

**City of Phoenix**

OFFICE OF THE CITY COUNCIL

May 20, 2017

Mr. Zuercher:

This is a formal request for all public records pertinent to the ongoing investigation into the City of Phoenix over allegations of public corruption. This includes the names of the two staffers at the center of this investigation and all documents that have been turned over to the Arizona Republic. Furthermore, I am requesting any and all documents related to these employees' disciplinary history during their tenure with the City of Phoenix, and the circumstances surrounding any such disciplinary action.

It troubles me that the Mayor and Council were not notified of this investigation in a timely manner. The reluctance shown by you and Brad Holms to allow for transparency within city government is a violation of your obligations as City Manager and causes me great concern.

This is on the heels of watching the acting airport director falsify information surrounding flight plan changes and then getting a slap on the wrist. Flight plan changes that impacted thousands of our citizens, their property values and their quality of life.

Please deliver all this information by the end of the day (May 20, 2017).

Thank you for your cooperation.

Sincerely,

A handwritten signature in black ink that reads "Sal DiCiccio". The signature is written in a cursive, slightly slanted style.

Sal DiCiccio  
Phoenix City Council
