

PENSION INFORMATION

City of Phoenix

Required Pension Participation and Paycheck Deduction

All new hires or re-hires for regular, full-time, general city positions must participate in the City of Phoenix Employees' Retirement System (COPERS) pension plan. COPERS is a defined benefit pension in which the payout is based on such factors as years of service and average compensation in the final years of service. General employees are covered by both Social Security and COPERS. Employees may purchase or transfer eligible service credit from other public retirement systems, and active duty military service to be used towards City of Phoenix retirement.
