Please provide housing and mental health services and public defense money.</p> <p>The continual raise in police Budgets in phoenix has only resulted in increased police violence. The police do not protect citizens from violence, it perpetuates it and an increased police budget does not solve the problems that cause crime to happen. Poverty and lack of resources drives people to commit crime and our system forces them to do so to survive. Its an inhumane system of control that exists only to threaten the working class with being treated unimaginably, inhumanely, with no respect or human dignity, all in order to keep them working their minimum wage jobs until they die. If a person cannot produce capitol for the state, they are useless to you. The state would rather violently police houseless people, people of color and people living in extreme poverty more than you would rather give more money to organizations that help these people survive by honest means so they can commit less crime. The state increasing the phoenix police budget is single handedly killing people and they know this, because it benefits the state and the perceived reality that keeps "good citizens" in</p> <p>When continual police budget increases produce continual increases in police violence, can it be said that this is where the council's, and by extension the city's, values lie?</p>

I ask that you please consider reducing the police department budget and provide said funds to mental health services, traffic services, etc. If we can't deter police brutality, who exactly are we protecting?	
3/25/2021 10:45:56	Sarah Richter	Richter.m.sarah@gmail.com	Phoenix	AZ	85006	District 8	Budget Comment 21	The Phoenix Budget needs to focus on the community not on those who line the pockets of the council members. Mental health, housing, crisis response, and employment training/services along with transportation are often at the lower end of the budget. Those millions of dollars going to cops can and should be reallocated.	
3/25/2021 10:47:52	Michelle Andrews	michellenandrews@gmail.com	Phoenix		85013	District 4	Defund the police and invest in people	All cities, including the city of Phoenix, are to serve its constituents and the budgets should reflect as such. To actually serve the people of Phoenix, the police need to be defunded and resources need to be allocated to social programs and programs that prioritize the safety and wellbeing of the community. Reforming the police does not provide any safety to us and the Phoenix police need to be held accountable for their daily violent actions. The Phoenix community includes everyone, including those who are unhoused. The city budget should reflect heavy investment in the support of ALL community members. The only way to achieve this is by defunding the police.

							<p>Hello! I am a home owner in Phoenix. I love being a part of a vibrant, diverse community of hard working and fun loving people.</p> <p>In order to continue to support this type of community, increase business and ensure safety, we need to reallocate resources away from police budgets and to other areas such as social services and mental health support. Small changes won't make an impact. We need sweeping reform to ensure that Phoenix police officers are held accountable for the violence that they're responsible for in our community.</p>

							Phoenix is the central hub for surrounding communities and a driver of both economy and culture. You must take a stand and divest from outdated and harmful systems of police and incarceration, and invest in our communities. Social services, community development (of the non-gentrifying kind), fair housing, etc. desperately need more resources. Invest in people, and you will serve as an example for other municipalities in the Valley and around the country. Not only that, you will also immediately affect the tens of thousands of people who may not be residents but work, recreate, worship, etc. in the city.

							<p>We need a budget in Phoenix that centers on the people, not police. Council needs to pass an MOU that can hold phoenix cops accountable. The city's lopsided budget messages its misguided priorities. For all the money this city has squandered on ineffective on purpose reform, we could have met the needs of so many. Instead, we throw money at an institution that does not serve us and does not protect us. Community safety means that our needs are met and all of us can thrive--Phoenix police cannot provide this. Defund police. Fund people.</p>

							<p>The community has made it clear that we need a budget that prioritizes the people, particularly the people that suffer the most from systemic inequity, and divests from the police force that upholds and enforces these inequities. Council needs to pass an MOU that can actually hold Phoenix cops accountable and not allow for the perpetuation of violence they inflict. 3/25/2021 12:07:46	Sage Davey sdavey96@protonmail.com	Phoenix			85017	District 8	community budget hearing	
							<p>Phoenix needs to defund the police and invest in the people. Equitable solutions for community care don't involve guns or force. An MOU for police accountability is a small but necessary step to take to legitimize efforts to eradicate police misconduct. If you stand for community safety, put your money where your mouth is and fund community led safety initiatives and defund the phoenix police.</p>	
3/25/2021 12:13:11	Hana Hehman hana.sun@zoho.com	Phoenix			85012	District 7	Defund the Violent Police	
							<p>Phoenix Police are the most violent in the nation. They are wildly overfunded and receive 42% of the city's general fund. We say no more! Redirect their entire budget to housing and human services, programs the community actually needs. Fire the entire staff at Phoenix PD and fire city manager Ed Zeurcher to pay for these community services.</p>	
3/25/2021 12:30:51	Michael Ferraro mferraro@asu.edu	Phoenix	AZ		85003	District 4	City budget	
							<p>I'm comment to voice my concern for the city's budget. We need a budget that defunds the police and instead invests in the people of our community. The council should pass an MOU (police contract) that will hold phoenix cops accountable. Focus on fostering true community safety and not ineffective reform.</p>	
3/25/2021 12:47:05	Tara lowman rojas Tara.lowmanrojas@gmail.com	Glendale	AZ		85302	District 7	Fund our community	
							<p>We want a budget that Defunds the police, and invests in people. Council needs to pass an MOU that can hold phoenix cops accountable due to the significant amount of violence and white supremacy that exists in this department. These community safety concerns have been unaddressed for far too long. The people who the city employs to supposedly keep communities safe are the direct cause of the unsafe conditions we currently face. Imagine the amount of preventative services that could be put into place with just a fraction of the funds provided to the Phoenix police. What does investing in the police really provide besides an inappropriate and violent response to an issue that has already happened in most cases? A negative outcome. What does investing in preventative care and services get you? An increase in health and happiness in our community. I think we all agree that we need to fund true community safety, not ineffective reform. We need to think outside of the box doing the same thing over and over year after year with no real improvement in the lives of the community. We need to start looking at preventative care for our community. We are looking at you city counsel and how you continue to ignore the people in this city. Be ready to be lose your job if you continue to fund your public safety as it currently stands. Thank you.</p>

3/25/2021 15:14:51	Cole Larson-Whittaker Cole.larsonwhittaker@gmail.com	Phoenix		85008	District 8	Defunding the police	It's really important that the Phoenix city council begins to invest the budget in communities and community resources, instead of the PHX PD. The police here have shown urge citizens time after time that they aren't a community resource, and are the first to admit that they can only respond to problems. We don't need the majority of this cities budget going towards an armed (and often dangerous) reactionary organization, we NEED the majority of the budget going towards policies and institutions that lift up community members and provide them with the support they need. We need to find true community safety, by investing in communities, not by pushing ineffective reform.	
3/25/2021 15:35:07	Darcy Boehme darcy.boehme@gmail.com	GLENDALE	AZ	85304	District 8	Phx MOU	It's also important that any budget item that goes towards the PHX PD is contingent on an MOU (police contract) that holds PHX PD accountable for their violent actions. We want a budget that Defunds the police, and invests in people. Council needs to pass an MOU(police contract) that can hold phoenix cops accountable. We need to fund true community safety, not ineffective reform. The violence perpetrated by the phx of and the lack of accountability needs to stop immediately. This can't be done without a budget that puts the community first. Until we defund the police there will be a cacophony of voices calling for it. How long do you want to disregard those voices? How long do you want to completely ignore your constituents? If you want to be held in high regard by the community you represent I expect you'll want to vote for reform sooner rather than later. Be on the right side of history.

This kind of focus is seriously lacking. It is unfair to the police and to the public for them to be responsible for all concerns when they are not trained in a way that is effective at handling such a variety of issues that may arise. Police are human and in a role as critical seeming and powerful there needs to be more accountability. I urge Council to pass an MOU that can create accountability that allows our communities to be safer. With more accountability we are all better. 4/6/2021 14:54:45	Claire K. Redfield Claire.K.Redfield@gmail.com	Tempe	AZ	85281		Police Budget	This year has taught us a lot about police brutality and it's not a new story. With the tragic deaths of members of our Arizona community: Ekem Udofia, John William Hardy Davis, Dion Johnson, and others across the country including George Floyd, Trayvon Martin, Michael Brown, Breonna Taylor, and Sandra Bland to name a few. It is my firm belief that it is time to substantially shift funding away from our local police forces and into organizations that are fighting to support the vast majority of our citizens instead of hurt or detain them. We need so much more funding for our growing public institutions: our Arizona schools, our health care, our mental health services, our early childhood learning. I urge the Phoenix Council to do the right thing and put funding with your values, the values of justice and repair. A budget is a moral document and today is the day to write a new story. Thank you. Police funding should not be increased by one cent because the citizens of this city do not feel safe and protected. We need transparency and justice in our police force. We need police to be held to the SAME STANDARDS AND LAWS as every other citizen is held to! They are not above any of us and we will not be safe until there is justice served to the victims of the Phoenix police dept. and yes I say victims bc the police often times INNOCENT people without due process and are never held accountable. 4/10/2021 16:26:15	Vincent Cimino	vacimino@gmail.com	Phoenix		85032 District 2	No money for killer c	<p>In the past year, members of the Phoenix Police Department have threatened to shoot the mayor, said they want to "gas" and "stop" Black Lives Matter protesters, and come under fire for a commemorative coin with neo-Nazi symbolism made in 2017 that celebrates shooting a protester in the groin. Now, the city wants to give them another \$3.7 million to add 75 more civilian positions to the department.</p> <p>Each year since Mayor Kate Gallego took office in 2019, community members have demanded the city not increase the police department's budget. Each year, the city has given Phoenix police millions more. During that time, Phoenix police have shot about 79 people since 2018, killing 55 of them.</p> <p>In recent years, the department's clearance rate for violent crimes like rape and homicide has dropped. In 2019, the most recent year for which full data is available, 1,139 rapes were reported in Phoenix, according to the Federal Bureau of Investigation. Only 123 of those were cleared, or closed through arrest or "exceptional means," which could include cases where police allege the victim no longer wished to proceed.</p> <p>During Gallego's tenure, members of the Phoenix Police Department have been caught sharing racist and Islamophobic content on Facebook, threatened to shoot an unarmed Black man in the head in front of his pregnant fiancée and children, and repeatedly targeted protesters for participating in Black Lives Matter marches, even going so far as to create a fictional gang called "ACAB" and lie in probable cause statements.</p>	No
4/10/2021 20:13:01	Wil Larson	wilson.larson@gmail.com	Phoenix	Az	85008 District 8	Police budget	<p>This is unacceptable and needs to stop right now.</p> <p>The phoenix police budget needs to be reduced. 3/4 of the city budget going to the police, a force that has killed more than 100 people in recent years, is unacceptable. They are a reactionary force in our community, one that doesn't actively work to improve the lives of the people who help to pay their bills and salaries. The city needs to be enacting policies and providing services that make easier the lives of the people in the city. Throwing more money at the police is not going to do it.</p>	Maybe
4/11/2021 16:50:26	Jacob Norgord	norgordjacob@gmail.com	Phoenix	AZ	85017 District 5	Police Budget	<p>I believe that the Phoenix Police Budget should not be raised over the next two years, but that it should actually be lowered. I believe that there are various other actions we can take to help reduce crime in Phoenix, such as adding more lighting to under-lit neighborhoods, funding various youth programs, and taking better care of local parks. By taking better care of our great communities, we will see more opportunity in the area which I believe will help lower crime. Additionally, I believe that the police budget should be determined in a meeting that is public for anyone to be able to view to increase transparency in the budgeting process. I think that by lowering the budget perhaps 5% we can see how effective this 5% reallocation might be since the current budget for the police is approximately \$745 million. This approximate \$37 million could make a great impact in places such as the ones I talked about.</p>	Yes

This includes but is not limited to COVID relief, free public transportation and bus only lanes, resources for addiction and substance use, rehabilitation centers, and low barrier shelter/ housing support. The money will allow the people and neighborhoods who were hit hardest by the pandemic to be able to recover and grow. By denying these vital resources to your people, there won't be sufficient access to housing assistance, public transportation, healthcare, vaccine distribution, income support, and childcare assistance and your community will suffer.</p>

Our communities demand funding for: Free transportation and bus only lanes, rehabilitation services and a center in West Phoenix, low barrier shelter/ housing support 6. Reject this budget until the process for MOU negotiations becomes fully public <p>Given light of recent and historic events involving police brutality, the continued endangerment of our neighbors of color and marginalized communities within Phoenix and the wider United States, and the track record of Phoenix PD specifically, there is absolutely no reason to increase the budget for police or increase the number of police officers in Phoenix. This money could do so much good for our community in the form of COVID relief, low barrier shelter/housing support, education, environmental initiatives, public transportation, a crisis support program, etc. Expanding the Phoenix PD will not keep my neighbors safe, they will protect property over human life every time. It is outrageous that we are continually telling you, our elected representatives, this information and that you continue to ignore the pleas of those you claim to support. Do what is necessary to protect our communities and our neighbors here in Phoenix. I urge you to follow these list of demands. To do otherwise is to actively hurt our neighbors of color, neighbors dealing with homelessness, and neighbors who need crisis support rather than restraints or guns drawn on them.</p>	No

These funds should be spent supporting those most impacted by COVID and its economic fallout- the homeless, the poor, those without healthcare, and more. It should not be spent to give the police a raise or increase their budget. Over the past year our police force has been mired in controversy after controversy. They unjustly apply the law to people of color and have been stifling free speech by surveilling and targeting protesters. They should not be rewarded for doing a poor job. Additionally, they do not need a budget increase when arrests should be decreasing after the legalization of marijuana. This \$400 million should be spent on resources that will have a tangible impact in the lives of Phoenixians- rental assistance, housing and shelter programs, and childcare assistance.</p>	Maybe

Trigger warning (suicide ideation and police violence): Imagine you wake up every day, wondering when life will either get better or simply stop. You begin to feel trapped and need a way out, so you look for ways to harm yourself. when a concerned family member calls the police. Instead of receiving the compassionate support you need to keep you regulated and help you feel safe, you are SHOT DEAD by a police officer because they did not know how to support you in that moment and assumed you wanted to hurt them, when that wasn't the case. This is a tragic reality for many. According to a recent study released by the Treatment Advocacy Center, "people with untreated mental illness are 16 times more likely to be killed during a police encounter than other civilians", POLICE DO NOT KEEP US NOR OUR LOVED ONES SAFE. My lack of confidence and mistrust towards the systems of policing grew tremendously. When I have little to no faith in an organization, I generally do not support it. I request that funds should not increase for the police department, instead for people and communities that actually need it in the current a global pandemic, increase in violence, and lack of resources. I call for \$15 million and more from police to towards crises response program(s). I demand funding for COVID relief, whether that is for child support, housing assistance, job assistance, public transportation, and support for AAPI communities that are affected by increased hate crimes due to pandemic. I demand funding for free transportation, rehabilitation centers, and housing support for the community. Additionally I reject the 75 new positions at the Phoenix Police Department. Every year reforms are suggested ONLY for the same instances to occur. It is clear this department will not be changed with city reforms, let alone increasing their funding. And for transparency? Officers should not be paid to be transparent. Officers should not be given raises to do their jobs. Especially when they are not doing their jobs well. Crime rates in Phoenix have not changed much, but the funding for the police and the violence they have caused has. When we invest in resources that empower and enable our communities, we will flourish. When we invest in mental health programs, housing vouchers, and homelessness relief, we can meet people's basic needs and allow them to flourish. 4/16/2021 22:31:45	Claudia Deley cdeley98@gmail.com	Phoenix	Arizona	85023	District 6	Defund the Police	<p>We live in a settler state and the people who have been abused and oppressed by the police/colonial militias (and who they defend, i.e. wealthy folk) are the same people who are experiencing, at disproportionate rates, aggressive mistreatment and as we have seen and continue to see, death at the hands of armed authority. This is no coincidence. We continue to fund and arm the police because they, overtly and violently, maintain control or much of the control of this settler state. This is true of all colonial "projects" but we are talking about Phoenix specifically and PPD is a prime example of blatant and shameless abuse of power, maintaining capitalism (private prisons), racism and genocide as a status quo that is ongoing. By continuing to devote so much money to the police fund you (Phoenix gov.) make it clear that you support the settler state and all of its crimes against people and the environment (one in the same). I am demanding change.</p> <p>There is no need for 75 new civilian Phoenix police - let's focus on organizing and effectively training a crisis response unit to prevent unnecessary deaths, violence + arrests. Instilling a properly trained crisis response unit will lessen the amount of cases requiring police response, so there will be no need for more civilian police. Please have City Clerk's office handle police records so the public can have access to them.</p> <p>The people whom the \$400 million COVID Relief will positively support should have a say in where to allocate it within the Phoenix community. Denying this financial support to those who need it most by giving it to the police would be a MISTAKE! This relief would make a great impact to help those who have suffered most from the effects of the current pandemic by using it towards childcare assistance, vaccine distribution, housing assistance, public transportation, healthcare, and income support.</p> <p>Please allocate funding to better the Phoenix community through free public transportation and bus only lanes, accessible resources for addiction and substance use, rehabilitation center, and low barrier shelter/housing support.</p> <p>The police should pay for the new crisis response team. I believe \$15 million is needed to create and train the response team which will be fully developed by the community. Since the police are not trained in crisis response, there is no need to put police in charge of the program, when in fact they should be required to learn from the program by the properly trained community members who have been vigorously educated, studied and are fully knowledgeable on how to humanely, respectfully and professionally deal with crisis situations which at times will involve people suffering from mental disabilities (again, something the police are not trained to handle themselves).</p> <p>Please reject budget until the process for MOU negotiations becomes fully public. Allowing police negotiations to remain private will also ensure violence and lack of accountability remain in police work. The public needs FULL access to labor negotiations to ensure the safety and true protection of all its community members.</p>	Yes

A La polecia ya le dan suficiente dinero por parte del gobierno. Porque se le tiene que recompensar con mas dinero que no ocupan? Y que puede ser usado en otras organizaciones. Mi esposo cada año hace sus taxes y ahora con lo de Covid nosotros nunca recibimos ninguna ayuda por parte del gobierno hasta la fecha de hoy. Poder en Accion fue la unica organizacion que nos brindo ayuda con dinero para los biles que se fueron hasta el tope y que hasta la fecha estoy endeudada. Para mi lo primero era pagar renta. A mi nunca me perdonaron que no tuviera mi renta al tiempo. Muchas personas se quedaron sin trabajo. Yo fui una de ellas. Como mama tuve que quedarme en casa para cuidar a mis hijos. Mejor ayuden a toda la comunidad. Yo se que por ser indocumentado no tengo ningun derecho alas ayudas gubernamentales pero tengo 3 hijos cuidados que si ocupan la ayuda. Ayuden ala gente homeless que tristeza que haiga tanta gente de la tercera edad pidiendo dinero en los semaforos de las calles para poder comer. En esas cosas enfuquen ese dinero.</p>	No

It is not only unnecessary, but harmful as previous attempts to increase transparency within the police have failed. I also am demanding comprehensive COVID relief for the people, not for police. As a community, we should have a say in where the COVID funding goes, and I believe it is harmful to use any of that \$400 million on police when so many have suffered throughout the progression of this pandemic. Additionally, COVID relief is what money is meant for; it is simply not in the best interest of the people of Phoenix to redirect that funding away from them and toward police. Finally, I'm demanding funding for the development of free public transportation, bus only lanes, resources for addiction and substance abuse, a rehabilitation center, and low barrier shelter/housing support. These are the things our community is in most need of right now, especially after enduring a pandemic for an entire year with absolutely unacceptable support from the government thus far.</p>	No
4/19/2021 15:28:25	Sonia Saenz	soniasaenz98@gmail.com	Gilbert	Arizona	85234		Taking the funding fr	<p>The Phoenix City police, and many other cities police force, claim to be in service of their city and their community. As someone who was born in Phoenix and raised in the valley, I would say servicing their community is the last thing they do. The police has been under a regime that allows the abuse of force and brutality against the city/community they say they are here to protect. Protection is far from what they have accomplished. From 2011-2018, police officers shot at 627 people. Shooting at people, abusing their status and allowing their fellow officers to commit the same crimes is not defending the community. The city of Phoenix deserves the money the police force is being given to those in need. A community who needs the money is those without a home. Living on the street, or in their car, is not the way to live. Instead of haggling those who are without a home, help them. In the first 9 months of 2020, 500 homeless people died. If proper housing was provided for this subset of the community, that number would go down drastically. A place to sleep, and feel safe, is a far better choice than funding the police force by a landslide. The Chief of Police for the city of Phoenix is Jeri Williams. Jeri Williams spent 6 years as the police chief in Oxnard, California. Under her regime in California, many unfortunate deaths occurred. Her old police force has been under the limelight for settling many deaths of citizens that were caused by police officers. In her time as chief in Arizona, she has similarly handled death by cops in the same way. By going to court and paying the problems away. The City of Phoenix does not need to fund a woman or a police force who has shown time and time again that the community does not matter.</p>

								Continuously increasing the police budget signals to constituents that our physical and mental well-being is worth less than maintaining the status quo of white America. Increasing the Phoenix Police budget in the wake of death after death is not only an idiotic economic decision for the city, but it's also a gross and disgusting disregard for the individuals and families who have lost loved ones at the hands of the Phoenix Police. It is downright shameful. As a resident of Phoenix, I would feel safer and happier if instead of pouring millions of dollars into the police, the city instead invested in solutions that have proven to reduce violence. This means no new civilian positions for the Phoenix Police. Adding more members to a group that is so horrifically rooted in violence and systemic racism will never solve the problems we face. This means the funds used to create the new crisis response program must come from the police department, not the surplus. This also means that the city must move \$10 million from the "crime suppression squad" and reallocate this money for low barrier shelters and housing support, free public transportation, and substance abuse rehabilitation centers.

4/19/2021 18:33:00	Lauren Cruz	Gumchewer17@hotmail.com	Phoenix	Arizona	85007	District 8	City counsel budget	Please help people of color and queer people by funding police less. Police do not help or serve me as a Mexican queer person. They are harmful and harass colored people. I am against the 75 new civilian positions for Phoenix police. PPD says it's necessary to increase transparency, but every attempt by police to increase transparency and training have failed. We need access to public records from police, but continuing to add more people to a rotten system isn't going to fix anything. Police records need to be handled by the City Clerk's office. Instead of cutting vacant positions and placing those funds where we need them, Phoenix police wants to hire more people to do less work. Legalizing marijuana should result in thousands fewer arrests per year by PPD, and the creation of the crisis response unit will significantly decrease the number of calls the police department responds to. Those positions must go to programs and resources community members need. Community must have a direct say in the \$400 million in COVID relief money coming to Phoenix. This money needs to fund the people and resources that have been hit hardest by the pandemic. Using COVID funds for police bonuses or to grow the police budget harms our collective recovery by denying resources to those most impacted. This money needs to be used for things like housing assistance, public transportation, healthcare, vaccine distribution, income support, and childcare assistance. Phoenix police arrest thousands of people every year for marijuana possession. Now that marijuana is legal, arrests by Phoenix police should decrease by several thousand arrests per year, meaning they should cut the number of officers employed by the department and reallocate that money. If this crisis response program is implemented, the money must come from the police department, not the surplus. The surplus needs to go to our community needs and safety. This program would reduce the number of calls police respond to, so that money shouldn't be kept by the police department. It should pay for the crisis response program. And this program must be developed by community members, not behind closed doors with police and city manager. Council needs to reject this budget until the public is guaranteed full access to future labor negotiation meetings. Negotiating the contract behind closed doors resulted in pay raises for police and minimal changes in transparency and accountability. Continuing to let police negotiations happen behind closed doors means PPD is going to remain unaccountable. Council has the power to change this process and end secret negotiations.	No

								As a rule, I tend to refuse to continue spending money on poor service. If the job of the police is purportedly to protect and to serve, they are very ineffective indeed; I see no reason to continue pumping money into a murderous, white supremacist institution that fails its citizens at every opportunity.	
								The police are a reactive force; they respond to crimes that have already occurred and are notoriously ineffective at catching perpetrators. Does it not make more sense to funnel funds into programs that actually prevent crime from occurring in the first place—to treat the sickness, not the symptom? Rehabilitation services, access to affordable housing, and direct redistribution of resources to those most in need does the work that police departments cannot. These actions provide people options that many of us take for granted. In general, crime is the result of desperation, not of some evil impulse that exists within the individual. By providing people with the resources they require—a carrot instead of a stick, if you will—we transition from a punitive model of justice—which, again, has been shown over and over to be both cruel and ineffective—to a restorative one. 4/20/2021 15:02:47	Alexander Agraz	agraz27@gmail.com	Phoenix	Arizona		85031	District 5	Police Budget	There's definitely a few concerns regarding the police budget & reallocating funds for the people of Phoenix. Phoenix's budget for their police force is way over funded & these funds can be reallocated for programs for the inner city youth & preventing the use of police force in the future. Statistically, most violence & addictions occur from the exposure to any trauma as adolescents & without any resources, many of the youth result to addictions & many other unruly activities. With the extra money taken from the police fund, it can be redistributed into programs teaching kids many things such as welding, carpentry, mechanics, and other fun & demanding skills they would be able to use to create life for themselves. With technology advancing, a lot of blue collar positions are continuing to lack behind in employment. There's a huge demand in these industries and instead of policing the youth, I think offering them guidance & the training for the skills will affect them much more the longer run thus not requiring much police force due to most of the youth being involved in these programs & not in an unruly activities. 4/20/2021 15:35:53	Paige Blake	paigeseletamae@gmail.com	Goodyear	AZ		85395	PPD Funding and Cri	Hi, my name is Paige Blake and I have lived in and around Phoenix my entire life. I've been able to grow with this city and watch it turn into one of the fastest growing cities in the nation. The more I have learned about our city and how it assists those who reside/visit it, the more disappointed I have become with living here. Almost 50% of the overall city budget funds the Phoenix Police Department, which I have only ever seen criminalize people who were really just in need of assistance. Instead of funding a violent organization that sees people as objects and quotas to fulfill, we should be funding organizations that serve the overall community and help assist those in the community. It is also important to note that COVID relief funding should be transparent and invested in the people who have been impacted by it, instead of the PPD. Funding a violent institution instead of the people of the city will only hurt the overall resiliency of the city. As a community, we are demanding transparency with how our city allocates money and asking them to invest in 1.Free transportation and bus only lanes 2.Rehabilitation services and a center in West Phoenix 3.Low barrier shelter/ affordable housing 4.Reparations / direct redistribution of resources 5.Green New Deal / Climate Justice I also feel it is important to mention how desperately our community needs to invest in a crisis response program. As an individual who has endured multiple Mental Health Crises, and with close family and friends who also have, it is important to me that we help fund a system that best assists people in these situations. If this program is implemented then it should be funded and maintained by trained professionals and members of the community, not by the police and city manager. Investing in this program would reduce the number of calls the PPD receives and therefore this funding should be allocated from the PPD funding. As a city, we should invest in solutions that best cater towards the community and help fund programs that are proven to better assist those it serves.	No

								<p>Good evening Phoenix City Councilmembers.</p> <p>Please allow me to briefly introduce myself. My name is Daisy Hernandez. Im an Arizona resident who also works for the county and has earned a Bachelors degree in Public Service and Public Policy. Today I speak with you as a citizen.... But I cant help but to simultaneously speak through the lens of a fellow... public servant....</p> <p>And through speaking with my fellow community members through my nonprofit work, I can tell you that the people are growing tired of not seeing our tax dollars being efficiently used. We are tired of our elected officials not allocating our limited resources towards more comprehensive solutions to the problems we see within our communities. Instead our city's history and actions show that we would rather continue to fund the We cannot continue to fund the mundane outdated system we call Phoenix PD instead of funding other professionals that already exist within our communities but that we simply leave neglected and underfunded. One example I'm sure you're familiar with is with our mental health professionals.</p> <p>With my nonprofit team, I sought out recommendations that community members have for our city. One gentleman shared: "How is it that the police drive brand new cars? How can they afford that when my neighborhood needs..." X, Y, and Z.</p> <p>I hope you all don't mind me sharing that anecdote with you. But I think the City of Phoenix has well enough communicated to the Phoenix residents where the city's priorities are at.</p> <p>The residents in Phoenix are frustrated and my experience shows that they have legitimate concerns about the current negotiations going on in our city. I would have loved to elaborate had time permitted.</p> <p>Though, we as a city need to stop these haphazard policy agendas. We don't need a crime suppression squad. We don't need our COVID relief money to go to the police instead of to community members who are in legitimate dire need.</p> <p>Councilmembers, we can do better. And stated frankly, you need to reject this budget until the entire negotiating process for the MOU becomes entirely public. How can we expect you to be uplifting the community's voice in processes that occur behind closed doors, when these processes very well can have more community comment and engagement? Their secretive nature you continue to enable.</p> <p>So I'm here to tell you as a fellow public servant. The status quo is not enough nor is the bare minimum. We both know there are a lot of moving parts at play here. But we also both know that you are very well capable of producing profound change if you spark the courage within.</p> <p>We're here to raise the community's voice and take the community's voice back to our jobs and back to the systems only you and I have been thoroughly trained to understand.</p> <p>Truth is that we will not rest with minimal efforts from our government leaders. And truth is that the people are only getting better at learning these systems and properly issuing their demands.</p> <p>Councilmembers I respectfully but firmly ask you to take some time to envision solutions no one has ever taken the time to envision yet before. We are here to serve the public, but we are also here to innovate tactical comprehensive solutions. We need to strive towards enabling our neighbors to succeed within their own healthy lives, by setting up the functionality of our society, in a way where our limited resources allow for that to happen. With that, I stand for any questions. I appreciate your time and commitment to a brighter future.</p>	Maybe

4/20/2021 16:18:35	Emma Galligan	emmamariagalligan@gmail.com	Tempe	AZ	85281		DEFUND THE POLIC	I am writing to ask the city council to defund Phoenix Police, the deadliest police force in the country. When I walk around the city I see so much need and yet rather than addressing these needs the city council has chosen to fund the police instead. The same police that is murdering our brothers and sisters. Instead of funding Phoenix PD, I ask that the council choose to fund what we actually need: free transportation, rehab services, affordable housing and homeless shelters, reparations, and climate justice. We need to build a better Phoenix and this cannot be done until we defund the police and instead fund these efforts.	No
4/20/2021 16:22:57	Shyama Moss	shyamamoss@gmail.com	Tempe	AZ	85281	District 5	Transfer of Funding fi	Instead of filling positions on the police force that already fails to protect and serve the community most days, the appropriation of funds to public transportation— potentially making it free— would better suit the community. People struggle to make ends meets due of lack of reliable transportation or lack of funds to provide themselves with an affordable, self-substantiated method. Free public transportation could open up a plethora of opportunities, like applying for jobs, to lower income families that were unable to because of transportation issues.	Maybe

The training and supervision of police officers is not adequate enough to be getting the funding it currently is. If that funding is put into rehabilitation centers, it could create better chances and opportunities at those individuals receiving HELP instead of circling back into the jail/prison system. Recidivism rates are very high and the only way to combat that is through true rehabilitation and helping people with addictive personalities and show them there's more to life.	No

More Funds should be going to resources in our society because our society are the ones with the least resources Available to us . Those fund should be going to mental health resources which are not really available to many homeless people, invest in free public transportation And bus only lanes, rehabilitation resources to make our community a better place, which would reduce crime as well as the amount of homeless people in our community. If we were to invest funds to those resources in our community we would also reduce the amount of violence caused by police fue to less crime , once these resources are available majority of crime and violence would be gone.	
4/20/2021 21:09:21	Stephanie Cruz Vazquez stephacruz@gmail.com	Tempe	Arizona	85282		Phoenix Budget	Due to a surplus in the given police budget, it only makes sense to disperse it amongst the Phoenix community that is constantly asking for resources and structure. Structure means reasonable housing prices for resident, for now at least 3 homelessness centers, the development of remodeled schools in low income areas in Phoenix (such South and West Phoenix), the infrastructure within Phoenix itself (roads, streetlights, community pools etc.) Communities of color and ethnicities have been long targeted for years. Just last year, 26 shootings were caused by the police. This is unacceptable and unnecessary. Why the increase in budget? Why this number of murders by public service officials? The demand of resources is just and fair. Resources would include materials for community centers, updating park items, community watches, faster public response services, implementation of recycle bins (areas such as bus stops etc.), small free health clinics in disenfranchised areas, specialized psychologists on hand with the school and police system. These are few ways to ensure the safety and security of the community. These suggestions by no means take away from the agencies and needs from the police. On the contrary, it is only explaining in detail to what areas should be prioritized in order to reduce the number of crimes committed by both residents and police. This ensures a balanced budget will be distributed amongst the citizens and city government.	No
