CITY ENGINEER  KINI L. E. KNUDSON, PE
REQUEST FOR QUALIFICATIONS

The City of Phoenix is seeking a qualified Construction Manager at Risk (CMAR) to provide preconstruction services and complete construction services with the City for construction of the Phase 1 Design for rehabilitation of Union Hills Water Treatment Plant (UHWTP) reservoir 3D-ES2. The selected CMAR will work as a team with the design engineers and City staff to ensure an efficient design approach for the project. This project site is located at 2001 E. Deer Valley Road. The estimated total cost for construction for this project is $2.8 million which is currently funded in fiscal year 2019/20.

A Small Business Enterprise (SBE) goal will be established prior to the start of construction.

SECTION I - PROJECT DESCRIPTION

The City of Phoenix Reservoir 3D-ES2 is located within the UHWTP site boundaries. The 40 million-gallon (MG) reservoir was originally constructed in 1983 and serves as the main source of water for the City of Phoenix's northeast pressure zones, and more specifically Zone 4A and 5E Booster Pump Stations, both of which pull water directly from the reservoir. There is also no means to isolate the reservoir from the finished water pump station wet well. In 2008 and 2015 reservoir inspections and assessments were completed, which revealed the need for rehabilitation of the roof, floor liner system, and ventilation system. To accommodate balancing water distribution system needs with limited shutdown windows, it was determined that phased design and construction would be necessary to first isolate the pump stations from the reservoir.

The construction services for UHWTP reservoir 3D-ES2 includes planning and design for isolation, relocation, and/or modification of existing booster pump stations 4A-B4 and 5E-B4 which both reside within the reservoir. Planning and design services will assist to determine methods of UHWTP operation during rehabilitation and will work with staff to develop water system operation during construction.

The City of Phoenix has selected a consultant to prepare design plans for the rehabilitation of 3D-ES2 under a separate request. The selected CMAR will work as a team with the design professional and City staff to ensure an efficient and consistent design approach for the project.

SECTION II – SCOPE OF WORK

The Construction Manager at Risk will begin with the firm in an agency support role for preconstruction services. The CMAR will assume the risk of delivering the project through a Guaranteed Maximum Price (GMP) contract. The CMAR will be responsible for construction means and methods, and will be required to solicit bids from prequalified subcontractors to perform the work using the City's subcontractor selection process. The CMAR may also compete to self-perform limited amounts of work. The GMP must be submitted in MAG or CSI format or it will not be accepted.

A. Preconstruction phase services by the CMAR may include the following:

- provide detailed cost estimating and knowledge of marketplace conditions;
- provide project planning and scheduling;
- provide for construction phasing and scheduling that will minimize interruption to City operations;
- provide alternate systems evaluation and constructability studies;
- advise City on ways to gain efficiencies in project delivery;
- provide long-lead procurement studies and initiate procurement of long-lead items;
- assist in the permitting processes;
- participate with the City in a process to set a goal for local and SBE participation and implement the local and SBE process;
- select subcontractors/suppliers for this project (see “Subcontractor Selection Plan” attached as Exhibit A);
- protect the City’s sensitivity to quality, safety, and environmental factors; and
- advise the City on choosing green building materials.

B. Construction phase services by the CMAR may include:
• construct the Phase 1 Design for rehabilitation of the UHWTP reservoir 3D-ES2;
• select subcontractors/suppliers for this project;
• prepare a Guaranteed Maximum Price (GMP) proposal that meets the approval of the City;
• coordinate with various City of Phoenix departments, other agencies, utility companies, etc.;
• arrange for procurement of materials and equipment;
• schedule and manage site operations;
• bid, award, and manage all construction related contracts while meeting City bid requirements including the local and SBE participation goal;
• provide quality controls;
• bond and insure the construction;
• address all federal, state and local permitting requirements;
• resolve owner issues; and
• maintain a safe work site for all project participants.

 SECTION III – SMALL BUSINESS ENTERPRISE (SBE) REQUIREMENTS

Only firms whose physical business is located within Maricopa County are eligible to meet the SBE subcontracting goal, which will be set prior to the construction phase of this project. The final goal will be based on SBE subcontractor availability.

 SECTION IV - PRE-SUBMITTAL MEETING

A pre-submittal meeting will be held on Friday, December 1, 2017, at 2:00 p.m., local time, at Phoenix City Hall, 5W Conference Room, located at 200 W. Washington Street, 5th Floor, Phoenix, Arizona. At this meeting, City staff will discuss the scope of work, general contract issues and respond to questions from the attendees. As City staff will not be available to respond to individual inquiries regarding the project scope outside of this pre-submittal meeting, it is strongly recommended that interested firms send a representative to the pre-submittal meeting.

2.8 MAJOR SUBCONTRACTOR AND MAJOR SUPPLIER SELECTIONS

2.8.1 The selection of major Subcontractors and major Suppliers may occur prior to submission of a GMP Proposal. Major Subcontractors may be selected based on qualifications or a combination of qualifications and price. Subcontractors shall not be selected based on price alone. Except as noted below, the selection of major Subcontractors/Suppliers is the responsibility of the CMAR. In any case, the CMAR is solely responsible for the performance of the selected Subcontractors/Suppliers.

2.8.1.1 The CMAR will prepare a Subcontractor/Supplier selection plan and submit the plan to the City for approval. This subcontractor selection plan shall identify those subcontractor trades anticipated to be selected by qualifications only per Section 2.8.2 and those subcontractor trades anticipated to be selected by qualifications and competitive bid in accordance with Section 2.8.3. This plan will also identify those subcontractors that will not be selected through a formalized qualifications-based selection process. The subcontractor selection plan must be consistent with the selection requirements included in this Contract.

2.8.2 Selection by qualifications only - The City may approve the selection of a Subcontractor(s) or Suppliers(s) based only on their qualifications when the CMAR can demonstrate it is in the best interest of the Project.

2.8.2.1 Qualification based selection of a Subcontractor(s)/Supplier(s) should only occur during the design phase to achieve maximum benefit of the subcontractors’ involvement prior to the submittal of the GMP Proposal.

2.8.2.2 The CMAR shall apply the approved subcontractor selection plan in the evaluation of the qualifications of a Subcontractor(s) or Supplier(s) and provide the City with its review and recommendation.

2.8.2.3 The CMAR must receive City approval of the selected Subcontractor(s)/Supplier(s).

2.8.2.4 The CMAR will negotiate costs for services/supplies from each Subcontractor/Supplier selected under this method.

2.8.3 Selection by qualifications and competitive bid - The CMAR shall apply the subcontractor selection plan in the evaluation of the qualifications of a Subcontractor(s) or Supplier(s) and provide the City with its process to prequalify prospective subcontractors and suppliers. All Work for major subcontractors and major suppliers shall then be competitively bid to the prequalified subcontractors unless a Subcontractor or Supplier was selected pursuant to paragraph 2.8.2 above. Competitive bids may occur prior to or after the GMP Proposal(s).

2.8.3.1 The CMAR will develop Subcontractor and Supplier interest, submit the names of a minimum of three qualified Subcontractors or Suppliers for each trade in the Project for approval by the City and solicit bids for the various Work categories. The CMAR will identify the SBE Subcontractors and Suppliers and during the bidding process keep the City informed on the progress of meeting the desired SBE goals. If there are not three qualified Subcontractors/Suppliers available for a specific trade or there are extenuating circumstances warranting such, the CMAR may request approval by the City to submit less than three names. Without prior written notice to the City, no change in the recommended Subcontractors/Suppliers will be allowed.

2.8.3.2 If the City objects to any nominated Subcontractor/Supplier or to any self-performed Work for good reason, the CMAR will nominate a substitute Subcontractor/Supplier that is acceptable to the City.
2.8.3.3 The CMAR will distribute Drawings and Specifications, and when appropriate, conduct a prebid conference with prospective Subcontractors and Suppliers.

2.8.3.4 If the CMAR desires to self-perform certain portions of the Work, it will request to be one of the approved Subcontractor bidders for those specific bid packages. The CMAR’s bid will be evaluated in accordance with the process identified below. If events warrant and the City concurs that in order to insure compliance with the Project Schedule and/or cost, the CMAR may self perform Work without bidding or re-bidding the Work.

2.8.3.5 The CMAR shall request the pre-qualified subcontractors to provide a detailed bid for the services requested. The subcontractor bid, provided on the subcontractors’ letterhead, shall contain sufficient information (i.e. unit costs/amounts) to allow an evaluation of the reasonableness of bid costs. The CMAR shall receive, open, record and evaluate the bids. The apparent low bidders will be interviewed to determine the responsiveness of their proposals. In evaluating the responsiveness of bid proposals the CMAR, in addition to bid price, may consider the following factors: past performance on similar projects, qualifications and experience of personnel assigned, quality management plan, approach or understanding of the Work to be performed, and performance schedule to complete the Work. The final evaluation of Subcontractor/Supplier bids will be done with the City Representative in attendance to observe and witness the process. The CMAR will resolve any Subcontractor/Supplier bid withdrawal, protest or disqualification in connection with the award at no increase in the Cost of the Work.

2.8.4 The CMAR will be required to prepare two different reports on the subcontracting process.

2.8.4.1 Within fifteen Days after each major Subcontractor/Supplier bid opening process, the CMAR will prepare a report for the City’s review and approval identifying the recommended Subcontractors/Suppliers for each category of Work. The report will provide (a) the name of the recommended Subcontractor/Supplier and the amount of the Subcontractor/Supplier bid for each subagreement, (b) the sum of all recommended Subcontractor/Supplier bids received, (c) a copy of the bids received from each subcontractor, and (d) trade work and its cost that the CMAR intends to self-perform, if any.

2.8.4.2 Upon completion of the Subcontractor/Supplier bidding process, the CMAR shall submit a summary report to the City of the entire Subcontractor/Supplier selection process. The report will indicate, by bid process, all Subcontractors/Suppliers contacted to determine interest, the Subcontractors/Suppliers solicited, the bids received and costs negotiated, and the recommended Subcontractors/Suppliers for each category of Work.

2.8.5 The approved Subcontractors/Suppliers will provide a Schedule of Values that reflects their final accepted bid proposal, which will be used to create the overall Project Schedule of Values.

2.8.6 If after receipt of sub-bids or after award of Subcontractors and Suppliers, the City objects to any nominated Subcontractor/Supplier or to any self-performed Work for good reason, the CMAR will nominate a substitute Subcontractor or Supplier, preferably if such option is still available, from those who submitted Subcontractor bids for the Work affected. Once such substitute Subcontractors and Suppliers are consented to by the City, the CMAR’s proposed GMP for the Work or portion thereof will be correspondingly adjusted to reflect any higher or lower costs from any such substitution.

2.8.7 Promptly after receipt of the Notice of Intent to Award, the City will conduct a pre-award conference with the CMAR and other Project Team members. At the pre-award conference, the CMAR will (a) review the nominated slate of Subcontractors and Suppliers and discuss any concerns with or objections that the City has to any nominated Subcontractor or Supplier; (b) discuss City concerns relating to any proposed self-performed Work; (c) review the CMAR’s proposed Contract Price for the Work during the construction phase; (d) discuss the conditions, if any, under which the City will agree to leave any portion of the remaining CMAR Contingency within the Contract Price for the construction phase Work; (e) resolve possible time frames for the Date of Commencement of the Contract time for the construction phase Work; (f) schedule the pre-construction conference; and (g) discuss other matters of importance.
