Q: Are gasoline costs different than mileage reimbursement costs?
A: Yes, there is a difference, gasoline is not an eligible expense. Mileage is eligible, as long as the mileage expense was approved in the agency’s budget. Contact your assigned project manager for additional information.

Q: Is the fiscal year 20-21 or 21-22 for this contract?
A: You will be reporting your data for July 1, 2021 – to the end of the contract period of June 30, 2022. The reason why it states 20-22 in the presentation is because the 2020-21 fund was suspended due to the pandemic and now the suspension has been released and more agencies have been given the opportunity to apply for this grant through the use of 20-21 and 21-22 funding.

Q: If we’d like to get our first reimbursement in September for services in August instead of reimbursement in August for July? I ask because a bulk of services
coincide when school begins in August and our summer renderings happen during the month of June.

A: That is acceptable. The agency will need to submit the reimbursement report for the entire contract duration, even if there are zero expenses, in order to report program accomplishments. Contact your Project Manager for guidance on how to submit for zero expenses.

Q: Can you repeat that indirect costs are not allowed? We have a federally negotiated indirect cost rate agreement. Is that a new development that Indirect Costs are not allowed?

A: Only direct costs are allowed for this grant and that information was provided in the RFP application. If you have indirect costs listed on the proposal budget, please contact your Project Manager to discuss revising the budget.
