

Just The Facts

Phoenix Sky Harbor International Airport has experienced **a 50% increase** in passenger activity since 1995. In 2019, Wall Street Journal ranked Sky Harbor the best airport in the nation among the 20 largest.

The average number of passengers at Sky Harbor is **126,000 per day**.

Nearly 46 million passengers traveled through Sky Harbor in 2019. An additional 125,000 people come to the airport each day, including employees and passengers' friends, families and drivers.

The Airport handles an average of **1,000 tons** of cargo daily with destinations around the world.

Each day, there are more than 1,200 take-offs and landings including commercial, general aviation, military and cargo flights making a total of more than 430,000 per year.

Sky Harbor has more than 20,000 parking spaces. More than 11,000 of those are economy spaces.

Economic Impact

The Phoenix Airport System is the **largest economic engine** in the State of Arizona.

As a major component of the metropolitan Phoenix economy, the Phoenix Airport System creates jobs, income and revenues both on and off the Airport. The total economic impact (including multiplier effects) is \$38 billion. **It supports 269,000 jobs in Arizona, with a payroll of \$13 billion.**

The Phoenix Airport System is also a source of employment and payroll for airline employees, food service, security and air traffic control personnel. **In 2019, Sky Harbor employed more than 57,000 people.**
