

Comprehensive policy document for growth, development, operations and capital investment.

Complet

Reinvent PHX Project

a collaborative effort to create action plans for five districts along the existing light rail line through a holistic community engagement process.

Complete Streets Policy

will guide future construction of all street-related projects including roadways and sidewalks, and will support the development of related citywide design standards.

Bicycle Master Plan

will document all existing bicycling infrastructure, and propose a set of projects to expand the system, and create connectivity across the city.

PHX Downtown Comprehensive Transportation Study

will investigate and analyze potential roadway, transit, bicycle, pedestrian, and parking improvements in the downtown area.

Transportation Plan

Talk Transportation is a project of the Phoenix Public Transit and Street Transportation Departments to visualize and fund the future of public transportation and streets
