June 17th, 2016

**DISTRICT 1 NEWS & EVENTS:**

**DISTRICT 1 COMMUNITY BREAKFAST**

The next breakfast will be on Friday, June 24th, 2016 at the Radisson Hotel Phoenix North, located at 10220 N Metro Pkwy E, Phoenix, AZ 85051. Breakfast begins at 7:30 a.m. and the speaker starts at around 7:45 a.m. This month’s speaker is Police Chief Joseph Yahner.

Joseph Yahner was born and raised in Phoenix and has been with the Phoenix Police Department for approximately 30 years. Joe’s formal education includes an undergraduate degree from Arizona State University and a Master’s degree from the University of Phoenix. Throughout his career, he has worked in several Patrol Precincts and a variety of specialty assignments. He was promoted to commander in 1999 and has been assigned to the City Manager’s Office, Traffic Bureau, Property Crimes Bureau, and the Maryvale Precinct. In 2007, he was promoted to Assistant Chief and assigned to the Homeland Security Division where he had overall responsibility for the Super Bowl, NBA All-Star game, and opening of Light Rail. On June 1, 2009, Chief Yahner was promoted to the Executive Assistant Chief. From March 3, 2011 through May 13, 2012 Joe served as Acting Police Chief. On February 11, 2015 Joe was promoted to Police Chief.

**WASHINGTON ELEMENTARY SCHOOL DISTRICT NEWS**

The WESD is hiring support staff positions for next school year! Join us June 29 to learn more about the many other opportunities available, both full time and part time, including special education assistants, health technicians, food services, before and after-school assistants, bus drivers and more! The
Acacia Elementary students demonstrated their newest STEM creations for special guests recently. Students in the summer school program explained how they created and programmed their cool, new Bristle Bots – small robots built using the bristle portion of the toothbrush! Guests from Grand Canyon University, the Arizona Department of Education 21st Century Community Learning Centers Unit and the WESD Academic Support Programs Department were on hand to witness the Bristle Bot “Olympics.” Students had their Bristle Bots competing in activities where each Bristle Bot had to complete a challenge and the results were recorded. This class is the result of a partnership with GCU and their student interns who helped with the Bristle Bot program. We are so thankful for the partnership and the exciting opportunities for our students!

DEER VALLEY UNIFIED SCHOOL DISTRICT NEWS

Approximately one and a half million students entered the 2016 National Merit Scholarship program, and less than one percent of those students are awarded a National Merit Scholarship. Brooklyn Edwards from Sandra Day O’Connor High School is a hard-working, focused young lady who, finds the time to help others and always has a heart-warming smile on her face. She has received $645,000 in scholarships including being named as a National Merit Scholar. She has received scholarships from the University of Oklahoma, the University of North Texas, the University of Alabama, the University of Arizona, Arizona State University and Brigham Young University, where she plans to attend this Fall. Congratulations Sandra Day O’Connor Senior, National Merit Scholar Brooklyn Edwards.

Each May, Deer Valley Unified School District recognizes the students who received the largest amount scholarship offers. From Barry Goldwater High School, Caroline Baginski received 3 offers totaling $417,856. Caroline has selected to attend Northwestern University. Boulder Creek High School’s Madison Kemnitz received 7 scholarship offers totaling $424,844. She has selected to attend Boise State University. From Sandra Day O’Connor High School, Teresa Griego received 7 offers totaling $739,400. She has selected to attend Pepperdine University. From Mountain Ridge High School, Sara Hileman received seven scholarship offers totaling more than one point three million dollars. Sara has selected to attend Dartmouth College. And, from Deer Valley High School, Emily Conlin received ten scholarship offers totaling more than one point seven million dollars. She has selected to attend Anderson University. Congratulations to Caroline, Madison, Teresa, Sara, and Emily!
Many families with school age children depend on the breakfast and lunch provided at school during the school year.

The following locations will be offering free breakfast and lunch meals this summer. Any child 18 years and younger may eat for free. There are no income or registration requirements.

**Constitution Elementary School – 18440 N. 15th Ave., Phoenix, AZ 85023**
June 6 – July 28, 2016 (Monday – Thursday)
Breakfast: 8:00 – 9:00 AM
Lunch: 11:00 AM – 12:30 PM
*L*ook for fun kid friendly activities at this site! Come for the food stay for the fun!

**Paseo Hills Elementary School – 3302 W. Louise Dr., Phoenix, AZ 85027**
June 1 – July 29, 2016 (Monday – Friday)
Breakfast: 8:00 – 9:00 AM
Lunch: 11:00 AM – 12:30 PM

**Beuf Community Center – 3435 W. Pinnacle Peak Rd., Phoenix, AZ 85027**
May 31 – August 5, 2016 (Monday – Friday)
Breakfast: 9:00 – 9:30 AM
Lunch: 12:15 PM – 1:00 PM

**Deer Valley Community Center – 2001 W. Wahalla Ln., Phoenix, AZ 85027**
June 6 – July 29, 2016 (Monday – Friday)
Breakfast: 8:00 AM – 8:30 AM
Lunch: 11:30 AM – 12:15 PM

*All meals include an entrée, fruit, vegetables and cold milk. A monthly menu will be posted in the cafeteria. *Adult breakfast ($1.50) and lunch ($3.00) meals will also be available.*

DUNLAP FALLS HOSTS GRAND OPENING

The apartment complex located at 3333 West Dunlap Avenue has been completely renovated. The previous complex was a routine focus of the Police Department, Neighborhood Services and other City of Phoenix departments. It was well known for its high crime rate, poor living conditions and other problems. Duke Stone of Churchill Capital out of Dallas, Texas, Gary Saterbak of Bear Holdings Group, LLC here in Arizona, Brock Danielson of KW Commercial in Mesa, Chamberlin and Associates here in Phoenix, along with the help of community resources and other key people, acquired and began work on the former Copper Glen Apartments in July of 2015. Since then, the apartment complex has changed dramatically into an updated, affordable, multi-family complex which has been part of a major revitalization in the neighborhood.

“Dunlap Falls Apartment Homes held a ribbon cutting and officially opened its doors this week. This grand opening is the culmination of $15 million in private investment into the newly renovated apartments. Bounded by two schools to the east and Cortez Park to the north, the transformation of this site is very important in the community. The property owners and new management have worked hard to create a safe place for families and children in our community. In addition to their hard work, the city’s Neighborhood Services and Police departments have been engaged and I’m grateful to city staff for their work in revitalizing this area. Dunlap Falls is great example how we working together as a community can bring positive results.” – Councilwoman Thelda Williams

Councilwoman Williams and Duke Stone of Churchill Capital, talk about the renovation of Dunlap Falls.

Councilwoman Williams with the Support of the Phoenix Police Department, celebrate the Grand Opening of Dunlap Falls.

Flor Aparicio, Regional Manager of Chamberlin and Associates and Councilwoman Williams share ideas during the Grand Opening at Dunlap Falls.

Newly renovated unit at Dunlap Falls, 333 West Dunlap Avenue.
AFTER DARK IN THE PARK

On Saturday, June 25th, from 7:00 – 9:00 p.m., The City of Phoenix Parks and Recreation Department, along with the Deer Valley Bingo Committee, will be hosting After Dark in The Park.

Join us for this FREE event, including cuisine from local vendors, live music by The Big Zephyr, the band from Barry Goldwater High School, community booths, water slides, immunizations, inflatables for the kids and a SPECTACULAR fireworks show! Don’t miss this event at the Deer Valley Park, located at 19602 North 19th Avenue!

For additional information, please call 602-495-3735.

PIMA MEDICAL INSTITUTE--PHOENIX CAMPUS RIBBON CUTTING

On Thursday, Pima Medical Institute unveiled its new, 37,500-square-feet campus, conveniently located at Thunderbird Road and Interstate 17.

Pima Medical Institute is a private, accredited school that provides students with classroom studies paired with hands-on experiences for students seeking health care professions, including medical, dental, veterinary and nursing fields. The new campus offers in-demand healthcare education programs such as veterinary technician, veterinary assistant, dental assistant, medical assistant and more.

Pima Medical Institute operates 16 campuses with a presence in eight states, including Arizona, California, Colorado, Montana, Nevada, New Mexico, Texas and Washington.
CITY NEWS & EVENTS

UPCOMING PUBLIC CITY MEETINGS

- Neighborhoods, Housing and Development Subcommittee Meeting – Tuesday, June 21st, 2016 at 10:00 a.m. in Assembly Rooms A, B, and C, Phoenix City Hall, 200 West Washington Street.
- City Council Policy Meeting – Tuesday, June 21st, 2016 at 2:30 p.m. in Phoenix City Council Chambers, 200 West Jefferson Street.
- City Council Formal Meeting – Wednesday, June 22nd, 2016 at 2:30 p.m. in Phoenix City Council Chambers, 200 West Jefferson Street.
- Zoning Adjustment Hearing – Thursday, June 23rd, 2016 at 9:00 a.m. in Assembly Room C, Phoenix City Hall, 200 West Washington Street.

For more information on these and all other public City meetings visit:

JOIN US ON JUNE 20TH FOR SUMMER SOLSTICE AT BURTON BARR CENTRAL LIBRARY!

Join us on June 20th for the 21st annual Summer Solstice Celebration! Herald the first day of summer and the longest day of the year while marveling at the architectural magic of Burton Barr Central Library with its renowned architect, Will Bruder. Watch from the unique vantage point of the Great Reading Room as man-made engineering collaborates with the sun, the most important source of energy for life on Earth, to reveal the moment of solstice.

The free, day-long celebration includes presentations, music, STEM crafts, Rare Book Room Press-a-Verse, library card and summer reading game sign up and a viewing of the summer solstice phenomenon. Don’t miss out on this unique community tradition!

For more information visit our website at:
http://www.phoenixpubliclibrary.org/
**BURN SAFETY AND INFORMATION**

The temperature this weekend in Phoenix is forecasted to reach 119 degrees! It will be easy to come into contact with things that can burn us – this is especially true for infants and children.

What is the leading cause of burns to infants and children under the age of five?

A. Flame  
B. Scald  
C. Electrical  
D. Chemical

Hint: We have been aware of the dangers of leaving kids and pets in cars, how to stay cool and recognize signs of heat injuries, but what about something we will all be looking for during the heat? WATER. Three are dangers associated with water and high temperatures.

*Please look for the answer to the question and additional information later in the newsletter.*

**CITY NEWS**

**PHOENIX CITY COUNCIL APPOINTS DEBRA STARK TO FILL DISTRICT 3 COUNCIL SEAT UNTIL SPECIAL ELECTION**

The Phoenix City Council appointed Debra Stark to serve as the District 3 Councilmember until a special election is held. That special election will determine the councilmember to fill the remainder of the term, which runs through 2019.

The City Charter states that when a vacancy occurs with more than one year remaining in the term, the City Council must appoint an individual to fill the vacancy until a special election is held to fill the remainder of the term.

The Phoenix City Council is scheduled to vote on a request at the June 15 formal meeting to hold a special election on Nov. 8, 2016 to fill the District 3 Council seat for the remainder of the term. If during the special election no candidate receives a majority (50% + 1) of the votes cast for the office, the City Charter requires a Runoff Election between the two candidates receiving the greatest number of votes in the November Election. The first available date under state law for the Runoff Election would be March 14, 2017.
CONTRACT FOR PALM FRONDS DIVERSION

In 2013, the City Council adopted the goal of diverting 40 percent of trash from the landfill by the year 2020. To achieve that goal, the Public Works and Community and Economic Development Departments have been collaborating on a strategy to create public-private partnerships to build the City’s circular economy, i.e., redirecting materials back into the economy instead of sending them to the landfill. Last year, palm fronds were identified as a waste material that has economic value and can readily be separated from the waste stream. The City receives an estimated 34,000 tons of palm fronds annually.

Palm Silage proposes a phased approach to processing palm fronds at the Resource Innovation Campus. In the first phase, Palm Silage will lease approximately six acres of undeveloped land on which to dry and grind palm fronds. In the second phase, expected to begin upon receipt of all required approvals and permits, Palm Silage’s lease will expand to approximately 10 acres and its operations will expand to include manufacturing livestock feed from the palm fronds. The annual lease rate will be $7,840.80 per acre. Palm Silage will be responsible for all costs associated with developing its leased manufacturing site.

The City currently spends approximately $17 per ton to transport and landfill palm fronds. Palm Silage is a California corporation that has been producing livestock feed since 2011. Its feed products for cows, hogs, goats and chickens are sold in Arizona, California, Montana, Nevada, Utah and Wyoming.

CITY OF PHOENIX FLOODPLAIN MANAGEMENT PLAN UPDATE

The City’s current Floodplain Management Plan was prepared in 1992. The Plan provides an overall strategy of programs, projects and mitigation measures aimed at reducing the adverse impacts of flood hazards on a community. The Plan also identifies flood risks, their impact to the community, and provides a prioritized action plan for reducing flood risks.

Street Transportation Department staff has updated the Plan to meet the current Federal Emergency Management Agency (FEMA) National Flood Insurance Program (NFIP) guidelines, to reflect the City’s historic and current floodplain management efforts, and strengthen the support and opportunity for residents’ cost savings on flood insurance premiums.

The updated 2016 Plan prioritizes flood management activities, identifies improvement projects to reduce flooding risks, educates the public, increases local awareness of flooding risks, and creates successful partnerships with local, county, and government agencies.

The proposed 2016 Floodplain Management Plan reflects the City’s floodplain management efforts, which contribute to the Flood Insurance Administration class rating. Since 1991, the City has improved its Community Rating System (CRS) class designation by implementing floodplain management activities that have resulted in increased insurance premium savings for City residents. Flood insurance policies are renewed in October and April of each year. As of March 31, 2016, the City has 5,070 flood insurance policies in force and residents have received a total annual CRS insurance policy discount of $689,550.
Residents currently benefit from the following:

- 20 percent reduction in insurance premiums for properties located within a FEMA-designated Special Flood Hazard Area.
- 10 percent reduction in insurance premiums for properties located outside of a FEMA-designated Special Flood Hazard Area.

The draft Floodplain Management Plan is available electronically on the City's Floodplain Management website: https://www.phoenix.gov/streets/floodplain-management

**Luke West Valley council Meeting and Luke Community Partnership Program Memorandum of Understanding Signing**

“Through the program, we have identified requirements and needs amongst all the partners and collaborated to strengthen the mission capability of Luke Air Force Base, while at the same time, increasing the economic vitality and quality of life for the surrounding community,” said Brig. Gen. Scott Pleus, 56th Fighter Wing commander.

This partnership provides an ongoing framework and offers a means to effectively combine and use capabilities to enhance mission effectiveness and reduce costs. In its fourth year, the overall Air Force P4 program has matured in guiding installations and communities to identify partnership opportunities across the spectrum of installation services and mission support.

While partnerships have existed between bases and the surrounding communities for decades, this program is a means for Luke and the community to come together on initiatives that
promote positive change for those involved while having the oversight and staff support of Headquarters Air Force.

The community partners include the City of Avondale, City of Buckeye, City of El Mirage, Town of Gila Bend, City of Glendale, City of Goodyear, City of Litchfield Park, City of Peoria, City of Phoenix, City of Surprise, City of Tolleson, Town of Wickenburg, Town of Youngtown, and Maricopa County.

**NEW WILDFIRE AIR TANKER ARRIVES AT MESA-GATEWAY**

Meet the Avro RJ85, an upgrade in aircraft that fight wildfires. The newest generation of air tanker has made it to Mesa Gateway airport. It's bigger, it's faster, it holds more products and it's safer for pilots.

"We're looking in upwards of 1,000 gallons more than what they would have before," said John Price, the assistant tanker base manager at Mesa-Gateway Airport. The aircraft is almost twice as fast as previous aircraft that have fought fires in Arizona.

"It's something that can make or break a fire," said Price. "So speed is paramount for us. To be able to get to and from and get reloaded and back in the air."

The tank that holds the retardant swells at the belly of the plane and holds about 3,000 gallons. The resource helps Arizona firefighters train until wildfire season kicks in. At any moment it can also leave to serve the needs of the nation. - 2016 KPNX

**TRANSFORMERS FILMING IN PHOENIX**

Filming a "Transformers" movie is taking longer than expected which means the Loop 303 west of the Interstate 17 will stay closed for a few extra days. The section of the freeway was supposed to reopen on Wednesday at 11:30 p.m. but the Arizona Department of Transportation said on Wednesday night the closure will extend through 3 a.m. Saturday. The area is between I-17 and Lake Pleasant Parkway. Motorists will be directed to a detour on State Route 74, which is 2 miles north of the Loop 303 alignment. ADOT officials say Paramount Pictures obtained a permit from them to film there. The production has about 300 people at locations in Arizona for nearly three weeks.

"Transformers: The Last Knight" is scheduled to be released next year. The movie's cast includes Mark Wahlberg and Anthony Hopkins and is being directed by Michael Bay. ADOT says the department regularly issues permits at no cost to film within a highway right of way. The agency's requirements for film permits safeguard taxpayer dollars and the taxpayers' investment in state highways, ADOT said. This includes making sure there is no cost to the state. - 2016 KPHO/KTVK

Filming took place on the Loop 303, at a large salvage yard nearby and stunts were practiced at the Phoenix Fire Department training facility on Lower Buckeye Road.
CITY MANAGER’S REPORT

NEIGHBORHOODS AND LIVABILITY

On May 28, the Faye Gray Recreation Center partnered with Future Stars AZ to hold a Hands on STEM Fair event and the Rubber Band Car Derby Race. Two-hundred participants ranging from ages 6 to 17 had a hands-on experience at the Butterfly Explosion, Snap Circuit, Foam Rockets and Melted Crayon Art Work stations. All STEM participants who completed the nine-month program received a backpack full of goodies including Kindle Fires and the top two participants received a laptop computer or a tablet.

On June 2, Neighborhood Services and Planning and Development Department staff met with the Asian Pacific Community in Action (APCA), and Champion PR + Consulting, to discuss the Roland's Market building, located at 1505 E. Van Buren St. The building, which lies within the Garfield Redevelopment Area, was recently purchased by a group of local investors who want to redevelop the building for office space. APCA has been searching for a new location to expand their programs to better serve the community. The Roland’s Market was built in 1917 and the property is recognized as historic by the Asian American Historic Property Survey.

PUBLIC SAFETY

The City hosted the second annual “Ready for the Monsoon” media day in the early morning hours of June 14. The purpose of this event was to demonstrate to media and the public the City’s storm season response preparations. Staff from multiple departments were on-hand to demonstrate storm response, including Office of Emergency Management and Homeland Security, Communications Office, Fire, Police, Public Works, Street Transportation, and Parks and Recreation Departments. The event was held at Reach 11 and at the CAP canal in North Phoenix. As part of this year’s event, the Police Air Unit and the Fire Swift Water Rescue teams conducted a mock water rescue in the canal to demonstrate how the City’s first responders collaborate to save residents trapped in flooded waters.

On June 4, the annual Fiesta del Agua took place at Maryvale Pool. The popular free family-friendly CIGNA Summer event included CPR demonstrations by Fire Department staff, Save Our Summer water safety and drowning prevention information, a simulated water rescue, swim lesson demonstrations, a lifejacket safety booth, games, prizes, and an appearance from Aquatics mascot Buddy Bear for more than 400 participants. Fiesta del Agua is hosted through a partnership between the Parks and Recreation and Fire departments, CIGNA Healthcare, SRP, Watermill Express, and Maryvale Community Center.

INFRASTRUCTURE

Construction to extend the outer curb for the new Ride Share providers at Sky Harbor Airport began on June 2 and continued this week with concrete placement and saw cutting. Installation of conduit for the new Automatic Vehicle Identification system on the west end of the Terminal 3 north curb will also continue next week.
On May 26, a complaint was received about an automotive repair shop located on North Cave Creek Road for discharging automotive fluid into a storm drain. Water Services Department Collection staff provided a video of the illegal disposal activity. Stormwater Management staff inspected the storm drain system and observed evidence that the repair shop dumped automotive fluid into the storm drain that affected the 10th Street Wash Outfall. The shop was issued a field Notice of Violation, and the City of Phoenix Office of Environmental Programs was contacted to have the wash cleaned. The shop is required to develop a Stormwater Management Plan with Best Management Practices that focus on employee training, material storage, and proper material recycling and disposal.

Fifty-seven new buses arrived at the Transit West Facility. Fifty-three new buses have been inspected by Public Transit Department staff, with a total of 23 Gillig buses in service and operating out of the South Transit Facility. Public Transit facilitated a meeting with Gillig to review and finalize vehicle specifications for the next order of 40 40-foot buses. The buses will enter the manufacturing line beginning January 2017, with delivery dates estimated for second through third quarter 2017.

Public Transit is identifying candidate sites for bus stop shade structure installation. There are currently 345 active bus stops that have an existing transit pad with no shelter and no obvious right-of-way constraints. These locations will be given priority based on daily boarding. In addition, staff created a list of 730 locations where bus stops will be needed for future service associated with the T2050 plan. Many of the stops have a transit pad and many more will be getting them as part of planned road projects. As the infrastructure allows, the new stops will be added to the candidate site list.

Installation of left-turn arrows at the intersection of Greenway Parkway and Kierland Boulevard has been completed. The project also includes new signal poles and updates the pedestrian ramps on the corners.

Street Transportation crews completed installation of bike lanes at several locations as part of the Bicycle and Pavement Maintenance programs. Bike lanes were installed on Hearn Road from 7th to 12th Streets and on Maryland Avenue from Seventh Avenue to State Route 51. Bike lanes were also installed from 31st Avenue and Bell Road to Grandview Road and 29th Avenue as part of a street overlay project.

**BURN SAFETY AND INFORMATION**

What is the leading cause of burns to infants and children under the age of five?

A. Flame  
B. Scald  
C. Electrical  
D. Chemical

Answer B: The leading cause of burns to infants and children under the age of five is: Scald burns. Unintentional tap water scalds are common in infants and young children. Food and beverage related scald burns increase as a child becomes more mobile and independent. Never carry or hold a child while eating or drinking hot liquids. The average cup of freshly poured coffee is approximately 180 degrees and can cause very deep burns (i.e. third degree or full thickness) almost instantaneously.

According to the Phoenix Fire Department, when the air temperature is 115 degrees, the water in the garden hose can be as hot as 150 degrees. At that temperature, a ten or thirty second exposure can cause second degree burns. Nine month old Nicolas (pictured below) received second degree burns to 30% of his body when his mom accidentally sprayed him as she was filling up a kiddie pool and was not aware how hot the water was. When using water outside, be sure to test it before letting kids come in contact with it.

For more information on preventing scald burns to all ages, visit:  
GREAT ANIMAL CHARITIES TO DONATE TO:

ANIMAL CRUELTY TASK FORCE: Need cases of water, 5 lb. bags of dog/cat food, bowls, towels, collars and leashes. Bring items to our DVPNBWO / BMCA Meetings on the 2nd Wednesday of each month at the DVCC or drop them off anytime at the Black Mountain Precinct at 33355 North Cave Creek Road, Phoenix AZ, 85331.
