

**City of Phoenix**

## **ELECTRICAL INSPECTOR II ASSIGN: INDUSTRIAL PLANT PROGRAM/PLANS REVIEW**

**JOB CODE 60231**

Effective Date: Rev. 1/17

### **DISTINGUISHING FEATURES OF THE ASSIGNMENT:**

The Electrical Inspector II assigned to Industrial Plant Program/Plans Review is responsible for performing plans review functions in addition to inspection activities. Incumbents of the assignment are either assigned to work the Industrial Plant Program or perform plans review in the Plans Review and Codes Division of the Development Services Department. Each incumbent is responsible for reviewing and approving electrical plans for compliance to the Uniform Electrical Code and City of Phoenix Code.

Assignment to the Industrial Plant Program requires the incumbent to meet with representatives of large industrial plants and facilities to discuss, inspect, and report unsafe conditions or noncompliance to code.

Assignment to the Plans Review and Codes Division requires the incumbent to review and evaluate electrical plans for compliance to requirements of the Electrical Code prior to approving issuance of a building permit. Appointments made to this assignment are based on the department's critical demand for assistance in plans review.

This assignment differs from the class of Electrical Inspector II due to the broader range of duties including plans review, in addition to inspection activities.

### **Additional Requirements:**

- Obtaining a combination of discipline specific commercial certifications or licenses may be required for some positions depending on department or section assignment.
