Outside Phoenix
Paradise Valley

For Location, you have three choices, most users are "Inside Phoenix"

This information can be found on your water bill

Water prices in Phoenix change based on the season, and the cost depends on when the meter reading is taken. The example below shows where you can find the meter reading dates on your bill. In this case, the bill is calculated using the rate for March because the meter reading was done on March 21, 2019.

Meter Number	Previous Meter Read		Current Meter Read		Water Used in Billing Cycle	
	Date	Reading	Date	Reading	1 unit = 748 gallons	
13290659	2/22/2019	234	<u>3/21/2019</u>	241	7 Units	5236 Gallons

Your Monthly Water Usage (gallons)

Select a month from the drop-down list so the calculator can apply the corresponding seasonal rate to your water charges estimation.

To estimate your single-family residential water charges after proposed rate changes, the calculator needs to know how much water usage to base the estimate on. Your bill is calculated on number of units used and also displays the water usage in gallons. One unit equals 748 gallons. (See the example bill below). Choose the number of units you want to base your estimate on and enter that number into the calculator box labeled 'Monthly Consumption'. You can enter actual usage or any other quantity you'd like to evaluate..

Meter Number	Previous Meter Read		Current Meter Read		Water Used in Billing Cycle	
	Date	Reading	Date	Reading	1 unit = 748 gallons	
13290659	2/22/2019	234	3/21/2019	241	<u>7 Units</u>	5236 Gallons

Your Monthly Water Usage (gallons)

Enter the charge for Environmental Mandates-Sewer shown on your most recent City Services Bill

Estimate (calculate charges)

Current Rates

Proposed Rates

This information can be found on your water bill

Enter the "Environmental Mandates-Sewer" charge from a recent bill. The calculator can then figure out your sewer discharge. Check a recent City Services Bill, find the "Environmental Mandates - Sewer" line item, as shown in the example, and note the charge. In this example it is 4.46. Enter that number in the box. Do not include the value from "Environmental Mandates - Water"

Water Base Fee	\$4.64
Water Usage Fee	16.28
Environmental Mandates - Water	6.20
City Services Tax	1.50
State Mandated Jail Costs	1.00
State & Other Taxes	2.46
Sewer Fee	21.04
<u>Environmental Mandates - Sewer</u>	<u>4.46</u>
City Sales Tax	1.42
Total	\$59.00
