- 5. Colorado River Update and Phoenix Drought Management Plan**  
Cynthia Campbell, Water Services Department, Water Resources Management Advisor provided information regarding the update on the Colorado River. Currently the Colorado River is seeing the driest conditions in 1,200 years. The City of Phoenix Water Services Department Director Troy Hayes declared a stage one water alert on June 1, 2022. There is a focus on addressing a reduction of Colorado River water. The U.S. Bureau of Reclamation is taking measures working with other cities and tribal councils to help create efficiency as there is an anticipated hotter and dryer future. The City of Phoenix has worked hard at developing a robust 100-year water supply. Additionally, the City is committed to reducing water use and working with the community on water conservation efforts and intensive public outreach. Water conservation efforts include a plumbing retrofit in Phoenix City Hall, use of saline in the Phoenix Sky Harbor Airport cooling towers, toilet rebate programs for qualified residents, online water calculators that tells how much and when to water landscaping, and education and training programs such as the four-week Phoenix Water Wranglers class for those 18 years old and over. Next class starts on June 30, 2022.
