The following needs were identified:

- Optimize the traffic signal network.
- Improve operations at stop-controlled intersections with a poor Level of Service.
- Address intersection capacity needs.
- Mitigate congestion along 7th Street and 7th Avenue (connections to I-10).

We want to hear from you!
What additional needs have you identified in the area?

- PEO signals/crossings at Washington and 1st St/Central take very long to start
