

**Request for Sewer Fee Review
Pursuant to PCC 28-35(d)**

Each year, sewer fees are recalculated and become effective each July based on a percentage of the average water used during January, February, and March billing periods. The standard sewer fee calculation includes a standard deduction for outdoor water use during those months. A sewer fee review above the standard calculation may be considered for the following conditions: large land watering, leaks and/or pool fills during the January, February, or March billing periods.

All requests for a Sewer Fee Review must be submitted within 60 days from the July bill date.

Requests received more than 60 days of the July bill date shall not be eligible for review. Pursuant to PCC 28-35, exceptions will not be granted. Review requests may be submitted prior to the July billing period. One (1) Sewer Fee Review form must be filled out per account.
