

The City of Phoenix has contracted with Achen Gardner Construction to install the Drought Pipeline Project between a future booster pump station near 22nd Street and Maryland Avenue to 20th Street and Orangewood Avenue. Construction will begin in May 2021. The first phases of construction are described and shown on the map inside.

## Drought Pipeline Project:

### 22nd Street and Maryland Avenue to 20th Street and Orangewood Avenue

Phoenix Water is building new pipelines and pump stations to ensure all customers will have access to safe, clean and reliable drinking water for generations to come. With shortages looming on the Colorado River, these improvements will provide a way to move water supplies to those areas at risk for shortage.

- Working hours will primarily be 6:00 AM to 4:00 PM, Monday through Saturday. Some construction may require night or Sunday work.
- Business, residential and pedestrian access will be maintained.
- No on-street parking will be allowed in the construction area.
- Construction schedules are subject to change for a variety of reasons, including weather and personnel/material availability. The City of Phoenix and its contractors recognize the inconvenience of construction and we thank you for your patience and support!

## Current Construction Activities:

- Construction of the 66" pipeline will start at 21 Street and Aurelius Avenue, and head north (behind Madison Heights Elementary Playground) to Myrtle Avenue. Construction will also start at 21st Street and Myrtle Avenue and head west to 20th Street and Myrtle Avenue.
- Construction is scheduled to start **May 27, 2021**.
- 21st Street and Aurelius Avenue will be restricted to local access only, with no through traffic.
- Myrtle Avenue from 20th Street to 21st Street will be restricted to local access only, with no through traffic.
- Water service interruptions are not expected.

## Pipeline Construction Schedule:

June 2021 - March 2023

**Current Construction Area(s)**

**66" Pipeline**
