Staff Recommendation	Approval

On May 4, 2021, the Desert View Village Planning Committee heard this request as an information only item. On December 7, 2021, the Desert View Village Planning Committee heard this request and recommended approval by a vote of 11-0.

The purpose of this addendum is to revise an error in the acreage calculated for the case and subsequently included in the staff report. The original acreage was incorrectly calculated at 217.86 acres when the east side of the site boundary was aligned with a zoning boundary further east. The amendment area has been remapped correctly to align with the property boundary, and the revised acreage of the site is 213.18 acres.

Additionally, the acreages for the existing and requested plan designations were corrected, as noted above. Staff is supportive of the request per the revised acreages.
