

Happy Holidays Volunteer Community:

We would like to share with you a few volunteer opportunities that need your help and some that have already seen success thanks to our dedicated volunteers. Congratulations to the seven community volunteers who completed the certification course to become Certified Citizen Foresters. The Citizen Forester Program educates community volunteers on the importance of the urban forest while providing training for the planting and caring of trees in our City. Thank you for making a difference in our community – and remember to spread the word.
