

The City of Phoenix has contracted with Kiewit Corporation and Achen Gardner Construction to install the Drought Pipeline Project between a future booster pump station near 22nd Street and Maryland Avenue to 20th Street and Orangewood Avenue.

Current Construction Activities:

- **66" pipeline install continues on 21st Street between Glendale Avenue and Aurelius Avenue and is scheduled to be completed in early May 2022.**
- Restoration work is scheduled to continue through early summer 2022.
- 21st Street from Glendale Avenue to Aurelius Avenue will be restricted to local access only.
- Resident access will be maintained.
- Water service interruptions are not expected.

Drought Pipeline Project:

Phoenix Water is building new pipelines and pump stations to ensure all customers will have access to safe, clean and reliable drinking water for generations to come. These improvements will help to move water supplies during water shortages along the Colorado River.

- Working hours will primarily be May 1 – September 30: 6 a.m. to 4 p.m., Monday through Saturday and October 1 – April 30: 7 a.m. to 5 p.m., Monday through Saturday. Some construction may require night or Sunday work.
- Business, residential and pedestrian access will be maintained.
- No on-street parking will be allowed in the construction area.

Construction schedules are subject to change for a variety of reasons, including weather and personnel/material availability. The City of Phoenix and its contractors recognize the inconvenience of construction and we thank you for your patience and support!
