

# City of Phoenix

STREET TRANSPORTATION DEPARTMENT

# Sonoran Boulevard

North Valley Parkway to Cave Creek Road  
City of Phoenix Project No. St85100335

## Project Fact Sheet

The Sonoran Boulevard has been planned and designated as a City of Phoenix arterial roadway since 1987. This roadway is an important east-west alignment between Interstate 17 and northeast Phoenix.

### Project includes:

- Seven miles of new arterial roadway extending Sonoran Boulevard from 23rd Avenue to Cave Creek Road with portions traversing the Sonoran Preserve
- Five miles of shared-use path that weaves through the desert up to a quarter mile from the roadway
- Three bridges with artistic features, and balconies with seating and shade
- Renaming the existing Dove Valley Road to "Sonoran Boulevard"

### Special amenities include:

- Medians and landscaping that will maintain the visual aspect of the preserve by blending nature into the roadway design
- Box culverts will convey storm water for natural drainage as well as accommodate crossing areas for wildlife, equestrians and hikers

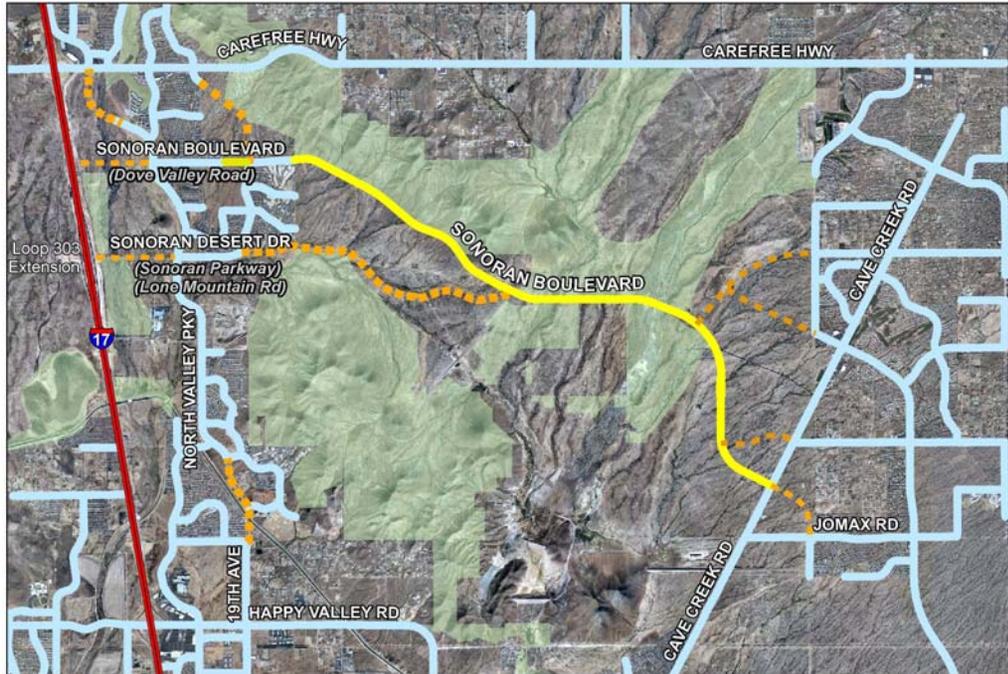

### Construction Details:

- Contractor: Haydon Building Corp.
- Project amount: Approximately \$40 million
- Estimated Completion: Early 2013
