

Neighborhood Notification: Bicycle Improvements on Roeser Road from 37th Street to 40th Street

As part of the Street Transportation Department's core mission, we strive to improve the City's roadways to create a safe and efficient transportation network. Our ongoing pavement maintenance program provides opportunities to change the current traffic lane striping to improve safety for people who walk, drive, ride bicycles and use transit.

About the Project

Where: Roeser Road from 37th Street to 40th Street.

What: Where there is enough space on the roadway, bike lanes will be widened. The number of travel lanes will remain the same. This project creates separate parking and bike lanes.

When: Pavement maintenance (new asphalt) is scheduled for September 2022 and traffic lane improvements will happen shortly after.

Why: The slight narrowing of the lane widths to create separation between the bike lanes and the parking lanes will help to guide cars and deter speeding. The larger width in the bike lanes help to create for increased protection from vehicles, improved safety and added comfort.

What Will the Project Look Like?
