. [6] Vestar is essentially asking the City of Phoenix to throw out DRSP and stab nearby homeowners in the back.

## OBVIOUS INTENT TO DRAW ADDITIONAL TRAFFIC FROM SR 51

When Black Mountain Boulevard south of Mayo Boulevard was completed and made the terminal exit of SR 51, concerns of nearby residents were addressed by placing a traffic circle to slow down traffic and discourage heavy trucks, and by providing a pedestrian bridge for safe access to PHS.

The proposed change represents a complete reversal of what was until now a concerted effort to keep Black Mountain Boulevard more quiet and more safe. The placement of the proposed shopping center, at the first traffic light after the SR 51 terminal exit, is obviously intended to attract vehicles that would otherwise continue west on SR 101 and exit at Cave Creek Road or further west. It is a repudiation of DRSP's promise that homeowners could expect to live in clean, quiet neighborhoods while commercial activity was limited to the Village Commercial Core.

## MAGNET FOR UNSUPERVISED ADOLOSCENTS

Placement of the shopping center within spitting distance of PHS is problematic. This is not meant to disparage the PHS student body as a whole. Nevertheless, in any group of over 2500 teenagers[7], there will be those whose immaturity or lack of direction makes them prone to get in trouble. While the studious and industrious will disperse to more wholesome activities, there will undoubtedly be those who choose to hang out. The shopping center, just across a narrow street from PHS, will obviously become the hang out venue of choice.

There are numerous reports of problems with unsupervised teenagers in retail environments across the country[8], and unsupervised time leads to drug use and other issues.[9] Given the location, these problems will undoubtedly spill over into the surrounding residential areas, which already experience litter, graffiti, vandalism and doorbell pranking. Encouraging high concentrations of hundreds of unsupervised teenagers cannot be a benefit to the teenagers or anyone else. It is best for all concerned if the students disperse when not involved in supervised activities.

Vestar claims that the presence of the high school makes the parcel unsuitable for development as currently zoned.[10] The opposite is true. DRSP and the existing zoning contemplate Superblock 12 to contain only the high school and residential use. PHS opened in or about 2000. Nothing has changed about PHS that would justify depriving nearby homeowners of their reasonable expectations under DRSP.

## AIR, NOISE AND LIGHT POLLUTION

DRSP prohibits "Drive-through uses"[11] in non-core superblocks for very good reasons. These operations generate considerable pollution. Not only are PHS and numerous homes nearby, but Fireside Elementary is not far and generally downwind. Air pollution from idling engines is a serious problem[12], and some communities have gone so far as to try banning drive-through operations entirely[13]. The air quality in Phoenix, and Maricopa County generally, is notoriously poor with many "bad air" days. [14] Encouraging drivers to turn their motors off while waiting will never work when the temperature is over 90 degrees. DRSP's approach of limiting these operations to the Village Commercial Core is not arbitrary and should be maintained.

Although Deer Valley Drive and Black Mountain Boulevard have some traffic at rush hours, things tend to quiet down in the evening and there is a distinct residential tone to the neighborhood. This holds true when attendees disburse after PHS Friday night football. The proposed shopping center will keep the noise up and the lights on much later than nearby residents are used to, greatly diminishing the residential character of the community.

## TRAFFIC CONGESTION

I am aware that other residents have commented on traffic issues. I will not belabor the point here, except to note that in the chaos that occurs every morning when PHS is in session, I have at times been unable access westbound Mayo Boulevard from the N. 36th Way gate of my community. Vestar contemplates cars entering and exiting the shopping center on all four surrounding streets. This would include Mayo Boulevard directly across from PHS, and will surely exacerbate the existing problems.

## VESTAR'S SCHEME IS NOT JUSTIFIED

Vestar's purported justifications of its scheme do not withstand scrutiny.

**There are no traffic or parking impediments to residents obtaining daily needs at the Desert Ridge Marketplace ("DRM").**

DRM was designed to enable local folks to get to the pharmacy, gas station, grocery store, and various other businesses without getting involved with traffic headed to the big box stores, apparel outlets or entertainment district. The local needs providers are located in the northwest corner of the marketplace and are readily accessed from two curb cuts on Deer Valley Drive just east of Tatum Boulevard. The apparel and box stores, as well as the entertainment district, are closer to other, much larger, parking lots which are served by numerous additional entrances to DRM. I have lived in Desert Ridge for over 11 years and have never, even on Black Friday, had a problem finding parking at Albertson's. To illustrate this, I recorded a video at Grocery Run Sat 08-19-2023 - YouTube. [15]

**The proposed center is unlikely to provide alternative groceries.**

At the informational meeting, Vestar's counsel admitted that Vestar is unable to identify any specific grocer that would occupy the proposed grocery store. Although Vestar says it expects the grocery store to be smaller than the existing Albertson's, its counsel conceded that none of the proposed businesses are sure to occupy the shopping center. Assuming that a grocery store is established, there is no reason to believe that it will offer merchandise different that that offered at Albertsons.

**Creation of minimum wage retail jobs is not a community priority.**

The small number of jobs projected to be "created" on the new shopping center could easily be placed elsewhere. It should also be noted that substantial construction is taking place at nearby High Street and City North where much higher density residences, offices, and retail spaces are being built.

**Purported benefits to the community are illusory at best.**

*Keeping the Current Zoning will have the same effect on dust and storm runoff.*

The supposed dust control and storm runoff management benefits are speculative and unquantified. In 11 years, I have never seen significant flooding along Black Mountain Boulevard. Residential development at the site would have the same effect.

*The "safe alternative" for students is illusory.*

Encouraging teenagers to consume junk fast food benefits no one. The so called "safe alternative . . . before school, after school, and during the lunch hour" actually describes an unsupervised hangout for hundreds of teenagers with all the attendant problems described above. A concession by PHS's principal that the project "would potentially reduce the number of off-campus trips by car"[16] hardly demonstrates a full-throated endorsement of the scheme. Had there been a firm expression of general support for the project from anyone in authority at PHS or the school district, Vestar would surely have mentioned it in its explanatory letters.

*The residential remnant shows how the change is repugnant to DRSP.*

The fact that Vestar wants to gobble up 20 acres of the Superblock while leaving a mere remnant for residences demonstrates how the proposal is repugnant to both the letter and spirit of DRSP.

*The gas station and shopping center have no health benefits and will not be a community social center.*

There is nothing about the proposed project that will foster connection among the citizens. There are innumerable such shopping centers around Phoenix, and there is nothing unique about this proposal. There are no outdoor parks, exhibition or performance spaces illustrated on the Conceptual Site Plan. The purported health benefits are nothing but speculation. It is my observation after 11 years living here that very few people walk with groceries around Desert Ridge, regardless of the season. The health hazards of innumerable automobiles spewing particle pollution on the drive-through lines clearly outweigh these specious claims of health benefits.

*The proposed gas station will not provide a net benefit to the community.*

A gas station will generate excess light, noise, and fumes on a 24/7 basis. The convenience store that will inevitably accompany it will only encourage additional teenage loitering.

In my 11 years here, I have only fueled my car once or twice at the Shell station at DRM, even though it is the most conveniently located, and I am there several times a week while visiting the grocery store or the pharmacy. The problem is that Shell stations generally charge considerably more than Circle K, QT or Arco. The issue, if there is one, is the price, not the location.

The proposed gas station is obviously intended to draw traffic from SR 51 as discussed above. Located as the last gas before the freeway, competitive pricing is doubtful.

*The Desert Ridge Community Association (DRCA) has not taken a position on this project.*

Although there have been communications between DRCA and Vestar, the board of DRCA has never resolved to support this project. While I am not privy to communications that may have taken place between Vestar and DRCA's officers or board members, the Association has never formally endorsed the project. A copy of an email from DRCA confirming this is attached as Exhibit A.

## THE PROPOSED CHANGE IS AN UNCONSCIONABLE STAB IN THE BACK

Zoning determinations must be "… equitable, in terms of consistency with established regulations and procedures, respect for the rights of property owners, and the consideration of the interests of the citizens of the City."[17]

DRSP provides for a mix of densities and uses, from mixed commercial and multi dwelling to condominiums, to rental apartments to single family homes. Purchasers of single-family homes were encouraged by a central feature of the plan: all significant commercial activity is placed in the Village Commercial Core. Retail conveniences in the non-core residential superblocks are limited to a list of specified uses, limited to three acres, and drive-through operations are expressly prohibited. Thus, purchasers of single-family homes could look forward to living in

clean, quiet residential neighborhoods. Vestar now proposes to simply rip up that plan and asks the City to stab nearby homeowners in the back.

Rejecting this proposal is not unfair to any Desert Ridge Residents who may endorse, in the abstract, a gas station or additional retail operations. There was nothing about DRSP that gave them any reasonable expectation that these things would be built on Black Mountain Boulevard, and they were content to buy their homes under that plan. Vestar's plan to ruin the lives of residents along Black Mountain Boulevard is grossly unfair; indeed, it is unconscionable and must be rejected.

Respectfully submitted,

James W. Tuffin

**Subject:** TO ALL BOARD MEMBERS AND TERRENCE SMITH Re: Plan and Zoning Change Case Black Mtn and Deer Valley

Hi Folks,

It was great reconnecting with Reggie and Doug at the recent Desert Village Planning Committee meeting, and remembering the fellowship we enjoyed when I served as DRCA treasurer. Having stepped back from community affairs, I was taken by surprise by the rezoning notice and some of the things I heard at the meeting. Now I need to catch up and I hope you can help me.

At the meeting, and in an explanatory letter submitted to the City, Vestar's counsel suggested that the DRCA supports the proposed changes. I respectfully request answers to the following questions:

1. Did the DRCA ever pass a resolution supporting the proposed changes or the project in general? If so, please provide a copy of the text of the resolution(s) and the agenda(s) and minutes of the meeting(s) at which such resolution(s) was (were) adopted.

2. Is DRCA, its representatives or agents, in possession of any writings, correspondence, emails or texts showing communications between or among the DRCA, Vestar, Vestar's counsel or representatives, the City of Phoenix or the Arizona State Land Department related to the proposed project or the applications for plan and zoning changes? If so, how can association members get access to those materials?

I'm guessing you'll be seeing a bit more of me in the coming months and as always, whether we agree or disagree, as friends. As you might imagine, I need a response to each question as soon as you can do it. Please do not delay responding to question 1 if you need more time to answer question 2. I should mention, although I'm sure you know it already, that your response may be incorporated into submissions I may make to the City. As a professional courtesy, I am providing Vestar's counsel with a copy of this request.

Thank you very much.

Warm regards,

Jim (James W. Tuffin)

**Date:** Tuesday, September 19, 2023 11:03:01 AM

---

I am not generally opposed to development but putting a shopping center at that location does not make sense.

The issue is every single exit from that planned shopping center will funnel all traffic to the deer valley and black mountain light. Unless the city puts in new lights all those exiting on the north side must turn right and anyone exiting on the east side wanting to go north or west will do a u turn at Mayo or go to the roundabout by the ramp to 51 and u turn there. All traffic heading to the one intersection ( deer valley and black mtn).

This location will drive traffic into the fireside desert ridge and into SkyCrossing Communities to avoid the black mtn and deer valley intersection.

So this is why I am opposed to rezoning this property.

I live in SkyCrossing.

Dear Anthony –

RE: Black Mountain Village | Case Numbers GPA - DSTV - 2 - 23 - 2 | GPA - DSTV - 3 - 23 - 2 | Z - 39 - 23 - 2

I am writing about the proposed project called Black Mountain Village at Deer Valley Rd and Black Mountain Rd.

I am 100% AGAINST this project.

I have lived in Fireside at Desert Ridge since 2009 and served on our board for several years.

- I have witnessed the increase in traffic during the school year at Pinnacle, this project only serves to make that a BIGGER mess
- A gas station, conv store, fast food, and whatever else is NOT the project for this site next to a high school, junking up OUR neighborhood, AND making traffic a bigger mess
- We live here for the openness of the area – so far all is in good taste
- The Desert Ridge Specific Plan's intent was to keep commercial activity aligned to a commercial core; commercial activity in the residential superblocks is strictly limited to minor conveniences of no more than 3 acres and drive through operations are prohibited
- We live in an attractive community, not only will a gas station and the other suggested businesses junk it up but the traffic will worsen, there are plenty of other gas stations VERY close by, we do not NEED this project
- The land at Deer Valley and Black Mountain is designated RESIDENTIAL under the plan – I vote NO to change that designation
- We do NOT want or need a 20 acre shopping center next to residential and next to a High School
- Crime, litter, noise, pollution and traffic nightmare is what this project equals

Please listen to the community, we LIVE here. Developers build and move on in continuing to live in 'their' protected neighborhoods. Please stop this corporate action and change, it is NOT wanted.

Thank you,
Karen

Regarding

Case No. SPA-DS1 V-2-23-2

Case No. CPA-DSTV-3-23-2

Case No. 1-39-23

Mr Grande

I oppose the zoning change proposed by Vestar Development and I encourage the board to decline the amendments. I am a homeowner and have lived in Fireside at Desert Ridge since 2013. While many of us who live in Desert Ridge would like to see more grocery options in our neighborhood, the location proposed by Vestar is not appropriate for such a commercial development.

The location is surrounded on 3 sides by single family homes, next to a high school and just blocks from an elementary school. Most of us who bought into this community were very attracted by the Desert Ridge Plan, which limited the location of commercial development. This is a neighborhood with 3 very active HOAs, excellent schools, walkers and runners of every age and kids playing safely in front of their homes while neighbors chat.

A commercial shopping center at the corner of Black Mountain Road and Deer Valley Drive will fundamentally change traffic, lighting, noise, air quality, safety, crime, physical aesthetic and economic value of our beautiful neighborhood.

The corner is not appropriate for a large grocery store, gas station, drive-through, restaurants, and other high traffic commercial activity. Vestar does a fine job managing Desert Ridge mall and should look for a location better suited to the type of development they propose.

My name is Michael KIperman. I'm a resident of Fireside at Desert Ridge community. I strongly oppose Black Mountain Village project. Due to the fact that such projects attract unwelcomed characters into immediate residential area. Can't help but stress the fact that there are 2 schools in the neighborhood, especially elementary school. We want our kids to be as safe as possible. We don't need additional traffic. It is a nightmare twice a day as it is.

Thank you for understanding. Hopefully this project can be moved elsewhere.

**To:** PDD Long Range Planning
**Subject:** Re: Automatic reply: Opposing rezoning Black Mountain Blvd/Deer Valley
**Date:** Wednesday, September 20, 2023 9:56:03 PM

---

Good morning,

As a Phoenix resident and tax payer I want to express my disapproval of the proposal of rezoning the area southwest Black Mountain Blvd and Deer Valley Road next to Pinnacle High School.

SAFETY
Being next to the high school and walkable distance to 2 elementary school we risk bringing strangers to our community where so many children walk alone to school.

Possible bus station- more strangers coming to our community. Phoenix, as I believe you are well aware has a growing homeless population. Did you drive by Desert Ridge recently? At every stop light you can see panhandlers. Homeless people sleeping on bus stations. Did you know about the psychiatric, and drug abuse problems among the homeless population? I bet you did.

Possible gas station- alcohol, criminal. Enough said. Just driving to Desert Ridge there is one, and even 2 down the road on Cave Creek.

Possible drive through restaurant- if not living in the area you are probably not aware of the ongoing evening trouble In'n'Out has, for example. Not mentioning providing even more unhealthy options to our growing students.

Traffic- I could say well congested area. Traffic has grown over the last few years. I can not get out of my neighborhood due to overwhelming school traffic. But I agreed to that, and wanted to be the closest possible to schools. Adding more traffic to our community is not something we were looking for.

I hope you and your fellow city planners have in mind the wellbeing of our community residents not only the investors that only care about their profit.

Thank you,
Stanislava Kuka

| **Cc:** | Council District 2 PCC |
| **Subject:** | Rezoning Superblock 12 |
| **Date:** | Wednesday, September 20, 2023 8:25:28 PM |

Good Evening,

I would like to express my opposition of the rezoning of Black Mountain Village/Superblock 12 from residential to commercial/retail space. There are several reasons, first and foremost there is an ongoing homelessness issue throughout the perimeter of Desert Ridge. Leaving Mountianside Fitness yesterday at 6:30PM , there was a man laying across the sidewalk sleeping with his shopping cart and garbage laid around him on the corner of Rose Garden and Tatum. I went to pick up my daughter from soccer practice at 8:45PM and he was still there. Not to mention when I go to the gym at 5:00AM and the bus stops are a campground for the homeless. I absolutely do not want this type of activity closer to our neighborhoods and schools and that is exactly what would happen if something like this was to go in this area. You would encourage the homeless to set up encampments around high school to have easy access. Go check out the south/east corner of Tatum along the freeway, there are encampments. Once they're cleared, they just move to another area. Not to mention the trash that is left on the corners from panhandlers. It's ridiculous that it has gotten this bad, but that is another email and I refuse to let this happen closer to my home.

Secondly, if approved, you basically would be providing a parking lot for high schoolers that don't have a parking spot (every junior class
man with a car and license, there is only enough spots for seniors) ask the businesses around Chaparral High School how they feel about that? The traffic is already horrendous on school mornings at all the schools, but with this, you would be adding more traffic and delivery trucks along Deer Valley at all hours of the day and when kids are crossing to go to school.

We have been residents of Fireside for over 10 years and we have raised our 4 kids here. We moved over here for the great schools and great neighborhoods. We have 2 kids at Pinnacle, 1 at Explorer and 1 at Fireside Elementary. We bought in this neighborhood knowing that would be zoned for residential and it should stay the way!

Please take into consideration my opposition for this rezoning plan. We love our neighborhood and schools and want to keep the safe for everyone that lives here!

**Case No. SPA-DS1 V-2-23-2**

**Case No. CPA-DSTV-3-23-2**

**Case No. 1-39-23**

Mr Grande,
I'd like to please ask you and the city representatives to consider the opposition many residents here in Fireside Desert Ridge have to the proposed zoning changes of the property at Black Mountain Blvd and Mayo Blvd /Deer Valley Drive right next to Pinnacle High School.

It's currently zoned for residential and for the developer to change it to retail shopping opens this area up to increased traffic congestion and student/resident safety issues here in the area.

I invite any of you to please come observe the traffic at these intersections around the school during the peak times of dropoff 7:20-7:30 am and at 2:15-2:20 pm pickup when it's the worst. These intersections are a nightmare then. Droves of kids are walking to school and crossing/ jaywalking across these intersections some are on bikes even—and they are NOT heeding any kind of traffic signals or signs because they are kids of course. Many cars are racing through yellow lights and people sitting in intersections at red lights because they tried to fit through. We have seen lots of accidents, a lot of honking and near misses. My son's Pinnacle soccer coach was just in an accident this past Friday during pickup when a man in a car not paying attention to stopped traffic on Mayo slammed into the back of him causing his car to hit the car in front of him, which was driven by a student. It happens all the time because of the sheer volume of cars and kids and mayhem happening during these times. It is only a matter of time before a kid is seriously maimed or killed at this intersection/area.

I live across the street in Fireside, a stone's throw from this land where they are going to build. My son attends the high school and my twin girls will attend next fall and then my youngest will attend in two years. We are stuck for a long time with whatever the powers that be decide should go here. I worry about the influx of traffic and congestion, the problems it brings to us as nearby residents, by way of safety especially—but also being a single mom I bought this home two years ago for its close proximity to school for my kids to walk to local schools and the safe neighborhood feel. But I'm worried at the potential drop in property values if they start putting in crappy shops or gas stations or smoke vape shops, causing our nice residential area to look, smell and sound like a truck stop dump attracting transients and homelessness, no doubt.

I know money will likely win out in the end, and something will be built here. It's a shame the school district couldn't have bought a piece of this property for added parking for the students at school because as it is currently, only seniors can park in the school lot, which is asinine. The principal at Pinnacle has even told parents last week they have addressed safety and traffic issues to Vestar but ultimately can't have a definitive say in this land development.

City officials have a duty to protect the interests of the residents here who live and work and pay taxes.

These developers have the monetary means to at least put an-over-the street walkway /sidewalk bridge from the Mayo/Black Mtn crosswalk over to the school so our kids aren't playing Frogger in traffic through red and green lights as they currently do every single school day. The existing walking bridge (see attached picture) that some idiot designed and installed years ago is out of the way for kids to walk, located south at the 51 interchange, at the dog park entrance, so they would have to walk down there then back around to go back up to the school—it's an extra 10-15 min of walking —not a single soul is doing that and that pedestrian bridge remains not utilized.

**My question: Could the city mandate the developer to at least relocate the pedestrian bridge to the problem/ busy intersection at the school instead of that bridge uselessly sitting down the street out of the way? (I included a pic of bridge area)**

If something is built here eventually, I hope the people in charge will think first of the safety of students and residents over the quick buck they'll make in revenue at the site.

Thank you for hearing me,

Andrea Remke,
Phoenix resident of Fireside at Desert Ridge

| **Attachments:** | image001.png<br>Grocery Store options.docx |

Dear Mr. Grande and Councilman Waring,

I submitted an email on September 13 pertaining to my opposition to the proposed development . One of the points made in my previous email was stating the amount of gas stations and grocery stores within a 3-mile radius of the Deer Valley and Black Mountain intersection. I mentioned 11 gas stations within a 3-mile radius, but the correct number is **12 gas stations**.

It was brought to my attention that Gammage and Burnham met with the residents of Sky Crossing shared an exhibit showing the lack of gas stations and grocery store options within a 5-mile radius. They failed to show all the options south of the 101 in their exhibit, which is incredibly misleading. I have attached a map that shows all the gas stations and grocery stores in a 3-mile radius. If you change your search to a 4-mile radius, you find **18-gas stations**. The grocery store options are quite vast as well.

**Grocery Stores included within a 4-mile radius include:**

- Costco
- Walmart
- Target
- Sprouts Market Express
- 2 Fry's
- 2 Albertson's
- Food City

Please take this into consideration when Vestar continues to tell people that Desert Ridge is lacking grocery and gas station options. It's simply not true. Our neighbors do not want this development to be built. We all live in the residential superblock portion of Desert Ridge. If we wanted to live within walking distance to restaurants, we would have moved closer to Desert Ridge Marketplace. This isn't for the residents of Desert Ridge. They're looking at this parcel because they want the traffic from the 51.

Thanks,

I am very much opposed to rezoning this property to commercial
I am a resident of Fireside and with the school traffic, adding a commercial development would make that worse
In addition, we don't need more development in our area. We already have the Marketplace and that is sufficient for our community

| **Subject:** | Vestar"s Development Amendment and Zoning Requests for Superblock 12 |
| **Date:** | Thursday, September 21, 2023 10:13:35 PM |

To All Concerned With This Issue:

I recently attended a Desert Ridge Community Association meeting in which representatives for Vestar presented a rough sketch of their development plan for approximately 20 acres carved out of Superblock 12. Listening to them, one would surmise that this development was for the benefit of our neighborhood. They discussed a neighborhood grocery store, some small retail businesses, and dining options. A rather straightforward design, you might think. What Vestar's rep didn't mention was the inclusion of a gas station, fast food drive-throughs, and even a city bus stop. A plan that sounded innocent enough at the time now begs the question of how a development such as this would impact our neighborhood.

Vestar wants to rezone Superblock 12 from an R-2 residential designation to a C-2 commercial designation. With this rezoning would come a commercial development, such as Vestar's, right at our back door. There are many troubling issues associated with this proposal. I am limiting my comments to the environmental impact that Vestar's proposal would have on our community.

One of the most significant pollutants of our environment is gas stations. For instance, during fueling, toxic compounds such as Benzene (a known carcinogen), Ethyl Benzene, Toluene, and Xylene (BTEX) are released into the air. Likewise, these same compounds will pollute the air when there is leakage from the storage tank vents. Spills from fueling and spills from emptying tanker trucks can occur, causing soil, groundwater, surface water and air contamination. Even idling engines of vehicles contribute to air pollution with the release of harmful chemicals, gases, and particles. Add to this the road noise associated with an overwhelming number of vehicles driving in and out of the gas station and one must conclude that gas stations are one of the most significant polluters of our environment.

Grocery stores and fast food restaurants are right behind gas stations when we consider the extent to which they pollute the environment. The average grocery store emits almost two tons of carbon dioxide from the electricity and natural gas that it uses each year. In addition to that, grocery stores and fast food restaurants generate tons of litter and garbage yearly. Proper disposal of these then becomes a major issue. If strict guidelines aren't followed, we are then dealing with air and soil pollution, in addition to the environmental issues posed by rodents and other pests attracted to the area. Another concern is the amount of traffic generated by these businesses. Their customer traffic, their delivery trucks, and their trash collection vehicles make a substantial contribution to both noise and air pollution. Lastly, it is not surprising that air pollution is the direct result of food preparation.

With the kitchen exhaust fans we have the release of organic aerosol into the environment. With grills, stoves and ovens we have the release of formaldehyde, carbon dioxide and carbon monoxide into the air. Naturally, these airborne particulates are inhaled by everyone nearby. With ongoing exposure, these particulates can be extremely harmful to individuals. This is especially true for asthmatics and individuals dealing with long-term breathing problems such as COPD.

It is obvious that the environmental impact of Vestar's proposed development would not be limited to noise, air, soil, and light pollution. Their proposal would guarantee both traffic pollution and people pollution, as well. Is it fair to assume that crime in our neighborhood would not be far behind, if Vestar's proposal were to be approved?

The negative impact that Vestar's commercial development would have on our neighborhood far outweighs any benefits of a grocery store, a gas station, and fast food restaurants. With these services and many more just minutes away in the Desert Ridge Marketplace, we don't need them in our own back yard.. We must keep Superblock 12 zoned R-2 Residential, as it was originally intended.

Please say NO to Vestar.

RE:

**Case No. SPA-DS1 V-2-23-2**

**Case No. CPA-DSTV-3-23-2**

**Case No. 1-39-23**

Mr Grande,

In exploring the information on the proposed rezoning of Superblock 12 in our community, I wanted to express my concerns and "no" vote on this land being used for commercial use.

While living in the community for nearly 18 years, this would have a negative impact on the overall feel which is contrary to what the developers are trying to market to us. The increased traffic would contribute to further noise pollution as well as the increased opportunity for crime and trash.

This property is directly across the street from a large high school where new drivers try to sharpen their new skills and this commercial development would lead to an increase in accidents as well as fear of children / pedestrians being hit while walking to the surrounding schools from this intersection (1 high school, 1 middle school, and 2 elementary schools within a 1 mile radius).

We have seen migration of homeless around our community, near the Desert Ridge mall, and could only see the future migration to this new shopping area which is a huge safety concern for my family and other neighbors who bought in the area for the enjoyment of being able to walk or ride to neighborhood parks and trails.

Lastly, adding a grocery store no matter small or large would not serve a purpose of improving our service needs. We already have plenty of choices in a short distance around us.

Thank you for taking the time to accept and hopefully take our concerns into account.

Greg Nelson

| **Subject:** | Regarding rezoning the block at Deer Valley Rd and Black Mountain next to Pinnacle High School. |
| **Date:** | Thursday, September 21, 2023 5:59:51 PM |

Hello Mr Grande,
My name is Deanna Guttilla. I have been a homeowner and resident in Fireside and have happily raised three children here since 2011.
I'm writing in regard to case number GPA-DSTV-23-2/GPA-DSTV-3-23-2/Z-39-23-2.
The block of land at Deer Valley Rd and Black Mountain Rd is up for possible rezoning to commercial land use.

As much as I feel we could use a small grocery such as Trader Joe's, and would love a little upscale outdoor mall area, I'm opposed to rezoning to commercial land. It could have several negative and dangerous consequences for the kids and the traffic flow.

Since the freeway exit was built, the community has seen more accidents on Black Mountain in front of the high school and a daily back up of traffic. People drive very fast. It is already dangerous for the kids crossing the road, at the intersection, to get to school every morning and afternoon.

The proposed plan for rezoning would bring even more traffic to the road in front of the high school. Especially if a grocery with a gas station is built.

In addition, a building complex with a fast food drive thru and gas station could likely bring an increase in crime, such as drug sales, right into an area where there are over a thousand kids every day.

Because of the increased danger to the kids in the neighborhood, and at the high school, I am opposed to rezoning the land to commercial use. It needs to stay residential.

Thank you for your time,
Deanna Guttilla

Hello,

I would just like to make my opposition to proposed re-zoning of land at Deer Valley/Black Mountain and planned development.

I live in Fireside, and my backyard faces Black Mountain. When building our house, we were told this land was NOT zoned for commercial development. As it stands now, traffic is a huge issue. The area is already extremely busy, with Pinnacle HS traffic and regular flow. Essentially, there is no "flow". I encourage you to observe what the traffic pattern is daily. It is near impossible to get out of my neighborhood some mornings, due to chaotic traffic.

My backyard and even my bedroom face Black Mtn Blvd. We are directly behind the view fence. I cannot imagine the noise, lights, and traffic this would bring to an already congested area!! I am also greatly concerned with safety, as we have both a high school and elementary school nearby. I could go on, listing all the reasons this is a horrible idea….but I am sure you have been informed by other residents. Please— this was NOT the premise and agreement of said parcel, prior to building my house. This is a RESIDENTIAL area!! I will be attending the October 3rd meeting.

Thank you for your time.

Anthony,

I am writing to send in my “vote" as I am VEHEMENTLY OPPOSED to the rezoning for a variety of reasons. Please refer to the following:

Case No. SPA-DS1 V-2-23-2

Case No. CPA-DSTV-3-23-2

Case No. 1-39-23

We do NOT need commercial development in our quiet and already “convenient” homes and neighborhood.

There is ample access 1 mile away (or less!) to gas stations, conveniences galore, grocery stores, etc and RETAIL galore.

Traffic, crime, noise, all would increase…..this is not something that is welcome….

Thank you for your consideration.

Re: GPA-DSTV-
2-23-2/GPA-DSTV-3-23-2/Z-39-23-2

NO! NO! NO!
TO BLACK MOUNTAIN VILLAGE!!!

I bought my house in Scarlet Ridge 13 years ago knowing I would be living in a safe residential area. Trying to put a business right next to my house is wrong in so many ways. And to do a bait and switch with me and all the homeowners is appalling!

We have enough traffic and unfortunately have had accidents with children being injured on the street at at the high school as it is. And there's already been issues with homeless people sleeping under the bridge. Bringing in retail would only add to this on all accounts. And we certainly don't need more of either to ruin our neighborhood and injure our children!

I am hoping you have enough respect your homeowners to put this terrible idea to rest and find another location more suitable for this type of retail. We want to continue to keep our neighborhood safe! Thank you.

Sincerely,
Blythe Lipman

Dear long range planning committee-

I am writing as a homeowner and resident of the Fireside Community in Desert Ridge. I am opposed and concerned that the proposed Vestar development North of Pinnacle High School would impact the safety of the neighborhood, both in the businesses which are proposed, and in the traffic patterns. Additionally, proposing a gas station so close to several residential neighborhood community homes has its own additional safety and health concerns.

These proposed safety hazards could destroy property values for the homes, and seems redundant based on the other options so close by in Desert Ridge Marketplace- which I understand is already owned by Vestar.

The safety of our families and the neighborhood children is at risk. Please help our community to vote against this project.

Thank you.

Hi Anthony,

I am a resident of Fireside and am emailing about the proposition to rezone a section of Superblock 12 from residential to commercial property. I would like to voice my opposition to the following amendment requests case numbers:

**Case No. SPA-DS1 V-2-23-2**

**Case No. CPA-DSTV-3-23-2**

**Case No. 1-39-23**

I vote to keep this residential.

Thank you,

Lisa Newman

**To:** Anthony M Grande
**Subject:** RE: Case No. SPA-DS1 V-2-23-2; Case No. CPA-DSTV-3-23-2; Case No. 1-39-23
**Date:** Thursday, September 21, 2023 6:10:06 PM

---

Case No. SPA-DS1 V-2-23-2
Case No. CPA-DSTV-3-23-2
Case No. 1-39-23

I am writing to you to register my strong disapproval of proposed amendments (case numbers listed above) to modify existing zoning from residential to commercial.

Our homes in Fireside at Desert Ridge were built under the Desert Ridge Specific Plan. The plan promised clean, quiet, and safe neighborhoods because commercial activity was placed in the "commercial core". Commercial activity in the "residential superblocks" is strictly limited to minor "conveniences" of no more than 3 acres and drive through operations are prohibited.

The land at Deer Valley and Black Mountain is designated residential under the plan. Vestar, the developer of the Desert Ridge Marketplace, now wants to change this for their own financial gain; if the Desert View Planning Committee and city of Phoenix vote for the change of zoning, and approve the plan to put in a 20-acre shopping center (reported to contain drive-through fast food, drive-through coffee, a gas station, a grocery of an unknown name and type, and who knows what else), this will cause great harm to my family and neighbors.

You see, my family lives in the closest section of Fireside to Pinnacle HS, and the proposed shopping center. We already suffer through the pedestrian and vehicle traffic that invades the streets of our neighborhood when school is in session and for other events held at the HS. Students and parents drive at unsafe speeds down 36th Street and Abraham Dr. Additionally, at drop off and pick up times, cars are lined up and/or idling as drivers wait to drop off or pick up their students, blocking our way in and out, causing us to "play chicken" to maneuver down the narrowed streets. Some of these students walk through our desert wash as a short cut to those cars dropping off/waiting to pick up.

This is a neighborhood where many children walk to Fireside Elementary School, located a short distance away. So not only is driving in, through and out of our neighborhood difficult and would most likely become dangerous as traffic increases in an area not planned for such commercial development, it is not safe for small children to safely walk to school.

In addition to the dangerous situations we face within our neighborhood, it can be all but impossible to safely leave our neighborhood at these times - the southern exit, on to Mayo Blvd. is right turn only and is very close to the Mayo/Black Mountain Blvd intersection. The northern exit on to Deer Valley Rd. is hard to turn left onto during high traffic times.

To put it more clearly - leaving our neighborhood becomes even more difficult and dangerous with increased vehicle traffic that comes with commercial development - especially trying to go south onto Black Mountain Blvd AND west onto Deer Valley. We only have two VERY flawed entrances/exits that in the best of times is tricky and not very convenient OR safe. We esentially have to chose to limit leaving our neighborhood or taking the increased risk of attempting to go south or west in less than safe traffic conditions. How does this benefit our residential community?!? I predict that vehicle (and pedestrian) accidents will dramatically

increase if this shopping center is approved.

There is nothing that can be commercially built and nothing beneficial from a retail standpoint that makes this development worth if for my family and residential neighborhood. There are plenty of retail options at Desert Ridge and other close shopping centers.

Relatedly, are the members of the Desert View Planning Committee and Phoenix City Council members aware that the parking lot of the proposed shopping center would in fact become an overflow parking lot for Pinnacle HS students who do not have a parking pass to park at the school? I would imagine prospective tenants would not be pleased to have the parking spaces used by people not spending money at their establishments and making it harder for those who want to spend money to find somewhere to park. Also, just ask security and management about the issues surrounding teens hanging around Desert Ridge Marketplace - it will be much easier for some students to hang out in the same manner at this proposed shopping center.

**Has the city of Phoenix specifically done a traffic study of this area, taking this commercial development into account? How would the council plan to ameliorate the above stated traffic issues? What about environmental studies looking at the increase noise, light and exhaust pollution that will directly impact the surrounding residential neighborhoods?**

We are appalled by this bait-and-switch, and worried about the crime, noise, litter, pollution, and traffic nightmares that will come with this monstrosity.

Sincerely,

Rebecca J. Oakes

Dear Mr. Grande and Councilman Waring,

Please find attached a petition on behalf of the residents of Fireside Community opposing the rezoning of the SW corner of Deer Valley and Black Mountain Boulevard.

Thanks,

Dan Richards

September 21, 2023

Anthony Grande
City of Phoenix Planning and Development Department
Zoning Section
200 W Washington Street, Second Floor
Phoenix AZ 85003

Reference:GPA-DSTV-2-23-2

Dear. Mr. Grande:

On behalf of the residents of Fireside Community, noted in the attached petition, we are opposed to the proposed rezoning of the Parcel **212-38-023B.** The families that built in this area did so knowing that they would have a safe, quiet area for their children to grow up around. In proposing the zoning amendment, the developers would like to change the use from residential (2-5 du per acre) to commercial. We believe this proposed change would result in unacceptable levels of risk to health and safety.

This commercial development proposal suggests parking for 580 cars and contains 3 access/egress points just off Mayo immediately across from Pinnacle High School with no provision for safe crossing or pedestrian/bike safety. Further the traffic in this area is already an issue. In speaking with the Phoenix Police Traffic Bureau, it is clear they have received numerous complaints about existing safety issues experienced at the intersection of Black Mountain and Deer Valley Roads. The proposed rezoning would only exacerbate these issues.

The explanation letter for the project describes that for community benefit, the project has the potential to "increase health" and "reduce transportation burdens" of area residents by creating a walkable/bikeable retail/grocery destination and "may reduce emissions from residents driving to Desert Ridge Marketplace." These statements are unproven and unsupported by the conceptual design. While this is being promoted as a much-needed commercial alternative for the residents in Desert Ridge, this will increase the volume of traffic coming from south of the 101, off the 51 exit. This development would **increase transportation burdens and emissions in this area**. Residents who likely would have driven to Desert Ridge are now going to be driving to our neighborhood.

There is no traffic impact or air quality study mentioned. Furthermore, it will increase both light and sound pollution in the area. As such, the Fireside neighbors that have signed the attached petition stand against the proposed rezoning and ask that the City reject the developer's application for rezoning.

Sincerely,
Dan Richards

**STOP THE ZONING CHANGE ON PARCEL 212-38-023B**

The residents of Fireside neighborhood are opposed to the proposed change in zoning from residential to commercial for the property at the southwest corner of Black Mountain and Deer Valley Roads (parcel 212-38-023B). We believe the proposed development by Vestar poses significant risks to safety in the form of traffic congestion, air, noise, and light pollution.

The proposed development does not add to the community benefit, but rather detracts from it by eliminating open space, a great potential for increased crime rates, introducing added emissions around residential areas and schools, and significantly increasing congestion in an already busy intersection and school zone that is immediately adjacent to a high school. Additionally, the proposed business types are not a value add as they already exist within easy reach of our neighborhood.

There is an existing issue with high-traffic volume that does not respect the posted speed limits near Fireside Elementary School and Pinnacle High School on Mayo Boulevard, as commuters travel to Interstate 51. This zoning change will only heighten this problem and create a more dangerous situation for our children, including the littlest of our children at Fireside Elementary School, who deserve the ability to walk to and from their school safely each day. Although older and presumably more ept, our Pinnacle students deserve the same consideration, as many of them are student drivers.

We wish to preserve the quiet, calm, walkable and bikeable characteristic of our neighborhood, while also avoiding the impacts of light and noise pollution associated with commercial centers. The Black Mountain Village, as well as any other proposed commercial development on this site, will do the opposite.

If you wish to reach out directly to express your concerns, you can contact anthony.grande@phoenix.gov.

## STOP THE ZONING CHANGE ON PARCEL 212-38-023B

The residents of Fireside neighborhood are opposed to the proposed change in zoning from residential to commercial for the property at the southwest corner of Black Mountain and Deer Valley Roads (parcel 212-38-023B). We believe the proposed development by Vestar poses significant risks to safety in the form of traffic congestion, air, noise, and light pollution.

The proposed development does not add to the community benefit, but rather detracts from it by eliminating open space, a great potential for increased crime rates, introducing added emissions around residential areas and schools, and significantly increasing congestion in an already busy intersection and school zone that is immediately adjacent to a high school. Additionally, the proposed business types are not a value add as they already exist within easy reach of our neighborhood.

There is an existing issue with high-traffic volume that does not respect the posted speed limits near Fireside Elementary School and Pinnacle High School on Mayo Boulevard, as commuters travel to Interstate 51. This zoning change will only heighten this problem and create a more dangerous situation for our children, including the littlest of our children at Fireside Elementary School, who deserve the ability to walk to and from their school safely each day. Although older and presumably more ept, our Pinnacle students deserve the same consideration, as many of them are student drivers.

We wish to preserve the quiet, calm, walkable and bikeable characteristic of our neighborhood, while also avoiding the impacts of light and noise pollution associated with commercial centers. The Black Mountain Village, as well as any other proposed commercial development on this site, will do the opposite.

If you wish to reach out directly to express your concerns, you can contact anthony.grande@phoenix.gov.

---

Dear Mr. Grande and Councilman Waring,

Please find attached a petition on behalf of concerned parents of Pinnacle High School students opposing the rezoning of the SW corner of Deer Valley and Black Mountain Boulevard. Please add this and the Fireside Community petition to the case file that will be submitted to the Desert View Village Committee. There are a ton of additional parents that would have signed this petition, but we found that this was more difficult one to get in front of the parents. We were not legally allowed to solicit our petition on the school property so we are still trying to figure out the best way to get through to all the parents.

Thanks,

Dan Richards

September 21, 2023

Anthony Grande
City of Phoenix Planning and Development Department
Zoning Section
200 W Washington Street, Second Floor
Phoenix AZ 85003

Reference:GPA-DSTV-2-23-2

Dear. Mr. Grande:

On behalf of concerned parents of Pinnacle High School students, noted in the attached petition, we are opposed to the proposed rezoning of the Parcel **212-38-023B.** We believe the proposed development by Vestar poses significant risks to safety in the form of traffic congestion, air, noise, and light pollution. We believe this proposed change would result in unacceptable levels of risk to health and safety.

There is an existing issue with high-traffic volume that does not respect the posted speed limits near Pinnacle High School, as commuters travel to Interstate 51. This zoning change will only heighten this problem and create a more dangerous situation for our children, who deserve the ability to walk to and from their school safely each day. The proposed rezoning would only exacerbate these issues, increasing traffic volumes both northbound and southbound. There is no traffic impact or air quality study included in this proposal.

The explanation letter for this project suggested "The addition of quick service food and retail options at this location will provide a safe alternative to the students at nearby Pinnacle High School before school, after school and during the lunch hour." And "School Principal Chad Smith indicated that the proposed development would potentially reduce the number of off-campus trips by car." Pinnacle is a closed campus for all students except Seniors, so this will not benefit students during the lunch hour. I would highly recommend that you independently meet with the Principal of Pinnacle High School who will paint you an entirely different picture of his views for this project. He is strongly opposed to this development and we feel Vestar has misrepresented his concerns to help benefit their proposal.

Please take into consideration the Parents of Pinnacle students who have signed the attached petition. Our children do not need these distractions directly next door from their classrooms. We stand against the proposed rezoning and ask that the City reject the developer's application for rezoning.

Sincerely,

Dan Richards

## STOP THE ZONING CHANGE ON PARCEL 212-38-023B

The parents of Pinnacle High School students are opposed to the proposed change in zoning from residential to commercial for the property at the southwest corner of Black Mountain and Deer Valley Roads (parcel 212-38-023B). We believe the proposed development by Vestar poses significant risks to safety in the form of traffic congestion, air, noise, and light pollution.

The proposed development does not add to the community benefit, but rather detracts from it by eliminating open space, adding potential for increased crime rates, introducing added emissions around residential areas and schools, and significantly increasing congestion in an already busy intersection and school zone that is immediately adjacent to a high school. Additionally, the proposed business types are not a value add as they already exist within easy reach of our neighborhood.

There is an existing issue with high-traffic volume that does not respect the posted speed limits near Fireside Elementary School and Pinnacle High School on Mayo Boulevard, as commuters travel to Interstate 51. This zoning change will only heighten this problem and create a more dangerous situation for our children, who deserve the ability to walk to and from their school safely each day.

If you wish to reach out directly to express your concerns, you can contact anthony.grande@phoenix.gov.

Dear Mr. Anthony Grande,

Ten years ago, I welcomed a beautiful baby boy. At the time we were living in an older community in North Scottsdale. We knew it was time to move and find that perfect place to raise a family. A place he could walk to school, ride his bike, trick or treat in a safe family-oriented neighborhood. Luckily, we found the perfect place, Fireside at Desert Ridge. It has been the perfect fit for our family. We have made many friends that are like family. My son feels safe to walk to school, ride his bike to the park and play outside. He was crushed when we told him of the situation that is happening in our neighborhood. He knew he would no longer be able to due to the increase in traffic, construction, panhandlers etc. this will bring to our community.

The community we loved and were told that the space was zoned for residential construction for the possibility of new friends instead of commercial that will only attract who knows what off the freeway into our backyard. This once quiet safe community is going to be thrust into the middle of a shopping center that will only risk our kids safety, decrease our property values, increase criminal activity and ruin our close-knit happy community. **I ask you to imagine yourself in this situation. Wouldn't you do anything you could to protect your children and the future of your community?**

Please don't let another big corporation ruin what little is left of our small town community. We are fortunate to have Desert Ridge Marketplace, Costco, and many other options just down the street that offer everything we need and more. I ask you to please consider the needs of your fellow community members; we chose this beautiful neighborhood to avoid the dense, congested, commercial areas and enjoy our small piece of Phoenix. Please support us in continuing to raise our families in this beautiful please we call home. No Black Mountain Village!

Sincerely,
Jennifer Larson Popnoe

**Subject:** Opposition to commercial rezoning request in Desert Ridge

Mr. Grande ---

I write you in hopes of garnering your support for residents (and our children) in Desert Ridge.

I was frustrated to learn of Vestar's rezoning request (GPA-DSTV-2-23-2, GPA-DSTV-3-23-2, and Z-39-23-2) geared towards generating massive profits despite the risks and negative impacts created for residents. I live a short distance from the parcel, and am already a firsthand witness to the daily debacle of traffic & pedestrian issues near the high school & in my neighborhood (Copper View). Radically changing the existing plan (that we as homeowners considered a promise to properly manage our community) to introduce a massive grocer, gas station, fast food, etc. will only create more risks, especially for our neighborhood children.

I'm incensed with the thought that there would be support despite the many issues (noise, pollution, crime) that this commercial entity will drop into the heart of our community. My son is currently a fifth grader at Fireside Elementary, which is also a short distance from the parcel. The most extreme risks are created for high schoolers --- easy access to alcohol/nicotine, no oversight, traffic --- but nearby, our most vulnerable will now also pay the price if Vestar's greed is satisfied by lining up behind the ask to mangle our closeknit community.

**I plead with you to support homeowners and residents by opposing this rezoning request**. This parcel should stay zoned for residential use to allow more families to join our thriving community. Vestar can achieve their profit targets using one of the multiple, available parcels in the area already zoned for commercial use. Please help protect our community and families.

Respectfully,
Justin J. Popnoe

| **Date:** | Thursday, September 21, 2023 7:33:56 PM |

Dear Mr. Grande and Councilman Waring,

I built my home in Fireside over 10 years ago, with my backyard facing Black Mountain Boulevard. I have a view fence, paid a premium for my lot and was promised the land behind my home across Black Mountain Blvd was zoned as single-family residential. My husband and I have 3 sons who were toddlers at the time. Now, they are teenagers attending Explorer Middle School and Pinnacle High. We did much research to find the perfect neighborhood/lot to build our house and raise our family. I am opposed to the Black Mountain Village Commercial Development. My reasons for opposing the project include:

- Horrific traffic when one considers the daily chaos that exists at the adjoining high school and nearby elementary school.
- Threats to the safety of students at the high school and nearby elementary school.
- Introduction of twenty-four-hour noise, light, and air pollution into a residential environment, specifically concerning since our bedroom windows will look out over this development.
- Establishing a 24-hour hang-out for unsupervised adolescents from the adjoining high school.
- Litter, crime, vandalism and transient individuals.
- Pollution from cars lined up at drive-through operations.
- Lack of any reasonable justification for a major amendment to the Desert Ridge Specific Plan to the detriment of innocent homebuyers who relied on the plan.
- Decrease in property values for residents of Fireside and Sky Crossing.
- Diversion of traffic from SR 51 that would otherwise head west on SR 101.

We love our Fireside and Desert Ridge Community. Please take these points into consideration and help us to preserve the sanctity of this beautiful area of Phoenix, that we feel good to call our home. Thank you for your attention to this matter.

Sincerely,

Laura Richards

| **Subject:** | Letter of Explanation by Resident regarding zoning GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2 |
| **Date:** | Thursday, September 21, 2023 4:12:13 PM |
| **Attachments:** | Letter of Explanation Resident Final.docx |

Dear Council members,
A rezoning request was submitted by the attorneys of Gammage & Burnham on behalf of Vestar to convert a Residentially zoned 20 acres into a Commercial zone (C2).
It seems like this council asked 10 very pertinent questions to further explain how this proposal would impact the neighborhood and they submitted their answers in a Letter of Explanation (dated July 16st)
I assume the explanation was accepted and the case was subsequently filed. GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2

Although the Letter of Explanation by this law firm indicated that support for this proposal was abundant. I'm writing to you to let you know that nothing is further from the truth. This proposal should be denied.
In fact, this proposal has triggered a lot of opposition from the residents in Desert Ridge, because it is proposed adjacent to our High School and Elementary School and contrary to what the attorneys stated, **WILL** damage our community. There are many more reasons for opposing this case which are explained in my version of the attached "Letter of Explanation Resident"

I hope that the detail and the amount of work I put into writing this gives you a good summary of what is at stake and that the current version of our Master Community specific plan is what residents are expecting.
This does not entail allowing 20 acres of big box commercial businesses, who will be creating a lot of issues for all residents and schools to deal with in the coming year.
**I urge you to deny this proposal in all its forms.**

Rather than outlining the issues we anticipate, I have included alternatives for you to consider and suggested items that are within our plan and would benefit our community and make it an even better place to live.
If the developer's goal is to add a new brand of grocery store to the area, please note that there are plenty of commercial zones available to build on immediately, which is also highlighted in the appendices.

In my previous contact with the City, I have raised awareness regarding the traffic situation around our schools and I also rallied our community to participate in the survey for Vision Zero.
I was pleased to see that within the budget approved by this council, you have allocated money for schools to improve a "Safe Route To School".
This proposal would endanger our kids walking to school with the increase of local traffic and non-resident traffic and ruin our community with big box retailers, alcohol and cigarette sales near schools, fast food restaurants and gas stations.

Please deny this proposal completely.
Thank you for your consideration.

Regards
Wouter Roodenburg.

RE: SWC of Deer Valley Drive and Black Mountain Parkway; Minor General Plan and Major Specific Plan amendment request.

To whom it may concern:

I'm writing to you as a concerned resident impacted by the rezoning requests GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2

Upon reading the Letter of Explanation provide to you by the attorneys of Gammage & Burnham (GBlaw), dated July 16th, 2023 (rev July 10th, 2023), I feel that you should also have the other perspective to the great questions you submitted regarding this proposal.

First and foremost, GBlaw informs you at the end of their letter that "*Vestar has received positive feedback from the **Desert Ridge Community Association**. As the Site Plan has evolved, the applicant and Vestar have met with the Association in order to keep them informed and updated on the project. The continuous question that has been asked throughout this outreach is "When will you start construction?" The eagerness of this community to have shopping alternatives, grocery in particular, simply cannot be overstated. "*

This statement was completely misleading and unfounded. When we confronted the Desert Ridge Community Association about this statement during their monthly meeting, they claimed that they are "just concerned with applying the CC&R's of the community and cannot be supporting either side of this proposal". Who did GBlaw quote here and in what capacity? It cannot be further from the truth.

Why did the DRCA not run this by the communities it represents? Was this the basis for your committee to decided to move forward? Did the committee assumed that the support was already there based on that statement?

A lot of people do NOT agree with this proposal, it was started under wrong pretenses and now the community has to spend our time fighting this proposal. This should have been stopped at the start

based on the guidelines – which I will highlight later on – of the specific plan and the conflict the site has near 2 schools, affecting the safety of kids going to school. It is NOT in line with the Phoenix General plan to create more residents walking somewhere, NOR do any of the fast food restaurants add to residents getting together, other than queuing up behind each other at all the drive throughs. It will ruin our community and if this passes then developers will continue to expand and try the same thing on other locations. Please stop this now, stick to the plan.

Please bear in mind that there has been zero efforts from any organization to ask our communities what we would like or need. Before this proposal, every resident was under the impression that we have a very detailed specific plan for Desert Ridge which currently perfectly describes what the community will look like once it's finished. That is what people bought into and paid a premium to live in this area.

What you will notice in subsequent events is the fact that GBlaw has started campaigning for support **AFTER** the first public meeting. Our community was getting ads (appendix 2) that created an impression of an innocent small neighborhood grocery store for people to quickly click on, not being informed of the consequences or full plans. Why did GBlaw give you the impression during the letter of explanation that community support already existed?

Giving the push back that you have seen, how much value can be placed on any other answer provided in that letter, other then GBlaw hiding the real intentions of this developer. This developer wants to make it 20 acres and put on a 50,000-100,000 sqft grocery store, fast food restaurants, gas stations, more traffic in our area. It shows complete disregard for our great community and it also conflicts with a lot of the design principles of our specific plan on many levels. Equally deceptive was the highlighting of existing traffic issues at the Desert Ridge Marketplace. Their solution: move all the traffic issues closer to 2 schools full of kids walking to school? Unacceptable.

**What are the alternatives?**

There are no compromises to the current proposal. We (those who voted NO on our petition) do not want 20 acres of commercial on that land. As a planning committee and city council, you should stick to the existing great and specific plan for Desert Ridge. This plan shows these superblock being Low Density Residential.

Perhaps you consider new stipulations in the plan for the next residential builder to take on the unintended traffic issues that have been created over time and possibly create a new drop off route for the highschool using 32nd street and increase the schools parking lots.(Appendix 8).

Or using the Vision Zero plan, approved by the council to use "Safe Route to School" grants to make our drop off areas safer.

Another consideration, which is already mentioned In our community plan, would be building a Library and/or Park and Ride parking lots. That would be a huge benefit to this community, especially considering the fact that is right next to 2 schools. These things make sense.

Ultimately, if people want more choice in grocery stores, then there are pre-approved zones available very closeby. City North also has room for an additional grocery store and currently hosts (a real!) neighborhood Sprouts convenience store. There is is land available on 56th and the freeway also. Plenty of alternatives and good enough to host their proposal, without ruining our neighborhood.

**Further details in response to original the Letter of Explanation.**

I want to continue with my response to address the way these attorneys chose to answer your questions, downplaying the impact it would have and leaving out important details that you should consider and be aware of. They are experts to provide you only with details that they've learned helps getting approvals from you and put the wheels in motion.

They described it as "low impact" commercial development. How do they determine this? They claim there is no final plan. Once approved they can do what they want. AND they're proposing this to be next to an elementary and high school and in the middle of a quit community, which is unacceptable because of the dangers they're introducing to the school and kids. Half-truths are being told.

I would like to select a few of your questions and provide another perspective and have included appendices to clarify my comments.

**Questions Selected:**

*Q3; How many potential housing units would be created or lost by approving and implementing the proposed amendment?*

GBlaw response states : "The benefit of bringing much needed commercial to this area far outweighs the minimal loss of housing from the proposed amendments"

**My Response**: They fail to mention that there are pre-approved commercial zones are only 1 block north of the proposed site along Pinnacle Peak and leave out the fact that City North still has 50% land available, which is adjacent to Desert Ridge marketplace. Why would they need to amend our residential master plan for 20 acres to insert a commercial development when bigger lots are available?
(See Appendix 1)

*Q4: Is there a need for the proposed use(s) or density(ies) in the requested location?*

GBlaw response states: "unintended consequences of creating the large and hugely successful Desert Ridge Marketplace and surrounding retail uses is that the intensity of those uses has led to traffic congestions and parking issues."

**My Response**: There was never any research done or input requested from residents regarding the impact of the marketplace, nor were we asked what our needs are. This proposal is purely economical and not driven by an identified need. My response would have been that I can confirm traffic congestion caused by drive through restaurants and those will remain and new ones will be created by their proposal.

Their responses continue to emphasis the current traffic issues but their proposal will bring exponential more traffic to our neighborhood due to new (non resident) people now choosing to come off the 51 at Black Mountain blvd to get their groceries that previously went to the marketplace. Children are walking home from Elementary School and the High School are being put at unnecessary risk.

If I was asked for what this community needs, it would be more recreational parks, a promised library, preserve the land for High School expansion requirements to accommodate more students, parking and

a safer route to school and drop off areas around the school. That is what we need, not light, air, noise pollution and gas station or any other shop next to a high school and elementary school. People are also very concerned about the crimes that go along with such a commercial center.

*Q5: What impact would the proposal amendment have on adjacent or nearby land?*

GBLaw states: "The addition of quick service food and retail options at this location will provide a safe alternative to the students at nearby Pinnacle High School before school, after school and during the lunch hour. The Applicant met with Pinnacle High School Principal Chad Smith, who indicated that the proposal development would potentially reduce the number of off-campus trips by car"

**My Response**: The impact will be bad. More traffic, More pollution, More smells, More homeless people on corners, More cars idling, More noises and light pollution into the night.

PLUS Every parent knows that putting temptation in front of teenagers, they will jump on the occasion to skip school, find a way to buy alcohol and cigarettes and create a hangout for these teenagers that will lead to all sorts of trouble, fights and crimes. The school is a closed campus school, so only seniors that are already driving themselves might be interested, but it also highlights their commercial interests in this area and trying to capture this captive audience and provide bad fast food and other bad choices. Nothing safe about their proposal that will benefit High school students.

Secondly, I would highly recommend that you independently meet with the Principal of Pinnacle High School and Fireside Elementary School and they will paint you an entirely different picture and **strongly oppose this development.** Don't take my word for it. Please have someone verify this statement as this was another technique to give you the impression that they reached out with concerned parties and only shared what they wanted to hear. Not their full version and misrepresentation of their opinion. Parents have brought this up with the Principal during various meetings at the start of the school year.

*Q6: How will the proposed amendment affect traffic generation and the transportation system?*

GBlaw states; "Black mountain blvd and Deer Valley drive are both major arterials adjacent to the property. As such, Black mountain village is proposed at an appropriate location"

**My Response**: Notice how short this answer is compared to all the other answers. They are not even directly addressing the core of your question. Great avoiding technique of the hot potato.

See Appendix 1 – the traffic is terrible at the moment, during drop off and pickup times, during rush hour, as drivers trying to avoid the 101 and 51 take Deer Valley and they use all of our community road to take short cuts and therefor causing people speeding on mayo blvd and 40th street to get to where they need to go. With the attraction of gas stations, fast food and grocery stores, more (non resident) people will start taking this route.

*Q8: Community Benefits; How does the request address the community's unique opportunities and challenges related to prosperity, health and the environment? See pages 18-26 in the Phoenix General Plan*

GBlaw States: One of the visions discussed in the PlanPhx 2015 General Plan, is to make Phoenix a "Connected Oasis." Put another way, residents have expressed a desire for the City to have more places at which citizens can connect with one another. This new shopping center in the Desert Ridge area will provide such a place. Moreover, the addition of a retail shopping center that can more conveniently serve the western portion of Desert Ridge will reduce transportation burdens on residents to reach grocery and other retail opportunities; potentially increase the health of Desert Ridge residents by providing a destination to which they can walk or bike and reduce the emissions from residents driving to Desert Ridge Marketplace which can lead to a healthier environment. A reduction is transportation burdens, increased opportunities for exercise and a cleaner environment lead to an overall increase in health and prosperity.

**My Response**: This is pure nonsense as there has ***NOT*** been any survey done about what we want and need or desire. And if they claim this, it can only been hearsay from a few residents close to this project or overheard in an HOA board meeting. Not even our HOA's have done such a survey to gather input from their residents**. GBLaw only started to gather signatures around September, whilst the letter is dated July 1st.**

However, if you know anything about Aviano, Sky Crossing and my community Fireside, then you know **this community is already very connected to their neighbors**, we have long time residents that have seen their kids grow up and go through each of the 3 schools in the area as well as many community events that are organized by paid community directors every month where we all connect with each other. Firework displays paid for by HOA's. Our Halloween celebrations are known throughout Phoenix and we have to block off our streets to accommodate everyone safely.

The proposal is not promoting any of the things they advertise, nor will any of their proposed commercial properties promote any new healthy activities due to the nature of the Gas station, Fast food restaurants and none of the 100,000 sqft grocery stores. They are expecting increased traffic for their tenants to be successful.

Other examples to promote these great goals outlined in your General Plan, are libraries and park areas for our families that will allow coaches to run their practices and young families to have play areas.

*Q9: How will the proposed amendment affect the character and image of the adjacent area, neighborhood, and village?*

GBlaw states: "The proposed amendments will advance the land use principles in the Desert View Village Character Plan and the Desert Ridge Specific Plan. The Desert View Village Character Area Plan has several principles that are supported by the proposed amendments. The first is a land use principle that suggests that new development in or near residential areas should be compatible with existing uses and consistent with adopted plans. Next is a design principle that seeks to protect and enhance the character of each neighborhood and its various housing lifestyles through new development that is compatible in scale, design, and appearance. Finally, the last principle is design-related and requires

impact-mitigating features when new nonresidential uses abut existing residential uses or are adjacent to arterial streets or freeway corridors."

**My Response**: These design principles should simply state –

1) **DO NOT BUILD COMMERCIAL PROPERTIES NEAR HIGH AND ELEMENTARY SCHOOLS DUE TO KNOW RISK AND SAFETY ISSUES THESE TYPES OF PROJECTS BRING**, especially if there are pre-approved commercial zones already available in the same vicinity. The buffering that is mentioned is a small walk for anybody, so claiming the design being "away" from the public school is just putting lipstick on a pig.
2) **DO NOT BUILD COMMERCIAL PROPERTIES IN THE MIDDLE OF 3 RESPECTABLE COMMUNITIES DUE TO THE TRAFFIC AND CRIMES THESE TYPES OF PROJECTS BRING.** The grocery will be giving access to alcohol and tabacco near the schools. The gas stations will bring homeless people
3) **THERE NO IMPACT MITIGATING FEATURES INCLUDED FOR NON RESIDENTIAL USES.** In fact, the viability of this commercial proposal is counting on non residents to start visiting this area.

It will also affect the image of Pinnacle High School, which is putting a lot of effort into increasing their image and provide superior education and is seeing increased enrollment numbers. This include the fact that schools are graded on their students attendance and Tardiness. Having this development next door will most certainly impact their school standings today.

*Q10. Additional comments as appropriate*

GBlaw states: Vestar has received positive feedback from the Desert Ridge Community Association. As the Site Plan has evolved, the applicant and Vestar have met with the Association in order to keep them informed and updated on the project. The continuous question that has been asked throughout this outreach is "When will you start construction?" The eagerness of this community to have shopping alternatives, grocery in particular, simply cannot be overstated.

**My Response:** These additional comments are possibly based on the opinion of 1 person within the Desert ridge HOA board. There will be no evidence to support these statements. In fact, every HOA meeting GBlaw has attended after the initial public hearing, has been met with more opposition. There is ZERO EAGERNESS by this community, demonstrated by all the emails you have been receiving on this proposal and further strengthened by the votes on our petition and people that have or will be speaking at the public meetings. (Appendix 5)

But first and foremost, the opposition to this proposal underlines that this proposal might be a classic bait-and-switch and they assumed this would slide under radar of this community. They were wrong.

**PETITIONS / Social Media / Advertising:**

In response to various ads and website activity by Vestar and GBlaw, our community has setup our own website ( https://defenddesertridge.godaddysites.com/ ) and our Petition on Change.org and Hand written signature petitions to make sure that we are not undercut by this corporations tactics to show support. Residents cannot match their corporate budget and social media skills, but we hope that you see that efforts were made on our side and that it should be weighed more.

ALL of their activity to back up their statements, are DATED AFTER their "Explanation Letter", thus the statements and references made to our community's eagerness for this, has been vastly overstated.

We have since also seen various ads show up on our Facebook and other social media platforms ( Appendix 2) that paint a “dream” appealing to a random public that this is a neighborhood grocer, when the fact is that it could be 50,000-100,000 sqft grocer. This is never mentioned anywhere. A gas station is never mentioned anywhere. The audience they target could be outside of Desert Ridge.

Other ads lead to a petition on Change.org, which in turn has a link back to the GBlaw website in order to submit support emails. (Appendix 3 & 4)

- There is NO Validation where these emails are coming from.
- There is NO Validation whether any of the submissions are coming from automated software
- There is NO Validation – if they were real people – where they live and even part of desert ridge
- They’re sharing very little information about the full scope of the project.

**IN CONCLUSION**

I’m completely blown away by the amount of effort that these attorneys and developers put behind their proposals in order to ruin neighborhoods, endanger school areas, and negatively impact sought after communities for their profits.

There is no eagerness in this community and online petitions and handwritten signatures underline that this proposal was based on misinformation and not substantiated by any research of community needs.

I sincerely hope that the City Planner, City Planning Committee and City Council will see this development for what it is and oppose the zoning change, **without compromise**. There is nothing that will be accepted by this community, other than the current zoning.

Please decline the entire proposal in all its forms and keep the residential zoning as it is, or pro-actively work with our community directly to find a more valuable use for this land around Pinnacle high school and near our 3 communities and stop any incoming future proposals immediately.

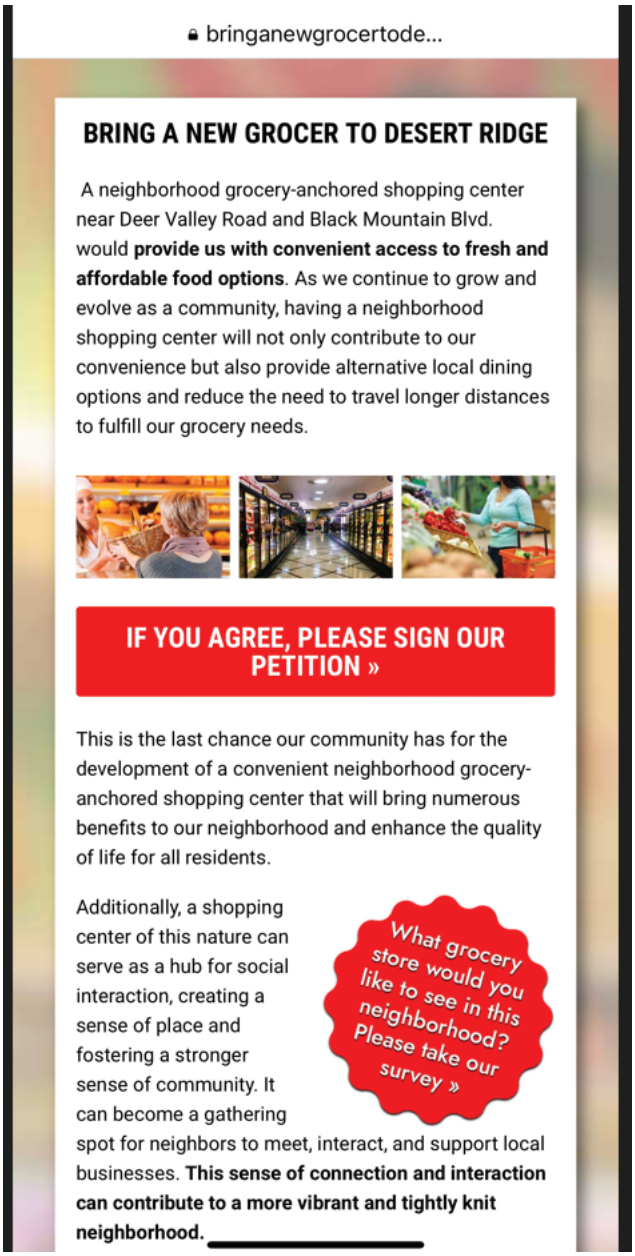
Sincerely,

Wouter Roodenburg

APPENDIX 1: TRAFFIC CONGESTION and COMMERCIAL ZONING

APPENDIX 2 – FACEBOOK ADS

They are misrepresenting the full plan of this proposal in order to get people to vote for this.



APPENDIX 3 GBlaw submission form and petition Link

## Why this petition matters

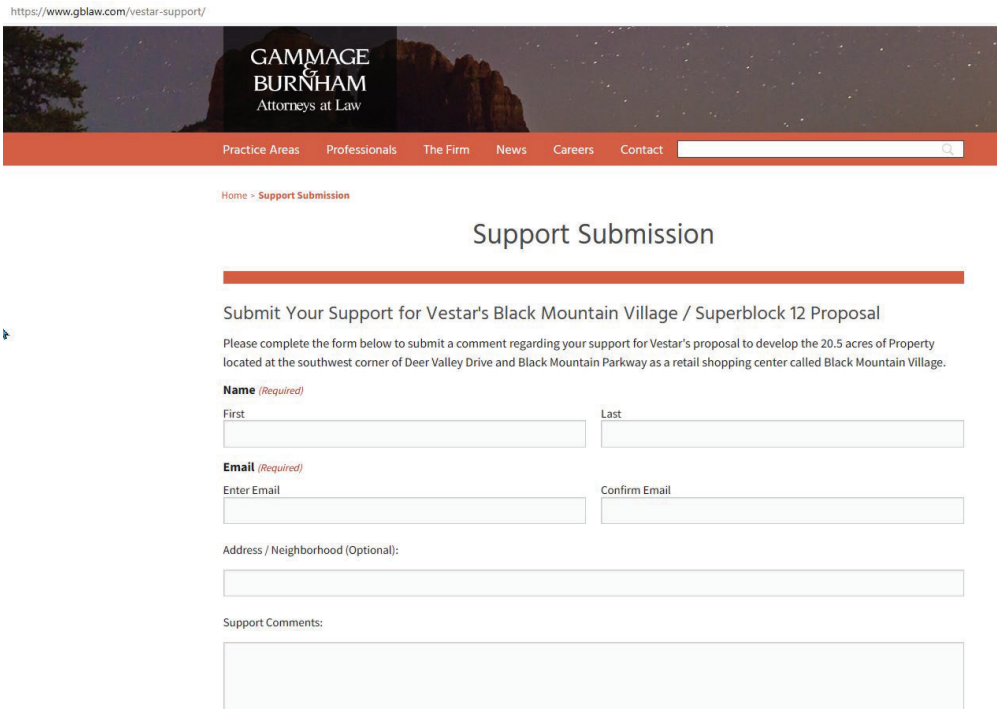
Started by **New Grocer**

A neighborhood grocery-anchored shopping center near Deer Valley Road and Black Mountain Blvd. would provide us with convenient access to fresh and affordable food options. Having a neighborhood shopping center will provide alternative local dining options and reduce the need to travel longer distances to fulfill our grocery needs.

This is the last chance our community has for the development of a convenient neighborhood grocery-anchored shopping center. We believe that such a development will bring numerous benefits to our neighborhood and enhance the quality of life for all residents.

A well-planned and community-oriented development of this kind will also add significant value to our neighborhood without compromising its unique character.

Please **follow this link** to let city leaders know you support more grocery options.



APPENDIX 4 – Gblaw petition: BRING NEW GROCER petition (per 9/19/23)

https://www.change.org/p/help-bring-a-new-grocer-to-desert-ridge-please-sign-our-petition

This was started in September, a full 2 months after the letter of explanation was send.

# Help Bring A New Grocer To Desert Ridge. Please Sign Our Petition.

Started September 1, 2023

APPENDIX 6 Desert Ridge Specific Plan – Current Plan around 3 acre neighborhood centers

NOTE: I thought it would be helpful to include these chapters around the original intent of neighborhood convenience commercial.

1) Convenience commercial NOT more then 3 acres max
2) Neighborhood convenience store can be 5000 sqft max (see site design) NOT 100,000
3) Away from Arterial streets
4) No Drive Through
5) Only Beer/Wine allowed

*Neighborhood Unit Concept as the Basis for Community Design*

One of the principal problems of our sprawling western cities is the lack of connection residents feel to each other, and any sense of identification with the population at large. Desert Ridge is structured to build in a strong sense of identification and orientation.

Each neighborhood superblock generally consists of one square mile of residential uses. At the heart of most superblocks is a neighborhood park, an elementary school and no more than 10,000 square feet, excluding child care facilities, of neighborhood convenience commercial uses on a minimum of one acre and maximum of three acres. The convenience commercial uses are intended to be very limited in size, yet provide a range of necessary goods and services. They will be located internal to superblocks, at least 600 feet from arterial streets, so as to be accessible only from the internal collector road system and from a pedestrian path system. This location will present an opportunity to reduce the number of potential automobile trips taken for convenience shopping purposes. Potential neighborhood convenience centers are illustrated on Figures 7 and Figure 8. ***1**

The relationship between the convenience commercial, elementary school and neighborhood park uses will require special attention to inherent conflicts between and among these uses (e.g. school children and park users with vehicular traffic). As a rule, the convenience center will be located a minimum of 300 feet from any school uses. There should be no commercial development located adjacent to elementary schools. Possible relationships between these uses are illustrated on Figures 9 and Figure 10. ***1**

A total of 18 neighborhood convenience commercial acres, or a maximum of 90,000 square feet of gross leasable area, excluding child care facilities, for all of Desert Ridge outside of the Village Center will be allowed subject to the criteria and standards in Chapter 6. This criteria will minimize the adverse environmental impact on the residential neighborhoods typically associated with commercial development. ***1**

Depending on each residential development, a neighborhood could include a small community center, a swimming pool, tennis courts and other recreational facilities. These recreational facilities may be located in all superblocks. These facilities may be developed in conjunction with local subdivision associations. Child care facilities, however, will be located in all but three of the smallest superblocks. Each neighborhood is designed to be developed independently, encouraging individual character and identify; a range of housing densities is included in each neighborhood, allowing for a healthy economic mix. Provisions should be made for housing for the elderly and retired persons, as well as persons living in assisted care facilities. ***1**

The neighborhoods are bounded and served by major arterial boulevards, with collector streets accessed from the boulevards occurring at no less than one quarter mile intervals. The local streets will loop through residential areas creating a neighborhood character. No shortcuts between arterials through the neighborhoods will be found, discouraging any traffic other than local.

The majority of residences will be within a five to ten minute walk of the local park, elementary school and neighborhood convenience commercial uses in most superblocks. A system of pedestrian/bicycle paths along the wash corridors will meander through most neighborhoods, providing direct linkage to the neighborhood center, encouraging walking and reducing dependence on the automobile for local trips. Children will, in most cases, be able to walk to their elementary school on paths within wash corridors without ever having to cross an arterial street. Each neighborhood will feel pedestrian oriented, encouraging a sense of community among residents. ***1**

## C.3 Convenience Commercial Uses

### C.3.A General

Most residential superblocks have neighborhood convenience commercial centers. These centers are planned to be located in proximity to the elementary school, and neighborhood park within each superblock as presented in Chapter 5. These centers are located internal to superblocks at least 600 feet from an arterial street, so as to be accessible only from the internal collector residential loop road system and from the pedestrian trail system within the wash corridors. This presents an opportunity to create a self-sustaining community within a superblock thereby reducing the number of potential automobile trips taken for convenience shopping purposes.

The neighborhood convenience commercial centers are very limited in size. They are intended to serve only the superblock in which they are located and are not intended to serve a population outside the superblock boundary. The maximum total acreage for neighborhood retail uses, including buildings, parking, landscaping, and any other items related to the existence of the neighborhood retail use, shall be three (3) net acres, while the minimum acreage will be one (1) net acre.

**C.3.B.2 Modified City of Phoenix Regulations Imposed by this Specific Plan.**

a. Minimum Lots Size/Maximum Lot Size

The minimum lot size shall be one (1) acre exclusive of street rights-of-way. The maximum lot size shall be three (3) acres exclusive of street rights-of-way.

b. Maximum Building Area

Maximum of 10,000 square feet of gross leasable floor area per superblock, exclusive of floor area required for one child care facility per superblock (in other words, the child care facility may be in addition to the 10,000 square feet of gross leasable area); no more than 7,500 square feet of gross leasable floor area per superblock devoted to convenience market retail uses. The convenience parcel must be landscaped similar to the surrounding area until development of the parcel occurs. ***2**

c. Permitted Uses:

Only the following uses are permitted in this district.

- Child Care Center
- Dry Cleaner/Laundry outlet, not plants **+2**
- Convenience Market (selling and display space for beer and wine shall be limited to a maximum of 15% of total selling space) **+2**
- Delicatessen or other sales of prepared food limited to maximum of 1,000 square feet exclusive of outdoor dining areas ***2**
- Bakery, retail sales **+2**
- Beer and wine sales only; no hard liquor sales
- Beauty/Barber Salon
- Video tape rentals as part of convenience market.
- Florist
- Pharmacy
- Shoe Repair
- Booksellers and Rentals, except adult bookstores **+2**
- Candy Shops/Confectioneries, retail sales **+2**
- Gift Shops/Novelties/Stationers, retail sales **+2**
- Hobby Goods Stores **+2**

- Ice Cream Shops **+2**
- Picture Framing, custom **+2**
- Residential Office **+9**
- Travel Bureau **+2**
- The Boys and Girls Club **+10**

d. Prohibited Uses:

Other than the uses listed above as permitted uses, all uses are expressly prohibited including the following:

- Mechanical or electronic video games or arcade - type devices for amusement purposes.
- Drive-through uses
- Sales of package liquor other than beer or wine.

e. Maximum Building Height: 1 story not to exceed 20 feet

f. Minimum Building, Parking Lot, and Setbacks: 25 feet away from any property line and/or right-of-way line. **-2**

g. Parking requirements: One stall per 300 square feet gross building floor area, or per City Ordinance. **+2**

h. Signage

1. Temporary signage

   Signage will be developed during a subsequent planning stage. See Appendices.

2. Permanent Signage

   Signage will be developed during a subsequent planning stage. See Appendices.

Appendix 7 – Desert Ridge Specific Plan – Public Facility Plan

This chapter describes the provisions for public facilities like Ride-and-Go and Libraries

These are currently in the planning and would increase our sense of community.
What if a Planning Commission would decide to put library next to 2 schools for kids to go to.
What a great concept and it fits right into the goal of bringing a neighborhood together.

Also – please note that in this version of the plan, a Park and Ride parking lot is showing on the proposed site. Why wouldn't we want to do that and execute the plan.

## F. PUBLIC FACILITIES PLAN

At buildout, Desert Ridge is a planned community for over 59,000 residents and 20,000 employees. Public facilities are an essential element for the planning and development of a large master planned community such as Desert Ridge. The following public facilities have been located within Desert Ridge using the approved planning criteria of each responsible government agency, department and school district.

- Parks
- Library
- Fire Station
- Community Center
- Public Schools

The locations of these facilities is illustrated on Figure 17, *Public Facilities Plan*.

| **Subject:** | Vestar Rezoning near Sky Crossing- Not your normal opposition email |
| **Date:** | Thursday, September 21, 2023 9:06:42 AM |
| **Attachments:** | image.png |

Hello Anthony,
As a homeowner in the Sky Crossings community I am writing to you today to voice my concerns about the rezoning proposed by Vestar development for the plot of land on the corner of Black Mountain and Deer Valley.

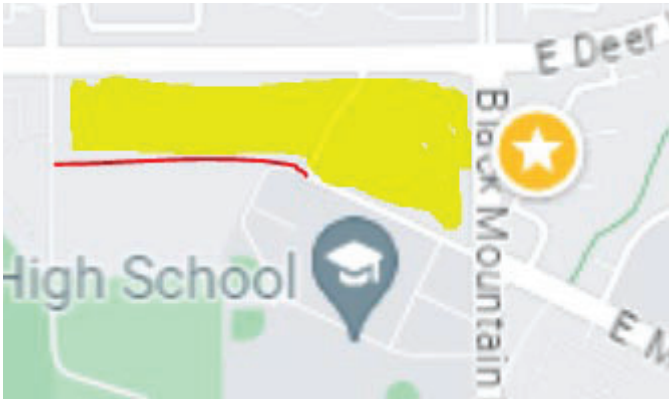
**My intention with this email may be a bit different than some others that are opposing the rezoning as I am only opposed to the change based on the current guidelines. The concerns I have are with the lack of limitations placed on the development proposed and the traffic patterns suggested for nearby residents. Let me explain.**

As I understand it the Max sq footage of the proposed grocery store would be 100,000 sq ft. In my opinion this is far too large for the community. **I would be in favor if the max sq ft was closer to 50,000 as this would attract a smaller more neighborhood friendly store and allow more retail space for local businesses which serve to bring the community together better than a big grocery.**
This would even lend itself to a development plan that could **recreate more of a "main street" feel with business lining a small street**. It would be nice to incorporate a small park for people to gather or even a space for organized neighborhood gatherings and events. It could be a destination, within walking distance, for the community to gather, shop, eat and for kids to play. There is nothing like that nearby currently that brings all of the nearby neighborhoods together.

**My other major concern is the traffic pattern proposed.**
There would be no way for someone leaving that development to get to Sky Crossing without taking a U-turn or cutting across traffic to get to a turn lane. **This could be remedied by extending the proposed Mayo Blvd improvements all the way to 32nd street as then there would be a light allowing people to safely exit the area in either direction.**

In summations, I would love to see that entire space (see pic below) turned into a retail / public use space that would include a small grocery, shopping, a park, a small amphitheater for neighborhood concerts and events. **I'd like to see something that welcomes neighbors in and encourages us to spend time (and $$) as a community, building friendships and memories together as our kids grow up.**

***This is an opportunity to do something different and set a precedent for neighborhood planning and development to come.***



I understand that the highlighted area is larger than what's proposed but wouldn't it be a great place to bring people together?

Thanks for your time .

---

Dear Sir,
I have been a Desert Ridge resident since 2001. During this time i've gotten married, had a child and she has enjoyed the relaxed
family environment that these neighborhoods currently provide and well as safety and bike riding.
Please consider the values that this neighborhood has offered and desired prior to this refining issue. Some thing are best left alone and this neighborhood is one of those places here in the valley.

Sincerely,
Susan

**From:** Robin Bowie
**To:** Council District 2 PCC
**Cc:** Anthony M Grande
**Subject:** Rezoning of 20.52 acres
**Date:** Friday, September 22, 2023 10:36:26 AM

---

Dear Councilman Waring and Mr. Grande:

My name is Robin Bowie and I have been a resident of Desert Ridge since 2004. My husband, Charlie Bowie, was the former President of Toll Brothers Arizona Division and worked closely with the City of Phoenix and the Planning Commission to build one of the best master planned communities in Arizona, Aviano.

I wanted to voice my concerns about the rezoning of approximately 20.52 acres located at the southwest corner of Black Mountain Boulevard and Deer Valley Drive (GPA-DSTV-2-23-2 (Companion Cases GPA-DSTV-3-23-2 and Z-39-23-2).

By rezoning this parcel from Residential 2 to 5 dwelling units per acre to Commercial directly affects the following:

1. The already problematic traffic in the morning and afternoons with the school start and stop times. The newer drivers from Pinnacle High School navigating that area on a daily basis will be at even more at risk with the additional traffic from the shopping center, especially if a coffee shop (as was eluded to by Vestar's attorney at the August 1st Planning Committee meeting) will be put there.

2. The possibility of a gas station being added to the Plan really is the worst of the worst. Now you are talking light pollution, large noisy trucks delivering the fuel and supplies, as well as possible contamination of the soil with any gas or oil leaks. And then there is the vagrancy issue. The homeless and panhandling has already been an issue sprouting up in Desert Ridge and now with the new shopping center they will start migrating there.

3. Crime - inevitable things that happen when there is a shopping center. And add to that the proximity of the on/off ramp of SR51. That exit will then be used by more vehicles who will want to use that shopping center, especially if there is a gas station there. I would also think that having a shopping center right next to the high school would draw those same kids into becoming a nuisance as well. Just ask anyone about the teen problem at the Marketplace and how Target had to hire a Police Officer to guard their store with all of the teens hanging out there. And the same holds true for adding a fast food chain. Look at what happened a few months ago at In and Out Burger with the teens getting into fights and the young man who lost all of his front teeth. Teens are going to be teens but again, why do we want to bring that right into the middle of our neighborhood.

5. By adding a "boutique" or any other grocery store you have the issue of loading docks and large semi-trucks coming in the middle of the night with their loud engines and beeping noises unloading merchandise so close to the houses in that general vicinity.

The project summary on the Gammage & Burnham website claims: "growing demand and need for additional commercial and retail options in the Desert Ridge area." Desert Ridge Marketplace already encompasses a large parcel of land, High Street with its restaurants, shops and a small grocery store and add to that City North which is currently in the developing

stages. "City North will be an "urban core" that upon completion will bring over 3,400 additional apartment units, over 2 million square feet of Class A office development along the Loop 101 freeway, ±1,000 hotel rooms and several new restaurants to the heart of the Desert Ridge, Arizona's largest master planned community." (This paragraph copied from https://www.citynorthdesertridge.com/ [citynorthdesertridge.com]). Desert Ridge has plenty of "additional and retail options" especially given the fact that it is already becoming more and more dense with traffic from the existing Marketplace, the new housing all along 56th Street, as well as Deer Valley Road, City North, and the new apartments slated for the Northeast corner of Tatum/Deer Valley.

I personally have spoken to several homeowners and they are all in agreement that this is not wanted or needed. I have signed the Petition that is currently circling the area. I understand that the Developer is going from door to door looking to convince the neighbors that this is a good idea.

It is my hope that the Planning Committee will take my comments and the comments of the other neighbors who are signing the petition and writing letters into consideration when making their decision on whether or not to rezone this parcel. When I moved to Desert Ridge back in 2004 everything surrounding Aviano was zoned residential. I have watched all of the new developments come to life around me. I'm fine with that and am not a NIMBY. My husband was a builder. The people most directly affected by this, the ones whose properties will look at or back to this new shopping center, do not deserve this. Residents purchased their homes in this community assuming that, according to the Public Report given to every homeowner purchasing a home, that this parcel was zoned residential, not commercial. Pinnacle High School has been and continues to be bursting at the seams. The parking situation is such that there is not enough parking for all of the students, the pickup and drop-off to the school is a nightmare and if there are any school events there is not enough parking for all of the attendees. If any zoning modifications are going to be made to this piece it should be that the State Trust Land Department should either donate a a piece of this land to the school or possibly have the school district buy it.

I had suggested, as did others at the Public Meeting held on August 1, 2023 that Vestar should look into the parcel that is at the southwest corner of Pinnacle Peak Road and Cave Creek Road. There are plenty of houses surrounding that area to support a shopping center there. Vestar is not looking to make the lives of the residents in this neighborhood better by having things more convenient for them, they are looking at how much more money this will make for them. Commercial development belongs on the outside of a neighborhood, not smack dab in the middle. Convenience comes at a price and I for one do not want to pay that price. I'm happy to get in my car and drive 3-5 minutes to get gas, groceries, coffee and fast food.

Thank you for your time and consideration.

---

Hello Mr. Grande and City Councilman Waring,

I wanted to write and let you know that hundreds of people are having discussions around the land that is just north of Deer Valley Road and west of Black Mountain Blvd in North Phoenix (Zip 85050).

There is so much discussion and misleading information that is getting shared across social media platforms and even legal firms are sending out notes to try and persuade residents in our communities to be in favor of new land development.

I moved to Arizona 12 years ago and built a home in the Fireside Community, I also have lived in the Aviano community and now live in the Sky Crossing community. **I'm very much opposed to building out a large grocery store & gas station/fast food mall/commercial development on this patch of land.**

If you need any further information from me, please let me know.

Thanks for listening and I look forward to meeting you on October 3rd.

Kevin

**To:** Anthony M Grande
**Subject:** Proposed Redevelopment at Black Mountain and Deer Valley
**Date:** Friday, September 22, 2023 12:03:27 PM

---

Hello Mr. Grande- I am a resident in the Sky Crossing subdivision, which is to the north of the proposed redevelopment of the land that is at the southwest corner of Deer Valley and Black Mountain. I am writing to express my concerns regarding the proposed redevelopment.

1. Traffic Concerns :Traffic during the school year between the hours of 7:10-7:30 am and 2:00-3:00 pm is already very high in the immediate area. It is considerably worse during that afternoon block, as there are a large number of parents in the area to pick their high schoolers up from school. This makes it very difficult to get through the intersection. In addition, high school students are haphazardly crossing major streets during this time. Two students were hit by vehicles last year while trying to cross the street. While I understand that this is somewhat of an issue for PV schools to figure out, it seems as if the developer has not addressed this other than to acknowledge that there will be increased traffic in the area. I would encourage members of the planning committee to drive by that area during those times to get a sense of the congestion. My hope is that if the redevelopment is approved, the developer agrees to fund and construct a walkway over Deer Valley (similar to the one over Black Mountain) so that the high school students walking from Sky Crossing can safely make it to school. Unfortunately, there is no bus service for these students due to the close proximity of the school and the increased traffic is only going to make it more dangerous for them.
2. Liquor Sales: It is my understanding that the developer is asking for a variance from the liquor law rules in order to be able to develop the space to include a gas station, grocery store and restaurants that serve alcohol. I would encourage the committee to consider the fact that there is a high school within the immediate vicinity and a large potential for children to attempt to illegally purchase alcohol.
3. Aesthetic Concerns: Understanding the high likelihood that this land will be re-zoned, my hope is that it can be developed in a thoughtful way that takes into account the aesthetics of the area and the high property values of the nearby homes. This could include a small/higher end grocery store (like an AJs or Whole Foods) with higher end restaurants and shops rather than the developer seeking to maximize their profit on the space by including a gas station, fast-food restaurants, large grocery store (Frys/Safeway), etc. The noise, light and traffic coming from the area will definitely change the aesthetic of the area, so anything that can be done to minimize that would be appreciated.

Thank you for your time,
Melissa Mitschke

## Why this petition matters

Started by Defend Desert Ridge

Oppose the rezoning request at Black Mountain Blvd / Deer Valley. It is currently zoned residential as part of our Master Plan but a developer is looking to make it Commercial, so that they can put in a new grocer and other big box retailers, fast food restaurants and gas station and other types of shops right near Fireside Elementary and Pinnacle High school and in the middle of your community. This provides liquor and cigarettes near children. Rezoning proposal case GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2. Anthony.Grande@phoenix.gov is the city planner assigned to the case in case you have further questions.

We oppose because it will significantly increase traffic in your neighborhood and impact safety around the schools, it will increase light, air and noise pollution to our quiet neighborhood. It will attract all of the problems and crimes you see already at Desert Ridge Marketplace, Fast Food Restaurants and around Gas Stations today. Furthermore it will negatively impact the behaviors of high school students and endanger kids attending the elementary school. In short, nothing good will come of this.

If you want a new grocer, encourage them in the pre-approved commercial zones around the corner on Cave Creek and Pinnacle Peak that should be used instead of encroaching on our beloved neighborhood.

By signing this petition, you would like to let the Planning Committee and City Council know that you oppose this rezoning request and the land should stay residential.

Goto : **defenddesertridge.godaddysites.com** for more information.

- **Sign BEFORE September 19 for your voice to be heard.**
- **Please ATTEND the review meeting at PV Community center on October 3rd @ 6:30pm to show your support.**

Could I sneak in one final comment into the case file that was just getting brought up last night? People are now getting emails from Vestar trying to promote the need for more grocery stores in this area. The verbiage they are using was that Desert Ridge incredibly only has one grocery store in a 21-mile square area. Talk about incredibly confusing and misleading. 21-mile square area? Who speaks that way? Did they mean 21 square miles? They used 21-mile square area intentionally to confuse people. These people are spreading lies to try getting people to sign their ONLINE petitions. I would be very interested to see how many of these people that have signed their ONLINE petition live outside of the Desert Ridge area.

Another thing I would ask Gammage and Burham how many of these people signed their petition, while voting for a Sprouts or Trader Joes in their online survey? They are deceiving the public with this survey when they knew before they began the survey that these smaller grocery stores aren't even an option to be used as the grocer.

I would like the City and the Village Planning Committee to request the results of their online survey become public records. I would be willing to bet over 50% of their supporters are looking for something Vestar already knew wasn't an option.

Thanks,
Dan Richards

Dear Mr. Grande and Councilman Waring,

I submitted an email on September 13 pertaining to my opposition to the proposed development . One of the points made in my previous email was stating the amount of gas stations and grocery stores within a 3-mile radius of the Deer Valley and Black Mountain intersection. I mentioned 11 gas stations within a 3-mile radius, but the correct number is **12 gas stations**.

It was brought to my attention that Gammage and Burnham met with the residents of Sky Crossing shared an exhibit showing the lack of gas stations and grocery store options within a 5-mile radius. They failed to show all the options south of the 101 in their exhibit, which is incredibly misleading. I have attached a map that shows all the gas stations and grocery stores in a 3-mile radius. If you change your search to a 4-mile radius, you find **18-gas stations**. The grocery store options are quite vast as well.

**Grocery Stores included within a 4-mile radius include:**

- Costco
- Walmart
- Target
- Sprouts Market Express
- 2 Fry's
- 2 Albertson's
- Food City

Please take this into consideration when Vestar continues to tell people that Desert Ridge is lacking grocery and gas station options. It's simply not true. Our neighbors do not want this development to be built. We all live in the residential superblock portion of Desert Ridge. If we wanted to live within walking distance to restaurants, we would have moved closer to Desert Ridge Marketplace. This isn't for the residents of Desert Ridge. They're looking at this parcel because they want the traffic from the 51.

Thanks,

**Dan Richards**

---

Please do not rezone. My kids go to Pinnacle High School and this is a stupid idea. There is enough traffic there now. Please do not let Vestar come in. We need that land to stay undeveloped.

Thank you.

As someone who lives in the area and drives that intersection every day, I fully oppose this re-zoning. Traffics is already a mess in the mornings and afternoons.

I would love to have a grocery store in the area but that location is awful.

Warmest Regards,
Kathy Green

| **Subject:** | Vestar Development Amendment and Zoning Requests for Superblock 12 in Desert Ridge |
| **Date:** | Sunday, September 24, 2023 2:12:13 PM |

To All Concerned With This Issue:

I recently attended a Desert Ridge Community Association meeting in which representatives for Vestar presented a rough sketch of their development plan for approximately 20 acres carved out of Superblock 12. Listening to them, one would surmise that this development was for the benefit of our neighborhood. They discussed a neighborhood grocery store, some small retail businesses, and dining options. A rather straightforward design, you might think. What Vestar's rep didn't mention was the inclusion of a gas station, fast food drive-throughs, and even a city bus stop. A plan that sounded innocent enough at the time now begs the question of how a development such as this would impact our neighborhood.

Vestar wants to rezone Superblock 12 from an R-2 residential designation to a C-2 commercial designation. With this rezoning would come a commercial development, such as Vestar's, right at our back door. There are many troubling issues associated with this proposal. I am limiting my comments to the environmental impact that Vestar's proposal would have on our community.

One of the most significant pollutants of our environment is gas stations. For instance, during fueling, toxic compounds such as Benzene (a known carcinogen), Ethyl Benzene, Toluene, and Xylene (BTEX) are released into the air. Likewise, these same compounds will pollute the air when there is leakage from the storage tank vents. Spills from fueling and spills from emptying tanker trucks can occur, causing soil, groundwater, surface water and air contamination. Even idling engines of vehicles contribute to air pollution with the release of harmful chemicals, gases, and particles. Add to this the road noise associated with an overwhelming number of vehicles driving in and out of the gas station and one must conclude that gas stations are one of the most significant polluters of our environment.

Grocery stores and fast food restaurants are right behind gas stations when we consider the extent to which they pollute the environment. The average grocery store emits almost two tons of carbon dioxide from the electricity and natural gas that it uses each year. In addition to that, grocery stores and fast food restaurants generate tons of litter and garbage yearly. Proper disposal of these then becomes a major issue. If strict guidelines aren't followed, we are then dealing with air and soil pollution, in addition to the environmental issues posed by rodents and other pests attracted to the area. Another concern is the amount of traffic generated by these businesses. Their customer traffic, their delivery trucks, and their trash collection vehicles make a substantial contribution to both noise and air pollution. Lastly, it is not surprising that air pollution is the direct result of food preparation.

With the kitchen exhaust fans we have the release of organic aerosol into the environment. With grills, stoves, and ovens we have the release of formaldehyde, carbon dioxide and carbon monoxide into the air. Naturally, these airborne particulates are inhaled by everyone nearby. With ongoing exposure, these particulates can be extremely harmful to individuals. This is especially true for asthmatics and individuals dealing with long-term breathing problems such as COPD.

It is obvious that the environmental impact of Vestar's proposed development would not be limited to noise, air, soil, and light pollution. Their proposal would guarantee both traffic pollution and people pollution, as well. Is it fair to assume that crime in our neighborhood would not be far behind, if Vestar's proposal were to be approved?

The negative impact that Vestar's commercial development would have on our neighborhood far outweighs any benefits of a grocery store, a gas station, and fast food restaurants. With these services and many more just minutes away in the Desert Ridge Marketplace, we don't need them in our own back yard.. We must keep Superblock 12 zoned R-2 Residential, as it was originally intended.

Please say NO to Vestar.

| Traffic during school pickup/drop off and rush hour is already stressing the traffic flow in this area. The traffic associated with a big box retailer would make this intersection/area much worse. |

**Dear Anthony,**

I am writing to let you know I'm very concerned with the new zoning up for approval. reference case numbers below.

This zoning in my opinion is way to close to Pinnacle High School. The traffic is already so congested with the onramp of hwy 51, and with new drivers (young from the high school) potential accidents would be a huge concern.

I vote NO for the new commercial zoning.  It needs to stay residential

Case No. SPA-DS1 V-2-23-2, Case No. CPA-DSTV-3-23-2 and Case No. 1-39-23.

Thank you, Jennifer Garcia

**Date:** Monday, September 25, 2023 8:44:10 PM

---

Reference : Case No. SPA-DS1 V-2-23-2, Case No. CPA-DSTV-3-23-2 and Case No. 1-39-23.

Hello Sir,
This is regarding rezoning of superblock 12 - Case No. SPA-DS1 V-2-23-2, Case No. CPA-DSTV-3-23-2 and Case No. 1-39-23.

I am a resident of the Fireside community in Desert Ridge. I would like to voice my concerns on rezoning superblock 12.

Rezoning to commercial would change the neighbourhood characteristics to be less desirable and affect the peace and quiet of the Fireside community. We already have sufficient access to grocery and other businesses within a couple of miles in multiple directions.
If rezoning is still being considered, I would be for restricting the hours of operations of the commercial establishments to be before 10pm (or restrict it to such types of establishments). And not have other establishments like gas stations that tend to operate very late in the night.

Thanks,
Thejas

My family wanted to weigh in on the proposed black mountain village project.
We are Opposed to the building of a gas station, grocery store, or any large project that will increase traffic, crime, and accidents.
A nice restaurant or 2 would be great,  but Vape shops, Liquor stores, Pawn shops and gas stations do not help wonderful neighborhoods like Aviano.
Thanks.

Hello,

Please consider this email my vote and my wife's vote in opposition of rezoning the area for commercial use. It is too close to the schools in the neighborhood. Desert ridge shopping complex is not that far. We don't need another complex here. Also, the traffic for drop off and pick up to Pinnacle and Fireside schools is already backed up. A commercial complex will further complicate traffic and lead to traffic mishaps.

Please NO.

Sincerely,
Dr. Uppalapu and Dr. Veeranki

Anthony,
My spouse and I are very excited about the proposed project at the above corner. We badly need a second option for groceries. This additional competition will be great for the residents of Desert Ridge. It will also increase property values. Hope this project is approved and ground is broken soon.

Hi there,

I am a resident near the proposed zoning change at the intersection of deer valley and black mountain. I support the zoning change to a small commercial to allow for a small grocery store/retail shop/restaurant. Ideally a small grocery store like trader Joe's would be ideal. Encourage bistros like Panera/chipotle or a local business to setup shop. Bike friendly lanes and bike locks with shaded/mature trees around stops would enhance the experience. Future growth for a public library adjacent would serve the area well.

Thank you
Nahian Latif
Local resident

Just voicing our opinion for what it is worth.
We are not against the rezone. But we are against a gas station and drive thru fast food. Additionally if this is rezoned, there must be traffic modifications on Black Mountain. My kids do not attend pinnacle but we get stuck in the backlog daily and this is without additional people entering or exiting a shopping plaza.

We hope the city listens to the citizens.

Mr. Grande,

I am sending this e-mail to indicate that I am **IN FAVOR** of the proposed development. You are likely to see a bunch of people trying to complain, and my guess is that those people will try to drown out the people who do want the project. I would strongly prefer if there was no gas station, but I understand the realities of the situation. To the extent there is a compromise, I would suggest no gas station.

---

Hello Mr. Grande,

I am writing to you regarding the Black Mountain Village project on the corner of Deer Valley and Black Mountain Dr. I am a resident of the Sky Crossing neighborhood directly across from the proposed project. I welcome the zoning change from residential to commercial with a few stipulations.

1. No gas station. It will increase loitering, traffic, and light pollution in the neighborhood.

2. Grocery store must be a smaller, neighborhood grocery store (Trader Joes, Sprouts, Whole Foods). A large Fry's or Albertsons type store would not fit into our residential area, especially since there is already an Albertsons in Desert Ridge and on Cave Creek.

3. The businesses must be in line with the demographics of the neighborhood. Desert Ridge and Sky Crossing are neighborhoods with high end homes. We need high end businesses, shops and restaurants that would enhance our community and not degrade it like a large grocery store and gas station would. This would also hopefully include appropriate lightscaping and landscaping, so the business park blends into the desert area that we all bought houses here for. We moved here because it was a quiet, residential area and we do not want to see it turn into another corner of concrete, traffic, litter, and loitering.

Thank you for your concern and I look forward to hearing about the next steps of the project.

Shawn Kline
Sky Crossing Resident

| **Subject:** | Zoning Changes Near Black Mountain and Deer Valley RDs |
| **Date:** | Monday, August 7, 2023 4:32:42 PM |

Hi,
I'd like to suggest a compromise for the city to consider regarding the parcel near Black Mountain and Deer Valley Rds. I agree we need more shopping in the area, however this is still a large residential neighborhood and I'd like the city to consider putting some restrictions on the new zoning, similar to what many shopping centers in Scottsdale have done.

Please consider rezoning with conditions including:
a maximum size for the grocery
prohibiting gas stations
dimmer lighting
larger landscape setbacks
shaded walking and bike paths
ample outdoor dining spaces

These conditions would still allow a company to develop the land, while also keeping it as close to a neighborhood feel as possible.

Thank you for your consideration.

Lisa Abrams

I am currently building a home in Desert Ridge and am extremely supportive of additional retail and commercial opportunities in this area. Desert Ridge Marketplace is hugely successful, but that comes with a convenience fee for people who actually live in the area. Additional options for groceries, restaurants and neighborhood retail on a smaller scale would actually serve the needs of people who live in and around the area, and an additional option to avoid the traffic and crowds of Desert Ridge Marketplace that has become a destination shopping center. My understanding is that the current entitlements would allow for additional housing units. While I am moving to the area and think that housing is important, the opportunity to have additional retail and commercial as a future homeowner in this area is exciting and would seem to actually serve the needs of the people that already live and are actively building homes there. Thanks for your favorable consideration of the requests.

hi, I guess people are saying to contact the planner about this development and that's you I guess? anyways, this is great news. we need more commercial in this area. it's a major intersection and just what should be happening here. I'm emailing because I'm sure people will complain. because that's what people do. and usually, the most vocal are the minority. I want to make sure you guys know that there are plenty of people excited about this happening. but will probably never attend a meeting or voice their excitement, because people usually only do that when they complain. so if you need anybody to point to in the community that has no vested interest at all, that is excited and 100% in favor of this, that would be me. thanks and good luck with the complainers

As a resident of Desert Ridge for over 3 years, I am excited for the opportunity to have additional options for groceries, restaurants and neighborhood retail in the area. This area has seen a lot of residential development in the past 5 to 10 years, but there has been a lack of additional commercial development. However, I don't want to see this site end up as another huge big box store (like a Wal-Mart) for several reasons. For one, we have a Target and other big box stores at Desert Ridge that fill that need. Second, it might cause too many traffic problems at the site and the surrounding area. I think this site should focus on a smaller, high quality grocery store and related restaurants and commercial uses. I would be in support of a square footage cap to prevent any big box stores from going in and to promote the possible attraction of a Sprouts or Trader Joe's type grocery store.

Mr. Grande,

My family and I are residents of Sky Crossing, and I am writing in support of the re-zoning of the land proposed for Black Mountain Village.

To say I am disappointed in my community members who oppose this project is an understatement. Apparently others do not care about growth and development of a neighborhood. Apparently others do not care about their property values increasing because of convenience. Apparently the principal of Pinnacle High School is urging us to protest the re-zoning, and because the school cannot figure out how to manage the flow of kids arriving to school, they are using this development as a scapegoat.

Granted, while I love the concept of the development, I do oppose the gas station idea unless it is only a gas station without a convenience store. Convenience stores, no matter the location, seem to draw people out of the woodwork. I don't know what latitude the city has to stipulate the details of the plan, but that would be my request as a resident.

I do plan on attending the October 3rd meeting, but will all those in attendance have the opportunity to vote on the decision?

Looking forward to the meeting.

Thank you,

Scott Corwin

Hello,
I am a resident of Sky Crossing and wanted to write to share my thoughts as I have seen a lot of chatter in the Sky Crossing community FB account.
I am not opposed to a smaller shopping mall with a small grocery store and food/coffee options. Nice mall like Gainey Ranch or DC Ranch. I would be opposed to a gas station as I believe it will bring traffic from the freeway, not community members. As well as the noise of refueling trucks.
Just wanted to share my thoughts - commercial property yes; as long as no gas stations are included.
Thank you,
Cecilia Martin

Anthony,

I hope you are enjoying your Friday! I wanted to reach out as your email was provided by a neighbor in Sky Crossing as a point of contact on this proposed project.

I live in one of the homes that backs up to Deer Valley and to the piece of land which is being submitted for rezoning from Residential to Commercial.

I actually love the idea of having a retail center on the plot of land - I absolutely hate the idea of a gas station being part of the project, especially on the North side of the project as it would be the first thing I would see out of my back window. I can tell you that opinion within the neighborhood on the Sky Crossing Facebook group seems to be split 50/50. One thing, however, that seems to be consensus - nobody wants a gas station as part of the project.

I am in the mortgage lending world, and I can share that if a gas station is placed at the very northern edge of the parcel, it would render the homes on the other side of Deer Valley unlendable for certain mortgage products, which seems incredibly unfair to the folks who bought homes here 3 years ago none the wiser to future changes that might occur.

I would stand firmly against a gas station, but would support a well designed retail center that would serve our community. I have lived in Desert Ridge for the last 15 years, and the project seems very exciting if done correctly.

Please feel free to call my cell below if you would like any further input or have any questions.

| I’m for no gas station, as we have had a big increase in homelessness in north Phoenix in the last couple of years as a gas station will increase homeless presence. A small grocery story like sprouts, Aldi, or Trader Joe’s will be nice as these stores typically don’t attract homelessness and close at a decent hour. |

Anthony,

Hope all is well. I live in Sky Crossing and want to make you (and the other city planners) know that my family supports this new development. This area continues to grow and we need more amenities like another grocery store, etc.

I can tell you that the FB group for my neighborhood gets all fired up about every little issue and this is no different. People are clearly frustrated about pinnacle traffic at 7am… can't imagine a grocery center is going to have a ton of extra traffic at that time. They seem to be forgetting the convenience + likely property value appreciation by having more amenities within walking distance.

I support this development and from what I can tell, Vestar seems like a very reputable firm with a great track record of great shopping centers.

Apologize in advance if you are getting many emails very different from this one. Appreciate all that the city does!

-Jimmy

| I support this proposal. Currently there is not enough retail in the Desert Ridge area. More house developments will cause an even larger shortage of restaurants, groceries and other retailers. |

| I support the proposal but would like it without a gas station. Perhaps we can do some kind of awesome charging station with higher end convenience store. Also, no Walmart or Walmart market…an AJs or Trader Joe's or even a frys would be fantastic. |

I just wanted to let you know that as a Aviano resident I am very happy to hear about this development. I would welcome a grocery store, a coffee shop and other retail, and hopefully also getting dust under better control once the construction is done. So, good luck and keep us posted.

I do want to request that some thought be given to control of any petty crime that may arise from this development as there will be increased activity in the surrounding areas.

Hi Michelle,
Nice talking to you today. My spouse and I are very excited about the proposed project at the above corner. We badly need a second option for groceries. This additional competition will be great for the residents of Desert Ridge. It will also increase property values. Hope this project is approved and ground is broken soon.

Hi there,

I am a resident near the proposed zoning change at the intersection of deer valley and black mountain. I support the zoning change to a small commercial to allow for a small grocery store/retail shop/restaurant. Ideally a small grocery store like trader Joe's would be ideal. Encourage bistros like Panera/chipotle or a local business to setup shop. Bike friendly lanes and bike locks with shaded/mature trees around stops would enhance the experience.  Future growth for a public library adjacent would serve the area well.

Thank you
Nahian
Local resident

**Subject:** Sky Crossing Resident / Black Mountain Village

Hello,

I am a resident of Sky Crossing and very in-favor of this proposed development. For what it's worth, the community seems overly concerned about 1) the additional traffic around Pinnacle high school at drop off and pick up, 2) the potential for a gas station and 3) the "aesthetic" of the project.

For me, this seems like a no-brainer given we need a grocery store + other amenities (this helps our property values). I look forward to attending the town hall on Tuesday

Thanks,
Jimmy

| **Subject:** | Aviano resident FOR commercial rezoning |
| **Date:** | Saturday, September 9, 2023 9:10:41 AM |

Hello Anthony,
I am a resident that is beyond excited about the potential rezoning near Pinnacle HS! I am shocked by the negative response being organized by some here in Desert Ridge. We DESPERATELY need more commercial businesses to support the homes/community that are already here. It is horrendous that we only have ONE grocery store and ONE gas station and ONE fast food restaurant for this many homes in one area- and there are many more homes still being built. One of the biggest complaints by people is that these businesses will bring in crime and homelessness. Well guess what?! It's already been moving in and the problem isn't businesses. The problem is that we have voted in a mayor who is SOFT on crime and our police force is over worked, under staffed and under funded. Commercial businesses are what we NEED!!

We have lived in Aviano for 14 years and had already been saying for several years that we hoped businesses would develop somewhere along this stretch of Deer Valley. We were so excited to hear about this proposal and couldn't be more disappointed or disheartened by how "noisy" the ones against this have been. We truly hope they don't ruin this much needed opportunity for growth in our community.

**Date:** Saturday, September 9, 2023 8:16:54 AM

---

Hi Mr Grande,

My name is Martina McConnon, I live in the Fireside community and have been hearing about the planned rezoning & possible shopping area coming to Black Mountain next to Pinnacle High School. Just wanted to let you know that our family would very much welcome a grocer like Trader Joes or Sprouts to get that spot. We do not need more fast food options as we have plenty in Desert Ridge. But another grocery store would be great, especially a healthier alternative to Albertsons.

Thank you!

| **To:** | Anthony M Grande |
| **Subject:** | Support for Black Mountain Village Project |
| **Date:** | Saturday, September 9, 2023 11:19:25 AM |

Mr. Grande,

I am a resident of the Sky Crossing community, and am writing this email in support of the rezoning of Vestar's proposed Black Mountain Village project. For the planning committee's consideration, I want to offer some thoughts about the project:

1. Traffic - I have seen a lot of input from community members opposing the rezoning because of traffic concerns. If it is eventually developed into homes, that'll be another 20+ single family homes built. If it's developed into townhomes, it'll be another 400 units. If it'll be developed into apartments, the number of residents will be even higher. Regardless of the outcome of residential development, residential development will also create more traffic for that area. Those those oppose the rezoning to commercial don't seem to offer that as a consideration. Some/any level of additional residential development will further congest DRM. The Vestar development of this land at least offers additional shopping and dining options, which I would hope offloads DRM to some degree. I see that as a positive. However, I would hope the City would partner with Vestar to assess entrance and egress points, especially during the morning when PHS students are driving or being dropped off. I do agree it'll create more traffic at certain points of the day, so I would hope that is already on the docket to evaluate.

2. Types of businesses on the property - I would ask the planning committee to not support a gas station with a convenience store. I would rather have a gas station alone, like Costco, with limited hours. A convenience store option will likely cause more harm than good, in terms of the people who would be shopping or loitering at the store.

3. There are many concerns about noise from residents in my community and the community to the immediate east of the proposed development. My house is located 5 houses Black Mountain Boulevard, and we are objectively closer to the proposed development than 60% of Sky Crossing. In the two+ years that we've lived in this community, I've never heard any noise from BM boulevard. I can't even hear the football games at Pinnacle High School. I've seen many people via our community's Facebook and Desert Ridge's community Facebook groups share this concern as a reason to oppose the development. How can people 2-3 miles away complain about noise when noise present no impact to them today? Rhetorical question, but people are grasping at straws.

Overall, while this proposed project is not by any means perfect and there are some legitimate concerns (like traffic), additional commercial development for this area will be a boost for property values, tax revenue, economic growth, and some level of job creation. I strongly, strongly support this rezoning in favor of the Vestar development.

Thank you,

Vanessa Corwin

Not sure if this is the right forum but I am writing to add my FULL SUPPORT for this project.

I live in Aviano and would love to have a coffee shop and a grocery store within walking distance. The land will definitely go the apartment route if left alone for long. Can't build more than 6-7 houses in the lot. Can't imagine anyone preferring that to a neighbourhood market. I am definitely for it for environmental as well and logistics reasons.

Thank you

Mr. Grande,

I am sending this e-mail to reaffirm my position that I am **IN FAVOR** of the proposed development. I attended the information session by the developer and Gammage and Burnham at Sky Crossing yesterday evening, and I was impressed with what Vestar was agreeing to do as far as infrastructure in and around this proposed project. If this project is denied, I do not see a residential developer agreeing to do what Vestar is agreeing to do. Nevertheless, although I do not pretend to be a traffic engineer, I believe that it makes sense to have a light at 34th street and Deer Valley. This is even though there is a light nearby at Deer Valley and Black Mountain. Again, I am not a traffic engineer, but it seems to me as a layperson that 75% of Sky Crossing traffic would be inclined to head west down Deer Valley and enter Sky Crossing at 32nd Street and/or Sky Crossing Way. I suspect that a lot of people who live around Cave Creek and Deer Valley would also prefer to have a light at 34th Street. This is something to consider. Again, I am **IN FAVOR** of the proposed development.

-Adam

Mr. Grande,

I am sending this e-mail to indicate that I am **IN FAVOR** of the proposed development. You are likely to see a bunch of people trying to complain, and my guess is that those people will try to drown out the people who do want the project. I would strongly prefer if there was no gas station, but I understand the realities of the situation. To the extent there is a compromise, I would suggest no gas station.

from the sounds of it, you're getting obliterated with negative comments about this. just wanted to make sure you know many of us here approve of this project. we were promised for years we'd be getting a second grocery store. the people complaining are mostly people that have been here only a year or 2. many of them back the major roads to this. this has 2 major roads and leads to the interstate. and backs a high school. should the rest of the community be deprived of this development because they bought houses that back these major roads? I don't think so. I've been here since 2009 and have always known there was commercial coming. anyways, thanks for hearing me out.

**From:** Robert Berto
**To:** Anthony M Grande
**Subject:** Rezoning near Pinnacle High School
**Date:** Friday, September 15, 2023 8:28:08 AM

---

I just would say not all residents in this area are opposed to finally building on land that looks like a deserted field that has not been maintained and does not align with the atmosphere of surrounding homes in the area. Finally something can be put in place with some amenities north of the 101.

I do have a question though.
Is there a plan to build anything north of Pinnacle Peak and Black Mountain? This land as well looks like overgrown weeds that have not been maintained.
Not only that, but it is a dark busy road on Pinnacle Peak. Wildlife darts out from the side of the road and could pose a risk to drivers trying to avoid hitting a coyote chasing a rabbit. I know from experience. I drive it multiple times a night.

I look forward to seeing more commercial establishments that will help the community that continues to grow.

I just wanted to give some input as I live in the area and my son goes to Pinnacle High School.

Thank You,
Robert Berto

I realize the location is not ideal for everyone but I would prefer to have a local grocery store closer and less crowded than a Desert Ridge

I think the fry's complex at Thompson Peak and Hayden is a good example of what this could be and support it.

Hey Gammage and Burnham - these silly Facebook groups are not a good idea. I actually like the idea of Black Mountain Village, but having a law firm with no vested interest in the neighborhood aside from the development being approved creating a Facebook/Instagram group to drum up support for the project makes your law firm look absolutely desperate, pathetic, and borderline deceptive. Please discontinue this type of advertising.

Definitely in favor of the commercial development on Black Mtn and Deer Valley. Closer grocery store (maybe gas too?) retail restaurants (a coffee shop) would be awesome. Right now we have to go to desert ridge and it’s too trafficked. Also, growing up and in High School eating at our local restaurants nearby school was a huge part of the community experience and right now I fear that doesn’t exist. As long as it’s thoughtful re: loitering and lighting and traffic there really isn’t a downside here at all. Hope we can get this approved!!

As someone that has live near this area since 2011, I am excited for the potential to build more commercial stores, including a grocery store other than Albertsons nearby. Our only nearby options for this is Desert Ridge which is getting ridiculously crowded now that Sky Crossing exists. It's funny that I see them as the ones complaining, but we were all very opposed to more residential homes in that area for two reasons. 1 - it made things even more congested and 2 - now our school boundaries risk being redrawn. I purchased land at cave creek and deer valley for Pinnacle High, now the extra residential growth is putting our ability to attend that school in the future at risk.

I do NOT want more residential homes at the corner at Black Mountain and Deer Valley. Commercial property is what I would love to see. It would also create more jobs for our area, especially the older teens / young adults.

| This area is in desperate need of additional shopping. The traffic is way too congested at Tatum and Deer Valley. It's also a safety issue for our teens that have to cross Tatum or Deer Valley to get to the only shopping at Desert Ridge Marketplace. The business revenue for City of Phoenix would be substantial as multiple businesses are ready to expand to this area. Another grocery anchor is what we really need. Our options are very limited especially with the expansion off of 56th St. And Deer Valley. |

Black Mountain Village is a much needed addition for Desert Ridge residents. Albertsons needs competition and the current mall is already too congested. I don't shop there because the ingress and egress are so terrible.

With thousands of new residents coming to Desert Ridge in at least four apartment complexes, new condos and Talin additional shopping options are absolutely necessary.

| It would be very beneficial to build a Trader Joe’s at Deer Valley Dr and Black Mountain Pkwy. This area is saturated with customers and shopping. However, having more grocery options gives people more choices. Having a Trader Joe’s also appeals to a younger audience and is highly desirable. |

To begin with, the proposed development will be closer to where our family lives than Desert Ridge Marketplace. Sometimes, one just needs to make a really quick dash to the store to make a much-needed quick family dinner, when running late.

I also appreciate the Fuel Station - again for the convenience of proximity when one needs to get the kids to school or get oneself to work.

If the following stores (Trader Joe's, Whole Foods, Fry's, Sprouts or Safeway) were brought closer to the Desert Ridge residences, it would be a big plus as we usually travel little longer to one of their locations.

In summary, proximity, quality and variety of options, are key for my family and I.

I would love a neighborhood shopping center catering to the local community as getting in and out of Desert Ridge Marketplace can be quite congested. I prefer a smaller grocery store like a Trader Joe's over a larger store like Fry's. I am opposed to having a gas station in station the complex. Based on my discussions with people in the community if the shopping center had Trader Joe's and no gas station more people would support the development.

I love this idea and have been waiting for news on its development.

Going to desert ridge marketplace is a pain in the butt for the essentials, it will be nice to have a place that is much closer. It’s a huge win for people who want to bike and walk too.

I think the developers can secure a big win if they scrap the gas station idea. I also think having a left hand turn option on 34th street would be a big win.

I also think you should include more studies on how convenient/walkable areas like this improve properly values.

Many of the naysayers also site traffic, however for most residents of SC it’s a net win since they will drive less to DRM. The safety concerns are also silly cuz there’s already traffic, and the new improvements will actually make it safer.

I think this proposed plan adds value and convenience to the north Phoenix area. With the growing number of houses going up and no new stores, especially grocery, going up, this will be a positive and impactful addition to our neighborhood. We don’t want more houses or apartments crammed together. We want something that will actually be of use in the day to day life.

| As senior living in the area, having a new neighborhood grocery store would help me to age in place in my current home. Currently I live more than 5 miles away from any grocery store. |

Subject: Support for Black Mountain Village Project

Mr. Grande,

I will not be able to attend the meeting on October 3 but write to provide my strong support for the Black Mountain Village rezoning project. As a homeowner in the Sky Crossing community I view this project favorably. It will be a good use of the land and provide homeowners in the surrounding neighborhoods with options not found in the immediate vicinity. I would much prefer a commercial rezoning to a multi family project and believe those opposed may be not realizing other potential and less favorable uses for the land.

As a former member of the PV Village Planning Committee, this project has my full support, and I urge the committee to vote to approve on October 3.

Thanks,

Aaron Lloyd

Hello,

I strongly support this project as a neighbor in the Sky Crossing community. I believe the project will be an asset to the neighboring communities, provide additional services not found in the immediate neighborhood, and be a good use of the land. I strongly recommend that the planning committee approve the project at the upcoming meeting!

Thanks,

Aaron Lloyd

| The ability to walk to a grocer can greatly reduce the traffic strain that is clearly obvious in front of Desert Ridge Marketplace. The more walkable the surrounding neighborhoods, the cheaper and less deleterious the use of cars becomes. |

| A grocery store is badly needed and the Desert Ridge area with all the new apartments and homes being built and only Albertsons available within a few miles. I totally support a grocery store at the southwest corner of Deer Valley and Black Mountain |

| My support for this development is contingent upon 3 things:<br>1. Grocer is guaranteed to be Sprouts, Whole Foods, or AJ's<br>2. No gas station, given the above grocers don't do accessory stations.<br>3. Lighting plan is implemented to be similar to lights at the Shops at Gainey Village. |

Hi,
I know you are probably inundated with notes about the development on BMB and Deer Valley. Thank you for taking the time to consider all of the suggestions.

I support a form of development with limitations. I would strongly support a C-1 designation (rather than the proposed c-2) with no gas stations or fast food drive through pads. I support a true neighborhood community commercial development.

The area immediately surrounding this parcel has homes worth over a million dollars and I think Vestar made a tactical error by trying to build too much on the property. The current proposal isn't aligned with the 'feeling' of the immediately surrounding neighborhood, which is quieter, more residential, and further from the Desert Ridge core. If a more modest commercial development was proposed, I think it could make a positive difference in the community and be better received.

Thank you again,
Dan Oseran

RE: Case# Z-39-23 Black Mountain Village

Dear Mayor and Council Members:

I am a nearby Aviano resident, and I am writing to express my SUPPORT for the proposed new commercial development located at the southwest corner of Deer Valley Drive and Black Mountain Parkway. This area is in desperate need of more neighborhood amenities to serve the community. A grocery store at this location would be an especially welcome addition to the neighborhood as well. I have seen the plans and believe this will be a quality project.

I urge you to support this request!

Sincerely,

Robert Adams

I am a nearby Aviano resident, and I am writing to express my SUPPORT for the proposed new commercial development located at the southwest corner of Deer Valley Drive and Black Mountain Parkway. This area is in desperate need of more neighborhood amenities to serve the community. A grocery store at this location would be an especially welcome addition to the neighborhood as well. I have seen the plans and believe this will be a quality project.

I urge you to support this request!

Sincerely,

Cameron Headley

I will strongly support a Trader Joe’s store .
We don’t have any of those close by and I’m sure it will be the best since we have 3 other ones you mention already and close by too .
Thank you !

RE: Case# Z-39-23 Black Mountain Village

Dear Mayor and Council Members:

I am a nearby Aviano resident, and I am writing to express my SUPPORT for the proposed new commercial development located at the southwest corner of Deer Valley Drive and Black Mountain Parkway. This area is in desperate need of more neighborhood amenities to serve the community. A grocery store at this location would be an especially welcome addition to the neighborhood as well. I have seen the plans and believe this will be a quality project.

I urge you to support this request!

Sincerely,

ROBERT L. REFUERZO

**Support Comments**

I am writing the comments below to support Vestar's proposal to develop the 20.5 acres of Property located at the southwest corner of Deer Valley Drive and Black Mountain Parkway as a retail shopping center called Black Mountain Village.
I believed the new grocery store will have the following benefit:
1.Local Economic Growth
2.Convenience and Accessibility
3.Community Gathering Place
4.Environmental Sustainability

Anthony—

It amazes me that the applicant would want to put in a shopping center of that magnitude only 2.5 miles from Desert Ridge. Why isn't the currently designated 2-5 du/ac housing more important than changing the General Plan to provide Commercial?

Marcia Busching

**Subject:** Review & Comment on General Plan Amendment in the Desert View Village (GPA-DSTV-2-23-2 & GPA-DSTV-3-23-2)

Attached for your review is an amendment to the General Plan for Phoenix that has been filed:

**DESERT VIEW VILLAGE**
Application **GPA-DSTV-2-23-2** at the southwest Corner of Black Mountain Boulevard and Deer Valley Drive. Request for a Map Amendment to change the General Plan land use designation on approximately 20.5 acres from Residential 2-5 du/acre (20.5 acres) to Commercial (20.5 acres) to allow commercial land uses.

Application **GPA-DSTV-3-23-2** at the southwest Corner of Black Mountain Boulevard and Deer Valley Drive. Request for an amendment to the Desert Ridge Specific Plan Section 6.C.5, Superblock 12, Parcel 12.L.

These applications are proceeding concurrently with a rezoning request (Z-39-23-2) for the same property, approximately 20.5 acres from S-1 (Approved R1-6 and R-2) to C-2 to allow a commercial shopping center.

Please forward your comments prior to **August 22, 2023** to:

| **Subject:** | Input re: requested rezoning E. Deer Valley Dr/Black Mountain Blvd near Pinnacle High School |
| **Date:** | Monday, August 14, 2023 5:05:46 AM |

To: Anthony Grande, Planner, City of Phoenix Planning & Development Department
Cc: Mr. Jim Warring, Councilman – District 2, City of Phoenix

Good morning gentlemen,

My wife, Mary, and I recently purchased a home in the Sky Crossing neighborhood immediately north of the proposed rezoning on E. Deer Valley Drive and Black Mountain Boulevard near Pinnacle High School (Desert View Village GPA-DSTV-2-23-2). We are excited to become active members of the community and have been impressed by how the City of Phoenix has thoughtfully managed development. We understand that the proposed rezoning transitions the parcel from residential to commercial, and while we don't object to the rezoning of the parcel we do have a number of significant concerns.

First, we understand that proposed development plans include the construction of a gas station on part of the parcel – we would like to express our strongest reservations as to the inclusion of a gas station within the final plan given the traffic it is likely to draw, the likely extended hours of operations including intrusive late-night lighting in the area, and the environmental impact. There are nearby stations located both at E. Deer Valley Drive/Cave Creek and at E. Deer Valley Drive/Tatum which should more than suffice to address local demand.

Second, the area already deals with significant traffic challenges associated with ingress/egress to Pinnacle High School. Any rezoning and associated development should be coordinated with the traffic needs of the high school both to mitigate impact to overall traffic flow and to enhance safety in a high traffic area. As development continues north of our community, confident that the AZ-51 access point will only see increased traffic volume – plans should be made to address not only existing traffic due to the high school but increased traffic due to the proposed redevelopment.

Third, we have been made aware of increased random acts of violence associated with late night hours at Desert Ridge Marketplace and we don't wish to see those issues brought closer to our community. Should the rezoning be approved, we would ask that conditions be placed on the hours of operations for tenants to minimize late night traffic to the property (preferably no later than 9pm) and that coordination be pursued with the City of Phoenix Police Department to ensure appropriate police resources are dedicated to the area.

We understand the importance of continued development across Phoenix and believe that reasonable accommodations can be made that both permit development while addressing resident concerns. Thank you for providing us the opportunity to voice our concerns.

Warmest regards,

Paul & Mary Bierbusse

There is an existing parking problem at Pinnacle HS that needs to be solved before the development of retail center. At 6pm last night, there were 200 overflow cars in desert on future retail center site. AZ State Land, PVUSD and possibly retail developer need to solve problem first. Perhaps retail center purchases extra 5 acres and delivers to PVUSD west of retail?

PLANNING AND DEVELOPMENT DEPARTMENT

# ADDENDUM A
## Staff Report: GPA-DSTV-3-23-2
September 20, 2024

| | |
|---|---|
| Application: | GPA-DSTV-3-23-2 |
| Owner: | Arizona State Land Department |
| Applicant: | Ryan Ash, Vestar |
| Representative: | Stephen Anderson, Gammage & Burnham |
| Proposal: | Amendment to the Desert Ridge Specific Plan Section 6.C.5.Superblock 12 to facilitate commercial development |
| Desert View Village Planning Committee Meeting Date: | October 3, 2023<br>October 1, 2024 |
| Staff Recommendation: | Approval, as shown in the recommended text in Exhibit A |

On October 3, 2023, the Desert View Village Planning Committee heard this request and recommended denial by a vote of 7-2-1. On November 2, 2023, the Planning Commission heard this request and recommended a continuance to the January 4, 2024 meeting by a vote of 9-0. On January 4, 2024, the Planning Commission heard this request and recommended a continuance to a date uncertain and remanded the case back to the Desert View Village Planning Committee for reconsideration by a vote of 7-0. The applicant has since submitted revised amendment language to the Desert Ridge Specific Plan to address community and committee concerns by limiting the size of any single retailer to 65,000 square feet and prohibiting gas stations. Staff recommends the revised Desert Ridge Specific Plan amendment language, as shown in Exhibit A.

In addition, since the staff report was published on September 26, 2023, staff has received 127 letters in opposition and 283 letters in support, which are attached as an exhibit.

**Exhibits**
A: Proposed Amendment Language (2 pages)
Community Correspondence (545 pages)

**EXHIBIT A**
**GPA-DSTV-3-23-2**
Amendment to the Desert Ridge Specific Plan Section 6.C.5.Superblock 12 to facilitate commercial development at the southwest corner of Black Mountain Boulevard and Deer Valley Drive

Staff proposed language that may be modified during the public hearing process is as follows:

**Amend Chapter 6 (Development Parcel Regulations), Section C.5. (Development Regulations by Superblock), Pages 6-45 to 6-46 as follows:**

**SUPERBLOCK 12**

Superblock 12 is located west of a possible future connection to the ~~Squaw~~ PIESTEWA Peak Parkway, which separates this superblock from the balance of the Desert Ridge community. BECAUSE OF THIS SEPARATION, THIS SUPERBLOCK CAN SUPPORT LIMITED COMMERCIAL USES WITHOUT INTERFERING WITH THE DEVELOPMENT OF THE DESERT RIDGE CORE (DEVELOPMENT PARCEL 5.A). RESIDENTIAL development parcels may vary in size by 30 percent (25 percent for R1-6 and more dense zoning categories without a minor plan amendment).

**Size:** ~~136~~ 133.41 acres
**Maximum Number of Dwelling Units:** 347
**Average Density:** 2.55 du/ac

**12.L – Development Parcel 12.L**

**Size:** ~~77~~ 55.24 acres
**Uses Permitted:**
- Single-family residential

**Density Range:** 2-5 du/ac for the entire parcel
**Maximum Number of Units**: ~~347~~ 257; ~~451~~ 334 if parcel increases in size 30 percent
**Potential Zoning to be Applied:** R1-18, R1-10, R1-8, R1-6, R-2
**Minimum Lot Size:** Zoning controls

**Special Requirements (Modifying City Regulations):**

- No attached single-family units; no multifamily units.
- Section C.4.B, Chapter 6, Desert Ridge Specific Plan applies.
- No more than 25% of the development parcel may be zoned R-2.

**Recommendations:**

- Clustering permitted subject to minimum lot size.

**12.C – DEVELOPMENT PARCEL 12.C**

**SIZE**: 20.52 ACRES
**USES PERMITTED**:

- ALL USES ALLOWED UNDER CITY OF PHOENIX ZONING DESIGNATION C-2, INTERMEDIATE COMMERCIAL, EXCEPT AS PROHIBITED BELOW.

**MAXIMUM NUMBER OF UNITS**: **90**
**POTENTIAL ZONING TO BE APPLIED**: C-2

**SPECIAL REQUIREMENTS (MODIFYING CITY REGULATIONS):**

- ~~**LARGE SCALE COMMERCIAL RETAIL IS PROHIBITED.**~~ **MAXIMUM GROSS LEASABLE AREA FOR ANY INDIVIDUAL RETAIL TENANT/USER (E.G. GROCER) SHALL NOT EXCEED 65,000 SQUARE FEET.**
- **AUTOMOBILE SERVICE STATIONS ARE PROHIBITED.**
- ADULT USES ARE PROHIBITED.
- RETAIL LIQUOR SALES ARE ALLOWED AS AN ACCESSORY USE BUT ARE PROHIBITED AS A PRIMARY USE.
- TOBACCO ORIENTED RETAILERS ARE ALLOWED AS AN ACCESSORY USE BUT ARE PROHIBITED AS A PRIMARY USE.
- RETAIL MARIJUANA SALES (DISPENSARIES) ARE PROHIBITED.
- ~~**AUTOMOBILE SERVICE STATIONS ARE PROHIBITED, UNLESS ACCESSORY TO A GROCERY STORE.**~~

**12.S – Development Parcel 12.S**

**Size:** ~~59~~ 57.65 acres
**Uses Permitted:**

- High school

**Potential Zoning to be Applied:** R1-8

# OPPOSITION

| | |
|---|---|
| **From:** | V H |
| **To:** | Council District 2 PCC; Anthony M Grande; PDD Central City VPC; PDD Long Range Planning; Mayor Gallego |
| **Subject:** | OPPOSE rezoning of deer valley road and black mountain blvd |
| **Date:** | Tuesday, September 26, 2023 9:45:01 AM |

Re: **OPPOSE** Black Mountain Village/Superblock 12

Hello,

There is extreme frustration from local residents and homeowners regarding the request to rezone the parcel on the southwest corner of Deer Valley Rd and Black Mountain Pkwy (north of Pinnacle high school) proposed as Black Mountain Village.

As a homeowner in Sky Crossing, I purchased my home knowing that the parcel is residential. If it's rezoned strictly for monetary greed, there will be a host of issues that cannot be prevented such as increased traffic, homeless population loitering, vandalism, poor air quality, light pollution, litter, noise pollution, etc. In addition, residents already have to endure severe traffic issues from Pinnacle high school. If this corner becomes commercial, parents will park and pick their kids up in the parking lot. This cannot be prevented. I've lived with this exact issue in a previous neighborhood and it's awful to try and get gas, shop, or navigate the parking lot.

Not only should this not be rezoned, but the city of Phoenix needs to look into the false rumors and propaganda that is being promoted by Vestar Development. This company and their attorneys have created online petitions and facebook groups that falsely advertise support for the rezoning. In addition, Vestar actually sent local residents emails stating there will be a new grocery store in this parcel when in fact, it's not even zoned for it yet. No matter how the attorney's at Vestar spin their request, they cannot guarantee a particular grocery store or other tenants in the proposed area. Their propaganda uses phrases such as "walking village" or "decrease desert ridge traffic" to intentionally mislead residents who will be directly impacted by the rezoning.

Unethical and disrespectful behavior from Vestar and their attorney's should cause city planners to pause. Please listen and respect homeowners and residents and deny this rezone request. This shady behavior supports that Vestar doesn't care which type of store or gas station goes into this property, but they are all about the money.

PLEASE deny and stop this request. I urge you to respect the homeowners disapproval and desire to keep the area as originally planned which is single family residential.

Thank you for your time!

Vicki Hanley

| **Date:** | Tuesday, September 26, 2023 4:31:45 PM |

Good Afternoon Anthony Grande,
I am currently writing to you in response to a recent request to have the zoning to the above case numbers altered.
As a resident of the community this directly impacts, I strongly disagree with a change to this zone.
There are several reasons a commercial property would adversely affect the area in regards to property value, proximity of school zones, public safety, community and lifestyle of the neighborhood.
This area was planned and sold to residents as a community super block, not for commercial use. There are plenty of spaces in the area for commercial use and the need to convert this zone is simply not there. I ask that you strongly consider the voice of the people this directly impacts.
Thank you your time and interest in this matter,
Kim Otis

| **Subject:** | Opposition to Rezoning on Black Mountain Blvd for Vestar Development |
| **Date:** | Tuesday, September 26, 2023 10:23:34 AM |

Dear Mr. Grande,

I am writing to you as both a concerned member of the Desert Ridge community and an advocate for responsible urban planning to express my unequivocal opposition to the proposed rezoning on Black Mountain Blvd. This rezoning, aimed at facilitating Vestar's plans for a new grocery store, gas station, and drive-thru fast-food establishment, raises serious issues that conflict with the original intentions for land use within our community.

Desert Ridge Marketplace and City North serve as commercial hubs specifically designed to meet the needs of the Desert Ridge community. Introducing another commercial area within the neighborhood would not only be redundant but would create an unreasonable variance from the initial planning objectives for our community. This form of development would disrupt the balance between residential and commercial zones, adversely affecting the quality of life for residents.

Additionally, it's critical to consider the existing traffic issues exacerbated by Pinnacle High School. With thousands of students crossing the streets daily, the potential influx of vehicles entering and exiting the proposed Vestar establishments would invite further hazard into the lives of these young individuals. To endorse such a plan, in light of these concerns, would be nothing short of legislative malpractice.

Furthermore, I find it disconcerting that Vestar has initiated an aggressive social media campaign to garner support for their project. Using significant financial resources, they are presenting this rezoning and subsequent development as beneficial for the community, which is misleading, to say the least. I urge you to recognize this campaign for what it is: a manipulative tactic designed to gain support for a project that is clearly not in the best interest of the people it purports to serve.

I implore you to consider the will of the community and the adverse implications this rezoning would inflict upon it. By opposing this rezoning request, you will be granting us the victory we seek in preserving the integrity of our community and protecting the welfare of its residents, particularly our youth.

Thank you for your attention to this matter. I anticipate your thoughtful consideration and favorable decision in upholding the original planning ethos of the Desert Ridge community.

Sincerely,

Luke Reynoso

| **Attachments:** | Vestar Black Canyon Village Proposal 9-21-23.pdf |

Dear Mr. Grande:

I am resident of Fireside Community since 2013. Our house is divided between the development of Black Canyon Village. My wife likes the idea of having a "better" grocery store as the anchor of the platform that Vestar is proposing. The grocery store of choice would be Signature Fry's. I am on the other hand, opposed to the development because of the traffic and the probability of students loitering and causing mischief within a small, confined area.

I have sent my concerns to Eric Molenaar, the Fireside Community Manager with the attachment. In my email to Eric, my thoughts are if, Vestar is going to invest in the Desert Ridge Community then Vestar should develop the full parcel, not just the area between 34th Street, Deer Valley, Mayo Blvd and of course, N Black Canyon Blvd.

Here are my concerns with pictures in the attachment:

- Pinnacle High School (PHS) only supplies enough student parking for seniors.
- PHS students are being dropped off and picked up by parents in the morning and afternoon.
- Parents of PHS students are coming off HWY 51 exit, Black Canyon Blvd making right-hand turns onto Mayo Blvd in the morning is overwhelming.
- Parents of PHS students picking up their sons & daughters in the afternoon (2:00pm- 2:45pm) are parking illegally on E Mayo Blvd between 34th St and N 36th Street (Copper View sub-division).
- Parents are parking illegally in the Copper View sub-division causing massive confusion on N 36th Way exiting onto Deer Valley. I spent close to 20 minutes trying to get onto Deer Valley heading east. A student was observed sitting on a wall in a neighbor yard.
- Students have been observed crossing into the Copper View area from Black Canyon Blvd, cutting across the water retention area onto N 36th Street where the parents are waiting to pick them up.
- If Vestar is granted the zoning change they should be held to add the following amenities to the project:
    - Be required to add a sidewalk from Black Canyon Blvd to the end of 34th Street.
    - Be required to add a color 6'- brick wall between the street across from the school property and the commercial pad, thus preventing vandalism or loitering behind the businesses. The wall should be extended a distance that extends the closest to a building lined with Black Canyon Blvd.
    - Mayo Blvd should be extended west beyond 36th Street to Deer Valley providing another exit for cars driving past the school.
    - The pie shape area between 36th Street and Deer Valley should be developed either

by Vestar or the school for extra parking, or a drop-off or pick up area.

For reference back in October 2022, I had an emergency health issue where I was taken to Abrazo Hospital across street from Paradise Valley Hugh School (PVHS). We tried to get into the parking lot, and it took 10-minutes because parents were picking up kids in front of the Medical Offices on Bell Road or driving into the multi-tiered parking structure. For reference I have included pictures of students leaving PVHS.

I will be at the meeting on October 3rd. Thanks for your time.

Regards,

Bill

The General Plan currently designates the Property for Residential 2-5 DU/AC. This amendment is to modify the designation to Commercial in order to allow for the development of a retail shopping center.

**A. Desert Ridge Specific Plan Amendment Request (Case No. CPA-DSTV-3-23-2)**

Development Parcel 12 is designated for residential uses in the Desert Ridge Specific Plan with a specific use list and development standards identified within the Plan. This amendment is a request to modify the development parcel regulations to allow for a commercial, retail development on the Property. Upon approval of the Specific Plan Amendment. Parcel 12.C will be created on the Property. The approximate 55.24-acre balance of vacant land at Superblock 12 will continue to be designated for residential development.

**B. Rezoning Request (Case No. 1-39-23)**

The current zoning of the Property is S-1 DRSP (approved R1-6 DRSP, R-2 DRSP), which would allow for the development of residential uses. This amendment is requested to modify the zoning to C-2 DRSP to allow for the development of a retail shopping center.

The following series of public hearings have been tentatively scheduled to allow the community the opportunity to learn more about these requests and make your opinions known.

**Desert View Village Planning Committee (For Recommendation)**
**Tuesday, October 3, 2023, at 6:30 pm**
*Meeting will be held at Paradise Valley Community Center (Multi-Purpose Room), 17402 North 40th Street.*

**Planning Commission**
**Thursday, November 2, 2023, at 6:00 pm**
*Meeting will be held at City of Phoenix Council Chambers (200 West Jefferson Street, Phoenix, AZ 85003) and virtually.*

**City Council**
**Wednesday, December 6, 2023, at 2:30 pm**
*Meeting will be held at City of Phoenix Council Chambers (200 West Jefferson Street, Phoenix, AZ 85003) and virtually.*

---

Hi Mr. Grande,

As a home owner within Fireside at Desert Ridge, I am against this Re zoning and do not support it. Please do not allow this to happen.

Thank you,

Jay Ford

Phoenix AZ 85003

Reference:GPA-DSTV-2-23-2

Dear. Mr. Grande:

On behalf of the residents of Sky Crossing Community, noted in the attached petition, we are opposed to the proposed rezoning of the Parcel **212-38-023B.** In proposing the zoning amendment, the developers would like to change the use from residential (2-5 du per acre) to commercial. We believe this proposed change would result in unacceptable levels of risk to health and safety.

If you reasonably estimate 2-4 cars per household for traffic planning, you'd see an increase of 200-400 cars (if 2-4 cars per house, 5 du per acre, and 20 acres) from residential development. The commercial proposal suggests parking for 580 cars and contains 3 access/egress points just off Mayo immediately across from the high school with no provision for safe crossing or pedestrian/bike safety. Further the traffic in this area is already an issue (see enclosed photos). In speaking with the Phoenix Police Traffic Bureau, it is clear they have received numerous complaints about existing safety issues experienced at the intersection of Black Mountain and Deer Valley Roads. The proposed rezoning would only exacerbate these issues.

The explanation letter for the project describes that for community benefit, the project has the potential to "increase health" and "reduce transportation burdens" of area residents by creating a walkable/bikeable retail/grocery destination and "may reduce emissions from residents driving to Desert Ridge Marketplace." These statements are unproven and unsupported by the conceptual design, given the proposed rezoning contains no description of how the commercial center will cater to walking and biking. The commercial area has been designed to be reached by cars and commercial pad siting does not reflect a walkable/bikeable "village."

Additionally, it will certainly increase the emissions in the immediate area and this poses unaddressed air impacts for residential neighbors as well as the school. There is no traffic impact or air quality study mentioned. Further it will increase both light and sound pollution in the area. As such, the Sky Crossing neighbors that have signed the attached petition stand against the proposed rezoning and ask that the City reject the developer's application.

Sincerely,

Michael Coppola

PHOENIX AZ 85050

**STOP THE ZONING CHANGE ON PARCEL 212-38-023B**

The residents of Sky Crossing neighborhood are opposed to the proposed change in zoning from residential to commercial for the property at the southwest corner of Black Mountain and Deer Valley Roads (parcel 212-38-023B). We believe the proposed development by Vestar poses significant risks to safety in the form of traffic congestion, air, noise and light pollution.

The proposed development does not add to the community benefit, but rather detracts from it by eliminating open space, introducing added emissions around residential areas and schools, and significantly increasing congestion in an already busy intersection and school zone that is immediately adjacent to a high school. Additionally, the proposed business types are not a value add as they already exist within easy reach of our neighborhood.

We wish to preserve the quiet, calm, walkable and bikeable characteristic of our neighborhood, while also avoiding the impacts of light and noise pollution associated with commercial centers. The Black Mountain Village, as well as any other proposed commercial development on this site, will do the opposite.

If you wish to reach out directly to express your concerns you can contact anthony.grande@phoenix.gov.

Phoenix, AZ 85003

Date: September 6th, 2023

Subject: Request City Zoning to **DENY** Rezoning Application for Black Mountain Village Project

Project: Black Mountain Village
Rezoning Case: GPA-DSTV-2-23-2; GPA DSTV 3-23-2; Z-39-23

**Desert View – City of Phoenix Planning and Zoning,**

In 2022, the Arizona Department of Housing identified shortages of over 270,000 housing units across our state. As Phoenix metro comprises over 2/3rds of our state's population, we require over 175,000 units to meet the needs of the citizens. Rezoning existing housing parcels to commercial property in the heart of a well-established family-friendly community only introduces unnecessary risks. Our well-established community has two schools that educate pre-school and elementary age children within four hundred yards of this proposed project. Families who walk their children to school and value the North Phoenix lifestyle live in this community for the long term. We have an opportunity to put families and our youngest citizens first by **DENYING** this project. Approving this project will only provide short-term rewards for Vestar and Gammage & Burnham associates.

When community leaders created the original master plan, they got it right the first time. We have an established need for housing in an already zoned housing parcel; why are we exhausting city resources on entertaining this project that simply does not fit within our community and creates considerable risk for our citizens. In November 2022, Arizona State University - Morrison Institute for Public Policy highlighted the complexity of housing zoning with City of Phoenix officials and reinforced ADOH findings of the real need for housing in our communities. We must simply look no further than two independent state institutions reinforcing the need for housing and the complexities of rezoning. While developers will make the case for additional services and unsubstantiated benefits to our community, we must consider the abundance of commercial services that are already available in Desert Ridge Marketplace, Vestar project and along Cave Creek Road, and HWY 51 south. In every direction we have an abundance of services of all commercial types within one mile. In addition, all these commercial properties have clearly defined real borders which create increased safety as to not blend housing, schools, parks, and daily life, with commercial development. The proposed project brings substantial and unnecessary risks to our community.

As residents living in this community, safety should always be our number one concern. Within four hundred yards of this proposed project, we have two schools, Pinnacle High School and Fireside Elementary, which educate pre-school children under the age of five. Each morning and afternoon families walk their children to these schools from the surrounding homes from the north, south, east, and west. Increasing transient traffic flow, especially off the high-speed HWY 51 into this area, greatly increases risks for residents, especially our younger children. Countless safety studies for many decades

show that increased traffic leads to increased incidents. Simply there is no compelling argument for this project and only increased risk.

I am requesting City of Phoenix Planning and Zoning to **DENY** this rezoning request and maintain the existing General plan based on the following data driven reasons.

- Identified need for housing across metro Phoenix.
- Safety of our youngest citizens considering two schools are within four hundred yards of the proposed project based on increased traffic to commercial property.
- Already abundant access to commercial services in all directions within one mile of proposed project..

City Planners got this right the first time in the General Plan. Schools, dog parks, walking trails, community soccer fields, and four large housing developments adjoin this property. Commercial real estate on this proposed parcel has no place, no real need, and only increases risks.
Thank you for your thoughtful consideration of the data, facts, and real impact on our community for the long term. I appreciate your support in **DENYING** this application and rezoning request.

Treye Elzenga
Resident of Desert Ridge

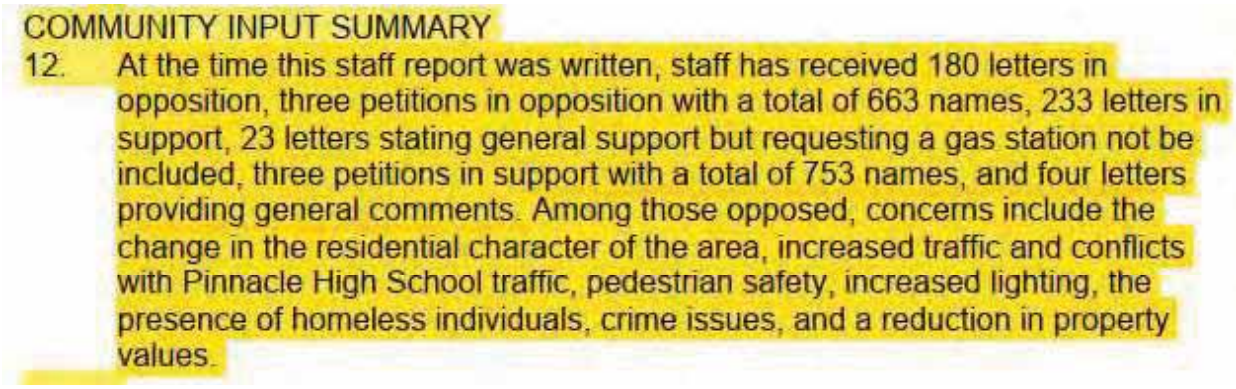
Hey Anthony,

I was forwarded the Z-39-23 Staff Report and wanted to address a couple of things:

- Quite a few people used the gblaw website to express their OPPOSITION, while the subject line is still stating NEW SUPPORT.
- Every village committee member needs to pay close attention to all of the SUPPORT NOTES. An overwhelming number of them expressed they support a SMALL grocery store and NO GAS STATION. In your COMMUNITY INPUT SUMMARY, you should add a line item mentioning that there are a number of letters stating general support but OPPOSE gas stations. Every one of these expressing both could just as easily been added to the opposition totals.
- The generic support letters printed and brought through Aviano are signature harvested. This is really sad to see. It's just a numbers game to them. People who oppose this development sent you well thought out letters, with some begging you to consider the ramifications this will have on our families and homes.



COMMUNITY INPUT SUMMARY

12. At the time this staff report was written, staff has received 180 letters in opposition, three petitions in opposition with a total of 663 names, 233 letters in support, 23 letters stating general support but requesting a gas station not be included, three petitions in support with a total of 753 names, and four letters providing general comments. Among those opposed, concerns include the change in the residential character of the area, increased traffic and conflicts with Pinnacle High School traffic, pedestrian safety, increased lighting, the presence of homeless individuals, crime issues, and a reduction in property values.

Please share this with the rest of the Desert View Planning Committee prior to next Tuesday.

Thanks,
Dan

Hi Sarah,

Thank you for your email, regarding this Village Planning Committee case file. Can you please confirm

that emails sent to Anthony are still going to be included in this case file as well? There are several people reaching out to neighbors and making sure they email Anthony and Councilman Waring prior to Sep 22. I will be collecting petitions later this week and will make sure to use the additional email you provided.

Thanks,
Dan

Hi Dan,

All correspondence received will be included in the case file. The packet will go out to the Village Planning Committee on Friday, the 22nd. Any correspondence received after Friday and before the VPC meeting will be sent to the committee via email.

While Anthony is out you can send correspondence to pdd.longrange@phoenix.gov.

Thank you,

Hey Anthony,

There was a resident from Sky Crossing that mentioned they received an auto reply from your email stating that you will be out until September 25. You mentioned that we should make sure we got letters submitted to you prior to September 22 to ensure they will be added to the case file, prior to the Oct 3 Desert View Village Planning Committee meeting. These emails will still be included in this case file, right?

Thanks,

RE: SWC of Deer Valley Drive and Black Mountain Parkway; Minor General Plan and Major Specific Plan amendment request.

To whom it may concern:

I'm writing to you as a concerned resident impacted by the rezoning requests GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2

Upon reading the Letter of Explanation provide to you by the attorneys of Gammage & Burnham (GBlaw), dated July 16th, 2023 (rev July 10th, 2023), I feel that you should also have the other perspective to the great questions you submitted regarding this proposal.

First and foremost, GBlaw informs you at the end of their letter that *"Vestar has received positive feedback from the **Desert Ridge Community Association**. As the Site Plan has evolved, the applicant and Vestar have met with the Association in order to keep them informed and updated on the project. The continuous question that has been asked throughout this outreach is "When will you start construction?" The eagerness of this community to have shopping alternatives, grocery in particular, simply cannot be overstated. "*

This statement was completely misleading and unfounded. When we confronted the Desert Ridge Community Association about this statement during their monthly meeting, they claimed that they are "just concerned with applying the CC&R's of the community and cannot be supporting either side of this proposal". Who did GBlaw quote here and in what capacity? It cannot be further from the truth.

Why did the DRCA not run this by the communities it represents? Was this the basis for your committee to decided to move forward? Did the committee assumed that the support was already there based on that statement?

A lot of people do NOT agree with this proposal, it was started under wrong pretenses and now the community has to spend our time fighting this proposal. This should have been stopped at the start

based on the guidelines – which I will highlight later on – of the specific plan and the conflict the site has near 2 schools, affecting the safety of kids going to school. It is NOT in line with the Phoenix General plan to create more residents walking somewhere, NOR do any of the fast food restaurants add to residents getting together, other than queuing up behind each other at all the drive throughs. It will ruin our community and if this passes then developers will continue to expand and try the same thing on other locations. Please stop this now, stick to the plan.

Please bear in mind that there has been zero efforts from any organization to ask our communities what we would like or need. Before this proposal, every resident was under the impression that we have a very detailed specific plan for Desert Ridge which currently perfectly describes what the community will look like once it's finished. That is what people bought into and paid a premium to live in this area.

What you will notice in subsequent events is the fact that GBlaw has started campaigning for support **AFTER** the first public meeting. Our community was getting ads (appendix 2) that created an impression of an innocent small neighborhood grocery store for people to quickly click on, not being informed of the consequences or full plans. Why did GBlaw give you the impression during the letter of explanation that community support already existed?

Giving the push back that you have seen, how much value can be placed on any other answer provided in that letter, other then GBlaw hiding the real intentions of this developer. This developer wants to make it 20 acres and put on a 50,000-100,000 sqft grocery store, fast food restaurants, gas stations, more traffic in our area. It shows complete disregard for our great community and it also conflicts with a lot of the design principles of our specific plan on many levels. Equally deceptive was the highlighting of existing traffic issues at the Desert Ridge Marketplace. Their solution: move all the traffic issues closer to 2 schools full of kids walking to school? Unacceptable.

**What are the alternatives?**

There are no compromises to the current proposal. We (those who voted NO on our petition) do not want 20 acres of commercial on that land. As a planning committee and city council, you should stick to the existing great and specific plan for Desert Ridge. This plan shows these superblock being Low Density Residential.

Perhaps you consider new stipulations in the plan for the next residential builder to take on the unintended traffic issues that have been created over time and possibly create a new drop off route for the highschool using 32nd street and increase the schools parking lots.(Appendix 8).

Or using the Vision Zero plan, approved by the council to use "Safe Route to School" grants to make our drop off areas safer.

Another consideration, which is already mentioned In our community plan, would be building a Library and/or Park and Ride parking lots. That would be a huge benefit to this community, especially considering the fact that is right next to 2 schools. These things make sense.

Ultimately, if people want more choice in grocery stores, then there are pre-approved zones available very closeby. City North also has room for an additional grocery store and currently hosts (a real!) neighborhood Sprouts convenience store. There is is land available on 56th and the freeway also. Plenty of alternatives and good enough to host their proposal, without ruining our neighborhood.

**Further details in response to original the Letter of Explanation.**

I want to continue with my response to address the way these attorneys chose to answer your questions, downplaying the impact it would have and leaving out important details that you should consider and be aware of. They are experts to provide you only with details that they've learned helps getting approvals from you and put the wheels in motion.

They described it as "low impact" commercial development. How do they determine this? They claim there is no final plan. Once approved they can do what they want. AND they're proposing this to be next to an elementary and high school and in the middle of a quit community, which is unacceptable because of the dangers they're introducing to the school and kids. Half-truths are being told.

I would like to select a few of your questions and provide another perspective and have included appendices to clarify my comments.

**Questions Selected:**

*Q3; How many potential housing units would be created or lost by approving and implementing the proposed amendment?*

GBlaw response states : "The benefit of bringing much needed commercial to this area far outweighs the minimal loss of housing from the proposed amendments"

**My Response**: They fail to mention that there are pre-approved commercial zones are only 1 block north of the proposed site along Pinnacle Peak and leave out the fact that City North still has 50% land available, which is adjacent to Desert Ridge marketplace. Why would they need to amend our residential master plan for 20 acres to insert a commercial development when bigger lots are available?
(See Appendix 1)

*Q4: Is there a need for the proposed use(s) or density(ies) in the requested location?*

GBlaw response states: "unintended consequences of creating the large and hugely successful Desert Ridge Marketplace and surrounding retail uses is that the intensity of those uses has led to traffic congestions and parking issues."

**My Response**: There was never any research done or input requested from residents regarding the impact of the marketplace, nor were we asked what our needs are. This proposal is purely economical and not driven by an identified need. My response would have been that I can confirm traffic congestion caused by drive through restaurants and those will remain and new ones will be created by their proposal.

Their responses continue to emphasis the current traffic issues but their proposal will bring exponential more traffic to our neighborhood due to new (non resident) people now choosing to come off the 51 at Black Mountain blvd to get their groceries that previously went to the marketplace. Children are walking home from Elementary School and the High School are being put at unnecessary risk.

If I was asked for what this community needs, it would be more recreational parks, a promised library, preserve the land for High School expansion requirements to accommodate more students, parking and

a safer route to school and drop off areas around the school. That is what we need, not light, air, noise pollution and gas station or any other shop next to a high school and elementary school. People are also very concerned about the crimes that go along with such a commercial center.

*Q5: What impact would the proposal amendment have on adjacent or nearby land?*

GBLaw states: "The addition of quick service food and retail options at this location will provide a safe alternative to the students at nearby Pinnacle High School before school, after school and during the lunch hour. The Applicant met with Pinnacle High School Principal Chad Smith, who indicated that the proposal development would potentially reduce the number of off-campus trips by car"

**My Response**: The impact will be bad. More traffic, More pollution, More smells, More homeless people on corners, More cars idling, More noises and light pollution into the night.

PLUS Every parent knows that putting temptation in front of teenagers, they will jump on the occasion to skip school, find a way to buy alcohol and cigarettes and create a hangout for these teenagers that will lead to all sorts of trouble, fights and crimes. The school is a closed campus school, so only seniors that are already driving themselves might be interested, but it also highlights their commercial interests in this area and trying to capture this captive audience and provide bad fast food and other bad choices. Nothing safe about their proposal that will benefit High school students.

Secondly, I would highly recommend that you independently meet with the Principal of Pinnacle High School and Fireside Elementary School and they will paint you an entirely different picture and **strongly oppose this development.** Don't take my word for it. Please have someone verify this statement as this was another technique to give you the impression that they reached out with concerned parties and only shared what they wanted to hear. Not their full version and misrepresentation of their opinion. Parents have brought this up with the Principal during various meetings at the start of the school year.

*Q6: How will the proposed amendment affect traffic generation and the transportation system?*

GBlaw states; "Black mountain blvd and Deer Valley drive are both major arterials adjacent to the property. As such, Black mountain village is proposed at an appropriate location"

**My Response**: Notice how short this answer is compared to all the other answers. They are not even directly addressing the core of your question. Great avoiding technique of the hot potato.

See Appendix 1 – the traffic is terrible at the moment, during drop off and pickup times, during rush hour, as drivers trying to avoid the 101 and 51 take Deer Valley and they use all of our community road to take short cuts and therefor causing people speeding on mayo blvd and 40th street to get to where they need to go. With the attraction of gas stations, fast food and grocery stores, more (non resident) people will start taking this route.

*Q8: Community Benefits; How does the request address the community's unique opportunities and challenges related to prosperity, health and the environment? See pages 18-26 in the Phoenix General Plan*

GBlaw States: One of the visions discussed in the PlanPhx 2015 General Plan, is to make Phoenix a "Connected Oasis." Put another way, residents have expressed a desire for the City to have more places at which citizens can connect with one another. This new shopping center in the Desert Ridge area will provide such a place. Moreover, the addition of a retail shopping center that can more conveniently serve the western portion of Desert Ridge will reduce transportation burdens on residents to reach grocery and other retail opportunities; potentially increase the health of Desert Ridge residents by providing a destination to which they can walk or bike and reduce the emissions from residents driving to Desert Ridge Marketplace which can lead to a healthier environment. A reduction is transportation burdens, increased opportunities for exercise and a cleaner environment lead to an overall increase in health and prosperity.

**My Response**: This is pure nonsense as there has ***NOT*** been any survey done about what we want and need or desire. And if they claim this, it can only been hearsay from a few residents close to this project or overheard in an HOA board meeting. Not even our HOA's have done such a survey to gather input from their residents. **GBLaw only started to gather signatures around September, whilst the letter is dated July 1st.**

However, if you know anything about Aviano, Sky Crossing and my community Fireside, then you know **this community is already very connected to their neighbors**, we have long time residents that have seen their kids grow up and go through each of the 3 schools in the area as well as many community events that are organized by paid community directors every month where we all connect with each other. Firework displays paid for by HOA's. Our Halloween celebrations are known throughout Phoenix and we have to block off our streets to accommodate everyone safely.

The proposal is not promoting any of the things they advertise, nor will any of their proposed commercial properties promote any new healthy activities due to the nature of the Gas station, Fast food restaurants and none of the 100,000 sqft grocery stores. They are expecting increased traffic for their tenants to be successful.

Other examples to promote these great goals outlined in your General Plan, are libraries and park areas for our families that will allow coaches to run their practices and young families to have play areas.

*Q9: How will the proposed amendment affect the character and image of the adjacent area, neighborhood, and village?*

GBlaw states: "The proposed amendments will advance the land use principles in the Desert View Village Character Plan and the Desert Ridge Specific Plan. The Desert View Village Character Area Plan has several principles that are supported by the proposed amendments. The first is a land use principle that suggests that new development in or near residential areas should be compatible with existing uses and consistent with adopted plans. Next is a design principle that seeks to protect and enhance the character of each neighborhood and its various housing lifestyles through new development that is compatible in scale, design, and appearance. Finally, the last principle is design-related and requires

impact-mitigating features when new nonresidential uses abut existing residential uses or are adjacent to arterial streets or freeway corridors."

**My Response**: These design principles should simply state –

1) **DO NOT BUILD COMMERCIAL PROPERTIES NEAR HIGH AND ELEMENTARY SCHOOLS DUE TO KNOW RISK AND SAFETY ISSUES THESE TYPES OF PROJECTS BRING**, especially if there are pre-approved commercial zones already available in the same vicinity. The buffering that is mentioned is a small walk for anybody, so claiming the design being "away" from the public school is just putting lipstick on a pig.
2) **DO NOT BUILD COMMERCIAL PROPERTIES IN THE MIDDLE OF 3 RESPECTABLE COMMUNITIES DUE TO THE TRAFFIC AND CRIMES THESE TYPES OF PROJECTS BRING.** The grocery will be giving access to alcohol and tabacco near the schools. The gas stations will bring homeless people
3) **THERE NO IMPACT MITIGATING FEATURES INCLUDED FOR NON RESIDENTIAL USES.** In fact, the viability of this commercial proposal is counting on non residents to start visiting this area.

It will also affect the image of Pinnacle High School, which is putting a lot of effort into increasing their image and provide superior education and is seeing increased enrollment numbers. This include the fact that schools are graded on their students attendance and Tardiness. Having this development next door will most certainly impact their school standings today.

*Q10. Additional comments as appropriate*

GBlaw states: Vestar has received positive feedback from the Desert Ridge Community Association. As the Site Plan has evolved, the applicant and Vestar have met with the Association in order to keep them informed and updated on the project. The continuous question that has been asked throughout this outreach is "When will you start construction?" The eagerness of this community to have shopping alternatives, grocery in particular, simply cannot be overstated.

**My Response:** These additional comments are possibly based on the opinion of 1 person within the Desert ridge HOA board. There will be no evidence to support these statements. In fact, every HOA meeting GBlaw has attended after the initial public hearing, has been met with more opposition. There is ZERO EAGERNESS by this community, demonstrated by all the emails you have been receiving on this proposal and further strengthened by the votes on our petition and people that have or will be speaking at the public meetings. (Appendix 5)

But first and foremost, the opposition to this proposal underlines that this proposal might be a classic bait-and-switch and they assumed this would slide under radar of this community. They were wrong.

**PETITIONS / Social Media / Advertising:**

In response to various ads and website activity by Vestar and GBlaw, our community has setup our own website ( https://defenddesertridge.godaddysites.com/ ) and our Petition on Change.org and Hand written signature petitions to make sure that we are not undercut by this corporations tactics to show support. Residents cannot match their corporate budget and social media skills, but we hope that you see that efforts were made on our side and that it should be weighed more.

ALL of their activity to back up their statements, are DATED AFTER their "Explanation Letter", thus the statements and references made to our community's eagerness for this, has been vastly overstated.

We have since also seen various ads show up on our Facebook and other social media platforms ( Appendix 2) that paint a "dream" appealing to a random public that this is a neighborhood grocer, when the fact is that it could be 50,000-100,000 sqft grocer. This is never mentioned anywhere. A gas station is never mentioned anywhere. The audience they target could be outside of Desert Ridge.

Other ads lead to a petition on Change.org, which in turn has a link back to the GBlaw website in order to submit support emails. (Appendix 3 & 4)

- There is NO Validation where these emails are coming from.
- There is NO Validation whether any of the submissions are coming from automated software
- There is NO Validation – if they were real people – where they live and even part of desert ridge
- They're sharing very little information about the full scope of the project.

**IN CONCLUSION**

I'm completely blown away by the amount of effort that these attorneys and developers put behind their proposals in order to ruin neighborhoods, endanger school areas, and negatively impact sought after communities for their profits.

There is no eagerness in this community and online petitions and handwritten signatures underline that this proposal was based on misinformation and not substantiated by any research of community needs.

I sincerely hope that the City Planner, City Planning Committee and City Council will see this development for what it is and oppose the zoning change, **without compromise**. There is nothing that will be accepted by this community, other than the current zoning.

Please decline the entire proposal in all its forms and keep the residential zoning as it is, or pro-actively work with our community directly to find a more valuable use for this land around Pinnacle high school and near our 3 communities and stop any incoming future proposals immediately.

Sincerely,

Wouter Roodenburg

## Why this petition matters

Started by New Grocer

A neighborhood grocery-anchored shopping center near Deer Valley Road and Black Mountain Blvd. would provide us with convenient access to fresh and affordable food options. Having a neighborhood shopping center will provide alternative local dining options and reduce the need to travel longer distances to fulfill our grocery needs.

This is the last chance our community has for the development of a convenient neighborhood grocery-anchored shopping center. We believe that such a development will bring numerous benefits to our neighborhood and enhance the quality of life for all residents.

A well-planned and community-oriented development of this kind will also add significant value to our neighborhood without compromising its unique character.

Please **follow this link** to let city leaders know you support more grocery options.

## Why this petition matters

Started by Defend Desert Ridge

Oppose the rezoning request at Black Mountain Blvd / Deer Valley. It is currently zoned residential as part of our Master Plan but a developer is looking to make it Commercial, so that they can put in a new grocer and other big box retailers, fast food restaurants and gas station and other types of shops right near Fireside Elementary and Pinnacle High school and in the middle of your community. This provides liquor and cigarettes near children. Rezoning proposal case GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2. Anthony.Grande@phoenix.gov is the city planner assigned to the case in case you have further questions.

APPENDIX 6 Desert Ridge Specific Plan – Current Plan around 3 acre neighborhood centers

NOTE: I thought it would be helpful to include these chapters around the original intent of neighborhood convenience commercial.

1) Convenience commercial NOT more then 3 acres max
2) Neighborhood convenience store can be 5000 sqft max (see site design) NOT 100,000
3) Away from Arterial streets
4) No Drive Through
5) Only Beer/Wine allowed

*Neighborhood Unit Concept as the Basis for Community Design*

One of the principal problems of our sprawling western cities is the lack of connection residents feel to each other, and any sense of identification with the population at large. Desert Ridge is structured to build in a strong sense of identification and orientation.

Each neighborhood superblock generally consists of one square mile of residential uses. At the heart of most superblocks is a neighborhood park, an elementary school and no more than 10,000 square feet, excluding child care facilities, of neighborhood convenience commercial uses on a minimum of one acre and maximum of three acres. The convenience commercial uses are intended to be very limited in size, yet provide a range of necessary goods and services. They will be located internal to superblocks, at least 600 feet from arterial streets, so as to be accessible only from the internal collector road system and from a pedestrian path system. This location will present an opportunity to reduce the number of potential automobile trips taken for convenience shopping purposes. Potential neighborhood convenience centers are illustrated on Figures 7 and Figure 8. *1

The relationship between the convenience commercial, elementary school and neighborhood park uses will require special attention to inherent conflicts between and among these uses (e.g. school children and park users with vehicular traffic). As a rule, the convenience center will be located a minimum of 300 feet from any school uses. There should be no commercial development located adjacent to elementary schools. Possible relationships between these uses are illustrated on Figures 9 and Figure 10. *1

A total of 18 neighborhood convenience commercial acres, or a maximum of 90,000 square feet of gross leasable area, excluding child care facilities, for all of Desert Ridge outside of the Village Center will be allowed subject to the criteria and standards in Chapter 6. This criteria will minimize the adverse environmental impact on the residential neighborhoods typically associated with commercial development. *1

Depending on each residential development, a neighborhood could include a small community center, a swimming pool, tennis courts and other recreational facilities. These recreational facilities may be located in all superblocks. These facilities may be developed in conjunction with local subdivision associations. Child care facilities, however, will be located in all but three of the smallest superblocks. Each neighborhood is designed to be developed independently, encouraging individual character and identity; a range of housing densities is included in each neighborhood, allowing for a healthy economic mix. Provisions should be made for housing for the elderly and retired persons, as well as persons living in assisted care facilities. *1

The neighborhoods are bounded and served by major arterial boulevards, with collector streets accessed from the boulevards occurring at no less than one quarter mile intervals. The local streets will loop through residential areas creating a neighborhood character. No shortcuts between arterials through the neighborhoods will be found, discouraging any traffic other than local.

The majority of residences will be within a five to ten minute walk of the local park, elementary school and neighborhood convenience commercial uses in most superblocks. A system of pedestrian/bicycle paths along the wash corridors will meander through most neighborhoods, providing direct linkage to the neighborhood center, encouraging walking and reducing dependence on the automobile for local trips. Children will, in most cases, be able to walk to their elementary school on paths within wash corridors without ever having to cross an arterial street. Each neighborhood will feel pedestrian oriented, encouraging a sense of community among residents. *1

## C.3 Convenience Commercial Uses

### C.3.A General

Most residential superblocks have neighborhood convenience commercial centers. These centers are planned to be located in proximity to the elementary school, and neighborhood park within each superblock as presented in Chapter 5. These centers are located internal to superblocks at least 600 feet from an arterial street, so as to be accessible only from the internal collector residential loop road system and from the pedestrian trail system within the wash corridors. This presents an opportunity to create a self-sustaining community within a superblock thereby reducing the number of potential automobile trips taken for convenience shopping purposes.

The neighborhood convenience commercial centers are very limited in size. They are intended to serve only the superblock in which they are located and are not intended to serve a population outside the superblock boundary. The maximum total acreage for neighborhood retail uses, including buildings, parking, landscaping, and any other items related to the existence of the neighborhood retail use, shall be three (3) net acres, while the minimum acreage will be one (1) net acre.

### C.3.B.2 Modified City of Phoenix Regulations Imposed by this Specific Plan.

a. Minimum Lots Size/Maximum Lot Size

The minimum lot size shall be one (1) acre exclusive of street rights-of-way. The maximum lot size shall be three (3) acres exclusive of street rights-of-way.

b. Maximum Building Area

Maximum of 10,000 square feet of gross leasable floor area per superblock, exclusive of floor area required for one child care facility per superblock (in other words, the child care facility may be in addition to the 10,000 square feet of gross leasable area); no more than 7,500 square feet of gross leasable floor area per superblock devoted to convenience market retail uses. The convenience parcel must be landscaped similar to the surrounding area until development of the parcel occurs. *2

c. Permitted Uses:

Only the following uses are permitted in this district:

- Child Care Center
- Dry Cleaner/Laundry outlet, not plants +2
- Convenience Market (selling and display space for beer and wine shall be limited to a maximum of 15% of total selling space) +2
- Delicatessen or other sales of prepared food limited to maximum of 1,000 square feet exclusive of outdoor dining areas *2
- Bakery, retail sales +2
- Beer and wine sales only, no hard liquor sales
- Beauty/Barber Salon
- Video tape rentals as part of convenience market.
- Florist
- Pharmacy
- Shoe Repair
- Booksellers and Rentals, except adult bookstores +2
- Candy Shops/Confectioneries, retail sales +2
- Gift Shops/Novelties/Stationers, retail sales +2
- Hobby Goods Stores +2

- Ice Cream Shops **+2**
- Picture Framing, custom **+2**
- Residential Office **+9**
- Travel Bureau **+2**
- The Boys and Girls Club **+10**

d. Prohibited Uses:

Other than the uses listed above as permitted uses, all uses are expressly prohibited including the following:

- Mechanical or electronic video games or arcade - type devices for amusement purposes.
- Drive-through uses
- Sales of package liquor other than beer or wine.

e. Maximum Building Height: 1 story not to exceed 20 feet

f. Minimum Building, Parking Lot, and Setbacks: 25 feet away from any property line and/or right-of-way line. **-2**

g. Parking requirements: One stall per 300 square feet gross building floor area, or per City Ordinance. **+2**

h. Signage

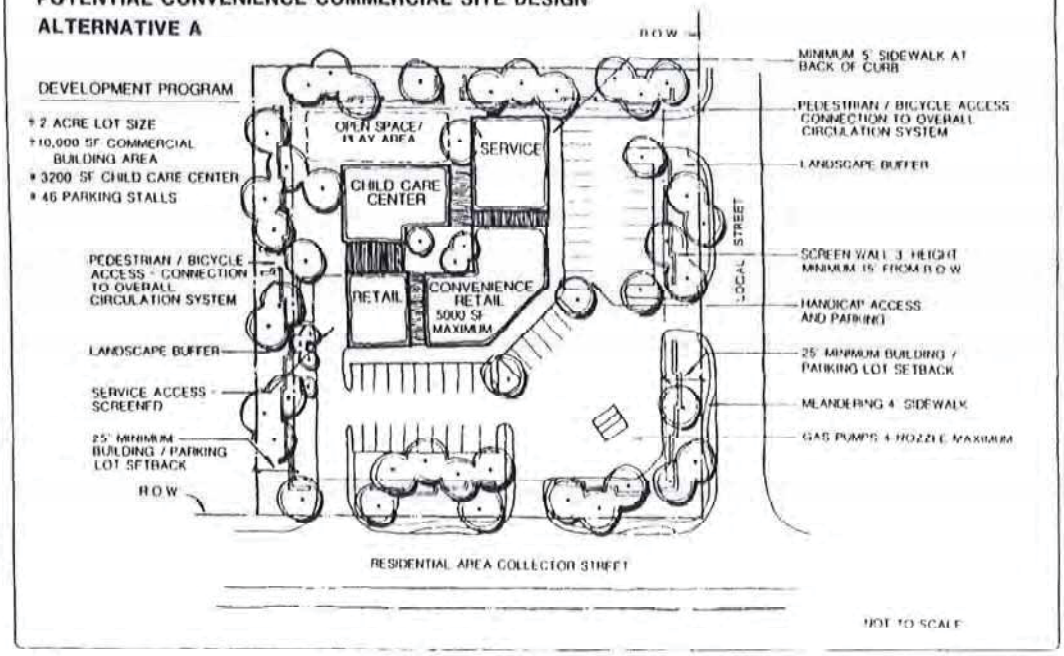
1. Temporary signage

   Signage will be developed during a subsequent planning stage. See Appendices

2. Permanent Signage

   Signage will be developed during a subsequent planning stage. See Appendices.

## POTENTIAL CONVENIENCE COMMERCIAL SITE DESIGN
## ALTERNATIVE A



DESERT RIDGE NORTHEAST HOUSTON PARTNERS

BRW

Appendix 7 – Desert Ridge Specific Plan – Public Facility Plan

This chapter describes the provisions for public facilities like Ride-and-Go and Libraries

These are currently in the planning and would increase our sense of community.
What if a Planning Commission would decide to put library next to 2 schools for kids to go to.
What a great concept and it fits right into the goal of bringing a neighborhood together.

Also – please note that in this version of the plan, a Park and Ride parking lot is showing on the proposed site. Why wouldn't we want to do that and execute the plan.

## F. PUBLIC FACILITIES PLAN

At buildout, Desert Ridge is a planned community for over 59,000 residents and 20,000 employees. Public facilities are an essential element for the planning and development of a large master planned community such as Desert Ridge. The following public facilities have been located within Desert Ridge using the approved planning criteria of each responsible government agency, department and school district.

- Parks
- Library
- Fire Station
- Community Center
- Public Schools

The locations of these facilities are illustrated on Figure 17, *Public Facilities Plan*.

Hey Anthony,

I just realized this morning that I didn't read through my message that I sent you at the end of the day, yesterday. I updated my previous email, with edits in red. You already have a breakdown of 23 general supports stating NO GAS. What I'd like people to pay attention to is there are many people asking for a small grocer. That means they OPPOSE large grocers, which is exactly what Vestar is pushing to add. I would suggest a tally of all general supporters that used the words Small Grocery, or Sprouts, or Trader Joes. These are not supporters of a Fry's or Safeway with an attached gas station.

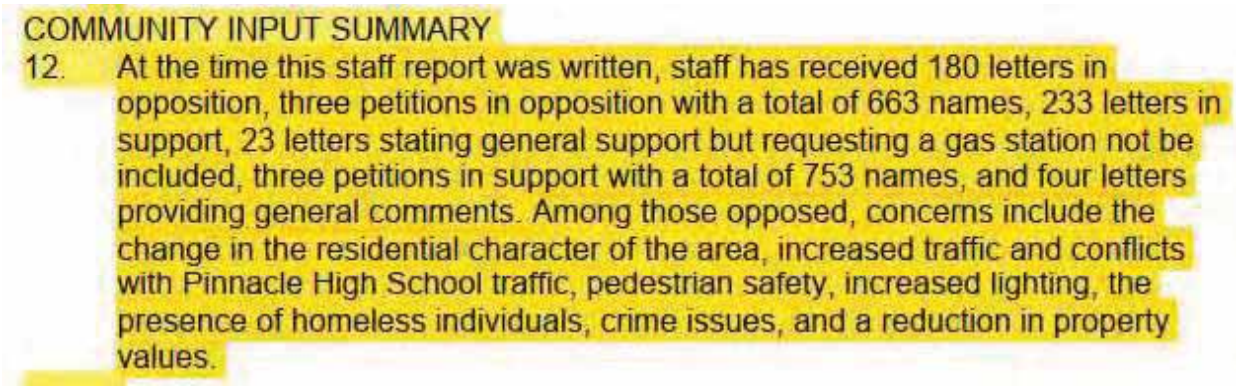
**To:** Anthony M Grande <anthony.grande@phoenix.gov>
**Cc:** Council District 2 PCC <council.district.2@phoenix.gov>
**Subject:** Case file for Black Mountain Village

Hey Anthony,

I was forwarded the Z-39-23 Staff Report and wanted to address a couple of things:

- Quite a few people used the gblaw website to express their OPPOSITION, while the subject line is still stating NEW SUPPORT.
- Every village committee member needs to pay close attention to all of the SUPPORT NOTES. An overwhelming number of them expressed they support a SMALL grocery store and NO GAS STATION. In your COMMUNITY INPUT SUMMARY, you should add a line item mentioning that there are a number of letters stating general support but OPPOSE large grocers and gas stations. Every one of these expressing both could just as easily been added to the opposition totals.
- The generic support letters printed and brought through Aviano are signature harvested. This is really sad to see. It's just a numbers game to them. People who oppose this development sent you well thought out letters, with some begging you to consider the ramifications this will have on our families and homes.



COMMUNITY INPUT SUMMARY

12. At the time this staff report was written, staff has received 180 letters in opposition, three petitions in opposition with a total of 663 names, 233 letters in support, 23 letters stating general support but requesting a gas station not be included, three petitions in support with a total of 753 names, and four letters providing general comments. Among those opposed, concerns include the change in the residential character of the area, increased traffic and conflicts with Pinnacle High School traffic, pedestrian safety, increased lighting, the presence of homeless individuals, crime issues, and a reduction in property values.

Please share this with the rest of the Desert View Planning Committee prior to next Tuesday.

Thanks,
Dan

| Maybe a Trader Joe’s. Most of the supermarkets are all owned by the same companies and they offer bad service and no competition since they are all the same parent company. It is deceptive to use the square footage of the market as your rubric. Additionally the fact that Vestar has a large portfolio of business takeovers is not comforting. I vote a strong “No.” I vote small business |

I was on board with this plan until I learned about the fuel station accessory. That makes it perfectly clear that it's going to be either Safeway or Fry's which isn't needed in this area; we already have both within driving distance.

When I took the phone survey, it was indicated that the store would be a small, niche-type store leading me (and my husband who also took the survey) to believe it would be a Trader Joe's, Sprouts, or similar. I think it's pretty sheisty of you to lead people to believe the plan includes one of those specialty type stores when all along you planned to build a Safeway or Fry's. If that's the case, I change my answer to no, thank you.

I do NOT think it is a good idea to put shopping in this area. It is already too congested. Also kids will be parking in your lots. We don't need more people in this area shopping it is already too congested. A store north of their near Tatum rd and pinnacle peak road would be a better idea and would not disrupt the flow of traffic.

| **Date:** | Monday, October 2, 2023 11:11:12 AM |
| **Attachments:** | Vision_Zero_Road_Safety_Action_Plan.pdf |

Anthony,
In reference of case GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2, I would like to submit some of my research regarding Pedestrian Safety.
It seems this topic has not received any attention in the staff report for the committees to consider. This is pertinent because the commercial proposal will target to increase traffic in this area significantly with the addition of a big box grocery store.
A grocery store that is bigger than the one currently in the village core where all of the commercial development was originally planned.

Why would the report not inform the recipients and committee members that a significant increase in traffic and higher risks are being introduce to an area where we have an elementary school and a high school.
The staff report seems to focus on some of the links to existing city general plans, but it does not point out that there is an increased risk for pedestrian and bicycle fatalities.
It is not evident from the findings and stipulations that the developer or the city planner is concerned about this and implement effective solutions to ensure it will not cause casualties amongst school going kids.

Attached is a copy of the city's Road Safety Action Plan (Vision Zero). Our community has participated in this survey and help support this initiative.
Focus area 3 (pages 46) is dealing specifically with Safe Routes to Schools and actions are proposed to address the rise in fatalities.

Stipulations listed are referring to pathways within the development, but none of them are addressing the need for improved pedestrian and bicycle safety measures on the arterial roads of black mountain boulevard, Deer Valley and Mayo blvd as the existing measures are just not enough for this developer to guarantee their safety. (NOTE: The new HAWK crossing on Mayo is a measure, but does nothing to increase the safety of school going students that walk out of the community to school).

As the sole focus of this commercial proposal is to increase traffic to these establishments for locals but especially non-residents, would it be possible to provide a statement that could help clarify why the increased risk to pedestrian / bicycle safety is not clearly mentioned in the findings of the staff report, but only references in the report are to the phoenix general plan, the monarch butterfly, the archaeological plan and other plans.
Perhaps it's possible to update the report to outline this big issue and perhaps specifically mention what this proposal is going to address (or not). Currently there are no references to Vision Zero and their objectives around school zone safety and I'm wondering if there is any input from the Office of Pedestrian Safety.

Other research that I would like to be considered are the following reports

- references to Safe Routes to School programs and funding opportunities from the Pedestrian Safety Fund.
- Other references are in the Pedestrian Safety Action Plan (2017 Update)
- Pedestrian safety reports : (CLICK HERE [azdot.gov]) There were 302 pedestrian fatalities during 2022, a 16.2% increase from 260 in 2021. Forty-eight bicyclists died in crashes during 2022 compared to 45 in 2021. Bicycle-related fatalities have risen each year since 2018.
- Any input from the office of pedestrian safety. Vision zero references that Phoenix was at the forefront of cities to establish the Office of Pedestrian Safety as a resource hub that educates residents on a variety of traffic safety issues through community engagement, and promotes increased driver, pedestrian, and bicyclist awareness, especially around school zones and residential neighborhoods.
- Pedestrian Safety | Arizona Governor's Office of Highway Safety (az.gov) [gohs.az.gov] / key statistics on Children and traffic related casualties : 2017 Data: Children (dot.gov) [crashstats.nhtsa.dot.gov]
- Arizona Department of (azdot.gov) [azdot.gov] ; ADOT traffic safety for school area guidelines. Pages 14-16

Kind regards,
Wouter Roodenburg

Mr. Grande:

We plan on attending the meeting but probably not speak at it so we are putting our comments here regarding the rezoning of Black Mt Blvd and Deer Valley:

We live a mile from this intersection and go through it several times on a daily basis. We are AGAINST the rezoning of this corner! We are especially against a gas station. We bought here knowing this to be a residential area and it is busy enough with a large high school there. There are many discussions about this on Nextdoor and 95% of the people in this area are also AGAINST it.

Thank you.

Edward & Kristin Simko

As you can see, most of our community is against this rezoning. It makes no sense for the area. 40th and Deer Valley makes sense. DV & BM does not!

RE: Case No. SPA-DS1 V-2-23-2, Case No. CPA-DSTV-3-23-2 and Case No. 1-39-23.

To Whom It May Concern,

I am writing to express my deep concern regarding the proposed new commercial development in close proximity to our homes in the Fireside neighborhood of Desert Ridge.

While I understand the importance of progress and economic growth, I believe it's crucial to consider the potential impacts of such a development on our community. As a resident in close proximity to this proposed project, I have experienced firsthand the unique charm and tranquility that our neighborhood offers. I have also witnessed the increase in traffic congestion and noise resulting from the addition of the on/off ramp of the 51. I am worried that this new commercial project will lead to further increases in noise levels, traffic congestion, and significant alterations to the overall character of our surroundings.

The transformation of Black Mountain and Mayo Boulevard from quiet neighborhood streets to major thoroughfares has been concerning. They have become racing zones at times, driven by individuals who seem to disregard our neighborhood's well-being, the safety of our children, and even our overall quality of life due to the escalating traffic noise. Given the proximity of Pinnacle High School and Fireside Elementary School, it is only a matter of time before unfortunate accidents occur due to the surge in traffic and the lack of infrastructure to manage this increase safely.

Moreover, I am concerned about the potential increase in crime that often accompanies large commercial developments. Studies have shown that areas with concentrated commercial spaces can attract a higher incidence of criminal activity, posing a threat to the safety and security of our community. As a neighborhood that has prided itself on its safety and tight-knit nature, introducing a large commercial establishment nearby could undermine the peace we currently enjoy.

I kindly ask that you prioritize the well-being and opinions of the individuals who call this area home. Our collective voice should play a pivotal role in shaping any developments that could impact our neighborhood's identity and quality of life.

Thank you for your time and consideration to this matter.

Ryan Waddington

RE: Case Number GPA-DSTV-2-23-2, GPA-DSTV-3-23-2 and Z-39-23
Please read my letter to help preserve our residential land. Can you assist in any way? You time is very much appreciated.

Good Evening Mr Chairman and Members of the Desert View Village Planning Meeting. My name is Candy Huether and I live at 21712 N 36th st in Firesides Copper view neighborhood. My backyard backs up to the wash on Black mountain blvd. We signed documents that the land across the street was zoned residential, we also paid a lot premium and was told that our view fence was the perimeter fence for desert ridge and we could not touch it or put in a block wall. We also signed these such documents that said no more than 3 acres for commercial conveniences with the ONE exception of Kinder care and the office next to it. Early on in living here we had such a problem with all the high schoolers parking up and down the street that we had to initiate no parking signs not because we could not park in front of our house but because of the safety for my family. You see every day the local drug dealer would pull in an set up shop right in front of my house or across the street on the corner. I witnessed many fights till one day the knives came out and someone got hurt. We have also had an instance of homeless in the wash. Can you imagine putting in this huge grocery store, fast food, gas right next to the high school and in my backyard? Well you can bet the drug dealer will come back and let me tell you that Arizona ranks 13th for human trafficking in the nation, children account for half of all sex trafficking as young as 9 yrs of age. You can bet those traffickers will be there watching every move those high schoolers make,easy prey, from the time they walk out those doors till they cross the street and follow them home. Did you know that the traffickers biggest intimidation threat and why the victims stay is telling the victims that they

are going to harm their family, well now we just made it even easier for them to know exactly where they live with little effort. And we really need this when we have 9 grocery stores within a 4 mile radius, not to mention 2 within 2 miles for modern conveniences and 12 gas stations within a 3 mile radius and 2 within 2 miles, oh yah but we wont need gas because we can ride our bike or walk in 100+ degree weather to pick up our milk and ice cream! I wonder how many people actually do that now at desert ridge, I bet there is a LOT. And yet what about the land just 2 miles up the road already zoned for commercial? Let's put the kids at risk, devalue homeowners property, increase crime, vandalism, light and smoke pollution and just ignore that property already zoned, all for the all mighty dollar!! Opps I let the cat out of the bag. Please let's just call it what it is. Wait but I forgot the best part there are no traffic issues according to Mr. Andersen (Sky crossing meeting notes) since school opens and closes at different times,I guess the stores will be closed during those times and the fast food, and during rush hour when Black mtn blvd is grid lock, morning and evening, see I don't know this because Im blind looking through my view fence and not being able to get to work, I guess he hasn't been by yet so lets give him the benefit of the doubt, but reality is its grid lock during rush hour. Not to mention on my street in front of MY house we call it 36th speedway because all the parents rush through to dump their kids off because its grid lock out there. So now lets add more to it because those drivers trying to get home are going to want to avoid that 99,000 square foot store, plus fast food and gas just like they avoid desert ridge and loop through our neighboorhood, the traffic through this neighborhood will never stop. Lets just talk a little of what we have seen at desert ridge at In and out in the last year. According to my High schooler everyone knows In and Out is the hang out for the high schoolers,and that's where all the fights happen. So now let's put fast food right next to the school so we can see the crime like on 5.30.23 Kevin Durkin was there late night with his high school

friends having burgers. They saw another group touch his car so they asked them why mess with the car only to be pumeled in the face with brass knuckles, knocked his teeth out leaving $15,000 worth of damage and emotional scars for life. July 6th Lockdown because of a possible shooting when teenagers got into a verbal fight and one pulled out a device that made a loud sound and smoke. And 4 years ago my daughter and friends where accosted by another girl saying she gave them a dirty look. All these instances are backed up by police reports. Lets look at the current homeless ness, that I just know about, 32nd and unions hills starbucks currently everyday is kicking Homeless people out because they do drugs in the bathroom, vandalize it and sleep in there lobby. And at my work I have been chased many times in the early morning by the homeless guys on crack that live in the wash and under the freeway, they break down the fences cause lots of damage, the city knows about all the issues with them at Costco and under the freeway at cave creek and beardsley rd.
All this to build on an already zoned residential area, with zoned commercial right up the street. Please save our children from what's to come. You know they all are going there after school since it's so close. Do we really need more stores right next to a high school? Thank you for your time

| **To:** | Anthony M Grande |
| **Subject:** | Opposition to proposed development near Pinnade High School |
| **Date:** | Tuesday, October 3, 2023 10:03:40 AM |

Anthony,

My name is Zachary Stahmer and I am strongly opposed to the proposed commercial development near Pinnacle High School (Case GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2 ). I currently have a child who attends Pinnacle and I believe any development there is detrimental to their and other student's safety as well as to the entire surrounding area.

First and foremost, the proposed development greatly increases the risk factor for both the high school students as well as the nearby elementary schools. The increase in traffic would put a strain on the already overburdened primary and secondary roads in that area. Many students walk to Pinnacle both before and after school and the additional traffic would put them at risk. Each day, there is a line of cars on Deer Valley Rd, Black Mountain Blvd, and Mayo Blvd that stretches for many blocks and people parking in areas they shouldn't as well as doing dangerous U-turns. Already this school year, there have been at least two near misses with drivers not paying attention and almost hitting students. Adding more drivers to the areas will only increase the chances of a fatal accident.

Right now, there is a huge amount of traffic before and after school, making even casual conveyance through the area very difficult. Now if you add in delivery semis, inattentive shoppers, and additional school traffic, it will only make the congestion worse.

The amount of traffic in the area will only increase as the new housing development on Cave Creek Rd. will add thousands of residents to the area, many of whom will send their high school kids to Pinnacle, thus making the traffic situation even worse and increasing the risk to our kids.

Secondly, the area is currently a mix of residential and leisure use with Reach 11 and a dog park nearby. Adding stores would only decrease the family-centered nature of the area while adding more concrete and decreasing any open space. The heat island effect will only get worse as you add more concrete and buildings to the area. Desert Ridge Mall is only 2 miles away and has room for additional retail stores. There are additional approved commercial lots on Pinnacle Peak Rd and Cave Creek Rd. Adding another grocery store and gas station to this particular corner will not improve people's lives but detract from their ability to enjoy the land and open space in that area.

Adding commercial space just north of Pinnacle High School puts our kids at greater risk for a benefit that doesn't exist. That is why I strongly oppose the potential development of that land. For once, let's leave some open space so we can enjoy nature. For once, let's not pave over the desert to build another strip mall. For once, let's say no to a developer so we can leave things better for our kids. For once, let's put our kid's safety ahead of unneeded retail development.

Thank you for your attention to this matter,

Zachary Stahmer

| **To:** | Anthony M Grande |
| **Subject:** | We Do Not Want Back Mountain Village |
| **Date:** | Tuesday, October 3, 2023 2:51:57 PM |

Dear Mr. Grande -

I am writing in reference to case numbers GPA-DSTV-2-23-2, GPA-DSTV-3-23-2, and Z-39-23-2 (I hope those are right!)

I am a resident of the Fireside community, and have lived here since 2010 when my boys were just 1 and 2 years old. I now have one son at Pinnacle High School and 2 more that will start there next year. And I am opposed to the development that Vestar is proposing for the land at Black Mountain and Deer Valley.

We purchased our home here because it offers a quiet solitude in the middle of the daily chaotic lives we all lead. We purchased our home knowing how many grocery stores were in the area, we purchased our home knowing that we could comfortably walk and bike around the area because it is all residential, we purchased our home knowing that our kids could safely walk to their schools, and we purchased our home because this whole area was supposed to be residential.

We do not want the additional noise pollution, light pollution, and traffic from cars and delivery trucks that will come with a commercial development in that area. And why is it even under consideration next to a public high school? The safety and traffic issues for our children alone should take this location out of consideration.

I understand that Vestar's current plans call for a grocery store and a gas station as well as other storefronts. I just read an article in the Phoenix Business Journal regarding the rezoning, and in the article, Ryan Ash, vice president of development for Vestar, says that "the site plan is also subject to change over time". I read that to mean that once the rezoning is approved, they can change what the commitments are, which is exactly why residents are opposed to this project.

I also believe that Vestar has been gathering support for this proposal by conveniently omitting the discussion of a gas station. "Do you want another grocery store in the area?" - sure, that sounds harmless enough. Until you add in that there will also be a gas station and a drive-thru coffee shop, and access to the school becomes more and more difficult.

I ask that the city vote 'no' on rezoning this land.

Thank you for your time -

Anju Baluja

CITY OF PHOENIX

**DESERT VIEW VILLAGE PLANNING COMMITTEE**

OCT 0 3 2023

Planning & Development Department

My name is Paul Dunn, and I am a resident of Desert Ridge. I live a few blocks from what Vestar has promoted as a "**low-impact commercial development**" that would feature a "**neighborhood grocery store.**"

**VESTAR'S SITE PLAN**

Vestar's latest Site Plan, filed on September 22nd, features a **96,582 square foot grocery store pad**. This is almost **40,000 square feet larger** than the pad square footage of the Albertsons store at Desert Ridge Marketplace. **Obviously**, Vestar never intended their project to be a "smaller retail center" with a Sprouts or Trader Joe's as the "neighborhood grocery store."

Vestar's initial communique acknowledged that their "neighborhood grocery store" would also have a "**Fuel Station.**" Whether called a Fuel Station or a **Gas** Station, this ancillary service would be a significant source of air, light, and soil pollution. It would also seriously depress the values of nearby homes.

**TRAFFIC IMPACT**

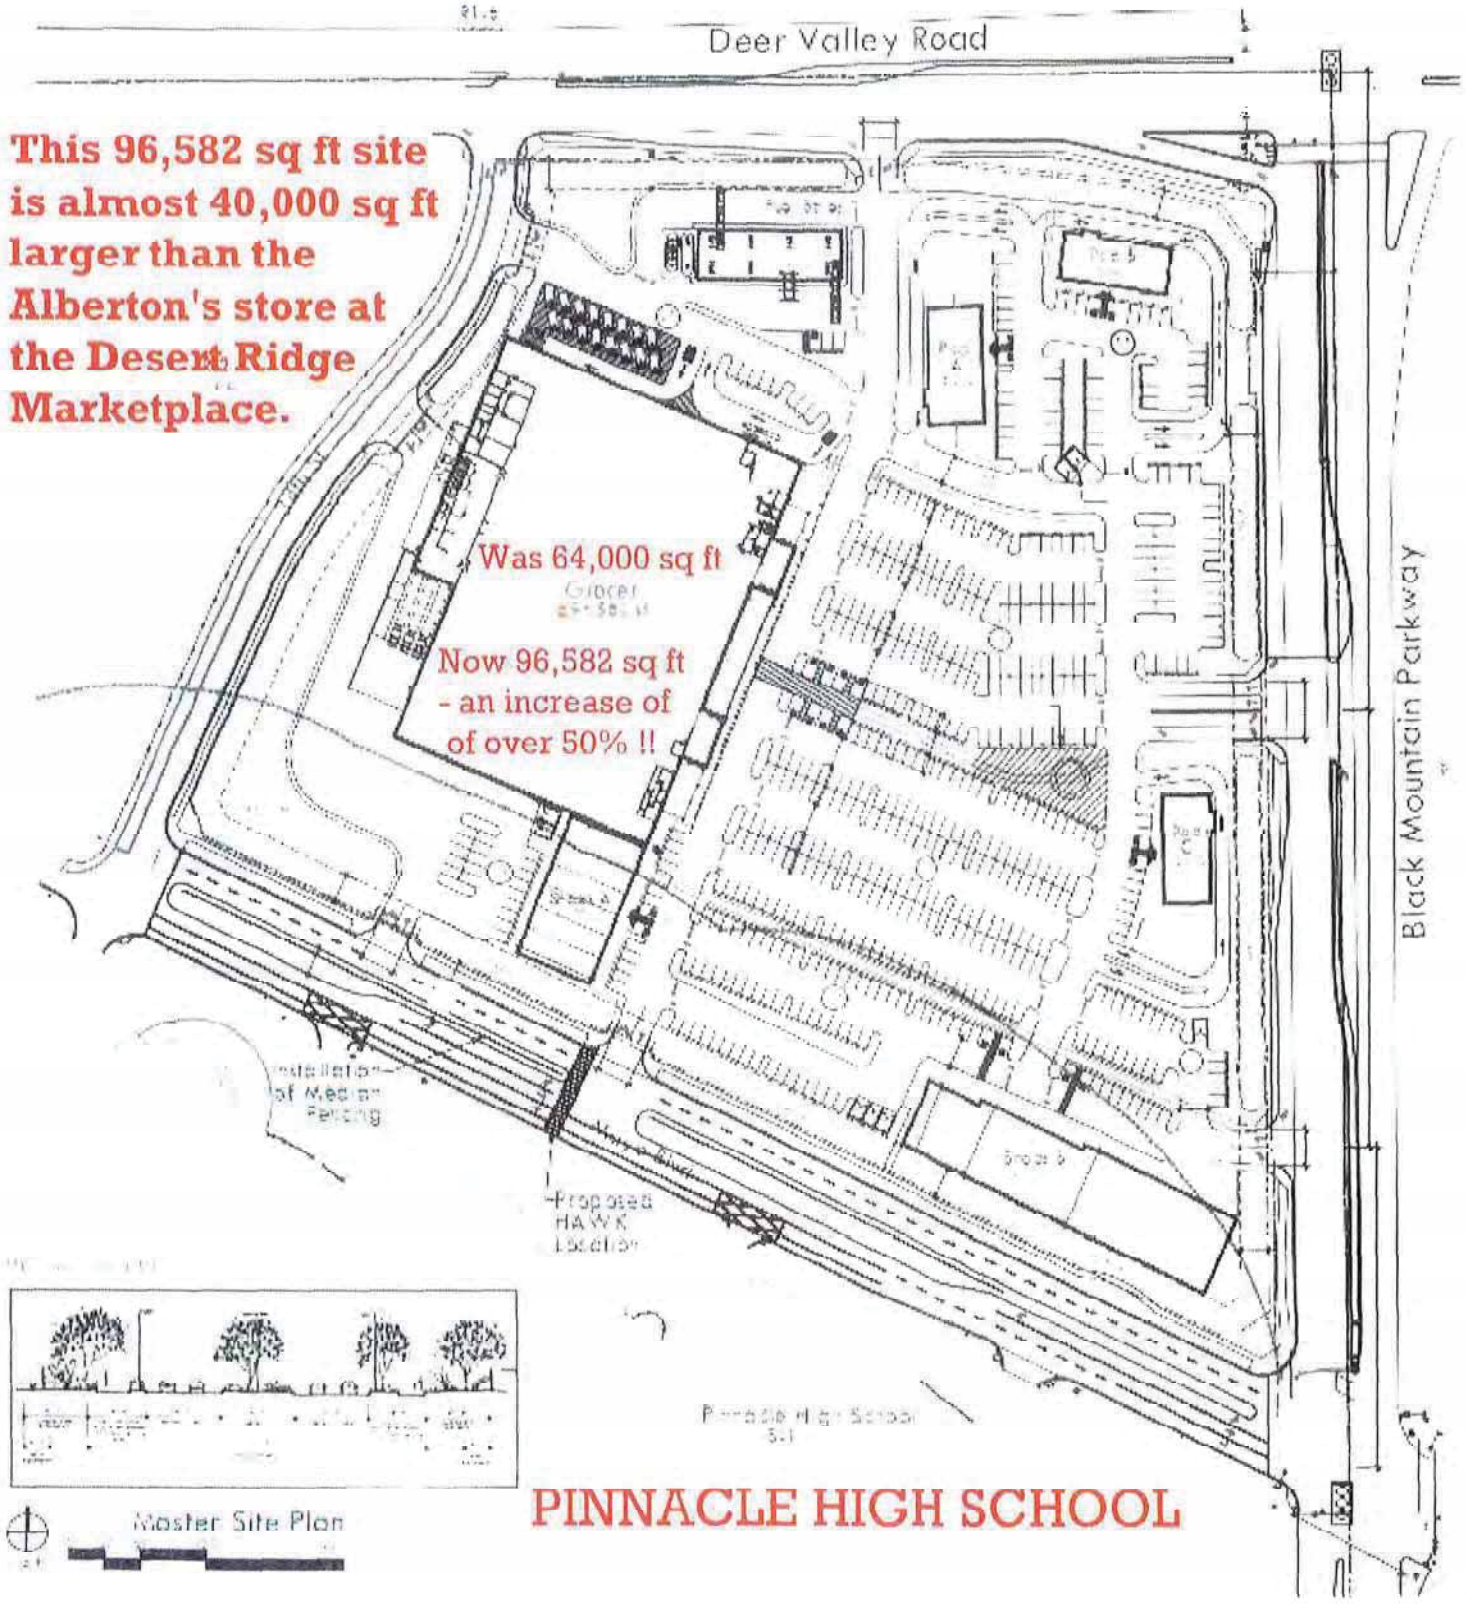
The Traffic Impact Analysis commissioned by Vestar acknowledges the current traffic problems at the proposed development site. In addition to documenting that the site would include a "Grocery **Supermarket**," the Analysis also documents the project would have almost 20,000 square feet of fast-food restaurants with drive-through windows and eight (8) access points. Vestar's proposed development would indisputably exacerbate the undeniable chaotic traffic problems occurring during school hours.

**SUMMARY**

It is patently obvious that Vestar's proposed development is NOT a "LOW" IMPACT Commercial Development. It is a MAJOR IMPACT Commercial Development designed to line Vestar's corporate pocketbook.

As Abraham Lincoln once stated, "You can fool some of the people all of the time, and all of the people some of the time. But you cannot fool all of the people all of the time." I choose to believe this Committee will not be fooled into rubber-stamping an ill-advised Staff Report approving Vestar's re-zoning request.

**VESTAR MASTER SITE PLAN REVISION (9/22/2023)**
**Increasing "Grocer" pad size from 64,000 to 96,582 sq ft**



C:\Users\Paul\OneDrive\Documents\Vestar updated 96,582 sq ft plan.docx

# SHOPS AND PADS - DESERT RIDGE MARKETPLACE

21001 N Tatum Blvd Phoenix, AZ 85054

Vestar's latest site revision filed with the Phoenix Planning & Development Dept. on September 22, 2023 features a 96,582 sq ft site for a grocery store.

This latest site revision for a "Grocer" is almost 40,000 sq ft larger than the Albertson store at Desert Ridge Market Place.

It appears Vestar never intended their Black Mountain Village to be a "smaller retail center" with a "neighborhood grocery store."

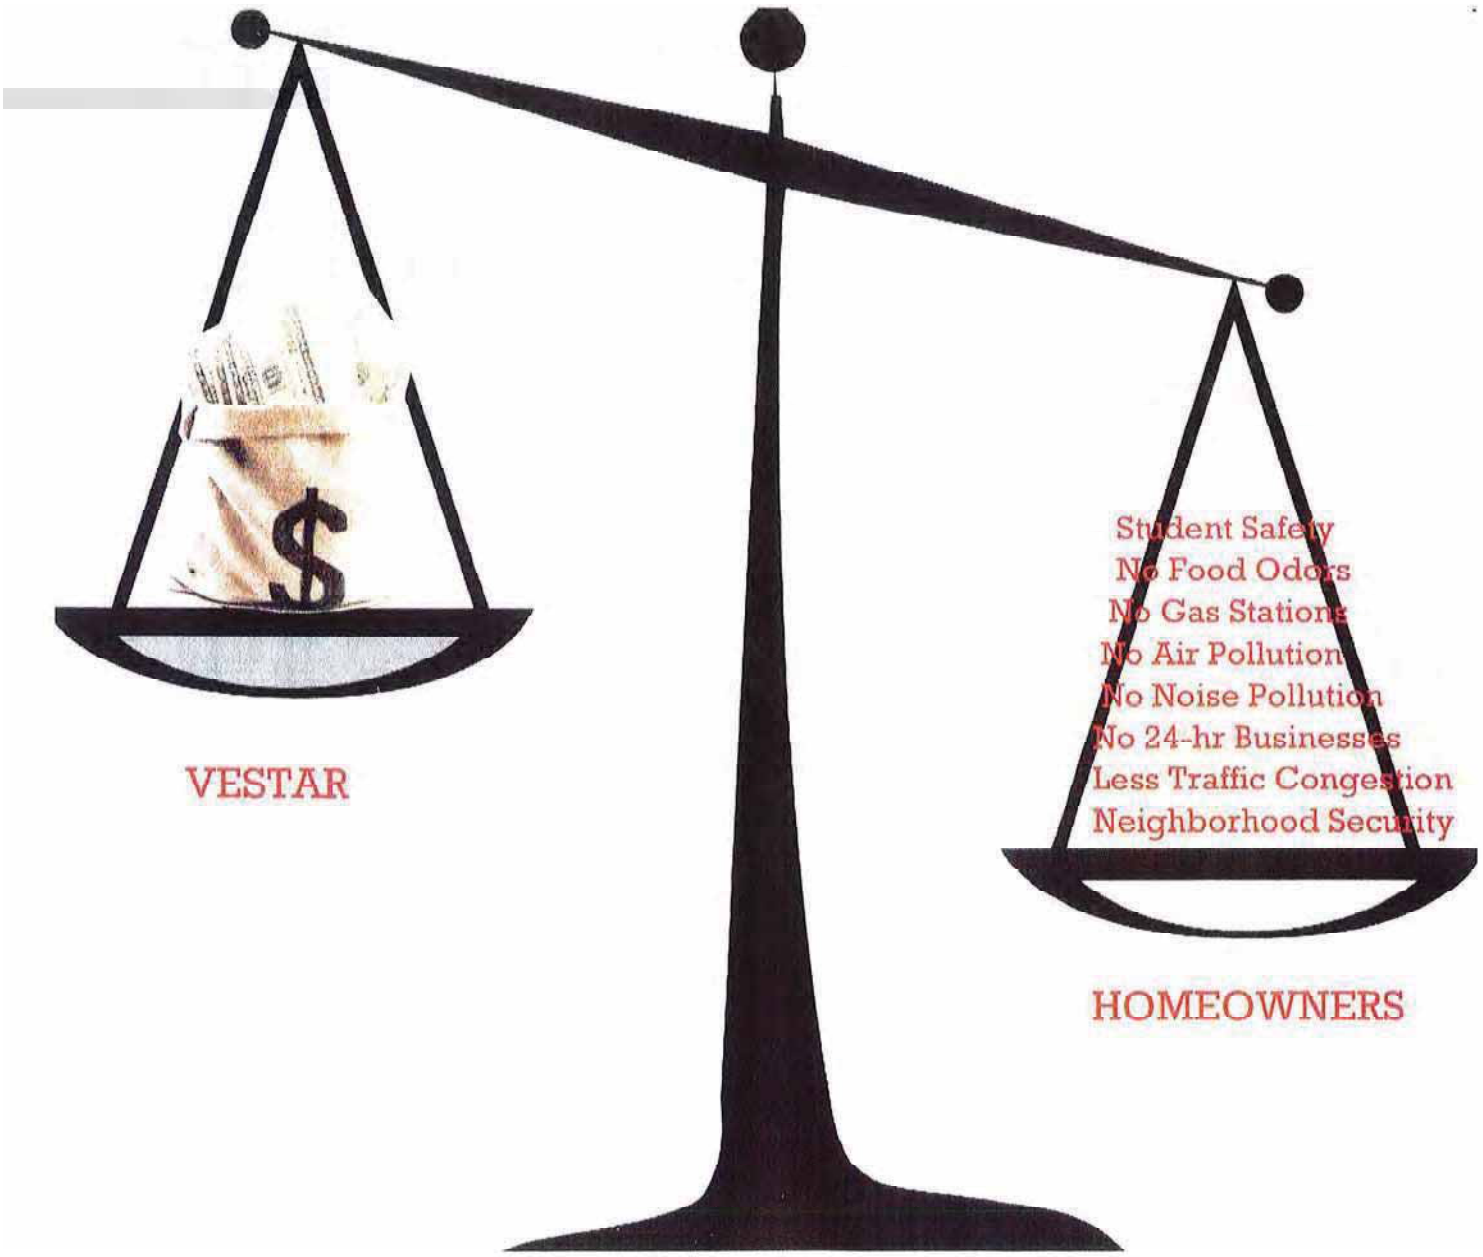
# VOTE "NO" ON VESTAR'S REZONING REQUEST

## The Scales of Justice Favor The Homeowners



VESTAR

HOMEOWNERS

**From:** Chris Knapp
**To:** Anthony M Grande
**Subject:** Re-zoning at Black MTN and Deer Valley
**Date:** Wednesday, October 4, 2023 6:59:22 AM

---

Hi Anthony -

I attended the meeting at PV Community Center last night. I am a young professional home owner with a young family that lives in Sky Crossing. Re-zoning this land from residential to commercial has got to be a joke. It is a very, very bad idea and as many speakers mentioned and would lead to more traffic, noise, pollution, crime, etc to our community. The attorneys and spokespersons for Vestor are clearly lying to people to stating that there is a possibility of a higher end shopping center which could include a possible AJs, Trader Joe's, Whole Foods, Sprouts, however the proposal is for a store the size of 99,000 sq ft?! We all know there that none of those stores are that size. That is the size of many Walmart and Target. I know they said neither would go there, but also that they can not control who would rent the space. We all know it would most likely be a mega Fry's or Walmart as those two stores have options with an accompanying gas station. Also, them stating that there aren't enough options for grocery shopping or gas is a such a joke. Desert Ridge Marketplace has both an Albertsons and Target for food and so does Sprouts at High Street, there are plenty of options. There are also plenty of other options a short way from Tatum and 101. I often shop at Desert Ridge, but also go to Costco on Beardsley and plenty of other places on Bell Rd just a short drive away. Don't be lazy! Phoenix is not a walking city like NYC where you are from. people here have cars and drive significant distances daily whether to work or other community activity. Everything that was presented by Vestor and their reps are complete lies and over exaggations. The school is also over capacity and we often have students parking in our neighborhood and walking across Deer Valley to school. The students often crowd our streets and leave trash every day when school is in session. Not to mention, if there is already land zoned for commercial north of this area, why the heck does this have to go there? Also, Hi Street, which has been under construction/development for about 20 years has yet to be completed. Why not worry about completing other project like this first. You guys are a joke for considering the re-zoning and the proposed project. Keep it residential!

Chris Knapp

**To:** Anthony M Grande
**Subject:** RE: Application No: GPA-DSTV-2-23-2 - Rezoning Request by Vestar
**Date:** Thursday, October 5, 2023 7:53:01 AM

Good Morning Anthony,

Thank you for conducting a well organized meeting Tuesday evening and for all the work you folks have to deal with when bringing large groups of minds together.

I didn't speak last evening knowing so many others were anxious to share their viewpoints which many pointed out similar concerns I've written to you about already.

Something that came to mind when I had heard the applicant mention there was a lack of grocery markets within a specific proximity of Desert Ridge Market Place was over the years; members in our HOA spoke about how back when Desert Ridge was originally planned *Albertsons agreed to lease with stipulation;* no other grocery stores would be allowed to do business within a specific distance within and around Desert Ridge for a period of 25 years. Some might say this has nothing to do with any decisions made beyond the original master plans and it's design, but I wonder.

As I stated below in my previous opposition email below I agree any additional need for a grocery chain close to desert ridge only makes sense if we choose a location designated commercial without changing any exiting residential zoning.

I really hope the City someday will build access roads along the 101 so that vehicles can enter Super blocks 8 or 12 from access roads which would take some stress off existing Tatum. I can already see 56$^{th}$ street becoming over taxed with vehicle use now that we are building so much in that vicinity over the next 5 years.

*Regardless of how people feel about this application the process and the management demonstrated so far has been above and beyond.*

Thanks for the opportunity to be a part of the process.

Bill Smith

**Subject:** Application No: GPA-DSTV-2-23-2 - Rezoning Request by Vestar

September 5, 2023

Greetings,

I'm writing you today regarding a rezoning request made here by Vestar application No. **GPA-DSTV-2-23-2** and some comments heard by residents resulting from a recent HOA board meeting held by Desert Ridge Community Association.

My name is William Smith and I am a resident of Regalia Bear Subdivision which is located just off Tatum Blvd and North of Marriott Drive in Desert Ridge for 13.5 years. Formally a resident in Vista Norte located at Dynamite and 57th Streets for 14 years. I've been a resident in Arizona since 1969 and have lived the majority of my life in North Scottsdale / North Phoenix 25 miles or more from downtown.

When my wife and I moved to Desert Ridge I began participating in many of the community

HOA meetings assisting mostly on the Awareness Committee. I believe it's important we continue to live in a safe and healthy community. The many challenges I've witnessed over the past 13.5 years have been noise pollution, traffic congestion and bottle neck due to lack of arteries (roads), vandalism and crimes committed by an increase number of teenagers.

Noise pollution continues from above with fly overs; also truck deliveries made during overnight or early morning hours are heard by vehicles creating those loud safety warning beeps when backing up. With the increase of home deliveries since the pandemic we've seen an more delays within our Desert Ridge community and about. Thankfully a great deal of the air traffic above was reduced after our Desert Ridge community associates worked with the aviation department to reverse a decision that was made several years ago that allowed commercial places to fly directly over Desert Ridge using a new flight path. We still have a few non commercial planes and helicopters that don't always follow the appropriate flight path, but we are thankful the majority of commercial planes are no longer constantly flying low overhead. In addition, we reported to the Marriott about the noise issue from trucks backing up that could be heard for a mile in the silence of the early morning hours and that has stopped. Our voices are being heard!

As far as vehicle noise issues we continue to hear traffic due to the type of road surface and proximity of both Tatum Blvd and Marriot Drive. Everyone is racing to be first coming in both directions cutting through our community because as we all know there aren't enough arteries (roads) that allow traffic to flow around the heart of Desert Ridge. Traffic on Tatum Blvd has met it's maximum capacity 5 years ago and its only getting worse. ***Deer Valley road is starting to show signs of stress unless we start now and think forward***.

Let's talk a little about Desert Ridge planning and how Vestar was originally involved in the design and planning of this community. I believe just 13.5 years ago when we moved here I heard mention Desert Ridge was just over 40 percent built out. Since then we seem to continue cramming more and more condos, apartments, schools, single family homes in addition to the huge development along the 101 from 56$^{th}$ to Tatum Blvd. There seems to be this need to fill up every inch of both Super Blocks along the 101 from 56$^{th}$ through to Black Canyon Blvd. We all know growth brings congestion and headaches.

Listening to representation by Vestar at community planning meetings they talk about building another marketplace in an area of Desert Ridge that is zoned **low** residential. I'm writing you here today to provide my opinion about why we ***shouldn't*** change this residential parcel as this application suggest to commercial and that we should consider looking for a location that has better access to the 101 and has the ability to get vehicles in and out of the area from all four directions without impeding traffic and causing delays. For the past 8 years or so all I've brought up to anyone that would listen that the City of Phoenix must work on a plan that will open up more arteries (roads) that allow traffic to flow more around Desert

Ridge Market Place and through our community as well.

***We can not continue to build both up and out; allowing thousands of more residents, merchants, delivery vehicles and visitors to move about and not have additional access roads and arteries (roads) that will provide additional alternatives to Tatum Blvd and Deer Valley Road.***

Everyone knows it will be expensive and we need it; an access road along the 101 that will allow traffic to access both super blocks from 56th street to as far as Cave Creek Road if we have too. The idea is to take excess traffic away from Tatum Blvd and Deer Valley Road when everyone is either trying to get to and from their residence in Desert Ridge, pass through it to get home in Tatum Ranch or visit Desert Ridge Market Place to enjoy all the shops, restaurants and planned activities Vestar an their business partners plan throughout the year. Additional roads that could help the flow of traffic could be at 40th street, Black Mountain Blvd, 56th street and any additional roads developed during the super block expansion phases which should include access roads along the 101 freeway. **We can't even head east or west using Black Mountain Blvd at the 101 to help avoid using Tatum Blvd at the 101?**

We understand change is necessary and some people believe we need more growth and there is no stopping it. However, the reason Desert Ridge has lasted as long as it has being in the spotlight a community most desirable for its amenities and location is because we live in a place beyond the boundaries of the City. ***A place between Rural and the big City life; simply a suburban experience like no other.***

If we allow another marketplace with a gas station at the location of Southwest Corner of Black Mountain Boulevard and Deer Valley Drive we are going to have big disappointment with additional traffic, noise, crime, vandalism not only during the day, ***but all night as well.*** We don't want or need any more attention drawn to close to existing residential community during the overnight hours. If you have to rezone **which I'm not for**, bring in medical therapy centers, Dental, Vision, Day Care Centers, Animal Veterinarians businesses that will bring value to the investment and more in line with education and health without attracting any negative impact we currently have going on at Desert Ridge Market Place and our Community City Parks by individuals that hang out in groups in public places with no regard for others property. There is so much open space in super block there where the fitness center is and the hotels are located that if Vestar thinks Desert Ridge needs another grocery store well go big and ***put a Walmart there along the 101***; build the access road along the 101 and make it easy to visit the store without impeding any more traffic delays on Tatum Blvd and Deer Valley Road and push the traffic away from our beautiful neighborhoods.

***Final thoughts that come to mind you can all think about …***

Observation #1 – The traffic gets so bad moving North and South on Tatum sometimes it takes 3 minutes just to exit out of my subdivision from Williams Drive onto Tatum. The traffic gets backed up so bad the distance on Tatum between Deer Valley and the 101 one can spend 6 minutes waiting for lights going in any direction. When there is construction, emergency vehicles or an accident forget being on time for any scheduled appointment. **This is not right**!

Observation #2 – Recently in the past 4 years after the completion of this new condos and new single family subdivisions we noticed in addition to Vestar bringing live entertainment along with Sip and Stroll attractions among other big events, that traffic delays have now extended everywhere including Tatum Blvd to 56th street going North or South along Deer Valley road. Drivers are in such a big hurry they speed illegally North on 56th to Pinnacle and in addition there is so much traffic during rush hours on Deer Valley from 56th all the way to Cave Creek and beyond due to the 101 bottlenecks experienced when approaching the 51 freeway from either direction. Drivers are not only using Deer Valley, but they are using Pinnacle Peak from Scottsdale all the way to Cave Creek Road to escape the 101 traffic debacle during rush hours.

Observation #3 -

Recently we've seen a huge increase in teenagers committing crimes and they seem to like hanging out at Desert Ridge Marketplace. This was brought up at our meetings and Vestar did speak out regarding our community concerns about the lack of security and care anyone we would expect to be responsible for managing issues of this nature. Concerns about Target, Albertsons, In&Out Burger and Panda Express have been going on for as long as I can remember brought up at Community gatherings with our neighbors for coffee and other meetings. It's been on the news this summer about a gang of teenagers sucker punching a teenager from another group causing 15,000 worth of dental work needed. Teenagers hang out at Target and act like the sports department is there personal playground. Teens stealing a cell phone right out of another teenagers hand who was picking up a take out order from Panda Express and too often homeless people coming up to you for money in front of and in the parking lot of Albertsons. These attractions that are enticing young people to party drink and get high not only occur in the marketplace, now we are seeing these young people come into the neighborhoods within Desert Ridge causing quite a bit of damage. Our Cashman park has been vandalized at least 3 times within the last couple years that I've heard about.

**Conclusion**:

Please consider another location for this grocery store and gas station to be developed. Lets choose a location away from existing residential and try to develop existing locations already designated residential and take the idea of bringing another grocery store and gas station to already designated commercial zones.

We don't need any **24 hour a day business** on Deer Valley and Black Mountain Blvd. We already have Desert Ridge Market place a gas station on the intersection at Tatum Blvd and Deer Valley Road. Take this proposed plan and build on 20.5 acres closer to the 101 and Black Mountain Blvd. Even if you were to propose moving this development to 40th Street and Deer Valley Road my suggestion would be to insure there are enough roads leading away from Tatum and Deer Valley for vehicles to maneuver towards the 101 without impacting the already congested traffic flow on Tatum and Deer Valley.

We should consider bringing in a large super center like Walmart along the 101 in the super block between Tatum and Black Mountain Blvd's. Get the City of Phoenix and the Army Core of Engineers to build functional access roads and lets see how well traffic flows around Desert Ridge. Spread things out a bit, petition for business to build on one of the two corners on the north side of Pinnacle Peak Road.

Leave the corner next to the high school open for **residential** or if you really think businesses deserve to come in an take over that property; like I said before consider those businesses that would help families with their children's education, day care, health services (mental health services), vision and dental care along with considering Veterinarian services.

Look I could write a book on how if think about all this push for growth here in Desert Ridge, but I'm sure in the end people that have the most funding will win. In the past whenever there was a decision made about something that didn't entirely make good sense and I would later bring up my thoughts I was told where were you when during the planning stages and why didn't you speak up then. Well I decided maybe its time I did.

Thanks so much for the opportunity to speak my thought and for listening.

As Ever,

Bill Smith

Ms. Santoro and Mr. Grande,
I am writing to object to the "proposed" Black Mountain Village development project on the southwest corner of Black Mountain Boulevard and Deer Valley Road. I included quotes around proposed as the neighborhoods surrounding the development area have already received marketing brochures (see included brochure picture) asserting that the project is already approved. This is insulting to the community and runs contrary to due process for allowing the project to move forward. How can an advertisement be published with the assertion that the development is already finalized when the public meeting has yet to be held? This is reckless, misleading and at the very least false advertising.
Besides the already congested intersection of Black Mountain Blvd and Deer Valley Road, developing every last available space in this area into commercial properties is unnecessary and unwanted by the community. This proposal is less than two miles away from an extremely congested shopping and entertainment area, Desert Ridge, which contains many of the same features and elements for shopping and convenience that this development will have.
Creating this development so close to Pinnacle High School is likely to cause unwanted issues with teenagers and congestion which are currently on the rise at Desert Ridge. We've had numerous violence and gun related incidents at Desert Ridge and this development will only spread those to a location both close to the high school and further embedded into the surrounding housing communities.
We don't need this and don't need to develop every last square inch of desert. The land was originally zoned to exclude this kind of development for a reason. This development needs to be stopped.

A concerned citizen.

Please do not allow the rezoning on black mountain and deer valley road near pinnacle high school. When buying our home we loved that the location was far enough from anything commercial. We urge you to please help not allow this to happen. Thank you, Buthaina ans Robert Salem, Sky Crissing community members.

Dear Councilman Waring, we are writing you in reference to the rezoning request of the above parcel from residential to C2 Commercial. We live in Sky Crossing and we are within 600 feet of this development. We are opposed to any commercial development for the following reasons;

1. When we purchased our property three years ago with the understanding that this was a residential super block under the Desert Ridge Master Plan, this means no large commercial developments except in designated areas and the common core on Tatumn blvd. This ensures a quiet, low traffic ,low vehicle emissions and low light environment. After 6pm weekdays there is a significant reduction in noise and traffic, however this will not be the case if this is a commercial development.
2. We have plenty of Gas Stations, Grocery stores and Fast Food Restaurants on cave Creek and Tatumn blvd. Further more, with the decline in Gasoline Vehicles and increase in Electric Vehicles, Gas stations are becoming less in less demand and could present a potential hazard to surrounding neighborhoods. Our air quality would be adversely affected by the Gas station alone, people live here.
3. I would like to see it to remain residential or for the city to find a way to preserve it, such as a park and offer additional parking for Pinnacle High School. A commercial development like this provides a haven for homeless, drug trafficking, sex trafficking and other crimes, because it is difficult to know who belongs in the area and who doesn't. This is not good for PHS or the neighboring communities.

In the best interests of this community and High School, we ask that you vote against this rezoning request.

Sincerely Mike & Debbie Bolde

## Racelle Escolar

**From:** Richards, Dan <Dan.Richards@strand.com>
**Sent:** Tuesday, October 17, 2023 4:44 PM
**To:** Anthony M Grande
**Cc:** Racelle Escolar; PDD Planning Commission
**Subject:** Case Nos: GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2, Black Mountain Village - opposition
**Attachments:** Supporters with conflicting comments.pdf; Grocery Store Flyer.pdf

Good afternoon, Planning Commission,

My name is Dan Richards, and I am one of a growing number of residents that lives near the intersection of Deer Valley and Black Mountain Boulevard, opposed to the Black Mountain Village project that Vestar is currently trying to push through the rezoning process. This growing number of residents that are opposing this development feel Vestar and their attorney, Gammage and Burnham, are intentionally misleading our neighbors with false hopes, to gain their support. They are intentionally spreading lies to get people to sign their ONLINE petitions. I would be very interested to know how many of these people that have signed their ONLINE petition live outside of the Desert Ridge area.

I have thoroughly examined the Staff files that were submitted to the Desert View Village Planning Committee, prior to the Oct 3 meeting, and wanted to share some thoughts that should be seen by everyone on the planning commission.

From the Z-39-23 Staff Report, the Community Input summary mentioned the following:
**At the time of the staff report was written, staff received 180 letters in Opposition, three petitions in opposition with a total of 663 names, 233 letters in in support, 23 stating general support but requesting a gas station not to be included, three petitions in support with a total of 753 names, and four letters providing general comments.**

Attached is a file of comments that were all taken from the 233 letters that are considered supporters. You will find 99 comments from the 233 letters of support ( 42% of supporters ) that should not be considered support for what Vestar is currently proposing. These people were all sold the illusion that this development is going to be a small, boutique type grocery store development. The current iteration of the proposal, showing a 99,000sf grocery store and gas station combo, was established prior to Gammage and Burnham, and Vestar, promoting Trader Joes as a potential tenant through their online survey. It's simply not true, and unethical for them to continue to promote this as an option. We all know there are only a couple options that have gas stations attached to a grocery store. Trader Joes, Sprouts, and Whole Foods are not options. They knew this but continued to promote all three to generate buzz for their project.

I humbly ask the planning commission to please take into consideration all the young families that moved into this part of Desert Ridge to be away from the Commercial portion of this master planned community. We do not want this close to our homes. We did our due diligence prior to building where we built. Please keep this residential corridor zoned as it was planned.

Thank you for your consideration,

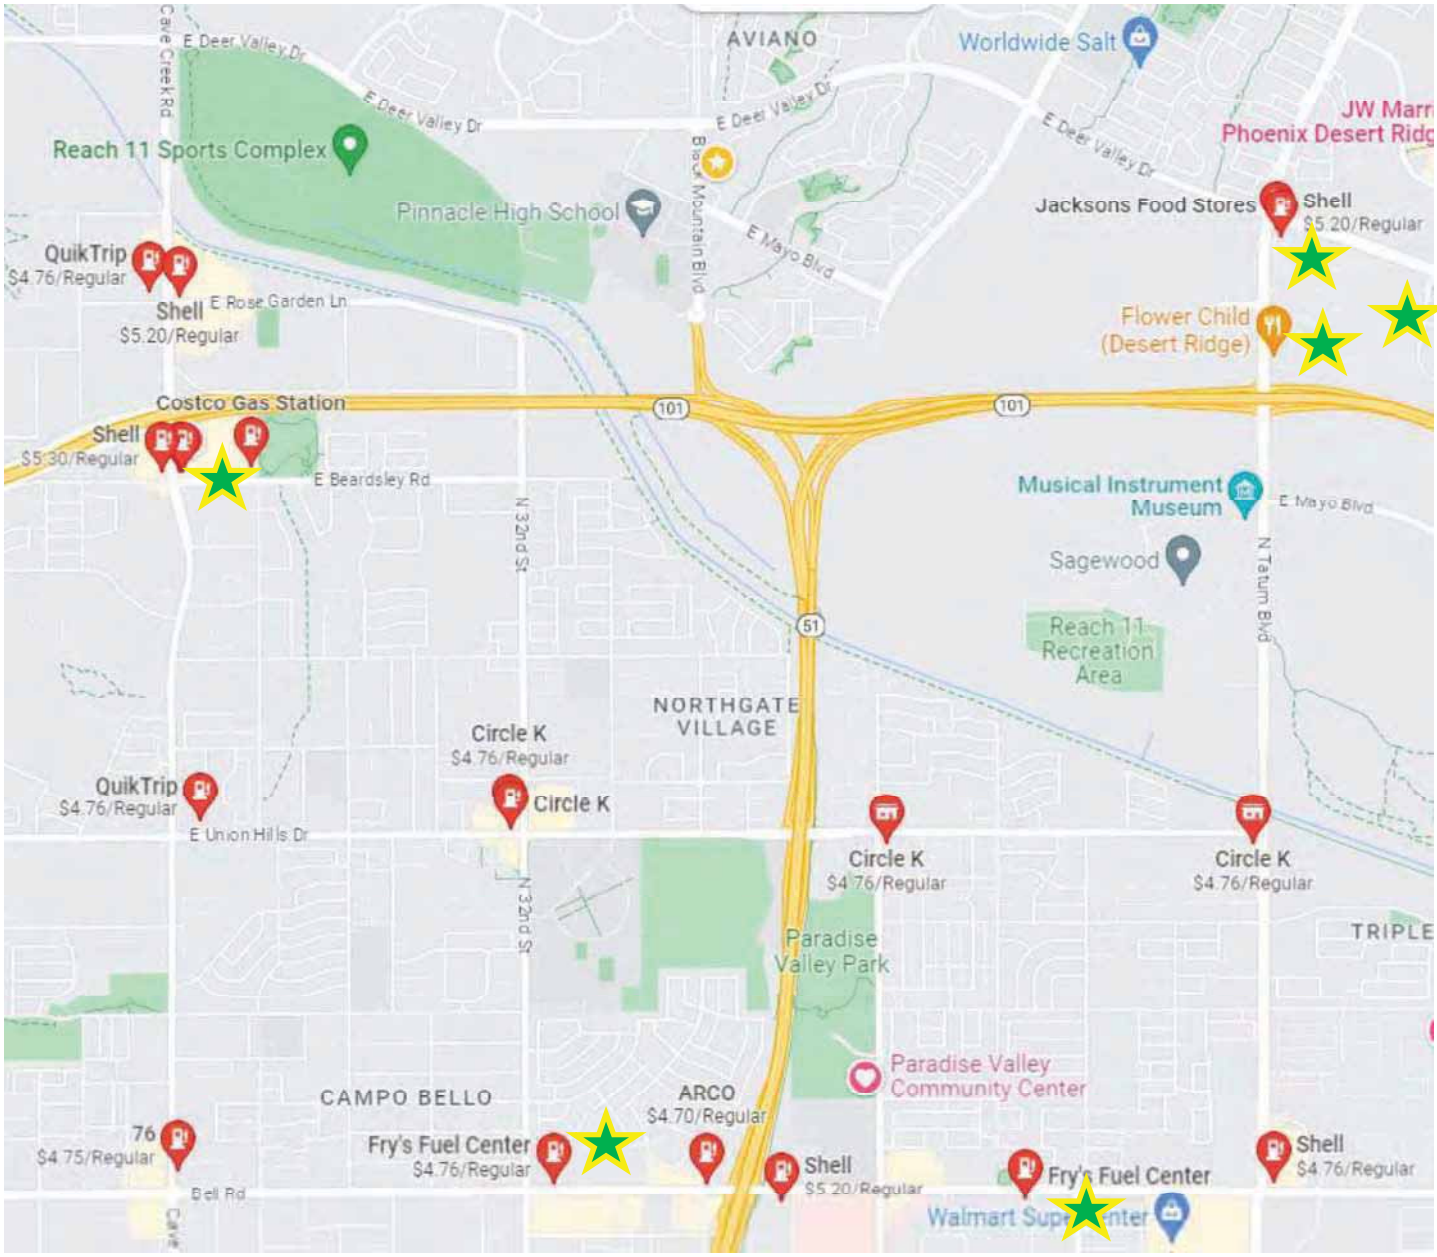
Dan Richards

# DESERT RIDGE IS NOT LACKING GAS AND GROCERY OPTIONS!

**12 gas station within a 3-mile radius** of future development location.
**18 gas stations shown within a 4-mile radius** of future development location.

**Grocery Stores within a 4-mile radius include:**

- Costco
- Walmart
- Target
- Sprouts Market Express
- 2 Fry's
- 2 Albertson's
- Food City



Grocery stores within 3-mile radius.

**People listed as supporters had the following comments:**

1. Small grocery store
2. I am against gas stations and drive-thru fast food
3. I would STRONGLY prefer there was no gas station
4. No gas station.
5. Grocery must be smaller, neighborhood store. Frys would not fit.
6. We moved here because it was quiet, we do not want to see it turn into another corner of concrete and loitering.
7. Please consider prohibiting gas
8. I would love a small grocery store and no gas station
9. Neighborhood grocer but no gas station please
10. No gas station, small grocery store, ie Trader Joes, Whole Foods
11. Neighborhood grocer but no gas station please
12. No gas station
13. It would be great to have a Trader Joes or Spouts.
14. We would love to see something smaller scale
15. This might cause too many traffic problems for the surrounding area
16. Site should focus on a smaller, high-quality grocer.
17. While I love the concept, I do oppose the gas station idea
18. I'm not opposed to a smaller shopping mall. I would be opposed to a gas station.
19. I absolutely hate the idea of a gas station being part of this project.
20. *I am in the mortgage lender world. If a gas station is placed at the very northern edge of the parcel, it would render the homes on the other side of Deer Valley unlendable for certain mortgage products, which seems incredibly unfair to the folks who bought homes here 3 years ago.*
21. We have had a big increase in homelessness in north Phoenix. This will increase homeless presence.
22. Small grocery stores typically don't attract homeless.
23. Small grocery store like Trader Joes. Traffic is already so bad. Don't need a big retail store there. And No gas station .
24. Support the project, minus the gas station.
25. Small grocery store. Would rather not have gas station
26. No Walmart. An AJ'S or Trader Joes
27. I support the zoning change to a small commercial to allow a small grocery store
28. Would very much welcome Trader Joes or Sprouts. We don't need fast food.
29. I would ask the planning committee to not support a gas station.
30. I would love a Trader Joes of similar grocery store. Not a gas station.
31. Some serious traffic mitigation would need to take place. It's already a disaster
32. Please add a Trader Joes
33. We would support Trader Joes
34. Do traffic studies to assess impact to BMB. Change the entrances and egress points.
35. I realize the location is not ideal.
36. Trader Joes please.

37. Please bring a Sprouts
38. *Hey Gammage and Burnham - these silly Facebook groups are not a good idea. Creating a Facebook group to drum up support for the project makes your law firm look absolutely desperate , pathetic, and borderline deceptive. Please discontinue this type of advertising.*
39. Hoping for boutique style.
40. I do not want gas station on deer valley
41. I would love a Trader Joes
42. It's a busy corner already with the high school
43. Whole Foods or Trader Joes would kill here.
44. Trader Joes and Sprouts would be great.
45. I'd love a grocery store but no gas station.
46. Trader Joes please!!!!!1
47. Hopefully Vestar will attract Trader Joes
48. Trader Joes
49. Would like to see a Trader Joes
50. Please bring Trader Joes
51. Would greatly appreciate a grocery store like Sprouts
52. Trader Joes would be a perfect size store for this location
53. We need a Trader Joes!
54. NO to a gas station
55. Sprouts or Whole Foods would be great!
56. It would be very beneficial to build a Trader Joes.
57. Trader Joes would be great!
58. It would be good to have a Trader Joes at Desert Ridge
59. Sprouts Please!
60. Would love to see a Trader Joes or a Sprouts at this location.
61. I would love to see a Trader Joes there.
62. Trader Joes
63. I prefer a smaller grocery store like Trader Joes over a larger store like Fry's.
64. I am opposed to having a gas station
65. Trader Joes!!! We need one in our area
66. Would love to have a Sprouts nearby. Second choice Sprouts
67. scrap the gas station idea
68. Trader Joes would be great
69. Would love a Trader Joes or Whole Foods. Perfect size.
70. A neighborhood Sprouts of Trader Joes would be wonderful
71. I would like a Trader Joes or a Sprouts
72. Trader Joes would be great.
73. Trader Joes!
74. I vote Whole Foods and Trader Joes
75. Would love a Trader Joes
76. Huge NO for gas of any kind. Yes to Trader Joes
77. I would love to see Trader Joes
78. Trader Joes Please!

79. This area needs a Sprouts!
80. Trader Joes Please!
81. Please make it a Trader Joes
82. Support mini grocer like Trader Joes or Sprouts
83. Trader Joes would kill it up in this neighborhood.
84. Trader Joes
85. Prefer Sprouts or Trader Joes
86. Give us Trader Joes and Whole Foods
87. My support is contingent on 3 things:
    a. Grocer is Sprouts, Whole Foods or AJs
    b. No gas station
    c. Lighting plan similar to Gainey Ranch
88. Trader Joes!!!!
89. Trader Joes please
90. We'd like a Whole Foods or Sprouts.
91. I would be interested in a Trader Joes
92. Please only specialty like Trader Joes Whole Foods Sprouts. Please NOT Fry's or Safeway!!! No fuel station please!!!!
93. I would love to see Trader Joes or something similar
94. I would strongly support C-1 with no gas station or fast food
95. The current proposal isnt' aligned with the "feeling" of the immediate surrounding neighborhood, which is quieter, more residential, and further from the Desert Ridge core.
96. I strongly support Trader Joes store
97. Trader Joes. I'm all in. Sprouts for sure.
98. I would support a Trader Joes or Whole Foods.
99. Support a Sprouts

COMMUNITY INPUT SUMMARY

12. At the time this staff report was written, staff has received 180 letters in opposition, three petitions in opposition with a total of 663 names, 233 letters in support, 23 letters stating general support but requesting a gas station not be included, three petitions in support with a total of 753 names, and four letters providing general comments. Among those opposed, concerns include the change in the residential character of the area, increased traffic and conflicts with Pinnacle High School traffic, pedestrian safety, increased lighting, the presence of homeless individuals, crime issues, and a reduction in property values.

Of the 233 letters in support of this project, 99 letters expressed comments that would not align with the support of what Vestar is proposing!

The correct numbers are:

- 279 letters of opposition
- 134 letters of support
- **68% letters oppose this project!**

| **Subject:** | deny application GPA-DSTV-2-23-2 |
| **Date:** | Tuesday, October 17, 2023 10:03:55 AM |

As a resident of Sky Crossing, I ask that you **DENY** the application GPA-DSTV-2-23-2, Southwest corner of Black Mountain Boulevard and Deer Valley Drive, Z-39-23-2.

Please listen to the residents who have made a strong case against this rezoning. The few letters that were in favor of the rezone were generic and wanted a small grocery store, not the 100,000 sf proposed large store with a gas station.

We already have multiple grocery stores within a few miles as several homeowners have proved. We also have gas stations and every other commercial and retail option within a mile or two. We do NOT need more of the same and the troubles the rezoning will bring.

I am asking for the team to **DENY** the rezoning out of respect for the homeowners and residents that will be directly impacted by this potential monstrosity.

Please review the documents and sound arguments residents have made opposing the rezoning.

This is an emotional issue as you can imagine. I ask that you acknowledge this, respect resident requests, and **DENY** the rezoning request.

Thank you,
Vicki

RE:

Case numbers

GPA-DSTV-2-23-2

GPA-DSTV-3-23-2

Z-39-23-2

Mr. Anthony Grande,

In exploring the information on the proposed rezoning of Superblock 12 in our community, I wanted to express my concerns and "no" vote on this land being used for commercial use.

While living in the community for nearly 18 years, this would have a negative impact on the overall feel which is contrary to what the developers are trying to market to us. The increased traffic would contribute to further noise pollution as well as the increased opportunity for crime and trash.

This property is directly across the street from a large high school where new drivers try to sharpen their new skills and this commercial development would lead to an increase in accidents as well as fear of children / pedestrians being hit while walking to the surrounding schools from this intersection (1 high school, 1 middle school, and 2 elementary schools within a 1 mile radius).

We have seen migration of homeless around our community, near the Desert Ridge mall, and could only see the future migration to this new shopping area which is a huge safety concern for my family and other neighbors who bought in the area for the enjoyment of being able to walk or ride to neighborhood parks and trails.

Lastly, adding a grocery store no matter small or large would not serve a purpose of improving our service needs. We already have plenty of choices in a short distance around us within a 5 mile radius of this location.

Thank you for taking the time to accept and hopefully take our concerns into account.

Greg Nelson

**To:** PDD Planning Commission; Council District 2 PCC; Anthony M Grande
**Subject:** Oppose Black Mountain Village

Dear Members

Vestar's proposed zoning change to the parcel at the corner of Deer Valley and Black Mountain Roods is not consistent with the PlanPHX interim report. On page 24 of the report participants and I quote "Love the large master planned communities in North Phoenix." The proposed zoning flies in the face of this master planned community and is not consistent with the Desert Ridge Specific Plan. In fact the developer's own statement is that this is Major Amendment to the DRSP.

Vote no to this rezoning proposal.

Mike Coppola

**Subject:** Black Mountain Village Proposal - OPPOSED

Dear Members:

I am a resident of Sky Crossing and oppose the proposed rezoning for the parcel at the corner of Deer Valley and Black Mountain roads.

The traffic impact study from October 2022 and the updated from 2023 as prepared by Civtech has undersized the grocery store by 20,000 sq ft as compared to the developers own conceptual site plan. The analysis appears to omit any impact of future traffic flow exiting the 51 Northbound at Black Mountain to access the proposed gas station. The traffic study further indicates the intersection of Deer Valley and Black Mountain to today have a Level of Service (LOS) of an “F”. The applicants stated desire to move traffic from Desert Ridge Marketplace to this corner will only further exacerbate the existing traffic issue.

Vote no to this proposal

**RE**: Vestar Rezoning and Plan Amendment Requests for Desert Ridge Superblock 12

---

The purpose of this Memorandum is to address two significant issues regarding Vestar's commercial rezoning proposal:

**Issue 1**: Vestar's misinformation campaign touting a "neighborhood grocery store."

**Issue 2**: Existing traffic problems at proposed site across from Pinnacle High School

## ISSUE 1 – VESTAR'S MISINFORMATION CAMPAIGN

I live a few blocks from what Vestar has promoted as a "low-impact commercial development" that would feature a "neighborhood grocery store." However, nothing could be further from the truth.

### Vestar's Site Plan

On September 22nd, Vestar filed a Site Plan for their "neighborhood grocery store" that features a 96,582 square foot grocery store pad. This grocery store pad is almost **40,000 square feet larger** than the pad square footage of the Albertsons store at Desert Ridge Marketplace. Obviously, Vestar never intended their project to be a "smaller retail center" with a Sprouts or Trader Joe's as the "neighborhood grocery store."

Vestar's initial communique acknowledged that their "neighborhood grocery store" would also have a "Fuel Station." Whether called a Fuel Station or a Gas Station, this ancillary service would be a significant source of air, light, and soil pollution. Moreover, numerous studies shown that homes in the vicinity of gas stations suffer depressed values.

### Grocery Supermarket

The Traffic Impact Analysis commissioned by Vestar confirms that Vestar's proposal includes a Grocery "Supermarket", over 40,000 square feet of commercial shops, and almost 20,000 square feet of fast-food restaurants with drive-through windows.

The plan also includes eight traffic access points to handle the traffic generated by these businesses. It is readily evident that this would **not** be a "low impact" development!

**Issue One Summary**
How can anyone honestly describe grocery stores, gas stations, and fast food restaurants with drive through windows as "low impact" uses? It is patently obvious that Vestar's proposed development is not a "Low" Impact Commercial Development. It is a Major Impact Commercial Development designed to line Vestar's corporate pocketbook at the expense of the surrounding residential neighborhood and adjacent high school.

## ISSUE 2 – TRAFFIC PROBLEMS AT PROPOSED SITE

**Vestar's Traffic Impact Analysis**
It is indisputable that the area affected by Vestar's proposal already has a traffic problem. The 366-page October 2022 Traffic Impact Analysis commissioned by Vestar acknowledges this existing problem. Please note the following excerpt from that Analysis:

> *The results of the existing conditions analysis indicate that all study intersections operate with acceptable levels of service (LOS D or better) with the exception of the northbound approach at the intersection of Black Mountain Boulevard & Deer Valley Drive and the northbound and southbound left at the intersection of Aviano Way & Deer Valley Drive.*

**Omitted Traffic Analytics**
This Analysis does not analyze the traffic impact of the nearby Garden Communities 882-unit apartment complex currently underway at the northeast corner of Tatum Blvd and Deer Valley. It also does not analyze the impact of the planned development of the 410-acre parcel at the southeastern corner of Deer Valley and 40th Street purchased by Taylor Morrison and Pulte Homes for a 1,200-lot master planned community. Because the west boundary of this parcel directly abuts Mayo Blvd, traffic from this planned community would likely use Mayo Blvd for ingress and egress. The vehicular traffic entering and exiting the proposed site would cause a substantial increase in 40th Street and Deer Valley traffic.

**Increased Traffic at Proposed Site**
The Executive Summary of the Traffic Impact Analysis reads as follows:

> *The Black Mountain Village proposes to rezone approximately 16-acres of undeveloped land from existing R-2 (residential) to C-2 (commercial) to consist of approximately 76,200 square feet (SF) of grocery supermarket [increased to 96,582 square feet on September 22, 2023] 41,500-SF of various commercial shops each under 40,000 SF, and 19,700-SF of fast-food restaurants with drive through window.*

**Issue Two Summary**
Each of the operations described in the Traffic Impact Analysis would result in increased traffic entering the proposed site from all four bordering streets. That increased traffic would include gas tankers and delivery trucks. This increased traffic would be in addition to the traffic already generated by 2,600 students and their parents entering and exiting the Pinnacle High School twice daily during the school year. Even now there are not enough traffic lanes on Mayo Blvd to efficiently handle the vehicular traffic entering and exiting the high school parking lots. Vestar's proposed development would exacerbate the chaotic traffic problems already occurring during school hours.

**Legal and Equitable Considerations:**
In relevant part, Section 102 of the Phoenix Zoning Ordinance reads, "Zoning determinations must be "… equitable, in terms of consistency with established regulations and procedures, respect for the rights of property owners, and the consideration of the interests of the citizens of the City."

Any approval of Vestar's requested zoning and plan amendments would be inequitable. It would disrespect the adversely impacted residents of Desert Ridge who purchased their homes justifiably believing they would never border a commercial development. These homeowners should not have their legitimate expectations sacrificed on an altar of money.

**Conclusion:**
The wording and spirit of the applicable Phoenix Zoning Ordinance require that Vestar's requested Zoning Change and the General and Specific Plan Amendments be denied.

**Subject:** RE: Input re: requested rezoning E. Deer Valley Dr/Black Mountain Blvd near Pinnacle High School
**Date:** Monday, October 23, 2023 9:45:40 AM

Good morning Anthony,

I wanted to follow-up on the rezoning case below. Due to travel my wife and I were unable to attend the open community meeting held regarding this rezoning but understand conversations continue. As you continue to secure feedback from the community, I wanted to reiterate our stance with respect to the rezoning.

We understand that development may be needed on this parcel – but we continue to object to any rezoning that would permit the construction of a gas station on this parcel. Many stations maintain hours of operations well outside normal commercial business hours – either being open 24 hours or opening very early / closing very late that would make its impact on the neighboring community detrimental. While not thrilled about this parcel being rezoned, with reasonable accommodations, as noted below, we could be supportive of limited development.

Thank you for enabling to continue to be on record on this important matter.

Paul & Mary Bierbusse

**Subject:** Input re: requested rezoning E. Deer Valley Dr/Black Mountain Blvd near Pinnacle High School

To: Anthony Grande, Planner, City of Phoenix Planning & Development Department
Cc: Mr. Jim Warring, Councilman – District 2, City of Phoenix

Good morning gentlemen,

My wife, Mary, and I recently purchased a home in the Sky Crossing neighborhood immediately north of the proposed rezoning on E. Deer Valley Drive and Black Mountain Boulevard near Pinnacle High School (Desert View Village GPA-DSTV-2-23-2). We are excited to become active members of the community and have been impressed by how the City of Phoenix has thoughtfully managed development. We understand that the proposed rezoning transitions the parcel from residential to commercial, and while we don't object to the rezoning of the parcel we do have a number of significant concerns.

First, we understand that proposed development plans include the construction of a gas station on part of the parcel – we would like to express our strongest reservations as to the inclusion of a gas station within the final plan given the traffic it is likely to draw, the likely extended hours of operations including intrusive late-night lighting in the area, and the environmental impact. There are nearby stations located both at E. Deer Valley Drive/Cave Creek and at E. Deer Valley Drive/Tatum which should more than suffice to address local demand.

Second, the area already deals with significant traffic challenges associated with ingress/egress to Pinnacle High School. Any rezoning and associated development should be coordinated with the traffic needs of the high school both to mitigate impact to overall traffic flow and to enhance safety in a high traffic area. As development continues north of our community, confident that the AZ-51 access point will only see increased traffic volume – plans should be made to address not only existing traffic due to the high school but increased traffic due to the proposed redevelopment.

Third, we have been made aware of increased random acts of violence associated with late night hours at Desert Ridge Marketplace and we don't wish to see those issues brought closer to our community. Should the rezoning be approved, we would ask that conditions be placed on the hours

of operations for tenants to minimize late night traffic to the property (preferably no later than 9pm) and that coordination be pursued with the City of Phoenix Police Department to ensure appropriate police resources are dedicated to the area.

We understand the importance of continued development across Phoenix and believe that reasonable accommodations can be made that both permit development while addressing resident concerns. Thank you for providing us the opportunity to voice our concerns.

Warmest regards,

Paul & Mary Bierbusse

| **Cc:** | Council District 2 PCC; PDD Planning Commission; Anthony M Grande |
| **Subject:** | My comments for the Nov. 2 Hearing on Vestar"s Rezoning and Plan Amendment Proposals |
| **Date:** | Tuesday, October 24, 2023 10:32:14 AM |

Vestar wants approximately 20 acres of Superblock 12 in Desert Ridge rezoned from an R-2 residential designation to a C-2 commercial designation. With this rezoning would come an opportunity for them to develop a shopping center comprised of the following:1) a supermarket, 2) a gas station/fuel pumps, 3) several fast-food restaurants with drive-through windows, 4) over 40,000 square feet of retail space, and 5) a city bus stop. There are many troubling issues associated with Vestar's proposal. However, the most disturbing is their intent to locate their commercial development on land adjacent to Pinnacle High School and just a short block from Fireside Elementary School. If we are to put the health and safety of our children first, it is ludicrous to think that a commercial development such as Vestar's would be appropriate for this location.

To All Concerned:

With Vestar's desire to build a supermarket and several fast-food restaurants by Pinnacle High School comes concern for the health of our teenagers. It's apparent that both grocery stores and fast-food restaurants sell an inordinate amount of junk food. It's also apparent that teenagers don't always make good decisions about what they eat and drink. Unfortunately, junk food is often their preferred choice. Medical studies have shown that long-term consumption of junk food can lead to serious health issues such as cardiovascular disease, high cholesterol, liver disease, and obesity. Obviously, our teens aren't concerned about this, but we must be. A first step toward controlling this junk food phase would be to stop commercial developments, such as Vestar's, from building right next to our schools.

Vestar's proposal also includes the installation of fuel pumps on site. Whether you call them fuel pumps or gas stations, they are still one of the most significant environmental pollutants. They emit fumes from fueling, fumes from overspills, and fumes from tank vents. Even an idling car engine spews hydrocarbons into the air. Our young people are vulnerable to so many pollutants when they walk to school, participate in outdoor sports, or enjoy outside neighborhood activities. Why would we want to exacerbate pollution problems or create health issues by allowing fuel pumps in our neighborhood? We have a large gas station just minutes away at the Desert Ridge Marketplace. We don't need one here.

Recent studies suggest there is a strong relationship between crime and commercial land use. We have already had instances of vandalism and crime here in Desert Ridge. A development such as Vestar's - with a supermarket selling beer, wine, and liquor - would compound the problem. Any commercial development is certain to attract individuals seeking handouts, looking for shelter or simply wanting a place to "hang out." These situations can quickly escalate to serious criminal activity. We want our children to grow up in a healthy, secure environment. A commercial development in our neighborhood would negate any hope of that.

Please vote NO to Vestar's proposals.

**To:** PDD Planning Commission; Council District 2 PCC
**Subject:** GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2 Black Mountain Village
**Attachments:** 09192023 opp.pdf; opposition.pdf

Dear Planning Commissioners and Council Members,

I write to supplement my letter of August 23, 2023 , and email of September 19, 2023, copies of which are attached for ease of reference.

The requested amendments and rezoning should be denied. Vestar's proposal to install no less than three drive-through food and coffee operations [Vestar Updated Conceptual Site Plan], at a location where they are currently prohibited, is antithetical to general plan core values and principals, a radical departure from existing planning, and will destroy the residential character of the area. The Planning Commission and City Council should take the advice of the Desert View Village Planning Committee and deny all three requests related to the proposed Black Mountain Village.

**Failure to build low-impact conveniences does not justify imposition of prohibited drive-through fast food and coffee operations.**

Staff Report Z-39-23-2 (Sept. 16, 2023), contends that because "most retail superblocks have been developed without any convenience retail . . . this proposal fills a gap." The staff report overlooks the fact that, under the Desert Ridge Specific Plan ("DRSP"), drive-through uses are specifically prohibited from neighborhood conveniences:

> d. **Prohibited Uses**: Other than the uses listed above as permitted uses, **all uses are expressly prohibited including the following:** ● Mechanical or electronic video games or arcade - type devices for amusement purposes. ● **Drive-through uses** ● Sales of package liquor other than beer or wine [Desert Ridge Specific Plan, 6.C.3.B.2.d @ p. 6-8 (emphasis supplied)].

DRSP acknowledges that **"[t]his criteria will minimize the adverse environmental impact on the residential neighborhoods typically associated with commercial development.**" [DRSP 5. C.1, @p. 5-5 (emphasis supplied)]. There is no logic whereby failure to build the allowed low-impact conveniences can justify imposing prohibited drive-through operations on a residential community.

Drive-through operations do nothing to connect people and places, celebrate diverse communities, or promote non-vehicular transportation. In its explanatory letters, Vestar does not discuss how drive-through operations are in any way compatible with core values or the existing plans or uses, and the staff reports do not specifically address this question.

**Connection of SR 51 to Black Mountain Boulevard as an arterial street does not justify putting drive-through operations in the middle of a residential area.**

The General Plan, the DRSP and the Land Use Principles of the Desert View Village Planning Committee Character Plan all specify that the residential uses planned for Deer Valley Road should be left in place.

The General Plan Map ( https://www.phoenix.gov/villagessite/Documents/pdd_pz_pdf_00473.pdf ) shows extensive commercial development on nearby Bell Road and, to a lesser extent, Union Hills Drive. A substantial parcel is designated commercial at the intersection of Pinnacle Peak and Cave Creek Roads, which will easily provide shopping options for residents at the western part of Desert Ridge. Residents to the east have easy access to shopping at Mayo Boulevard and Pinnacle Peak Roads near their intersections with Scottsdale Road. To the north, substantial commercial parcels are designated along Happy Valley Road.

One of the Land Use Principles of the Desert View Village Planning Committee Character Plan is to "[e]ncourage properties and **neighborhoods planned for residential use to continue as residential uses rather than being assembled for nonresidential development.** (Cave Creek Road, **Deer Valley Road**)" [Desert View Village Character Plan, 022218 DESERT VIEW Character Plan.indd (phoenix.gov) , @ p. 12, (parenthetical in original, emphasis supplied], accessed 10/22/2023].

DRSP recognized that SR51 could one day connect on "a projected arterial street alignment" (DRSP 5.D.1.A @ p. 5-13). The plan made it clear that the designation of arterial streets does not justify disturbing the residential character of neighborhoods through which they pass : "[t]he arterial street system is designed to carry all through project traffic, as well as traffic destined for the Village Center **without impact to the neighborhood" [**DRSP 5. D.1.B @ p. 5-14) (emphasis supplied)].

The Future Land Use Map incorporated in the Final Environmental Assessment for Black Mountain Boulevard, approved by the City of Pheonix and the State of Arizona, does not include any commercial development in the area of Black Mountain Boulevard south of Pinnacle Peak Road [Black Mountain Boulevard Final Environmental Assessment, fig 6 @ p. 13 (104448.pdf (phoenix.gov) , accessed 10/25/23)]. The environmental assessment specifically noted that "[i]n undeveloped areas north of PHS [Pinnacle High School], Phoenix and ASLD plans indicate future residential development occurring" [id., @ p. 14]. Facilitating new commercial development along Deer Valley Road was not among the purposes and needs identified in the assessment.

**Conclusion**

Vestar's proposal not only does extreme violence to the Desert Ridge Specific Plan, it also seeks to undermine the General Plan. The City carefully designated commercial centers to the north of Desert Ridge to facilitate the needs of residents as construction continues in that direction. Vestar's obvious aim is to discourage commercial development to the north by capturing traffic as close as possible to the terminus of SR 51.

For these and all the other reasons stated in my previous communications, and by so many of my neighbors, I urge you to deny Vestar's request for amendments of the City of Phoenix General Plan and Desert Ridge Specific Plan, and to deny rezoning of the parcel in question.

Respectfully,

To Whom It May Concern,

I would like it to be known that I am strongly opposed to the proposed rezoning of the residential area at the corner of Black Mountain Boulevard and E Deer Valley Drive. This area is already way too busy to add more congestion due to commercial development. Any new commercial development needs to be located two miles to the North at Black Mountain Boulevard and Pinnacle Peal – which is ALREADY zoned commercial.
My home is located a mile to the East of this intersection and my kids have already graduated from Pinnacle so either way this will not directly affect me, but I know this proposal is NOT a good idea.
Thank you.

Desert Ridge resident since 1997,
Kimberly Johnson

I do not think that this proposed commercial property is a good idea. It's bad for the school it's bad for the area. I totally agree that it should not go through. Put the commercial properties to the west off of Cave Creek Road. That would be a better area it's still close for the neighborhood. Still profitable for the companybut does not interfere with the neighborhood. That neighborhood is way too crazy in terms of traffic. You're just gonna be adding more traffic off that 51 next to the high school you will see more accidents in that area.

Mr Grande,

As an Aviano resident since 2008, I want to clearly communicate my opposition to the proposed rezoning near Pinnacle High. The intersection is already heavily traveled and frequently congested. Adding a shopping center would make that situation much worse. Also, this is a residential area with similar shopping options only a short distance away. An additional shopping center in the middle of the residential area is not needed and is not consistent with the rest of the area. The current zoning should be maintained.

RE: Case # GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2, Black Mountain Village

To Whom It May Concern:

As a resident of Sky Crossing Community and a concerned citizen, this is to request a denial of the above application to rezone.

The area of concern is currently zoned for residential, primarily because it is bordered by Pinnacle High School, and in close proximity to Sky Crossing, Fireside, and Aviano residential subdivisions. This area is already impacted by heavy traffic, especially during school hours. All neighborhoods are within seven minutes to shopping at Desert Ridge, including grocery and service station, as well as five minutes away from retail and service stations near Cave Creek Rd. and Rose Garden Ln. Costco is ten minutes away. The argument by developers that this development is needed does not hold water.

Additionally, the aforementioned neighborhoods will be negatively impacted by undesirable elements, such as unwanted foot traffic and panhandlers migrating from the intersection of SR101 and Cave Creek Rd., five minutes away.

It is my understanding that the majority of residents in the area are against the proposed rezoning effort. With this in mind, it is a sensible decision that this rezone application be denied forthwith.

Yours truly,

Robert W. Abbott
Sky Crossing Resident

**Subject:** GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2 Black Mountain Village

Dear Planning Commissioners and Council Members,

I write to supplement my letter of August 23, 2023 , and email of September 19, 2023, copies of which are attached for ease of reference.

The requested amendments and rezoning should be denied. Vestar's proposal to install no less than three drive-through food and coffee operations [Vestar Updated Conceptual Site Plan], at a location where they are currently prohibited, is antithetical to general plan core values and principals, a radical departure from existing planning, and will destroy the residential character of the area. The Planning Commission and City Council should take the advice of the Desert View Village Planning Committee and deny all three requests related to the proposed Black Mountain Village.

**Failure to build low-impact conveniences does not justify imposition of prohibited drive-through fast food and coffee operations.**

Staff Report Z-39-23-2 (Sept. 16, 2023), contends that because "most retail superblocks have been developed without any convenience retail . . . this proposal fills a gap." The staff report overlooks the fact that, under the Desert Ridge Specific Plan ("DRSP"), drive-through uses are specifically prohibited from neighborhood conveniences:

> d. **Prohibited Uses**: Other than the uses listed above as permitted uses, **all uses are expressly prohibited including the following:** ● Mechanical or electronic video games or arcade - type devices for amusement purposes. ● **Drive-through uses** ● Sales of package liquor other than beer or wine [Desert Ridge Specific Plan, 6.C.3.B.2.d @ p. 6-8 (emphasis supplied)].

DRSP acknowledges that **"[t]his criteria will minimize the adverse environmental impact on the residential neighborhoods typically associated with commercial development.**" [DRSP 5. C.1, @p. 5-5 (emphasis supplied)]. There is no logic whereby failure to build the allowed low-impact conveniences can justify imposing prohibited drive-through operations on a residential community.

Drive-through operations do nothing to connect people and places, celebrate diverse communities, or promote non-vehicular transportation. In its explanatory letters, Vestar does not discuss how drive-through operations are in any way compatible with core values or the existing plans or uses, and the staff reports do not specifically address this question.

**Connection of SR 51 to Black Mountain Boulevard as an arterial street does not justify putting drive-through operations in the middle of a residential area.**

The General Plan, the DRSP and the Land Use Principles of the Desert View Village Planning Committee Character Plan all specify that the residential uses planned for Deer Valley Road should be left in place.

The General Plan Map ( https://www.phoenix.gov/villagessite/Documents/pdd_pz_pdf_00473.pdf ) shows extensive commercial development on nearby Bell Road and, to a lesser extent, Union Hills Drive. A substantial parcel is designated commercial at the intersection of Pinnacle Peak and Cave Creek Roads, which will easily provide shopping options for residents at the western part of Desert Ridge. Residents to the east have easy access to shopping at Mayo Boulevard and Pinnacle Peak Roads near their intersections with Scottsdale Road. To the north, substantial commercial parcels are designated along Happy Valley Road.

One of the Land Use Principles of the Desert View Village Planning Committee Character Plan is to "[e]ncourage properties and **neighborhoods planned for residential use to continue as residential uses rather than being assembled for nonresidential development.** (Cave Creek Road, **Deer Valley Road**)" [Desert View Village Character Plan, 022218 DESERT VIEW Character Plan.indd (phoenix.gov) , @ p. 12, (parenthetical in original, emphasis supplied], accessed 10/22/2023].

DRSP recognized that SR51 could one day connect on "a projected arterial street alignment" (DRSP 5.D.1.A @ p. 5-13). The plan made it clear that the designation of arterial streets does not justify disturbing the residential character of neighborhoods through which they pass : "[t]he arterial street system is designed to carry all through project traffic, as well as traffic destined for the Village Center **without impact to the neighborhood" [**DRSP 5. D.1.B @ p. 5-14) (emphasis supplied)].

The Future Land Use Map incorporated in the Final Environmental Assessment for Black Mountain Boulevard, approved by the City of Pheonix and the State of Arizona, does not include any commercial development in the area of Black Mountain Boulevard south of Pinnacle Peak Road [Black Mountain Boulevard Final Environmental Assessment, fig 6 @ p. 13 (104448.pdf (phoenix.gov) , accessed 10/25/23)]. The environmental assessment specifically noted that "[i]n undeveloped areas north of PHS [Pinnacle High School], Phoenix and ASLD plans indicate future residential development occurring" [id., @ p. 14]. Facilitating new commercial development along Deer Valley Road was not among the purposes and needs identified in the assessment.

**Conclusion**

Vestar's proposal not only does extreme violence to the Desert Ridge Specific Plan, it also seeks to undermine the General Plan. The City carefully designated commercial centers to the north of Desert Ridge to facilitate the needs of residents as construction continues in that direction. Vestar's obvious aim is to discourage commercial development to the north by capturing traffic as close as possible to the terminus of SR 51.

For these and all the other reasons stated in my previous communications, and by so many of my neighbors, I urge you to deny Vestar's request for amendments of the City of Phoenix General Plan and Desert Ridge Specific Plan, and to deny rezoning of the parcel in question.

Respectfully,

James W. Tuffin

City of Phoenix,

I have lived in the Fireside community for over 10 years and chose to buy because of the safe neighborhood Fireside provides me and my kids.

I do NOT want Black Mountain Village built! I'm sure you've heard it all, but my biggest concern is it will turn into a homeless encampment and lots of drug use just as Desert Ridge Marketplace has become over the last couple years. The "zombies" I see high as a kite near Tatum and Deer Valley are extremely sad and scary. Black Mountain Village will become this in due time if it is built.

We need to keep our kids safe! I didn't move here to fight against big corporations who just care about making money!

Sincerely,
Bridget Brown

My name is Chris Hanley and I live in the Sky Crossing community. I moved into this neighborhood in March 2020 and am the original owner of my home.

I understand there is a zoning hearing for the parcel of land on Deer Valley, West of Pinnacle High School. I also understand that a commercial developer wishes to buy the land to develop a shopping center and needs the land to be rezoned from residential to commercial.

I am opposed to this rezoning.

Sky Crossing is a new neighborhood. Many of us bought here in the last few years with the knowledge of the open land to our south being other homes, not a grocery store, gas station, and other retail. This isn't an old neighborhood where things have changed over the decades, we're less than 5 years into this.

As you know, Deer Valley is a 3 lane road in each direction. It is heavily travelled. The high school contributes to the traffic load at certain times of day. WIth Black Mountain as a feeder onto SR 51, there is high traffic already.

While I understand how that would appeal to a commercial developer, the community is highly concerned about the added traffic and congestion a shopping center would bring. In addition, the shopping center would add light pollution and added noise pollution.

As you also know, shopping centers draw in pan handling, the homeless, and additional trash. We don't need that in a family community, next to a high school and close to Sky Crossing Elementary.

Cave creek road to our West has 2 gas stations on it (north of the 101) and plenty of retail. We have an Albertsons at Tatum and Deer Valley, with a gas station, and again lots of retail at Desert Ridge. There is also a Safeway and Frys north of us at Tatum and Cave Creek. We don't need any more grocery stores and there are plenty of gas stations.

Please do not approve the rezoning. Thank you for your consideration on this matter and please reach out if you desire to discuss.

Thank you,
Chris Hanley

**To:** PDD Planning Commission; Council District 2 PCC
**Subject:** Case # GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2, Black Mountain Village

Good Day:

My wife and I live directly north of the subject parcel, and from our home in Sky Crossing we currently can see Pinnacle High School and can hear the sporting events as they occur in their sports field.

We are pleased that the Village Planning Commission rejected the Vestar proposed development.

We are not against change, and we are not against progressive and positive development in our area. What we are against is the current proposal as has been submitted by Vestar.

The key factors in our rejection of their proposal is as follows:

1. The size of the proposed grocery is in the area of 100,000 square feet. This is enormous and is nearly twice the size of the Albertsons' Grocery Store at Desert Ridge - approximately 2 miles away from this parcel plus this store is only 58,000 square feet. It would make more sense to have a grocery store similar in size; i.e. 50,000 to 60,000 square feet. I would venture to guess that most residents of our area would be open to a grocery of this size vs a Mega store that Vestar is trying to force upon us.

Additionally with the pending consolidation of Fry's and Safeway/Albertsons, the need for such a large behemoth is absurd.

2. We are adamantly opposed to a gas station for this parcel. There are plenty of gas stations in the area and an additional location is not needed. Problems with a gas station are as follows:

a. Excessive Noise as drivers rev their engines and race out of the station
b. Air pollution from the exhaust systems of vehicles
c. Underground soil pollution from leaking gas tanks
d. Light pollution from the bright lights of the station that will stream into our homes during the night
e. Increased traffic will be created as drivers wanting to get onto Route 51 will purposely come down Black Mountain to get gas first vs taking Cave Creek to the 101 and then the 51
f. The future of our transportation industry will be electric and/or hydrogen powered vehicles. This may take 10 to 20 years to achieve but the need for a gas station will be further reduced. An electric vehicle charging point would make more sense for today and the future.

3. We are also concerned that the overall shopping center will be lit up so much that the bright lights will interfere with our ability to enjoy life in our yards and inside our homes. Additionally this will be a negative impact upon the value of our homes. The developer must install desert lighting that directs all lighting towards the ground and not into the sky.

Thank you for your attention to this matter.

**Subject:** Black Mountain Village Continuation - Opposed

It is my understanding that the developer has requested their application for rezoning be pushed to the December 7, 2023 Planning Commission meeting. The community is prepared to share our objections to the development as an agenda item on the November 2, 2023 meeting of the Planning Commission. The developer has had ample time to prepare for this meeting and significantly more resources than members of the community and yet they are not prepared to present their application for rezoning.

I urge you to deny this request and the let matter come before you on November 2, 2023

Mike Coppola

**Attachments:** PlanningCommitteePhotoAppendix.docx

Dear Planning Committee members,
The above mentioned rezoning request will be on the agenda for your November meeting tomorrow and is currently showing in the section to request a "continuances and withdrawals".

My name is Wouter Roodenburg and I am a concerned resident of Fireside and have spoken on numerous occasions during the meetings in the past as well as emailed the various people involved.

I am part of a group which has shown our commitment to stopping this proposal and represent the now 825 people who have signed our online petition currently.
Our opposition group has only grown in the past few weeks following the Desert View Village planning commission motion to deny this proposal 9-1.
This denial should count for a lot given the fact that these are people from our community and are very familiar with commercial rezoning requests near schools. I urge you to consider their views on this matter.

Because a picture is worth a 1000 words, please review the document attached in which I have gathered some pictures for you to see the challenges like accidents and the traffic congestion and other unsafe situations this community is dealing with. Currently no mitigation efforts have been presented by the developer and their attorneys that could resolve these situations, nor have they been acknowledged.

To highlight the fact that many of our residents purchased in this area because of its core value of creating a family-oriented and safe community I included the types of activities that our residents participate in to achieve this, such as our locally recognized and honored Halloween festivities that we provide which will become the childhood memories they will remember.

The proposal on Black Mountain Boulevard is not only in the center of this very connected and active community in which we raised our families, but it is also disrupting the lifestyle and property rights that we have come to enjoy over the years.

I am a resident since 2007 when my first son was born. We enjoyed this safe community and felt confident to have them play outside and cycle or walk to schools and allowed them to roam the neighborhood as it is a safe place currently. This image was suddenly disrupted when my son had to go to Pinnacle High School. The chaos around the High School was frightening and I have since been an active participant in the city's Road Safety Action Plan (Vision Zero).

Members of this committee are about to decide whether to disrupt this community and significantly add to the issues surrounding Pinnacle High School.
This proposal will create many new issues to this community that it doesn't have to worry about today.
Traffic, light/noise/odor/environmental pollutants, and loitering, to name a few.

We have learned that this land was approved for commercial rezoning because – according to Arizona State Land department official reply - "**The Desert Ridge Community Association (DRCA) has said additional grocery anchored retail is needed in Desert Ridge.**".

I therefore have the following questions for you to consider;

- Is this proposal all because 1 person on the DRCA was of the opinion that we needed 1 extra grocery for our convenience, whilst we have plenty of grocery stores within 5 miles?
    - Is this person even allowed and authorized to make this statement?
    - What was the basis for this statement? The community was not consulted in any manner.
    - Should it have included a reference to be in compliance with the **existing** Desert Ridge master plan.
- Is this all because the developer has subsequently provided disingenuous information about the number of grocery stores in our area (claiming on Albertsons) by not including stores south of the 101 in their presentation.
    - Does Target groceries and Sprouts express not count in the developers' own Marketplace?
    - Have they substantiated why the existing commercial sites are not appropriate for their plans?
- Should the Arizona State Land Department have looked deeper into this request?
    - its mission is "**to responsibly to manage the State's Land Trust and to generate maximum revenues, through prudent planning decisions for the beneficiaries**".
    - Was "Prudence" applied in this case by the ASLD when they are introducing a commercial center which is deemed "materially detrimental to a neighborhood" and planned right next to schools who should be the beneficiaries? The traffic increase will jeopardize our kids going school.
- Isn't the fact that "Criteria and Standards in Chapter 6 are to **minimize the adverse environmental impact on residential neighborhoods typically associated with commercial development**", recognized in our master plan.
- Isn't it true that there are already sites in the neighborhood which are commercially zoned that the developer can build on?

Please carefully consider your vote on this proposal and would also like to ask you to consider reaching out to the Village Planning committee members to understand their views and reasons for denial.

Please vote to dismiss this proposal in all its forms and let's work together to execute the vision for Desert Ridge, through the Phoenix General Plan, the Desert View Village specific plan and the current Desert Ridge master plan.

Kind regards,
Wouter Roodenburg

Dear Members of the Desert View Village Planning Committee,

We are unable to attend the upcoming Planning Committee meeting; however, we wish to provide you with an update on the developments since our correspondence dated September 1, 2023.

Following our initial communication, the district engaged in discussions with the proposed developers, Vestar. While Vestar presented plans that address some of the school and district's concerns, the full impact of these measures remains uncertain until their implementation is observed.

Furthermore, during this interim period, we have received communications from residents expressing a disfavor for the proposed retail development at the intersection of Black Mountain Blvd. and E. Deer Valley Dr. Rather, their preference is in favor of residential development. The district has been directly asked about its stance on the matter. On behalf of the district, our preference is for residential development. Given the district's declining enrollment, the introduction of additional housing in the vicinity would contribute positively to our enrollment.

Thank you for your attention to these matters. We look forward to collaborating with you to ensure that this development aligns with the best interests of our students, parents, and the community as a whole.

Sincerely,

Troy J. Bales

**To:** tbales@pvschools.net
**Subject:** Vestar's Rezoning Proposal

Dear Dr. Bales -

Unless you have personally been involved with transporting students to and from Pinnacle High School, as I have for the last three years, you cannot appreciate the traffic challenges that occur on a daily basis. Even under the best of conditions, students can be seen darting across traffic, crossing against the light, and jaywalking. Add to that a plethora of parents anxious to get their students to school on time, inexperienced student drivers, and the crush of daily traffic --- you have nothing less than an accident waiting to happen.

We can avoid compounding the already existing traffic issues on Black Mountain Boulevard by prohibiting commercial development there. Vestar's proposed development, or any commercial development, can only promise round-the-clock businesses with round-the-clock traffic. The negative impact far outweighs any alleged benefits.

Please consider the safety and well-being of our students and say NO to rezoning Superblock 12.

Thank you.

**Subject:** Opposition to Vestar Development near Pinnacle High School
**Attachments:** Letter from PVUSD Superintendent.pdf

To Whom It May Concern,

My name is C. Taylor Morgan and I live at 3621 E. Zachary Drive, in Phoenix Arizona in the area of Desert Ridge. My neighborhood is next to Pinnacle High School and the proposed Vestar development parcel at the corner of Black Mountain Boulevard and Deer Valley Road. I have written before speaking of my deepest concerns over this development which was zoned to be residential and Vestar's determination to rezone the parcel as commercial. My concerns are for the increase in traffic coming off the 51 highway and the 101 highway (so busy as it is) which will bring in many non-locals, increased pollution and traffic dangers for residents and students of Pinnacle High School. My home also abuts an open desert and has no border or fence to protect my house and I am concerned also about people cutting through here to get to the development or perhaps unhoused people setting up shelter in this desert area. The corner is already a disaster area for school drop-offs and pick-ups and the increased traffic for the shopping center will make it even worse. It makes no sense. There are plenty of other commercially zoned parcels within Desert Ridge that do make sense for a grocery store, drive-thru food or coffee, or smaller stores. I am pleading with you to see the residents of this area point of view on the dangers of this proposed commercial development and say NO to Vestar. I am including a letter from Paradise Valley Unified School District where they state they are also AGAINST this development. Thank you for your time.

Sincerely,

C. Taylor Morgan

**Subject:** FW: Superblock Parcel 12 - Vestar Rezoning efforts
**Attachments:** Letter from PVUSD Superintendent.pdf

Good afternoon, Mayor Gallego, Councilman Waring, and City Planning Commission,

At last month's City Planning Commission meeting, Vestar Development had requested a continuance for the vote to rezone Parcel 12, located on the corner of Black Mountain Boulevard and Deer Valley. As most of you are aware, there has been a large number of Desert Ridge residents that have opposed this commercial development proposal at this location. Our group made it very clear that we would be happy to meet with their side once they have had their meeting with the Land Department. It has been over a month since you granted the continuance to Vestar and there has been no progress to report. I am very concerned we are going to get halfway through the month of December and the have Gammage request a meeting around Christmas time, when nobody is available. I want to make it very clear on our end that we will not accept another continuance vote on January 4. No modifications to their proposal will make this more likely to pass a committee vote. This development at this specific location is flawed. They know it, you know it, and there's nothing they can modify to make this any better. This continuance should have never happened.

I wanted to forward a conversation I had with the Fireside Community Manager, Eric Molenaar. He has had several residents asking when the rezoning vote was happening. My understanding is that Gammage needed to reach out to all the local communities to let them know about this continuance and when the new date was for this vote. They told me, personally, that every local neighborhood has been contacted to let them know about this scheduling change. If this is the case, why wouldn't Eric Molenaar have been contacted? This is a serious problem that can't go overlooked. Fireside is one of the two most impacted neighborhoods. Our group can't reach everyone in Fireside and Sky Crossing. We rely on the assistance of these community members to reach our neighbors. They were supposed to be informed.

I hope you take this into consideration on January 4 at this rezoning vote. Two months is a very long time to keep the opposition group energized and willing to mobilize. Being deceitful and not doing what you said you were going to do is just wrong. Gammage and Vestar are both hoping they can outlast our interest, and that is not happening. Over the past month we have added the support of several PVSD school board members who plan to speak at the January meeting. Dr. Bales, Superintendent, heard our concerns as well and submitted a second letter from the PVSD, supporting residential development. See attached for a copy of a letter he shared with the Desert View Village Planning Committee on November 29. I'm sure it would get forwarded to you all at some point. I'm just expediting the process.

I stand with Dr. Bales. I feel residential development at this parcel would be better suited for the school, the local neighborhoods, and just the overall traffic we already have issues with.

Thank you for your time,

Dan Richards

**Subject:** Black Mountain Village Proposed Development

All

I am hearing that the developer is going to yet again request another extension to their application currently pending to be heard January 4, 2024. This is unacceptable, as a resident directly affected by this the developer has had more than enough time to address concerns raised by the community.

This extension should not be granted and this application should be rejected and follow the vote of the Desert View Planning Committee. This development is not needed and is not what was planned for this residentially zoned parcel of land.

I urge to deny any extension request and reject this proposal

Mike Coppola

I'am just shocked that a company called Vestar can come in an try to change our area into a commercial area when it was slated to be family homes or Condo. We do not need a grocery store, gas station in that area. There is a High School, grade school which would be indated with heavy traffic, which we are already dealing with. There is plenty of land just off Cave Creek Rd with traffic going up and down who would love to see a grocery store! Please take care of this Vestar Company and their idea!!! Very very unsafe idea! 🙏

**Subject:** GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2 BLACK MOUNTAIN VILLAGE JAN. 4 2024

Dear Commissioners, Councilman Waring and Mayor Gallego:

My name is James W. Tuffin, and I reside at 21214 N. 36th Pl., Phoenix AZ 85050. I write to oppose the applicant's anticipated request for a further continuance of the matter before the Planning Commission and I urge the Commission to reject this ill-conceived project. The Commission should deny any request for a continuance, compel applicant to proceed, and follow the Desert View Village Planning Committee in recommending denial of the applications.

It appears that Vestar is simply trying to run the clock against the surrounding residents, who have jobs to keep, bills to pay and children to take care of. Vestar has the superior resources, and an army of attorneys, to try and sow confusion and heap inconvenience upon people who don't have the resources to devote full time efforts to opposing this. Unable to defend its scheme, Vestar is trying to use the process to wear out its opponents.

The Desert View Village Planning Committee voted overwhelmingly against Vestar's request for a major amendment of the Desert Ridge Specific Plan, an amendment of the City of Phoenix General Plan, and rezoning of a portion of Superblock 12, which is currently owned by the State Land Department.

When the matter came before the Planning Commission in November, Vestar's counsel said that Vestar needed time to consult with the State Land Department and the community. I spoke and requested that Vestar be instructed to make any revised plans available in time for the community to respond before the next hearing date. The Chair indicated that Vestar and its counsel were so instructed.

On December 11th, I and two other community members accepted an invitation to meet with Vestar executives Ryan Ash and David Larcher at Vestar's offices. In accepting the invitation prior to the meeting, I informed Vestar that we expected it would take the opportunity to present the revision to its plans.

At the meeting, Mr. Larcher informed us, in essence, that Vestar did not intend to "submit anything different", unless Vestar could be assured that elimination of fuel sales, and reducing the size of the grocery to store to 65,000 square feet, would cause the community to "get comfortable" with the project. Vestar said it would do nothing about the multiple drive through operations, except to make sure the squawk boxes could not be heard from across the street, and perhaps adjust the size of a wall. Mr. Larcher emphatically stated that Vestar was not ready to proceed and would be requesting a further continuance at the January 4, 2024, meeting.

By email on December 18, 2023, I advised Vestar that I intended to oppose its request for a further continuance and that I expected other community members would do the same.

The Commission should note that the original site plan submitted by Vestar showed no fuel sales and a 64,000 sq. ft. grocery. It then filed a revised plan showing fuel sales and a much larger grocery store. A reasonable person would suspect that Vestar set up the fuel sales as a straw man so that it could make a pretense of being responsive to community concerns.

Vestar said it does not intend to submit anything different, so there is no reason to grant a continuance, which is designed to exhaust opposing residents by dragging out the process.

Thank you for your attention to this matter.

Sincerely,

James W. Tuffin

**Subject:** GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2 BLACK MOUNTAIN VILLAGE JAN. 4 2024

***Dear Commissioners, Councilman Waring and Mayor Gallego:***

On November 4, Vestar was given a 2-month continuance to allow them to revise their plan for a proposed commercial development on approximately 20 acres in Superblock 12. As of this date Vestar has not revised their plan. In fact, in a December 11, 2023 meeting, they informed representatives from the Fireside neighborhood they had no intention of revising their plan.

A further continuance is unjust and unfair to all of us living in this area. We are prepared to present our position on this issue. By now, Vestar should also be prepared.

We ask that you veto Vestar's request for a continuance and allow us to proceed with this matter when you meet on January 4.

Thank you.

**Subject:** GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2 BLACK MOUNTAIN VILLAGE JAN. 4 2024

Dear Members of the Phoenix Planning Commission, Councilman James Waring, and Mayor Kate Gallego,

I am writing to express my concerns regarding Vestar's proposed plan to rezone Superblock 12 from R2 Residential to C2 Commercial. I have followed this issue since its inception and have witnessed Vestar's ongoing misinformation campaign to promote its proposed commercial development.

Vestar's proposal includes a 95,582-square-foot pad for a **major** grocery store with fuel pumps and **six** fast-food restaurants with drive-thru windows. The proposed grocery store pad is approximately 40,000 square feet larger than the one at the nearby Albertsons grocery store. Vestar's own traffic study acknowledges the current traffic problems in the area. That study also admits that Vestar's proposed development would "generate 10,660 weekday new daily trips." These increased daily trips will exacerbate the already existing traffic problems. Not to be overlooked is that Vestar's proposed development is immediately adjacent to a 2,500-student high school.

Despite overwhelming opposition from residents and a humiliating defeat at the Desert View Village Planning Committee hearing, Vestar wants to delay the day of reckoning. Even though it was granted a 60-day "conditional" continuance, Vestar has not modified its plan to assuage community concerns. Vestar's opponents will be ready to present their case on January 4, 2024. Given its access to stellar legal talent to present its case, Vestar should also be prepared to move forward on January 4, 2024.

It is apparent Vestar has done nothing to convince anyone to change their minds. Therefore, I respectfully request that Vestar not be given another continuance to delay the inevitable. The proponents and opponents of Vestar's proposal should be required to present their cases at the Phoenix Planning Commission on January 4, 2024. Thank you for considering my position on this issue.

Dear Planning committee members, Mayor, Councilman,
When is enough, enough? That will be the question on the upcoming January 4th review meeting for a possible continuance request for this case.
Me and the 842 petition signers find this unfair and unacceptable request and so should you.

A quick summary of events timeline that will show that Vestar has now had 10 weeks to take actions and has done nothing significant;

- Rezoning case:
  - Vestar is seeking to rezone 22 acres of the 77 acres of land from Residential to Commercial which is part of Superblock 12-section L.
  - The land is owned by the ASDL and is situated with the Desert Ridge Master Community, adjacent to Pinnacle High School and a block away from Fireside Elementary School.
  - Residents oppose ; (See previous case material for full details)
    - due to the proximity of alcohol and cigarettes and fast food sales near schools.
    - And Paradise Valley School district has sent 2 letters in which they share significant and valid concerns.
    - due to the increasing traffic safety issues and pedestrian casualties (evidence by Vision Zero – Road Safety Action Plan)
    - the widely known detrimental impact and pollution of commercial centers on our respected community. (Noise,Light,Odor,Gasoline,Idling cars, etc)
- On August 25th ,2023 – Lennar Construction has applied for the remainer 55 acres of Superblock 12L for Single Family Residential development.
  - This is what Superblock 12 is already zoned for. (Residential 2 to 5 du/ac)
  - This is already approved in the Desert Ridge master plan and is in line with the Phoenix general plan.
- On October 3rd, 2023 - **by a vote of 9-1 - this rezoning request has already been denied by our Desert View Village Planning committee**. Committee members that are appointed by the councilman and represent and live in our area.
- On November 2nd, 2023 we appeared at the Planning Committee meeting where we learned that Vestar requested a continuance and even negotiated with the opposing core resident group to make it 60 days – because of the holidays, etc.
  - The reason that they provided was that they needed to have another review meeting with the ASLD to review their amendments.
  - We agreed on the condition that they would share these changes in time for our review and that stipulation was noted by the chairman.
- On December 11th, 2023 the opposing core resident group was invited to meet with Vestar executives to review these changes.
  - However, nothing was further from the truth.
  - They shared that no meeting with ASLD was held, no changes were made.
  - This meeting was clearly a bait-and-switch for an opportunity to find out what changes we might be comfortable with.

- The meeting ended with a verbal commitment that they would be willing to drop the gas station and reduce the grocery size to 65,000 sqft. (Their original submitted and approved plan submitted with the state….)

To put insult to injury, Vestar also announced during December 11th meeting that they would request for another continuance on January 4th.
**This is where we draw the line. Vestar has had 10 full weeks to work on their proposal and did nothing!!**
Whilst Vestar is claiming to care for Desert Ridge and boasts about their involvement, the blatant stalling tactics deployed in this case should not be tolerated and residents should not be asked to have this request hovering over our community for any longer.

Based on this, I ask the committee to consider to deny this potential request as it's baseless, holidays were already factored in last time and now it will start causing undue hardship for our community.
We're fighting for our community character and Residents cannot be asked to fight Vestar, their disingenuous actions and their attorneys for much longer. It's not a level playing field.
Families that already have busy lives and volunteers like yourselves shouldn't be treated like this by Vestar and their attorneys.
The January 4th meeting is in the middle of our school vacation! We shouldn't be asked to come to meetings where nothing new is being discussed, nor should this committee.
Our residents are prepared and ready to present our opposition case.

We compel this committee to move forward with the review and voting process on January 4th, and hopefully you will agree with us and the VPC that it should be dismissed immediately and without compromise.
Any consideration to grant a continuance request should have very specific objectives and deliverables that Vestar will be held accountable for.

My name is Wouter Roodenburg and live on 21507 N 39th Terrace in Phoenix and I'm a long time resident of Fireside in Desert Ridge and I oppose the case.

I appreciate your consideration.
Regards,
Wouter Roodenburg.

**Cc:** Mayor Gallego; Council District 2 PCC
**Subject:** Case #GPA-DSTV-2-243-2/GPA-DSTV-3-23-2/Z-39-23-2

Good morning.

As I was riding my bike around the Desert Ridge neighborhoods, I was struck by one of those ubiquitous panhandling cardboard signs and it got me thinking whether crime and panhandling increases when a neighborhood goes from residential to mixed-use and /or commercial.

Of course you know the answer to this, and I won't insult your intelligence by bombarding you with studies and data. I will, however, beg you to prevent this from happening in our neigborhood! Please, please, please do not allow a change in zoning! We moved to Arizona, and specifically Desert Ridge, from New York, because it was a neighborhood. Lots of families with kids. Peaceful and safe. And we certainly do not need anymore "services"; we have everything we need within walking/biking distance. Ten gas stations within three miles is more than enough.

Please end this discussion and keep the zoning residential. Please do not allow Black Mountain Village to ruin our idyllic neighborhood.

Respectfully,
Jon Agins
Fireside at Desert Ridge resident

Good day, and Happy New Year-

I am writing as a resident of the Fireside at Desert Ridge Community, and would like to ask that our planning Commission members vote no on the planned development for the land adjacent to Pinnacle High School. Our request is to leave the land as it was originally zoned. We are not interested in commercial development in this space. Please vote no on the zoning change items.

Thank you.

Hello Mayor Gallego, Councilman Jim Waring, and the Planning Commission:

I am writing to officially and formally communicate and record my vote against the zoning change and proposed Vestar project along Black Mountain Road and Deer Valley. INCLUDING their request to remand/revert BACK to the Desert View Village Planning Committee that they have asked of you to consider at this coming meeting On Thursday, Jan 4th.

I attended the **Desert View Village Planning Committee meeting where they voted 9 to 1 AGAINST** the zoning change and proposed Vestar project. This vote took place after Vestar's presentation and after hearing comments from MANY community residents.

I live in Fireside, on the east side, I was against the project the day I received a letter in the mail from the City of Phoenix outlining what was taking place around that property.

I have lived in Fireside since 2009.

- I am not a parent, but saw first-hand the **stress** in the voices and faces of the many parents who spoke out against the zoning change and project.
- The City Council, and the State, have an obligation to stand by the original plan, to honor the Desert View Village Planning Committee vote, and the many residents who signed a petition against the project, and the many residents that showed up to express their reasons why they are against the project.
- One resident, observing current traffic conditions, works from the 2nd floor of her home looking over Deer Valley Road to the south, which looks at Pinnacle High School – she cannot even count the accidents and near misses of accidents in the immediate area including kids nearly being struck by cars from crossing the street(s) in the area. **We do not need more cars in the area**. What would Vestar want? A big project that attracts all kinds of traffic to infiltrate the area and shop, eat, and whatever else. Bad plan for us, the people that live here.
- The Vestar representative presented nothing of value or substance to change anyone's mind in attendance against the zoning change, including mine. Very unattractive project.
- The entire project is loaded with **NUISANCE'S** to the entire community: big lights, more traffic, more noise, more car pollution, litter, accidents, congestion, squawk boxes from drive throughs, ugly big buildings **set right in the middle of a major high school and homes**.
- Parents have enough stress just raising their kids and getting them through school, they do not need all the added stress this zoning change and project would bring to our community
- No longer would it be pleasant to walk, bike, jog, walk the dogs along Black Mountain or Deer Valley – this zoning change serves nothing but developer interests, revenues to Vestar, and revenues to the City/State with no regard to an existing community and the existing plan of the community.
- We all bought our homes here because of the very nature of the Desert Ridge area and having the commerce centralized elsewhere, such as IN the Desert Ridge main shopping center and other shopping venues all around the area.
- There is PLENTY of groceries and fuel options all around the area – we do not NEED more, or this, HERE.
- One of the Desert View Village Planning Committee members is I believe on the Cave Creek School District and confirmed what a **bad idea it is to put a shopping center next to a high school**.

- I have a business associate that is a Commercial Broker in the valley with a significant firm and has loads of commercial real estate experience, this individual agreed **the parcel in question is NOT the place for the Vestar project**.
- The zoning change and proposed project is **not welcome** by numerous, numerous residents.
- We do not need a shopping center here adjacent to Pinnacle High School, existing neighborhoods, down the street from horse property, and down the street from the Reach 11 soccer fields where you have a bunch of families/KIDS all year round in and out of the area.
- By far the majority of the residents want to see single family housing, preferably, built on the property. I understand that Lennar may have purchased property west of the proposed Vestar project? GREAT. The valley needs more homes, NOT more shopping centers near a high school, homes, and a soccer park. How about having Lennar buy property that Vestar so unjustly wants?
- Even the Superintendent from the PV School District, see attached, does not want Commercial Development, they want homes and students. Please honor what came before Vestar. They, nor any commercial developer, deserves to overturn and trump what came before and was well established.
- Your job is to listen to the 'people', not just big corporations that have millions to spend to get their way.

**Where are the city planners? The Desert View Village Planning Committee already designed the area. We want the plan upheld.**

If asked what would we accept:
**Walking paths, a park area, and <u>more homes</u>**. The valley has a shortage of homes, everyone knows that. Rates will be coming down next year, home builders will want this flat land. That is who should be developing the property.

**There are other areas to build commerce, this is not it, this project is not welcome here, nor the zoning change.**

**Please do not mis-use power or make decisions based on revenue here.** The city and the state have many other ways to generate revenue. Please be responsible here, you are impacting many, many families and an established community.

This entire process is UNFAIR. Vestar is a large development company with deep pockets. We are residents trying to protect the area, our homes, our well-being. We do not have lawyers and other resources to access to help us fight back.

I believe it is the State's duty to uphold the original plan. Nothing else respects what came WAY BEFORE Vestar AND the residents here.

Please do the right thing – thank you,

Karen Bottesch

To whom It May Concern,

In exploring the information on the proposed rezoning of Superblock 12 in our community, I wanted to express my concerns and "no" vote on this land being used for commercial use.

While living in the community for nearly 18 years, this would have a negative impact on the overall feel which is contrary to what the developers are trying to market to us. The increased traffic would contribute to further noise pollution as well as the increased opportunity for crime and trash.

This property is directly across the street from a large high school where new drivers try to sharpen their new skills and this commercial development would lead to an increase in accidents as well as fear of children / pedestrians being hit while walking to the surrounding schools from this intersection (1 high school, 1 middle school, and 2 elementary schools within a 1 mile radius).

We have seen migration of homeless around our community, near the Desert Ridge mall, and could only see the future migration to this new shopping area which is a huge safety concern for my family and other neighbors who bought in the area for the enjoyment of being able to walk or ride to neighborhood parks and trails.

Lastly, adding a grocery store no matter small or large would not serve a purpose of improving our service needs. We already have plenty of choices in a short distance around us within a 5 mile radius of this location.

Thank you for taking the time to accept and hopefully take our concerns into account.

Greg Nelson

**Subject:** Opposition to rezoning from residential to commercial

Hello,

My family and I live in a nice community called SkyCrossing which is in a quiet and pleasant part of North Phoenix. A developer ( Vestar ) is trying to get the land across the road rezoned to have a large store. This is apparently going to be a Fry's with a gas pump and all.

This project sits next to Pinnacle High School which means students will be in the immediate proximity of a store selling liquor.. Besides the pollution caused by having a gas pump in an area surrounded by residential communities it will also add to congestion on Black Mountain Boulevard. Despite their promises there will be invariable light pollution . Further given the availability of alcohol and, cigarettes the area becoming a gathering place for transients is almost assured.

There are enough grocery stores in the area with Costco just a couple of miles away and the Desert Ridge Mall in a similar radius.

The local community does not want this rezoning to occur and Vestar's proposal was soundly rejected 9-1 in the Village Planning Committee. However Vestar continues to seek approval now from the City Planning Committee. Perhaps they feel that involving people who are not immediately affected might result in a favorable decision for them.

I would request that as the custodians of this wonderful city which draws people from all over, you look out for the local community and accord the natural primacy to their expressed opinion.

I therefore write to plead the case that this rezoning not be allowed to occur.

GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2 Southwest corner of Black Mountain Boulevard and Deer Valley Drive

Thank you

Amit

**Subject:** Black Mountain Vestar Proposal

To City Planning:

In regards to development at the SW corner of Black Mountain and Deer Valley roads, we are opposed to this for the following reasons:

The initial plan for this property was residential. We bought our home with this understanding that it would remain that way. A development of this magnitude would forever change our neighborhood by increasing traffic, noise, air pollution, light pollution and very likely crime. The development is geared around vehicles and not walking like the developer would like you to think. It will draw more people from neighboring communities into this area which will have a negative effect on our quality of life.

There is no shortage of gas stations, grocery stores or fast food restaurants and businesses as they are close by as it is. The noise and car emissions from the multiple drive thru businesses will have a negative impact on our air quality. This is where we chose to live because it is away from these types of services, and we would like it to remain that way.

There are plenty of other places that are more ideal for this type of proposal that are already properly zoned for it, and that would not negatively impact neighboring residential communities. We respectfully ask you to decline the request to change this zoning to commercial from residential.

Sincerely, Mike & Debbie Bolde.
Phoenix Az 85050

**Subject:** GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2 JAN. 4 2024 # 2,3,4

Dear Commission members, Councilman Waring, and Mayor Gallego:

Vestar doesn't get it! We don't want to hear any more proposals from them. We are fully aware of what a commercial development, such as theirs, promises to deliver, namely, student safety concerns, home security concerns, air pollution, light pollution, noise pollution, and more traffic congestion than we can imagine. Vestar's very own traffic analysis in 2022 states that if Vestar were to build on Superblock 12, we could expect more than 10,000 additional vehicles daily at that location. Add those 10,000 vehicles to the already inordinate number of vehicles navigating Black Mountain Blvd., Mayo Blvd., and Deer Valley on a daily basis, and we have a disaster waiting to happen.

In his September 1, 2023, letter to the Desert View Village Planning Committee, Dr Troy Bales, Superintendent of Paradise Valley Unified School District, expressed his concerns with Vestar's commercial development. He wrote: “We are concerned that the proximity of the shopping center to our school may lead to an increase in tardiness and truancy.” He further stated: “… we have serious reservations about the impact this project will have to the safety of our students.”

In his second letter to the Committee dated November 29, 2023, Dr Bales summarized his opinion concerning Vestar's proposals with the following statement: “[W]e have received communications from residents expressing a disfavor for the proposed retail development at the intersection of Black Mountain Blvd. and E. Deer Valley Dr. ...their preference is in favor of residential development. The district has been directly asked about its stance on the matter. On behalf of the district, our preference is for residential development.”

It should be apparent why Superblock 12 was zoned residential from the onset and why it should be kept that way. The land is immediately adjacent to Pinnacle High School and one block from Fireside Elementary School. Pinnacle Park, Pinnacle Skate Plaza and the Pinnacle Dog Park are nearby, as well. That makes Superblock 12 perfect for residential development and a perfect fit for our neighborhood.

Please say “No” to Vestar’s request for a continuance.
Please say “No” to Vestar’s commercial development proposal and their rezoning proposal.

Thank you for your consideration in this matter.

As a resident who lives in Desert Ridge, I oppose the rezoning of the parcel on the Southwest Corner of Deer Valley and Black Mountain Pkwy. This parcel was included in the Desert Ridge master plan as residential and rezoning will create increased traffic, poor air quality, increased noise pollution, loitering, homelessness, and a dangerous environment for high school students.

I ask that you keep the zoning as residential as approved by the committee in a previous meeting.

Do not rezone this parcel and go against a master plan that us homeowners and residents agreed to.

Thank you!

Vicki

Commissioners, Councilman Waring and Mayor Gallego:
I am appleaing to you to oppose the applicants aniticipated request for a further continuance of the matter before the Planning Commission on January 4th 2024 by Vestar represented by Gammage and Burnham. On November 2nd 2023 Vestar was given a continuance of 60 days to revise there plan, accommodate for the holidays and meet with the State land dept. Vestar instead decided to waste the past 60 days and now wants to waste more of your precious time and resources to stall some more so the residents of phoenix will eventually loose interest. You see on October 3rd 2023, after hearing all the agruments brought forth by the people and Vestar/Gammage and Burnahm the Desert view village planning committee voted 9 to 1 against this rezoning.
Paradise Valley school district has also sent 2 letters opposing this rezoning because its right next door to the high school when there is commercial zoned land right up the street. To date there have been 848 people who have signed our petition against this rezoning. Please stop the wasting of taxpayer money, resources and your precious time and SAY NO to the continuance and let the people speak against this and present all the facts.
Thank you for your time and for all you do for our great city!

Following are my comments for the Planning Commission Meeting on January 4, 2023 regarding Agenda Items 2, 3, and 4, Case Numbers GPA-DSTV-2-23-2, GPA-DSTV-3-23-2, Z-39-23.

---

I oppose this zoning change due to two major concerns. The same concerns were cited by members of the Village Planning Committee when they voted nearly unanimously to recommend denial.

Commercial development poses a threat to the security of the high school campus and students. Schools have increasingly become targets of mass shootings. Child predators prowl streets near schools. This is not hysterical conjecture; this is a fact. Commercial development will bring a great many more people who will share sidewalks with students and many vehicles that will share the same streets. It will be nearly impossible for neighbors to identify someone or something that is out of place. Additionally, it will be more difficult for school staff to monitor their own school driveways and parking lots which are directly opposite the two shopping center driveways on Mayo Blvd.

Commercial development of this parcel is a major change to the Desert Ridge Specific Plan and the Phoenix General Plan. The City of Phoenix itself carefully crafted this plan to limit commercial retail development to the Desert Ridge Marketplace shopping area. Introducing commercial development to residential areas is very likely to negatively impact the community and it would certainly call into question the integrity of any Phoenix plan.

Neither one of these concerns can be addressed with changes to Vestar's conceptual plan. The solution: this parcel remains residential and Vestar develops a parcel zoned commercial. For this reason I ask you to deny the continuance and recommend denial of the applications tonight.

Dear Commission members, Councilman Waring, and Mayor Gallego:

I cannot improve on the well-reasoned e-mail sent to you earlier today by Mr. James Tuffin. Therefore, I am reproducing Mr. Tuffin's e-mail below to support my request that the PDD Planning Commission DENY Vestar's request for an additional continuance. The time has come for those in authority to put an end to Vestar's latest "charade" -- defined by Oxford's English dictionary as being "an absurd pretense intended to create a pleasant or respectable appearance."

Respectfully submitted,

Paul Dunn

---

Dear Commissioners, Councilmember Waring and Mayor Gallego,

My name is James W. Tuffin and I reside at 21214 N 36th Pl, Phoenix, AZ 85050.

I write to supplement my previous comments, and more specifically, to object to Vestar's most recent request to not only delay the determination of its applications but to remand the case to the Desert View Village Planning Committee (DVVPC), which rejected the proposal overwhelmingly. This request is designed to wear out and confuse community opponents and does not serve any legitimate purpose.

The Land Use Principles published by the DVVPC includes the following:

Encourage properties and neighborhoods planned for residential use to continue as residential uses rather than being assembled for nonresidential development. (Cave Creek Road, Deer Valley Road) [Desert View Village Character Plan, p. 12, 022218 DESERT VIEW Character Plan.indd (phoenix.gov), (accessed 01/02/2024)] [emphasis supplied].

As demonstrated in my earlier correspondence, Black Mountain Village does such extreme violence to the character of the neighborhood, the Desert Ridge Specific Plan and established land use principles for the area that it should be rejected out of hand. In its lawyer's letter requesting remand, Vestar does not deign to disclose what revisions to its plan it expects to present. At a December meeting with Vestar executives, I was told that apart from the possible elimination of gasoline sales (gasoline sales are an add-on that were not part of Vestar's original site plan) and a scaling back of the grocery operation (also nothing more than a reversion to the original site plan), Vestar did not intend to submit anything different. We were told that Vestar

fully intends to proceed with its plans for multiple drive through operations for coffee and "quick serve" (probably junk) food.

The Commission should deny applicant's request for a continuance, deny any remand, and proceed to recommend denial of all 3 applications.

Thank you for your time and attention to this matter.

**To:** Mayor Gallego; PDD Planning Commission; Council District 2 PCC
**Subject:** RE: GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2 BLACK MOUNTAIN VILLAGE

I am a current resident of Copperview in the Fireside neighborhood of Desert Ridge. Our home is on Abraham Lane and is less than a block from the intersection of Mayo and Black Mountain Blvd, across from the highschool and the proposed Vestar development. I am adamantly opposed to said proposed development.

Every school morning about 7:20, twenty to thirty students crowd the corners waiting for the WALK light and cars are lined up waiting to drop students off at Pinnacle High School while cars speed down Black Mountain heading to the freeway. Around 2:00 parents start parking in the bus stop space on Mayo and along neighborhood streets to pick up their children, and those streets are not wide enough to accommodate the number of parked cars we are seeing. At that time of day we still have students crowding the corners and in addition students roar out of the parking lot and around the circle heading to AZ51. Accidents have happened and will continue to do so. Until now, as far as I know, there have been no fatalities, but I am not holding my breath!

Into what is already a risky safety issue, Vestar proposes adding a shopping center with a grocery store, a gas station, and several drive through and stand alone businesses. At least that was the proposal when the planning commission denied their rezoning request. If the property is rezoned and the shopping center is built, there will by default be an increase in traffic, including large delivery trucks coming off the freeway. This means more air pollution, more noise pollution, and for those backing on to Black Mountain more light pollution from the center.

I am a retired high school teacher, and I love to walk around the neighborhood during our pleasant months. Nothing would make me happier than being able to walk to the store for a few items or meet friends at a coffee shop, but not at the expense of the safety of our children or the diminished intrinsic value of my neighbor's homes. Whether the monetary value of the homes backing on to Black Mountain Blvd increases or decreases is not something I can determine, but the fact that they will no longer be able to enjoy their backyards or perhaps even enjoy a restful sleep due to light pollution is easily determined and matters to us all.

The proposed shopping center will be a temptation too strong to resist for many of the high school students. Even though the sale of the land (to my understanding) will provide money for Arizona schools, it is not in the best interest of the schools and students to rezone this land for commercial and allow Vestar to build the shopping center. It is my understanding that the principal does not think it is a good idea. Students will stop on their on their way to school, sometimes being tardy due to a wait in line. Students will cut class to go get a snack there. Students will head over there for lunch, causing large numbers of unsupervised students to congregate together. As a former high school teacher, I can envision all types of scenarios with very negative results. I cannot think of one reason to put a shopping center in an area zoned residential when we have a shopping center with an Albertson's and a Target with a grocery less than five minutes away.

Please vote NO to a continuance and NO to rezoning.

**Subject:** Black Mountain Village concept: GPA-DSTV-2-23-2/GPA-DSTV-3-23-2|Z-39-23-2

Dear Mayor Gallego and Phoenix Councilmembers,

I am writing to implore you to vote against the Black Mountain Village development concept that will be presented at tomorrow's City Council meeting. This is NOT a concept that will enhance the area at Deer Valley Rd and Black Mountain Blvd. This is NOT a concept that carries the City's vision for connected oases forward. It's a tried and failed development notion that shows a lack of both imagination and understanding on the developer's part of what the surrounding community wants and would welcome.

Phoenix already has too many giant grocery stores, drive through coffee shops, and ocean-sized parking lots. This unsustainable development concept has been proposed yet again in GPA-DSTV-2-23-2/GPA-DSTV-3-23-2|Z-39-23-2 and promises to deliver the same result, without due care for the high school immediately next door and the unique, walkable, residential character of the surrounding neighborhoods. To call this concept a "village" is misleading and shows the developer has no true grasp of reality of village characteristics. I hope you will vote wholeheartedly against this proposal in the interest of sustainability, safety, and community. Thank you for your consideration.

Best,
Ellen Kennedy

RE: Case # GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2, Black Mountain Village

To Whom It May Concern:

As a resident of Sky Crossing Community and a concerned citizen, this is to request a denial of the above application(s) to rezone.

The area of concern is currently zoned for residential, primarily because it is bordered by Pinnacle High School, and in close proximity to Sky Crossing, Fireside, and Aviano residential subdivisions. This area is already impacted by heavy traffic, especially during school hours. All neighborhoods are within seven minutes to shopping at Desert Ridge, including grocery and service station, as well as five minutes away from retail and service stations near Cave Creek Rd. and Rose Garden Ln. Costco is ten minutes away. The argument by developers that this development is needed does not hold water.

Additionally, the aforementioned neighborhoods will be negatively impacted by undesirable elements, such as unwanted foot traffic and panhandlers migrating from the intersection of SR101 and Cave Creek Rd., five minutes away.

It is my understanding that the majority of residents in the area are against the proposed rezoning effort. With this in mind, it is a sensible decision that this rezone application(s) be denied forthwith.

Yours truly,

Robert W. Abbott
Sky Crossing Resident

Report Suspicious

The proposed retail center site plan (revised) NOW includes a NEW MEDIAN on Mayo. This median will BLOCK a vital left hand turning movement from Mayo into the PHS parking lot. This will result in many U-turns or push nearly all PHS traffic onto Black Mountain Pkwy single entrance. The prior site plan did NOT include a median on Mayo.

Pinnacle High School's (2,550+ students) operations should not affected by the new retail center. Vestar's revised site plan does not meet the needs of PHS traffic. The aerial picture on G&B website cuts off the school parking lot entrances. With this major change to PHS turning movements, the aerial should be updated accordingly.

Additionally, AZ State Land and PVUSD need to work on a parking solution for PHS before the land auction to any developer. Special events overflow onto State Land property (100+ cars park in desert). There will be major conflicts in future when PHS and retail center are fighting over parking.

Report Suspicious

Black Mountain Village retail development has been proposed for over 12 months now. The land seller (AZ State Land Department) and PVUSD have not addressed the existing parking problem at Pinnacle High School. ASLD should not auction the property immediately adjacent to the high school to any developer without working with PVUSD to fix this issue. Pinnacle High School needs at least 250 more parking stalls for everyday use and special events like football, basketball games or meet-the-teacher nights. During special events, 100+ cars overflow park in the desert on the future grocer site. These cars will simply park in Fry's parking lot in the future, creating a logistical nightmare for everyone including the grocer and retail tenants. The parking issue is not going away as Pinnacle adds students each year.

Report Suspicious

Dear Anthony Grande,

I am writing today regarding Vestar's updated proposals (case numbers) GPA-DSTV-2-23-2, GPA DSTV-3-23-2, and Z-39-23. As a resident of Desert Ridge, I oppose Vestar's updated proposal for rezoning the Southwest Corner of Black Mountain Boulevard and Deer Valley Drive from Residential to Commercial/Retail for several reasons.

First, Desert Ridge is a highly desirable planned ***residential*** community that continues to attract buyers willing to pay a premium for a prime location. Adding commercial/retail mixed-use space in the middle of our community would decrease the desirability of Desert Ridge and lower the values of residential real estate within the community.

Second, the traffic flow within Desert Ridge is already too great for the limited infrastructure within the community. Pinnacle Peak High School is located adjacent to the proposed site. The traffic caused during the morning/afternoon pick up/drop off combined with regular commuting already creates a safety issue on Black Mountain and Deer Valley, with vehicles backed up in every direction. Adding unnecessary commercial/retail space would only increase the traffic and lead to safety issues.

Third, there is simply no need (or desire) for mixed commercial/retail space in the middle of single-family homes. The area has more than ample shopping options - Desert Ridge Marketplace, High Street, and shopping off of Cave Creek Rd and the 101 are all within an extremely close distance. Finally, creating a commercial/retail space in the middle of a residential area will bring increased instances of crime, which, when coupled with declining property values, would limit the marketability of Desert Ridge.

Finally, the entire process by Vestar has been disingenuous to the residents of Desert Ridge even seeking outside influence/support by non-community residents to showcase support with Facebook ads. The adjustments made by Vestar do not remedy concerns of a commercial development in a pristine residential area. Allowing this proposal to go forward will put a serious blemish on Desert Ridge's reputation.

Given the detrimental impacts on our home values, marketability, safety, noise pollution, and increased traffic without adequate infrastructure, these proposals should be denied. Please do not hesitate to reach out if I can provide any additional information.

Regards,

Christian Klein

Report Suspicious

Hello Mr. Grande and the Desert View Village Planning Committee,

I wanted to share a couple of photos that are good depictions of the traffic that is currently a problem at the intersection of Deer Valley and Black Mountain Boulevard. Vestar's Black Mountain Village will only make this more of a nightmare.

This first photo is showing several vehicles from the southbound lanes of Black Mountain Blvd blocking the intersection after their light turned red. These vehicles never made it through the intersection while the Deer Valley left turn light was green. Now what we have are vehicles from two directions stuck in the middle of the intersection. Northbound and Eastbound traffic are completely stuck and cannot get through while they have a green light. It's total gridlock.

The second photo is a view from the first vehicle in the left turn lane on Deer Valley, trying to turn south on Black Mountain Blvd. You can see there are so many vehicles blocking the intersection that vehicles either had to wait for another cycle or be selfish and enter the intersection and block even more traffic once the light changes. Eastbound traffic is completely blocked at this point. Vehicles in the left turn lane were being considerate and waited another cycle before trying to enter the intersection.

This is a daily occurrence at this intersection. The level of service for this intersection is already failing. If this is a simple fix by adjusting the intersection timing with Black Mountain and Mayo to alleviate this problem, then this should be taken care of immediately. If this isn't a simple fix, then adding this Black Mountain Village is going to create even more of a mess at this intersection.

Please consider the residents that must drive through these intersections on a daily basis. It's already a nightmare to deal with. I am asking you to please reject Vestar's proposal to rezone this property. The neighbors that live nearby want to see this stay the residential portion of the Desert Ridge master plan that we all expected when we bought our homes.

Thank,
Dan Richards

Report Suspicious

Hello Anthony,

I hope this email finds you well. We met back in November of last year at a City Planning meeting regarding the above rezoning hearing.

Last night, Vestar's attorneys, Rob Lane, Senior Land Use Planner of Gammage and Burnham along with other lawyers held a meeting at Aviano to discuss their updated plans for the Black Mountain parcel. It seems as though they did listen to what the residents had to say about many concerns and reworked their plan but there are still items that are just not acceptable. Mr. Lane went on to say that our local Albertsons was just way overcrowded and that there needed to be another choice for the residents. Vestar's plan was originally billed as this was going to be a "boutique" shopping center and now it is being deemed "necessary." But last night, just as they assured the audience that this was a good thing and so desperately needed, they spring on us that there will be a bus stop to this shopping center. This raises concerns for not only me but many folks that I have spoken with today. I believe Mr. Lane explained that it was the City that decides where the bus stops are installed. Can you verify that information for me? My issue all along with this plan is what this is going to do to our neighborhood. This was not in the original master plan of Desert Ridge to have a shopping center inserted in the middle of our community to begin with. I was beginning to have a little acceptance of Vestar's plan - I did feel that they made a good second attempt at trying to mitigate the concerns of the residents. But with the bus stop being added, it just brings up for me that fact that what happens at bus stops and what it may attract. It is one thing to have a bus stop on Tatum Boulevard just south of Deer Valley, a major thoroughfare but not in the middle of a neighborhood. My argument here is that if you can afford to live in Desert Ridge you are more than likely not riding a bus.

And of course there is still the issue of Pinnacle High School and the parking issue. Those students will invariably park at the shopping center - it will just be a constant battle. And, what about the overflow parking for families as they attend extracurricular events such as the football games - they always used that lot. Is the shopping center prepared to let everyone use their lot for these events?

Thank you for again for your time.

Report Suspicious

Dear Rob & Anthony,

I would like to request a traffic study of 36th Way and 36th street as shown in the attached pictures to be included as part of Vestar's petition to build a commercial property across from Pinnacle High School.

I believe this street has been overlooked in Vestar's traffic study as it plays a major role as a cut through street to avoid the traffic jams during High School drop off and pick up.

My biggest concern is for the safety of our children who reside in the Cooper View section of Fireside. There are 45 kids in elementary school who live in this section and walk to school every day. We already deal with the reckless driving from the high school, and I am concerned that it will only get worse with the increased traffic if the new commercial development gets approved.

The high school parents use this cut through to avoid the traffic jam where they drop the students off by the mailboxes then make a U turn back through the community. This is circled in yellow.

If this additional child safety concern could be addressed it would be greatly appreciated in protecting our community and safety of our children.

Feel free to contact me if further explanation would be helpful.

I live in fireside (3609 e cat balue Dr) and I am opposed to "black mountain village" -- I ask that you keep that lot residential! We do not want it turned commercial and do not want businesses in that area! Vestar should simply use the land a few blocks away at cave Creek and deer valley!

Thanks,
Andy

Hello Anthony,

After listening to a new revised plan from Vestar, this is my opinion.

I am Rajesh Gadde. I live in Fireside at desert ridge, I would like to formally email you my opposition about building Black mountain village. I think it's going to make our safe neighborhood into a commercial area thus causing danger to kids.
It will create more crime opportunities, noise, litter, pollution, traffic nightmare as well.

We don't want this at all. Please help us on this matter.

Thanks
Rajesh

Hello Anthony,
I am reaching out to voice my displeasure and to ask for your support with ensuring that Vestar/other corporations are blocked from rezoning from “residential” to “commercial” for the proposed Black Mountain Village in Desert Ridge. The *residential* zoning was absolutely a key factor when we purchased our home and would be devastating to our community if rezoning is allowed. There seems to be plenty of commercial zoning between High Street, Tatum and Cave Creek Roads.

# Message from the Manager

## Updated Superblock Parcel 12 Presentation

Dear Fireside at Desert Ridge Residents,

Thank you to everyone that participated in yesterday evening's updated proposal towards the rezoning of Superblock Parcel 12 from residential to commercial property. The presentation, approximately 15 minutes in length, using both a hybrid and virtual format, was given by Gammage & Burnham Law, counsel for Vestar Development Co. Upon conclusion of the presentation, representatives attempted to answer related questions using a multi-contact approach with the goal of efficiency.

Specific details from the presented proposal can be found using this link:
**https://www.gblaw.com/blackmountainvillage/ [fskj7tgbb.cc.rs6.net]**

Questions or comments regarding Black Mountain Village can be sent to Rob Lane, Gammage & Burnham PLC, Senior Land Use Planner at (602) 256-4439 or **rlane@gblaw.com**.

The next step in the rezoning process will be a public hearing with the **Desert Village Planning Committee (VPC).**
When: October 1st, 2024 at 6:30 pm
Where: Paradise Valley Community Center, Multi-purpose Room
17402 N. 40th Street, Phoenix, Arizona 85032

To participate, see the instructions available on the Public Meeting Notices website:
**https://www.phoenix.gov/cityclerk/publicmeetings/notices**

If you would like to voice your opposition or support via written email, contact Anthony Grande, City Planner at **anthony.grande@phoenix.gov** as all received communication is documented.

I can be reached at (480) 214.3357 or emolenaar@associatedasset.com if you should have any questions or concerns.

Sincerely,

Eric Molenaar, CAAM, SLC

HI Anthony:

As I was unable to make the meeting last night, can you answer a couple of questions for me?

Do the restrictions listed in the development project apply only to this proposal, or will these restrictions be within the confounds of the rezoning to commercial property? Restrictions such as limited size of box store to no more than 65,000 sq. feet, no gas station, low lighting, and restrictions types of tenants allowed etc. In other words, down the road, can another developer or same developer alter what is allowed in this commercial zone and place a gas station there?

Can you describe what is meant by “separate public process” regarding drive through restaurants?

Thanks

Julia

Report Suspicious

Dear Anthony,

Thank you for taking the time to read my opposition to the revised proposal for superblock 12 adjacent to our high school.

I have a background serving on both economic development and planning commissions in suburban Chicago for nearly ten years and am generally in favor of development to aid in tax revenues to support local communities. My rare exception to this bias is when homeowner community Zoning is changing to accommodate this development post community build out.

Two of the key determining factors in home purchases are High School rating and community environment which has led to the evolution to planned communities and continued equity growth over time. To disrupt these factors post build out should NOT happen in my view without a minimum of a community vote to represent the true data to decision makers who serve on our community boards and commissions.

It is for these reasons that I vote NO to superblock 12.

Thank you,

Report Suspicious

Dear Mr Grande and Members of the Desert View Village Planning Committee -

Unless you have personally been involved with transporting students to and from Pinnacle High School, you cannot appreciate the traffic challenges that occur daily at the intersection of Mayo Blvd. and Black Mountain Blvd. (Please note that this intersection is directly in front of the high school.) We have parents dropping off students. We have inexperienced student drivers pulling into the parking lot. We have traffic heading toward the 51. We have traffic coming off the 51. Plus, we have heavy traffic from Deer Valley, which has now become an alternate route for the 101. In the midst of all this traffic, we have those students who walk to school. Even under the best of conditions, crossing Black Mountain Blvd. and Mayo Blvd. can be difficult. It is not uncommon to see students darting across traffic, crossing against the light, or jaywalking. The situation is formidable for all involved.

Vestar is suggesting their proposed commercial development will benefit our neighborhood. (Please note they would be building adjacent to Pinnacle High School.) They claim it will offer us an alternative shopping experience, while alleviating traffic congestion at Desert Ridge Marketplace. Vestar's suggestion is nothing short of insulting. Their own traffic analysis of 2022 predicted their project would add more than 10,000 vehicles DAILY at the intersection of Deer Valley and Black Mountain Blvd. And that has to be a conservative number now considering all the construction that has occurred since 2022. Add those 10,000 vehicles to the already inordinate number of vehicles navigating Black Mountain Blvd., Mayo Blvd., and Deer Valley on a daily basis and we have a disaster waiting to happen.

We cannot compromise our values. We must think of the safety, security, and

well-being of our children. The negative impact of having a commercial development adjacent to Pinnacle High School and one block from Fireside Elementary school far outweighs any alleged benefits.

Please say NO to re-zoning Superblock 12.
Please say NO to Vestar.

Thank you.

Report Suspicious

Hello Anthony and Desert View Planning Commission,

After reviewing the revised proposal and attending developer led listening sessions for the Black Mountain Village Project (GPA-DSTV-2-23-2; GPA DSTV 3-23-2; Z-39-23), I want to express my strong **opposition** to this project. No amount of money, project design changes, or unsubstantiated claims by the developer or their retained counsel make this project safe for our community. It was fundamentally flawed from the start and approving this project will only provide short-term rewards for Vestar and Gammage & Burnham associates not the community. Once again our City Planning Officials should Deny this project. Commercial real estate on this proposed parcel has no place, no real need, and only increases risks.

Phoenix City Council Women, Ann O'Brien recently noted our cities dire need for housing to meet the needs of a growing population in reference to a proposed Lennar Homes residential housing project near Hurricane Harbor which will provide 300 much needed additional units to our community. Gammage and Burnham flippantly disregards our civic leaders facts based leadership in their revised proposal by stating 'conversion of this property from residential to commercial and the subsequent loss of 236 dwelling units is negligible'. Gammage and Burnham has also represented Lennar Homes on projects in Phoenix and appears to pick and choose when housing projects are valuable to our community based on their interests not residents. Clearly City leaders and Arizona's own Department of Housing identified shortages of over 270,000 housing units across our state in recent facts based studies. As Phoenix metro comprises over 2/3rds of our state's population, we require over 175,000 units to meet the needs of the citizens. We clearly have work to do in an effort to meet that shortage. Rezoning existing housing parcels to commercial property in the heart of a well-established family-friendly community only introduces unnecessary risks and creates tax payer waste in the zoning review process.

Once again, nowhere in this proposal does it acknowledge the most at-risk to traffic related injuries amongst us the pre-school and elementary school children who walk, bike, and run to Fireside Elementary. Living in this community, safety should always be our number one concern as residents. Omitting Fireside Elementary from the traffic studies and written rezoning application responses is negligent and shows clear disregard for our children's safety. Within four hundred yards of this proposed project, we have two schools, Pinnacle High School and Fireside Elementary, which educate pre-school children as young as four years old. Each morning and afternoon families walk their children to these schools from the surrounding homes from the north, south, east, and west. In the bias traffic study completed in November 2022 they fail to acknowledge slower traffic patterns based on holidays, people traveling outside of Phoenix to visit family, and winter residents not yet arriving to the area in addition traffic patterns have evolved after two years. Throwing money at the HAWK system does not solve the problem of increased transient traffic flow, especially off the high-speed HWY 51 into this area, statistically increasing risks for residents, especially our younger children. Simply there is no compelling argument for this project and only increased risk.

While developers will make the case for additional services and unsubstantiated benefits to our community, we must consider the abundance of commercial services that are already available in Desert Ridge Marketplace, along Cave Creek Road, and HWY 51 south. In addition, all these commercial properties have clearly defined borders which create increased safety as to not blend housing, schools, parks, and daily life, with commercial development. Within Desert View we have an abundance of services of all commercial types within one mile. Making the argument that driving one mile creates hardship is another unsubstantiated claim by the developer and fails to acknowledge the abundance of delivery services if someone prefers

alternative commercial services that are not available within one mile. Desert View is not the same as an urban core, such as downtown Phoenix. Lack of concrete detail is consistent throughout the rezoning application, while there is an abundance of words and feelings including 'potentially' and 'we feel' it fails to acknowledge key considerations as I have outlined.

Vestar owns Desert Ridge Marketplace and Gammage and Burnham outlines in their own words the developments failures to manage traffic congestion and parking. Why would we trust the same developer to deliver different results when they themselves acknowledge these failures. Fool me once let's not make it twice especially next to our children's schools and family homes. We have an opportunity to put families and our youngest citizens first by **DENYING** this project. Thank you for your thoughtful consideration of the data, facts, and real impact on our community for the long term. I appreciate your support in **DENYING** this rezoning request for the second time.

Report Suspicious

Dear Mr. Grande,

I am a longtime Fireside resident (since 2013), living literally a stone's throw away from Black Mountain Blvd across from where the proposed site is located. I recently attended the presentation by Vestar at the Fireside Community Clubhouse on September 17 regarding the updated proposal plans for superblock parcel 12. I went into the meeting with an open mind curious as to the amendments and changes they had made. After hearing their presentation and seeing their proposed plans I can assuredly say I AM NOT in favor of this proposal. Regardless of how they attempt to build out this commercial center and update the corresponding streets around it, the traffic in this area is going to become a nightmare and even more unsafe. I have lived here firsthand through the addition of the Route 51 on/off ramp and have already noticed the influx of traffic on Black Mountain Blvd, including late night motorcycle racing, street racing, and unfortunately a few serious accidents.

Vestar says they want to add a destination grocery store such as Trader Joes or Whole Foods for just our surrounding neighborhoods. They are extremely naive to think this will not be a huge draw for individuals driving in from all areas to go to this store, adding to increased traffic all day long, safety issues, noise pollution, and making it more dangerous for residents (and students) of this area to navigate safely in and out of their own neighborhoods. Throw in the fact that this is NEXT DOOR to Pinnacle high school and I can't believe Vestar believes it's a good idea to put a proposal together that will degrade and endanger the safety of the students and residents who reside here. Have you seen the traffic and safety issues at Paradise Valley High School on Bell Rd.? We do not deserve to have that brought to our neighborhood. If Vestar is so determined to bring a new commercial shopping center to our area they need to find another location that was not already zoned for residential housing. I hope you will seriously consider the implications of this disastrous proposal and take steps to keep it from being implemented. Thank you for your attention to this matter.

Respectfully
David Evans

Report Suspicious

Hello Mr. grande,

I hope you can see by the mass amounts of emails you are receiving to oppose this Vestar rezoning idea that is not what the majority of affected homeowners want, nor do we need it. Are there a few who want it, sure.

I strongly oppose this and want it to remain zoned for single family homes ONLY! We did not buy here to have it rezoned for commercial use.

Vestar has been diligent with their fake marketing and published articles that residents want this and that it was the Arizona State Land Department that approached Vestar, when the state in fact did not.

And it is no coincidence that the next scheduled meeting is Oct 1st during our Fall Break where many families, like mine will be out of town and unable to attend. Why? Well it's a planned strategic move so less of us can attend.

Please do the right thing and stop this from moving forward. What if you lived up here, I don't believe you would welcome and embrace this unwanted change and increased traffic in your neighborhood.

Thank you for applying your ethical consideration from a homeowner's perspective to stop this from going any further.

Respectfully,

Jay Ford

Report Suspicious

Good morning,

I have had the opportunity to attend the meeting at the Fireside Clubhouse and cannot be more disappointed in this presentation. It really lacks the "buy in" that I thought I would have after this discussion. The key points to the community not being in favor are the unfavorable aspects of driving more traffic to the neighborhood, types of retailers, possibility of junk fast food, and the list goes on. I was in favor of another grocer in and around Desert Ridge but I am now in favor of SCRAPPING this proposal and moving forward with the land being developed into housing, and parks that would not increase traffic at key times throughout the day.

Key takeaways I was left scratching my head:

-Vestar was approached to develop this area? I have no buy in on this statement. So then Vestar should have looked at the value of other properties. Even the ones at Pinnacle Peak. This area would be ideal! And remember Whole Foods built nowhere near housing and people flock to it. No one in the neighborhood is driving towards the high school except for key times during the day which is a traffic nightmare. We all drive away from the area for shopping and knew we would be doing that when we bought our homes. That was one of the appealing qualities of Desert Ridge.

-Traffic, traffic and more insane traffic...Too much traffic would be directed and come off the 51 and Mayo to go to NEW shopping, there still is no clear answer as to how this would affect the area as far as noise pollution and added car pollution in general. Also, the influx of cars at 633 parking spots is a huge amount of cars to add to the daily drop off/pick up routine. There was no clear answer. There is currently a high traffic issue in this area, with accidents and injuries. Increasing this would not be helpful. We see what a mess Tatum is at the turn into Albertsons and InNout burger. It's a disaster. Parking lot would become drop off and pick up and overflow parking for the school that is already bursting at the seams.

-Types of retailers. YES, this matters. When you do not know what is going in and you are at the mercy of the land developer taking the highest bid, you get what they want. Which is retail dedicated to convenience of a highway offramp. Not retailers dedicated to increasing the value of our properties. I was told they cannot be selective and will take whoever bids on the parcels. Look at several other shopping centers, you currently don't see McDonalds or ChickFilA at the scottsdale quarter, do you? you have million dollar homes right across the street that fear the smell of grease and pollution of delivery trucks. Not to mention increasing

foot traffic, loitering and the list goes on and on.

-size retailers down to 65,000 sq ft.?? They were talking about this may be a prime spot for Sprouts or Trader Joes but we are talking 65,000 sq ft which is the current size of the Albertsons. A Trader Joes shop is typically 10-12,000 sq ft. So I have no interest in a major store right next to a high school. This area cannot accommodate the traffic for the size Albertsons that is at Desert ridge, it is ridiculous to think it can.

-decreased property value. NO one answered this question. And no one would know until we get a list of retailers.

-education money trade off. No where did this say the trade off would directly go towards the two schools located near this property, while this seems like a nice trade, our neighborhood schools would only see a small fraction of this money, if any?

I am overall disappointed in the outcome and changes they have proposed. Adding a busy shopping plaza is not a good idea for this location and I cannot back it or get on board with this decision to change the zoning. The lot is just too small to house a 65,000 sq ft grocer plus handfuls of stores off the highway ramp near an already busy school intersection.

So please add my commentary to the list of people that oppose the rezoning of this land. I absolutely do not approve their proposed plans. Vestar clearly is in it for the money, not the benefit of our community.

Thank you,

Susan Forkos

Report Suspicious

Mr. Grande,

I recently attended the presentation by Vestar at the Fireside Community Clubhouse regarding the proposed plans for superblock parcel 12. While I initially supported the idea of having another grocery store nearby, I now believe that rezoning this area for commercial use would not be a good decision. After reviewing the plans, it's clear that traffic will become a significant issue, even with the proposed lane expansions and additional sidewalks.
Currently, most residents drive away from Pinnacle High School for their grocery shopping. Placing a supermarket right next to the high school will not only draw local residents but also people from outside the community, significantly increasing traffic in the area. This rise in traffic will bring a higher risk of accidents, especially concerning the safety of children who attend the high school and live in the surrounding neighborhoods.
In addition to safety concerns, the increased traffic will lead to more noise, disrupting the quiet environment many of us value. Personally, when I shop at stores like Whole Foods, Sprouts, or Trader Joe's, I travel away from the school. If a grocery store is built here, it will bring more congestion, more noise, and more pollution to our streets.
I believe the best option would be to keep the zoning for single-family homes as it currently is

Report Suspicious

Hello Mr Grande. I am writing regarding the above rezoning proposal. I live in Fireside and have had children attend the local schools as well as Pinnacle High School.

If you don't live in the area, it is really hard to understand the traffic problems we have around the High School. There are also major issues, outside of school hours, from traffic coming from 51 to Black Mountain. People coming from the highway blow through the stoplight and accidents occur. Unfortunately one of those happened to my son. We were extremely fortunate no one was injured as his car was t-boned and completely totaled.

Also I can't imagine anything worse than having a shopping complex close to a high school. All you have to do is ask the shop keepers at Desert Ridge Marketplace the havoc the kids create there after school is let out. I can't imagine this enhancing our property values.

There are currently so many shopping choices within a 5-10 mile range that we really do not need more that aren't already zoned for this purpose. I would strongly urge you to reject a proposed zoning change to this area.

Thank you for your time.

Kris

Report Suspicious

Anthony,

As a taxpayer whose house backs up to Black Mountain boulevard (Just north of the pedestrian foot bridge), I OPPOSE the development of Superblock 12 parcel of land.

We as a community already have a problem with the school and its inability to abide by the City of Phoenix Noise Ordinance, so until the High School can stop harassing its neighbors by sounding a segment timer every 5 minutes during football practice that can be heard in my house
Playing music that can be heard in the adjacent neighborhood that includes graphic words like: [redacted], [redacted], [redacted], [redacted], and [redacted], I do not consider it a prudent move for the city to continue to expand until they can handle the current situation.

I have brought this issue to the School, and the School District. Both entities still chose to not take any action. It is time that city officials start doing their job and following / enforcing the laws that they pass.

Report Suspicious

Dear Mr Grande,

I attended the recent presentation by Vestar at the Fireside Community Clubhouse in regards to the proposed plans for superblock parcel 12. While I had been in favor of having another grocer in the vicinity, I am now convinced that it's not a good idea to rezone that area for commercial space. Looking at the presented plans, and even with the planned lane increases and separate sidewalks, it's very clear that traffic is going to be a huge issue. Currently all residents are driving away from Pinnacle High School to do their grocery shopping. If there is a super market right next to the high school, not only are the people who live in the surrounding communities going to drive there, it's also going to draw people from even further away. Right now, when I want to go to a Whole Foods or Sprouts or Trader Joes, I'm driving AWAY from the high school. If there was a grocer, anyone who likes to shop at that type of market will drive to Black Mountain Village, increasing traffic on all surrounding streets, increasing the risk of accidents and definitely increasing pollution.

I would like to keep everything as it is, with the area being zoned for single family homes.

Thank you for your consideration.

Best regards,

Martina McConnon

Report Suspicious

Dear Anthony,

We are opposed to changing the residentially-zoned plot of land to commercial property.

We are against the Black Mountain Village proposed by Vestar.

We want to keep our high schoolers safe and keep our community protected, NOT increase the unbelievable amount of traffic that will bottleneck the Black Mountain freeway exit and surrounding roadways. We were told the area was all going to be residential when we chose to purchase at Fireside and make this place our home. Now some big corporation has the right to change that?!

Please take our homes and families in to consideration before agreeing to building this horrible commercial project. Thank you.

Sincerely,
Heather McCrae

Report Suspicious

To Mr. Grande:

My name is Dennis McWherter and I am a resident of Fireside at Desert Ridge. I understand that you are the City of Phoenix's point of contact related to the Black Mountain Village project proposed by Vestar (GPA-DSTV-2-23-2 / GPA-DSTV-3-23-2 / Z-39-23-2). I wish to voice my **opposition** to the proposal as you consider it.

Rezoning this land for commercial use will invite more traffic to an already precarious location due to the higher-than-average concentration of new drivers coming to and from Pinnacle Peak High School. It will also extend the hours under which there is heavy traffic in the area. Furthermore, a commercial development in the area may encourage unwelcome loitering. As a father of young children, I do have concerns about their safety in such an environment. I find that the efforts to rezone the intersection of Deer Valley Dr. and Black Mountain Blvd. to be actively harmful to the community residents. With the Desert Ridge Marketplace approximately 2 miles away and plenty of other shopping complexes easily accessible within minutes through SR-51, it does not serve a community need and it makes the area less safe.

Allowing this land to be developed under its current plan for single-family residential better fits the needs for our community. The current residential zoning also addresses a critical need among our broader and rapidly growing Phoenix community: increasing the supply of available housing in the valley. I urge the planning committee to **reject** the proposed rezoning for this project.

Thank you for your consideration.

Regards,
Dennis McWherter

Report Suspicious

Dear Mr. Grande,

I am writing to express my descent regarding the proposed plans for Superblock Parcel 12. I have been a resident and homeowner at Fireside in Desert Ridge for 13 years. What was once a quiet neighborhood has transformed into a thoroughfare, and I fear that the addition of another shopping center will exacerbate this issue. Traffic and noise levels have continued to rise, and I am apprehensive about the further impact this shopping center would have.

The Desert Ridge Marketplace is already quite convenient, and efforts should focus on enhancing this area rather than adding more commercial development.

I urge you not to change the zoning for this land to commercial use.

Thank you for your attention to this matter.

Sincerely,
Michael Moskowitz

Report Suspicious

Dear Mr. grande,
I'm a resident of Fireside with 2 children in nearby elementary and middle school. Next year we'll have a son at Pinnacle Highschool and I'm already concerned about the terrible traffic and delays on black mountain blvd and deer valley. I'm also a medical provider so delays getting to work are an issue. I'm deeply concerned about the significant increase in traffic if the land is used for grocery store. That corner is dangerous for walking students and young drivers already. I'm in favor of residential property in that area as this will not bring in the same number of additional people to the already congested area. Thank you for your consideration.
Sincerely,
Rebecca Reedy

Report Suspicious

Mr. Grande,

I submitted something last year depicting the amount of gas stations that were in near Deer Valley and Black Mountain Blvd. With Vestar eliminating the gas station from their proposal, I wanted to focus on the fact that we have plenty of grocery stores available in the surrounding area. Vestar used a graphic last year in some of their meetings stating that Desert Ridge Marketplace is the only grocery store location in a 5-mile radius. That is simply not true at all! Their graphic was only using a 5-mile range to the north of this property, and not looking south. Even if you only looked to the north, they were still not being honest. Fry's has a location at Tatum and Cave Creek Road that is just under 5-miles from this property. Sprouts at Scottsdale and Pinnacle Peak is also just under 5-miles.

If we start looking to the south of this parcel of land as well, then the options are incredible. You don't even need to use a 5-mile radius to start running into multiple grocery stores of the same name. Within a 4-mile radius neighbors can choose between 3 different Fry's, 2 different Albertsons, a Safeway, a Basha's, ALDI, Food City, a Sprouts Market Express, Walmart, Costco, and Target. If we increase this to a 5-mile radius, we add 2 Sprouts, a Whole Foods, another Frye's, another Safeway, and a WinCo Foods.

There is no need to be concerned about the undeveloped land to the north of Pinnacle Peak. Once they start looking into developing the next super block to the north of Desert Ridge then we can all start worrying about adding more grocery stores to that part of town. The neighbors that live directly adjacent to the land at Black Mountain and Deer Valley do not want to see this as a commercial property. We moved to this area to be away from the commercial portion of Desert Ridge. Nobody is running out of gas just trying to get to a grocery store. We don't' want Black Mountain Village. Please reject Vestar's proposal to rezone this land.

Sincerely,
Dan Richards

# DESERT RIDGE IS NOT LACKING GROCERY OPTIONS

**FORGET ABOUT A 5-MILE RADIUS!!!!!!**

**Grocery Stores within a 4-mile radius of Pinnacle High School include:**

- 3 Fry's
- 2 Albertson's
- Safeway
- Basha's
- ALDI
- Sprouts Market Express
- Food City
- Costco
- Walmart
- Target

Report Suspicious

Dear Planning committee members, Mayor, Councilman,
The above mentioned proposal to rezone a residential area in Desert Ridge to commercial has been "amended" by Vestar with the elimination of the gas station and will be starting the process all over again starting with the Desert View Village Planning committee on October 1st.
This commercial center is proposed to be right next to a high school and elementary school and our residents think this is irresponsible and unacceptable to even consider.
(Please see the attached PhotoAppendix for the traffic nightmare we endure and the unsafe situations our kids navigate to get to school and the drone footage on our website:
**DefendDesertRidge (godaddysites.com)**
**[defenddesertridge.godaddysites.com])**

Since the January 4th continuance was granted, Vestar and their lawyers will claim this to be "working with and listening to the community". They even have stated in a community meeting that ASLD approached THEM about developing it.
Both statements are very far from the truth.
The plan before you was already mentioned back in December of 2023 where they already indicated that they would be willing to drop the gas station and reduce the grocery size to 65,000 sqft, which equals their original submission.
We requested the origin of this proposal and according to Arizona State Land department official reply - "**The Desert Ridge Community Association (DRCA) has said additional grocery anchored retail is needed in Desert Ridge.**".
Does the president of an HOA have the authority to represent a whole community without any involvement or poll results of their residents?

Would any of these parties have listened to the community, they would have heard many people say that starting a commercial center next to schools is completely unacceptable.
The negative impact on the students is unacceptable, the increased traffic will be unacceptable.
There are plenty of grocery stores in the area and other pre-approved commercial zoned parcels available.(See attached DR zoning)
900+ people have now signed our petition.

I'm sure you have heard it all before, but are we really all just the regular "not in my backyard" complainers in your view? Or are we genuinely standing up for the future and safety of our kids and in our community?
I am writing to you to please consider our concerns and recognize that this proposal is a big mistake that will have long lasting negative consequences for the desert ridge community.

Also, please consider that we, as residents, have been led to believe that;

- We bought our homes within the Desert Ridge master community which had specifically dedicated land to a commercial core away from schools.
- The city has put in place stringent rezoning requirements that stipulate that rezoning should not be a detriment to adjacent properties, neighborhoods and public welfare (and student safety I want to add)
- The city is actively campaigning for Vision Zero Road Safety Plan to reduce the number of traffic and pedestrian casualties. Even established an office for pedestrian safety. Not double the traffic around an already congested school drop off area that would increase the chances of casualties.
- The city is actively campaigning for Safe Route To Schools. In our area a lot of students walk to school from their homes and have to cross an already dangerous junction at Mayo blvd and Black Mountain blvd.
- Arizona State Land department is selling land to fund public education and works on behalf of its trustees, the students. Allowing this proposal would do the exact opposite and harm the students and the schools around it.
- Our Desert View Village Planning committee is your first line of defense to filter out unacceptable proposals to avoid wasting everybody's time at City Hall. These appointed people are representing our community in this process and have voted 9-1 against this proposal as well.

We compel the village planning committee review all the concerns and emails and attachments from last year and reach the same conclusion that this proposal should be dismissed immediately and without compromise.

A quick summary of events timeline ;

- Rezoning case:
    - Vestar is seeking to rezone 22 acres of the 77 acres of land from Residential to Commercial which is part of Superblock 12-section L.
    - The land is owned by the ASDL and is situated with the Desert Ridge Master Community, adjacent to Pinnacle High School and a block away from Fireside Elementary School.
    - Residents oppose ; (See previous case material for full details)
        - due to the proximity of alcohol and cigarettes and fast food sales near schools.
        - And Paradise Valley School district has sent 2 letters in which they share significant and valid concerns.
        - due to the increasing traffic safety issues and pedestrian casualties (evidence by Vision Zero – Road Safety Action Plan)

the widely known detrimental impact and pollution of commercial centers on our respected community. (Noise,Light,Odor,Gasoline,Idling cars, etc)

- On August 25th ,2023 – Lennar Construction has applied for the remainer 55 acres of Superblock 12L for Single Family Residential development.
    - This is what Superblock 12 is already zoned for. (Residential 2 to 5 du/ac)
    - This is already approved in the Desert Ridge master plan and is in line with the Phoenix general plan.
- On October 3rd, 2023 - **by a vote of 9-1 - this rezoning request has already been denied by our Desert View Village Planning committee**. Committee members that are appointed by the councilman and represent and live in our area.
- On November 2nd, 2023 we appeared at the Planning Committee meeting where we learned that Vestar requested a continuance and even negotiated with the opposing core resident group to make it 60 days – because of the holidays, etc.
    - The reason that they provided was that they needed to have another review meeting with the ASLD to review their amendments.
    - We agreed on the condition that they would share these changes in time for our review and that stipulation was noted by the chairman.
- On December 11th, 2023 the opposing core resident group was invited to meet with Vestar executives to review these changes.
    - However, nothing was further from the truth.
    - They shared that no meeting with ASLD was held, no changes were made.
    - This meeting was clearly a bait-and-switch for an opportunity to find out what changes we might be comfortable with.
    - The meeting ended with a verbal commitment that they would be willing to drop the gas station and reduce the grocery size to 65,000 sqft. (Their original submitted and approved plan submitted with the state….)
- On January 4th, 2024 the city planning committee granted Vestar an "indefinite" continuance.
    - They were not asked to pay the cost for this continuance and continue to waste the valuable time of these committees.
    - They were allowed to "work with the community" for the past 8 months and are now presenting the original plan from October 2023
    - They are now presenting "Shops" in their drawing that will be converted to the dreaded Drive through restaurants "after Use permit hearings" are complete. There is no time in the world for residents to continue to battle these

Whilst Vestar is claiming to care for Desert Ridge and boasts about their involvement, the blatant stalling tactics deployed in this case should not be tolerated and residents should not be asked to have this request hovering over our community for any longer.

This proposal is starting to cause undue hardship for our community.
We're fighting for our community character and Residents cannot be asked to fight Vestar, their disingenuous actions and their attorneys for much longer. It's not a level playing field.
Families that already have busy lives and volunteers like yourselves shouldn't be treated like this by Vestar and their attorneys.

The October 1st VPC  meeting is in the middle of our school vacation! We shouldn't be asked to come to meetings where nothing new is being discussed, nor should this committee.

My name is Wouter Roodenburg and live on 21507 N 39th Terrace in Phoenix and I'm a long time resident of Fireside in Desert Ridge and I oppose the case.
Please add this email to your case file and reports

I appreciate your consideration.
Regards,
Wouter Roodenburg.

Report Suspicious

Hello Anthony,

Please find my letter attached in opposition to the above cases.

Thanks,

Rob Schmitz

Desert View Planning Committee,

My name is Rob Schmitz and I'm a resident of Fireside in Desert Ridge. I am a Fire Chief, husband and most importantly a father. I have been in the fire service for almost 20 years and have a degree in Emergency Management. As a firefighter you are always learning and working to get better at your trade, this includes training locally, statewide, and federally. This comes with many experiences and a whole lot of connections and I have relationships with many law enforcement officers and even folks at the Arizona Counter Terrorism Information Center. I share all of this with you to give credibility to my statements on this proposed Black Mountain Village development.

Having a development this close to a school will definitely increase the potential for both human and sex trafficking, narcotic use and sales, and other unsafe conditions to the 2,400 plus children that attend Pinnacle High School. The access for the bad folks that prey upon children will increase in the large parking areas where children will definitely congregate both for pick up and drop off, during school activities and children looking to hang out. We know there have been incidents at the Desert Ridge Market Place and that is not right next to a school, this proposal is not only right next to the school but has a proposed HAWK crossing to encourage the flow of children into this commercial area.

There will also be added traffic which will increase the potential for accidents. Drivers are very distracted today and unfortunately so are most pedestrians, have you seen all the people that walk down the sidewalk and their heads are down looking at their phones? This is an added safety concern for all the pedestrians in this area being right next to the school. Do we want to add any additional risk to the 2,400 plus children that come and go on a regular basis? We have many before and after school activities on top of all of the coming and going just getting to and from school, it is a very busy area already and we don't need a commercial development to add to that.

This committee voted this proposal down 9-1 less than one year ago, it was voted down for the concern of safety for all of the kids today and all of the kids in the future. After this Vestar stopped pursuing this and made minor changes, but none of them got to the core of the issue and that is safety for our children. When Desert Ridge was originally planned this was not the vision, let's keep that vision and the vision the city of Phoenix still has today, no commercial development on this land. Any commercial development next to a school is bad, especially a high school that has so much foot traffic. Please don't take my next statement as a threat, but I've learned over my career you unfortunately must be a bit dramatic to get a point across that resonates with folks. If one child gets hurt, kidnapped, or even killed from the development of this land into commercial property, it will be because of your approval on the plan and zoning change.

Thanks for your time,

Rob Schmitz

Re: Case number GPA-DSTV-2-23-2, GPA-DSTV-3-23-2 and Z-39-23-2

Members of the Desert View Village Planning Committee:

I oppose this project and the rezone. Last fall I submitted letters of opposition to the City. I also made a public comment at your October 3, 2023 meeting when you voted nearly unanimously to recommend denial.

I've carefully considered the minor revisions Vestar has recently made to their plans and I urge you to once again recommend denial. The concerns neighbors and many of you on the committee expressed last year are not addressed by this revision.

My primary concern was and still is school and student safety. I wish to call attention to threats to the security of the high school campus and students. Schools have increasingly become targets of mass shootings. Child predators prowl streets near schools. This is not hysterical conjecture; this is a fact.

I have spent a lot of time on Paradise Valley Unified School District campuses over the last 30 years as a parent and an employee. Campus perimeters have been fortified, school offices remodeled, classroom locks installed, and campus visitors restricted.

Currently, the open space surrounding Pinnacle makes it easy to spot a potential bad actor just outside school gates. When the residential neighborhood is developed, neighbors will be vigilant and likely to notice people and vehicles that are suspicious. And, in fact, at schools throughout

the district and the city, police have been alerted by neighbors to stop and even arrest suspects before a crime can be committed.

Commercial development will bring a great many more people who will share sidewalks with students and many vehicles that will share the same streets. It will be nearly impossible for neighbors to identify someone or something that is out of place. Additionally, it will be more difficult for school staff to monitor their own school driveways.

Prior to last year's meeting I asked City staff for an example of another high school in such close proximity to a shopping center and was told that Sandra Day O'Connor came to mind. But it is not at all comparable. Hackamore Drive does run between the high school and the shopping center. However, the two shopping center driveways are barricaded fire lanes with signs posted that shopping center access is only on Happy Valley Road. There is no shopping center traffic, vehicular or pedestrian, on Hackamore Drive.

Vestar freely admits that their plans are intentionally designed to connect the school to the shopping center. The evidence is in the two driveways and the crosswalk allowing direct ingress and egress to the shopping center from Mayo Blvd.

Please do not set precedent by allowing this.

I also wish to note that I will be unable to attend the upcoming meeting on October 1st as I will be out of town. Unfortunately that is the time of the PVUSD Fall Break; I expect many other neighbors will be out of town, too.

Sincerely,

Laurie D. Smith

Report Suspicious

Mr. Grande,

I hope this note finds you well.

My family and I strongly oppose the Vestar proposal regarding rezoning case GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2 at Desert Ridge (Deer Valley and Black Canyon).

Our opposition is simply because the traffic it will draw will be a safely risk for families, young drivers and student walkers in that area by the school. We already cannot get by during peak times and a commercial/retail space will create more traffic that we do not want or need. I am happy driving away from my community to existing businesses get my groceries and believe the space is best used for single family homes as currently zoned. We hope you will stop this development from moving forward.

I am unable to attend October 1st Village planning meeting at PV community center at 6:30pm and hope you can represent the strong opposition our community is expressing.

Kindly,
Heidi Snyders

Report Suspicious

Hello,

I attended the developer's community meeting on 9/17. There are unresolved questions with traffic. I encourage the City to push for answers on the following:

Updated Traffic Impact Statement.

a. The new median on Mayo will cause changes to traffic patterns for both student traffic (no left-in into student parking lot from Mayo, no left out of student parking lot from Mayo) and bus traffic (re-route from current path - North on Black Mountain Parkway, Left on Deer Valley, Left on 34th Street (without aid of traffic signal), Left on Mayo Blvd into bus loading area). Black Mountain Pkwy congestion will increase after the developer adds new Mayo median.

b. Developer says it will entitle drive-thrus later. The TIS should include multiple drive-thru's in original analysis.

---

**To:** Anthony M Grande <anthony.grande@phoenix.gov>; rlane@gblaw.com <rlane@gblaw.com>
**Subject:** Black Mtn Village Rezone // PHS turning movements MAJOR CHANGE

The proposed retail center site plan (revised) NOW includes a NEW MEDIAN on Mayo. This median will BLOCK a vital left hand turning movement from Mayo into the PHS parking lot. This will result in many U-turns or push nearly all PHS traffic onto Black Mountain Pkwy single entrance. The prior site plan did NOT include a median on Mayo.

Pinnacle High School's (2,550+ students) operations should not affected by the new retail center. Vestar's revised site plan does not meet the needs of PHS traffic. The aerial picture on G&B website cuts off the school parking lot entrances. With this major change to PHS turning movements, the aerial should be updated accordingly.

Additionally, AZ State Land and PVUSD need to work on a parking solution for PHS before the land auction to any developer. Special events overflow onto State Land property (100+ cars park in desert). There will be major conflicts in future when PHS and retail center are fighting over parking.

**From:** James Tuffin
**Sent:** Thursday, September 19, 2024 11:34 AM
**To:** Anthony M Grande <anthony.grande@phoenix.gov>
**Subject:** FW: GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2 BLACK MOUNTAIN VILLAGE

Dear Mr. Grande:

My names is James W. Tuffin. I reside in a home I own at 21214 N 36th Pl, Phoenix AZ 85050. I write to reiterate my opposition to the "Black Mountain Village" project. I incorporate by reference all of my previous communications on this issue.

Although the Desert Ridge Specific Plan ("DRSP") has been amended 22 times over the years, never before has a family that purchased a single- family home away from the designated Village Center been told that drive- through "quick serve" food operations will be built across the street from their home on land that DRSP specified for residential use.

The essential justification for the proposed amendment is the alleged need for additional grocery space in the area. Even if there was any merit to that contention (and I submit there is none), it does not justify putting drive- through "quick serve" operations across the street from people who were told that the land was residential when they bought their homes.

Far from doing anything to address community concerns about drive-through operations in a residential area, Vestar doubles down, saying it will not accept any limitations on drive-through operations, in terms of types or operating hours, unless they are imposed by the City of Phoenix.

The prior site plans proffered by Vestar clearly showed drive-through operations, and Vestar openly admitted that they were contemplated. In its latest iteration, the site plan makes the drive-through nature of the retail "shops" less obvious. Nevertheless, at a meeting conducted at the Fireside community clubhouse on September 17, 2024, Vestar's Executive Vice President for Development, Jeffrey M Axtel, and Vestar's attorney, Ashely Z. Marsh, Esq., of Gammage and Burnham, said that Vestar will install any drive-through that the City of Phoenix may allow. I approached Mr. Axtel at the end of the meeting and

asked him what the proposed hours of operation were. He told me that he did not know what the hours of operations were, and that it was up to the City of Phoenix. Vestar seems to contend that the requirement of a Use Permit for the drive-throughs is somehow a concession to community concerns on its part. This is disingenuous, since the same permit requirements existed when they were more open about the drive-through plans.

Prior to the Fireside meeting, and after receiving the most recent revised site plan, I asked Vestar executive Ryan Ash if drive-through operations were contemplated. He responded that "we have not engaged in conversations with any shop or pad tenants at this time. As such, we don't currently have any expected users" (email of Ryan Ash to James Tuffin, 8/28/2024). In my opinion, this assertion is not credible.

The Desert Ridge Specific Plan provides as follows:

> The urban village concept has been accepted in Phoenix as a desired land use pattern. It follows that this concept should be extended to guide land use planning and development in Areas C and D. *Desert Ridge is based on the urban village concept in that all community and regional commercial uses are located in the Desert Ridge Village Center. Very small neighborhood convenience commercial uses are appropriately placed internally within neighborhood units*. The Desert Ridge Village Center is appropriately the "urban" core of Area C. Land uses are the most intense in and around the Village Center in Desert Ridge, logically reducing in density with increasing distance from the commercial/employment center and continuing beyond the project boundaries. (DRSP 3.B Goal 1)(emphasis supplied).

In furtherance of this concept, the regulatory portion of DRSP provides that drive-through operations are specifically prohibited from any commercial conveniences that might be built in residential areas (DRSP 6.C.3.B.2.d).

The amendment to the regulatory Chapter 6 of DRSP sought by Vestar is, on its face, wholly inconsistent with the nonregulatory portion reproduced above. Nevertheless, Vestar refuses to process an amendment of any nonregulatory portion of DRSP. The Zoning Ordinance clearly requires amendment of the nonregulatory portion in this instance (Zoning Ordinance Section 403.F.4). I invited Vestar's counsel to address this deficiency and they responded as follows:

> The DRSP's non-regulatory provisions is met by the combination of updating the General Plan land use designation, updating the regulatory provisions of the DRSP, and the subsequent submittal and review of the Master Plans for the land use area. These three (3) elements implement the non-regulatory provisions by having public hearings about the proposed change and a full public process along with the Master Plan update to show the modifications within the subject Superblock of the DRSP (email of Ashley Z. Marsh, Esq., to James Tuffin dated September 17, 2024).

The plain language of the Zoning Ordinance does not support this contention. Vestar is just trying to avoid having to justify stark inconsistency between the requested amendment and the non-regulatory portions of the plan.

The Zoning Ordinance requires that a 'zoning case shall be heard on an agenda which is separate from, and subsequent to, the agenda at which a related specific plan amendment

is heard" (Zoning Ordinance Section 403F.2.e). Assuming, for sake of argument, that the City has the discretion to waive this requirement, I respectfully submit that it was an improvident exercise of discretion in this case. The amendment to the regulatory chapter offered by Vestar is blatantly inconsistent with the non-regulatory portions of DRSP.

This gross deviation from the Specific Plan, to the detriment of homeowning families, is unprecedented. Of the 22 amendments made to date, few involved any change from residential to commercial use. Those that might have involved a change from residential to commercial predated most if not all of the single family construction in the area, and none of them were anything like the current proposal. S-23543 (May 8, 1996) dealt Superblocks 3 and 6; G-4497 (Feb. 3, 2003) provided for certain institutional uses in Superblock 9; G-4513 (May 21, 2003) provided for residential office use in neighborhood commercial conveniences; G-4608 (May 19, 2004) was a minor amendment to accommodate the Boys and Girls Club); G-4654 (Nov. 3, 2004) involved commerce park uses within Superblock 5).

At the Fireside meeting, Mr. Axtel began by saying that the Black Mountain Village project was the result of a request made by the State Land Department (SLD) to Vestar. He said SLD was seeking to add grocery space to accommodate anticipated residential construction outside of Desert Ridge, north of Pinnacle Peak Road. When asked why the project was not being placed closer to the intended beneficiaries, he said that grocers were reluctant to commit to stores where surrounding housing was not yet built. When questioned about the inconsistency between this information and Vestar's assertions that the project is only intended as a local convenience for nearby homes, Vestar's representatives were unable to provide a coherent response.

Vestar's applications must be rejected. Any failure by SLD to meet its own planning obligation for the land sales in the area north of Desert Ridge can be remedied without punishing innocent homebuyers in Desert Ridge. Far from meeting any immediate need for groceries in the area, Vestar is clearly using this as a pretext to cash in drive-through operations at the last traffic signal before the northern terminus of the SR 51 freeway.

Please include this in the case record.

Sincerely,

James W. Tuffin

Report Suspicious

Hello Anthony,

Hope this email finds you well!

I am a resident in the dessert ridge neighborhood and I would like to express my **opposition** to the **Rezoning proposal case GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2.**

I strongly believe that it's not a good idea to rezone that area for commercial purposes. Looking at the presented plans, and even with the planned lane increases and separate sidewalks, it's very clear that traffic is going to be a huge issue in the surrounding area. Currently all residents are driving away from Pinnacle High School to do their grocery shopping. If there is a supermarket right next to the high school, not only are the people who live in the surrounding communities going to drive there, it's also going to draw people from even further away.
Increasing traffic on all surrounding streets also means increasing the risk of accidents, highly likely with HS students involved too during school hours, and definitely increasing pollution and noise to the neighborhood. Not to mention people gathering and there will be a higher risk of violent/police-involved incidents/crimes happening as we have seen multiple cases in Desert Ridge Marketplace. I would like to keep everything as it is, with the area being zoned for single family homes. Thank you for your consideration!

Best regards,
Yuh-Shang Yu

Report Suspicious

I am writing once more to register my opposition to the above rezoning proposals. As a resident of the Copper View neighborhood of Desert Ridge Fireside, I live right next to the proposed Desert Ridge Village Marketplace and envision many reasons why this commercial development is not advisable, primarily among them the traffic and safety of our students who attend the adjacent high school.

The amount of traffic in the early morning drop off and mid afternoon drop off make it difficult to leave my neighborhood, especially if I need to use 51. As a retired educator who taught many years in a high school, I know that in addition to being a traffic safety issue, the proximity of a shopping center will also provide an unneeded distraction to the students, no matter how many deterrents Vestar claims they will use to prevent the students from accessing the marketplace.

Vestar also implies that the marketplace will add to the value of our homes, due to the "walkability" factor of the neighborhood. Please! That "walkability" will factor in only from October to perhaps April due to the ever increasing heat in Phoenix.

The marketplace will also attract traffic from AZ51 and AZ101 via AZ51, particularly if a Trader Joe's, Sprouts, or Whole Foods is the anchor or if any of a number of drive through coffee or fast food restaurants choose to locate there. As one woman remarked at the Fireside presentation, the increased exhaust from cars and trucks will have a devastating effect on the cognitive development of the children at the adjacent school and all those in the neighborhood.

For the above and many other reasons, my husband and I oppose the referenced cases and the Deer Valley/Black Mountain/Mayo rezoning to commercial use,

Susan and Frederic Ze

City of Phoenix Case Nos. GPA-DSTV-2-23-2, GPA-DSTV-3-23-2, and Z-39-23-2.

I again am writing to you to register my strong disapproval of proposed amendments (case numbers listed above) to modify existing zoning from residential to commercial.

Our homes in Fireside at Desert Ridge were built under the Desert Ridge Specific Plan. The plan promised clean, quiet, and safe neighborhoods where commercial activity in the "residential superblocks" is strictly limited to minor "conveniences" of no more than 3 acres and drive through operations are prohibited.

The land at Deer Valley and Black Mountain is designated residential under the plan. Vestar, the developer of the Desert Ridge Marketplace, now wants to change this for their own financial gain; if the Desert View Planning Committee and city of Phoenix vote for the change of zoning, and approve the plan to put in a 20-acre shopping center (where we cannot and will not know what types of retail businesses will be - no one involved in this project will commit to various reasonable restrictions for its location - as per the meeting at Fireside Community Center. This will cause great harm to my family and neighbors; this land needs to remain zoned for single family home residential.

As I wrote to you last year, my family lives in the closest section of Fireside to Pinnacle HS, and the proposed shopping center. We already suffer through the pedestrian and vehicle traffic that invades the streets of our neighborhood when school is in session and for other events held at the HS. Students and parents drive at unsafe speeds down 36th Street and Abraham Dr. Additionally, at drop off and pick up times, cars are lined up and/or idling as drivers wait to drop off or pick up their students, blocking our way in and out, causing us to "play chicken" to maneuver down the narrowed streets. Some of these students walk through our desert wash/neighborhood landscaping as a short cut to those cars dropping off/waiting to pick up.

This is also a neighborhood where many children walk to Fireside Elementary School, located a short distance away. So not only is driving in, through and out of our neighborhood difficult

and would most likely become dangerous as traffic increases in an area not planned for such commercial development, it is not safe for small children to safely walk to school. **While adding speed bumps would help the speeding of the drivers cutting through our neighborhood, there still remains a larger issue.**

In addition, it can be all but impossible to safely leave our neighborhood at these times - the southern exit, on to Mayo Blvd. is right turn only and is very close to the Mayo/Black Mountain Blvd intersection (specifically to get into the left lane to turn on SR 51). The northern exit on to Deer Valley Rd. is hard to turn left onto during high traffic times.

To put it more clearly - leaving our neighborhood becomes even more difficult and dangerous with increased vehicle traffic that comes with commercial development - especially trying to go south onto Black Mountain Blvd AND west onto Deer Valley. We only have two VERY flawed entrances/exits that in the best of times are tricky and not very convenient OR safe. We essentially have to choose to limit leaving our neighborhood or taking the increased risk of attempting to go south or west in less than safe traffic conditions. How does this benefit our residential community?!? I predict that vehicle (and pedestrian) accidents will dramatically increase if this shopping center is approved.

**I have seen nothing in the "reworking" of this plan that adequately addresses the traffic concerns I have laid out here.**

**Has the city of Phoenix specifically done a traffic study of this area, taking this commercial development into account? How would the council plan to ameliorate the above stated traffic issues? What about environmental studies looking at the increase noise, light and exhaust pollution that will directly impact the surrounding residential neighborhoods?**

There is nothing that can be commercially built and nothing beneficial from a retail standpoint that makes this development worth if for my family and residential neighborhood. There are plenty of retail options at Desert Ridge and other close shopping centers. The is also land near by that has been zoned for retail/commercial - use those lands for this development. **Keep this parcel of land zoned as is, and open up bidding to home builders who would like to purchase this state land.**

Sincerely,

Rebecca J. Oakes

| We definitely need another grocery store in the area with the increase in housing in the area. Plus Desert Ridge always has a lot of traffic. |

| Trader Joe's or Whole Foods would be great - NO gas pumps/station, though. It would be convenient to have free charging stations. I would love some small specialty shops and dining options - NO fast food chains. |

I have been a lifelong resident of the Desert Ridge area and have developed a deep appreciation for the community and its residents. Over the years, I've witnessed our community rapidly expand, with new neighborhoods seemingly sprouting up every day. However, when it comes to shopping centers, our options have remained limited. Primarily relying on Desert Ridge and City Marketplace. I firmly believe it's time for us to diversify our retail offerings.

The proposed new shopping center presents itself an excellent opportunity not only for our community's growth but also for the benefit of Pinnacle High School students. It could serve as an invaluable source of employment for these students, allowing them to gain work experience and contribute to their education. Additionally, the creation of a safe and welcoming gathering place for families would undoubtedly enhance the cohesion of our community.

I sincerely hope you will consider supporting this endeavor, as it has the possibility to greatly enrich the Desert Ridge area, accommodating its increasing population and fostering a stronger, more vibrant community. Thank you for your thoughtful consideration.

| **Subject:** | Please Support Commercial Rezoning for Black Mountain Village/Superblock 12 |
| **Date:** | Wednesday, September 27, 2023 1:18:31 PM |

Hello,

I just wanted to voice my support for the commercial rezoning of the land located on the Southwest corner of Deer Valley and Black Mountain roads. I am a resident of the Sky Crossing Community that is located just north of deer valley road, across from the proposed development. I know there are a few loud voices, but the majority of us WANT this development. We've been waiting for a grocery store that's close for a long time!

I've heard there are some arguments against this development and I wanted to provide logical counter arguments.

1) The data shows that home values are HIGHER when you are near a grocery store. In addition, the closer you are to a grocery store, the higher your home values are - https://urldefense.com/v3/__https://www.homes.com/blog/2020/08/how-do-grocery-stores-affect-home-values/__;!!LkjWUF49MRd51_ry!e-sfmnkqRMSwTX9tRvVI1-TY0gzKsfc6rqlk5VkUfEbVQsrk6EO5_AtQJVMapx_LkUH1m4aQL9X1WZviEFj--Y3QSA$ . This research generally shows that the majority of people prefer living next to a grocery store right?? If people didnt want to be by a grocery store, home values would be lower instead of higher.

2) The extra traffic is overstated. People are not going to be using to the grocery store at the same time Pinnacle High School starts/finishes. It might not even be open at the time the school starts.

3) Anyone that is complaining that the lights will be too bright at night must not realize that the MASSIVE lights from Reach 11 sports complex are literally a hundred yards away from the developer's site. Those lights are hundreds of times bigger and brighter than any grocery store lights would be.

Please support this development. Based on home value data, we know the majority of people enjoy having a grocery store close and me and many others in this community have been waiting a long time for this.

I plan on attending the meeting on Tuesday, Oct 3rd to support this. I know the people against this are loud, but I promise there are more people for it.

thank you,
Tanner Davis

I would love to see a new neighborhood grocery anchor retail site at the corner of Deer Valley Drive and Black Mountain Parkway! There is growing demand for additional commercial and retail options in the Desert Ridge area. This project will be a beautiful transformation from vacant unincorporated land to a site with new restaurants and grocery store that will be appreciated by the community and surrounding area. It will also bring many more jobs to the area supporting the community growth even further! We appreciate your consideration with this proposal and application approval!

Fireside at Desert Ridge

**Support Comments**

I am a resident of Fireside and I am in support of the proposal to re-zone the 20 acres north of Pinnacle High School as Black Mountain Village, with a couple of thoughts on the details. I am not in favor of a gas station in that area. We have plenty close by along Tatum and Cave Creek and having the noise, light pollution, and smell from a gas station surrounded by all residential areas is not desirable. However, a smaller grocery store, and restaurants and shops that local residents can walk and bike to would be great. A bunch of fast food drive-throughs would not be the best. More something that local residents can enjoy as opposed to being a draw for people driving to the area. We have enough of that at Desert Ridge Marketplace already. Perhaps keeping it with a more local feel will assuage some of the concerns around traffic and noise.

I support the idea of building a New Grocery Store, such as Trader Joe's, Sprouts, Fry's, Safeway, etc. Preferably a Trader Joe's? That would be Super nice, especially when considering the fact that the closest one, to My knowledge, is located all the way in Scottsdale, inside the Scottsdale Promenade off of Scottsdale Rd. & Bell Rd., if I'm not mistaken? So a Trader Joe's closer to home would be Really Awesome, plus communities surrounding a Trader Joe's store just tend to be nicer for some reason? Plus, Trader Joe's is a Really Nice place to shop & buy groceries, for Many different reasons. That being

RE: Case# Z-39-23 Black Mountain Village

Dear Mayor and Council Members:

I am a nearby resident, and I am writing to express my SUPPORT for the proposed new commercial development located at the southwest corner of Deer Valley Drive and Black Mountain Parkway. This area is in desperate need of more neighborhood amenities to serve the community. A grocery store at this location would be an especially welcome addition to the neighborhood as well. I have seen the plans and believe this will be a quality project.

I urge you to support this request!

Sincerely,

4311 E. Melinda Ln
Phoenix AZ 85050

| You can never have enough neighborhood grocery centers, especially in this area where the nearest one is at least 2-3 miles away. |

RE: Case# Z-39-23 Black Mountain Village

Dear Mayor and Council Members:

I am a nearby resident, and I am writing to express my SUPPORT for the proposed new commercial development located at the southwest corner of Deer Valley Drive and Black Mountain Parkway. This area is in desperate need of more neighborhood amenities to serve the community. A grocery store at this location would be an especially welcome addition to the neighborhood as well. I have seen the plans and believe this will be a quality project.

I urge you to support this request!

Sincerely,

Tom Mozilo

| Our family is in support of more shopping and dining options in Desert Ridge. We love walking to retail, and having more job opportunities close by for our teens. Vestar has a track record of building and maintaining very nice shopping centers, so I don't think we would get much better than this. |

I support the development of a grocery store at this location. Specifically I would like to see a Trader Joe's in our community. It's a great option for a smaller space and has healthy and affordable options including fresh and packaged foods. In addition, the company has adopted a successful business model and a partner to the community that it operates in. Please consider Trader Joe's and accept no substitute.

| We think it would be great to have another grocery store in Desert Ridge. A gas station in conjunction with the grocery store would be great. Prefer not to have a fast food restaurant with a drive-up lane. A family friendly market place is preferred. |

| I 100% support a grocer in the neighborhood. BUT! The intersection of Deer Valley and Black Mountain gets extremely congested (albeit dangerous) when the Pinnacle High School starts/gets out. I implore you to do a traffic study and perhaps look at a different location. I'm not a developer and don't know what the plans are for it, but what about the land just west on Deer Valley?<br>Thank you for the opportunity to comment.<br>Angie Jones |

| I'd love to have an alternative to Albertsons. Whole Foods is a bit of a drive and a bit expensive. However, the people who should have the final say are those who live right around the piece of land you want to develop. Their opinion counts most. |

| Love the growth, I know everybody is worried about the school in the morning, but they are disregarding every other hour of the day and weekends. It is a perfect spot. Although the intersection is busy, the only request would be to alter to current traffic control system for everybody's benefit. |

| I do not support any oversized shopping centres. My husband and I avoid Desert Ridge as much as we can, only going there when friends suggest an eatery. If we do go to Desert Ridge, we make sure to go during off hours because the traffic is so horrific. We would never consider purchasing a home north of Loop 101 because of all the congestion these mega-shopping centres bring to the area. |

I am an Associate Real Estate Broker and have worked in this area for 20 years. There are so many naysayers and "no more infrastructure" posted on Next Door that I find to be completely ignorant of facts. I have served on the Government Affairs Committee for the Scottsdale Board of Realtors for about 17 years and also on the RAPAC committee (Political Action) for several years. Perhaps of my interest in what is going on in our communities, I'm more likely to research something before I comment.

I do believe there is a great need for the type of stores you are suggesting will be built in this area. It should be so convenient and helpful to the growth of homes and families in that particular area.

| I am very supportive of this proposed use and change of zoning. A small, but very vocal, number of residents in the Sky Crossing subdivision where I live are doing everything they can to kill this project. It is my impression that the majority of residents are very much looking forward to the development of a small grocery on this corner or are neutral. I would hate for this proposed project to fail due to the NIMBY attitude of a few. |

I love this idea. Not sure why others are so against it. In my opinion your plan will be much better than apartments or higher density residential. I love the idea of being able to walk to grocery store, restaurants and shops. I just hope this will be an upscale development like Desert Ridge, well landscaped, and attractive architecture. It is true that traffic is horrible in the mornings with the school, but hopefully this development will open up more ingress/egress options for people at the school. If you can convince the naysayers of this then I think you could change some minds.
My vote is yes, and hurry up and get started on it so we can enjoy it sooner than later!

Bill

I am so excited about getting a grocery store close to my home. I have lived in this neighborhood for 13 years and it is truly the one thing I dislike about my home's location. Everyone I know who lives in the Phoenix metro area has multiple grocery store options within a few miles of their home and I believe this addition will bring value and a sense of community to the area. Family and friends have all commented about how there is a lack of grocery store options by my home and I don't always need Costco size quantities (our closest store). If I could chose what to put in that location a Trader Joe's would be ideal. Please don't let people who complain about the traffic that happens before and after the high school starts and ends change your minds- this is just an hour out of the day total during school time which is also not the time when this grocery store would be busy to make a difference.

| I think it would be lovely to have a smallish retail center on that corner. You mentioned there would not be a big store/grocer. I think it would be great to put a Trader Joe's or a Sprouts, or some other smallish grocery store. A Dutch Bros would also be great, and the high schoolers next door would go CRAZY for that! Also perhaps some food stores as well. Like a breakfast place, a sandwich shop, or a restaurant. I think this sounds great and it sounds like you all are paying close attention to make sure it does well and is not some ugly looking thing sitting on the corner. :) |

Hello,
I am totally in favor of this new development. I have a few questions,
How firm is it that a 98,000 sq ft grocery store will be there. This seems to be quite large, many are complaining fuel to this. Also, how firm is it that there is guel pumps associated to said grocer. I for one. am not in favor of any fuel there.
How will traffic be handled for those trying to go into shopping center and exit
Will there be modifications on Deer Valley?
Asthetics of location, what type of landscaping and lighting. For example, when going to other communities in Scottsdale and Greyhawk, it's not blatant in your face a shopping center is there.

A new grocery store is most definitely needed to serve this community, and long over due. Been herebin this community for 22 years. I truly hope this passes.

Thank you,

Jean Kantaros

Hello Anthony,

I just wanted to give you some data around how many people support the grocery store going in and also some valid counterarguments to the current opposition. I plead with you to please use data in approving this development and please do not listen to the few voices who oppose it, even if they are loud. Here are all of the data points/counter arguments you should need to rationally approve this:

1) The majority of people SUPPORT this grocer store. This is evidenced by general research about housing prices/demand for homes that are close to a grocery store. In fact, the data shows home values get higher as they get closer to the grocery store - https://urldefense.com/v3/__https://www.homes.com/blog/2020/08/how-do-grocery-stores-affect-home-values/__;!!LkjWUF49MRd51_ry!fYeUGyEWYAC5aqleNJ48NjTEm8fSb23H3apmdeENqeBYjdDZhfwQGTHpPBCVFiPiaYyrsR21Lpz9EZrk2BTR_FG0iA$

I also have local data based on my facebook post in the Sky Crossing Community website, which is arguably the most impacted community from this development going in. Attached are screenshots of the support that my Pro-Grocery Store post received vs 3 opposition posts within a couple of days of each other. As you can see, my pro grocery store post received 54 likes compared to 3 other examples of opposition posts that received 23,20, and 10 likes. This is up to 5X the amount of likes in support!!

2) The opposition is going to state that there are 500-600 signatures against the development. This is not correct. There are 500-600 EMAIL ADDRESSES that are against this development. When you specify email addresses instead of households, the opposition doesn't come anywhere close to the majority. there are around 3000 homes in the 3 closest neighborhoods to this development (Sky Crossing, Fireside, and Aviano). When you take into account the fact that the people who are opposed are very furious about it, they probably had their spouses sign the petition AND most likely signed it with more than one of their email addresses. Even conservatively, the 500-600 signatures probably represents 200-300 households, which is only about 10% of the households of the sorrounding communities, MAX.

Defend the original desert ridge plan! Join the rally against the rezoning prior to the October 3rd planning committee. Come 5:45 at the paradise valley community center (not sky crossing community center) Keep the residential area safe, beautiful and keep traffic down ! Flyer attached with more details

5:50 50%

Rally Flyer.pdf

**JOIN OUR RALLY TO STOP THE COMMERCIAL REZONING**

**When:** Tuesday, October 3, 2023, 5:45pm
**Where:** Paradise Valley Community Center, 17402 N. 40th St.
**Why:** This proposal is NOT approved yet. We can still stop this!

If you are opposed to Vestar Development rezoning the land across Black Mountain Boulevard, from single family to commercial, please join us at the Desert View Village Planning Committee meeting on October 3. This is the first major hurdle Vestar Development needs to go over with their attempts at rezoning the land. The planning committee will either vote to recommend this rezoning or vote against the item happening.

We need to join together and show the Village Committee that we don't want this to be neighborhood. This will be a massive 100,000 sq ft grocery store with an attached gas station. This will not be a small neighborhood grocery store they're promising. ***Please join us prior to the meeting for a rally outside.*** If we have the numbers, we have media ready to participate and broadcast our rally. We need children, parents, and grandparents all grown up for this fight.

Are you looking for a weekend on project? Lake Hallo alone signs. We want the planning committee to walk through us to get into their meeting.

Do you want your voice to be heard? Everyone will have a chance to express their opinion during the meeting, prior to the planning committee making their vote. You are not required to speak! Your presence is enough and speaks for itself. We need as many people as possible to show up and get these people's attention. The development will not just be a locomotive. Fireside residents, Sky Crossing residents, Arizona residents, as well as the Estates at Ridgeview are uniting, and we need to know we are being heard!

Please consider joining up to **"Defend Desert Ridge"**

If anyone is interested in what the data/research says about home values when a grocery store is close, here's an article - https://www.homes.com/.../how-do-grocery-stores-affect.../. Many other research efforts have come to the same conclusion - that grocery stores are good for home values! In fact, this article discusses some research that shows home values increase more as the grocery store gets closer. The widely available research shows people generally... See more

| It is really close to a High School . My vote and suggestion would be a Trader Joes - there is not one near hear - it's easily 20-30 minutes from this location. It would do rally well. I tried to get one at the corner of Deer Valley and Cave Creek Road - now there is a starbucks and a dentist. |

Re: GPA-DSTV-3-23-2 & Zoning Case # Z39-23-2

We would support the above mentioned General Plan Amendment and Zoning application with a Recorded Stipulation prohibiting fuel dispensing of any kind, from any vendor.

We have resided 4/10ths of a mile from the subject site since 2008 and have witnessed tremendous growth in the interim. Especially with development of the fine Sky Crossing, Fireside, Ridgeview and Aviano subdivisions. Of course, with growth, pavement and traffic are sure to follow but we regard Vestar's proposed development as a neighborhood amenity because of the grocery store and dining opportunities the project will offer, and developed by an excellent developer.

Additional traffic generated by the proposed shopping center is clearly documented in the Traffic Study, and is also generally the most prevalent of opposing objections. However, the Study compares proposed traffic to the property's current vacant condition but not against potentially a more intense rezoning in the future. During the 68 years I have resided in Phoenix, I have observed numerous parcels that have been leap-frogged over by residential development, and then these properties were ultimately infilled by significantly more intense zoning. So the question is, what would the traffic look like with twenty acres of high density multi-family development? Apartment traffic is 24/7 and not limited to commuter traffic like it is currently. The Traffic Study also presumes that a neighborhood center would reasonably generate a number of persons choosing to walk to the grocery store or restaurants, at least during the eight months of beautiful weather, in lieu of driving to Desert Ridge Marketplace.

Again, no gasoline vending and we are in favor of the proposal.

We need the Vestar project. I am IN FAVOR of it, and so are a lot of neighbors. We just have a few NIMBYs who are against progress and change. A lot has changed since Desert Ridge was originally designed. Once the 51 entrance/exit came to Black Mountain, that changed everything. It is disingenuous for people to claim a bait and switch when there is a freeway entrance/exit right in their backyard. Moreover, there are a lot more homes going to be built in desert ridge and this proves that we need the project even more. The bottom line is that Vestar is proposing to pay for a lot of infrastructure upgrades to the area. If Vestar is not going to be able to build, who is going to pay for such work? I'm sure the City does not want to. And, I'm sure a lot of the NIMBYs won't want to pay for it either.

Hi There,

My name is Melissa Gitt and I'm a resident in the Sky Crossing neighborhood. I wanted to reach out and express our families support for the proposed project in Black Mountain Village (off of Deer Valley and Black Mountain in Phoenix). I believe the case numbers are GPA-DSTV-2-23-2 and GPA-DSTV-3-32-2/Z-39-23-2.

We appreciate how Vestar has gone above and beyond to ensure that the shops across the street from our neighborhood are safe and make sense for this community. It would be a huge benefit to have a grocery store, gas station and restaurants to dine in that are so close to us!

I realize many are not in favor, but please understand that many of us ARE in favor and we'd love to have Vestar's plans get approved. Please let me know if you have any questions.

Warm regards,

Melissa Gitt

Case numbers:
GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2

Hi,
I wanted to send an email that our family, who live in Sky Crossing, are in favor of the Black Mountain Village. We moved from another state 3 years ago and had a grocery store and gas station built connected to our development a year before we moved. It was absolutely wonderful to have a spot so close to our home and our neighbors there loved having it as well.

We are in favor of having Black Mountain Village as it will be nice to have that convenience, an additional grocery option (hopefully better than our closest grocery), and a spot that my teenage kids can bike to if they are hungry.

I have not been able to attend the meetings as I drive my kids to their sports in the evenings.

We really hope this comes together and the neighbors realize that this is a good thing for our neighborhood.

If you are taking requests- would love a Trader Joe's and a Dutch Bros!

Thanks,
Monica

**To:** PDD Planning Commission
**Subject:** GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2. Rezoning of parcel 12c Black Mtn Blvd-Deer Valley

Hello,
My name is Jean Kantaros. I live at 20925 N 37th Pl, which is in Desert Ridge for 22 years and have watched the community grow exponentially and have waited a long time for an additional grocer to be in our community.

I am writing to you regarding the above-mentioned rezoning hearing which will take place on Nov 2 in front of the Planning and Zoning commission board, then in City council chambers Dec 6. The hearing is regarding Deer Valley Blvd and Black Mtn Blvd intersection, super block 12, Parcel 12C from R2 to C2 which is only approx. 20 acres in total.

Vestar has proposed to build a development, Black Mountain Village, on this corner to bring a "VERY MUCH" needed grocery store to this community, which has been drastically under-served.

Currently, within the Desert Ridge community, the only available grocery store is Albertsons, at the Desert Ridge Marketplace Tatum/101, and Deer Valley.

The proposed new development, Black Mountain Village, is directly off the Black Mtn Blvd exit, off the 51 freeway, cornering Deer Valley and Black Mtn Blvd and also backing Mayo Blvd. Please note these 2 Blvds. are major arterial roads. This is an optimal location for commercial, AND a grocery store. The convenience alone of being off the freeway is perfect for those of us on the way home from work.

This also would be a prime location to serve those who are west of Tatum/Deer Valley intersection and alleviate the overwhelming traffic in that **EXTREMELY** dangerous intersection, AND allowing people who live West of Tatum Blvd the ability to utilize the freeway 51 exit, closer to their homes to shop, rather than exit off the 101 to shop and back track.

With all the ongoing "new" construction, the currently in progress construction (i.e.): complexes with over 2000 multi family apts (city north and Tatum/ Deer Valley), ALSO taking into account the recent new homes being built in Talin, and the most recent purchase by Taylor Morrison on Pinnacle Peak and Cave Creek for another 1500 homes, and the already existing homes in Desert Ridge, how can it be justified to only have ONE grocery store in Desert Ridge to serve this entire community? That is an AWFUL lot of people directed to one grocery store. Don't the people of Desert Ridge deserve more? Did anyone consider if Albertsons can keep up with the demand for **ALL** these families? Let's not forget escalating an already traffic nightmare at that intersection by 100%.

I understand there are many concerns regarding Pinnacle High School. The high school is directly off the 51 freeway exit THAT originally should've been planned better in my opinion. But that's a done deal. Therefore, no development or progress for the rest of the community should exist because a high school is there, **AND ONLY WHEN** school is in session, and **SPECIFICALLY** 2 times a day, 7 am and 2 pm for a 1/2 hr it is busy with drop off and pick up? What about the other times from 8am-1pm Mon-Fri. Or after 3pm Mon-Fri, EVERY Sat-Sun, School Holidays, School Breaks AND ALL summer during vacation. What about all those " non-busy" times? How is that logical? The drop off/pick up back up occurs at every school and not just that one, so it's not new news. If crossing Mayo Blvd during the specific drop off and pick up times is the problem, and students **CANNOT** follow traffic signals, maybe arrangements need to be made with the High School to add a crossing guard for these students, like they have for the "elementary students".

I listened to Vestars proposal on Oct 3. and they have laid out a very well-thought-out plan to assist with all the safety concerns regarding the high school. They will implement a Barricade on Mayo Blvd once it's expanded to four lanes to ensure people use the traffic signal. This Barricade is similar to the one on Black Mtn Blvd off the freeway exit, in the median. They are also putting in a 50ft Barrier on Mayo Blvd from the street to the Block wall which will be on the side

facing the school. Plus putting in the HAWK crossing system on Deer Valley. This is ALOT and very generous, more than other High Schools have such as Paradise Valley, where students cross 40th Street to get to the shopping center at any point on 40th street or cross Bell Rd.

Is this proposal perfect? NO.
Can stipulations be added by the city to Vestar to obtain the optimal proposal to satisfy 95% of this community? **ABSOLUTELY**!!
For example:

1. Smaller size grocer 65,000 sq ft +/-
2. No Fuel at all

**BUT** to be close minded, and totally deny this opportunity to an entire community to satisfy a selected few? Is biased and immoral.

State trust land that is sold or leased assists Arizona's economy, public education K-12, as well as other beneficiaries. By limiting the ability of this sale and keeping this **VERY** small parcel zoned status quo, provides ZERO benefits.
The ONLY ones benefiting are the ones who are opposing, due to buying a house backing to either Black Mtn or Deer Valley, which are major roads that are off a freeway exit. Their opposition is purely self-serving AND selfish.

These people are also fully aware that this parcel is too small to build any type of residential home community. They know that there is no reputable builder that will invest millions of dollars for a loss. This discussion has been had multiple times on neighborhood chats.Here is my reasoning, which was also posted in these chats:

> There is a total of 20 acres. By the time all the barriers are built, sidewalks, landscaping, etc., and Mayo Blvd widened to 4 lanes with a center median, it leaves ~15 acres. With that remaining buildable space you can build approx. 70 homes at 5 homes per acre, and that's still questionable if you also factor in streets, sidewalks, and a small community park. I do not foresee a builder investing millions of dollars to build the infrastructure surrounding this parcel, to only build 70 homes. Which will be NEXT door to a high school, SURROUNDED by 2 major arterial roads, AND off a freeway on ramp/exit. Those homes would HAVE to sell for a min of $1mil+ In order for homes in the vicinity to keep their values. I myself WOULD NEVER buy a home and invest that amount of money in that scenario, **WOULD YOU**?
> I have lived in the valley for 40 years, and personally have never seen any residential home community built with the similar description as above, BUT I have seen apartments built in that size lo which would be a disaster. That is the LAST thing that is needed there!! The typical builder will buy Trust Land over 200+ acres to build any type of community. Again, I mention, this scenario was brought up to these individuals who are opposed, and their responses were " I don't care if it can't be built on" it can stay vacant, we want it to stay zoned as is. Pretty selfish. Where is the benefit in that!!

If this zoning change is approved, it will benefit an entire community, as well as providing a positive economic impact for our schools and the other entitled beneficiaries. Also, the revenue generated, and tax proceeds will benefit the City of Phoenix.
The Desert Ridge Master Plan always had plans for another grocery store. It has somehow been forgotten along the way. It was never intended to have SO many residents utilize one neighborhood grocery store to purchase their day-to-day needs. To date, there have been SO MANY revisions to the "Master Plan" therefore, there is no logical reason as to why this request should not be approved since its long overdue.

The people from Sky Crossing and Copper Canyon at Fireside that specifically have homes backing to these major roads (Black Mtn and Deer Valley) have now organized meetings and using scare tactics and lies to support their agenda. Telling them to write to Councilman Jim Waring and this commission to oppose this development.

They are telling people there will be over 200 stores and a shopping center filled with junk food for starters, plus much more. This is a LIE! Desert Ridge Marketplace has 111 stores WITH quality restaurants and is 10 times the acreage of this proposal.
This shopping center is **NOT** big enough for 200 stores. The only store Vestar mentioned besides an un-named grocery store is Chick-fil-a. And a Dutch Bros to date, and to be honest Chick-fil-A is the #1 healthiest fast food out there. This is much better than students DRIVING to In and Out for lunch, possibly getting into an accident due to time constraints. They can actually walk there.

They can actually go to the grocery store and grab a HEALTHY LUNCH as well, since I've heard so many people grumble about "junk food". **MUCH** Safer than driving and crossing Tatum Blvd. Again, deceit AND scare tactics to promote their agenda. They are also stating having a grocery store next to a high school will change students' behavior. HOW, I ask? That is the most ludicrous statement I heard. Not sure how that works. Oh wait, they can grab a fresh deli sandwich, or a salad and that's a bad thing? A shopping center is **NOT** meant to be a babysitting venue for people's children. I mention Paradise Valley High School again, which has Rosati's, pizza, Walgreens, KFC, a Jack in the Box, and a Village Inn, plus more directly adjacent to the school across 40th street. That does not include the Paradise Valley Burger shop and Icee shop directly across the street. Has that changed the student's behavior??? I think not!! Ask the principal. There are many other High Schools in the valley that have "fast food", across from them.

My hopes are that the Planning and Zoning commission board can read between the lines, and see they are looking out for themselves, and not for the betterment of the community and what the community wants.
Desert Ridge Marketplace should NOT be the only commercial place WITH A GROCERY STORE to go to for this entire community. A solution to this **ONE** grocery store issue is needed, AND quickly. The current path is NOT sustainable as this community continues to grow. It cannot or should not be swept under a rug and continue status quo. The people of Desert Ridge deserve more options.
Thank you for your time and consideration in reading my letter. I am open to any future discussion if needed regarding this rezoning project. 602.326.6561.

Kind regards.

Jean Kantaros

Enc:
Propaganda they are saying

# It's still under review - You can still STOP this proposal !

There is an active proposal by a developer who wants to COMMERCIALLY rezone the land near Pinnacle High School.
The land has **NOT** been bought yet and the rezoning has **NOT** been approved yet.
When you bought your home, the expectation was that our community would remain residential.
If our community would start allowing commercial zones- it will set a precedent for future proposals.
They will not stop adding shopping centers, fast food restaurants and gas stations.
*The proposed zoning allows **200 other types of shops!** **THIS IS A LIE***
Going forward, they will NOT stop requested amendments to change their initial proposal.

We need everyone in Desert Ridge to voice their opposition and write an email to:
Anthony.grande@phoenix.gov (Village Planner assigned to this proposal).
and include council.district.2@phoenix.gov (Councilman Jim Waring)

# Consider these concerns :

1. It will add more traffic problems to all parts of the community. *With all the new builds that will add more traffic to all parts of the community.*
2. It will affect the safety of our kids going to Pinnacle High School and Fireside Elementary.. *Elementary school is off Lone Mountain it is nowhere near the shopping center.*
3. High School students' behaviors will change for the worse with these shops close by. *This was already mentioned above*
4. It will add to noise, littering, light and other pollutions. *Noise pollution will happen no matter what you live on a major road off a freeway! I have never seen Desert Ridge trashed with litter, and any type of build will add additional light. If they paid attention, Vestars lighting is non impactful from their proposal. The lighting is actually lower than streetlights and lower than the HIgh Schools.*
5. Traffic from delivery trucks will increase at all hours of the day. *Traffic is a given off the freeway*

6. It will attract all of the problems you see already at Desert Ridge Marketplace; ie: fast food restaurants and gas stations today. *Desert Ridge has In and Out. It has high quality restaurants. If you consider the Keg, BJ's, Jin Jla and more fast food that's a whole different issue. If the Desert Ridge Marketplace is SO BAD, perhaps consider* ***NOT****allowing your teenager to hang out there.*

## Stand with your community.

For most residents, it may not affect you directly, but please consider your neighbors and consider what a great community Desert Ridge is today.

We have all bought our homes knowing we have great schools, parks and playgrounds and above all, that it was a Planned Residential Community.

There are pre-approved commercial lots available for this developer on Cave Creek and Pinnacle Peak to add a new grocer.

Let's not ruin our community for the residents and children that will live here after we're gone and want the same great experience we enjoyed.

## What can you do?

hi, are you able to put this in for the next meeting? thanks:
hi, I'm writing in support of the Black Mountain Village Development project. we've heard for years that we were getting a second grocery store, most likely Fry's. bought our house in Aviano in 2009. most of the opposition are people backing the major roads in question. I think we need to look at the big picture of the neighborhood as opposed to a few who decided to buy a house backing a major road. so many more homes/residences are going up in the area and more retail is needed. Vestar develops top notch properties and this will be a plus to the community. thanks.

| **Date:** | Friday, October 20, 2023 9:37:18 AM |

Hello,

My name is James Patterson and I am a resident of Sky Crossing (moved here in 2019) and I am a supporter of this project. That being said, I am nervous/afraid to voice my support in a public setting because the neighborhood's loudest voices (via FaceBook) are so against it. If anyone posts something that is remotely in support of, multiple neighbors shoot it down which makes a constructive discussion impossible.

I would normally not have a problem being the antagonist but this is where I live. I don't want to put myself or my family in this kind of negative spotlight.

The people making this decision should know that there are many many many residents who support this but are being overshadowed by a few loud/rude voices.

Thanks,
James

Hello!

It has come to my attention that a number of my neighbors are upset about the proposed rezoning at Black Mountain and Deer Valley (rezoning proposal case GPA-DSTV-2-23-2 and Case GPA-DSTV-3-23-2 and Case Z-39-23-2).

I am unable to attend the 11/2 meeting but I would like to express my strong support for the proposal. If there's any way in which this support could be recorded despite my absence, I would greatly appreciate it.

Thank you!

I am definitely FOR this development. Please just make sure it is tastefully done and with retail options that are appealing to adults not just the high school kid's lunch time eats. It will be great to have a nice coffee shop (not commercial drive thru joe), maybe a local donut shop or cafe.

I love to think that this will develop our corner into an upscale little neighbourhood. Please don't bring in big box stuff.
I'd rather have apartment bldg if that's the plan.

And safety of our properties and life are of importance.
Nothing that will attract unpalatable encroachment.

Hoping this goes through!
Thanks

Hello,

I wanted to write you that I am in support of getting a grocery store in near Pinnacle High School by Deer Valley Road. Overall, I agree with a lot of people complaining about all the new developments. It's a shame all that natural land is getting houses. That being said, if we are getting all these new houses, we might as well get a grocery store to shop at. Thanks.

| **Subject:** | Support for development at Black Mountain and Deer Valley |
| **Date:** | Tuesday, November 28, 2023 1:32:22 PM |

Hi, Anthony. I am writing in support of the development at Black Mountain and Deer Valley. I live north of the planned development and with the influx of residential housing east, west and north of Desert ridge we are in desperate need of additional options for grocers, restaurants, gas and shopping, particularly on East-West running rds between Cave Creek Blvd and Scottsdale Rd. Having an additional shopping center option would take much traffic pressure off of Desert Ridge shopping center, and help alleviate their constant underparking issue. This would be a benefit to not only the 85050 and 85054 zip codes, but the impact would also benefit 85331 and 85266. It is a natural location for additional development with the location of the 51S on-ramp, and I sense this is supported not only by most residents in Desert Ridge but also the southern parts of Cave Creek and N. Scottsdale.

Thanks,
Catie Chisholm

**Subject:** Black Mountain Village / Superblock 12

We need the Vestar project. I am IN FAVOR of it, and so are a lot of neighbors. We just have a few NIMBYs who are against progress and change. A lot has changed since Desert Ridge was originally designed. Once the 51 entrance/exit came to Black Mountain, that changed everything. It is disingenuous for people to claim a bait and switch when there is a freeway entrance/exit right in their backyard. Moreover, there are a lot more homes going to be built in desert ridge and this proves that we need the project even more. The bottom line is that Vestar is proposing to pay for a lot of infrastructure upgrades to the area. If Vestar is not going to be able to build, who is going to pay for such work? I'm sure the City does not want to. And, I'm sure a lot of the NIMBYs won't want to pay for it either.

Sincerely,
Adam Polson

Mr. Grande,

I am writing this in regard to above noted rezoning cases.

My family is COMPLETELY IN FAVOR OF THIS PROJECT.

As a 17-year resident of Fireside Desert Ridge, we look forward to having a neighborhood retail center in the area. It has been long overdue. In my opinion this project, instead of more residential will reduce traffic at the times that some of my neighbors believe it will increase.

Thank you.

Hi Anthony,
I support Vestar's proposed new development south of Deer Valley and Black mountain Blvd.

I know that you are probably being inundated with emails against the project, and I think that's due to a very organized and loud group of homeowners that border the area and are against any sort of development on that property.

Vestar seems to have listened to criticism in the first round and made this lower density and smaller stores to keep it more in line with the neighborhood and schools immediately surrounding the area.  I think a tasteful retail area can be beneficial to property values.

Thank you,
Dan Oseran

| I live in Sky Crossing, right next to corner of Deer Valley Rd and 32nd St.<br><br>I would LOVE to see this land developed into commercial space. Grocery store, shops, retail, food, restaurant, and drive thru -- would all be a huge benefit to surrounding communities.<br><br>Currently the closest place you can go is Desert Ridge. And honestly I hate going there because it is so congested and busy from people coming to it from other parts of valley. It would be amazing to have something closer to home and less busy. It would also be nice to have a food option less than 5 minutes away.<br><br>To avoid Desert Ridge, the next best and closest hub of stores/restaurants/etc is like Bell Rd / 7th St, which is a good +20-25min drive one way. Which is ridiculous. We need options closer to our community.<br><br>There are a small dozen or so loud and vocal residents who dont want this development. They post about it on facebook group. They dont want anything to get built there except houses. If you went door to door and get signatures, you would likely find the VAST MAJORITY would support having amenities across the street.<br><br>Please get some food and retail options close to our Sky Crossing community with this development! |

Desert View
VILLAGE PLANNING COMMITTEE

# *REVISED
# Village Planning Committee Meeting Summary
## GPA-DSTV-3-23-2

| | |
|---|---|
| **Date of VPC Meeting** | October 1, 2024 |
| **Proposal** | Amendment to the Desert Ridge Specific Plan Section 6.C.5, Superblock 12 to allow commercial development. |
| **Location** | Southwest corner of Black Mountain Boulevard and Deer Valley Drive |
| **VPC Recommendation** | Approval, per the staff recommendation, with modifications |
| **VPC Vote** | 10-1 |

**VPC DISCUSSION:**

*Item No. 4 (GPA-DSTV-2-23-2), Item No. 5 (GPA-DSTV-3-23-2), and Item No. 6 (Z-39-23-2) are companion cases and were heard together.*

*Fifty-two members of the public registered to speak on this item, 18 in opposition, 34 in support.*

*Twelve members of the public registered in opposition, not wishing to speak.*

*Twenty-six members of the public registered in support, not wishing to speak.*

STAFF PRESENTATION
**Anthony Grande**, staff, provided an overview of the location of the subject site and the surrounding area, the proposed amendments to the General Plan Land Use Map and the Desert Ridge Specific Plan, and the rezoning request. Mr. Grande further described the proposed development, the correspondence received from the public, and the staff recommendations on all three cases, including recommended stipulations for the rezoning case.

APPLICANT PRESENTATION
**Ashley Marsh**, representing the applicant with Gammage & Burnham, PLC, provided a presentation, highlighting the work the applicant has done with the community since the last meeting and the aspects of the proposed development that have been modified. **Ryan Ash** with Vestar provided an overview of the company and the project, including the process of deciding on the subject site for this project. **Dawn Cartier** with CivTech

described the proposed street improvements in the surrounding area and the impacts on the traffic.

QUESTIONS FROM COMMITTEE

**Vice Chair Lagrave** asked about the provision of crossing guards and whether the applicant would be open to prohibiting car washes. **Ms. Marsh** stated that the applicant would provide the crossing guards and would be open to prohibiting car washes.

**Committee Member Israel** asked about the enforceability of the requirements of the Desert Ridge Specific Plan and about the responsibility to street improvements. **Mr. Grande** replied that the requirements of the specific plan are regulatory and would be enforced for any future development at the site and that developers are generally responsible for street improvements on their half of the street.

**Committee Member Younger** asked about auto-oriented businesses. **Ms. Marsh** replied that the zoning would allow what's found in the C-2 zoning use list.

**Committee Member Nowell** asked about drive throughs and the traffic and noise generated from them. **Ms. Marsh** stated that every drive through is different and has to be reviewed through a use permit for each one.

**Mr. Nowell** asked about the timing of street improvements. **Ms. Marsh** replied that all street improvements would need to be done first before development of the site.

**Committee Member Kollar** asked about the bus stop pad. **Ms. Marsh** replied that it would be incorporated for any future bus routes that may serve the area.

**Mr. Younger** commented on the traffic pattern example mentioned at Xavier College Preparatory School and asked if it would be similar here. **Ms. Cartier** replied that these would be more controlled movements because of the medians.

**Committee Member Carlucci** asked about signal timing changes at Black Mountain Boulevard and Deer Valley Drive. **Ms. Cartier** replied that the timing would be adjusted to allow pedestrians time to cross. **Mr. Carlucci** asked about the overall traffic modeling. **Ms. Cartier** provided details of the level of service in several scenarios.

**Committee Member Kirkilas** asked about the size of the grocery store and asked for clarification on the definition of adult uses. **Mr. Ash** replied that the site plan is conceptual and that negotiations will begin after zoning is in place, which will solidify the store size. **Ms. Marsh** provided a clarification on adult uses.

**Mr. Israel** asked about limiting all auto-oriented uses in C-2. **Mr. Grande** explained that individual uses could be prohibited in the Desert Ridge Specific Plan.

**Mr. Younger** asked about the height limit. **Mr. Ash** replied that it would be two stories, 30 feet.

**Mr. Carlucci** asked about the estimated investment in infrastructure for this project and whether prohibiting drive throughs would negatively impact the project. **Mr. Ash** replied with investment details and stated that prohibiting drive throughs would limit many future restaurant options. **Chair Bowser** added that in the post-Covid market, there are many more pick-up windows and drive throughs than before.

PUBLIC COMMENTS

**Ted Weis** introduced himself and spoke in support of the proposal, highlighting that it will provide more options for the area.

**Stephen Applebaum** introduced himself and spoke in opposition to the proposal, stating that it will provide opportunities for bad behavior for students.

**Jackie Zicarelli** introduced herself and spoke in opposition to the proposal, stating that this will only shift where people spend money, and that housing would be more important to building due to the housing crisis.

**Gary Smith** introduced himself and spoke in support of the proposal, stating that Desert Ridge Marketplace is too crowded, and this will provide an alternative.

**Yana Dashevsky** introduced herself and spoke in support of the proposal, highlighting the parking issues at Desert Ridge Marketplace.

**Aimee Sinclair** introduced herself and spoke in support of the proposal, stating that Desert Ridge is growing, and this proposal will make it safer to walk and bike.

**Kristen Cassuto** introduced herself and spoke in support of the proposal, highlighting the parking issues at Desert Ridge Marketplace.

**David Barge** introduced himself and spoke in support of the proposal, stating that he did not like the original proposal but is in support due to the changes Vestar made.

**Allie Lucyk** read a letter from **Geraldine Belafsky** in support of the proposal.

**Roland Ward** introduced himself and spoke in support of the proposal, stating it will provide an alternative to Desert Ridge Marketplace, which is too busy.

**Payton Sinclair** introduced himself and spoke in support of the proposal, stating it would be good to have job opportunities nearby.

**Andrea Remke** introduced herself and spoke in opposition to the proposal, stating she bought her home to be able to safely walk to school, not to have retail neaby.

**Mike Coppola** introduced himself and spoke in opposition to the proposal, stating that it will cause a traffic nightmare.

**Suzanne Sayegh** introduced herself and spoke in opposition to the proposal, stating that this is not a neighborhood shopping center, that stores people are looking for do not want to locate here, and that street improvements would be made by any new development.

**Chris Sinclair** introduced himself and spoke in support of the proposal.

**Allie Lucyk** introduced herself and spoke in support of the proposal.

A member of the public read a letter of support from **Greg Abrams**.

**Justin Popnoe** introduced himself and spoke in opposition to the proposal, stating this will have a negative impact on the nearby schools and highlighting the issue of child trafficking.

**William King** introduced himself and spoke in support of the proposal, stating they expected new retail to be built to accommodate new housing coming in.

**Wouter Roodenburg** introduced himself and spoke in opposition to the proposal, highlighting a petition submitted of people against the proposal.

**Jason Epstein** introduced himself and spoke in opposition to the proposal, stating there are too many unknowns.

**Megan Lloyd** introduced herself and spoke in support of the proposal, stating that having closer retail options is a good thing.

**Ben Butler** introduced himself and spoke in support of the proposal, stating support for additional retail and that Vestar is a good developer.

**Ron Bookholder** introduced himself and spoke in opposition to the proposal, stating the retail center will be regional due to the presence of the SR-51 and that this will be detrimental to the kids.

**Aaron Lloyd** introduced himself and spoke in support of the proposal, stating it will bring amenities to the area.

A member of the public read a letter of support from **Bob Hamer**.

**Layla Saikley** introduced herself and spoke in opposition to the proposal, stating that the area is a quiet, peaceful community.

A member of the public read a letter of support from **Erin Reese**.

A member of the public read a letter of support from **Richard Kovacik**.

**Dan Richards** introduced himself and spoke in opposition to the proposal, stating that he moved to the area to enjoy the distance from retail, that he was told this parcel would be residential, and that the shopping center is not needed.

A member of the public read a letter of support from **Rick Merritt**.

**Ronald Diamant** introduced himself and spoke in opposition to the proposal, stating it will bring in more traffic with the proximity of the SR-51.

**Helen Doyle** introduced herself and spoke in opposition to the proposal, stating that this intersection will end up busier than Tatum Boulevard.

**Neeraj Chandak** introduced himself and spoke in opposition to the proposal, stating that the shopping center will be just as bad as Desert Ridge Marketplace and highlighting the issue of homelessness.

**Irina Butler** introduced herself and spoke in support of the proposal, stating that Vestar did a good job of responding to the community's concerns.

**Linda Miles** introduced herself and spoke in support of the proposal.

**Sara Johnson** introduced herself and spoke in support of the proposal.

**Paul Dunn** introduced himself and spoke in opposition to the proposal, stating that it is spot zoning and should be invalidated, and that the existing allowed use is single-family residential.

**Carolyn Dunn** introduced herself and spoke in opposition to the proposal, playing a video showing the traffic issues around the school.

A member of the public read a letter of support from **Harrison Cole**, stating the need for new commercial development to support the new housing.

A member of the public read a letter of support from **Caryn Marchuk**, stating the peak times are better with retail than with residential.

**Nathan** and **Ilene Friedland** introduced themselves and spoke in support of the proposal.

**Candy Huether** introduced herself and spoke in opposition to the proposal, stating that parking and crime are issues, noting the issue of children crossing the street.

**Robert Miles** introduced himself and spoke in support of the proposal, stating the area is not currently walkable and that this proposal will take vehicles off the road.

**John Norris** introduced himself and spoke in support of the proposal, stating it will enhance the value of the area by providing an amenity.

**Jim Farley** introduced himself and spoke in support of the proposal, stating that Vestar responded to community concerns.

**Greg Collins** introduced himself and spoke in support of the proposal, stating this will provide options for kids and enhance walkability.

**James Tuffin** introduced himself and spoke in opposition to the proposal, stating that people bought homes based on the Desert Ridge Specific Plan and highlighting the issues with drive throughs.

A member of the public read a letter of support from **Bill Knapp**.

**Christian Jacob** introduced himself and spoke in support of the proposal, stating that friendships are formed at spaces like this and that other similar centers provide a safe space.

**Peggy Neely** introduced herself as the former Councilperson for the area and spoke in support of the proposal, stating that Vestar is a good developer and that the project will benefit the area.

APPLICANT RESPONSE

**Ms. Marsh** showed a drone video highlighting the traffic conditions of the area and discussed the history of the Desert Ridge Specific Plan being amended in the past.

COMMITTEE DISCUSSION

**Committee Member Warren** stated a concern about having retail next to the school, adding that he would be supportive if it was in a different location.

**Vice Chair Lagrave** commented about other examples of shopping centers near schools and noted that he was previously opposed to this because of the size of the grocery store and the gas station, which have been addressed by the applicant, adding that he would be supportive with the condition that there is no car wash.

**Committee Member Younger** asked about the bid process and timing. **Ms. Marsh** provided clarification.

**MOTION**
**Vice Chair Lagrave** made a motion to recommend approval of GPA-DSTV-3-23-2, per the staff recommendation, with modifications that the following item be added to the Special Requirements (Modifying City Regulations) list: "Car washes are prohibited." **Rick Nowell** seconded the motion.

**VOTE**
**10-1;** motion to recommend approval of GPA-DSTV-3-23-2, per the staff recommendation, with modifications passed; Committee Members Barto, Carlucci, Israel, Kirkilas, Kollar, Nowell, Reynolds, Younger, Lagrave, and Bowser in favor; Committee Member Warren opposed.

***VPC RECOMMENDED TEXT:**

**Amend Chapter 6 (Development Parcel Regulations), Section C.5. (Development Regulations by Superblock), Pages 6-45 to 6-46 as follows:**

**SUPERBLOCK 12**

Superblock 12 is located west of a possible future connection to the ~~Squaw~~ PIESTEWA Peak Parkway, which separates this superblock from the balance of the Desert Ridge community. BECAUSE OF THIS SEPARATION, THIS SUPERBLOCK CAN SUPPORT LIMITED COMMERCIAL USES WITHOUT INTERFERING WITH THE DEVELOPMENT OF THE DESERT RIDGE CORE (DEVELOPMENT PARCEL 5.A). RESIDENTIAL development parcels may vary in size by 30 percent (25 percent for R1-6 and more dense zoning categories without a minor plan amendment).

**Size:** ~~136~~ 133.41 acres
**Maximum Number of Dwelling Units:** 347
**Average Density:** 2.55 du/ac

**12.L – Development Parcel 12.L**

**Size:** ~~77~~ 55.24 acres
**Uses Permitted:**
- Single-family residential

**Density Range:** 2-5 du/ac for the entire parcel
**Maximum Number of Units**: ~~347~~ 257; ~~451~~ 334 if parcel increases in size 30 percent
**Potential Zoning to be Applied:** R1-18, R1-10, R1-8, R1-6, R-2
**Minimum Lot Size:** Zoning controls

**Special Requirements (Modifying City Regulations):**

- No attached single-family units; no multifamily units.

- Section C.4.B, Chapter 6, Desert Ridge Specific Plan applies.
- No more than 25% of the development parcel may be zoned R-2.

**Recommendations:**

- Clustering permitted subject to minimum lot size.

**12.C – DEVELOPMENT PARCEL 12.C**

**SIZE**: 20.52 ACRES
**USES PERMITTED**:
- ALL USES ALLOWED UNDER CITY OF PHOENIX ZONING DESIGNATION C-2, INTERMEDIATE COMMERCIAL, EXCEPT AS PROHIBITED BELOW.

**MAXIMUM NUMBER OF UNITS**: **90**
**POTENTIAL ZONING TO BE APPLIED**: C-2

**SPECIAL REQUIREMENTS (MODIFYING CITY REGULATIONS):**

- MAXIMUM GROSS LEASABLE AREA FOR ANY INDIVIDUAL RETAIL TENANT/USER (E.G. GROCER) SHALL NOT EXCEED 65,000 SQUARE FEET.
- AUTOMOBILE SERVICE STATIONS ARE PROHIBITED.
- ADULT USES ARE PROHIBITED.
- RETAIL LIQUOR SALES ARE ALLOWED AS AN ACCESSORY USE BUT ARE PROHIBITED AS A PRIMARY USE.
- TOBACCO ORIENTED RETAILERS ARE ALLOWED AS AN ACCESSORY USE BUT ARE PROHIBITED AS A PRIMARY USE.
- RETAIL MARIJUANA SALES (DISPENSARIES) ARE PROHIBITED.
- **CAR WASHES ARE PROHIBITED.**

**12.S – Development Parcel 12.S**

**Size:** ~~59~~ 57.65 acres
**Uses Permitted:**
- High school

**Potential Zoning to be Applied:** R1-8

**STAFF COMMENTS REGARDING VPC RECOMMENDATION:**

None.

Desert View
VILLAGE PLANNING COMMITTEE

# Village Planning Committee Meeting Summary
## GPA-DSTV-3-23-2

| | |
|---|---|
| **Date of VPC Meeting** | October 3, 2023 |
| **Proposal** | Amendment to the Desert Ridge Specific Plan Section 6.C.5, Superblock 12, Parcel 12.L to allow commercial development. |
| **Location** | Southwest corner of Black Mountain Boulevard and Deer Valley Drive |
| **VPC Recommendation** | Denial |
| **VPC Vote** | 7-2-1 |

**VPC DISCUSSION:**

*Item No. 5 (GPA-DSTV-2-23-2), Item No. 6 (GPA-DSTV-3-23-2), and Item No. 7 (Z-39-23-2) are companion cases and were heard together.*

*Twenty members of the public registered to speak on this item, 17 in opposition, three in support.*

*Thirty-three members of the public registered in opposition, not wishing to speak.*

*Three members of the public registered in support, not wishing to speak.*

STAFF PRESENTATION
**Anthony Grande**, staff, provided an overview of the location of the subject site and the surrounding area, the proposed amendments to the General Plan Land Use Map and the Desert Ridge Specific Plan, and the rezoning request. He further described the proposed development, the correspondence received from the public, and the staff recommendations on all three cases, including recommended stipulations for the rezoning case.

APPLICANT PRESENTATION
**Stephen Anderson**, representing the applicant with Gammage & Burnham, provided a presentation, describing the need for an additional grocery store in the area and highlighting details of the proposed development, including limitations on uses and upgrades to the adjacent streets. Mr. Anderson further noted responses to concerns raised and reviewed data regarding support for the proposal in the community.

QUESTIONS FROM COMMITTEE

**Committee Member Bunnell** asked about the ownership of the property. **Mr. Anderson** replied that the property is owned by the Arizona State Land Department and provided clarification about the future auction process.

**Committee Member Nowell** asked if alcohol sales would be permitted at the grocery store. **Mr. Anderson** replied that it would be permitted.

**Chair Bowser** asked for clarification on uses allowed in proximity to the school. **Mr. Anderson** stated that alcohol is not permitted within 300 feet of the school and that the proposed specific plan text would not permit alcohol sales as a primary use, but it would be allowed as an accessory use.

**Committee Member Kirkilas** asked if the gas station would be permitted to sell alcohol. **Mr. Anderson** replied that a gas station with a convenience store would not be permitted on the site.

**Committee Member Younger** asked whether dispensaries would be allowed on the site. **Mr. Anderson** replied that they would be prohibited by the proposed text.

**Committee Member Kollar** asked about parking management plans for the site. **Mr. Anderson** replied that the developer has experience managing complex parking situations, including at Desert Ridge Marketplace.

**Committee Member Kirkilas** asked about the distance from the site to the Albertsons and if there is a standard distance expected between grocery stores. **Mr. Anderson** stated that the distance is about two miles and noted that the distance to the nearest grocery store from Albertsons is currently around five miles, which is an unusually large separation for the Phoenix area.

**Committee Member Nowell** asked about the median extension stipulation. **Mr. Anderson** provided clarification, noting that the curbing would be added where it is currently striped.

**Committee Member Israel** asked about street conditions on Mayo Boulevard before and after the proposed development. **Mr. Anderson** stated that Mayo Boulevard is currently a half-street and described the proposed street improvements.

**Committee Member Bunnell** stated that bike lanes should be provided in both directions.

PUBLIC COMMENTS

**Dan Richards** introduced himself and spoke in opposition to the proposal, stating that residents in the area did their research and expected this parcel to be residential and that the proposed commercial use will bring customers from the SR-51 freeway and create issues with lighting, safety, loitering, and property values.

**Wouter Roodenburg** introduced himself and spoke in opposition to the proposal, stating that neighborhood retail is limited to three acres in the specific plan and it doesn't need to be changed because it already accomplishes the goals of the General Plan, further noting safety concerns with students walking to school and pedestrian and bike fatalities in relation to Vision Zero.

**James Tuffin** introduced himself and spoke in opposition to the proposal, stating that commercial activity should take place in the core and reduce in intensity away from the core, further noting that there are other shopping options nearby and that people bought their homes expecting this parcel to be residential.

**Paul Dunn** introduced himself and spoke in opposition to the proposal, highlighting the large footprint of the proposed grocery store and stating that the proposal will not be low impact and will cause traffic issues, in addition to air and light pollution.

**Jackie Zicarelli** introduced herself and spoke in opposition to the proposal, stating that the statements made by the applicant, including alcohol sales prohibition and the inclusion of Trader Joes or Whole Foods, are misleading and that C-1 zoning would be neighborhood retail, rather than C-2.

**Mallorie Laforest** introduced herself and spoke in opposition to the proposal, highlighting issues related to light pollution, traffic, and parking.

**Todd Laforest** introduced himself and spoke in opposition to the proposal, stating there was no immediate need for the development and that it would cause traffic issues, further noting that the development will not necessarily be done by Vestar.

**Randal Spence** introduced himself and spoke in opposition to the proposal, stating that there are many grocery store options in the area and that people supporting the proposal only want small grocers.

**Jeanette Vespalee** introduced herself and spoke in opposition to the proposal, stating that the master plan does not call for commercial use and that the proposal will cause congestion, traffic, and crime issues.

**Candy Huether** introduced herself and spoke in opposition to the proposal, stating that homeowners with exterior view fencing on neighboring developments expected the site to develop with residential, rather than commercial, and that crime, homeless, and human trafficking are important issues.

**Tom Carlson** introduced himself and spoke in opposition to the proposal, stating that it has transportation engineering issues and will draw traffic into the neighborhood.

**Nathan Goldberg** introduced himself and spoke in support to the proposal, stating that he is generally in favor of the proposal and the area needs more grocery stores, but he noted that he is concerned about the size of the grocery store and that the plan could be modified to include pick up and drop off areas for the school.

**Joe Hudock** introduced himself as a former chair of the committee and spoke in opposition to the proposal, stating that the purpose of the specific plan was to concentrate commercial activity in the core and that there will be opportunities to build with C-2 zoning to the north.

**Laurie Smith** introduced herself and spoke in opposition to the proposal, stating that the plan raises security concerns because residential development allows people to monitor the streets more than with commercial development.

**Jeff Smith** introduced himself and spoke in opposition to the proposal, highlighting that there is uncertainty in the final product because a different developer could come in later with a different proposal.

**Patty Farley** introduced herself and spoke in support to the proposal but noted that there should be no gas station and that a pedestrian bridge should be constructed over Deer Valley Drive.

**Jim Farley** introduced himself and spoke in support to the proposal, stating that the HAWK will be a great device for Mayo Boulevard and that there should be overhead walkways installed.

**Nathan Friedland** introduced himself and spoke in opposition to the proposal, stating that he moved to the location to get away from the lights of Reach 11 and this proposal would introduce more lighting to the area, further noting that there should be no gas station.

**Connie Ahlman** introduced herself and spoke in opposition to the proposal, stating agreement with many of the comments made and adding that Mayo Boulevard will continue to have a parking issue and that C-1 zoning would be neighborhood retail, rather than C-2.

**Andrea Remke** introduced herself and spoke in opposition to the proposal, stating that people bought homes in this area to be away from commercial growth and allow kids to safely walk to school, knowing the proposed site would be residential.

APPLICANT RESPONSE

**Mr. Anderson** stated that Black Mountain Boulevard connections to the north will be in the distant future, the adjacent streets are major arterials designed to handle a large amount of traffic, lighting limits would be in place through stipulations, and this proposal

will not set a precedent for additional commercial in the area, further reviewing Desert Ridge Marketplace traffic issues.

COMMITTEE DISCUSSION

**Committee Member Warren** stated that the concerns raised by the community about commercial activity next to the school are valid and that he has traffic concerns. **Mr. Warren** further stated that it is not a good idea to put commercial activity next to a school and that he is not supportive of the proposal.

**Vice Chair Lagrave** asked for clarification about the Arizona State Land Department's role in the process. **Mr. Grande** stated that ASLD is the property owner and submitted an authorization to allow Vestar to apply to rezone the property.

**Vice Chair Lagrave** stated that he does not support gasoline sales, that car washes should be prohibited at this location, and that 96,000 square feet is not a neighborhood grocery store. He further stated that if the application is approved, stipulations should be added to limit the size of the grocery store to 64,000 square feet, require a 50-foot building setback on Black Mountain Boulevard and Deer Valley Drive, and prohibit gasoline sales and car washes.

**Committee Member Bunnell** provided clarification on the ASLD process for auction.

**Committee Member Younger** stated that he hopes the shopping center would be moved to a different location.

**MOTION**

**Committee Member Mark Warren** made a motion to recommend denial of GPA-DSTV-3-23-2. **Committee Member Rick Nowell** seconded the motion for denial.

**VOTE**

**7-2-1**, motion to recommend denial of GPA-DSTV-3-23-2 passed; Committee Members Barto, Bunnell, Kirkilas, Kollar, Nowell, Warren, and Lagrave in favor; Committee Members Israel and Bowser opposed; Committee Member Younger abstaining.

**STAFF COMMENTS REGARDING VPC RECOMMENDATION:**

None.

# Village Planning Committee Meeting Summary
## GPA-DSTV-3-23-2
## INFORMATION ONLY

| | |
|---|---|
| **Date of VPC Meeting** | August 1, 2023 |
| **Proposal** | Amendment to the Desert Ridge Specific Plan Section 6.C.5, Superblock 12, Parcel 12.L to allow commercial development. |
| **Location** | Southwest corner of Black Mountain Boulevard and Deer Valley Drive |

**VPC DISCUSSION:**

*Item No. 3 (GPA-DSTV-2-23-2), Item No. 4 (GPA-DSTV-3-23-2), and Item No. 5 (Z-39-23-2) are companion cases and were heard together.*

*Committee Member Michelle Santoro declared a conflict of interest, bringing quorum to 10 members.*

*Eight members of the public registered to speak on this item, seven in opposition, one with questions.*

*One member of the public registered in support, not wishing to speak.*

*One member of the public registered in opposition, not wishing to speak.*

STAFF PRESENTATION
**Anthony Grande**, staff, provided an overview of the process to amend the Desert Ridge Specific Plan and the amendment proposed by the applicant, further describing the proposed General Plan Land Use Map amendment and rezoning.

APPLICANT PRESENTATION
**Stephen Anderson**, representing the applicant with Gammage & Burnham, described the proposed commercial development, noting that the anchor would be a grocery store, described the process for development of Arizona State Land Department property and the City of Phoenix zoning and development process. He further described the proposed text change to the Desert Ridge Specific Plan, in addition to the General Plan Amendment and rezoning cases.

QUESTIONS FROM COMMITTEE
**Committee Member Kirkilas** suggested adding a prohibition on smoke shops.

**Committee Member Powell** asked about the size of the grocery store. **Mr. Anderson** stated that the size was not defined yet.

**Committee Member Nowell** stated a concern about light pollution from the proposed gas station. **Mr. Anderson** stated that there was interest in a gas station in their outreach, but they could consider shifting it south.

**Committee Member Younger** asked if the applicant had spoken with the school leadership and whether electric vehicle charging would be provided. **Mr. Anderson** replied that they had recent discussions with the school leadership, but no specific agreements have been reached. He further stated that there would be EV charging on site.

**Committee Member Kollar** asked about safety issues related to foot traffic around the school. **Mr. Anderson** replied that it was the subject of discussions with the school, adding that a safe crossing is going to be needed for Mayo Boulevard. **Dawn Cartier**, a member of the development team with CivTech, stated that a HAWK crossing is under discussion for Mayo Boulevard.

**Committee Member Kollar** asked about a traffic study for the project, citing gridlock on surrounding streets. **Ms. Cartier** stated that the traffic study is in process, noting that there will be different peak times for the proposed use and the school.

**Chair Bowser** stated that there are a lot of illegal left turns on the surrounding streets.

**Committee Member Dickson** stated that the applicant presented to the Desert Ridge organization and that people in Desert Ridge want a grocery store and gas station.

**Committee Member Kollar** asked about the presentation slides showing geographic limits on certain uses. **Mr. Anderson** replied that the graphics related to liquor licensing.

**Committee Member Nowell** asked for clarification on the proposed prohibition on liquor sales. **Mr. Anderson** replied that it would only be prohibited as a primary use but that a business like the grocery story could sell liquor as an accessory use.

PUBLIC COMMENTS

**Justin Popnoe** introduced himself and spoke in opposition to the proposal, stating that the community doesn't have interest in a gas station or any alcohol sales at this site.

**Wouter Roodenburg** introduced himself and spoke in opposition to the proposal, stating that traffic is an issue around the school in the mornings and that safety of the kids is a concern.

**Robin Bowie** introduced herself and spoke in opposition to the proposal, citing issues related to traffic in the area, crime, and homelessness, suggesting the commercial use could be located elsewhere.

**Dan Richards** introduced himself and spoke in opposition to the proposal, stating that residents in the area don't want a gas station and that the volume of traffic is very high in the area.

**James Tuffin** introduced himself and spoke in opposition to the proposal, stating that the neighborhood is clean and quiet because there is no commercial in the area and that kids going to the shopping center will be a problem.

**Taylor Moskovich** introduced herself and spoke in opposition to the proposal, stating that people bought in the area with the expectation there would be no commercial uses and that it is a family friendly area with no need for businesses.

**Amanda Jane** introduced herself and spoke in opposition to the proposal, noting that residents of Sky Crossing should be considered, even though they are not in Desert Ridge.

**Frank Soldano** introduced himself and asked for more information about the size of the grocery store, as that would make a difference on the impact, noting he would like to see a gas station at this location.

APPLICANT RESPONSE

**Mr. Anderson** stated that the applicant team will consider all of the comments made and that written comments can be submitted to City staff.

COMMITTEE DISCUSSION

**Vice Chair Lagrave** stated that the developer is going to need to work with the community to find solutions to many of the issues raised at the meeting.

**Committee Member Younger** stated that the public discussion brought up an important issue about lighting, in addition to other issues raised.

Vote: 8-1 (Busching)
Absent: None
Opposition Present: Yes

Findings: None.

Proposed Language:

**Amend Chapter 6 (Development Parcel Regulations), Section C.5. (Development Regulations by Superblock), Pages 6-45 to 6-46 as follows:**

## SUPERBLOCK 12

Superblock 12 is located west of a possible future connection to the ~~Squaw~~ PIESTEWA Peak Parkway, which separates this superblock from the balance of the Desert Ridge community. BECAUSE OF THIS SEPARATION, THIS SUPERBLOCK CAN SUPPORT LIMITED COMMERCIAL USES WITHOUT INTERFERING WITH THE DEVELOPMENT OF THE DESERT RIDGE CORE (DEVELOPMENT PARCEL 5.A). RESIDENTIAL development parcels may vary in size by 30 percent (25 percent for R1-6 and more dense zoning categories without a minor plan amendment).

**Size:** ~~136~~ 133.41 acres
**Maximum Number of Dwelling Units:** 347
**Average Density:** 2.55 du/ac

### 12.L – Development Parcel 12.L

**Size:** ~~77~~ 55.24 acres
**Uses Permitted:**

- Single-family residential

**Density Range:** 2-5 du/ac for the entire parcel
**Maximum Number of Units**: ~~347~~ 257; ~~451~~ 334 if parcel increases in size 30 percent
**Potential Zoning to be Applied:** R1-18, R1-10, R1-8, R1-6, R-2
**Minimum Lot Size:** Zoning controls

**Special Requirements (Modifying City Regulations):**

- No attached single-family units; no multifamily units.
- Section C.4.B, Chapter 6, Desert Ridge Specific Plan applies.
- No more than 25% of the development parcel may be zoned R-2.

**Recommendations:**

- Clustering permitted subject to minimum lot size.

### 12.C – DEVELOPMENT PARCEL 12.C

**SIZE**: 20.52 ACRES
**USES PERMITTED**:

- ALL USES ALLOWED UNDER CITY OF PHOENIX ZONING DESIGNATION C-2, INTERMEDIATE COMMERCIAL, EXCEPT AS PROHIBITED BELOW.

**MAXIMUM NUMBER OF UNITS**: **90**
**POTENTIAL ZONING TO BE APPLIED**: C-2

**SPECIAL REQUIREMENTS (MODIFYING CITY REGULATIONS):**

- MAXIMUM GROSS LEASABLE AREA FOR ANY INDIVIDUAL RETAIL TENANT/USER (E.G. GROCER) SHALL NOT EXCEED 65,000 SQUARE FEET.
- AUTOMOBILE SERVICE STATIONS ARE PROHIBITED.
- ADULT USES ARE PROHIBITED.

City of Phoenix

Report

**Agenda Date:** 12/4/2024, **Item No.** 78

## Public Hearing and Ordinance Adoption - Rezoning Application Z-39-23-2 - Southwest Corner of Black Mountain Boulevard and Deer Valley Drive (Ordinance G-7331) - District 2

Request to hold a public hearing and amend the Phoenix Zoning Ordinance, Section 601, the Zoning Map of the City of Phoenix, by adopting Rezoning Application Z-39-23-2 and rezone the site from S-1 DRSP (Approved R1-6 DRSP) (Ranch or Farm Residence, Desert Ridge Specific Plan) (Approved Single-Family Residence District, Desert Ridge Specific Plan) and S-1 DRSP (Approved R-2 DRSP) (Ranch or Farm Residence, Desert Ridge Specific Plan) (Approved Multifamily Residence District, Desert Ridge Specific Plan) to C-2 DRSP (Intermediate Commercial, Desert Ridge Specific Plan) to allow a commercial shopping center. This is a companion case to GPA-DSTV-2-23-2 and GPA-DSTV-3-23-2 and must be heard following GPA-DSTV-2-23-2 and GPA-DSTV-3-23-2.

### Summary

Current Zoning: S-1 DRSP (Approved R1-6 DRSP) (1.71 acres) and S-1 DRSP (Approved R-2 DRSP) (18.81 acres)
Proposed Zoning: C-2 DRSP
Acreage: 20.52
Proposal: Commercial shopping center

Owner: Arizona State Land Department
Applicant: Ryan Ash, Vestar
Representative: Ashley Z. Marsh, Gammage & Burnham

Staff Recommendation: Approval, subject to stipulations.
VPC Information Only: The Desert View Village Planning Committee heard this item on August 1, 2023, for information only.
VPC Action: The Desert View Village Planning Committee heard this item on October 3, 2023, and recommended denial by a vote of 9-1.
PC Action: The Planning Commission heard this item on January 4, 2024, and recommended a continuance to a date uncertain and remanded the case back to the Desert View Village Planning Committee for reconsideration by a vote of 7-0.
VPC Action: The Desert View Village Planning Committee heard this item on October

1, 2024, and recommended approval, per the staff recommendation, by a vote of 10-1. PC Action: The Planning Commission heard this item on November 7, 2024, and recommended approval, per the Desert View Village Planning Committee, by a vote of 9-0.

## Location

Southwest corner of Black Mountain Boulevard and Deer Valley Drive
Council District: 2
Parcel Addresses: 21502 and 21600 N. Black Mountain Boulevard; 21520, 21618, 21650, 21680, 21702, and 21750 N. Black Mountain Parkway; 3501 and 3517 E. Deer Valley Drive; and 3539 and 3545 E. Mayo Boulevard

## Responsible Department

This item is submitted by Deputy City Manager Alan Stephenson and the Planning and Development Department.

ORDINANCE G-

AN ORDINANCE AMENDING THE ZONING DISTRICT MAP ADOPTED PURSUANT TO SECTION 601 OF THE CITY OF PHOENIX ZONING ORDINANCE BY CHANGING THE ZONING DISTRICT CLASSIFICATION FOR THE PARCEL DESCRIBED HEREIN (CASE Z-39-23-2) FROM S-1 DRSP (APPROVED R1-6 DRSP) (RANCH OR FARM RESIDENCE, DESERT RIDGE SPECIFIC PLAN) (APPROVED SINGLE-FAMILY RESIDENCE DISTRICT, DESERT RIDGE SPECIFIC PLAN) AND S-1 DRSP (APPROVED R-2 DRSP) (RANCH OR FARM RESIDENCE, DESERT RIDGE SPECIFIC PLAN) (APPROVED MULTIFAMILY RESIDENCE DISTRICT, DESERT RIDGE SPECIFIC PLAN) TO C-2 DRSP (INTERMEDIATE COMMERCIAL, DESERT RIDGE SPECIFIC PLAN).

_____

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF PHOENIX, as follows:

SECTION 1. The zoning of a 20.52-acre property located at the southwest corner of Black Mountain Boulevard and Deer Valley Drive in a portion of Section 24, Township 4 North, Range 3 East, as described more specifically in Exhibit "A," is hereby changed from 1.71 acres of "S-1 DRSP (Approved R1-6 DRSP)" (Ranch or Farm Residence, Desert Ridge Specific Plan) (Approved Single-Family Residence District, Desert Ridge Specific Plan) and 18.81 acres of "S-1 DRSP (Approved R-2 DRSP)" (Ranch or Farm Residence, Desert Ridge Specific Plan) (Approved Multifamily

DRAFT

Residence District, Desert Ridge Specific Plan) to “C-2 DRSP” (Intermediate Commercial, Desert Ridge Specific Plan).

SECTION 2. The Planning and Development Director is instructed to modify the Zoning Map of the City of Phoenix to reflect this use district classification change as shown in Exhibit “B.”

SECTION 3. Due to the site’s specific physical conditions and the use district applied for by the applicant, this rezoning is subject to the following stipulations, violation of which shall be treated in the same manner as a violation of the City of Phoenix Zoning Ordinance:

1. All on site lighting shall comply with the following:
    a. Maximum of 20 feet in height including lamp, pole, and base.
    b. All outdoor lighting fixtures must be designed, installed, and maintained to prevent light trespass, glare, and skyglow.
    c. All outdoor fixtures must be full cutoff, ensuring zero light output emitted above the horizontal (90-degree plane).
    d. Utilize LED lights with a correlated color temperature (CCT) of 3000K or lower.
2. A minimum 5,000-square-foot pedestrian plaza shall be provided and maintained by the developer as a gathering place for the public, adhering to the following standards, and as approved by the Planning and Development Department.
    a. The plaza shall be designed to allow pedestrian access and shall not be restricted during the time the shopping center is open.
    b. The plaza shall include seating for public use and a minimum of two additional amenities, such as a water feature, outdoor game area, splash pad, shaded seating, enhanced landscaping, performance stage, fire pit, or other similar amenities.
3. A minimum 6-foot-wide pedestrian pathway, providing cross-block access and connecting with the public plaza, shall be provided consistent with the following standards, and as approved by the Planning and Development Department.

DRAFT

a. The pathway shall adhere to the requirements of Section 1304.H of the Phoenix Zoning Ordinance.

b. The pathway shall connect with the HAWK crossing provided at Mayo Boulevard.

c. The pathway shall be lined on both sides with either of the following elements, or a combination of the two, except where a pedestrian pathway is a minimum of 16 feet wide:

(1) A minimum 5-foot-wide landscape strip, except where drive aisles cross the pathway where necessary. Structural shade elements may be used, and footers may be placed within the landscape strip along the pathway.

(2) Building frontages meeting the glazing requirements of a minimum of 75 percent of the ground floor frontages facing the pedestrian pathway, measured as the area between 3 and 8 feet above grade for the entire width of the facade, consisting of clear windows that will allow a minimum of 75 percent of the visible light (as specified by the manufacturer) to be visible on either side of the window.

4. Where pedestrian walkways cross a vehicular path, the pathway shall be constructed of decorative pavers, stamped or colored concrete, or other pavement treatments that visually contrast parking and drive aisle surfaces, as approved by the Planning and Development Department.

5. All pedestrian pathways, including sidewalks and shared-use paths, shall be shaded by a structure or landscaping at maturity, or a combination of the two to achieve a minimum of 75 percent shade, as approved by the Planning and Development Department.

6. All uncovered surface parking lot areas shall be landscaped with minimum 2-inch caliper drought-tolerant shade trees. Landscaping shall be dispersed throughout the parking area and achieve 25 percent shade at maturity, as approved by Planning and Development Department.

7. Bicycle parking shall be provided, consistent with Section 1307.H of the Phoenix Zoning Ordinance, except that Section 1307.H.6.c shall not apply, as approved by the Planning and Development Department.

8. A minimum of 2 percent of the required parking shall be EV installed.

9. A minimum of 10% of the required shrubs, shall be a milkweed or other native nectar species, and shall be planted in groups of three or more, as approved by

DRAFT

the Planning and Development Department.

10. The developer shall dedicate right-of-way and construct a bus stop pad on southbound Black Mountain Boulevard. Bus stop pad shall be constructed according to City of Phoenix Standard Detail P1260 with a minimum depth of 10 feet. Bus stop pad shall be spaced from Deer Valley Drive according to City of Phoenix Standard Detail P1258. Trees shall be placed to provide 50 percent shade coverage to bus stop pad at full maturity.

11. A minimum number of pedestrian connections shall be provided from the development to the adjacent sidewalk, as follows: 2 connections to Deer Valley Drive, 3 connections to Mayo Boulevard, and 3 connections to Black Mountain Boulevard, as approved by the Planning and Development Department. Pedestrian connections shall be sufficiently spaced to allow convenient pedestrian access to the sidewalk from any portion of the proposed development.

12. The landscape planters along all streets, separating the curb from the sidewalk, shall be planted to the following standards, as approved or modified by the Planning and Development Department.

    a. Minimum 2-inch caliper shade trees planted 20 feet on center or in equivalent groupings to provide a minimum of 75 percent shade at tree maturity.

    b. Drought-tolerant shrubs, accents, and vegetative groundcovers to achieve a minimum of 75 percent live coverage at maturity.

    Where utility conflicts arise, the developer shall work with the Planning and Development Department on an alternative design solution consistent with a pedestrian environment.

13. A 20-foot-wide shared-use path easement (SUPE) shall be dedicated along Black Mountain Boulevard and a minimum 10-foot-wide shared-use path (SUP) shall be constructed within the easement in accordance with the MAG supplemental detail and as approved or modified by the Planning and Development Department.

14. A minimum 5-foot-wide detached sidewalk separated by a minimum 5-foot-wide landscape strip located between the back of curb and sidewalk, shall be provided along 34th Street, as approved or modified by the Planning and Development Department.

15. A minimum 70 feet of right-of-way shall be dedicated for the west half of Black Mountain Boulevard, adjacent to the development.

16. A minimum 55 feet of right-of-way shall be dedicated for the north half of Mayo

DRAFT

Boulevard, adjacent to the development.

17. Mayo Boulevard shall be consistent with the Desert Ridge Specific Plan and the approved cross sections in the forthcoming Super Block 12 Master Street Plan.

18. The existing median in Black Mountain Boulevard shall be modified to extend northward to the Deer Valley Drive intersection.

19. The existing traffic signal at the intersection of Mayo Boulevard and Black Mountain Boulevard shall be fully funded and reconstructed to meet City of Phoenix standards.

20. A Traffic Impact Analysis (TIA) and Master Street Plan shall be submitted to the City for this development and Super Block 12 of the Desert Ridge Specific Plan. The Traffic Impact Analysis (TIA) shall also be expanded to address the proposed development's impact and funding responsibility on the Sonoran Desert Drive Corridor. No preliminary approval of plans shall be granted until the study and master street plan are reviewed and approved by the Street Transportation Department.

21. A HAWK traffic control device shall be fully funded and constructed on Mayo Boulevard between 34th Street and Black Mountain Boulevard, as approved by the Street Transportation Department.

22. Decorative metal view fencing shall be constructed in the landscape median along Mayo Boulevard, as approved by the Street Transportation Department.

23. Acquire, dedicate sufficient right-of-way, and construct a southbound right turn lane, including incidental intersection improvements, on the northwest corner of the Deer Valley Drive and Black Mountain Boulevard intersection.

24. Acquire, dedicate sufficient right-of-way, and construct a westbound right turn lane, including incidental intersection improvements, on the northeast corner of the Deer Valley Drive and Black Mountain Boulevard intersection.

25. Acquire, dedicate sufficient right-of-way, and construct an eastbound right turn lane, including incidental intersection improvements, on the southwest corner of the Deer Valley Drive and 40th Street intersection.

26. Acquire, dedicate sufficient right-of-way, and construct a westbound right turn lane, including incidental intersection improvements, on the northeast corner of the Deer Valley Drive and 40th Street intersection.

27. All streets within and adjacent to the development shall be constructed with paving, curb, gutter, sidewalk, curb ramps, streetlights, median islands, landscaping and other incidentals, as per plans approved by the Planning and

DRAFT

Development Department. All improvements shall comply with all ADA accessibility standards.

28. The property owner shall record documents that disclose the existence, and operational characteristics of the Phoenix Deer Valley Airport to future owners or tenants of the property. The form and content of such documents shall be according to the templates and instructions provided which have been reviewed and approved by the City Attorney.

29. If determined necessary by the Phoenix Archaeology Office, the applicant shall conduct Phase I data testing and submit an archaeological survey report of the development area for review and approval by the City Archaeologist prior to clearing and grubbing, landscape salvage, and/or grading approval.

30. If Phase I data testing is required, and if, upon review of the results from the Phase I data testing, the City Archaeologist, in consultation with a qualified archaeologist, determines such data recovery excavations are necessary, the applicant shall conduct Phase II archaeological data recovery excavations.

31. In the event archaeological materials are encountered during construction, the developer shall immediately cease all ground-disturbing activities within a 33-foot radius of the discovery, notify the City Archaeologist, and allow time for the Archaeology Office to properly assess the materials.

32. Prior to preliminary site plan approval, the landowner shall execute a Proposition 207 waiver of claims form. The waiver shall be recorded with the Maricopa County Recorder's Office and delivered to the City to be included in the rezoning application file for record.

SECTION 4. If any section, subsection, sentence, clause, phrase or portion of this ordinance is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions hereof.

PASSED by the Council of the City of Phoenix this 4th day of December, 2024.

LEGAL DESCRIPTION FOR Z-39-23-2

A PORTION OF THE NORTHWEST QUARTER OF SECTION 24, TOWNSHIP 4 NORTH, RANGE 3 EAST, OF THE GILA AND SALT RIVER BASE AND MERIDIAN, MARICOPA COUNTY, ARIZONA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

**BEGINNING** AT THE NORTH QUARTER OF SAID SECTION 24, FROM WHICH THE NORTHWEST CORNER OF SAID SECTION 24 BEARS SOUTH 89 DEGREES 46 MINUTES 38 SECONDS WEST, A DISTANCE OF 2,628.51 FEET;

THENCE SOUTH 00 DEGREES 19 MINUTES 26 SECONDS EAST, ALONG THE EAST LINE OF THE NORTHWEST QUARTER OF SAID SECTION 24, A DISTANCE OF 1,206.07 FEET TO THE CENTER LINE OF MAYO BOULEVARD AS SHOWN IN BOOK 487 OF MAPS, PAGE 46, MARICOPA COUNTY RECORDS;

THENCE ALONG SAID CENTER LINE, NORTH 64 DEGREES 10 MINUTES 09 SECONDS WEST, A DISTANCE OF 1,207.00 FEET TO THE CENTER LINE OF THAT CERTAIN ACCESS ROAD RIGHT-OF-WAY SHOWN IN ASLD DOCUMENT NO. 16-116983 AND DOCUMENT NO. 2017-136250, MARICOPA COUNTY RECORDS;

THENCE ALONG SAID CENTER LINE OF ACCESS ROAD THE FOLLOWING FIVE (5) COURSES:

THENCE NORTH 25 DEGREES 05 MINUTES 44 SECONDS EAST, A DISTANCE OF 263.99 FEET TO A POINT OF CURVE TO THE RIGHT HAVING A RADIUS OF 505.00 FEET;

THENCE NORTHEASTERLY ALONG THE ARC OF SAID CURVE, THROUGH A CENTRAL ANGLE OF 16 DEGREES 19 MINUTES 54 SECONDS, A DISTANCE OF 143.95 FEET;

THENCE NORTH 41 DEGREES 25 MINUTES 38 SECONDS EAST, A DISTANCE OF 125.83 FEET TO A POINT OF CURVE TO THE LEFT HAVING A RADIUS OF 245.00 FEET;

THENCE NORTHERLY ALONG THE ARC OF SAID CURVE, THROUGH A CENTRAL ANGLE OF 41 DEGREES 39 MINUTES 00 SECONDS, A DISTANCE OF 178.10 FEET;

DRAFT

THENCE NORTH 00 DEGREES 13 MINUTES 22 SECONDS WEST, A DISTANCE OF 60.82 FEET TO THE NORTH LINE OF THE NORTHWEST QUARTER OF SAID SECTION 24;

THENCE ALONG SAID NORTH LINE, NORTH 89 DEGREES 46 MINUTES 38 SECONDS EAST, A DISTANCE OF 744.62 FEET TO THE **POINT OF BEGINNING**.

SAID PARCEL CONTAINS 893,555 SQUARE FEET OR 20.513 ACRES, MORE OR LESS.

## Background/Issues/Analysis

SUBJECT SITE

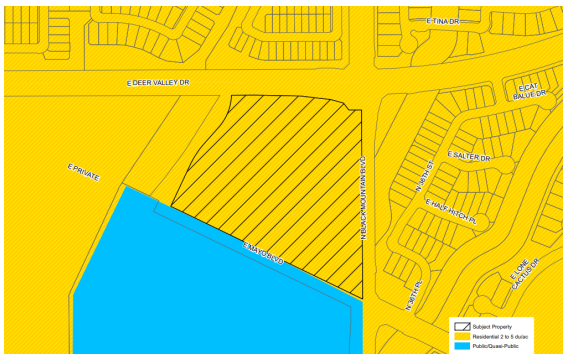
1. This request is to rezone a 20.52-acre site located at the southwest corner of Black Mountain Boulevard and Deer Valley Drive from S-1 DRSP (Approved R1-6 DRSP) (Ranch or Farm Residence, Desert Ridge Specific Plan) (Approved Single-Family Residence District, Desert Ridge Specific Plan) and S-1 DRSP (Approved R-2 DRSP) (Ranch or Farm Residence, Desert Ridge Specific Plan) (Approved Multifamily Residence District, Desert Ridge Specific Plan) to C-2 DRSP (Intermediate Commercial, Desert Ridge Specific Plan) to allow a commercial shopping center.

   This is a companion case to two other cases that are running concurrently. GPA-DSTV-2-23-2 is a request to change the General Plan Land Use Map designation of the subject site from Residential 2 to 5 dwelling units per acre to Commercial. GPA-DSTV-3-23-2 is an amendment to the Desert Ridge Specific

Plan, Superblock 12, Parcel 12.L, which would create a commercial parcel coterminous with the subject site of this rezoning case.

The subject site is undeveloped land owned by the Arizona State Land Department that was annexed into the City of Phoenix in 1988. The site was incorporated into the Desert Ridge Specific Plan at the original adoption of the plan in 1990 and was identified as a low-density residential parcel. The site was platted in 1997 with a state plat that created the surrounding street grid and blocks and tracts in the area. In 2007, the Phoenix City Council approved rezoning case Z-135-06-2, rezoning the site to R1-6 and R-2 for a proposed single-family residential development; however, the site was never developed.

2. The subject site is designated as Residential 2 to 5 dwelling units per acre on the General Plan Land Use Map. The properties to the north, east, and west are also designated as Residential 2 to 5 dwelling units per acre. The property to the south is designated as Public/Quasi-Public.

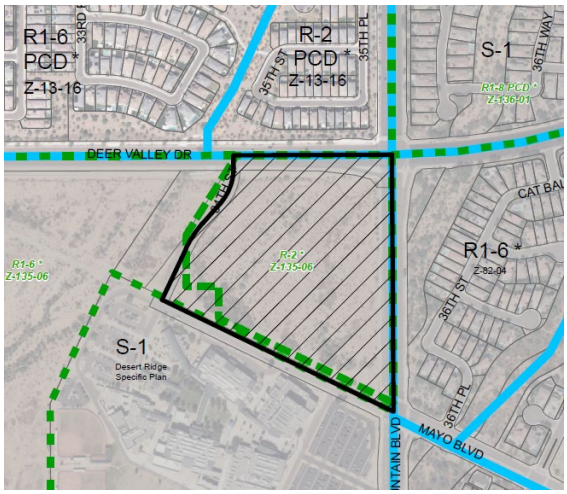


*General Plan Land Use Map, Source: Planning and Development Department*

The applicant is proposing a minor General Plan Amendment (GPA-DSTV-2-23-2) to change the designation of the subject site to Commercial. The proposed zoning district is consistent with the proposed General Plan Land Use Map designation.

EXISTING CONDITIONS AND SURROUNDING ZONING

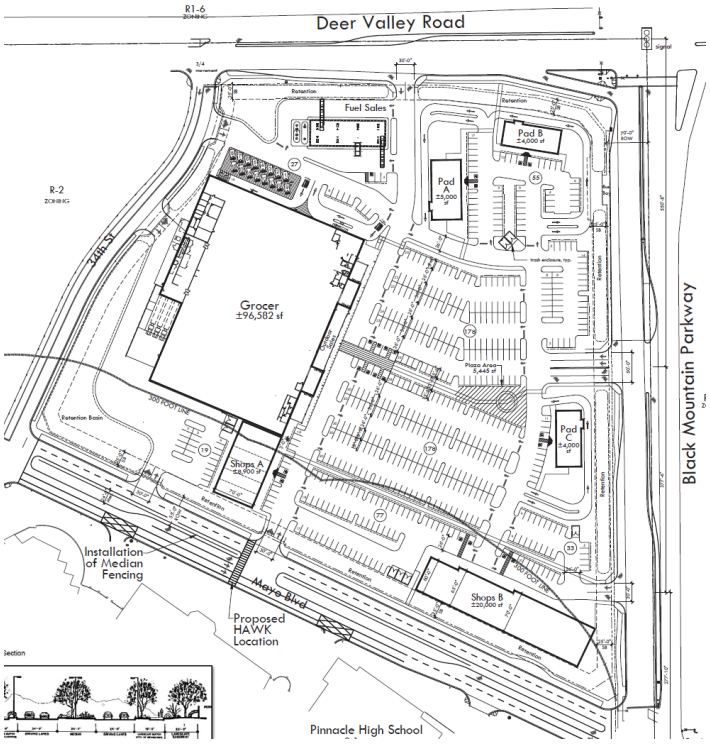
3. The subject site is a 20.52-gross-acre undeveloped lot, zoned S-1 DRSP (Approved R1-6 DRSP) and S-1 (Approved R-2 DRSP). To the north are single-family homes, zoned R-2 PCD (Multifamily Residence District, Planned Community District). To the east are single-family homes, zoned R1-6 DRSP. To the south is Pinnacle High School, zoned S-1 DRSP. To the west is undeveloped land zoned S-1 DRSP (Approved R1-6 DRSP).



*Zoning Aerial Map, Source: Planning and Development Department*

PROPOSAL

4. The proposed development is a commercial shopping center with surface parking, which would include a grocery store as a major tenant, in addition to other medium and small commercial spaces throughout the site. The conceptual site plan shows vehicular access on all four street frontages and indicates 567 surface parking spaces.



*Conceptual Site Plan, Source: Suite Six Architecture and Planning*

The conceptual site plan includes a 5,000-square-foot pedestrian plaza and will include a north-south pedestrian pathway through the site, per Stipulation Nos. 2 and 3. These are discussed further in Item No. 5 below.

AREA PLANS, OVERLAY DISTRICTS, AND INITIATIVES

5. **Desert Ridge Specific Plan**

The Desert Ridge Specific Plan is a 5,700-acre master planned community in northeast Phoenix, generally located between Pinnacle Peak Road to the north, Union Hills Drive to the south, 32nd Street to the west, and 64th Street to the east. At its inception, the planning area consisted entirely of undeveloped land held in trust by the Arizona State Land Department. The Desert Ridge Specific Plan was approved in 1990 and is the governing land use document for Desert Ridge. Desert Ridge is divided into Superblocks, each with their own individual land uses and regulations. The subject site is currently within Superblock 12, Parcel 12.L of the Desert Ridge Specific Plan, which is designated for single-family residential use with a density range of 2 to 5 dwelling units per acre. Companion case GPA-DSTV-3-23-2 is a proposed amendment to the plan that

would create a Parcel 12.C coterminous with the subject site and identify the parcel as a commercial parcel with C-2 as a permitted zoning district.

The Desert Ridge Specific Plan identifies a commercial core area in Superblock 5, which today contains the primary retail destination for the Desert Ridge area. Additionally, the plan allows for convenience retail to be located within all residential superblocks, which is limited to three acres per site and must be away from arterial streets to facilitate pedestrian access from residential communities. To date, most residential superblocks have been developed without any convenience retail included. This proposal fills a gap by providing additional retail options closer to the residential Superblocks and providing an alternative to the commercial core of Superblock 5. In order to meet the original intent of the Desert Ridge Specific Plan, to promote pedestrian connectivity to the commercial development, and to reduce the impact of the development on the surrounding area, staff recommends the following.

- Lighting limitations, including a height limit of 20 feet. This is addressed in Stipulation No. 1.
- A minimum 5,000-square-foot pedestrian plaza to be provided on site as a gathering place for the public. The plaza shall be designed for pedestrian access, incorporate seating and amenities, and be lined with vegetation. This is addressed in Stipulation No. 2.
- A minimum six-foot-wide pedestrian pathway, providing cross-block access. The pathway shall adhere to the paseo standards of the Walkable Urban Code, connect with the pedestrian plaza and the HAWK crossing at Mayo Boulevard, and be lined on both sides with either landscaping or buildings with transparent windows to promote activation and pedestrian comfort of the pathway. This is addressed in Stipulation No. 3.

6. **Comprehensive Bicycle Master Plan**

The City of Phoenix adopted the Comprehensive Bicycle Master Plan in 2014 to guide the development of its Bikeway System and supportive infrastructure. The Comprehensive Bicycle Master Plan supports options for both short- and long-term bicycle parking as a means of promoting bicyclist traffic to a variety of destinations. The proposed development will provide bicycle parking, per Stipulation No. 7.

7. **Complete Streets Guiding Principles**

In 2014, the City of Phoenix City Council adopted the Complete Streets Guiding Principles. The principles are intended to promote improvements that provide an accessible, safe, connected transportation system to include all modes, such as bicycles, pedestrians, transit, and vehicles. Per the Desert Ridge master plans and Stipulation Nos. 12, 14, and 17, the proposed development will provide shaded detached sidewalks on all street frontages. The proposal will also provide north-south pedestrian connectivity through a shared-use path along Black Mountain Boulevard (Stipulation No. 13) and a mid-block

pedestrian pathway (Stipulation No. 3), in addition to providing a new HAWK crossing at Mayo Boulevard to allow safer pedestrian crossing (Stipulation No. 21). Additionally, all pedestrian pathways, where they cross drive aisles will provide visually contrasting treatment to enhance pedestrian safety (Stipulation No. 4).

8. **Tree and Shade Master Plan**

The Tree and Shade Master Plan encourages treating the urban forest as infrastructure to ensure the trees are an integral part of the City's planning and development process. Sidewalks on the street frontages should be detached from the curbs to allow trees to be planted on both sides of the sidewalk to provide thermal comfort for pedestrians and to reduce the urban heat island effect. Per the Desert Ridge master plans and Stipulation Nos. 12, 14, and 17, the proposed development will provide shaded detached sidewalks on all street frontages. Shade will be provided at a minimum of 75 percent for all walkways including sidewalks (Stipulation No. 5) and a minimum of 25 percent for surface parking areas (Stipulation No. 6).

9. **Transportation Electrification Action Plan**

In June 2022, the Phoenix City Council approved the Transportation Electrification Action Plan. The current market desire for the electrification of transportation is both a national and global phenomenon, fueled by a desire for better air quality, a reduction in carbon emissions, and a reduction in vehicle operating and maintenance costs. Businesses, governments and the public are signaling strong future demand for electric vehicles (EVs), and many automobile manufacturers have declared plans for a transition to fully electric offerings within the coming decade. This Plan contains policy initiatives to prepare the City for a future filled with more EVs, charging infrastructure and e-mobility equity, and outlines a roadmap for a five-step plan to prepare for the EV infrastructure needs of 280,000 EVs in Phoenix by 2030. One goal of the Plan to accelerate public adoption of electric vehicles through workplace, business, and multifamily charging infrastructure recommends a standard stipulation for rezoning cases to provide EV charging infrastructure. Stipulation No. 8 provides requirements for electric vehicle parking, charging and infrastructure.

10. **Monarch Butterfly**

In April 2021, Mayor Kate Gallego signed the National Wildlife Federation's Mayor's Monarch Pledge. This pledge commits the city to take action to support the monarch butterfly population. In the United States, loss of milkweed habitat is a major factor in the decline of the monarchs. Arizona has at least 29 species of milkweed native to the state. Adult monarchs feed on the nectar of many flowers, but they breed only where milkweeds are found. To support the monarch butterfly population, Stipulation No. 9 addresses the planting of milkweed shrubs, or other native nectar plant species, on the subject site.

11. **Zero Waste PHX**
The City of Phoenix is committed to its waste diversion efforts and has set a goal to become a zero-waste city, as part of the city's overall 2050 Environmental Sustainability Goals. One of the ways Phoenix can achieve this is to improve and expand its recycling and other waste diversion programs. Section 716 of the Phoenix Zoning Ordinance establishes standards to encourage the provision of recycling containers for multifamily, commercial and mixed-use developments meeting certain criteria. The applicant states that their commercial developments incorporate green initiatives, including recycling.

COMMUNITY INPUT SUMMARY

12. At the time this staff report was written, staff has received 180 letters in opposition, three petitions in opposition with a total of 663 names, 233 letters in support, 23 letters stating general support but requesting a gas station not be included, three petitions in support with a total of 753 names, and four letters providing general comments. Among those opposed, concerns include the change in the residential character of the area, increased traffic and conflicts with Pinnacle High School traffic, pedestrian safety, increased lighting, the presence of homeless individuals, crime issues, and a reduction in property values.

INTERDEPARTMENTAL COMMENTS

13. The Public Transit Department requested dedication of right of way and construction of a bus stop pad on southbound Black Mountain Boulevard and that the development provide sufficient pedestrian connections to the public sidewalk. These are addressed in Stipulation Nos. 10 and 11.

14. The Street Transportation Department requested the following:

- Detached sidewalk on 34th Street (Stipulation No. 14)
- Dedication of 70 feet of right-of-way for Black Mountain Boulevard (Stipulation No. 15).
- Dedication of 55 feet of right-of-way for Mayo Boulevard, construction to Desert Ridge master plan standards, including a detached sidewalk, and inclusion of fencing in the median to prevent mid-block crossing (Stipulation Nos. 16, 17, and 22).
- Median extension on Black Mountain Boulevard to the corner of Deer Valley Drive (Stipulation No. 18).
- Fully funded and reconstructed signal at the intersection of Mayo Boulevard and Black Mountain Boulevard to city standards (Stipulation No. 19).
- Traffic Impact Analysis and Master Street Plan for Superblock 12, including analysis of the impact and funding responsibility to the Sonoran Desert Drive corridor (Stipulation No. 20).

- New HAWK traffic control device on Mayo Boulevard (Stipulation No. 21).
- Construction of turn lanes at the intersection Deer Valley Drive with Black Mountain Boulevard and with 40th Street, required per an existing Intergovernmental Agreement (Stipulation Nos. 23 through 26).
- Construction of street improvements with all required elements and ADA accessibility (Stipulation No. 27).

15. The Aviation Department requested that the property owner record a Notice to Prospective Purchasers of Proximity to Airport in order to disclose the existence, and operational characteristics of the Phoenix Deer Valley Airport to future owners or tenants of the property. This is addressed in Stipulation No. 28.

OTHER

16. The site is located in a larger area identified as being archaeologically sensitive. If further review by the City of Phoenix Archaeology Office determines the site and immediate area to be archaeologically sensitive, and if no previous archaeological projects have been conducted within this project area, it is recommended that archaeological Phase I data testing of this area be conducted. Phase II archaeological data recovery excavations may be necessary based upon the results of the testing. A qualified archaeologist must make this determination in consultation with the City of Phoenix Archaeologist. In the event archaeological materials are encountered during construction, all ground disturbing activities must cease within a 33-foot radius of the discovery and the City of Phoenix Archaeology Office must be notified immediately and allowed time to properly assess the materials. This is addressed in Stipulation Nos. 29 through 31.

17. Staff has not received a completed form for the Waiver of Claims for Diminution in Value of Property under Proposition 207 (A.R.S. 12-1131 et seq.), as required by the rezoning application process. Therefore, a stipulation has been added to require the form be completed and submitted prior to preliminary site plan approval. This is addressed in Stipulation No. 32.

18. Development and use of the site is subject to all applicable codes and ordinances. Zoning approval does not negate other ordinance requirements. Zoning adjustments, abandonments or other formal actions may also be required.

## Findings

1. The proposal is consistent with the proposed General Plan Land Use Map designation and will contribute to a mix of land uses in the surrounding area.

2. As stipulated, the proposal enhances the surrounding area with features promoting pedestrian safety, facilitating alternative transportation, and providing pedestrianized amenity spaces for the community.

3. As stipulated, the proposal provides trees and shade, promoting thermal comfort for users of the site and pedestrians on adjacent sidewalks.

**Stipulations**

1. All on site lighting shall comply with the following:

    a. Maximum of 20 feet in height including lamp, pole, and base.

    b. All outdoor lighting fixtures must be designed, installed, and maintained to prevent light trespass, glare, and skyglow.

    c. All outdoor fixtures must be full cutoff, ensuring zero light output emitted above the horizontal (90-degree plane).

    d. Utilize LED lights with a correlated color temperature (CCT) of 3000K or lower.

2. A minimum 5,000-square-foot pedestrian plaza shall be provided and maintained by the developer as a gathering place for the public, adhering to the following standards, and as approved by the Planning and Development Department.

    a. The plaza shall be designed to allow pedestrian access and shall not be restricted during the time the shopping center is open.

    b. The plaza shall include seating for public use and a minimum of two additional amenities, such as a water feature, outdoor game area, splash pad, shaded seating, enhanced landscaping, performance stage, fire pit, or other similar amenities.

3. A minimum 6-foot-wide pedestrian pathway, providing cross-block access and connecting with the public plaza, shall be provided consistent with the following standards, and as approved by the Planning and Development Department.

    a. The pathway shall adhere to the requirements of Section 1304.H of the Phoenix Zoning Ordinance.

    b. The pathway shall connect with the HAWK crossing provided at Mayo Boulevard.

c. The pathway shall be lined on both sides with either of the following elements, or a combination of the two, except where a pedestrian pathway is a minimum of 16 feet wide:

(1) A minimum 5-foot-wide landscape strip, except where drive aisles cross the pathway where necessary. Structural shade elements may be used, and footers may be placed within the landscape strip along the pathway.

(2) Building frontages meeting the glazing requirements of a minimum of 75 percent of the ground floor frontages facing the pedestrian pathway, measured as the area between 3 and 8 feet above grade for the entire width of the facade, consisting of clear windows that will allow a minimum of 75 percent of the visible light (as specified by the manufacturer) to be visible on either side of the window.

4. Where pedestrian walkways cross a vehicular path, the pathway shall be constructed of decorative pavers, stamped or colored concrete, or other pavement treatments that visually contrast parking and drive aisle surfaces, as approved by the Planning and Development Department.

5. All pedestrian pathways, including sidewalks and shared-use paths, shall be shaded by a structure or landscaping at maturity, or a combination of the two to achieve a minimum of 75 percent shade, as approved by the Planning and Development Department.

6. All uncovered surface parking lot areas shall be landscaped with minimum 2-inch caliper drought-tolerant shade trees. Landscaping shall be dispersed throughout the parking area and achieve 25 percent shade at maturity, as approved by Planning and Development Department.

7. Bicycle parking shall be provided, consistent with Section 1307.H of the Phoenix Zoning Ordinance, except that Section 1307.H.6.c shall not apply, as approved by the Planning and Development Department.

8. A minimum of 2 percent of the required parking shall be EV installed.

9. A minimum of 10% of the required shrubs, shall be a milkweed or other native nectar species, and shall be planted in groups of three or more, as approved by the Planning and Development Department.

10. The developer shall dedicate right-of-way and construct a bus stop pad on southbound Black Mountain Boulevard. Bus stop pad shall be constructed according to City of Phoenix Standard Detail P1260 with a minimum depth of 10 feet. Bus stop pad shall be spaced from Deer Valley Drive according to City

of Phoenix Standard Detail P1258. Trees shall be placed to provide 50 percent shade coverage to bus stop pad at full maturity.

11. A minimum number of pedestrian connections shall be provided from the development to the adjacent sidewalk, as follows: 2 connections to Deer Valley Drive, 3 connections to Mayo Boulevard, and 3 connections to Black Mountain Boulevard, as approved by the Planning and Development Department. Pedestrian connections shall be sufficiently spaced to allow convenient pedestrian access to the sidewalk from any portion of the proposed development.

12. The landscape planters along all streets, separating the curb from the sidewalk, shall be planted to the following standards, as approved or modified by the Planning and Development Department.

    a. Minimum 2-inch caliper shade trees planted 20 feet on center or in equivalent groupings to provide a minimum of 75 percent shade at tree maturity.

    b. Drought-tolerant shrubs, accents, and vegetative groundcovers to achieve a minimum of 75 percent live coverage at maturity.

    Where utility conflicts arise, the developer shall work with the Planning and Development Department on an alternative design solution consistent with a pedestrian environment.

13. A 20-foot-wide shared-use path easement (SUPE) shall be dedicated along Black Mountain Boulevard and a minimum 10-foot-wide shared-use path (SUP) shall be constructed within the easement in accordance with the MAG supplemental detail and as approved or modified by the Planning and Development Department.

14. A minimum 5-foot-wide detached sidewalk separated by a minimum 5-foot-wide landscape strip located between the back of curb and sidewalk, shall be provided along 34th Street, as approved or modified by the Planning and Development Department.

15. A minimum 70-feet of right-of-way shall be dedicated for the west half of Black Mountain Boulevard, adjacent to the development.

16. A minimum 55-feet of right-of-way shall be dedicated for the north half of Mayo Boulevard, adjacent to the development.

17. Mayo Boulevard shall be consistent with the Desert Ridge Specific Plan and the approved cross sections in the forthcoming Super Block 12 Master Street Plan.

18. The existing median in Black Mountain Boulevard shall be modified to extend northward to the Deer Valley Drive intersection.

19. The existing traffic signal at the intersection of Mayo Boulevard and Black Mountain Boulevard shall be fully funded and reconstructed to meet City of Phoenix standards.

20. A Traffic Impact Analysis (TIA) and Master Street Plan shall be submitted to the City for this development and Super Block 12 of the Desert Ridge Specific Plan. The Traffic Impact Analysis (TIA) shall also be expanded to address the proposed development's impact and funding responsibility on the Sonoran Desert Drive Corridor. No preliminary approval of plans shall be granted until the study and master street plan are reviewed and approved by the Street Transportation Department.

21. A HAWK traffic control device shall be fully funded and constructed on Mayo Boulevard between 34th Street and Black Mountain Boulevard, as approved by the Street Transportation Department.

22. Decorative metal view fencing shall be constructed in the landscape median along Mayo Boulevard, as approved by the Street Transportation Department.

22. Acquire, dedicate sufficient right-of-way, and construct a southbound right turn lane, including incidental intersection improvements, on the northwest corner of the Deer Valley Drive and Black Mountain Boulevard intersection.

24. Acquire, dedicate sufficient right-of-way, and construct a westbound right turn lane, including incidental intersection improvements, on the northeast corner of the Deer Valley Drive and Black Mountain Boulevard intersection.

25. Acquire, dedicate sufficient right-of-way, and construct an eastbound right turn lane, including incidental intersection improvements, on the southwest corner of the Deer Valley Drive and 40th Street intersection.

26. Acquire, dedicate sufficient right-of-way, and construct a westbound right turn lane, including incidental intersection improvements, on the northeast corner of the Deer Valley Drive and 40th Street intersection.

27. All streets within and adjacent to the development shall be constructed with paving, curb, gutter, sidewalk, curb ramps, streetlights, median islands, landscaping and other incidentals, as per plans approved by the Planning and Development Department. All improvements shall comply with all ADA accessibility standards.

28. The property owner shall record documents that disclose the existence, and operational characteristics of the Phoenix Deer Valley Airport to future owners or tenants of the property. The form and content of such documents shall be according to the templates and instructions provided which have been reviewed and approved by the City Attorney.

29. If determined necessary by the Phoenix Archaeology Office, the applicant shall conduct Phase I data testing and submit an archaeological survey report of the development area for review and approval by the City Archaeologist prior to clearing and grubbing, landscape salvage, and/or grading approval.

30. If Phase I data testing is required, and if, upon review of the results from the Phase I data testing, the City Archaeologist, in consultation with a qualified archaeologist, determines such data recovery excavations are necessary, the applicant shall conduct Phase II archaeological data recovery excavations.

31. In the event archaeological materials are encountered during construction, the developer shall immediately cease all ground-disturbing activities within a 33-foot radius of the discovery, notify the City Archaeologist, and allow time for the Archaeology Office to properly assess the materials.

32. Prior to preliminary site plan approval, the landowner shall execute a Proposition 207 waiver of claims form. The waiver shall be recorded with the Maricopa County Recorder's Office and delivered to the City to be included in the rezoning application file for record.

**Date:** Saturday, July 29, 2023 11:20:21 AM

---

Dear Mr Grande,
I am a resident of Aviano neighborhood and live 1 block from Deer Valley Drive and Black Mountain Blvd. I wanted to send an email that my family is opposed to rezoning the land use from residential to commercial, GPA-DSTV-2-23-2.

The reason that I am opposed is that the proposed site is next to Pinnacle High School and during the times of before and after school the area becomes very crowded with families driving their kids to school, children walking and biking to school.

Having a commercial shopping center next to the school is going to create an unsafe environment for the children walking and biking to school. There is a significant amount of vehicle congestion from drop off/pickup that makes that area very congested. Adding a commercial shopping area will make the area even more congested and unsafe. I have 4 children that may go to Pinnacle High School and think the current zoning as residential is appropriate for the area next to a high school.

Thanks

Mr. Grande:

I understand that you are the City Planner for the subject rezoning of the land parcel at the Southwest corner of Deer Valley and Black Mountain Boulevard. As a resident of Sky Crossing, directly across Deer Valley from this subject parcel, my family and I along with 1220 homeowners will be directly impacted by this proposed development.

I am not naive to believe that this development will be rejected and I appreciate our community's need for additional businesses like a grocery store and restaurants. However, I would like to bring to your attention some concerns that I have and I am sure our neighbors have relevant to this rezoning.

1. Traffic is already high on these two streets and with the addition of a large shopping center, the traffic will expand greatly bringing to our community more noise with drivers revving their engines and peeling out of the new center. This will be especially realized should a gas station be approved and built. A gas station, if approved on this parcel, must be restricted in their hours of operation with it being closed over night. In all candidness. a gas station is not really needed as there are a number of stations near by on Cave Creek and on Tatum - all within 2 to 3 miles from this area.

2. Light Pollution is another major concern. Nobody wants to see glaring bright lights during the night time that will disrupt the tranquility of our lives and interrupt our sleep over night. The developers must be required to adhere to dark sky compliance to limit the amount of blue light at night.

These two items are my current concerns and I am sure my neighbors will have other issues such as neighborhood safety and security that they will bring to your office's attention.

Thank you for your time and attention to this most important matter.

**Subject:** Black Mountain Village Project
**Date:** Wednesday, August 2, 2023 3:18:23 PM

---

Hello Mr. Grande,

I am writing to you in regards to the Black Mountain Village Project (GPA-DSTV-2-23-2). I understand that you are the City Planner for this project and would like to share my opinion. I live in the Sky Crossing neighborhood directly across Deer Valley Rd from the proposed project. While I am in favor of commercial development on this parcel, I must urge you to only allow for businesses that will not degrade our neighborhood. For example, most neighbors are opposed to a gas station. This is an unnecessary addition as there are multiple gas stations on both Tatum and Cave Creek Rd. A gas station would bring unwanted loitering and excessive noise and traffic to this residential neighborhood.

Another issue I have is with a large grocery store (ie Frys, Albertsons, etc). Again, this being an entirely residential neighborhood it would detract from our community to have a large grocery store. I do however support a smaller grocery store with less traffic such as a Sprouts or Trader Joe's.

Both the grocery store and a gas station would create a large amount of light pollution. I would like to see building plans that involves less lighting, more landscaping and a more cohesive ambiance with the desert and the natural surroundings.

This leads me to my last point that our homes in Sky Crossing are typically selling around $1M. To me, this would indicate a higher scale neighborhood. I would appreciate if the commercial businesses fit in with the demographic of the area, similar to business parks in Scottsdale. A gas station and large grocery store would be unwelcome and an eye sore whereas a smaller neighborhood grocery store and smaller, tasteful restaurants and shops would be a welcome addition.

Please consider these points and I look forward to attending the next meeting to hear the latest development.

Re: Case number GPA-DSTV-2-23-2, GPA-DSTV-3-23-2 and Z-39-23

August 2, 2023

To whom it may concern:

Thank you for notifying me of Vestar's application. I did attend the Desert View Planning Committee Meeting last night and after hearing Vestar's presentation and comments/questions from committee members and residents, I wish to express my strong opposition to this rezoning request.

A change to the City's General Plan, and particularly a change from residential to commercial, is a major change in general and to our Desert Ridge master planned community in particular. I was struck by the very close proximity to Pinnacle High School and surrounding residential communities.

The following concerns were expressed by residents during Public Comments and are shared by me:

- Traffic in that area continues to be a major challenge, especially during drop off and pick up times at the high school. It is frankly unsafe, yet the city and the school have been unable to find solutions. A shopping center of any size will, of course, generate additional traffic.
- On Vestar's conceptual site plan three driveways are shown on Mayo Blvd, which directly adjoins the school. Pedestrian and motor traffic safety on that shared street will be real concerns. Oddly, there are fewer points of ingress/egress shown on the major roads of Black Mountain Blvd and Deer Valley.
- Drive-through fast food restaurants/coffee shops present additional concerns for lines and traffic like those seen at Starbucks on Tatum Blvd.
- Residential homes will be impacted by light and noise pollution homeowners could not have anticipated when they purchased their homes under the current General Plan.

Some homeowners paid a premium for view fences that would look right over the natural open area into the shopping center. Their quality of life and their property values will be negatively impacted.

- A gas station generated the strongest opposition, adding gas fumes to the negative impacts.
- Tanker tracks and semi-trucks making deliveries to a grocery store, restaurants and gas station will generate noise in the nighttime and early morning.
- The Arizona Republic reported, "The application also claims the development would provide options for Pinnacle High School students before and after school, and during lunch, which could reduce their car trips." I would disagree that student hangouts close to a high school would be of benefit to anyone.

I appreciated the thoughtful questions and comments from Planning Committee members last night as well as this opportunity to express my opposition. I will plan to attend the next Village Planning Committee Meeting.

Sincerely,

Laurie D. Smith

**Subject:** planned commercial/retail center at SWC Black Mtn Pkwy & Deer Valley
**Date:** Wednesday, August 2, 2023 3:50:16 PM

---

Hello Anthony and Desert View VPC,

I am a nearby resident (Fireside) of this proposed project. My main concern here is Pinnacle HS parking. The high schoolers often park in the adjacent residential neighborhoods as Pinnacle's lot are simply not large enough for its growing population. The AZ State Land Department, Paradise Valley School District and any potential bidder/buyer of this ASLD property should work together (now) to facilitate the purchase of additional 3-5 acres for more Pinnacle High School parking north of Mayo Blvd. The school parking could be on west side of future retail center. Otherwise, students and visitors for sporting events will simply park in the new commercial center, upsetting retail tenants and customers alike.

Thank you.

As Sky Crossing homeowners, we wanted to express our objection to the potential of large commercial development at this corner. When school is in session the traffic is awful. It's going to be exceptionally worse if there is a commercial structure at that corner. Moreover, I have no idea how the owner will police the students parking there. It's going to bring more traffic, crime, congestion and so on. This is not the kind of thing we want to see in our area. It's very likely to negatively impact home values as well.

Thanks so much for noting our objection.

Tracy and Ronee Steiner

I am not naive to believe that this development will be rejected, and I appreciate our community's need for additional businesses like a grocery store and restaurants.

However, I would like to bring to your attention some concerns that I have, and I am sure our neighbors have relevant to this rezoning.

1. Traffic is already high on these two streets and with the addition of a large shopping center, the traffic will expand greatly. Please do not allow a gas station on this corner, it is not a major arterial intersection. There are plenty of gas stations in both directions of this corner and those are both busier streets and can accommodate the need.
2. Light Pollution is another major concern. Nobody wants to see glaring bright lights during the nighttime, this will greatly disrupt the tranquility of our lives and interrupt our sleep over night. The developers must be required to adhere to dark sky compliance to limit the amount of blue light at night.

These two items are my current concerns, and I am sure my neighbors will have other issues such as neighborhood safety and security that they will bring to your office's attention.

---

To Mr. Grande,

My name is Nav Bajwa. I am a resident of Aviano. As a concerned citizen, I am writing this email to urge and appeal that you reconsider keeping the area zoned for residental purposes only. The infrastructure in that area is not built to handle a shopping complex, with all the increased traffic from the Pinnacle high school as well.

Thanks,
Nav.

**From:** Julie Gibson
**To:** Anthony M Grande
**Subject:** Oppose the development Black Man Deer Valley
**Date:** Friday, August 4, 2023 7:55:25 AM

---

Hi Anthony,

First I want to thank you for what you do. I worked ever so briefly in planning in Portland, OR. I know it's a tough and under appreciated role in development. So I do not like sending an email with a negative tone, but on this one I must.

Regarding the development at Black Mountain Blvd and Deer Valley I have 2 major concerns:

1. The additional traffic to an already clogged area - especially with high schoolers in the area. It increases frustration and potential for life treating accidents. (Teen brains in the mornings aren't really the the sharpest in the intersection).

2. How can we guarantee that this doesn't end up a strip mall of vape stores and liquor stores? Again the last thing that should be placed near a high school. Our kids have so much on their plate already in terms of the availability of addictive substances. Why make this any harder for them?

I do hope the City will take in consideration the development's proximity to a high school and the challenges it poses with the teens that will no doubt surround the area before and after school.

I will do my best to be at the next meeting in October.

Warm regards,
Julie

**From:** Gordon Smith
**To:** Anthony M Grande
**Subject:** Development at the corner of Deer Valley and Black Mountain Blvd
**Date:** Friday, August 4, 2023 2:17:59 PM

---

I live close by and strenuously object to developing this land for commercial use. This would place a commercial lot right in the middle of neighborhoods and a school. I happen to live in the closest adjoining neighborhood (Fireside - Copper View) and my property values will be negatively impacted by this decision. My quality of life will be negatively impacted by this decision.

From a practical perspective, this is a dangerous place to build a development of that nature. We already suffer from high school kids parking and clogging our streets in the adjoining neighborhood. At best, this would shift that burden to this new development. Having entitled parents with their bad parking/waiting habits combined with parking lots full of high school teens disobeying parking regulations and the increased pedestrian traffic there is a recipe for disaster. I sure hope they have amazing insurance - they'll need it.

This will create light and noise pollution, add more traffic to an already congested area and degrade my property values. If anything, this state land should be used for an expansion of the school itself to allow for more high school parking and activities of the existing population attending that school.

We have gas stations nearby already. We have grocery stores nearby already. We have fast food nearby already. We do not need this development.

Sincerely,

Gordon Smith

Dear Anthony Grande,

I am writing today regarding Vestar's proposals (case numbers) GPA-DSTV-2-23-2, GPA DSTV-3-23-2, and Z-39-23. As a resident of Desert Ridge, I oppose Vestar's proposal for rezoning the Southwest Corner of Black Moutain Boulevard and Deer Valley Drive from Residential to Commercial/Retail for several reasons.

First, Desert Ridge is a highly desirable planned ***residential*** community that continues to attract buyers willing to pay a premium for a prime location. Adding commercial/retail mixed-use space in the middle of the community would decrease the desirability of Desert Ridge and lower the values of residential real estate within the community.

Second, the traffic flow within Desert Ridge is already too great for the limited infrastructure within the community. Pinnacle Peak High School is located adjacent to the proposed site. The traffic caused during the morning/afternoon pick up/drop off combined with regular commuting already creates a safety issue on Black Moutain and Deer Valley with vehicles backed up in every direction. Adding unnecessary commercial/retail space would only increase the traffic and lead to safety issues.

Third, there is no need for mixed commercial/retail space in the middle of single-family homes. The area has more than ample shopping options - Desert Ridge Marketplace, High Street, and shopping off of Cave Creek Rd and the 101 are all within an extremely close distance. Finally, creating a commercial/retail space in the middle of a residential area will bring increased instances of crime which when coupled with declining property values would limit the marketability of Desert Ridge.

Given the detrimental impacts on our home values, marketability, safety, noise/light pollution, and increased traffic without adequate infrastructure these proposals should be denied. Please do not hesitate to reach out if I can provide any additional information.

Regards,

Christian Klein

I urge you or someone from your office to come by between 7 am and 7:30 and see what the traffic is like. It's unbearable. I literally have to change my work schedule by leaving either before 7 or after 7:30. Any commercial addition to that corner is going to make things exponentially worse, create more accidents or worse. Kids are walking across the street and not at the intersection because there is gridlock and they think that they can just do that.

Re: Case Number GPA-DSTV-2-23-2, GPA-DSTV-3-23-2, and Z-39-23

Dear City of Phoenix Planning and Development Department:

I recently became aware, through your notification, of Vestar's application to have the above referenced parcel rezoned from residential to commercial. After attending the Desert View Planning Committee meeting on August 1st and listening to Vestar's presentation I wish to register my strong opposition to this rezoning change.

The property in question sits directly north of Pinnacle High School and butts up against two short stretches of major roads that lead in and out of the adjacent neighborhoods. These two roads are (and have been for 10+ years) choked with traffic to the point of gridlock twice a day with the start and end of the school session. Adding a commercial development with multiple businesses and around 500 parking spaces would simply add to the congestion already present. The current traffic situation has led to numerous accidents and unsafe practices and is unacceptable. To add to it would be irrational.

Additionally, Vestar made the claim that the businesses brought in would offer the high school students options before, during, and after school. I submit that such options to allow students to "hang out" are not beneficial to our community.

Lastly, to change from residential to commercial after the fact is also unacceptable. As homeowners, we bought in a master planned community because of the master plan and its planned land use. Changing the land use from the master plan violates the conditions under which we made our decisions and has the potential to materially impact our home values in a negative way.

For these reasons and others that were expressed at the Planning Committee meeting, I urge the Department to oppose these requests for rezoning.

Sincerely,

Jeffrey Smith

Mr. Grande,

My husband and I, and our children, have lived in the Desert Ridge Community since 2010. What attracted us to this area was the quiet, beauty of the desert, and the many, many young families that live here. Our children attend all the neighborhood schools including Pinnacle High School.

We feel strongly that changing this residential land site to commercial would be detrimental to our community. The increased traffic would be catastrophic to the neighborhood environment. It is already difficult to get my children to school, this would increase substantially. We have studied the developers plans for this land and we are deeply troubled. Our neighborhood will be forever changed with drive-thrus and a gas station. Huge semi trucks will now be delivering gas and food to our quiet community. We cannot allow this to happen! We do not need another gas station or grocery store here. We can drive less than a mile to obtain that. Why destroy a neighborhood/community all for money.

We are pleading with you to put a stop to this! If you have any further questions, please let us know.

Thank you,

Darrin and Layla Saikley

Hi Mr. Grande,

This email is too put in our objection for the rezoning to make commercial the corner of Black Mountain Blvd and Deer Valley.

The traffic in that area is already very busy with the school and subdivisions. As is there is usually backups. This is a residential neighborhood with lots of families and kids. We do not need to bring additional traffic or buildings that don't belong in the middle of a residential area. There is enough stuff very close by. We did not buy in the area to have that type of stuff right in the middle of our neighborhoods.

I highly object to this and would not approve it!

Thank you,
Wendy

This development is a terrible idea. Traffic in right lane of Deer Valley is already backed up for a half mile at drop off and pick up at high school. Black Mtn is impassible with the kids crossing the street and cars parked along the sides of the roads. Some kid is going to get hit by a shopper leaving that center and everyone associated with the development is getting sued.

This is literally the worst possible use for the property.

Hi Anthony,
We have lived in Aviano for the past 17 years, when we purchased our home, in the general plan this was zoned residential. We have no problem driving to the commercial areas already developed for that type of businesses. From the sounds of the development it's catered to capture the local high school, the area is already congested in that area. Please forward this response to the City Staff responsible for the decision to change the zoning, please leave it residential.
Thank You,
Rusty Ludwig

Hi Anthony,

If possible, I hope you can restructure the thought of making Deer Valley and Black Mountain a commercial property. Our kids have to walk by this intersection everyday on their way to school. We moved into a neighborhood to have a neighborhood, not a city.
If commercial is the only option, please look at other corporations. The locations built by Vestar are tacky and unappealing, sprawling at best. We need something sophisticated and classy. We/You are beyond fortunate Sky Crossing Elementary, Fireside Elementary and Pinnacle High School are some of the BEST schools in the PV school district.
Please don't let us down in making a rash decision,
Christina Otjen

Hello Anthony,

I understand that the city would like a more detailed explanation as to why we are strongly against rezoning this tract for commercial building.

My husband and I have lived in Desert Ridge since 2004. Phoenix does not have many areas where the beauty and quiet of the desert is so prominent. However, the Desert Ridge community is one of the beautiful, quiet and family friendly neighborhoods in Phoenix. In fact when we outgrew our home and decided to buy another one we chose to remain in Phoenix in the Desert Ridge area because we love it so much.

All of our children have and do attend the neighborhood schools. The Desert Ridge area has always been a safe and quiet neighborhood. Building a commercial plot right next to Pinnacle High School would be outrageous. It would cause a dangerous amount of traffic, crime and be very disturbing to the school and surrounding neighborhoods. Desert Ridge Marketplace is less than 1 mile away.

We understand there is a proposed gas station in the plans. This is extremely short sighted. There is a gas station less than a mile away. The future is electric. In the next few years gas cars will become obsolete. Gas stations are so toxic, it is incredibly hard to convert the land when it will no longer be needed. This begs the question, is the development being funded by a gas company?

It appears that the city is being motivated by money and not seeing how this will impact a beautiful neighborhood.

Currently, the neighborhoods in Desert Ridge are very much like you'd see in the city of Scottsdale. The Desert Ridge area is highly sought after in the City of Phoenix and gives the City of Scottsdale a "run for its money". This proposed tract is obviously money motivated with no regards as to the impact it will have on Pinnacle High School and the surrounding neighborhoods and ultimately the City of Phoenix.

The City of Phoenix is already filled with unsightly commercial plots next to neighborhoods and schools which downgrades those areas immensely.

Keep the Desert Ridge neighborhood as one of the few in the City of Phoenix that is peaceful, beautiful and safe.

Be the future and preserve this neighborhood for generations to come. Please Do Not build commercial on this land. Be better and do what's right for the city.

Thank you,
Timothy and Helana Doyle

I am a resident of Desert Ridge. We have been in Desert Ridge since the beginning March 1995. We have seen the growth . We feel blessed everything is within walking or a short drive . We have gas stations, grocery storel and plenty of restaurants and some fast food. If you dont like Desert Ridge for shopping you have a short drive to Bell Road off Tatum for morel choices or go to cave creek off of Deer Valley. We dont need to bring more traffic and more traffic and chaos to this neighborhood. We oppose the new development off Deer Valley BLack mountain.

**Subject:** Parcel at Black Mtn and Deer Valley
**Date:** Thursday, August 17, 2023 2:47:26 PM

---

Hi Mr. Grande,

I want to express my opposition to the proposed rezoning of the parcel on the Southwest corner of Black Mountain and Deer Valley. It is being proposed that the land be rezoned from residential to commercial. This is a terrible idea for many reasons. I am a full time resident in Sky Crossing and below are just a few potential issues that will be created by commercial zoning.

Violence, as experienced at Desert Ridge shopping area
Increased noise
Predators/sex trafficking
Light pollution
Increased burnouts - burnouts are currently in every intersection in the area
Increased traffic in an already crowded area
Safety - speeding is rampant in the area and there was a death on Deer Valley last year
High school pedestrian safety
High school drop off and pick up is already severely congested
Increased wear and tear on roads from commercial vehicles
Increased commercial vehicles - brakes, horns, noise

There is zero need for a gas station, grocery store, or any other commercial property on this land. Those services are already conveniently located 2-3 miles in either direction.

Please don't make a decision to rezone the parcel. The future cannot be undone when issues arise. It's not always about money. Sometimes - in this case for instance - it's about keeping a neighborhood a neighborhood with residential properties as initially zoned. Home owners in Sky Crossing were sold on the idea of residential and not commercial across the street. No commercial zoning nearby was a huge selling point for property owners. Don't go back on this commitment.

Please don't rezone the parcel at Black Mountain and Deer Valley north of Pinnacle High School. Be proactive and put residents first.

Thank you for your time.

Vicki

Anthony,
We built in Desert Ridge back in 1997 and studied the Master Plan. It **DID NOT** include commercial inside the Desert Ridge Community. It is the worst idea to change the residential property into commercial. It will only bring crime, homelessness and more congestion to an already very congested area. Trying to navigate around Pinnacle High School is already ridiculous and any changes to the navigating that problem has not helped. . This was never the plan and it should not be a new plan in order to profit a few. Keep our area beautiful!!!!

Thanks everyone for your input.

What strikes me in general is that it seems a very reactive process to "wait and see" who comes up with a plan for the vacant land.

There is :

1. already a master plan for Desert Ridge,
2. the land is owned by the Arizona State Land Department, beneficiaries include the k-12 schools,
3. there is a Vision Zero plan and budget to reduce casualties,
4. there is a federal program regarding infrastructure.

On top of that,

1. the school was build in 2000 during a time when Fireside/Aviano/SkyCrossing/DesertRidge marketplace were not even there yet.
2. The school was build in 2000 whilst the freeways like 101 were not build yet, etc, etc
3. During curriculum night at the Pinnacle High School, this topic was brought up and the principal re-iterated that he was 100% against the commercial proposal – this is not what came across in the meeting and I would love to see the exact wording used that night.
4. Pinnacle High school is further expanding the number of students every year and it should be able to get the infrastructure and parking capabilities for students to get to school safely.
5. Student Drivers are mixed with in with people that need to get to work in time and this creates a recipe for disaster for these drivers and the students crossing the intersection.

Adding up all these before mentioned items and elements of existing/approved budgets, would we (as a community) be wrong to assume that there is somebody at City or State level working with the school district to alleviate the pressures that now exist in this neighborhood, proactively.
We have escalated the issue, discussions and actions have taken place between the school and the city, but this year the dropoff and pickup is in exactly the same state of chaos around the school and we're all just waiting for 1 child to get run over.
This doesn't seem in line with the Vision Zero.

My main question is this;
Does the city planner and the village planning committee have the ability to – themselves - create a proposal for this vacant land, recognizing that the area has grown tremendously over the last decade and that improvements to the infrastructure, traffic patterns, school safety, etc are now needed.

Here are the benefits:

1. The biggest benefit is the fact that Pinnacle Highschool is one of the few lucky schools that has vacant land around it to still expand and address the issues.
2. Both committees are experts in State and City guidelines and laws
3. Both committees can invite other necessary parties to the table that they know are required to make a good plan and include people from the school districts and the department of education.
4. You have inside knowledge of budget and grant opportunities at State and Federal level to plan for funding
5. Vision Zero survey results are available in more detail then what the public gets to see and it should have been highlighted by the participation of the community in Aviano and Fireside.
6. State Land should benefit the school – so why not expand the footprint for this high school directly (and not selling the land for proceeds)

I'm no expert in what it is people on this email can do or not – but I would strongly urge all of you to take my points into consideration and NOT approve the vestar proposal in any shape or form, because it is NOT what the area needs and it is NOT in the best interest of student safety.
We can only decide ONCE what will happen to this piece of land and it was already decided to NOT be commercial.
We have a great community, they have engaged with surveys and shown up at meetings. We love where we live and it's mainly because of the master plan that is already in place.

If you require further input and or participation of our community and/or have any suggestions to have this proposal stopped, please let us know.
Much appreciated if this can be added to the proposal as feedback.

Kind regards,
Wouter Roodenburg

Hi all,

I want to add some information here. Vestar has filed an application to rezone the property for commercial use. The Desert View VPC heard an informational presentation on August 1 and took public comments. I know Mr. Roodenburg, you were there and provided input on the rezoning proposal. As was discussed at the meeting, the case is still under review and won't have a formal staff recommendation until it returns to the VPC in October for public hearing and recommendation. In the meantime, we are reviewing all comments received, which will be made part of the case file and included in the staff report for the case.

Please feel free to reach out with any additional questions or comments.

Thanks,
Anthony

Mr. Roodenburg, Street Transportation Department staff forwarded your question about development plans for the circled parcel below. This parcel of land is owned by the Arizona State Land Department. They submitted a request for a pre-application review (PAPP 2206799) of a site plan and potential rezoning that proposed a shopping center on the property. At this time, the owner has not submitted any additional documents beyond the pre-application stage. Please note that details of proposed plans can change somewhat as they move past the early pre-application stage.

I have copied the village planner for that area, Anthony Grande, if you have any questions about how the rezoning process would play out from here should the applicant choose to proceed.

The State Land Department sells parcels based on guidelines in state law. Whether they legally could donate the land to the school district would be a question to address directly with the Land Department. I've included a link to their home page as a place to start. **Subject:** RE: Pinnacle High School - Traffic flow / Vision Zero

Laura,
Following our previous conversations, it seems that Pinnacle high school and the city have worked together on a better drop off procedure for this year by changing the drop off route to be going around the school.
There also seem to have been an investment in more signs everywhere and a reduction in speed at Mayo boulevard, but it won't stop the students being dropped off on the corner of mayo from where they literally cross this junction in anyway they can (no longer following the crossings). It actually has gotten worse in the last year.

Although these previous mentioned actions are positive signs, they do not seem to address the rootcauses of the traffic issue and doesn't directly help the safety of the students, nor provide extra capacity for drop off locations.
Only the land north of the school would be able to provide this with some development.

However, residents have noticed that the city is considering an application for rezoning the land North of the school with commercial intentions. ( Black Mountain Village / Superblock 12 - Gammage & Burnham | Attorneys at LawGammage & Burnham | Attorneys at Law (gblaw.com) [gblaw.com] ). See Zoning hearings sign attached.
I have copied some board members of the PV school district and hope they are aware of this rezoning application, impacting Pinnacle high school student safety.

After the Fireside residents have tried to communicate our concerns with the safety of this area with the City and our participation in the Road Safety surveys, I find it very surprising that the City is considering to add yet more traffic to this junction where a lot of high school students are and more new student drivers are going to be this year.

Are you able to share the information you have gathered last year that prompted some of the changes with this Planning commission to take into consideration?
Would you be able to advise us about the options, procedures needed to rezone/donate this exact piece of land to be of future use for Paradise Valley School district and expansion of the highschool?

Looking forward to further information on this topic.

Kind Regards,
Wouter Roodenburg.

**Subject:** RE: Pinnacle High School - Traffic flow / Vision Zero

Good morning Wouter,

I apologize for not getting back to you Monday, but I was unexpectedly out. I did leave you a voicemail yesterday afternoon, and I promised to follow up with an email today.

Staff analyzed the traffic count data and have been monitoring the two traffic signals near Pinnacle High School, especially the one at Black Mountain and Mayo boulevards, this week as school started. They determined that an adjustment to the signal at Black Mountain and Mayo was needed to allow for more green times when the signal detects an increase in vehicles. However, while the adjustment has helped some, the amount of traffic present during school pick-up and drop-off times is still causing congestion, which signal adjustment cannot remediate.

Staff also noticed some issues with the way students/pedestrians are crossing at this intersection. Therefore, staff will contact the school to work with them on safety education. Staff will also see if they can make some suggestions to the school regarding their pick-up/drop-off plans.

Unfortunately, there is no street engineering solution we can offer to solve this issue. The traffic congestion at Pinnacle High School is not unique; all high schools in the City have similar congestion issues during the peak morning and afternoon hours, which dissipate once those peak hours are over. We do have a school safety coordinator who works with schools on their pick-up and drop-off plans to minimize traffic impacts as much as possible, while also educating them on safety. However, we can only make suggestions as the City does not have the authority to force schools to change their plans. Arizona State Law exempts them from having to comply with zoning ordinance requirements as other businesses and property owners must do within the City. Schools are governed by the locally elected school district or the Department of Education at the state level.

I do understand that safety is of utmost concern to you and the other parents as it is for us, too. We will continue to provide as much assistance as we can by monitoring the signals and communicating with the school. I also urge you to contact the school board or district to solicit their assistance with your concerns.

I also want to thank you for participating in the Road Safety Action Plan Phase I survey. The results are available at phoenix.gov/streets/roadsafety. Another survey for Phase II is now open through August 31 if you'd like to take that one as well. Please keep checking the website for other community engagement opportunities and plan updates.

I do hope this information is helpful. Please feel free to call me if you have other questions or concerns.

Thank you,

Good morning Mr. Roodenburg,

Thank you so much for sharing the survey with your neighbors and submitting your feedback.

I have requested the two signals be evaluated, and I'll follow up once they have been completed. Staff is also evaluating the area for any pedestrian crossing issues and looking into options.

We do appreciate your willingness to help. We can certainly let you know if there are any opportunities for neighborhood feedback. I'm copying Tricia Quiroz to be your future contact person. She is my counterpart in our Traffic Services Division, which is the division that handles traffic signals, pedestrian crossings, and school safety.

One of us will follow up with you with the results of the signal timing evaluations. Let me know if you have any other questions.

Thank you,
Laura Farrell

**Subject:** RE: Pinnacle High School - Traffic flow / Vision Zero

Laura,
Thank you for the information. I will take this up with the school district as well.
I did post your survey on our community facebook page and you should see multiple submissions already from me and my neighbors.

I hope that traffic around schools gets prioritized appropriately in your plan.

Please start the process required to get the timing of traffic signals around that intersection reviewed again and adjusted accordingly.
The cross walk lights should be isolated and run separately from the cars to avoid accidents between the kids and cars making last minute turns.
The light from Mayo turning onto black mountain south - should be isolated and run longer to clear up the lines.

Again – there is a large group of parents in Fireside that wish to participate in any effort to make that area safer for our kids and ideally allow them to walk/bicycle more to school.
Let us know how we can help or who our contact is at the Transportation department.

Regards,
Wouter Roodenburg.

**Subject:** RE: Pinnacle High School - Traffic flow / Vision Zero

Good morning Mr. Roodenburg,

Councilman Waring's office sent your email to the Street Transportation Department for investigation.

Thank you for contacting the City of Phoenix with your concerns. Unfortunately, the Street Transportation Department has no authority over your proposals for parking ingress/egress for the school. We also have no jurisdiction over the state land parcel. We suggest taking your proposal directly to the school district first to see if they can accommodate any of your parking proposals.

What the city can offer at this time is to review the timing of the traffics signals at Black Mountain and Mayo boulevards, and Black Mountain Boulevard and Deer Valley Road to ensure they are timed appropriately for the traffic volumes.

Regarding Vision Zero, Phoenix City Council did just recently approve adopting Vision Zero with the goal of eliminating all traffic fatalities on Phoenix roadways. We are also developing a comprehensive Road Safety Action Plan (RSAP) for the city and will be incorporating

Vision Zero goals into the RSAP. We are currently requesting public input to help shape the plan, so I highly encourage you and your neighbors to visit phoenix.gov/streets/roadsafety for information on the RSAP and to take the survey.

I do hope this information is helpful and thank you again for contacting the City of Phoenix. Please let me know if I can be of any further assistance.

Thank you,
Laura Farrell

**Subject:** Pinnacle High School - Traffic flow / Vision Zero

Dear Councilman Waring,
We are living in Fireside Community near Pinnacle High School. Every morning dropping our kids off has turned into a nightmare.
A lot of traffic is building up around this area. Lot of frustrated drivers that I have filmed going through red lights and near collisions, mixed in with student drivers trying to park their car at the school.
Currently I'm not aware of any fatalities on this highschool junction, but we would hope the city will be pro-active in this case preventing any accidents before they happen.

Please find below a request to the city with regards to the traffic situation around Pinnacle High School.
Parents are getting very concerned about the safety of our kids.
A lot has changed in this part of phoenix, with big new housing divisions going in and black mountain blvd connecting to the 51 freeway.
The way this new road was build did not consider the kind of traffic that we're dealing with currently. A bridge to cross Black mountain blvd was build 500 feet away from the junction which is causing nobody to use it.
Available State land on the corner – highlighted below in picture - is staying vacant and would be the perfect addition to repurpose for the safety of our kids and increase the parking capacity of the school.

I have seen articles regarding "Vision Zero" and new funding being available to reduce the number of accidents and fatalities in Phoenix and would very much hope that his will be a timely request to consider by the city council.

We would very much like to understand how we can work with the city to address this dangerous situation.
Much appreciate your feedback on the matter.

Kind regards,
Wouter Roodenburg

**Subject:** Pinnacle High School - Traffic flow questions

I'm trying to find out who to speak with regarding the traffic situation at Pinnacle High school.
Most parents in our Fireside community are very concerned about the junction our kids have to cross and cars that are driving through that intersection.
I've got some video's from just 1 random day and captured a lot of dangerous driving through red lights and almost collisions.
A lot of traffic is going down the same roads trying to reach the school or get onto the 51 freeway causing a massive traffic jam every day.

We would very much like to know if we could work with the City to resolve these situations to increase the safety of our kids.
The plot of state land highlighted in light blue should ideally become part of the highschool to have additional parking for a fast growing highschool.
Closing the entrance from black mountain blvd, forcing students to go via Deer Valley instead.

I've included the situation and also some possible solutions to consider.
When the State land becomes part of PV district - Then you could have much needed additional parking and also incorporate a safe drop off and bridge to have them enter the school.
Traffic will then be diverted away from Mayo Blvd and Black mountain blvd

Much appreciate your feedback.

Kind regards,
Wouter Roodenburg

## Anthony M Grande

**From:** Chris Hanley <c3hanley@gmail.com>
**Sent:** Saturday, August 19, 2023 4:16 PM
**To:** Anthony M Grande
**Subject:** Black Mountain and Deer Valley Village

Hello Anthony,

My name is Chris Hanley and I live in the Sky Crossing community. I moved into this neighborhood in March 2020 and am the original owner of my home.

I understand there is a zoning hearing for the parcel of land on Deer Valley, West of Pinnacle High School. I also understand that a commercial developer wishes to buy the land to develop a shopping center and needs the land to be rezoned from residential to commercial.

I am opposed to this rezoning.

Sky Crossing is a new neighborhood. Many of us bought here in the last few years with the knowledge of the open land to our south being other homes, not a grocery store, gas station, and other retail. This isn't an old neighborhood where things have changed over the decades, we're less than 5 years into this.

As you know, Deer Valley is a 3 lane road in each direction. It is heavily travelled. The high school contributes to the traffic load at certain times of day. WIth Black Canyon as a feeder onto SR 51, there is high traffic already.

While I understand how that would appeal to a commercial developer, the community is highly concerned about the added traffic and congestion a shopping center would bring. In addition, the shopping center would add light pollution and added noise pollution.

As you also know, shopping centers draw in pan handling, the homeless, and additional trash. We don't need that in a family community, next to a high school and close to Sky Crossing Elementary.

Cave creek road to our West has 2 gas stations on it (north of the 101) and plenty of retail. We have an Albertsons at Tatum and Deer Valley, with a gas station, and again lots of retail at Desert Ridge. There is also a Safeway and Frys north of us at Tatum and Cave Creek. We don't need any more grocery stores and there are plenty of gas stations.

Please do not approve the rezoning. Thank you for your consideration on this matter and please reach out if you would like to discuss.

**To:** Anthony M Grande
**Subject:** Opposition to Vestar Development Group's Plans for Northwest Corner Deer Valley and Black Mountain

Dear Anthony Grande,

I hope this messages finds you well. I am writing to express my very strong opposition to the proposed development and rezoning of the land from residential to commercial at the Northwest Corner of Deer Valley and Black Mountain by Vestar Development Group. The conversion of this residential area into a commercial zone would have severe consequences, detrimental implications, and potentially devastating impacts on both the environment and the community. I implore you to reconsider this decision and prioritize the well-being of the city, its residents, and its natural surroundings.

The City of Phoenix has outlined a comprehensive sustainability plan for the year 2050, with clear guidelines for responsible development that considers the efficient usage of resources, including water. One crucial aspect of this plan is the expansion of parks, preserves, and open spaces, ensuring that all residents are within a five-minute walk of such spaces, but those spaces must be sustainable or else the whole point of having a commercial center within walking distance is null. Furthermore, the goal of reducing urban heat-island effects through green infrastructure and increasing tree and shade canopy coverage is paramount.

However, the proposed development contradicts these essential sustainability goals. Converting the area into a car-centric commercial zone would undoubtedly lead to increased traffic congestion, resulting in higher CO2 emissions. The associated light and noise pollution would disrupt the delicate balance of the ecosystem and erode the serene character of the Sonoran Desert environment, its flora and fauna, and its natural aesthetic.

I urge you to consider the broader impact of this development on the city's future. Will it be in line with the City of Phoenix's sustainability regulations, ensuring that the structures incorporate features such as vertical gardens and agricultural areas on their roofs? Will there be proper infrastructure in place, including ample bicycle racks, substantial green spaces covering over 80% of the area, and designs that prioritize pedestrian and micromobility traffic over internal combustion engine vehicles? Specifically, bicycle lanes which are physically protected by a barrier to protect cyclists from traffic?

The City of Phoenix has shown a commitment to reducing air pollution and safeguarding public health through various programs and initiatives. However, this development project poses a significant threat by potentially increasing the emission of Volatile Organic Compounds (VOCs), negatively impacting the environment, ecosystem, and the health of the community.

The City of Phoenix states, “The City of Phoenix is strongly committed to reducing air pollution and protecting public health. The city implements a wide range of air quality programs to reduce ozone and particulate pollution (dust and smoke). Transit, light rail, bikeways, and pedestrian-friendly development reduce vehicle emissions and promote land use planning and urban designs for a more sustainable environment”. How will this development protect public health when in fact, it will introduce vulnerabilities witthin the community? It will actively degrade and destroy the health of the surrounding community and communities.

Equally concerning is the potential destruction of native plants in the area due to this development. The loss of biodiversity and destruction of the Sonoran Desert's unique ecosystem cannot be taken lightly.

The Environmental Protection Agency asserts that that, “Volatile organic compounds (VOC) means any compound of carbon, excluding carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates, and ammonium carbonate, which participates in atmospheric photochemical reactions”. These harmful chemicals would be released into our atmosphere if the proposed development is approved. We must oppose and condemn this egregious use of building authority with passion for the future of the City of Phoenix, and on a more global scale, the Earth itself.

In light of these concerns, I wholeheartedly disagree and very strongly oppose the Vestar Development Group's plans for the Northwest Corner of Deer Valley and Black Mountain. I urge you to immediately stop and immediately halt all current and future development plans and instead prioritize the city's sustainability goals, community well-being, and the preservation of the natural environment. By doing so, you can help shape a better future for the City of Phoenix and its residents.

Thank you for your attention to this matter.

Sincerely,

Justin M.

**Support Comments**

I do NOT support a shopping center at this location. It's already too congested as it is at that intersection and south toward the 101. This is not a prime location for something like this right near the high school and between so many large neighborhoods. Maybe great for the businesses but terrible for neighbors!

The design of our roads and infrastructure in our area was not designed and is not currently conducive for more high traffic areas. The roads will become a nightmare - even more so (esp in black mountain) than they are now.

It's relatively quiet in our area too - aside from the chaos on Tatum in Desert Ridge. Let's not bring that chaos west a few blocks!

I will not support a shopping center at this location and aside from those reasons shared above, I have a list full of others.

If anything, make parking and traffic easier on Pinnacle students and families so they don't have to block intersections, slow traffic, or bring their traffic for pick up and drop off into neighborhood streets. If anything, that high school and its community need support for better access before, during, and after school.

I guarantee if you put a shopping center in, that parking lot will be filled with student parking M-F. Make decisions that are to the benefit of the community, not for making money hungry investors richer.

| Please do not allow a gas station on that corner. How about a public library? A park? A community center? Do we really need to put junk food outlets and hang outs so close to the high school? Property values won't be the same if this is not done properly. If anything a small grocer like sprouts or Trader Joe's might be ok. Prefer it was just housing. |

VIA EMAIL (anthony.grande@phoenix.gov)
Mr. Anthony Grande
Planner II – Village Planner
City of Phoenix
Planning & Development Department

Re: GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2; Resident Statement in Opposition

Dear Mr. Grande:

I reside in Desert Ridge, and I am opposed to the above listed applications. My home is well west of the commercial core, overlooking Black Mountain Boulevard and Pinnacle High School ("PHS"), and with a view of the parcel in question. I have reviewed the application materials posted on the website of Applicant's ("Vestar") counsel, and I attended the informational meeting of the Desert View Village Planning Committee on August 1, 2023.

The requested change is beyond inequitable, it is unconscionable. It does extreme violence to the terms of the Desert Ridge Specific Plan ("DRSP")[1] and the reasonable expectations of Desert Ridge homeowners along Black Mountain Boulevard under the terms of the plan. It does nothing to further the well-being of nearby residents and poses myriad problems. The arguments offered by Vestar to justify the change do not pass muster, as will be readily demonstrated below.

## THE PROPOSED CHANGE IS AN EXTREME DEPARTURE FROM THE DRSP

DRSP contemplates that "commercial development is restricted to the Village Center . . ." except for "neighborhood commercial uses located within the residential superblocks".[2] DRSP goes on to explain the extremely limited size and scope of such commercial uses:

> The neighborhood convenience commercial centers are very limited in size. They are intended to serve only the superblock in which they are located and not intended to serve a population outside the superblock boundary. The **maximum total acreage for neighborhood retail uses**, including buildings, parking, landscaping, and any other items related to the existence of the neighborhood retail use, **shall be three (3) net acres**, while the minimum acreage will be one (1) net acre. [3]

Furthermore, DRSP strictly limits the permitted uses within non-core superblocks, and the list does not include gas stations or drive-through coffee operations[4], both of which were touted by Vestar's counsel at the informational meeting. Indeed, DRSP specifically prohibits "Drive-through uses".[5]
Under the DRSP, no family purchasing a single-family home in a non-core superblock would reasonably anticipate having a drive-through Dutch Brothers or Starbucks, or a gas station, across the street from their home. Vestar now proposes a 20-acre commercial development in Superblock 12. [6] Vestar is essentially asking the City of Phoenix to throw out DRSP and stab nearby homeowners in the back.

## OBVIOUS INTENT TO DRAW ADDITIONAL TRAFFIC FROM SR 51

When Black Mountain Boulevard south of Mayo Boulevard was completed and made the terminal exit of SR 51, concerns of nearby residents were addressed by placing a traffic circle to slow down traffic and discourage heavy trucks, and by providing a pedestrian bridge for safe access to PHS.

The proposed change represents a complete reversal of what was until now a concerted effort to keep Black Mountain Boulevard more quiet and more safe. The placement of the proposed shopping center, at the first traffic light after the SR 51 terminal exit, is obviously intended to attract vehicles that would otherwise continue west on SR 101 and exit at Cave Creek Road or further west. It is a repudiation of DRSP's promise that homeowners could expect to live in clean, quiet neighborhoods while commercial activity was limited to the Village Commercial Core.

## MAGNET FOR UNSUPERVISED ADOLOSCENTS

Placement of the shopping center within spitting distance of PHS is problematic. This is not meant to disparage the PHS student body as a whole. Nevertheless, in any group of over 2500 teenagers[7], there will be those whose immaturity or lack of direction makes them prone to get in trouble. While the studious and industrious will disperse to more wholesome activities, there will undoubtedly be those who choose to hang out. The shopping center, just across a narrow street from PHS, will obviously become the hang out venue of choice.

There are numerous reports of problems with unsupervised teenagers in retail environments across the country[8], and unsupervised time leads to drug use and other issues.[9] Given the location, these problems will undoubtedly spill over into the surrounding residential areas, which already experience litter, graffiti, vandalism and doorbell pranking. Encouraging high concentrations of hundreds of unsupervised teenagers cannot be a benefit to the teenagers or anyone else. It is best for all concerned if the students disperse when not involved in supervised activities.

Vestar claims that the presence of the high school makes the parcel unsuitable for development as currently zoned.[10] The opposite is true. DRSP and the existing zoning contemplate Superblock 12 to contain only the high school and residential use. PHS opened in or about 2000. Nothing has changed about PHS that would justify depriving nearby homeowners of their reasonable expectations under DRSP.

## AIR, NOISE AND LIGHT POLLUTION

DRSP prohibits "Drive-through uses"[11] in non-core superblocks for very good reasons. These operations generate considerable pollution. Not only are PHS and numerous homes nearby, but Fireside Elementary is not far and generally downwind. Air pollution from idling engines is a serious problem[12], and some communities have gone so far as to try banning drive-through operations entirely[13]. The air quality in Phoenix, and Maricopa County generally, is notoriously poor with many "bad air" days. [14] Encouraging drivers to turn their motors off while waiting will never work when the temperature is over 90 degrees. DRSP's approach of limiting these operations to the Village Commercial Core is not arbitrary and should be maintained.

Although Deer Valley Drive and Black Mountain Boulevard have some traffic at rush hours, things tend to quiet down in the evening and there is a distinct residential tone to the neighborhood. This holds true when attendees disburse after PHS Friday night football. The proposed shopping center will keep the noise up and the lights on much later than nearby residents are used to, greatly diminishing the residential character of the community.

## TRAFFIC CONGESTION

I am aware that other residents have commented on traffic issues. I will not belabor the point here, except to note that in the chaos that occurs every morning when PHS is in session, I have at times been unable access westbound Mayo Boulevard from the N. 36th Way gate of my community. Vestar contemplates cars entering and exiting the shopping center on all four surrounding streets. This would include Mayo Boulevard directly across from PHS, and will surely exacerbate the existing problems.

## VESTAR'S SCHEME IS NOT JUSTIFIED

Vestar's purported justifications of its scheme do not withstand scrutiny.

**There are no traffic or parking impediments to residents obtaining daily needs at the Desert Ridge Marketplace ("DRM").**

DRM was designed to enable local folks to get to the pharmacy, gas station, grocery store, and various other businesses without getting involved with traffic headed to the big box stores, apparel outlets or entertainment district. The local needs providers are located in the northwest corner of the marketplace and are readily accessed from two curb cuts on Deer Valley Drive just east of Tatum Boulevard. The apparel and box stores, as well as the entertainment district, are closer to other, much larger, parking lots which are served by numerous additional entrances to DRM. I have lived in Desert Ridge for over 11 years and have never, even on Black Friday, had a problem finding parking at Albertson's. To illustrate this, I recorded a video at Grocery Run Sat 08-19-2023 - YouTube. [15]

**The proposed center is unlikely to provide alternative groceries.**

At the informational meeting, Vestar's counsel admitted that Vestar is unable to identify any specific grocer that would occupy the proposed grocery store. Although Vestar says it expects the grocery store to be smaller than the existing Albertson's, its counsel conceded that none of the proposed businesses are sure to occupy the shopping center. Assuming that a grocery store is established, there is no reason to believe that it will offer merchandise different that that offered at Albertsons.

**Creation of minimum wage retail jobs is not a community priority.**

The small number of jobs projected to be "created" on the new shopping center could easily be placed elsewhere. It should also be noted that substantial construction is taking place at nearby High Street and City North where much higher density residences, offices, and retail spaces are being built.

**Purported benefits to the community are illusory at best.**

*Keeping the Current Zoning will have the same effect on dust and storm runoff.*

The supposed dust control and storm runoff management benefits are speculative and unquantified. In 11 years, I have never seen significant flooding along Black Mountain Boulevard. Residential development at the site would have the same effect.

*The "safe alternative" for students is illusory.*

Encouraging teenagers to consume junk fast food benefits no one. The so called "safe alternative . . . before school, after school, and during the lunch hour" actually describes an unsupervised hangout for hundreds of teenagers with all the attendant problems described above. A concession by PHS's principal that the project "would potentially reduce the number of off-campus trips by car"[16] hardly demonstrates a full-throated endorsement of the scheme. Had there been a firm expression of general support for the project from anyone in authority at PHS or the school district, Vestar would surely have mentioned it in its explanatory letters.

*The residential remnant shows how the change is repugnant to DRSP.*

The fact that Vestar wants to gobble up 20 acres of the Superblock while leaving a mere remnant for residences demonstrates how the proposal is repugnant to both the letter and spirit of DRSP.

*The gas station and shopping center have no health benefits and will not be a community social center.*

There is nothing about the proposed project that will foster connection among the citizens. There are innumerable such shopping centers around Phoenix, and there is nothing unique about this proposal. There are no outdoor parks, exhibition or performance spaces illustrated on the Conceptual Site Plan. The purported health benefits are nothing but speculation. It is my observation after 11 years living here that very few people walk with groceries around Desert Ridge, regardless of the season. The health hazards of innumerable automobiles spewing particle pollution on the drive-through lines clearly outweigh these specious claims of health benefits.

*The proposed gas station will not provide a net benefit to the community.*

A gas station will generate excess light, noise, and fumes on a 24/7 basis. The convenience store that will inevitably accompany it will only encourage additional teenage loitering.

In my 11 years here, I have only fueled my car once or twice at the Shell station at DRM, even though it is the most conveniently located, and I am there several times a week while visiting the grocery store or the pharmacy. The problem is that Shell stations generally charge considerably more than Circle K, QT or Arco. The issue, if there is one, is the price, not the location.

The proposed gas station is obviously intended to draw traffic from SR 51 as discussed above. Located as the last gas before the freeway, competitive pricing is doubtful.

*The Desert Ridge Community Association (DRCA) has not taken a position on this project.*

Although there have been communications between DRCA and Vestar, the board of DRCA has never resolved to support this project. While I am not privy to communications that may have taken place between Vestar and DRCA's officers or board members, the Association has never formally endorsed the project. A copy of an email from DRCA confirming this is attached as Exhibit A.

## THE PROPOSED CHANGE IS AN UNCONSCIONABLE STAB IN THE BACK

Zoning determinations must be "… equitable, in terms of consistency with established regulations and procedures, respect for the rights of property owners, and the consideration of the interests of the citizens of the City."[17]

DRSP provides for a mix of densities and uses, from mixed commercial and multi dwelling to condominiums, to rental apartments to single family homes. Purchasers of single-family homes were encouraged by a central feature of the plan: all significant commercial activity is placed in the Village Commercial Core. Retail conveniences in the non-core residential superblocks are limited to a list of specified uses, limited to three acres, and drive-through operations are expressly prohibited. Thus, purchasers of single-family homes could look forward to living in

clean, quiet residential neighborhoods. Vestar now proposes to simply rip up that plan and asks the City to stab nearby homeowners in the back.

Rejecting this proposal is not unfair to any Desert Ridge Residents who may endorse, in the abstract, a gas station or additional retail operations. There was nothing about DRSP that gave them any reasonable expectation that these things would be built on Black Mountain Boulevard, and they were content to buy their homes under that plan. Vestar's plan to ruin the lives of residents along Black Mountain Boulevard is grossly unfair; indeed, it is unconscionable and must be rejected.

Respectfully submitted,

James W. Tuffin

Good afternoon Jim,

I hope all is well with you.

On behalf of the DRCA Board Members, please see below the corresponding response to the questions in your email:

1. No.
2. Yes, the DRCA received emails from Vestar's attorney to attend the monthly board meeting(s) to present and provide community updates regarding Vestar's Parcel 12 application process and proceedings relative to their conceptual development plans.

Respectfully,

Desert Ridge Community Association

**Subject:** TO ALL BOARD MEMBERS AND TERRENCE SMITH Re: Plan and Zoning Change Case Black Mtn and Deer Valley

Hi Folks,

It was great reconnecting with Reggie and Doug at the recent Desert Village Planning Committee meeting, and remembering the fellowship we enjoyed when I served as DRCA treasurer. Having stepped back from community affairs, I was taken by surprise by the rezoning notice and some of the things I heard at the meeting. Now I need to catch up and I hope you can help me.

At the meeting, and in an explanatory letter submitted to the City, Vestar's counsel suggested that the DRCA supports the proposed changes. I respectfully request answers to the following questions:

1. Did the DRCA ever pass a resolution supporting the proposed changes or the project in general? If so, please provide a copy of the text of the resolution(s) and the agenda(s) and minutes of the meeting(s) at which such resolution(s) was (were) adopted.

2. Is DRCA, its representatives or agents, in possession of any writings, correspondence, emails or texts showing communications between or among the DRCA, Vestar, Vestar's counsel or representatives, the City of Phoenix or the Arizona State Land Department related to the proposed project or the applications for plan and zoning changes? If so, how can association members get access to those materials?

I'm guessing you'll be seeing a bit more of me in the coming months and as always, whether we agree or disagree, as friends. As you might imagine, I need a response to each question as soon as you can do it. Please do not delay responding to question 1 if you need more time to answer question 2. I should mention, although I'm sure you know it already, that your response may be incorporated into submissions I may make to the City. As a professional courtesy, I am providing Vestar's counsel with a copy of this request.

Thank you very much.

Warm regards,

Jim (James W. Tuffin)

Hello Anthony,

I am Rajesh Gadde live in fireside at desert ridge, I would like to formally email you my opposition about building Black mountain village , I think it's going to make our safe neighborhood area into commercial area thus causing danger to kids , we don't want this at all. Please help us om this matter.

Thanks
Rajesh

---

HI Anthony:

I attended the recent board meeting regarding case GPA-DSTV-2-23-2 regarding the rezoning of the 20.5 acres located on the corner of Deer Valley and Black Mountain in the Desert Ridge area.

I currently live in the Fireside neighborhood, and was taken back by plans to change this lot from residential use to commercial use. I would like to see that land developed for residential as it was originally intended; or given to Pinnacle High School, as they need additional parking for their students.

In no way would I want a gas station or large grocery store to be located in that area. Not only would the light pollution from the gas station be bothersome, and the noise from delivery trucks at early hours, but the added traffic to the area as well! This is already a busy corner!

Please take the residents, the high school students, and the neighborhoods into consideration before changing this lot from residential to commercial.

Thank you,

Julia

| **Subject:** | Proposed land development at Mayo/black mtn |
| **Date:** | Sunday, August 27, 2023 9:29:11 AM |

Mr Grande, city officials, etc,

Assuming you are the proper representatives to contact regarding this matter, I'd like to please ask you and the city representatives to consider the opposition many residents here in Fireside Desert Ridge have to the proposed zoning changes of the property at Black Mountain Blvd and Mayo Blvd /Deer Valley Drive right next to Pinnacle High School.

It's currently zoned for residential and for the developer to change it to retail shopping opens this area up to increased traffic congestion and student/resident safety issues here in the area.

I invite any of you to please come observe the traffic at these intersections around the school during the peak times of dropoff 7:20-7:30 am and at 2:15-2:20 pm pickup when it's the worst. These intersections are a nightmare then. Droves of kids are walking to school and crossing/jaywalking across these intersections some are on bikes even—and they are NOT heeding any kind of traffic signals or signs because they are kids of course. Many cars are racing through yellow lights and people sitting in intersections at red lights because they tried to fit through. We have seen lots of accidents, a lot of honking and near misses. My son's Pinnacle soccer coach was just in an accident this past Friday during pickup when a man in a car not paying attention to stopped traffic on Mayo slammed into the back of him causing his car to hit the car in front of him, which was driven by a student. It happens all the time because of the sheer volume of cars and kids and mayhem happening during these times. It is only a matter of time before a kid is seriously maimed or killed at this intersection/area.

I live across the street in Fireside, a stone's throw from this land where they are going to build. My son attends the high school and my twin girls will attend next fall and then my youngest will attend in two years. We are stuck for a long time with whatever the powers that be decide should go here. I worry about the influx of traffic and congestion, the problems it brings to us as nearby residents, by way of safety especially—but also being a single mom I bought this home two years ago for its close proximity to school for my kids to walk to local schools and the safe neighborhood feel. But I'm worried at the potential drop in property values if they start putting in crappy shops or gas stations or smoke vape shops, causing our nice residential area to look, smell and sound like a truck stop dump attracting transients and homelessness, no doubt.

I know money will likely win out in the end, and something will be built here. It's a shame the school district couldn't have bought a piece of this property for added parking for the students at school because as it is currently, only seniors can park in the school lot, which is asinine. The principal at Pinnacle has even told parents last week they have addressed safety and traffic issues to Vestar but ultimately can't have a definitive say in this land development.

City officials have a duty to protect the interests of the residents here who live and work and pay taxes.

These developers have the monetary means to at least put an-over-the street walkway /sidewalk bridge from the Mayo/Black Mtn crosswalk over to the school so our kids aren't playing Frogger in traffic through red and green lights as they currently do every single school day. The existing walking bridge that some idiot designed and installed years ago is out of the way for kids to walk, located south at the 51 interchange, at the dog park entrance, so they would have to walk down there then back around to go back up to the school—it's an extra 10-15 min of walking —not a single soul is doing that and that pedestrian bridge remains not utilized.

**My question: Could the city mandate the developer to at least relocate the pedestrian bridge to the problem/ busy intersection at the school instead of that bridge uselessly sitting down the street out of the way? (I included a pic of bridge area)**

If something is built here eventually, I hope the people in charge will think first of the safety of students and residents over the quick buck they'll make in revenue at the site.

Thank you for hearing me,
Andrea Remke,
Phoenix resident of Fireside Desert Ridge

---

Hello Mr. Grande,

We are Desert Ridge community members. We have lived here for almost 15 years and in that time, we've seen many changes. Some are good, some not so good.
We are very concerned about the proposal to convert the property from residential to commercial at the corner of Black Mountain and Deer Valley. That corner is active all day, especially during school and sports hours. It's grown from 2 lanes into the large vein that cuts through Desert Ridge connecting Cave Creek to 56th and possibly in the future, Scottsdale Road. Added traffic and distractions could be disastrous for all drivers on the road. Traffic will become heavier (shoppers coming and going, drive-through lines, delivery trucks, etc.) creating an even more congested intersection. We would honestly love to see a traffic survey done as this is such a busy intersection and we all need to get a full idea of usage and traffic patterns.
There are 3 schools within walking distance of this area. We are very concerned about inviting strangers to the heart of our neighborhood for a quick stop. Security and issues at DR Marketplace have been escalating and we don't feel we need to invite more people into our neighborhood for some Chick-fil-A or to gas up their vehicles. We don't have the resources to handle disturbances in DR Marketplace. Why would this be any different?
We also don't believe stores and convenience markets should have the ability to sell alcohol and tobacco products that close to a high school. It will just bring issues to law enforcement that is stretched unbearably thin.
Our children are still young, but we've heard there isn't enough parking at the high school so this will just entice kids to park there and create issues with parents, the high school, and business owners. We've heard that the developer won't limit the store sizes so parking could be inadequate for the project which would add an additional level of stress for shoppers and drivers trying to find parking spots and exit or enter the center.
We feel converting this land will come with a whole host of issues that will outweigh the benefits to DR citizens. We in no way think the land developers have the community's best interest in mind. They, as many before them, build and leave. They never give a second thought to what impact they add to the communities they have worked within. Honestly, with all the new builds going up in Desert Ridge, we feel we need to proceed slower than we are to make sure the roads and area can handle all this growth. We have several big projects currently in different stages (clearing land on Deer Valley for 882 new apartments, a whole new community going in off 56th and the massive plans for City North) the added fallout including the number of new community members, additional cars on our already congested roads without an option for expansion and added pressure on the school district, etc., is yet to be seen.

Thank you for your time,
Adam and Timari Rusak

We have lived here in Aviano for 7 years. It's a great neighborhood with easy access to Fireside, Explorer, Wildfire and Pinnacle. If you allow a gas station and other stores to be built next to Pinnacle - the traffic will increase, the crime will increase, the traffic accidents will increase and our properties will devalue. Please vote against building in this area. thank you.

| **Date:** | Tuesday, August 29, 2023 5:03:20 PM |

Hello, my name is Brad Burnes, and my family and I moved to 36th St in Fireside a little over 10 years ago. I can unequivocally say the idea of a shopping center at Deer Valley and Black Mountain is an awful idea, and only a play for cash.

Have you witnessed the traffic during school dropoff and pickup? It's a disaster. Can you provide details of home values in other neighborhoods where a shopping center was allowed to be built after a re-zoning?

We moved to this area because of the vision and community aspect. If the city proceeds with this development against the majority of Desert Ridge residents, how does that value the voice of the residents?

There's plenty of land north of Pinnacle Peak. Please use common sense and do not allow this to happen.

A very concerned voter and resident,
Brad Burnes

---

Hi Anthony,

My name is Micheal Copeland and I'm a resident in Fireside. I would like to express my deep concern and opposition to the proposed rezoning by Vestar of the parcel located at the SW of Deer Valley and Black Mountain High.

Potential uses including gas stations and quick service retail with drive would have quite a negative impact on the neighborhood. It would also increase the risk to high school students next door given the already existing issues with traffic and parking.

Ultimately - I would argue that whilst it is still State Land, it should benefit the schools per Arizona laws because Public Education is the main beneficiaries of state land sales. It should not hurt a public school when they sell it.

I'd also point to the City's "Vision Zero" (zero traffic casualties) plan to highlight my concerns with regards to the traffic situation and student safety around Pinnacle High School. I have not seen anything from Vestar that would ameliorate these concerns.

Furthermore, Vestar could easily develop what they want under the existing plan on pre identified commercial zones. Given the proximity to over 600,000 square feet of retail within a mile, there simply is not a need to add additional retail on this parcel.

Sincerely,

Micheal Copeland

Sent from my iPhone
Quick reminder to everyone that tonight at 6pm is the Fireside HOA meeting. The attorneys from Vestar will be doing their presentation and answer any questions you may have.

Goto zoom.com and use meeting ID: 811-9962-3685 and Passcode : 997589

I attended the Desert Ridge Community HOA meeting last week and my conclusion was that nobody in the HOA's, nor the Village Planning Committee for our area will stop this proposal.

It will take all surrounding communities to attend all the meetings and at least write their views on the proposal and submit them to our councilman ([council.district.2@phoenix.gov](mailto:council.district.2@phoenix.gov) ) and the City Planner ([anthony.grande@phoenix.gov](mailto:anthony.grande@phoenix.gov) ). Reference : GPA-DSTV-2-23-2

They should know that it needs their attention instead of making a quick buck by selling the land. We need to separate the school traffic from the work traffic to ease the congestion around that area and we should be adding safer drop off areas behind the school and away from Blackmountain boulevard and point out that this Highschool still has vacant land available to address the situation.

Once this is sold and a big box grocery, gas station, big trucks, etc, etc are put their instead, the community will have to live with the consequences. Everyone should also be concerned about the impact of Grocery/Gas stations on the students behavior and attendance of classes. Other folks from the community have brought up other concerns as well.

Ultimately - I would argue that whilst it is still State Land, it should benefit the schools per Arizona laws because

Public Education is the main beneficiaries of state land sales. It should not hurt a public school when they sell it.

The school will be there for a long time – so we should make an effort now to keep Desert Ridge communities desirable and family friendly.

We should put student safety before anything else whilst we still can.

Please email your views!!

Let us know your thoughts on this at the meeting or on this post.

Hi Anthony,

I'm strongly against the Black Mountain Village plan and zoning changes (cases are GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2).

It feels like a bait and switch for our community (especially us in the cooper view sub-community on black mountain and deer valley who would feel this impact the hardest).

There is plenty of land closer to cave creek available and already designated for commercial purchase.

Thank you,
Andy Mesecher

Mr Grande,

I wanted to express my strong opposition for the commercial development Black Mountain Village. I am a parent of an 8th grader and a 5th grader in the community.

We purchased our home in this area for the community feel, residential zoning and walkability. The traffic near Pinnacle High School is already dangerous and adding a commercial building would surely lead to additional traffic issues and potential accidents.

Desert Ridge Marketplace and High Street already offer plenty of shopping and restaurants and we are have plenty of convenient options being so close to the freeway.

Please halt plans for the Black Mountain Village shopping center.

Thank you for your time and consideration.

**Date:** Wednesday, August 30, 2023 10:09:02 AM

---

I am a resident of Fireside and my children attend the local schools. I am writing to tell you that I am completely opposed to the rezoning of land for commercial development at the corner or Black Mountain Pkwy and Deer Valley Rd.

The proposed development will make an already difficult traffic situation dramatically worse. Student safety crossing Black Mountain is already compromised by the lack of crossing guards and / or police presence. Cars are parked on Black Mountain and Mayo Blvd at dropoff and pickup times, already blocking normal traffic flow. Eastbound traffic on Deer Valley already gets backed up for hundreds of yards on school days during pickup and dropoff times. This new development would make it significantly worse and dangerous for pedestrians.

The property in question was previously earmarked for public space, like a park. Why is that plan being dropped?

There are other plots of land nearby (Cave Creek / Pinnacle Peak) which are already approved for the type of development being proposed. There should be no changes of the use of the property at Deer Valley and Black Mtn, until that already approved plots are sold and developed.

-Peter Feldman

**From:** Alexandra Hyszczak
**To:** Anthony M Grande
**Subject:** Opposition to Black Mountain Village / Superblock 12
**Date:** Wednesday, August 30, 2023 11:47:11 AM

---

Dear Anthony,

I am writing in regards to the rezoning of the land parcel at the corner of Deer Valley Rd and Black Mountain Boulevard ("Black Mountain Village / Superblock 12"). As a resident of Sky Crossing, across Deer Valley from this parcel, my family and I, along with 1220 homeowners, will be directly impacted by this proposed development.

I would like to bring to your attention some concerns that I have relevant to this rezoning.

Traffic is already high on these two streets – at morning drop-off, cars line up from the school around the corner onto Deer Valley all the way to 32nd St. The addition of a large shopping center will greatly increase this traffic, bringing more inconvenience, noise and pollution, especially so if a gas station is built. A gas station is not something we need in this location, as there are a number of gas stations nearby on Cave Creek and on Tatum, all within 2 to 3 miles from this area.

Additionally, the proposal contains multiple access/egress points with no provision for safe crossing or pedestrian/bike safety. A proposal that has the potential to create roughly double the traffic should be required to address these impacts, especially when located across from residential areas and next to a school.

The explanation letter for the project describes that for community benefit, the project has the potential to "increase health" and "reduce transportation burdens" of area residents by creating a walkable/bikeable retail/grocery destination and "may reduce emissions from residents driving to Desert Ridge Marketplace." These statements are, frankly, unproven and unsupported by the conceptual design, given the proposed rezoning contains no description of how the commercial center will cater to walking and biking.

Light Pollution is another major concern. Nobody wants to see bright lights on all night that will disrupt the tranquility of our lives and interrupt our sleep.

We chose to build our home in Sky Crossing due to its location, being *between* two retail areas (Desert Ridge and Cave Creek Rd) and not directly adjacent to those busy areas. Creating a commercial zone in this community greatly reduces the value of this location.

Thank you for your time and attention to this important matter.

Alexandra Hyszczak

| **Date:** | Thursday, August 31, 2023 1:43:39 PM |

To whom it may concern,

I appreciate the opportunity to have my voice heard. I am a homeowner in Fireside and I absolutely love our neighborhood. I love it how it is. I am extremely concerned for the future of our neighborhood and the other surrounding areas if this project is allowed to commence.

I absolutely do not support this development. Desert Ridge Marketplace is bad enough with all the fights, theft, and sketchy people that it draws to the area! I refuse to allow my kids to go to Desert Ridge without an adult present, and my oldest is 16! There are too many homeless panhandlers, and unsavory people that are drawn to shopping centers. To have a development right next to the high school and elementary school than my kids attend is not what we were promised when we bought our home. My kids walk to school, that's a primary reason for buying our house. I would not feel comfortable with my kids walking to/from school if it was right next to a shopping center like Desert Ridge Marketplace, I see the type of people that shopping centers draw in. Even this one, being a more high end area brings in distasteful people.

This area is residential, and it needs to stay that way. The increased traffic alone, is a huge concern. Have you ever tried to come through the area in the morning or afternoon when kids are arriving or leaving school? I pray the day NEVER comes that an impatient or inexperienced driver strikes and kills a student, but this area is like a ticking time bomb. Too many cars on too few streets. The area cannot support more traffic. Does the bottom line only come down to money? What about our kids and their safety? We bought our home here to have a safe place for our kids to grow up…this was NOT a part of the plan for this community. The safety issue comes down to more than just cars. Do you realize how easy it is for a kid to be abducted in/around a shopping center or for kids to be lured into trying drugs or alcohol as they pass by on their way home? I am not in support of this development and I truly hope that this will not just be pushed through without the consent of the taxpayers living in the surrounding neighborhoods.

Hello Anthony,
I am reaching out to voice my displeasure and to ask for your support with ensuring that Vestar/other corporations are blocked from rezoning from “residential” to “commercial” for the proposed Black Mountain Village in Desert Ridge. The *residential* zoning was absolutely a key factor when we purchased our home and would be devastating to our community if rezoning is allowed. There seems to be plenty of commercial zoning between High Street, Tatum and Cave Creek Roads.

Regards,
Zak House

re: Black Mountain Village plan and zoning changes cases GPA-DSTV-2-23-2 and GPA-DSTV-3-23-2/Z-39-23-2

Mr Grande -

Writing as a concerned resident of Desert Ridge in the Fireside neighborhood. I moved here in 2007 and have watched this neighborhood grow. Love it. Raised 3 children here, two of which are at Pinnacle High School and another starting next year.

My wife and I are quite concerned with the proposed re-zoning of the property north of Pinnacle High School at the corner of Black Mountain Blvd and Deer Valley Road. This property is smack dab in the middle of other residentially zoned homes, Thousands. There are sufficient commercially zoned properties in the Desert View Village to support future resident growth of this beautiful area... not to mention a wonderful village core in and around Desert Ridge Marketplace.

There is the issue of commercial traffic conflicting with the Pinnacle traffic which is already a safety issue. I am aware of the fact that Pinnacle High School leadership is NOT supportive of this re-zoning even though that was misrepresented by the developer at the 8/1/23 village meeting. Adding commercial traffic to this area that is not familiar with the daily high school traffic patterns (as residential traffic would be) is IRRESPONSIBLE. This issue in and of itself should be enough for the Committee to reject this re-zoning request.

On top of this are the hundreds of neighbors of mine who invested in property thinking this land would be used for future residential use.

I don't intend to hop on the NIMBY train; I just don't think this request of Vestar is in alignment with what the General Plan originally intended this land be used for and I specifically request the Committee REJECT the developer's case.

Thanks for listening -

Matt Chitwood
21625 N 39th Place Phoenix 85050

Anthony,

I also live adjacent to the project at Black Mountain Village proposal. From an outsider's opinion, I can see why the idea of more commercial real estate would monetarily benefit the city of Phoenix, Vestar and their attorneys Gammage & Burnham. However, **what is heavily being overlooked is the safety of our community and our children** with the rezoning from residential to commercial.

**Safety of our children:**
Our section in the Fireside community called Copper View sits adjacent to the proposed land at the southeast corner of Black Mountain and Deer Valley. Since 2012 our section has been a cut through for the aggressive drivers both parents and children of Pinnacle High School. On my street alone (Cat Balue Dr.) there are 27 children under the age of 10 years old that walk to the elementary school and play in our neighborhood. This doesn't include the other 4 streets with 50 additional homes to consider. We have seen too many close calls where our children were almost hit by these aggressive drivers! Imagine living in a community where you do not feel safe letting your kids play out front.

Additionally, Stephen, the attorney for Gammage & Burnham, said on our Fireside community call this Tuesday that the new traffic would be "counter cyclical patterns" around school hours during the week and weekend. This means to me that not only do we have to deal with aggressive drivers from Pinnacle High School, but now we must deal with aggressive drivers all day and on the weekends! We cannot live in a community where our children are at a greater risk of being hit by a car while walking to school or playing in their neighborhood.

Secondly, I am concerned that a commercial zone would bring a bus stop right at the corner of Copper View (Black Mountain & Deer Valley). There are numerous amounts of homeless people that sleep on the bus stops at Tatum & Deer Valley. I see them at all hours of the day starting at 5am when I go to Mountainside Fitness and in the evening. We do not want to attract nor give reason for more homeless to encroach our family neighborhoods with a commercial zone. This is not only a safety concern for our families but will also impact our property values. PLEASE keep our neighborhoods (Fireside, Aviano, Sky Crossing) a family suburb of Phoenix. **I am asking as a concerned parent of 3 little kids that you help us protect our children and the safety of our community by putting a stop to this project.**

I appreciate your time and commitment to keeping Desert Ridge a GREAT, family friendly community in Phoenix.

**Subject:** RE: Black Mountain Village- Please NO commercial development

Forgot to include this: Black Mountain Village plan and zoning changes GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2

Anthony, I live adjacent to the project at Black Mountain Village proposal. We do not want to have beer, liquor and cigarette sales next to our neighborhood or Pinnacle High School. Nor do we want drive through restaurants and gas stations that are open 24/7. This will bring about crowds of people at all hours that we current have the benefit of avoiding as it stays closer to Tatum or Cave Creek roads. I feel that this completely changes the residential feel of our area in Desert Ridge and feel like this is a money grab right in our neighborhoods of Fireside, Aviano and Sky Crossing.

When we built our homes this was *never* a consideration and do not want this project proceeding. **Please help us put a stop to this project in any way we can**. If anything this area should be used as an overflow for the high school or some type of traffic mitigation for Black Mountain. We already see the overflow from the high school traffic in our direct part of the neighborhood and do not want this to increase where our kids walk to and from school every day, to their elementary school. We have 40+ children that walk every single school day and any increased traffic will up the risk of someone getting hurt through reckless driving, with people trying to avoid the traffic on Black Mountain.

Please help us and hear what we're asking before this goes forward. There are much better uses of that land and once it's commercial, all bets are off.

| **Subject:** | Desert Ridge Superblock 12 rezoning |
| **Date:** | Sunday, September 3, 2023 9:57:47 AM |
| **Importance:** | High |

Hi,

I am a long-time resident of Fireside at Desert Ridge and am very concerned with the proposed changes to the land parcel between Pinnacle High school and Deer Valley Rd (**Case No. SPA-DS1 V-2-23-2), (Case No. CPA-DSTV-3-23-2) and (Case No. Z-39-23).**

We moved here 10+ years back with an explicit understanding that this was a residential area, with high quality living and low crime rates. Over the years, several things have happened that are cumulatively of an increasing level of concern :

- Connection to Hwy 51 has significantly increased vehicular traffic and noise levels at all times for the neighborhood
- It is a nightmare getting out near Pinnacle High school in the morning, traffic back up in all directions and is a nuisance to the Fireside neighborhood. I have to go around it to drop my daughter to PVHS at that same time.
- An extension of Mayo Blvd to Tatum will make it even worse
- As more homes have been added, traffic at both Tatum and Cave Creek is getting progressively worse

If the rezoning and the development project is approved, here is what I foresee happening :

- Retail center will have bright lighting and noise at night and early morning hours with logistics
- Already horrible traffic at school times will get even worse, plus additional delivery trucks going in and out
- Crime rates are likely to increase, homelessness and drug use are already of grave concerns in the nearby areas
- Property value will take a dip

A much better use of that space would be to expand parking access to Pinnacle high school that will also alleviate some of the traffic concerns everyone can feel and have raised.

I would urge you to strongly oppose this change, and save the serenity and quality of the neighborhood that we all love and like so much. It would be shame to have money-grab development destroy the character of the community.

Regards,

| **Subject:** | Desert Ridge Superblock 12 rezoning- Opposing Vestar"s Balck Mountain Village proposal |
| **Date:** | Sunday, September 3, 2023 10:36:21 AM |

Hello,

As a long-time resident of Fireside at Desert Ridge I am deeply concerned with the proposed changes to the land parcel between Pinnacle High school and Deer Valley Rd (**Case No. SPA-DS1 V-2-23-2), (Case No. CPA-DSTV-3-23-2) and (Case No. Z-39-23).**

I moved here back in 2013 with my family and 2 young daughters to be part of this beautiful neighborhood with great community feel and low crime rates.
Over the years, several things have happened that are cumulatively of an increasing level of concern :

- Increased traffic and noise level due to Connection to Hwy 51.
- Dis-respect and abusing of our neighborhood by Pinnancle High School drop off and pick up crowd. Our Neighborhood has become a parking spot for Pinnacle parent drop off and pick up making it extremely difficult for residents to walk or even take their cars out for morning and afternoon commute.
- Getting out of the copper view subdivision is at nightmare due to backed up traffic for Pinnacle High school in the morning, It back up in all directions and is a nuisance to the Fireside neighborhood. I fear for my teenage daughter's safety as she drives to her high school amidst this crazy traffic.
- An extension of Mayo Blvd to Tatum will make it even worse
- As more homes have been added, traffic at both Tatum and Cave Creek is getting progressively worse

This is what I dear with the rezoning and the development project is approved.

- Crime rates are likely to increase, homelessness and drug use are already of grave concerns in the nearby area
- Retail center will have bright lighting and noise at night and early morning hours with logistics
- Already horrible traffic at school times will get even worse, plus additional delivery trucks going in and out
- Our property values will dip considerably

A much better use of that space would be to expand parking access to Pinnacle high school that will also alleviate some of the traffic concerns everyone can feel and have raised.

I strongly oppose this change and request you to not zone this as a commercial zone to save the serenity and quality of the neighborhood that we all love and like so much. I would hate to see this beautiful neighborhood being destroyed by few folks who are looking at it for mere financial gains into their pockets.

Thanks,
Kavita Chandak

**Subject:** Proposed Shopping Center
**Date:** Monday, September 4, 2023 7:06:39 PM

---

I am 13+ year resident of Desert Ridge and strongly oppose the proposal to build a shopping center at the corner of Black Mountain and Deer Valley. It will increase traffic tremendously at an already congested intersection, endanger kids walking in the area, increase crime, increase noise & light pollution, and serve as an overall eyesore.

PLEASE keep our residential area residential!

Lori Tininenko

September 1, 2023

Dear Members of the Desert View Village Planning Committee,

Paradise Valley Unified School District appreciates the opportunity to provide input regarding the potential retail development on the southwest corner of Black Mountain Blvd. and E. Deer Valley Dr. We understand the importance of responsible and thoughtful planning in our community, and we want to share our concerns regarding the proposed development.

In a holistic evaluation, it appears that the proposed development may not be optimally situated, given the potential challenges it could pose to Pinnacle High School. In the event that the committee decides to approve the development, we respectfully request that the following considerations be taken into account as a minimum requirement.

**1. Student Safety with Crossing Mayo to Enter the Shopping Center:**
Our primary concern is the safety of our students when crossing Mayo Blvd. to access the shopping center. This may pose a significant risk, especially during peak traffic hours. If this development is approved, we urge the committee to consider safety measures such as pedestrian crosswalks, traffic signals, or other infrastructure improvements to ensure the well-being of our students.

**2. Increase in Traffic along Black Mountain and Mayo Blvds:**
The proposed retail development is likely to lead to an increase in traffic along Black Mountain Blvd., which is already a busy thoroughfare, and Mayo Blvd. The additional traffic congestion could have a detrimental impact on the flow of school buses and the safety of our students. If this development is approved, we recommend a comprehensive traffic impact analysis to assess potential congestion and to explore mitigation strategies.

**3. Parent/Student Parking at the Shopping Center:**
The existing parking capacity at Pinnacle High School is currently quite constrained, and it is highly likely that some students will opt to utilize the parking facilities within the proposed retail development. It is important to acknowledge that the school lacks the necessary staffing and resources to effectively manage or mitigate this parking issue.

**4. Shoppers Parking Along Mayo Blvd. or on School Grounds:**
Without sufficient parking spaces within the shopping center, there is a risk that shoppers may resort to parking along Mayo Blvd. or, worse, on school grounds. This could lead to disruptions and safety concerns for our educational environment. We urge you to require the developer to provide ample parking options within the development.

**5. Increase in Tardy/Truancy due to Shopping Center Services:**
We are concerned that the proximity of the shopping center to our school may lead to an increase in tardiness and truancy. Students might be tempted to leave campus to access the services provided by the shopping center, causing disruptions to their education. We recommend working with the developer to establish guidelines that minimize these distractions during school hours.

In conclusion, we have serious reservations about the impact this project will have to the safety of our students. If the development is approved, we believe it is essential to address these concerns proactively to ensure the safety and well-being of our students and maintain the quality of our educational environment.

Thank you for your attention to these matters. We look forward to collaborating with you to ensure that this development aligns with the best interests of our students, parents, and the community as a whole.

Sincerely,

Troy J. Bales, Ed.D.
Superintendent
Paradise Valley Unified School District

| **To:** | Anthony M Grande |
| **Subject:** | Application No: GPA-DSTV-2-23-2 - Rezoning Request by Vestar |
| **Date:** | Tuesday, September 5, 2023 6:52:27 AM |
| **Attachments:** | GPA-DSTV-2-23-2-App2Amend.pdf |

September 5, 2023

Greetings,

I'm writing you today regarding a rezoning request made here by Vestar application No. **GPA-DSTV-2-23-2** and some comments heard by residents resulting from a recent HOA board meeting held by Desert Ridge Community Association.

My name is William Smith and I am a resident of Regalia Bear Subdivision which is located just off Tatum Blvd and North of Marriott Drive in Desert Ridge for 13.5 years. Formally a resident in Vista Norte located at Dynamite and 57$^{th}$ Streets for 14 years. I've been a resident in Arizona since 1969 and have lived the majority of my life in North Scottsdale / North Phoenix 25 miles or more from downtown.

When my wife and I moved to Desert Ridge I began participating in many of the community HOA meetings assisting mostly on the Awareness Committee. I believe it's important we continue to live in a safe and healthy community. The many challenges I've witnessed over the past 13.5 years have been noise pollution, traffic congestion and bottle neck due to lack of arteries (roads), vandalism and crimes committed by an increase number of teenagers.

Noise pollution continues from above with fly overs; also truck deliveries made during overnight or early morning hours are heard by vehicles creating those loud safety warning beeps when backing up. With the increase of home deliveries since the pandemic we've seen an more delays within our Desert Ridge community and about. Thankfully a great deal of the air traffic above was reduced after our Desert Ridge community associates worked with the aviation department to reverse a decision that was made several years ago that allowed commercial places to fly directly over Desert Ridge using a new flight path. We still have a few non commercial planes and helicopters that don't always follow the appropriate flight path, but we are thankful the majority of commercial planes are no longer constantly flying low overhead. In addition, we reported to the Marriott about the noise issue from trucks backing up that could be heard for a mile in the silence of the early morning hours and that has stopped. Our voices are being heard!

As far as vehicle noise issues we continue to hear traffic due to the type of road surface and proximity of both Tatum Blvd and Marriot Drive. Everyone is racing to be first coming in both

directions cutting through our community because as we all know there aren't enough arteries (roads) that allow traffic to flow around the heart of Desert Ridge. Traffic on Tatum Blvd has met it's maximum capacity 5 years ago and its only getting worse. ***Deer Valley road is starting to show signs of stress unless we start now and think forward***.

Let's talk a little about Desert Ridge planning and how Vestar was originally involved in the design and planning of this community. I believe just 13.5 years ago when we moved here I heard mention Desert Ridge was just over 40 percent built out. Since then we seem to continue cramming more and more condos, apartments, schools, single family homes in addition to the huge development along the 101 from 56th to Tatum Blvd. There seems to be this need to fill up every inch of both Super Blocks along the 101 from 56th through to Black Canyon Blvd. We all know growth brings congestion and headaches.

Listening to representation by Vestar at community planning meetings they talk about building another marketplace in an area of Desert Ridge that is zoned **low** residential. I'm writing you here today to provide my opinion about why we ***shouldn't*** change this residential parcel as this application suggest to commercial and that we should consider looking for a location that has better access to the 101 and has the ability to get vehicles in and out of the area from all four directions without impeding traffic and causing delays. For the past 8 years or so all I've brought up to anyone that would listen that the City of Phoenix must work on a plan that will open up more arteries (roads) that allow traffic to flow more around Desert Ridge Market Place and through our community as well.

***We can not continue to build both up and out; allowing thousands of more residents, merchants, delivery vehicles and visitors to move about and not have additional access roads and arteries (roads) that will provide additional alternatives to Tatum Blvd and Deer Valley Road.***

Everyone knows it will be expensive and we need it; an access road along the 101 that will allow traffic to access both super blocks from 56th street to as far as Cave Creek Road if we have too. The idea is to take excess traffic away from Tatum Blvd and Deer Valley Road when everyone is either trying to get to and from their residence in Desert Ridge, pass through it to get home in Tatum Ranch or visit Desert Ridge Market Place to enjoy all the shops, restaurants and planned activities Vestar an their business partners plan throughout the year. Additional roads that could help the flow of traffic could be at 40th street, Black Mountain Blvd, 56th street and any additional roads developed during the super block expansion phases which should include access roads along the 101 freeway. **We can't even head east or west using Black Mountain Blvd at the 101 to help avoid using Tatum Blvd at the 101?**

We understand change is necessary and some people believe we need more growth and there is no stopping it. However, the reason Desert Ridge has lasted as long as it has being in the

spotlight a community most desirable for its amenities and location is because we live in a place beyond the boundaries of the City. ***A place between Rural and the big City life; simply a suburban experience like no other.***

If we allow another marketplace with a gas station at the location of Southwest Corner of Black Mountain Boulevard and Deer Valley Drive we are going to have big disappointment with additional traffic, noise, crime, vandalism not only during the day, ***but all night as well.*** We don't want or need any more attention drawn to close to existing residential community during the overnight hours. If you have to rezone **which I'm not for**, bring in medical therapy centers, Dental, Vision, Day Care Centers, Animal Veterinarians businesses that will bring value to the investment and more in line with education and health without attracting any negative impact we currently have going on at Desert Ridge Market Place and our Community City Parks by individuals that hang out in groups in public places with no regard for others property. There is so much open space in super block there where the fitness center is and the hotels are located that if Vestar thinks Desert Ridge needs another grocery store well go big and ***put a Walmart there along the 101***; build the access road along the 101 and make it easy to visit the store without impeding any more traffic delays on Tatum Blvd and Deer Valley Road and push the traffic away from our beautiful neighborhoods.

***Final thoughts that come to mind you can all think about …***

Observation #1 – The traffic gets so bad moving North and South on Tatum sometimes it takes 3 minutes just to exit out of my subdivision from Williams Drive onto Tatum. The traffic gets backed up so bad the distance on Tatum between Deer Valley and the 101 one can spend 6 minutes waiting for lights going in any direction. When there is construction, emergency vehicles or an accident forget being on time for any scheduled appointment. **This is not right**!

Observation #2 – Recently in the past 4 years after the completion of this new condos and new single family subdivisions we noticed in addition to Vestar bringing live entertainment along with Sip and Stroll attractions among other big events, that traffic delays have now extended everywhere including Tatum Blvd to 56$^{th}$ street going North or South along Deer Valley road. Drivers are in such a big hurry they speed illegally North on 56$^{th}$ to Pinnacle and in addition there is so much traffic during rush hours on Deer Valley from 56$^{th}$ all the way to Cave Creek and beyond due to the 101 bottlenecks experienced when approaching the 51 freeway from either direction. Drivers are not only using Deer Valley, but they are using Pinnacle Peak from Scottsdale all the way to Cave Creek Road to escape the 101 traffic debacle during rush hours.

Observation #3 -

Recently we've seen a huge increase in teenagers committing crimes and they seem to like

hanging out at Desert Ridge Marketplace. This was brought up at our meetings and Vestar did speak out regarding our community concerns about the lack of security and care anyone we would expect to be responsible for managing issues of this nature. Concerns about Target, Albertsons, In&Out Burger and Panda Express have been going on for as long as I can remember brought up at Community gatherings with our neighbors for coffee and other meetings. It's been on the news this summer about a gang of teenagers sucker punching a teenager from another group causing 15,000 worth of dental work needed. Teenagers hang out at Target and act like the sports department is there personal playground. Teens stealing a cell phone right out of another teenagers hand who was picking up a take out order from Panda Express and too often homeless people coming up to you for money in front of and in the parking lot of Albertsons. These attractions that are enticing young people to party drink and get high not only occur in the marketplace, now we are seeing these young people come into the neighborhoods within Desert Ridge causing quite a bit of damage. Our Cashman park has been vandalized at least 3 times within the last couple years that I've heard about.

**Conclusion**:

Please consider another location for this grocery store and gas station to be developed. Lets choose a location away from existing residential and try to develop existing locations already designated residential and take the idea of bringing another grocery store and gas station to already designated commercial zones.

We don't need any **24 hour a day business** on Deer Valley and Black Mountain Blvd. We already have Desert Ridge Market place a gas station on the intersection at Tatum Blvd and Deer Valley Road. Take this proposed plan and build on 20.5 acres closer to the 101 and Black Mountain Blvd. Even if you were to propose moving this development to 40th Street and Deer Valley Road my suggestion would be to insure there are enough roads leading away from Tatum and Deer Valley for vehicles to maneuver towards the 101 without impacting the already congested traffic flow on Tatum and Deer Valley.

We should consider bringing in a large super center like Walmart along the 101 in the super block between Tatum and Black Mountain Blvd's. Get the City of Phoenix and the Army Core of Engineers to build functional access roads and lets see how well traffic flows around Desert Ridge. Spread things out a bit, petition for business to build on one of the two corners on the north side of Pinnacle Peak Road.

Leave the corner next to the high school open for **residential** or if you really think businesses deserve to come in an take over that property; like I said before consider those businesses that would help families with their children's education, day care, health services (mental health services), vision and dental care along with considering Veterinarian services.

Look I could write a book on how if think about all this push for growth here in Desert Ridge, but I'm sure in the end people that have the most funding will win. In the past whenever there was a decision made about something that didn't entirely make good sense and I would later bring up my thoughts I was told where were you when during the planning stages and why didn't you speak up then. Well I decided maybe its time I did.

Thanks so much for the opportunity to speak my thought and for listening.

As Ever,

Bill Smith

CITY OF PHOENIX

Planning & Development
Department

Anthony Grande
City of Phoenix Planning and Development Department
Zoning Section
200 W Washington Street, Second Floor
Phoenix AZ 85003

City of Phoenix Planning Case Nos:
Minor General Plan Amendment GPA-DSTV-2-23-2
Specific Plan Amendment GPA-DSTV-3-23-2
Rezone Z-39-23

Dear. Mr. Grande:

This letter is regarding the proposed rezoning of the Parcel **212-38-023B** and the application by Vestar Development to develop it as a C-2 medium intensity commercial property. The current proposals for Minor General Plan and Specific Plan Amendments, as well as Rezoning to C-2 commercial development are out of step with the character of the area and should be rejected.

The intersection of Black Mountain Boulevard and Deer Valley Drive is surrounded by a unique residential area with preserved natural desert spaces and carefully integrated bike and pedestrian paths. It is unlike the majority of Phoenix neighborhoods and honors the physical geography immediately around it. Socially, it is an active, engaged community full of care for the landscape and protective of the safety of people living there. With such a significant change in land use, the proposed zoning amendment and subsequent commercial development would result in considerable new traffic to the subject site, resulting in more traffic congestion, potential car-pedestrian-bike safety conflicts, added emissions, and light and noise pollution.

Further, there are a number of disconnects with the application itself. The developers have attempted to justify their zoning amendment proposal by saying that the nearby Desert Ridge Marketplace experiences traffic congestion and parking issues. This point is unsubstantiated in their application and from a resident's point of view, completely unsupported by the experience of living in the area and regularly visiting the shopping center. There is more than enough (much more!) parking at Desert Ridge and circulation in and around the site runs smoothly. The retail offerings are substantial and do <u>not</u> leave a gap in market offerings that would be improved by adding medium-intensity commercial at Black Mountain Boulevard and Deer Valley Drive.

The conceptual site plan put forth by the developers is also incongruous with their explanation letter. They attempt to claim community benefit from "a reduction in transportation burdens, increased opportunities for exercise and a cleaner environment." However, there is nothing to support their mention of transportation burdens on the residential area surrounding the subject parcel, nor anything in the conceptual site plan to suggest it would be safe for area residents to

walk or bike to the subject site if developed as a commercial property. Further, the explanation letter states that provision has been made for 580 parking spaces (well beyond the code requirement), while the conceptual design includes 533 spaces, which is still more parking than is required by code. This will not create a cleaner environment, as the developers claim, but will create increased emissions in a sensitive area where residents would like to keep emissions to a minimum. Worse still, the conceptual plan calls out opportunity for a fueling center, yet no designated space for electric vehicle charging (which would be far more helpful in the area, given a pronounced lack of public charging). As such, increased emissions will become a core characteristic of this shopping center if built as presented. It would not result in the "connected oasis" the City hopes to achieve, nor the "village" concept the developer is attempting to sell. What it achieves is what Phoenix already sees too much of—islands of unspectacular commercial offerings drowning in a sea of parking.

The subject parcel for proposed rezoning also lies immediately north of Pinnacle High School, which sees students regularly walking and biking to school, but the concept site design does nothing to ensure student and faculty safety or effective circulation around the school. To the contrary, the conceptual site plan shows 3 access/egress points just off Mayo immediately across from the high school with no provision for safe crossing by pedestrians and bicyclists. To put the greatest number of access points to the site directly across the road from the school shows a serious lack of awareness about school zone safety, as does proposing a site plan that does not incorporate effective circulation by pedestrians and bikes (as the surrounding neighborhoods do through extensive trail systems), but to cars. And the related traffic study does nothing to elevate hope for improved traffic circulation or safety. Instead, it reflects lower levels of service on streets that already experience diminished capacity.

While the concept of community commercial may have some potential if explored at a C-1 neighborhood level, the current applications for Minor General Plan Amendment GPA-DSTV-2-23-2, Specific Plan Amendment GPA-DSTV-3-23-2, and Rezone Z-39-23 to C-2 commercial do nothing to improve livability in the area and should be rejected in the interest of public safety, as well as public health.

Thank you for your consideration,

Ellen Kennedy

---

Hello Mr. Grande and Councilman Waring,

I wanted to formally write to you both to express my opposition to Vestar Development's push to rezone the Property known as a portion of Parcel 12.L, within Superblock 12 of the Desert Ridge Specific Plan. My wife and I did a lot of research about the area prior to purchasing and building our home 10 years ago, located at 21618 N 36th Street. I've attached a map with the proposed development layered on it. You can see the yellow star located on the East side of Black Mountain Boulevard showing the location of our house. I have been very vocal at each of the previous two meetings expressing my opposition to this development from happening.

As mentioned, my wife and I did our research prior to building the home we wanted to raise our three boys in. We understood we would have a roadway in our backyard that would create some noise, and that was fine because that meant we wouldn't have another house directly behind our backyard. We love the location, being across the street from Pinnacle High School. One of our boys is currently a sophomore with our other two boys being 8th graders. When they were younger, they could walk the opposite direction to Fireside grade school, so we figured this was a perfect location for our family. If you aren't aware of this yet, Pulte homes sold the West side of 36th Street as premium lots with view fences in our backyard. We all paid extra to have a view of the wash behind our homes. We all paid this knowing that the only thing going in across the street in the future would likely be an exterior block wall of another residential development. That's what the Desert Ridge Specific Plan called for so why would anyone think differently? The news of this commercial development potentially getting built across the street has made every one of these homeowners sick to their stomachs. Talk about a bait and switch!!!!! Pulte probably wouldn't have built these lots as view fences if there was commercial development zoned for directly across the street. Serious question to Mr. Grande - Would the City even sign off on a residential development having view fences directly across the street from a commercial development if it was built after the commercial was already there?

One major concern from the residents of Copper View (36th Street from Mayo to Deer Valley) is the decrease in safety for all our families and our properties due to a commercial development being directly across the street. Shopping centers bring loiterers. Gas Stations are even worse. The increase in homelessness in the Desert Ridge area can't be ignored. If this development happens, this will make Deer Valley a main thoroughfare for these homeless people to walk down between Desert Ridge Marketplace to Black Mountain Village. Nobody wants the potential for this to happen. Several years ago, a group of neighborhood kids found a homeless encampment with mattresses in the wash near Mayo and Black Mountain Boulevard. It was in the storm sewer, under Mayo. We fear more of this will happen if you move forward with this project. None of us with a view fence, just across Black Mountain Boulevard, signed up to live across the street from this sort of development. I enjoy my backyard having a view fence. It makes these tiny yards feel a little larger. Now I will be fearing someone might jump my back fence because they see something they like.

Another major concern that Copper View resident have is light pollution. Nobody wants to live across the street from a lit up commercial development. If Vestar moves forward with plans to include a gas station with this proposal, I would imagine this would be right on the corner, where they have PAD C is shown on the map I included. That will be my new view from my backyard. A lit-up gas station. Can you even begin to imagine how upset we all were when we heard not only are we going to have a commercial development, but also a gas station? Nobody wants a bright gas station directly across the street from them. Every gas station has loiterers. No place attracts more loitering than a gas station. Copper View residents are not interested in having this across the street from us. Not to mention the constant smell of gasoline. Mr. Grande - Would the City sign off on a residential development having view fences directly across the street from a gas station if it was built after the gas station was already there? The argument for needing more gas stations within Desert Ridge is garbage. Replace Jacksons with a Circle K and I'm guessing you'll see a much higher volume of people using that gas station. Nobody uses that place because the prices are too high. I go to either Costco or Circle K on Union Hills because they're cheaper. Most people with half of a brain do the same.

A 20-acre commercial property in a mostly residential area wouldn't just be making a minor tweak to the Desert Ridge Specific Plan (DRSP). This commercial development would be taking the DRSP and completely throwing it out the window. The DRSP called for commercial development within the residential superblocks to be limited to neighborhood convenience commercial centers with a maximum of 3 net acres. During Mr. Anderson's presentation to the Desert Ridge committee, he mentioned there were 6 previous developments that could have included a neighborhood convenience commercial center but decided against adding them. These 18-acres of commercial development not getting added throughout Desert Ridge are being used to justify Vestar developing 20-acres in one location. Just because other developments decided against adding 3-acre neighborhood convenience commercial centers doesn't justify adding them all together and asking to rezone this area just because Vestar thinks it would be a good investment.

Please take into consideration the families that built around this area that thought they were moving close to commercial development, but not directly across the street from it. I know you have been contacted by several other residents expressing their concerns about the traffic impacts and proximity to the high school. I am 100% in agreement with all other concerns you have heard pertaining to these two topics. This development needs to be stopped. It's just not the right fit for this location. There are a growing number of residents that share this sentiment. We will be at the next OCT 3 Desert Village Planning Committee meeting as well as the NOV 2 City of Phoenix Planning Commission meeting to express our opposition.

Thanks,

**Dan Richards**

| **Subject:** | Vestar Development Amendment and Zoning Requests for Superblock 12 in Desert Ridge |
| **Date:** | Wednesday, September 6, 2023 6:01:06 AM |
| **Importance:** | High |

It is indisputable that the area affected by Vestar's proposal already has a traffic problem. The 366-page October 2022 Traffic Impact Analysis commissioned by Vestar acknowledges this existing problem. Please note the following excerpt from that Analysis:

> *The results of the existing conditions analysis indicate that all study intersections operate with acceptable levels of service (LOS D or better) with the exception of the northbound approach at the intersection of Black Mountain Boulevard & Deer Valley Drive and the northbound and southbound left at the intersection of Aviano Way & Deer Valley Drive.*

This same Traffic Impact Analysis also reveals the extent to which Vestar's proposal would exacerbate this existing problem. The Analysis describes this impact as follows:

> *The Black Mountain Village proposes to rezone approximately 16-acres of undeveloped land from existing R-2 (residential) to C-2 (commercial) to consists of approximately 76,200 square feet (SF) of grocery supermarket, 41,500-SF of various commercial shops each under 40,000 SF, and 19,700-SF of fast-food restaurants with drive through window. The proposed developed is located on the southwest corner of Black Mountain Boulevard and Deer Valley Drive in the City of Phoenix, Arizona. The site is planned to provide a total of eight (8) access points, of which five (5) are planned for full movement access and the remaining three (3) are proposed restricted right-in/right-out driveways.*

This Traffic Impact Analysis does not mention that Vestar's proposal also includes a gas station. Moreover, this Traffic Impact Analysis does not analyze the traffic impact of the nearby Garden Communities 882-unit apartment complex currently underway at the northeast corner of Tatum Blvd and Deer Valley. It also does not analyze the impact of the planned development of the 410-acre parcel at the southeastern corner of Deer Valley and 40th Street purchased by Taylor Morrison and Pulte Homes for a 1,200-lot master planned community. Because the west boundary of this parcel directly abuts Mayo Blvd, traffic from this planned community would likely use Mayo Blvd for ingress and egress. Moreover, the vehicular traffic entering and exiting the community would also increase the traffic on 40th Street and Deer Valley.

Vestar's description of its proposal is disingenuous. It describes its proposal as a

"low-impact" commercial development. Their description of the proposed project mentions a "neighborhood grocery store and inline retail opportunities." However, omitted from their description is a gas station that they have acknowledged is part of their plan. Also omitted is the "19,700-SF of fast-food restaurants with drive through window" described in their Traffic Impact Analysis. How can anyone honestly describe grocery stores, gas stations, and fast food restaurants with drive through windows as "low impact" uses? Each of these operations would result in increased vehicular traffic entering the proposed site from all four bordering streets. In addition to the increased private passenger vehicular traffic, other traffic entering and exiting the proposed site would include gas tanker trucks and commercial delivery trucks. This increased traffic would be in addition to the traffic already generated by 2,600 students and their parents entering and exiting the Pinnacle High School parking lots twice daily during the school year. Also not to be overlooked are the evening activities at the school that result in numerous vehicles exiting onto Black Mountain Blvd and Mayo Blvd. Even now there are not enough traffic lanes on Mayo Blvd to efficiently handle the vehicular traffic exiting the high school parking lots.

Pinnacle High School is not the only school affected by Vestar's proposed rezoning request. The Fireside Elementary School, with 775 enrolled students, is only a short block away from Superblock 12. Vestar's rezoning request would also impact the traffic to and from this elementary school.

The Arizona State Land Department agrees with Vestar's C-2 rezoning request because it wants to sell this parcel for the highest possible price. The Land Department's position is understandable. However, in this instance, it represents a grave injustice to those homeowners who purchased their homes (many with their life savings) in this neighborhood. They justifiably believed their homes would never border a commercial development because this area was zoned **Residential**. These homeowners should not have their legitimate expectations sacrificed on an altar of money.

For the foregoing reasons, I respectfully request that Vestar's proposal **not** be approved.

Dear Mr. Grande:

An unidentified party is running a sponsored ad on Facebook directing viewers to an online "petition" for a new grocery store in Desert Ridge. The online petition page can be seen at https://chng.it/6L8mkBrdDq [chng.it] . It identifies the promoter of the petition as "New Grocer". It makes no reference to the ongoing zoning and plan amendment cases. It fails to mention, as Vestar's counsel has publicly admitted on more than one occasion, that Vestar cannot say what kind of grocery might ultimately go in. And needless to say, there is no reference to the 20 acres of drive through junk food and gas station also included in Vestar's conceptual plan for the site right next to the high school.

These deceptive tactics are unworthy of any responsible business. City staff should give no weight whatsoever to the results of this patently misleading petition drive.

Thank you for your attention to this matter.

**Subject:** Desert View Zoning Feedback - Black Mountain Village Project
**Date:** Thursday, September 7, 2023 11:09:28 AM

---

Hello Anthony,

As you and constituents consider the proposed Black Mountain Village Project (GPA-DSTV-2-23-2; GPA DSTV 3-23-2; Z-39-23), I wanted to express my strong opposition to this project. City Planners got this right the first time in the General Plan. Schools, dog parks, walking trails, community soccer fields, and four housing developments adjoin this property. Commercial real estate on this proposed parcel has no place, no real need, and only increases risks.

Living in this community, safety should always be our number one concern as residents. Within four hundred yards of this proposed project, we have two schools, Pinnacle High School and Fireside Elementary, which educate pre-school children under the age of five. Each morning and afternoon families walk their children to these schools from the surrounding homes from the north, south, east, and west. Increasing transient traffic flow, especially off the high-speed HWY 51 into this area, greatly increases risks for residents, especially our younger children. Simply there is no compelling argument for this project and only increased risk.

While traffic studies were completed, the analysis and land schematics fail to demonstrate any reference to Fireside Elementary School which is within four hundred yards of this project. How can we consider no traffic turning Left or Right from or onto Mayo Boulevard. This lack of detail shows severe disregard for our pre-school and elementary age children. In the analysis, they also fail to reference when the study was completed other than November 2022. In November, we have slower traffic patterns based on holidays, people traveling outside of Phoenix to visit family, and winter residents not yet arriving to the area. While the necessary paperwork was completed, beyond the abundance of words in the report where is the holistic detail that considers an elementary school within yards of this project.

In 2022, the Arizona Department of Housing identified shortages of over 270,000 housing units across our state. As Phoenix metro comprises over 2/3rds of our state's population, we require over 175,000 units to meet the needs of the citizens. Rezoning existing housing parcels to commercial property in the heart of a well-established family-friendly community only introduces unnecessary risks. Approving this project will only provide short-term rewards for Vestar and Gammage & Burnham associates not the community.

While developers will make the case for additional services and unsubstantiated benefits to our community, we must consider the abundance of commercial services that are already available in Desert Ridge Marketplace, Vestar project and along Cave Creek Road, and HWY 51 south. In addition, all these commercial properties have clearly defined borders which create increased safety as to not blend housing, schools, parks, and daily life, with commercial development. Within Desert View we have an abundance of services of all commercial types within one mile. Making the argument that driving one mile creates hardship is unsubstantiated, unless data is provided on how many cars each household owns in village. Desert View is not the same as an urban core, such as downtown Phoenix. Lack of concrete detail is consistent throughout the rezoning application, while there is an abundance of words and feelings including 'potentially' and 'we feel' it fails to acknowledge key considerations as I have outlined.

We have an opportunity to put families and our youngest citizens first by **DENYING** this project. Thank you for your thoughtful consideration of the data, facts, and real impact on our community for the long term. I appreciate your support in **DENYING** this rezoning request.

| **Subject:** | Open Letter to the Desert View Village Planning Committee re: REZONING LAND NEAR PINNACLE HS |
| **Date:** | Friday, September 8, 2023 6:47:42 AM |

Dear Anthony Grande, Michelle Santoro, ad the Desert View Village Planning Committee,

I am one of the many **Sky Crossing residents** who found out about the **rezoning of the 20.52 acres on the SW corner of Black Mountain Blvd and Deer Valley Drive** from an article posted on a Facebook group and **not from the City of Phoenix**. I am obviously disappointed that Vestar and the City of Phoenix failed to notify about 95% of the Sky Crossing residents of this potential zoning change that will deeply affect our neighborhood.

**I personally attended the meeting on August 1, 2023** in order to get more information about the potential gas station, grocery store, and restaurants/shops that will affect neighborhood traffic as well as my property value in the near future. My hopes were high as I listened to the presentation by Gammage & Burnham. I was actually in favor of some sort of small commercial property before the meeting.

I waited for details as to the type and size of grocery store, types of restaurants, and of course a solution to the traffic problem that haunts that corner of Desert Ridge, but sadly none of that happened. **It felt like no solutions were given**. Very general information was shared on the slides. No 3D rendering of what it would look like. Will the grocery and gas station lights be on all night? What about the noise from semi trucks dropping off 3 am deliveries at the grocery store? Will the stores blend with the desert landscape like in Fountain Hills or stick out like a sore thumb? Residents were simply left with more questions than answers.

**With this in mind, I am writing to you all to express my opposition to rezoning this land from RESIDENTIAL to COMMERCIAL which would allow for a commercial shopping center.**

I think Sky Crossing residents would be more supportive of a project if it answered the questions above, and somehow solved the traffic mayhem. Perhaps Vestar could have proposed to help the school and the community by building Pinnacle High School a parking garage? **Traffic literally comes to a standstill in the morning hours** and prevents area residents from accessing the Black Canyon Road heading south in order to get on the HWY 51 on-ramp. Apparently because there is not enough parking for students, so parents have to drop their kids off every morning. Which is ridiculous. **If you live in this area, you know about the problem. The high school and the Phoenix Police are well aware of the problem.** This strip center will only add to the traffic issue.

I am but one of the many voices who oppose the rezoning of this land and the potential traffic issues it will cause. **I am asking the members of the Desert View Village Planning Committee to please vote NO when voting for the rezoning of this parcel of land. There are too many unanswered questions.**

Thank you for your time and for reading this. Much appreciation.

Regards,
**Lesley Anderson**

Dear Mr. Grande-

This message is in regards to GPA-DSTV-2-23-2
GPA-DSTV-3-23-3
Z-39-23-2

I live in the neighborhood in Fireside that is directly across Black Mtn from this currently vacant land. While we understood this to be slated as residential, it seems now someone is trying to change that.

While we are not in favor of this changing to commercial, there is a much more pressing issue for this area that should be addressed prior to any development on that land. The drop off/pick up/ and parking for students at PVHS. The current situation there is unsafe and terribly inconvenient. The fact that there is not a sufficient amount of parking for students attending the school has got to be expanded prior to anything else being developed there. The kids crossing this major intersection (Black Mtn & Mayo) to get to their awaiting rides, is a tragedy waiting to happen.

Please consider working with the school district & community before it's too late to address these issues.

And, no thank you to changing the zoning from residential to commercial.

Thank you for your time & consideration!

Jamie Bauschka

Hi Anthony,

I am current resident of desert ridge area and regarding GPA-DSTV- 2-23-2/GPA-DSTV-3-23-2/Z-39-23-2 i don't want Black Mountain Village.

Our homes were built under the Desert Ridge Specific Plan. The plan promised us clean, quiet and safe neighborhoods because commercial activity was placed in the "commercial core". Commercial activity in the "residential superblocks" is strictly limited to minor "conveniences" of no more than 3 acres and drive through operations are prohibited.

I would like to oppose the rezoning of this area.

Thanks
Yatharth

Please consider my vote AGAINST the Black Mountain Village Commercial development sought after by Vestar. My family, including two children, live in Fireside Desert Ridge and plan to stay here for the next 10-20 years, at least.

We would like to keep Fireside and the overall Desert Ridge community, as originally planned - residential.
The lot across from the Pinnacle High School could be made into a community park, perhaps with some additional parking to relieve the already horrific traffic conditions for the schools in the area. We do not need more traffic in the neighborhood or even worse - though it.

Hope our voices carry some value in these determinations.

Hello Anthony,

I am resident in Aviano in Desert Ridge in Phoenix and I wanted to reach out to you about the proposed Black Mountain Village Development that is up for rezoning. Unfortunately I will not be able to be present at the meeting on October 3rd and wanted to reach out on this.

I have lived in Desert Ridge since 2012 and there have been several great changes over the past 10+years including access to the 51 and widening Black Mountain. I strongly feel that the rezoning of this area would be a major mistake for several reasons.

1.) Currently Pinnacle High School has a large amount of traffic that creates a backup onto Black Mountain and sometimes Deer Valley as well which makes this area extremely difficult to get through during the week from 7-8:30am, between 3-5, and also when there are sporting and other events held at the school. Adding this development will bring increased traffic and and chaos for many new drivers that attend the high school and residents and guests of the area.

2.) Parking is a major issue at Pinnacle and students will end up parking in this new development which will create issues with the property manager/owner and tenants as well

3.) As a resident I am all about convenience and the thought of a grocery store and other stores close by my home sounds great initially, but I think there are a lot more negatives than positives for this one and the most important one is the safety of the kids and residents of the area.

Thank you for your help with this and please feel free to contact me with any questions

Hello Anthony,

We are residents of Fireside and parents of Pinnacle High School children. We are strongly opposed to th Black Mountain Village.

When we purchased our home, Fireside was advertised as a clean, quiet, and safe neighborhood oriented towards families with children. It is our understanding that commercial activities within the superblocks adjacent to Fireside are to be limited to minor conveniences of three (3) acres or less. Vestar is proposing a twenty (20) acre shopping center directly adjacent to Pinnacle High School; that, as you know, includes drive thrus (which are also prohibited commercial activities in the superblocks adjacent to Fireside).

Not only is our family concerned about what may become a falsity of how Fireside was advertised when we purchased our home seven (7) years ago, should Vestar succeed with this initiative, we are also concerned about the associated crime, noise, pollution, and traffic that will no doubt plague our residential community. We already have an issue with high-traffic volume that does not respect the posted speed limits near Fireside Elementary School and Pinnacle High School on Mayo Street, as commuters travel to Interstate 51. Vestar's initiative will only heighten this problem, and create a more dangerous situation for our children including the littlest of our children at Fireside Elementary School, who deserve the ability to walk to and from their school safely each day. Although older and presumably more ept, our Pinnacle students deserve the same consideration.

Thank you for your time.

| **From:** | Chintan Patel |
| **To:** | Anthony M Grande |
| **Subject:** | CASE # GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2 |
| **Date:** | Friday, September 8, 2023 8:49:37 PM |

Good evening Mr. Grande:
My name is Dr Chintan Patel and I am a cardiologist at our local, Thompson Peak hospital and resident within the Copper view community in Fireside here at Desert Ridge. I am writing to you in reference to case number GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2, also known as Black mountain village.

I know that you may be receiving numerous letters and petitions against this commercial community. I would like to take the opportunity to waste my concerns and join amongst the ranks of those against this proposed commercial shopping area.

The appeal of Desert Ridge and what makes it a unique location is the sense of community that we all feel and try to bring to the various neighborhoods within the Desert Ridge communities. While we may live a different neighborhoods, much of what unites us is the sense of community and safety that we sought when we first moved here. The glue that tends to bind us all here, like most neighborhoods, is our children. Personally I have two young daughters who attend Fireside elementary who are currently six and five. We moved to this community after talking with neighbors and seeing how happy they were raising their kids from elementary to high school in an area that they felt safe enough to have their kids be independent.

I do understand the financial benefits of a commercial property, but the location that is proposed is already in a high traffic area with his own intrinsic problems because of high school traffic and the on/off ramp to route 51. If the point of the shopping plaza is to serve the needs of the community, and the community has spoken that the current Desert Ridge is sufficient then the only thing this could bring are consequences. People moved to this community the way it was designed with the promise of trying to keep it from being a commercial hotspot. Bringing more homes and more families to create more neighbors only makes us stronger, but bringing in businesses that invite more outside traffic, their own self interests, and the potential negative influences only brings down the reputation of Desert Ridge and instills of distrust in the city of Phoenix and it's social responsibility to it's citizens.

I thank the city of Phoenix and representatives like you for making communities like Desert Ridge available to us and keeping it in its current splendor. All we ask is a mutual sense of trust in us to help continue to grow the community while maintaining its integrity and safety.

I appreciate your time and willingness to hear our voices.

Thank you so much,
Chintan Patel.

I am writing to you regarding the request to rezone in our area 85050 Black Mountain Project.

As a resident and homeowner 17 years in this area - Desert Ridge, I have seen a lot of growth in our area. I want to make sure we DO NOT REZONE THIS AREA TO COMMERCIAL. We are currently inundated with traffic from the 51 and all the traffic from the area who avoid the 51. You should be focusing on community not convenience. Save this are for Pinnacle High School. Every morning my kids walk to school and the amount of traffic is massive and congested. The 51 Black Mountain ramp has also increased the congestion and safety of residents and children who live in this area. DO NOT BE MOTIVATED OR SEDUCED BY THE ARROGANCE OF COMMERCIAL BUSINESS In our community!!!!!

Vote NO!!!!

Mr Grande -

I live across the street from the proposed Back Mountain Village Commercial development in the Desert Ridge area. This is a major issue for my family. Traffic is already crazy. The noise from Deer Valley and Black Mtn is already bad (why isn't there a noise ordinance for Harley Davidsons and tuner automobiles, by the way) and it would just get worse. The high school students next door at Pinnacle don't need this. Go to the Walgreens next to PV High School after classes get out if you want a sample of what goes on. I have two kids there right now and my third will be going there in 3 years. This is supposed to be a residential area and is currently zoned that way. The bait and switch that is going on is unacceptable. I will oppose this every way possible. Please stand up and represent your citizens and keep the peace in a neighborhood that is supposed to remain quiet.

Thanks for your help.

Dear Mr Grande.

We are residents of Sky Crossing and we received notification of the proposed re-zoning at the SW Corner of Black Mountain & Deer Valley roads because we live in close proximity of it. We are opposed to the development and rezoning of this parcel for the following reasons:

1. This project does not fit the neighborhood and it is contradictory to Desert Ridge's original plan for this area to be a low noise, light traffic community. We purchased our home in 2020 with the understanding this parcel would be a residential parcel only. We moved here to get away from the city traffic and noise.
2. The suggested development is not needed in this area because all of these services are available 2 miles in each direction on Tatum blvd and Cave Creek road. Furthermore a gas station and drive thru coffee shop/fast food restaraunt will increase pollution into neighboring communities.
3. Currently PHS turns their lights off at 9pm because of the residential zoning. This provides a quiet serine and tranquil neighborhood for all homeowners. This development would change the entire feel of the neighborhoods which is not at all fair to any homeowner that purchased as described above.
4. With the increasing concerns of rising temperatures, water shortage, high traffic and other issues within the city of Phoenix, it would seem prudent for the city council to preserve open land to insure a better quality of life for it's residents. Our temperature in the area is typically 3-7 degrees lower here than it is at Sky harbor airport where the land has been overdeveloped. We need more trees, bushes and open land and less concrete, blacktop, buildings and traffic. A better use of this land would be a park with walking paths, covered picnic area's and additional parking that could be used for PHS during the week. This would meet the needs of all of these neighborhoods and would alleviate the current problem with people using the private parks in Sky crossing, it would be a win win for everyone.

Thank you for your consideration of these issues above. We hope the city council will find another alternative for this parcel that will be better suited to the neighboring communities than a commercial development.

To All Involved,

I don't want Black Mountain Village at
Deer Valley-Sky Crossing-Black Mountain.
This land is zoned for residential and should remain so. I see no reason to add more commercial businesses to a zoned residential area. It will only bring more, crime, noise, litter, pollution, and traffic nightmares to quiet residential area. This is where very young children through high school ages are in large number playing outdoors in sports and in neighborhoods. This will be monstrosity of various issues. Especially with the exit to Black Mountain-51-101 and intersection of Black Mountain Blvd and Deer Valley. This is easy to predict. Look at the issues of traffic already. Our neighborhoods were built and purchased with this in mind of being residential. We would not have purchased otherwise. It's a promise you are conducting rescinding. To have it be a bait and switch now will only cause more ill will in our communities and with government. Please consider everyone's concerns.

Cordially,
Susan Marshall

| **Date:** | Saturday, September 9, 2023 1:26:50 PM |

Our homes were built under the Desert Ridge Specific Plan. The plan promised us clean, quiet and safe neighborhoods because commercial activity was placed in the "commercial core". Commercial activity in the "residential superblocks" is strictly limited to minor "conveniences" of no more than 3 acres and drive through operations are prohibited.
The land at Deer Valley and Black Mountain is designated residential under the plan. Vestar, the developer of the Desert Ridge Marketplace, now wants to rake in even more money by changing the zoning, and the plan, to put in a 20 acre shopping center right across from Pinnacle High School. They say it will contain drive-through fast food, drive-through coffee, a gas station, a grocery of an unknown name and type, and heaven knows what else.
Many of us are appalled by this bait-and-switch, and worried about the crime, noise, litter, pollution, and traffic nightmares that will come with this monstrosity. And we are taking action.

Sincerely,

Marty Minzer

Anthony Grande
Planner II* Village Planner
City of Phoenix
200 W Washington St
3rd Floor
Phoenix, AZ 85003

Greetings Anthony, I appreciate you taking the time to read my note regarding case number GPA-DSTV-2-23-2 and/or GPA-DSTV-3-23-2 and/or Z-39-23.

My family and I are current residents in the Sky Crossing community, living just northwest of the intersection of Black Mountain Boulevard and Deer Valley Road. We have some concerns about the proposed zoning changes for the parcel at the southwest corner of that intersection.

- We moved to our home in part due to the quiet community surroundings, including the residential neighborhoods of Aviano and Desert Ridge to the east, and Fireside to the southeast. Also, Sky Crossing is bounded by vegetation and city property to the west, the National Memorial Cemetary of Arizona to the north, and the Joni Fitts School of Horsemanship to the northeast.
- The Desert Ridge Specific Plan (in which the parcel in question lies) limits commercial activity in the residential superblocks to no more than 3 acres.
- Pinnacle High School is directly to the south of the proposed zoning change/development.

Our decision to move to this area was predicated on the quiet, residential feel of our neighborhood and surrounding areas. I know that many neighbors in Sky Crossing as well as friends and neighbors in Aviano and Fireside feel the same, and this proposed change to existing zoning conflicts with one of the primary reasons that many families may have selected these neighborhoods.

We find that existing stores and shops (essential and non-essential) as well as medical facilities and outdoor activities are all plentiful within a very reasonable distance (most less than 7 miles) from our existing home. We believe that there are multiple alternative locations in the general vicinity if further development is necessary.

Each morning during the school year, the traffic at the intersection of Deer Valley Road and Black Mountain Boulevard is horrendous. The current combination of Pinnacle High School

traffic coupled with traffic accessing SR-51 southbound from Black Mountain Boulevard creates a backup that can take 15+ minutes to travel less than one mile. This traffic situation will only worsen with any future development north of Pinnacle Peak Road, including the potential extension of Black Mountain Boulevard to connect to I-17/AZ-303 through Sonoran Desert Drive.

Our family is not in support of the proposed zoning changes:

- Adding a retail shopping center will create additional traffic, including commercial trucks and trailers delivering goods at all hours of the day and night.
- Lighting in the parking lots and the stores themselves will shine directly into homes/bedrooms along the north side of Deer Valley Road. The same homes will also have significant noise pollution from the center.
- The addition of a gas station/convenience store will also bring environmental concerns, and even greater light and noise issues.
- Any waivers granted for alcohol purchases in the center would be a significant concern with Pinnacle High School just south of the development.
- Criminal activity, which is currently minimal in our community, will very likely increase with the addition of retail and restaurant businesses directly across the street.
- Traffic at the intersection, already a significant concern each morning during the school year, will be exacerbated with multiple businesses open at that time.

Thank you again Anthony, for reviewing our concerns about the potential zoning changes.

Best regards,
Alan Walstad

Hi Anthony,

Lived here for 10 years and please tell vestar his partners and the global leaders they hang with to all take their equity BS and play the game in some other county. We have enough crazyness on these roads and riffraff pretty much all around us. We get eniugh traffic from the 51 enough from all the highschool and elementary. So forgive me when I say we don't need anymore traffic around these parts. Not to bright of an idea at all. Maybe the partners can build near their homes or kids schools. Or find another globe to pollute. Stop building new and be the globalist equity folks you claim to be.. let me k iw if you need the buildings that need some fixing since global love screams vestar, and investment of international people who should be maybe building in their own countries and stop bringing in shops that cater to worldly people. We are o lay one country and our language is English. Foreign builders should do the climate a favor and fix the the homes already up. We sure as hell don't need another drive through, hell no to a gas station and really another grocery store? No thanks if we were looking for so much crap around us we all would have moved elsewhere! Sick of these investors coming in and messing with something good. Here's a suggestion vestar can take all their ideas and I don't know maybe FIX ALL THE BUILDINGS CLOSED due some bioweapon plandamic! We don't need anymore corners with the crap we see that has all the crap they bring in! Vestar needs to leave it the way it was zoned for! Absolutely no businesses! Save the planet by using all the empty buildings do to all this equity BS! Hell no to the idea! I wasn't born yesterday and please tell vestar to take their global equity and shove it where the son don't shine! They should not be so money hungry to into our neighborhood and bring in businesses they know aren't needed! Plenty around us within a 3 mile radius. HELL NO TO VESTAR THEIR PARTNERS AND THEIR GLOBAL EQUITY BS! The word these globalists and their partners don't like is Equality cause equity is racist! Maybe vestar should go and build something in south phoenix for all the homeless and OUR VETS

Hell no to vestar in this area! Equity bs doesn't work here I've already lived that time of my life . It's equality and if vestar is a foreign entity would rather they go globalize some other suckers! I've seen what these globalists and their equity has done to Greece first hand! Hell no! Fix the buildings that are up and need a gut job remodel! Don't want nothing from vestar or their desert ridge ideas!

No more businesses around 3 schools! No riff raff needed anywhere close to any of these kids! Globalists OUT and the word is EQUALITY.

No to this build.

Hi Anthony,

I am reaching out to you with my concern about the Black Mountain Village proposal at the intersection of Black Mountain Road and Deer Valley. I am a current resident of Desert Ridge in the Fireside community. I kindly request that Case Numbers: GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2 are denied. I have no interest in this property and there is absolutely no need for it. This will only cause significant issues in our community.

I hope you consider the Phoenix residents that will be very negatively affected by this proposal if passed. Thank you for your attention.

Sincerely,
Justin Scott

Hello Anthony,

A topic was brought to my attention re: Black Mountain Village development on the corner of Deer Valley road and Black Mountain freeway. In the communication, it stated a plan to develop the area commercially.

As a resident homeowner in the Desert Ridge Aviano community, I would be opposed to such development. The expression ‘convenience has its costs’ is not a mantra that would garner local resident support.

As you are aware, with the implementation of such comes an impact on the local community. These external, non-controllable influences would add additional burden to the traffic flow, already very challenged with the high school across the street; an esthetic decline of the local neighborhood housing; an invitation to non-resident commuters; and the potential for a parabolic change of public safety in the local community.

I understand business well. The location would embrace a single family residential development, a logical option for the land. This area is a much sought after residential community and the ability to pre-sell any number of residences would be accomplished with little effort.

Albeit one email, this topic was brought to my attention by a host of local homeowners. I look forward to your consideration.

Sincerely,

Robert Donnelli

| **To:** | Anthony M Grande |
| **Subject:** | Opposition to Black Mountain Village (case numbers GPA-DSTV-2-23-2/GPA-DTV-3-23-2/Z39-23-2) |
| **Date:** | Monday, September 11, 2023 9:13:42 AM |

Dear Sir,

This is Praveen Mahadevaiah a resident of Fireside in Desert Ridge, Phoenix. I am writing this email to express our opposition to the proposed Black mountain village with case numbers GPA-DSTV-2-23-2/GPA-DTV-3-23-2/Z39-23-2.

Our homes were built under the Desert ridge specific plan. The plan promised us a clean, quiet and safe neighbourhood because commercial activity was placed in the "commercial core". Commercial activity in the "residential superblocks" is strictly limited to minor "conveniences" of no more than 3 acres and drive through operations are prohibited. The land at deer valley and black mountain is designated residential under the plan, Vestar, the developer of the Desert ridge marketplace, now wants to rake in more money by changing the zoning and the plan, to put in a 20 acre shopping center right across from Pinnacle high school. They say it will contain a drive through fast food, drive through coffee, a gas station and grocery of unknown name and type.

Many of us were baffled by this rezone proposal and worried about the noise, crime, litter and pollution and traffic nightmares. As state route 51 route ends at the Black mountain blvd, there is already a lot of traffic and congestion in this intersection of Deer valley and black mountain, especially during peak hours. With the proposed rezone for a commercial property, this will make matters even worse.

Our house backs up to the black mountain blvd and we are really worried about the rezone proposal and the effect it will have on our beautiful community.

We request you to consider our opposition to this proposed rezone of the residential block and we don't want the black mountain village.

Regards
Praveen

| **To:** | Anthony M Grande |
| **Subject:** | GPA-DSTV-2-23-2 |
| **Date:** | Monday, September 11, 2023 8:46:51 PM |

Dear Anthony,

I am writing today regarding Vestar's proposals (case numbers) GPA-DSTV-2-23-2, GPA DSTV-3-23-2, and Z-39-23. As a resident of Desert Ridge, I oppose Vestar's proposal for rezoning the Southwest Corner of Black Moutain Boulevard and Deer Valley Drive from Residential to Commercial/Retail for several reasons.

First, Desert Ridge is a highly desirable planned ***residential*** community that continues to attract buyers willing to pay a premium for a prime location. Adding commercial/retail mixed-use space in the middle of the community would decrease the desirability of Desert Ridge and lower the values of residential real estate within the community.

Second, the traffic flow within Desert Ridge is already too great for the limited infrastructure within the community. Pinnacle Peak High School is located adjacent to the proposed site. The traffic caused during the morning/afternoon pick up/drop off combined with regular commuting already creates a safety issue on Black Moutain and Deer Valley, with vehicles backed up in every direction. Adding unnecessary commercial/retail space would only increase the traffic and lead to safety issues.

Third, there is no need for mixed commercial/retail space in the middle of single-family homes. The area has more than ample shopping options - Desert Ridge Marketplace, High Street, and shopping off of Cave Creek Rd and the 101 are all within an extremely close distance. Finally, creating a commercial/retail space in the middle of a residential area will bring increased instances of crime, which, when coupled with declining property values, would limit the marketability of Desert Ridge.

Given the detrimental impacts on our home values, marketability, safety, noise/light pollution, and increased traffic without adequate infrastructure, these proposals should be denied. Please do not hesitate to reach out if I can provide any additional information.

Regards,

Yasmin Rivera

| **Subject:** | Black Mountain village - Superblock 12 Oppostion |
| **Date:** | Monday, September 11, 2023 3:24:52 PM |

Mr. Grande and Councilman Waring. Greetings.

As residents of Copperview Neighborhood in Fireside - Desert Ridge, my husband and I are adamantly opposed to the proposed rezoning of the property known as a portion of Parcel 12.L within Superblock 12 of the Desert Ridge Specific Plan. We realize you have probably received many letters expressing such opposition, so I will briefly list our concerns. We moved from northern California about seven years ago to be closer to two of our daughters and their families and have found a pleasant home in Copperview but already see some negative activity and really fear how the proposed Black Mountain Village Project will escalate those negative incidents. Many of the younger families in the neighborhood may have already expressed their opinions, but I feel that we older folk should also have a voice.

We live on E Abraham Lane, just off of Mayo and very close to the Black Mountain/Mayo corner where large numbers of high school students congregate at the lights waiting to cross and cars wait in long lines to either turn left to access AZ 51 or drop off their children in the right lane. We also have long lines of cars on Abraham Lane itself as well as N 36th Street during drop off and pick up times and many cars exceeding the speed limit and/or making U turns. A commercial property on Black Mountain Blvd across from the high school will add more traffic problems to all parts of the Fireside neighborhood, not just Copperview. In addition, the safety of our students going to Pinnacle High School will be adversely affected.

We have watched over the past few years as vandalism and criminal incidents have increased at Desert Ridge Shopping Center. Putting a commercial center right next to a high school is only inviting more of such behavior.

The noise and light pollution will certainly increase and woe to those neighbors whose houses back up to Black Mountain Blvd directly across from the proposed commercial project. In addition, the amount of litter produced will surely spread over into the adjoining neighborhoods.

Of course, there is a master plan for Desert Ridge, and a commercial center next to the high school was not included, for very good reasons. We realize that the land is owned by the Arizona State Land Department and proceeds from the sale of such lands is to benefit the schools, but what better way to benefit Pinnacle High School (as well as the surrounding neighborhoods, including Fireside, Aviano, and Sky Crossing) than to provide additional student parking and/or a well designed drop off/ pick up area which would alleviate and not add to current traffic problems.

If you truly feel in your heart the need to vote for rezoning, despite the very logical and well researched objections, my husband and I hope that you will fight to incorporate absolute requirements, such as including community resources (a library and funding for it would be a fantastic addition!), covered parking with solar panels to reduce electricity needs, location requirements that reduce traffic problems and light pollution, prohibiting any gas station or any all night business, to mention just a few ideas.

I hope that you will truly take the concern of your fellow citizens to heart and not just rubber stamp the rezoning request in order to replenish the city or the school districts coffers. While we may be only a small neighborhood compared to the number of people living in Phoenix, we should be respected for our opinions and needs. Please realize the adding a commercial center right next to the school and directly across from a residential area does not meet OUR needs and certainly does not show any respect for us.

Sincerely,

Susan Ze

To Whom it May Concern,

We are new residents are Fireside with 3 small children, two of which attend Fireside Elementary School. We bought our home under the pretenses that we were raising our family in a safe, quiet neighborhood and that the land around us had VERY MINIMAL commercial zoning.

This suggested rezoning is going to have such a great impact on our community, our safety, and our already overwhelmed streets. Especially Mayo, which we walk along every day to bring our kids to school. Mayo is a complete nightmare during school dropoff and pickup hours already.

Furthermore, the threat of a gas station, or drive through will bring fumes, loitering and crime to our community.

I am STRONGLY OPPOSED to this rezoning and I feel that I was sold a lie when I bought my house. Our children and our community deserve better than this.

Eliza Bozzelli

**Subject:** Vestar Rezoning Proposal for SW Corner of Deer Valley and Black Mountain Blvd.
**Date:** Tuesday, September 12, 2023 11:58:46 AM

---

Hello Mr. Grande,

I have recently learned of the Vestar development proposal to rezone and commercially develop the land parcel on the SW corner of Deer Valley and Black Mountain Blvd. This is addressed in case no. GPA-DSTV-3-23-2 and Z-39-23.
As a resident of the Sky Crossing community, on the north side of Deer Valley, I oppose this rezoning proposal. It threatens our quality of life for the following reasons:
- The proposed commercial businesses will add additional automobile traffic, which will increase air and noise polution.
- The increased automobile traffic, just feet from Pinacle High School, will also threaten the safety of these students as motorists continuously drive in and out of this complex. As parents of a young child who will eventually attend this high school, we are very concerned about this impact.
- These businesses will add to light polution. The Sky Crossing HOA residential rules have deliberately restricted lighting on housing in order to preserve our views of the night sky. Our residents have enjoyed dark nights with full views of the stars. Bright lights from all-night businesses will impact the tranquility we have worked hard to achieve.

We moved to the Sky Crossing neighborhood in order to enjoy the relative piece and quiet afforded by this sparse residential area in northern Phoenix. The parcel on the SW corner of Deer Valley and Black Mountain Blvd., as originally zoned, is consistent with this goal, intended as a residential community. I am asking that you reject the Vestar development proposal and keep this land parcel zoned as residential for the benefit of the surrounding community.

Thank you for your attention to this matter.

In reference to Cases:
GPA-DSTV-2-23-2
GPA-DSTV-3-23-2
Z-39-23

Hi Anthony,

I just ended a community meeting with the representatives from Vestar (Gammage & Burnham) and my local community where the conceptual plan for black mountain village was discussed. I have to say I am deeply disappointed with this proposal, that includes a request for amending the districting of the land from residential to commercial and the build out of a 20 acre shopping center. From the call itself, many other community members were equally disappointed and voiced their concerns.

I've read through the plan and the commentary as provided by the representatives of this build out, that includes notes such as that this is to the benefit of the community in limiting drive time and is intended to cater to the local area residents. I am a local resident and my current shopping drive time is 5 minutes to the desert ridge shopping center. I do not agree that bringing traffic, crime, pollution, litter, noise, and light are worth the benefit of saving me 5 minutes of drive time to do my regular shopping.

I originally purchased my home in the sky crossing community as a part of the desert ridge specific plan, with the understanding that commercial placements would stay near the commercial core of the desert ridge area. Should the concept be built, it is difficult to say that the city did not intend to lure high income residents such as myself into the community with intention to later change the zoning to benefit builders and local revenues over the safety and peace of mind of it's residents. The city planners believed that this location would best serve the community as residential zoning as per the Desert Ridge Specific Plan 6-44 under section 'Superblock 12'.

It is inarguable that commercial districts bring new types of crime to residential communities. It is inarguable that commercial districts bring more traffic to local communities. The benefit of building this shopping center, right next to current homes and a large high-school, must outweigh the traffic, safety concerns, pollution, and noise that such a district would bring. Since as written by representatives of the build that this shopping center would be to our benefit, I fail to see what benefit that is that outweighs the safety of our local students and peace of mind of residents of the local communities. When asked during tonight's phone call about prioritizing pedestrian bridges for students and locals, the answers were that the associated costs were prohibitive, likely indicating that the priority is not on benefit of residents, but on revenue. Perhaps you can share the value-add that outweighs the risks of commercial traffic near a school zone?

Should this build go through, my wife and I will likely leave the community. I've personally experienced commercial districts being built next to otherwise quiet, residential locales, and have heard the song and dance of attorneys who have promised minimal impacts and benefits

to the community. This was intended to be our forever home, and should we have to contend with the risk of a large shopping center such as this one and the risks that shopping centers bring, we will find ourselves residents of a new community and will encourage the multitude of other community members who are equally disappointed to leave as well.

I ask that commercial districting stay within the current confines of existing commercial districts, that we refrain from re-zoning residential districts to commercial districts found in the desert ridge specific plan, and that the land we use keeps as planned by the original authors of the desert ridge specific plan, unless and as agreed to, by residents of the community, not builders seeking profit.

Thank you for your time and your consideration,
Josh

Hi Anthony,
As a 17 year resident of Aviano and living near deer valley I vehemently oppose the rezoning of The parcel of land near pinnacle high school. I have had 3 kids go thru that school. The traffic is horrendous, the lure of a gas station to buy tobacco and alcohol and generally hang out will be a detrimental to the kids and our nice quite pocket away from all shopping and industry will be depleted. I feel, as a real estate agent that this will lower property values and become a beacon for crime near our homes. Please reconsider. We will all be there at the October meeting. Thank you
Debbie Miller

Hello Mr. Grande,

My name is Christine Taylor Morgan and I am a resident of Scarlet Ridge in the Fireside subdivision in Desert Ridge.

Over recent months I have become aware of the recent efforts by Vestar to rezone land nearby my home to create a large shopping complex. I just want to add my deep concern and opposition to such a development. I bought my house in 2011 and was comforted by the lack of commercial development nearby. Desert Ridge shopping center is close enough (only a few blocks away!) for all my shopping needs and Costco gas station is not far either and much cheaper alternative to Jacksons. I worry about the increased traffic off the 51 and on Mayo (interfering with my exiting my neighborhood), the danger to schoolchildren walking back and forth from school, the crime and loitering that will inevitably follow, the negative impact this will have on the health and safety of Pinnacle High School students, the increased light pollution and car exhaust pollution, and yes, sadly, the increase in homeless near my home. My house backs up to a wash near Black Mountain Blvd and I can foresee a future where homeless could possibly make an encampment behind my house. It makes me feel like I may need to move for my own peace of mind and safety. Honestly, I was hoping that a portion of the empty land in front of Pinnacle High School would have been turned into a parking lot for the students or parents for pick-up and drop-off. It is absolutely chaotic around the area for drop-offs and pick-ups. But of course, there is no profit in that.

I feel this development is completely unnecessary and would like to add my name to those who are vehemently opposed to it. Thank you for your consideration and involvement in this matter.

Regards,

C. Taylor Morgan

Re: cases GPA-DSTV-2-23-2/GPA-DSTV-3-23-2/Z-39-23-2

To whom It May Concern:
I want to register my strong opposition to the proposed Black Mountain Village at Deer Valley and Black Mountain. As residents we chose to live in Fireside at Desert Ridge for a clean, quiet and safe neighborhood which was built under the Desert Ridge Specific Plan. To rezone for Vestar's commercial purposes is a complete betrayal to this community. Furthermore, this would drastically increase the traffic around the high school area and potentially put the kids at risk for traffic accidents and crime. Please DO NOT allow the zoning to be changed.

Hello
You may not live in the area, but this is a super bad idea. The location is in the middle of neighborhoods. Nobody wants the traffic or the noise this would create. We have desert ridge around the corner and cave creek rd. Both of have plenty of gas stations and food options. Please do not consider this ludicrous idea. Its not an added value location, it would be a community disrupter.
Thank you

I am writing to inform you that I am extremely opposed to the Vestar plan to change the zoning from residential to commercial at Deer Valley and Black Mountain Boulevard. There is already a major traffic issue on that corner, children walk through that area and I am concerned that this will become an extreme hazard for them. Additionally, it does not fit within the desert ridge master plan, and will create chaos for homeowners across the street. We specifically moved to this area to avoid heavy commercial areas.

Thank you for your consideration, Cynthia Bennette

Anthony
I received the email talking about the rezoning of the area off of Deer Valley/Black Mountain putting in grocery store, gas station, coffee shop etc.
I am opposed to this . Traffic in that area is always congested and busy with the high school.
We have plenty of stores and gas station at Desert Ridge
Is there a petition that I need to fill out?
Thank you
Diane

Please do not approve the Vestar requested rezoning for Deer Valley and Black Mountain rd. We already have too many cars and population clogging Tatum and Cave Creek roads and now they want to do that next to the high school. This will also cause more danger for our young youth around the high school and clog up that area. Please oppose.

**Date:** Wednesday, September 13, 2023 6:59:25 PM

---

Hi Anthony

I am OPPOSED TO REZONING the residential area off Mayo and Black Mountain Blvd.

I have living in AZ my entire life. Up the street in Aviano community from Pinnacle High School now for about 12 years. We opposed the freeway outlet onto BLack Mountian Blvd when it is being proposed due to the high school and the ineffective bridge that was built over Black Mountain Boulevard. Every day I watch highschoolers cut across the lanes near the roundabout versus using the pedestrian bridge. That bridge was a huge waste of money as the kids who live across the street do not use it. Duh teenagers many will find path of learnt resistance/ effort. so this was a huge waste of our tax dollars and money and makes it very dangerous for the kids. So not good planning there. Another negative is the traffic at PHS during rush hour traffic. Great planning to clog up the very narrow street and bring 2k+ kids to school during rush hour and adjacent to the freeway entrance. An entrance could have been built near a less busy entrance or on the west side of the school or off 40th street where there is no school.

I guess what I am saying is there seems to be little thought on what happens after things are built out and how it actually impacts the folks who use it everyday. Safety in this first example was and IS huge concern.

The principal at PHS opposes the rezoning. Many residents in nearby neighborhood and families that attend PHS oppose the rezoning. The high school has very limited parking and should be expanded to allow for the increase volume of students that attend the school. The school grows more every year. I guess if this becomes commercial where do you think all the sophomores will be parking or the kids who cannot get permits to park on campus?

I feel like Arizona for so long been inept at planning what is proper for communities, families etc. I am good with not needing a grocery store two blocks from my home. There is a ton of WOS off 40th street for development and seems more appropriate. Rezoning to commercial will be an absolute headache for the school, parking, anyone trying to use business in the proposed area. If you have not please drive though the area on a busy school morning and tell me how you feel. Or maybe attend an event at the high school. The parents who attend the school for event have to park in the fields off Mayo as there is just not enough space. I think if any change is to come it should be parking.

I am opposed to the businesses to be clear. Fast food etc is the wrong thing to put in. This will make community unhealthy, have too many More kids crossing BMB and very busy Deer Valley from neighborhoods across the way. No control of pedestrian traffic, even if you try to they are kids and may not abide. The heavily populated (family friendly)neighborhoods do not need these businesses in their vicinity as there are plenty around and better if you have to seek it out to ruin your health. Any entrance for business would be dangerous off Mayo or BMB… Further down deer valley would be better, but not at or near the corner or DV and BMB or mayo and BMB. There is just so many kids out walking and I don't think adding any congestion or entrance for business make sense.

I think desert, some parking for that area make the most sense for the community. Please help our community this time to make the right decision and hold safety, what is logical for the community, growth of the highschool at the forefront vs profits.

Thank you for your time and attention. I am OPPOSED TO REZONING TO COMMERCIAL.

I am writing to express my very strong opposition to the proposed development and rezoning of the land from residential to commercial at the Southwest Corner of Deer Valley and Black Mountain by Vestar Development Group. The conversion of this residential area into a commercial zone would have severe consequences, detrimental implications, and potentially devastating impacts on both the environment and the community. I implore you to reconsider this decision and prioritize the well-being of the city, its residents, and its natural surroundings.

The City of Phoenix has outlined a comprehensive sustainability plan for the year 2050, with clear guidelines for responsible development that considers the efficient usage of resources, including water. One crucial aspect of this plan is the expansion of parks, preserves, and open spaces, ensuring that all residents are within a five-minute walk of such spaces, but those spaces must be sustainable or else the whole point of having a commercial center within walking distance is null. Furthermore, the goal of reducing urban heat-island effects through green infrastructure and increasing tree and shade canopy coverage is paramount.

However, the proposed development contradicts these essential sustainability goals. Converting the area into a car-centric commercial zone would undoubtedly lead to increased traffic congestion, resulting in higher CO2 emissions. The associated light and noise pollution would disrupt the delicate balance of the ecosystem and erode the serene character of the Sonoran Desert environment, its flora and fauna, and its natural aesthetic.

I urge you to consider the broader impact of this development on the city's future. Will it be in line with the City of Phoenix's sustainability regulations, ensuring that the structures incorporate features such as vertical gardens and agricultural areas on their roofs? Will there be proper infrastructure in place, including ample bicycle racks, substantial green spaces covering over 80% of the area, and designs that prioritize pedestrian and micromobility traffic over internal combustion engine vehicles? Specifically, bicycle lanes which are physically protected by a barrier to protect cyclists from traffic?

The City of Phoenix has shown a commitment to reducing air pollution and safeguarding public health through various programs and initiatives. However, this development project poses a significant threat by potentially increasing the emission of Volatile Organic Compounds (VOCs), negatively impacting the environment, ecosystem, and the health of the community.

The City of Phoenix states, “The City of Phoenix is strongly committed to reducing air pollution and protecting public health. The city implements a wide range of air quality programs to reduce ozone and particulate pollution (dust and smoke). Transit, light rail, bikeways, and pedestrian-friendly development reduce vehicle emissions and promote land use planning and urban designs for a more sustainable environment”. How will this development protect public health when in fact, it will introduce vulnerabilities witthin the community? It will actively degrade and destroy the health of the surrounding community and communities.

Equally concerning is the potential destruction of native plants in the area due to this development. The loss of biodiversity and destruction of the Sonoran Desert's unique ecosystem cannot be taken lightly.

The Environmental Protection Agency asserts that that, “Volatile organic compounds (VOC) means any compound of carbon, excluding carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates, and ammonium carbonate, which participates in atmospheric photochemical reactions”. These harmful chemicals would be released into our atmosphere if the proposed development is approved. We must oppose and condemn this egregious use of building authority with passion for the future of the City of Phoenix, and on a more global scale,

the Earth itself.

In light of these concerns, I wholeheartedly disagree and very strongly oppose the Vestar Development Group's plans for the Southwest Corner of Deer Valley and Black Mountain. I urge you to immediately stop and immediately halt all current and future development plans and instead prioritize the city's sustainability goals, community well-being, and the preservation of the natural environment. By doing so, you can help shape a better future for the City of Phoenix and its residents.

Thank you for your attention to this matter.

**Subject:** rezoning on Black Mountain Blvd and Mayo Blvd
**Date:** Wednesday, September 13, 2023 2:36:11 PM

---

Mr. Grande,

My daughter attended Fireside, currently attends Mountain Trail Middle School and will most likely go to Pinnacle HS next year. I am extremely opposed to rezoning the SW Corner of Black Mountain Blvd and Mayo Blvd into a commercial area.

This was intended to be a residential area not a commercial area.

People purchased their homes with the understanding they were in a residential neighborhood. Allowing a developer to come in a rezone for the developers financial benefit is a slap the neighbors face.

Neither Black Mountain Blvd nor Mayo were intended to be major commercial thorough fairs and there are plenty of businesses within 1 to 3 miles that provide these proposed services. Those areas are in commercially zoned areas and are major roads.

There are 5000+ students at this school. The area is congested enough during school drop off and pick up hours and adding more congestion to the area will create an even bigger risk of accidents especially with student pedestrians and new drivers. We currently have a jaywalking problem at that very intersection twice a day. Along with many cars parking along the road for student pickup.

Rezoning the area to commercial appears to be a ploy for businesses to target students who are still learning to manage impulse control and money management. In addition, it increases the opportunities for student truancy, loitering, littering, purchasing questionable products such as vapes/alcohol they can easily hide and take directly into school.

Because the businesses will be overwhelmed with students and students will try to park their to attend school rather than the school parking lot, I suspect many signs will be posted ... "customer parking only", no loitering, only "3 students the store at a time", "cars will be towed after two hours", "no student drop off/pickup". They might even have to higher a security service to prevent these activities creating a negative environment at the business center and the neighborhood.

Based on on those items I believe commercial area will not benefit the neighborhood but make it more stressful and unhappy to access.

Please ask yourself, would you want stores and a gas station to be built right next to your home or to your child's school? Its one thing to choose a place where that already exists, its quite another for someone to change the rules after you have already purchased your home and established your family.

Thank you for your attention in this matter.

Hi Anthony,
I'd like to voice my concerns about having such a large commercial development so close to the high school. I know that this area is underserved with things like grocery stores, but I have some safety concerns. I'm concerned for a few of these reasons:

1. It will bring a bus stop to the area right outside the high school. Possibly opening it up to panhandlers and homeless individuals that we have seen on the rise in Desert Ridge. Posing safety risks to those who walk to and from school.

2. The traffic is already very bad in that area, and will likely cause more congestion and traffic.

3. Loitering after school by the high school kids, causing safety concerns, also kids from the high school parking in the shopping parking lots.

4. Noise and light pollution for those homes surrounding this area that has been proposed.

Thank you for your time and consideration in this matter.

| **Subject:** | Opposition to Applications to Amend the General Plan and Zoning Ordinance for Desert Ridge |
| **Date:** | Wednesday, September 13, 2023 9:45:37 AM |

As you are aware, there are pending City of Phoenix Planning and Development Department applications (GPA-DSTV-3-23-2 and Z-39-23), to amend the Desert Ridge Master Plan and zoning ordinance to allow building a commercial shopping center in the middle of our residential community! This level of over-development needs to stop NOW, and I request your support to deny this change. Vestar is not interested in the quality of life in our community. This commercial center would transform the neighborhood to absorb increased traffic, noise, lighting, pollution, and even crime. What possible benefit can another neighborhood retail grocery store, gas station or restaurant add to the abundance of retail shopping and dining at the Desert Ridge Mall and surrounding areas?
Instead, I would ask that you consider developing this 20.5 acre site owned by the people of Arizona (through the Arizona State Land Department) by planting trees and green landscaping for the use and pleasure of your District 2 voters and their children rather than the profits for the Vestar investors!
Sincerely,
Eugene F. Montgomery, PE

Re: GPA-DSTV-2-23-2/GPA-DSTV-3-23-2
Project located at the corner of Deer Valley Road and Black Mountain

Please do not move forward with this re-zoning. We want to keep this area commercial free as was originally planned and sold to us. There are commercial areas only a few blocks west on Tatum Blvd and a few blocks east on Cave Creek - we do not need additional commercially designated zones with ones already so close.
There is already too much congestion at that same corner during the mornings and afternoons due to the adjacent school and this will not only make it worse but also more dangerous for these students and for the neighboring residents.

Thank you for your time and attention, Camille Nassif

Hello Mr. Grande and councilman Waring,

I wanted to bring this to your attention that people in the Desert Ridge area have paid ads popping up on their Facebook page requesting people to sign their petition in support of the Vestar's Black Mountain Village Devlopement. If this advertisement is sponsored by Gammage and Burnham, is this even legal? This advertisement is very misleading, in a matter that could sway the outcome of the legal representation that they're providing to Vestar.

A major concern residents that live around this development have is that there is no way of knowing what is being considered as part of this development. Once this is approved to be rezoned, Vestar can do whatever they want with this land. The survey at the bottom of this page asks people to take a survey of which grocery store people would like to see in this development. Below are the options that people can choose from:

- Trader Joe's = Between 10,000 and 15,000 square feet
- Sprouts = 28,500 square feet
- Whole Foods = Between 21,000 - 38,000 square feet
- Safeway = 46,000 square feet
- Fry's = Between 80,000-105,000 square feet

I would say there's a massive difference between the stores they are discussing in that online survey. We need to know if they are discussing something smaller like a Trader Joe's or something massive like a Fry's. There is a huge difference between these. There is no sense of connection or community if you're planning on adding a Fry's to this development. This is also not catering to just the Desert Ridge community. Take a couple minutes to jump on the Nextdoor website/app and you'll see an incredible amount of people who live south of the 101 excited to see this development. This would allow them to stay off the 101 and just exit directly off the 51, onto Black Mountain Boulevard. This is not at all what Vestar is trying to promote with this project! They're promoting a sense of community and providing convenience for grocery stores and gas stations to Desert Ridge residents.

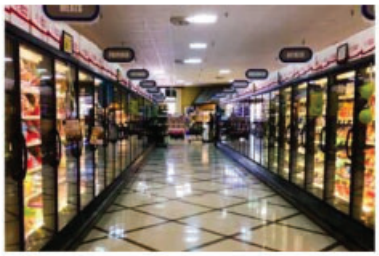
If you open up google and type in GAS STATION you will find that there are **11 gas stations within 3 miles of this intersection**. Additionally, within **3 miles of this intersection you have a Costco, Fry's, Albertsons, and Target**. I can't easily count the number of restaurants in that 3 mile range, but you have over a 20 alone near Desert Ridge and including High Street. There is absolutely no reason Vestar should be even considering a gas station at this location. The families that built either directly across the street, or very close to this development, are being punished for no reason. We were told that this is a residential superblock. The families that built in this area did so knowing that they would have a safe, quiet, area for their children to grow up around. This is not what I want directly across the street from my young family. Fireside residents, Sky Crossing resident, as well as the Estate at Ridgeview are uniting and we need to know we are being heard. This development can not just be a formality, because of the auction price is too lucrative.

I sincerely hope you take my concerns into consideration when deciding the fate of this rezoning vote. I look forward to speaking with both or you, in person, at the remaining council meetings.

Thanks,
Dan Richards
21618 N 36th Street

# BRING A NEW GROCER TO DESERT RIDGE

A neighborhood grocery-anchored shopping center near Deer Valley Road and Black Mountain Blvd. would **provide us with convenient access to fresh and affordable food options**. As we continue to grow and evolve as a community, having a neighborhood shopping center will not only contribute to our convenience but also provide alternative local dining options and reduce the need to travel longer distances to fulfill our grocery needs.



**IF YOU AGREE, PLEASE SIGN OUR PETITION »**

This is the last chance our community has for the development of a convenient neighborhood grocery-anchored shopping center that will bring numerous benefits to our neighborhood and enhance the quality of life for all residents.

Additionally, a shopping center of this nature can serve as a hub for social interaction, creating a sense of place and fostering a stronger sense of community. It can become a gathering spot for neighbors to meet, interact, and support local businesses. **This sense of connection and interaction can contribute to a more vibrant and tightly knit neighborhood.**

A well-planned and community-oriented development of this kind can add significant value to our neighborhood without compromising its unique character.

**Please consider supporting the development of a neighborhood grocery-anchored shopping center.**

**PLEASE SIGN OUR PETITION HERE »**

**Subject:** Oppose rezoning on Black Mountain
**Date:** Wednesday, September 13, 2023 8:01:34 AM

---

To whom it may concern:
I strongly opposed the development of property at Deer Valley and Black Mountain. The traffic in this area is already unmanageable and adding commercial property is only going to exacerbate this issue. It already takes an extraordinary amount of time to get children to and from Pinnacle High School. And yes, we live in district for that school. It will also create a safety hazard for students walking to and from school from the surrounding neighborhoods. There is already a shortage of parking at the school- this parcel is used for special event parking when the lot is full (football, etc.). This could lead to overflow parking now occurring in the nearby neighborhoods.

Desert Ridge Marketplace is 3 miles from this location and has everything anyone could need so the development of this small parcel in the middle of a neighborhood right next to a school (also increasing the risk of crime) is completely unnecessary. It should remained zoned for residential.

Thank you,
Joanna Stockford

As a long time resident of this area I oppose the reZoning petition by Vestar to move the Deer Valley/Black Canyon freeway at Pinnacle peak from residential to commercial- this area has been over saturated with expansion and the particular location will encroach in an area near a high school that already sees and influx of young drivers, pedestrian and vehicular traffic.
Please support the constituency and not big business. Put your efforts towards getting bonds approved to construct a much needed new high school in the Norterra area for an already over burdened system.

We absolutely oppose the rezoning on Black Mountain Blvd for a grocery store, a gas station, either/and/or a chic fil a, chipotle, dutch bros, etc. on that little corner of space next to Pinnacle High School.

PLEASE DON'T ALLOW THIS TO HAPPEN! A gas station would be a disaster!

Thank you,
Sharon

Hi Anthony ,

I live is SkyCrossing .
I would like to voice my opinion in this redone at black Mnt and deer Valley.

This does not seem like a good fit right next to a high school.
And it very close to the residential areas.
We all wish this would stay Residential land.
I do think this could devalue our home.
Thank you for your time .

Subject: Strong opposition to the proposed rezoning in Desert Ridge
To: <council.district.2@phoenix.gov>, <Anthony.Grande@phoenix.gov>

Mr. Grande and Mr. Waring,

I am a resident of Desert Ridge and a father of three young children. Our family moved here this year for the distinct purpose of enjoying a quiet, safe neighborhood for our kids to grow up in. I am very upset to learn that the land on Black Mountain is being considered for rezoning as we already have so much traffic on our overwhelmed streets. Furthermore, we have two schools filled with children within a block of each other that is very burdensome to Black Mountain and Mayo.

Bringing in commercial development will further burden our streets, increase noise and pollution, lower property values, raise safety issues, and put more of our neighborhood at further risk of to commercial rezoning. I am strongly against this proposal, we moved here specifically to escape this type of living.

Respectfully,
Mike Bozzelli

| **Subject:** | Proposed rezoning on Black Mountain Blvd & Deer Valley Road |
| **Date:** | Friday, September 15, 2023 2:27:19 PM |

Good afternoon Mr. Grande,

As a long time Phoenix resident and taxpayer, it has come to my attention that there is a proposal to rezone the area of southwest Black Mountain Blvd and Deer Valley Road on the plot of land that is shared with Pinnacle High School.

Even with the widening of Deer Valley Road, the traffic in this area has grown exponentially over the last four years with the addition of a thousand new homes. The traffic at Pinnacle High School any given time of day, but especially during the morning drop off and afternoon pick up, creates gridlock. The Friday night football games, with the shortage of parking spaces, creates a foot and vehicle traffic nightmare with attendees parking wherever there is a spot on and off campus, and having to walk in the dark to and from their cars presents a danger.

Considering a rezone on this corner to add a commercial element that serves food and/or gas, whose only purpose is to serve the developers, would not only be careless and irresponsible from a safety standpoint, but inherently negligent at any number of possible detriments to our neighbors.

Your taxpayers in this area are vehemently opposed to this idea. I hope that you and your fellow city planners as well as the city council make the right decision.

Thank you for your consideration.

Dear Mr. Grande,

I am reaching out as a worried resident at Fireside Desert Ridge, deeply concerned about the safety of the students and the families of those who are attending Fireside Elementary and Pinnacle High School. The rezoning proposed in cases GPA-DSTV-2-23-2, GPA-DSTV-3-23-2, and Z-39-23-2 will severely increase traffic in our quiet community.

Every day, we see numerous students walking and bicycling to school, a sight that warms our hearts and speaks of a safe, close-knit community. Introducing a commercial hub will put these innocent lives at risk, disrupting the safety and tranquility that currently envelopes our neighborhood.

I urge you to consider the peace of mind of countless parents and guardians, and reject this rezoning proposal. Let's keep our neighborhood safe and conducive for our children's growth.

Thank you for your consideration.

Regards,
Jia Zeng

Dear Mr Grande,
I am a resident of the Fireside Community and I am concerned about the potential action to change the zoning at Black Mountain and Deer Valley from residential to commercial. Most importantly is the proximity to Pinnacle High School. Looking at high schools in both Paradise Valley & Scottsdale school districts most of them, if not all, are set within the community, surrounded by homes, parks, churches and other schools. This provides easy, safer accessibility and safety for students and families within the community, and it is how the community was designed. Changing to a commercial development at that particular location is not a wise functional or safety decision for our community. I hope we can have your support to maintain the residential zoning as designed.
Respectfully,
Mary Burrell

To All Concerned With This Issue:

Unless you have personally been involved with transporting students to and from Pinnacle High School, as I have for the last three years, you cannot appreciate the traffic challenges that occur on a daily basis. Much like a horse race, vehicles jockey for the best position to beat the clock. We have vehicles traveling east and west on Mayo Blvd. We have vehicles traveling north and south on Black Mountain Blvd. We have vehicles traveling north and south on 34th Street. We even have vehicles from both directions turning onto Black Mountain Blvd from Deer Valley. All converge at the major intersection of Black Mountain Blvd and Mayo Blvd directly in front of the high school. Then, as each vehicle maneuvers into the correct lane for left turns, right turns, U-turns, and even the occasional illegal turn, the students gather en masse in the middle of the intersection, awaiting the signal to cross. The old adage that there is safety in numbers definitely applies here. But even under the best of conditions, some students can be seen darting across traffic, crossing against the light, and jaywalking. Add to that a plethora of parents anxious to get their students to school on time, inexperienced student drivers, and the crush of daily traffic --- and you have nothing less than a recipe for disaster.

With the high school located at the intersection of Black Mountain and Mayo Boulevards and with the never-ending vehicular traffic at that intersection, we will always have traffic congestion at this location. However, we can definitely avoid compounding these already existing traffic issues by prohibiting commercial developments in this area. Vestar's proposal promises round-the-clock businesses with round-the-clock traffic. If Vestar’s proposal were to be approved, the result would be nothing less than a first-class disaster.

Please DO NOT approve Vestar's proposal.

| **Subject:** | Re: Vestar Rezoning Proposal for SW Corner of Deer Valley and Black Mountain Blvd. |
| **Date:** | Monday, September 18, 2023 9:35:30 PM |

Hello Mr. Grande,

Last Tuesday, I had the chance to attend a briefing from Gammage & Burnham, Attorneys at Law, representing Vestar in the proposal to commercially develop the southwest corner of Black Mountain Boulevard and Deer Vally Road. The speaker was able to partially address *some* of the concerns I raised previously, but many issues remain.

Some of the points he made are below:

- **There are too few grocery stores in the area.**
  Albertson's, Costco, and Fry's are all less than a 10-minute drive from the communities surrounding this parcel. More importantly, everyone in these communities has cars and deliberately chose to live here, happily accepting the distance from their homes to the local grocery stores.

- **Any gas station must be associated with the grocery store and will not include a convenience store.**
  While this is somewhat helpful, standalone gas stations can attract aggressive driving and crime. In addition, there is no guarantee that these rules will be in place in the future. Once the infrastructure is availabie, a change to the rules (just as this zoning change was proposed) is possible with the potential to allow a standalone gas station (including an attached convenience store) to be put in its place.

- **Some of the business will have limited hours.**
  It was not clear which businesses, if not all, this curfew would apply to and the specific time of this curfew. Similar to my concerns about the gas station, all-night businesses can attract aggressive driving and crime, and add to light pollution. Also, similar to my concerns for the proposed gas station, curfews can be repealed. The only way to prevent this is to not build the infrastructure in the first place.

- **A traffic study was performed to mitigate traffic impact. Also, they expect only local community members to frequent these businesses.**
  There is nothing to prevent more cars, coming from outside the immediate area, from driving to these businesses and adding to traffic.

- **These business will increase the walkability score for the immediate neigborhood and add health benefits as they encourage more walking.**
  This seems to be an unlikely outcome since the city of Phoenix, especially the suburbs, is very much a vehicle-oriented culture. In addition, it is too hot for several months out of the year to walk. (In my own community of Sky Crossing,

most people drive to the community center even when many of them live less than half a mile away.)

I hope you will consider these concerns that are shared by many of my neighbors around re-zoning this parcel to be commercial. I encourage you to oppose it.
Thank you!

**Subject:** Vestar Rezoning Proposal for SW Corner of Deer Valley and Black Mountain Blvd.

Hello Mr. Grande,

I have recently learned of the Vestar development proposal to rezone and commercially develop the land parcel on the SW corner of Deer Valley and Black Mountain Blvd. This is addressed in case no. GPA-DSTV-3-23-2 and Z-39-23.
As a resident of the Sky Crossing community, on the north side of Deer Valley, I oppose this rezoning proposal. It threatens our quality of life for the following reasons:
- The proposed commercial businesses will add additional automobile traffic, which will increase air and noise polution.
- The increased automobile traffic, just feet from Pinacle High School, will also threaten the safety of these students as motorists continuously drive in and out of this complex. As parents of a young child who will eventually attend this high school, we are very concerned about this impact.
- These businesses will add to light polution. The Sky Crossing HOA residential rules have deliberately restricted lighting on housing in order to preserve our views of the night sky. Our residents have enjoyed dark nights with full views of the stars. Bright lights from all-night businesses will impact the tranquility we have worked hard to achieve.

We moved to the Sky Crossing neighborhood in order to enjoy the relative piece and quiet afforded by this sparse residential area in northern Phoenix. The parcel on the SW corner of Deer Valley and Black Mountain Blvd., as originally zoned, is consistent with this goal, intended as a residential community. I am asking that you reject the Vestar development proposal and keep this land parcel zoned as residential for the benefit of the surrounding community.

Thank you for your attention to this matter.

| **From:** | Bob Giammarco |
| **To:** | Anthony M Grande; Council District 2 PCC |
| **Subject:** | Do not let Vestar re-zone in Desert Ridge |
| **Date:** | Monday, September 18, 2023 7:14:34 AM |
| **Importance:** | High |

Mr. Grande, Councilmen Warring,

Please note my strong objection to the rezoning of Superblock 12 in Desert Ridge, the property at the corner of Black Mountain Blvd. and Deer Valley Road.

This project is ill-conceived and unnecessary. The safety and traffic concerns are enormous next door to a high school and across the street from an elementary school. There's no need for another grocery store in the area, and there are a number of other commercially zoned parcels in the area if a developer wants to risk their capital. There's no reason to re-zone this parcel beyond Vestar's desire to make more money and Gamage and Burnham to generate more fees.

I urge you to reject this re-zoning and any future attempts to do so.

Sincerely,

Bob Giammarco (480) 540-0644

---

Residents are opposed to this development to rezone this parcel to commercial. The developer's lawyer was less than truthful when presenting to the Sky Crossing residents and failed to show what was available South of the 101 in his 5-mile radius from the site. Nobody wants increased traffic, light, noise and air pollution.

Dear Mr. Grande,

We bought our home in Sky Crossing the Fall of 2019. We were told that the vacant land at Black Mountain Rd and Deer Valley Rd was zoned for residential only! Since we have been in our home, we constantly hear of violence, abductions, and drugs at Desert Ridge shopping area (just a couple miles East of our community). The last thing we want is to bring to our area are those type of issues along with more traffic. Also, this vacant land sits right in conjunction with Pinnacle HS. The traffic is already bad and we don't want drugs or violence around our kids.

Please help us ensure this are will remain zoned Residential!!

Sincerely,

Allyson Swanson
Sky Crossing Resident/32nd St

Dear Mr. Grande:

This email is to supplement my letter of August 23, 2023, a copy of which is attached for ease of reference. The proposed change is not justified and is highly inequitable. The justifications offered for the change are specious. The obvious goal is not to benefit nearby homeowners, but to draw traffic from SR 51 now that the terminal exit is connected to Black Mountain Boulevard.

On or about August 30, 2023, Vestar amended its request for a major amendment to the Desert Ridge Specific Plan ("DRSP"), amending Chapter 6 to state, in part, that:

> "Superblock 12 is located west of a possible future connection to the ~~Squaw~~ PIESTEWA Peak Parkway, which separates this superblock from the balance of the Desert Ridge community. BECAUSE OF THIS SEPARATION, THIS SUPERBLOCK CAN SUPPORT LIMITED COMMERCIAL USES WITHOUT INTERFERING WITH THE DEVELOPMENT OF THE DESERT RIDGE CORE (DEVELOPMENT PARCEL 5.A). RESIDENTIAL Development parcels may vary in size by 30 percent 25 percent for R1-6 and more dense zoning categories without a minor plan amendment)." [Exhibit A to GPA-DSTV-3-23-2, accessed 08/19/23 at Microsoft Word - GPA-DSTV-3-23-2 Exhibit A-Proposed Language Revised 2023-08-30.docx (gblaw.com) [gblaw.com]]

The proposed change, and the rationale offered for it, flatly contradict a fundamental principle of the DRSP. The DRSP does not accept distance from the commercial core as justification for building a 20-acre shopping center. To the contrary, it specifies that distance from the commercial core should correlate with less intensive land use:

> " . . . Desert Ridge is based on the urban village concept in that **all community and regional commercial uses are located in the Desert Ridge Village Center.** Very small neighborhood convenience commercial uses are appropriately placed internally within neighborhood units. The Desert Ridge Village Center is appropriately the "urban" core of Area C. **Land uses are the most intense in and around the Village Center in Desert Ridge, logically reducing in density with increasing distance from the commercial/employment center and continuing beyond the project boundaries.** "[DRSP 3.B. (Goal 1) @ p. 3-1, accessed 09/19/23 at Table of Contents (phoenix.gov) (emphasis supplied)] .

The DRSP acknowledges that residential neighborhoods should be protected from the adverse environmental impacts from commercial development:

> A total of 18 neighborhood convenience commercial acres, or a maximum of 90,000 square feet of gross leasable area, excluding child care facilities, for all of Desert Ridge outside of the Village Center will be allowed subject to the criteria and standards in Chapter 6. **This criteria will minimize the adverse environmental impact on the residential neighborhoods typically associated with commercial development.** [DRSP 5. C.1, @p. 5-5] (emphasis supplied).
