Subject: Economic Impact Report
Fiscal Year 2005-2006

The recent implementation of the new Arizona Motion Picture Tax Incentive has rekindled interest in Phoenix as a hot spot for filming. Boasting a wide array of locations, skilled crew, film friendly communities and talent base, Phoenix has seen an increase in all areas of production. Last year, film production in Phoenix created jobs for our local film professionals and produced over \$35,010,000 (+51%) for our local economy.

Fox Searchlight, Universal Pictures, MTV, BBC, Nickelodeon, HGTV, Discovery Channel and ESPN were among those that chose Phoenix as their location destination.

Phoenix hosted "The Kingdom" starring Jamie Foxx and Jennifer Garner and "The Savages" starring Phillip Seymour Hoffman and Laura Linney as well as, "While You Were Out", "First 48", "Animal Planet's Rescue Heroes" and "Medical Miracles". Commercial and print projects included Suzuki, Alev, Major League Baseball, Swift Transportation, Lincoln Navigator, Audi and more. Production highlights are attached.

These figures were compiled from local and out of state production companies and the Association of Film Commissioners International's Tracking System.
