

GATED ALLEY *Program*

MAKE YOUR REQUEST TODAY

Resident Driven

The Gated Alley process begins when a resident or property owner adjacent to an alley submits a completed request form and petition to the city. The city requires agreement from 50% +1 of property owners.

City Approved & Funded

City staff from Neighborhood Services, Public Works, and Planning & Development review the submission and alley segment for eligibility. Segments are reviewed and funded on a first come, first served basis.

Gates Installed

Staff acquire all necessary permits and work with a contracted vendor to build and install the gates. The City owns and maintains the gates. Residents maintain the alley.
