CITY MANAGEMENT

CITY MANAGER   ED ZUERCHER
CITY ENGINEER   KINI L. E. KNUDSON, PE
The City of Phoenix is seeking a qualified consultant team to provide engineering construction administration and inspection services for the rehabilitation of approximately 5,070 total linear feet of 90 to 96-inch Prestressed Concrete Cylinder Pipe (PCCP) water transmission main.

**SECTION I – PROJECT DESCRIPTION**

In 2005, several consultants completed a rehabilitation design for a portion of the Val Vista Transmission Main that included pipe sizes ranging from 72-inch to 108-inch diameter pipe segments. Construction followed after the completion of the design; however, not the entire 13.3 miles was constructed at that time. The majority of the Val Vista Transmission Main that traverses through the City of Mesa to the Val Vista Water Treatment Plant still requires slip lining or rehabilitation.

The Val Vista Transmission Main Rehabilitation – 2016 contract will be the first segment of rehabilitation. The Val Vista Scoping Analysis has determined four sections of the Val Vista Transmission Main that requires priority slip-lining of approximately 5,070 LF of 90 to 96-inch transmission main. These four sections correlate to the Val Vista Transmission Main Rehabilitation 2005 design at portals (access locations) 11W, 9, 10, 11, 13A, 13B, and 3. New construction documents and slip-lining details will be created for the sections of transmission main related to these portal locations.

This project will be constructed under a Construction Manager at Risk (CMAR) contract.

**SECTION II – SCOPE OF WORK**

Services provided by the Construction Administration and Inspection consultant will include, but may not be limited to the following items:

- Participation in final design meetings and review of construction plans and specifications
- Review of and recommendations regarding cost models/GMPs provided by the CMAR contractor

- Authorize changes as necessary due to construction or other issues arising from the work.

- Review shop drawings and test results
- Perform record keeping and maintain project documents including correspondence, schedules, submittals, test data, payments, meeting minutes, specifications, drawings, photographs, shop drawing, as-builds, etc.
- Review and certification of progress payments and change orders
