# INDUSTRIAL PRETREATMENT COMPLIANCE ACADEMY

## 2026 CLASS SCHEDULE\*

*\*Class enrollment opens approximately one month before the scheduled date. Because class dates are tentative and subject to change without notice please do not attempt to enroll in any class outside of the enrollment period.*

The Compliance Academy is a free, voluntary program designed for the staff of Phoenix's Class A, B and C Permitted Industrial Users. Contractors and government employees may attend based on space availability. No one will be admitted to a class without receiving prior confirmation of enrollment. Confirmation of enrollment is usually completed within one week of the online enrollment request and will include log-in information for WebEx for those attending virtually.

Based on ongoing feedback, we are continuing to host the Compliance Academy in a hybrid format both virtually through WebEx and in-person and will provide each course presentation and materials via our website:

[phoenix.gov/IPPCompAcademy](https://phoenix.gov/IPPCompAcademy). To attend a Compliance Academy class in-person requires obtaining access to the 23rd Avenue Wastewater Treatment Plant: **A U.S.**

**Government issued photo I.D., (such as a driver's license) or a Passport must be shown at the entrance gate. PHOTOGRAPHS WILL NOT BE PERMITTED.**

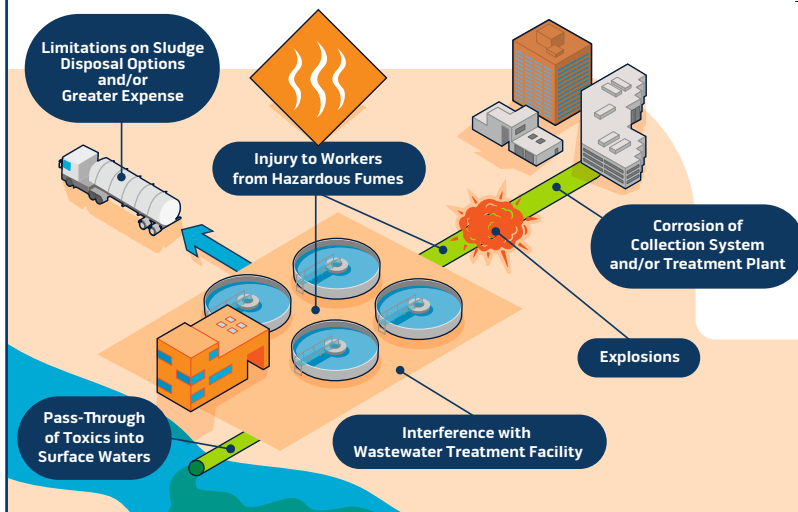

**Please Remember:** In order to receive credit for this training, attendance verification is required. Attendance confirmation will be verified at the beginning of this training session. If you log in or arrive late, please announce your attendance via the chat option or sign-in on the sheet. Attendance later than 30 minutes after beginning of training will not receive credit.
