

The City of Phoenix has contracted with Kiewit Corporation and Achen Gardner Construction to install the Drought Pipeline Project between a future booster pump station near 22nd Street and Maryland Avenue to 20th Street and Orangewood Avenue.

## Current Construction Activities:

- Construction of the 66" pipeline is currently in Granada Park (east of the Granada Park Tennis Courts), heading north towards Ocotillo Road. The pipeline will head north through Granada Park to Ocotillo Road and continue west to 21st Street. This area of construction is estimated to be complete in early 2022.
- **Construction on Ocotillo Road is scheduled to start the week of September 27, 2021.**
- Ocotillo Road from 21st Street to west of 22nd Street will be restricted to local access only, with no through traffic starting the week of September 27, 2021.
- Water service interruptions are not expected.

## Drought Pipeline Project:

Phoenix Water is building new pipelines and pump stations to ensure all customers will have access to safe, clean and reliable drinking water for generations to come. With shortages looming on the Colorado River, these improvements will provide a way to move water supplies to those areas at risk for shortage.

- Working hours will primarily be May 1 – September 30: 6:00 am to 4:00 pm, Monday through Saturday and October 1 – April 30: 7:00 am to 5:00 pm, Monday through Saturday. Some construction may require night or Sunday work.
- Business, residential and pedestrian access will be maintained.
- No on-street parking will be allowed in the construction area.

Construction schedules are subject to change for a variety of reasons, including weather and personnel/material availability. The City of Phoenix and its contractors recognize the inconvenience of construction and we thank you for your patience and support!
