General Fund City Sales Tax

Description

City Sales Tax is the single largest source of General Fund revenue, accounting for more than 40 percent of the total. This indicator measures how closely General Fund City Sales Tax revenue tracks with the estimate. Estimates are developed during the budget preparation process each fiscal year and may be adjusted during the fiscal year depending on actual collections and other economic considerations.

Goal

At or above -1.9% of the estimate

Measurement Thresholds for Dial

Green > -1.9% Yellow -2% to -4.5% Red < -4.5%

Comments

Monthly revenues are reported mid-month, therefore total GF reporting will be one month behind. City sales tax can be somewhat volatile and is affected by monthly adjustments from year to year. Although the current year-to-date actual revenue is behind the pace needed for the full-year and the estimate may need to be adjusted, sales tax revenue for the full year may meet projections. Revenues are closely monitored, and spending levels may be reduced to ensure expenses do not exceed revenue.
