

*~ In Memory of ~
James Leo Fleming
December 9, 1951 – April 20, 2011*

James L. Fleming, D.O. passed away at home on April 20, 2011 after a lengthy illness. He was 59 years old. Dr. Fleming served as the Medical Director for the Phoenix Fire Health Center and was recognized internationally for his work in firefighter wellness. He spoke at conferences around the country and was considered an expert on this subject. He coauthored, or participated in a number studies pertaining to firefighter wellness, as well as participating in various NIOSH projects while serving at the Health Center. Dr. Fleming was a tremendous asset to the Health Center and was well liked and respected by the Health Center staff, management and the Phoenix Fire Department family.
He will be sincerely missed.
