

*Due to the COVID-19 pandemic, plan review turnaround times may be affected.

The information in this document is provided as a guideline for the completion of initial plan review turnaround times. **Goal** indicates the target number of calendar days to complete an initial plan review. **Average (AVG)** indicates the typical number of calendars days from the previous month to complete the initial plan review. Turnaround times can fluctuate as they are based on the monthly workload and complexity of the project. Plan review timeframes for the first and second correction cycles are typically slightly reduced if the corrections are not significant. For planning purposes please assume that staff will meet the longer of the two dates.
