Intake Time

Phoenix Summer Safety Operation Totals 5/1/24 – 9/18/24:

- **1,342 heat related** calls for service (Source: Phoenix FD). Of those calls, only 202 were within a mile of a cooling or respite center during extended operating hours.
- **31,657 visits** in respite and extended hour cooling centers (based on intake forms received).
- Overall, **6 and 7pm** have seen the highest number of people arriving.
- **Walk/Bike (79%)** has been the most popular method of getting to the cooling center.
- **Returning visitors account for 65%** of intake forms, followed by word of mouth (25%) for how visitors hear about cooling centers.
- **28,752 visitors (91%)** indicated they are experiencing homelessness.
- **28,300 visitors (89%)** indicated they just want to get cool and don't need any additional services or referrals.
- **642 visitors** have utilized the COOLtainer since 8/1, when the visitor numbers started being collected.
- **929 visitors** received direct onsite assistance from CBI with various shelter or homeless solutions referrals. **26 visitors** required additional follow up for their referral, which was submitted by the Office of Emergency Management on their behalf.

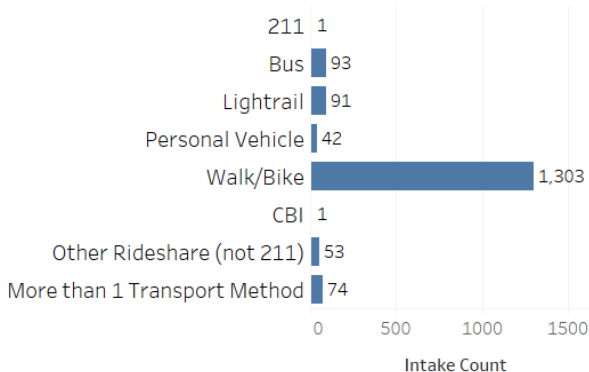

Burton Barr COOLtainer Overflow

An air conditioned Connex box was delivered to Burton Barr to alleviate the overcapacity issues within the respite center. Visitor numbers for the COOLtainer are included in the overall count for the Burton Barr Respite Center. **14 visitors utilized the COOLtainer** on September 12th, after that the respite center had not reached capacity and the COOLtainer had not been utilized.

Referrals

23 referrals were processed and received direct onsite assistance from CBI. There was no additional follow-up required from the City of Phoenix or the Office of Emergency Management to submit a referral on their behalf.
