

April 2011

Project No. ST85160005 & ST85160003FA

Project Personnel

City of Phoenix
Engineering Supervisor
Paul Driver, P.E.

Contractor
B & F Contracting
Project Manager
Steve Denton

Contractor's Work Hours

The contractor's work hours will be 7:00 am to 4:00 pm, Monday through Friday. Some weekend work may occur.

Project Hotline
(480) 281-1506

Please call the project hotline if you have any questions or concerns regarding the project.

Project Update

The contractor began the administrative portion of the two projects in mid March. Materials and procedures to be used for each specific restoration process have been submitted for approval and parts and materials have been ordered. The lead times for delivery are lengthy because of the uniqueness of the lights and poles.

Two concrete poles have been removed and are being used to create molds for the manufacturing of replica poles. The replica poles will be installed throughout the project area where concrete poles are missing or are beyond repair.

Although the contractor is not present in the field at this time, the project is on schedule. The contractor anticipates beginning field work in late May. Prior to work beginning on each block, residents will be notified in writing. The anticipated completion of the two projects is November, 2011.

Estimated Construction Timeline:

- Parts and Materials Order and Deliver March – July 2011
- Pole Casting April – June 2011
- Field Restoration Work May – October 2011
- Luminary Installation July – October 2011
- Replica Pole Installation June – October 2011
- Project Completion November 2011
