

## Emergency Notifications

Given current world events, the city of Phoenix is reminding employees that they can sign up for notifications through the city's emergency notification system (ENS) on their cell phones. This will ensure you have the most up-to-date information about our organization's operations, and can provide appropriate service and support.

Alerts have been used in the past to notify employees of major traffic issues, building closures and other significant or unexpected situations that would impact our employees or their work schedules.

Employees who are not currently in the system should have recently received an e-mail from ITS to help you sign up.

[Employees who are already registered should check and/or update their contact information.](#)

If you do not remember your login information, contact the Service Desk at 534-4357.

## Employee Health Clinic

The new healthcare clinic for city of Phoenix employees is now open, located inside Banner Urgent Care at First Street and Washington. If you are feeling sick during regular work hours, consider this location as an option to get help. All employees on a city health plan can use the clinic. Please arrange your schedule with your supervisor in advance. For more details, read this [frequently asked questions \(FAQs\).](#)

## Weekly Update

STAY UPDATED - STAY INFORMED - STAY SAFE

### CORONAVIRUS CITY SERVICES UPDATE

A blue silhouette of the Phoenix city skyline is positioned below the main title. A small red and white circular logo is located on the right side of the skyline.

The last few days have brought many changes to the way we all work and operate on a daily basis. You have no doubt received several emails from the city regarding health information, employee teleworking and how city services are affected.
