

**Born of a partnership between SMCC and Base 11, the Engineering Lab is a campus-based MIT-inspired FabLab.**

**Complete with manufacturing equipment students use through formal courses or innovative individual projects, the Engineering Lab prepares students for 21st century STEM jobs with the hands-on experience benefitting students and industry.**

**South Mountain  
Community College**

# ENGINEERING LAB

An integral part of South Mountain Community College's revamped engineering program, the Engineering Lab provides industry-level experience, including Solidworks certification. Students carry this experience into an engineering technology career or towards advanced education with a four-year degree program.
