

City of Phoenix

**HEAVY EQUIPMENT MECHANIC
ASSIGN: MOBILE REPAIR**

JOB CODE 73112

Effective Date: 08/93

DISTINGUISHING FEATURES OF THE ASSIGNMENT:

The Heavy Mechanic on Mobile Repair assignment operates independently when out on calls to provide maintenance services to City vehicles such as Rapid Rail, Shu-Paks, Rear Loaders, light to heavy-duty trucks and occasionally Police Cars. The repairs are made on-the-spot within the capability of tools and parts carried on the mobile van. The employee diagnoses and makes repairs on electrical, cooling and fuel systems; instruments; steering mechanisms; transmissions; brakes and drive lines; hydraulic systems and engines. When not out on a Service Call, this employee performs the normal duties of a Heavy Equipment Mechanic in the shop. This assignment differs, from a Heavy Equipment Mechanic, in that the employee frequently goes on service call throughout the City and operates independently when on these assignments.
