

GENERAL PLAN AMENDMENT STAFF ANALYSIS July 14, 2017

Application: GPA-CTYW-1-17

Applicant: Planning Commission

<u>Current Map:</u> Street Classification Map

Requested Change: Additions/Deletions

Reason for Requested Change: To update the map with additions and deletions of

new platted roadways.

Staff Recommendation: Approval

BACKGROUND

The Street Classification Map was first adopted in 1961. The Map was last updated in 2007 with additions and deletions of new platted roadways. The Street Classification Map provides information on the City's street network, identifying the alignment and minimum right-of-way standards for existing and planned streets.

This is a "housekeeping" amendment intended to propose non-controversial changes for the map that do not warrant their own individual General Plan Amendments. The common reasons for changing the map are new road construction, map clean up or corrections, and traffic changes that require changing the street class or street cross section.

Exhibit 1 is a table that provides a detailed explanation of each individual amendment. The villages with changes are Camelback East, Deer Valley, Desert View, Encanto, Estrella, Maryvale, North Gateway, Paradise Valley, Rio Vista and South Mountain. Exhibits 2-11 are maps that show the location of each numbered street segment by village.

There are no proposed Street Classification Map changes to the Ahwatukee Foothills, Alhambra, Central City, Laveen, and North Mountain villages. As a result, these villages will not hear this request.
