Weekly Update

STAY UPDATED - STAY INFORMED - STAY SAFE

CORONAVIRUS
CITY SERVICES UPDATE
PHOENIX.GOV/NEWSROOM

Each week, we want to keep you updated on the latest information and news regarding the coronavirus, and related city impacts. Below is the latest communication to employees about what is happening:

- City Manager Podcast #7 (airdate: 4/10)
- City Manager Podcast #8 (airdate 4/15)
- Employee Updates Webpage
- Latest FAQs on Teleworking
- Latest Stories in the PHXNewsroom

During this unprecedented health emergency, many employees have been approved to temporarily telework. The city of Phoenix Information Technology Services (ITS) Department has several technology solutions to support teleworking:

- Web access to your email, files and other Microsoft products
- Virtual Private Network (VPN) access
- Teleconference conference tools and training
- Cybersecurity tips

Check out the full details about all the options.

Help Fill the Shelves

Hunger is one of the greatest threats to our community but together we can help. For many years during National Library Week, Phoenix Public Library has sponsored a food drive in partnership with St. Mary’s Food Bank Alliance. This year the need is greater than ever. Children are out of school and cut off from supplemental feeding programs, people are being laid off from their jobs, and our most vulnerable community members are in need of food assistance.

Due to our temporary closures, Phoenix Public Library is unable to accept food donations at local libraries - so we are asking you to support St. Mary’s Food Bank Alliance by making an online donation during our Fill The Shelves Campaign April 19-25, 2020. Together we can ease hunger in the Valley. Please consider making your donation today.

Census Completed?

Have you been counted yet? Completing the Census takes only a few minutes and will greatly help our community receive federal funding to pay for essential services. Visit my2020census.gov to fill out the Census questionnaire.

Check out page 2 of this newsletter for important safety tips regarding face masks or download the infographic.
FACE MASKS

REDDUCING THE RISKS OF COVID-19

The CDC recommends cloth face coverings (masks) in public, when social distancing isn’t possible.

N-95 respirators are not recommended and should be reserved for healthcare workers and first responders.

Employees are authorized to use their own face masks or cloth face coverings.

Face coverings can slow the spread of COVID-19 by containing germs that can spread through coughs and sneezes.

All safety precautions should be taken when wearing a face mask (i.e. proper care and handling).

Maintaining 6-feet social distancing remains important to slowing the spread of the virus.
