

POST AT JOB SITE WITH PERMIT
(General Requirements and Instructions on the backside of form)

TO BE COMPLETED BY REGISTERED DESIGN PROFESSIONAL

Project Name:	Project Address:	Permit No.
		Plan Log No.
Project Owner/Owner's Agent Name:	Mailing Address:	Phone No.
Registered Design Professional of Record Name:	Mailing Address:	Phone No.
Firm Name:	Email Address:	Fax No.

As the Registered Design Professional, I hereby affirm that I am familiar with the design of this project and have been designated by the Owner/Owner(s) Agent as the registered design professional responsible for conducting the Electrical Observation Program required by the Phoenix Building Construction Code Section 110.3.10 and 1704. I have determined that the items checked below require Electrical Observation. I understand and agree to inform the project owner, the contractor(s), and the City of Phoenix Electrical Inspector about all Electrical Observation requirements.

(Seal, Sign & Date)

Y E S	N O ✓	ITEMS REQUIRING ELECTRICAL OBSERVATION (Attach Supplement if Necessary)
		Essential electrical systems for hospitals and outpatient surgical facilities governed by NEC Article 517
		Electrical systems over 600V
		Electrically Classified Locations except for gasoline dispensing or repair garages

Certificate of Compliance
I certify to the best of my knowledge the electrical requirements of the Phoenix Building Construction Code and approved plans and specifications have been complied with insofar as the portion of the work requiring electrical observation is concerned, except for those deviations that have been previously reported. A guarantee that the contractor has constructed the building in full accord with the plans and specifications is neither intended nor implied.

(Seal, Sign & Date)

CERTIFICATE OF ELECTRICAL OBSERVATION PROGRAM

The following are general requirements and instructions for processing the Electrical Observation Program form and general information for persons responsible for the special inspections.

GENERAL REQUIREMENTS:

Phoenix Building Construction Code (PBCC) Sections 110.3.10 and 1704 require Electrical Observation Inspections for the items specified in Section 1704.7 Electrical Observation includes, but are not limited to, visual observation of the Electrical system for conformance with the approved plans and specifications, at significant construction stages and at completion of the Electrical system, and submission of appropriate observation reports to the City of Phoenix Electrical Inspector. See the PBCC and PBCC Regulations/Interpretations for additional information and requirements.

The Electrical Observer shall be a qualified person who demonstrates competence to the satisfaction of the building official for the items requiring Electrical Observation. Competence shall be demonstrated by licensure as a Professional Electrical Engineer in the State of Arizona. These individual(s) shall be responsible for performing the Electrical Observation tasks and reports required by the PBCC and PBCC Regulations.

The Electrical Observer(s) must be the registered design professional responsible for the Electrical design, or another registered design professional designated by the registered design professional responsible for the Electrical design, to perform the Electrical observation.

INSTRUCTIONS

REGISTERED DESIGN PROFESSIONAL: Complete all information requested on this form. Indicate the ITEMS requiring Electrical Observation. Seal, sign and date the form. Submit to the city with the permit application whenever the code requires Electrical observations. This form may be reproduced in the construction plans in lieu of submitting separate sheets.

PLAN REVIEWER: Review the Electrical Observation Program form for accuracy and ensure that it identifies all work requiring Electrical Observation. Complete any missing information (i.e., project and/or permit numbers) if known and indicate on the permit(s) "Electrical Observation Required". The Electrical Observation form shall be processed before permit issuance.

CITY ELECTRICAL INSPECTOR: Review the Electrical Observations Program form for the name of the registered design professional responsible for the Electrical Observation Program. Address any Electrical Observation concerns of the Electrical Observer(s). Attend any necessary job conference related to Electrical Observation procedures. Review all required Electrical Observation and final reports.

ELECTRICAL OBSERVATION: The registered design professional responsible for the Electrical Observation shall complete a signed written report after each site visit requiring Electrical Observation. The Electrical Observer(s) shall ensure that all reports are posted with the permit at the job site and are available to the City of Phoenix Electrical Inspector for review. All deviations from the approved plans or specifications shall be brought to the immediate attention of the contractor for correction and, if uncorrected, to the responsible registered design professional and to the City of Phoenix Electrical Inspector.

The Electrical Observer shall submit a final signed report to the registered design professional and to the City of Phoenix Electrical Inspector providing final test results and stating whether the items requiring Electrical observation were, to the best of the observer's knowledge, in compliance with the approved plans and specifications and applicable workmanship provisions of the code. Final inspections approval and/or issuance of the Certificate of Occupancy will not occur until all Electrical Observation reports have been received and accepted by the City of Phoenix Electrical Inspector.
