Census 2020 Campaign Begins

The city of Phoenix and the Maricopa County Association of Governments have launched the local iCount2020 Census participation campaign. An accurate and complete count is vital to Phoenix, as Arizona stands to receive roughly \$20 billion annually from an accurate 2020 census. That's nearly \$3,000 for every person counted. Each year, the U.S. government distributes more than \$675 billion to cities and states across the nation. This funding is used for schools, roads, hospitals, emergency services, etc. – all of which will impact every member of the community.

The census website includes FAQ's, privacy information, timelines on completing the census and the various ways people can complete the census. In addition, the website includes data about programs supported by census dollars and why it is important for Phoenix to get a complete and accurate count. Visit iCount2020.info.

"Address Canvassing" Underway

The U.S. Census has begun its address canvassing for the 2020 Census. This means that in order to collect advanced data and information, census workers might be going door-to-door in your neighborhood. The information they collect will help ensure address details are current and accurate. Also, the Bureau hopes that interacting with individuals will inform and motivate people to participate in the April 2020 census. For more information, including how to recognize census workers, visit iCount2020.info.

Scooters Around Downtown Area

A pilot program to bring electric scooters to downtown Phoenix begins Sept. 16. The City Council approved a six month pilot program, which will be evaluated throughout its duration. For more information about the program including its boundaries, ridership guidelines and safety tips, visit Phoenix.gov/Scooters.
