PLANNING & DEVELOPMENT DEPARTMENT

Central City South Interim Overlay District (CCSIO) Request for Administrative Review

The CCSIO District, as outlined in Section 656 of the Zoning Ordinance, requires administrative review by the Planning and Development Department for new development in the A-1 and A-2 industrial districts that are on parcels of less than 10 acres. The review will determine which screening and setback standards of the Commerce Park/General Commerce Park District shall apply. Where solid walls are required, other appropriate screening may be applied and/or waived. The decision of the Planning and Development Director can be appealed to the Planning Commission and ultimately to the City Council. For those uses or development standards that are considered non-conforming due to the CCSIO District, the new standards shall apply only to the expansion areas. The effective date of this overlay is August 2, 2002.
