# Teen Volunteer Program Monthly Newsletter

## April Highlights

The teen volunteers have really hit their stride this semester and are doing outstanding work as the program enters its final month. They've all shown remarkable growth, independence, and dedication. The Tabletop Archaeology activity has attracted many guests, offering an excellent alternative for those unable to participate in outdoor Detective Archaeology due to environmental factors or physical limitations.

## Volunteer Appreciation Dinner

Volunteers, staff members, and parents came together for this year's Volunteer Appreciation Dinner, creating a warm and joyful celebration. The evening featured delicious food, fun gourd-decorating, thoughtful gifts, and plenty of shared laughter. The atmosphere fostered genuine connection and gratitude. It was a memorable night that honored the time, energy, and heart our volunteers give throughout the year. To all our teen volunteers, thank you for the incredible impact you make on the museum and the lives of others.
