PLANNING AND DEVELOPMENT DEPARTMENT

ADDENDUM A

Staff Report: Z-TA-6-17

(Group Homes/Community Residences)

February 28, 2018

Application No Z-TA-6-17: Amend the following Sections of the Phoenix Zoning Ordinance regarding group homes, community residences, and associated uses and regulations:

Section 202 (Definitions), Section 311 (Disability Accommodation Committee), Section 603.A. (Suburban S-1 District—Ranch or Farm Residence), Section 605.A. (Residential Estate RE-43 District—One-Family Residence), Section 606.A. (Residential Estate RE-24 District—One-Family Residence), Section 608. (Residence Districts), Section 615.C. (R-3 Multifamily Residence District), Section 616.C. (R-3A Multifamily Residence District), Section 617.C. (R-4 Multifamily Residence District), Section 618.D. (R-5 Multifamily Residence District), Section 619.A. (Residential R-4A District—Multifamily Residence—General), Section 620.B. (Residential Office R-O District—Restricted Commercial), Section 622.D. (Commercial C-1 District—Neighborhood Retail), Section 623.D. (Commercial C-2 District—Intermediate Commercial), 642. (Urban Residential (UR) District), Section 646. (Capitol Mall Overlay District), Section 647.A.1. (Special Permit Uses), Section 649. (Mixed Use Agricultural (MUA) District), Section 658. (Deer Valley Airport Overlay (DVAO) District), Section 660. (Four Corners Overlay District), Section 701.E. (Separation Requirements—Registration), Section 702. (Off-Street Parking and Loading), Section 1204. (Land Use Matrix, Downtown Code), Section 1306. (Land Use Matrix, Walkable Urban Code), and Section 1307. (Parking standards, Walkable Urban Code).

Staff recommendation: Staff recommends approval of Z-TA-6-17 as shown in the recommended text in Exhibit A.

This text amendment is part of the Group Home Comprehensive Improvement package that also includes a city proposed licensing program for structured sober living homes, and updates to policies and procedures related to group homes and community residences. The Arizona State Legislature has also recently proposed potential regulation across the state for sober living homes. The language in Exhibit A, along with the proposed licensing program represent the most comprehensive, legally defensible regulations that the city can adopt to protect residents of community residences, and thereby create safer neighborhoods. Individuals with disabilities have a right to live anywhere they choose without discrimination.

The city hired a nationally renowned expert, Daniel Lauber, Esq., to help craft these regulations and ensure that we are protecting residents of community residences and

neighborhoods, while at the same time not being overzealous allowing regulations to run afoul of federal law and subject the city to costly lawsuits such as in Newport Beach, California. In addition, if regulations are found to be discriminatory, the city jeopardizes federal grant funding that is dependent upon the city not adopting discriminatory practices.

Summary of Activity:

Village Planning Committees (VPCs)

As of the date of this Addendum, the text amendment has been heard by 13 of the 15 Village Planning Committees throughout February. The Paradise Valley and North Gateway VPCs recommended approval of the text amendment with additional changes, and the Alhambra and Maryvale VPCs did not provide recommendations due to a lack of quorum of members present. The remaining VPCs continued the request to be heard at the March meetings. Members from Take Action Phoenix (TAP) consistently attended all of the meetings and provided two position letters outlining their support and concerns. These position letters are provided in Exhibit B. Responses to the additional recommendations provided by the VPCs and the TAP concerns are included in the Summary of Community Input & Responses Section of this Addendum (Page 2).

Planning Commission

The proposed text amendment was presented as an information and discussion item at the Planning Commission meeting on February 1, 2018. One of the Planning Commission members recommended that staff evaluate whether the Disability Awareness Committee could be utilized to determine the disability accommodation requests, rather than creating a new committee.

Group Home Working Committee

On February 16, 2018, a Group Home Working Committee was held to discuss the proposed text amendment and licensing program for structured sober living homes. Staff provided responses to the questions and concerns, including those raised from the first TAP position letter. Many of the concerns were addressed at this meeting which prompted TAP to provide a revised position paper, dated February 19, 2018 (attached in Exhibit B).

Summary of Community Input & Responses:

The following is a summary of and responses to the recommendations received at the VPC and Planning Commission meetings, from the TAP position letter, and through additional input received via emails.

Take Action Phoenix

1. Comments were made related to wording and grammatical errors in the original Staff Report. The original Staff Report will not be revised to reflect these recommendations.

2. The proposed Disability Accommodation Committee is biased and does not fairly represent the neighborhoods.

→ There was much consideration taken when determining the composition of the Committee. As mentioned previously, the city hired one of the foremost experts on community residence regulations, Daniel Lauber, Esq., to help develop our overall regulations. Staff and the city's consultant believe that the proposed composition will provide a fair and balanced review and determination when evaluating requests for disability accommodations.

3. The Staff Report does not address zoning restrictions for community residence homes with one to five residents.

→ All community residence homes and homes throughout the city that house five or less unrelated people are treated as a family based on the Zoning Ordinance definition of a family. It would be illegal for the city to treat individuals with disabilities differently when they live in homes that meet the definition of a family.

Family: A family is:

1. *An individual or two or more persons related by blood, marriage, or adoption, and usual servants, living together as a single housekeeping unit in a dwelling units, or*
2. *A group of not more than five persons, who need not be related, living together as a single housekeeping unit in a dwelling unit.*

4. The Staff Report does not address addiction being considered a disability.

→ As legally defined by the Americans with Disabilities Act *Disability* means, *with respect to an individual, a physical or mental impairment that substantially limits one or more of the major life activities of such individual; a record of such an impairment; or being regarded as having such an impairment.*

The definition goes on to also includes the following:

The phrase physical or mental impairment includes, but is not limited to, such contagious and noncontagious diseases and conditions as orthopedic, visual, speech and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, specific learning disabilities, HIV disease (whether symptomatic or asymptomatic), tuberculosis, drug addiction, and alcoholism.

5. Clarification is needed on the definition of block face.

→ The definition of *block face* is as follows: *One side of the properties along a street that are uninterrupted by a street, fully dedicated alley, or open space/common area tract 50 feet or greater in width.* Section 701 also includes a proposed provision that pertains to this definition (see Response #17 on Page 7 of this Addendum and Page 31 of Exhibit A). The following illustrates the definition of block face:

6. In the definition for Community Residence Center, what is a sponsoring entity?

→ The sponsoring entity is the owner or operator of the center.

7. The disability accommodation request should not apply to centers.

→ The city legally must allow disability accommodation requests for all forms of housing for individuals with disabilities.

8. There are concerns about licensing and inspections for Oxford Houses.

→ Oxford Houses are self-regulating and would conduct their own inspections, unless the inspection is related to a building permit.

9. What is “relevant public input?”

→ The input must be related to the specific disability accommodation request and must relate to the four relevant review criteria as proposed in Sections 311.A. and 701.E.3.b. of the Zoning Ordinance (See Exhibit A). Criteria #3 may not apply to all requests because it is specific to requests to allow more than 10 residents in a community residence home. Discriminatory comments about individuals with disabilities living in a neighborhood will not count as relevant public input.

10. A maximum number of requests for disability accommodations should be established.

→ The city is required to review all requests for disability accommodations. We cannot legally set a maximum for the number of requests. The intent of the spacing requirement is to prevent clustering and promote integration of homes for individuals with disabilities. All requests must be evaluated on a case by case basis to determine if the addition of a new home or center would contribute to clustering and creating an institutional environment rather than residential.

11. Will public maps be made available?

→ Staff will provide maps online that show generalized locations of community residences, group homes, and boarding houses; but not specific addresses. The specific address or type of home or center would only be provided through a public records request, and only in accordance with state law.

12. Will existing conforming or nonconforming community residences be allowed to exist should the proposed text amendment be approved?

→ Chapter 9 of the Zoning Ordinance deals with nonconformities. Nonconforming community residences, group homes, or boarding houses will be treated as any other nonconforming use. If the use was legally established prior to any new zoning regulation, then it will be allowed to remain as a legal nonconforming use. If the home was not established legally prior to any new zoning regulation, then it will need to meet all new zoning regulation. Sober living homes have always been treated as either group homes or individuals with disabilities and required to meet the Zoning Ordinance requirements, which currently requires either a special permit, use permit, or 1,320-foot separation in residential zoning districts. There is no grandfathering on a license process. If licensing is enacted by the City Council or at the state level, all community residences will need to comply.

Arizona Recovery Housing Association (AzRHA)

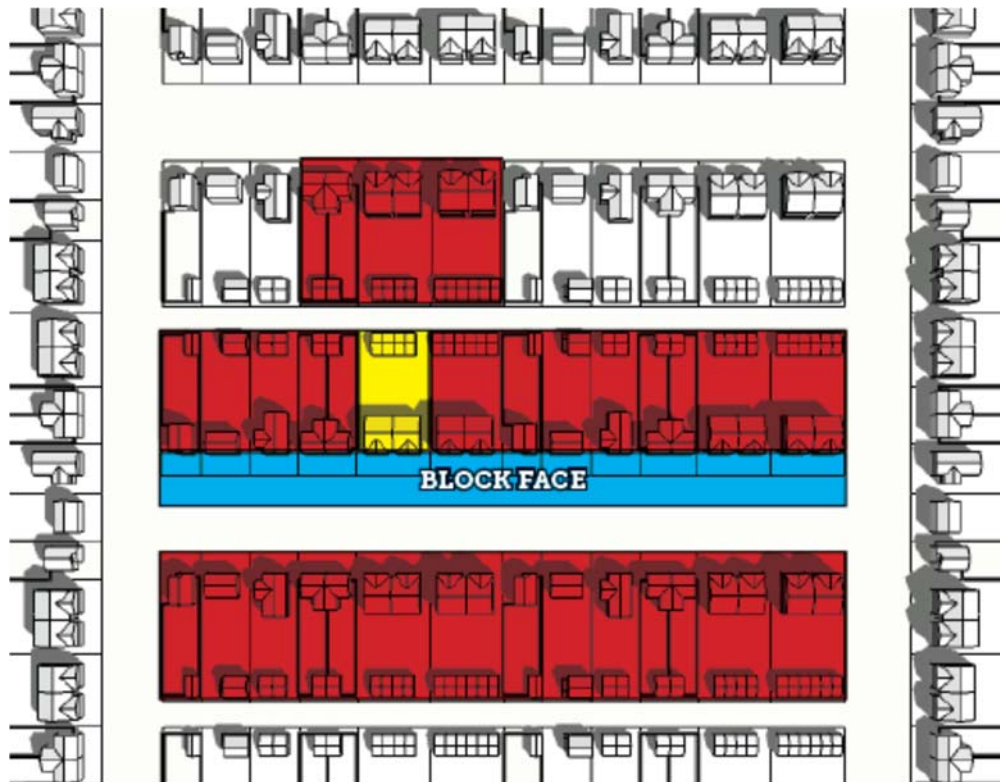

13. There is concern regarding the registration process and disclosing locations of community residences/structured sober living homes.
 - ➔ Currently there is no restriction on disclosing locations of homes for individuals with disabilities, unless the home is also considered a shelter for victims of domestic violence per Section 36-3009 of the Arizona Revised Statutes. See Response #11 for additional information.
14. There is concern that the Disability Accommodation Committee is an effort to rid neighborhoods of sober living homes. The Arizona Recovery Housing Association opposes a TAP member on the Committee.
 - ➔ Again, there was much consideration taken when determining the composition of the Committee. Staff and the city's consultant believe that the proposed composition will provide a fair and balanced review and determination when evaluating requests for disability accommodations. All requests will be evaluated based on the proposed criteria in Sections 311.A. and 701.E.3.b. of the Zoning Ordinance (see Exhibit A), on a case by case basis to determine if the addition of a new home or center would contribute to clustering and creating an institutional environment rather than residential.
 - ➔ The proposed structure of the Disability Accommodation Committee requires that the Mayor appoint a representative from a City of Phoenix registered neighborhood organization. There are over one thousand neighborhood organization registered with the city.
15. Other issues raised in the AzRHA letter relate to the proposed licensing program.

Arizona Assisted Living Homes Association

16. The required distance separation may need to be revisited in the future since a shortage of available homes may exist to accommodate an increased need.
 - ➔ Yes, this may need to be evaluated in the future.

17. Clarification regarding the block face provision:

- ➔ The block face provision is considered when a proposed community residence does not meet the 1,320-foot separation requirement and requests a disability accommodation at the administrative staff review level. Staff will evaluate a number of different factors including locations of registered homes in the immediate vicinity. The block face provision will not allow approval of the proposed home if there is already a registered home on the same block face, across the street from the block face, or abutting to the rear or catty-corner. The image below depicts an existing registered home in yellow and the red area is where a proposed home would not be able to locate.

- EXISTING COMMUNITY RESIDENCE HOME/CENTER
- COMMUNITY RESIDENCE HOME/CENTER - NOT PERMITTED

18. Clarification is needed regarding the Disability Accommodation Committee review process. The proposed process requires that the Committee render a decision in 60 days and if no decision is rendered then the Planning and Development Department Director will make a decision. The original Staff Report was not consistent as it states that the Director “will” or “may” make a decision.
 - ➔ The intent is that the Director “will” make a decision if a decision is not rendered in 60 days. The proposed Zoning Ordinance language in Exhibit A has been revised to reflect that the Director “shall” issue a final decision if a decision is not issued in 60 days.
19. The definition of community residence home is more relevant to sober living rather than assisted living homes.
 - ➔ The definition has been crafted to apply to all homes for individuals with disabilities, and to carry out the intent of the Fair Housing Act as it relates to housing for individuals with disabilities.
20. There is confusion regarding the administrative staff review process and whether the 1,320-foot separation requirement still exists. Are disability accommodation requests available to only sober living homes or are they available to assisted living homes.
 - ➔ The 1,320-foot separation is proposed as the legally required spacing requirement for community residences with six to 10 residents and centers with 11 or more residents. The separation requirement must be met, unless an applicant files for and successfully obtains a disability accommodation through the administrative staff review process or the Disability Accommodation Committee. The city is required to evaluate requests for reductions in the spacing requirement, as a reasonable accommodation request per federal law.
 - ➔ Disability accommodation requests are applicable to all homes with individuals with disabilities.

Village Planning Committees

21. Require that community residences, group homes, and boarding houses have a minimum separation from schools.
 - ➔ Requiring a spacing distance between community residences and schools would be illegal based on fair housing regulations because individuals with a disability can live where they choose to live. The separation of community residences is only permissible under federal law to prevent clusters of community residences with six to 10 residents that negatively impact the neighborhood by essentially creating an institutional environment.

22. The notification requirement for disability accommodation requests should be a half mile for property owners and registered neighborhood organizations for all group homes.
 - The proposed notification area of 150 feet for property owners and 600 feet for registered neighborhood organizations is consistent with other existing zoning procedures. This provision is only permissible under federal law because the city does not have a comprehensive database of all locations of community residences. Once this database is built, the city will have to sunset the notice provision. A notice provision that asks for public comment about whether individuals with disabilities should live in a neighborhood is not permissible under federal law.
23. Group Homes with one to five residents should be regulated the same as group homes with six to 10 residents.
 - The city cannot regulate homes with up to five unrelated residents any different than a family per the Zoning Ordinance definition of a family and the Fair Housing Act. It would be illegal for the city to treat individuals with disabilities differently when they live in homes that meet the definition of a family.
24. Nonconforming facilities may not be grandfathered, in terms of licensing.
 - There are no grandfathering rights for any new licensing regulations. There will be a grace period permitted once the licensing program is adopted to allow operators time to come into compliance with the new licensing requirements.
25. Parking regulations should correspond to the number of residents in the home and not allow overflow parking in the street.
 - The proposed additional parking required for structured sober living homes is because the population in a structured sober living home is typically ambulatory and has a high probability of having more cars than a traditional single-family home.
 - Requiring parking based on the number of residents in the home would be difficult to enforce as the number of residents can change over time.
 - The city cannot legally prohibit an individual with a disability or their visitors from parking on a public street, unless there is a parking prohibition that applies to all residences within that block or neighborhood.

Planning Commission

26. Can the Disability Awareness Committee be utilized to determine the disability accommodation requests rather than creating a new committee?
- Staff has evaluated this recommendation and has determined that a committee that is specifically focused on disability accommodation requests is more suitable. There was much consideration taken when determining the composition of the Committee. Staff and the city's consultant believe that the proposed composition will provide a fair and balanced review and determination when evaluating requests for disability accommodations.

Other Input/Recommendations

27. There is concern that there is not enough parking required for all community residences, including assisted living homes.
- The city rarely receives complaints regarding parking for homes with individuals with disabilities. The existing and proposed parking requirements are sufficient.
28. The use of a block face is a poor proxy for distance because of the variety of block lengths found throughout the city.
- The block face provision is evaluated at the administrative staff review level. The applicant would still have the opportunity to request a disability accommodation from the Disability Accommodation Committee. The Committee can consider special circumstances such as extraordinarily long block lengths when evaluating the request.
29. Spacing does not reflect density. Different separation requirements should be considered based on the density of an area and proximity to transit and services.
- The purpose of the disability accommodation process is to allow flexibility in the separation requirements based on the location of specific features. The Disability Accommodation Committee can consider special circumstances such as density and proximity to transit and services when evaluating the request.
30. The additional parking required for structured sober living homes is blatantly discriminatory and should be removed.
- The proposed additional parking required for structured sober living homes is because the population in a structured sober living home is typically ambulatory and has a high probability of having more cars than a traditional single-family home or other types of community residences. A disability

accommodation may be requested if an applicant is not able to meet this proposed requirement.

Proposed Revisions to the Text Amendment Language:

Staff is recommending minimal revisions to the proposed text amendment. The proposed changes are for consistency, applicability, and to clean-up errors found in the originally proposed Exhibit A language. The proposed text amendment revisions are outlined below:

1. Replacing or adding in community residence center in areas that now reference assisted living and/or residential care centers. This change is included in the following Sections of the Zoning Ordinance: Section 202 (Definitions), Section 622.D. (Commercial C-1 District—Neighborhood Retail), Section 623.D. (Commercial C-2 District—Intermediate Commercial), and Section 660. (Four Corners Overlay District).
2. The definition of Community Residence Center has been revised to better apply to multifamily developments which function as institutional or quasi-institutional housing.
3. As noted previously, the proposed language has been revised to reflect that the Director “shall” issue a final decision regarding disability accommodation requests if a decision is not issued in 60 days (Section 311.D.). The notification provision will need to be sunset once a good locational database is created to help the Disability Accommodation Committee evaluate disability accommodation requests.
4. Adding consistent conditions for boarding houses, group homes, and community residence centers throughout the multifamily districts (Sections 615 through 619). The proposal is to require use permit approval, the 1,320-foot separation requirement, and the disability accommodation provision, if applicable, to all of these uses in the multifamily zoning districts.
5. Adding a use permit condition to group homes and boarding houses in the C-1 zoning district (Section 622.D) to be consistent with how we currently regulate assisted living centers.
6. Replacing “Administrative Approval” with “Administrative Staff Review” in the disability accommodation section (Section 701.E.3.b.).
7. Clarifying the Planning and Development Department Director’s role in the disability accommodation process (Section 701.E.3.b.).

- THE PRIMARY FUNCTION OF THE PROPOSED COMMUNITY RESIDENCE HOME IS RESIDENTIAL WHERE ANY TREATMENT IS MERELY INCIDENTAL TO THE RESIDENTIAL USE OF THE PROPERTY.
 - THE PROPOSED COMMUNITY RESIDENCE HOME EMULATES A BIOLOGICAL FAMILY AND OPERATES AS A FUNCTIONAL FAMILY RATHER THAN AS AN INSTITUTION, BOARDING HOUSE, NURSING HOME, SHORT TERM VACATION RENTAL, CONTINUING CARE FACILITY, MOTEL, HOTEL, TREATMENT CENTER, REHABILITATION CENTER, OR A NONRESIDENTIAL USE.

- (4) THE REQUESTED NUMBER OF RESIDENTS IN THE PROPOSED COMMUNITY RESIDENCE HOME WILL NOT INTERFERE WITH THE NORMALIZATION AND COMMUNITY INTEGRATION OF THE OCCUPANTS OF ANY EXISTING COMMUNITY RESIDENCE HOME, AND THAT THE HOME WILL MAINTAIN A RESIDENTIAL CHARACTER.

The accommodation shall be made only to the extent necessary to comply with the Fair Housing Act. The ~~Planning and Development~~ DISABILITY ACCOMMODATION COMMITTEE OR PLANNING AND DEVELOPMENT Department Director's determination constitutes a final administrative action.

Take Action Phoenix (TAP) is a group of neighborhood leaders committed to the preservation of our neighborhoods. We work on issues that create impacts to our neighborhoods, advocating for change or improvements in order to maintain neighborhood integrity.

Context: For the last year, Take Action Phoenix has worked closely with the City of Phoenix, group home operators, and others to address issues that have arisen with group homes that operate within residential neighborhoods. As a result of the work of the Group Homes Committee, the city is making significant changes to its zoning ordinances and other processes that make group homes safe for residents of the home, and safe for the neighborhoods where the homes are located.

In the staff report from the city, Take Action Phoenix is in support of:

- All group homes and sober living homes with 6-10 residents will now be called Community Residence Homes.
- The new definition of a Community Residence Center is a location that will house 11 residents or more.
- The new distinction between a Community Residence Home and Community Residence Center is based on the number of residents.
- Group homes and boarding homes with more than 5 residents will only be allowed to operate in multi-family zoning districts.
- New parking standards to require a minimum of four parking spaces for sober living homes.
- 1320-foot separation and interpretation for both community residence homes and community residence centers.
- Discouraging clustering and the interpretation of Block Face.
- Portions of Reasonable Accommodation **Process** to include (see P.4 of Exhibit A).
 - The party or occupants of the home for which the request is made are required to demonstrate they are or the residents of the proposed home are individuals with disabilities as defined by zoning ordinance.
 - Public notice.
 - Written public input (see below for concerns).

In the staff report from the city, Take Action Phoenix is not in support of (or has concern with):

- The proposed Reasonable Accommodation Committee is biased and does not fairly represent the neighborhoods (see P. 5 of Exhibit A). TAP suggests a *representative* from the Planning and Development department, Neighborhood Services department, and the Equal Opportunity department serve only as non-voting, consulting members. Further, an additional neighborhood representative should be added and all three voting members will be selected by the City Council. Currently it is proposed that Council members can remove the voting members. The vote of the three members will be the final decision. If any party objects to the final decision, they will be afforded the opportunity to protest to the City Council for a council vote.
- Some of the language used is unclear or does NOT belong:
 - P. 1 of the Staff Report does not state clearly that this ordinance *does not* include zoning restrictions for families of 1-5 residents. TAP feels a statement to this effect would help clarify that the ordinance does not impact families of 1-5.
 - P.2 of the Staff Report may want to add a line that addiction is considered a disability.
 - P.3 of the Staff Report needs to clarify the definition of a Block Face to more appropriately match the diagram outlined on P.8 of the Staff Report e.g., add additional language (see below).
 - P.4 of the Staff Report under 'Structured Living Home' – TAP would like the words “typically ambulatory” to be changed to “ambulatory”.
 - P.5 of the Staff Report (last sentence) add greater 'than' five....
 - P.9 of the Staff Report (3rd sentence) change 'space' to 'spacing'.
 - P.1 of Exhibit A – under Block Face – add in (abutted and both sides).
 - P.2 of Exhibit A – middle of 3rd paragraph - what is a 'sponsoring entity'?
 - P.2 of Exhibit A – last paragraph and last sentence – has a double negative (not....not....) needs to be re-written.
 - P.5, Under “311 Disability Accommodation Committee”, Part A, #3 and #4 refer to Community Residence Centers (11 or more residents) and thus do NOT belong in the Reasonable Accommodation request, and should be removed.
- Oxford Homes that are sanctioned by Congress and currently do not operate in Arizona, however, this may change. TAP would like clarification on who does the annual inspection of these homes and who verifies they are in compliance. If no such entity is doing this, TAP recommends these types of homes also be licensed by the City of Phoenix (see P. 3 of Exhibit A).

- How is the word “relevant public input” being defined in the reasonable accommodation process? Who determines what is relevant? (see P.4 of Exhibit A).
- No maximum requests for a space reasonable accommodation within the ½ mile is provided. TAP suggest no more than ONE special request in a ½ mile radius be allowed to submit a reasonable accommodation request.
- No mention of how the public maps will be made available to the public (see P.9 of Staff Report).
- No discussion of the procedure that will be followed for existing and operating group homes (a.k.a.community residential homes) that may be residing in an area that requires a reasonable accommodation request. Will they be grandfathered in?

Your actions: Take Action Phoenix asks that the Village Committee consider this, and when voting, vote in favor of this, only with the stipulation that the changes we are requesting are considered at both the Planning Commission and with the City Council. Only then does Take Action Phoenix feel that these new changes will guard and protect the integrity and character of our Phoenix Neighborhoods.

Thank you.

Subject: Group Homes Community Residences Text Amendment

HI there.

I am not able to attend the meetings on Feb 16, but would like to know if this amendment will be **retroactive** for existing homes, and homes in process of being built.. We have such a home in our neighborhood in progress right now.

If there is no provision for this I would like to suggest that this be added to the amendment.

If you are not the right person to send this too, Id greatly appreciate you forwarding this on to the appropriate person.

Thank you

The staff reports assesment of parking is incorrect and propagates an unnecessary **NEGATIVE IMPACT** to single family residences from assisted living parking. The statement "an assisted living home should be treated the same as family per the fair housing act" is incorrect based on my attorney's review and comments. The community residences do have high volume of traffic so the second bullit item is also wrong. See attached photo. Avoiding baseless law suits is no excuse for allowing **NEGATIVE IMPACTS** to residential neighborhoods. Goodyear and other local municipalities require off-street parking for Assisted living homes.

Subject: RE: Structured Sober Living Home - Update on proposed licensing program and draft ordinance

Good morning

The city of Phoenix is allowing significant negative impact to existing residents by allowing an R-O permitted use, Assisted Living Homes, in an R-10 district. There was no change in zoning allowing the Assisted Living Home, Blue Sage Assisted Living, at 13435 N Coral Gables Drive and significant impacts to the pre-existing residents are a direct result of the city Of Phoenix not applying appropriate R-O regulations.

The negative impact is not the residents of the Assisted Living Home but the impact of the business. Assisted Living Homes are a business, licensed and permitted by the AZ Dept. of Health like any other medical business. The negative impacts are a result of Phoenix allowing a R-O business in a R10 zoned residential neighborhood and not requiring rezoning or off street parking as is required of all other medical businesses. There are a minimum of three employees 24/7 and visiting medical staff on a routine basis as a result of the business. The business conducts regular parties for the residents hiring professional musicians and the visitors to these entertainment events have resulted in more than 30 cars parking on the street at one time. The owner of the business has been allowed to turn the garage into bedrooms and has not provided sufficient off-street parking for even the employees let alone the customer related visitors. Off-street parking for employees and visitors (customers) is required of every other business and should be required for the Assisted Living Home business.

None of the residents of the Assisted Living Home drive, do not routinely leave the property, and therefore do not require parking. All of the parking that's impacting the residential neighborhood is resulting from the business, not residents parking, and like any other R-O business, should be regulated, even more within an R-10 residential neighborhood. Requiring parking for the business does not infringe on any rights of the residents.

R1 is traditionally SINGLE FAMILY and there are no family related residents, but 10 individuals, living in the Assisted Living Home.

Defining 10 unrelated persons as a single family unit is wrong.

Requiring business related parking is not an infringement on a special needs group and like all other parking requirements should be based on the actual experience. The request is not to regulate the parking of the special needs clients residing in the residence operated by the business but to regulate the parking as a result of the business.

If all special needs uses are to be lumped under the Group Home designation; parking regulations for Group Home is 1 space per 2 residents beds and the Section 702 regulations would apply.

The Zoning application form for Assisted Living stipulates "provide sufficient off-street parking".

A. **Purpose.** A basic purpose of these regulations is to foster the creation of living areas which can assist the establishment of stable, functional neighborhoods. An established pattern of living in this metropolitan area reflects a tradition of **single-family occupied dwellings** which also emphasize outdoor living. Many of these dwellings are thereby located on relatively large urban or suburban lots.

B. 620 Residential Office R-O District—Restricted Commercial. 

C. A. **Purpose and Intent.** *2

D. This district is intended to control developments on the edges of residential areas which, because of their location on arterial streets or other environmental conditions, are susceptible to pressures for nonresidential uses. The R-O district permits new development at the residential scale, or conversion of residential structures for use as professional offices or other limited service uses. It also permits continuation of residential uses or reconversion to residential uses. *4

E. This district is intended to provide office uses that are developed in a manner that forms a transition between commercial districts and adjacent residential areas. The specific intent of the district is to:

F. 1. Accommodate office development of a scale and intensity that reflects adjacent residential uses.

G. 2. Accommodate the office use of residential structures in areas previously developed as residential but changing to office or service uses.

H. 3. Accommodate the development of new office or service uses under strict performance standards to mitigate negative impacts of such development.

I. B. **Permitted Uses.**

J. 1. Adult day care home or center; provided, that: +9

K. a. Outdoor recreation areas shall be screened from adjacent properties by a six-foot-high landscape hedge, solid fence, or solid wall. +9

L. **2. Assisted living home;** provided, that: +9

M. a. The home has no more than five residents, not including staff; or +9

N. b. For a home with six to ten residents, not including staff, the following conditions shall apply: +9

O. (1) Such home shall be registered with, and administratively verified by, the Planning and Development Department Director's designee as to compliance with the standards of this section as provided in Section 701. +9

P. (2) No assisted living, residential care, or sober living home shall be located on a lot with a property line within 1,320 feet, measured in a straight line in any direction, of the lot line of another assisted living, residential care, or sober living home that has been registered with six to ten residents. +9

Q. (3) Disability accommodation from the spacing requirement may be requested by an applicant per Section 701.E.3. +9

Planning and zoning staff are by regulation charged to preclude negative impacts, protect the existing residents, and apply the regulations; including off-street parking regulations of Chapter 7 and R-O zoning regulations or rezoning.

Please forward this to all staff.

Thank you.

The staff appears to have been given bad opinions by City of Phoenix attorneys relative to the Fair Housing Act.

I am correct in calling the Phoenix attorney opinions **incorrect**; given the zoning regulations for Assisted Living off-street parking in other local municipalities and my attorneys opinion. I have read the Fair Housing Act and it doesn't say "A community residence home should be treated the same as family".

Phoenix Zoning Staff is wrong and we Phoenix residents are being unfairly impacted.

Phoenix is failing its residents by allowing impacts and degradation of our residential neighborhoods.

Per the City of Goodyear Zoning Regulations (attached): All single family zoned shall have 2 covered parking spaces, and Assisted Living Homes employees and residents are required to park on site, in a garage or approved driveway.

The assesment that assisted living homes do not have a high volume of traffic is incorrect, which is why Goodyear requires sufficient off street parking. This is the parking in front of the assisted living home next door to me at 13435 N Coral Gables Drive. There are allways, 24/7 , vehicles parked in front of the assisted living home because the driveway only accommodates 2 vehicles and the garage has been turned into 4 bedrooms..

Subject: Structured Sober Living Home - Update on proposed licensing program and draft ordinance

Good Morning Working Group Committee Members!

I wanted to take a moment to send an update on the status of the proposed licensing program and draft ordinance for structured sober living homes.

Since our last meeting and based on the City Council's direction at the December 13th Council Meeting, staff has been working on developing a proposed licensing program and related draft ordinance for structured sober living homes, including proposed minimum operation and supervision standards. A summary of the proposed licensing program and copy of the initial draft ordinance will be released to the working group committee and a broader list of stakeholders early next week. Once these are made available to all next week, License Services will open an input period where licensing staff will collect input from stakeholders related to the proposed licensing program and initial draft ordinance. Input will be received through email, phone, and stakeholder meetings, including the upcoming scheduled Feb. 16th working group committee meeting and at least one other broader stakeholder group meeting in February. After receiving public input in February, staff will make adjustments to the proposed program and draft ordinance, as needed and a final proposed licensing program and draft ordinance will be released to the stakeholders, prior to the item going to City Council in March.

I hope this information is helpful. Please do not hesitate to contact me if you have any questions or concerns at this time.

Thanks,

Denise Archibald

Subject: Phoenix Text Amendment

February 16, 2018

David Urbinato
Management Assistant II
Phoenix Planning and Development Department

Dear David:

Thank you for the opportunity to comment on the latest draft of the Phoenix Text Amendment Working Committee. We have had an opportunity to review the latest draft of the Text Amendment, and it does not appear that Assisted Living Homes in Phoenix will be negatively impacted, except for the 1320-foot separation in which Sober Living Homes will now compete with Assisted Living Homes for the same space. I do have a couple of questions for clarification, and a couple of grammar corrections.

Page 4: 1320-foot separation. We understand that this separation is necessary to be consistent between Assisted Living Homes and Sober Living Homes. It is important to note that under this Text Amendment, Assisted Living Homes will be competing with Sober Living Homes for that 1320-foot separation. In the future, as the need for single family Assisted Living Homes increase, a shortage of available Assisted Living Homes may exist to accommodate the increased need. This separation may need to be revisited in the future.

Page 8: Clustering: We do not understand the graphic. If the "Existing Community" is colored yellow, and the not-permitted community residence is colored red, do the properties above the existing community, not colored red, represent the 1320-foot separation?

Page 9: Under Disability Accommodation Requests, and Disability Accommodation Committee: The first sentence in each of these paragraphs should read either *There have been concerns*, or *there has been concern*. The subject needs to match the verb.

Page 9: Line 3, Should it read ...by *spacing* the uses apart?

Page 9 v. Page 16, On page 9, it states that if no decision is made within 60 days, the Director will make the decision. On page 16, the Director may make the decision. Not consistent.

Page 10: Conclusions line 12. I believe the proper word is *affected*, not effected.

Page 12: Definition of Community Residence Home: States that “...*staff which provides on-site care*... If Community Residence Home includes both Assisted Living and Sober Living, does that phrase mean sober living homes provide on-site care? Also, our assisted living homes do not attempt to integrate our residents into the surrounding community. Our primary purpose is to provide 24-hour care rather than shelter. We do, of course, provide shelter, but it is the care that is our primary function. This definition, in many respects, appears to define sober living homes and is not appropriate to assisted living homes. For example, while the definition of Community Residence Home states that the Home is for those who are “in need of the mutual support furnished by other residents of the community”, our Assisted Living Homes provide social interaction, and will not ever be self-governing. The primary purpose of a Sober Living Home and that of an Assisted Living Home are completely different.

Page 37: 3a. Very confusing.

Disability Accommodation: This is confusing. It appears to say that the Director’s designee may administratively approve a disability accommodation spacing request provided there are not more than 5 Homes or Centers within a ½ mile area. What happened to the 1320-foot restriction?

Page 39: Is Disability Accommodation only available to Sober Living Homes? Or is it also available to Assisted Living Homes?

Again, thank you for the opportunity to comment.

Respectfully,

--

Subject: RE: Group Home Zoning Ordinance Text Amendment Update

Hi David -

I will not be attending the Working Group Meeting today since the report is completed and will be/has been submitted to the Council as is. However, I do have the following concerns which I will voice at Council. For those council offices receiving this email, I have direct experience with sober living homes and would be happy to discuss these concerns with you at your convenience. My comments reflect my concerns, as well as those of several Sober Home operators. I am not a sober home operator.

Please include these comments in the record.

1. Spacing. **The use of a block front is a poor proxy for distance.** There are many streets in my neighborhood along which are longer and 1320 feet and are one block front. We should have ONLY one measurement.
2. Spacing. **Spacing does not reflect density.** The ¼ mile requirement in a 4 du/ac works out to about 1 group/structured sober home per 1,000 homes ...or about 5 people per 265,000 (using Phx HH sizes). This is substantially below the 26.5 people per 1,000 that suffer from addiction (12% of the U.S. population according to the American Society of Addiction Medicine estimates). So assuming less than half of those addicted were to be in sober homes; we are intentionally creating a situation where we will never be able to meet need and we are keeping people on the street. In a denser neighborhood either the spacing should be reduced or a proxy for neighborhoods with densities of more than 6 du/ac that is based on should be provided. density (For example 6 group homes per 1,000 dwelling units that could include limits on the number of sober homes that could be located in one structure/development) This way those who are in recovery and need access to transit and walkable communities for jobs and services would have options.
3. Parking. **This is blatantly discriminatory and should be removed.** Where is the study that shows structured sober homes have more cars than households? I would recommend that the city conduct such a study prior to including this. It would conduct a similar study if it were to regulate single family homes similarly. What about the household with two children over 16? Or the car collector? What about people with cars and RVs?
4. The clerk's licensing still has a fingerprinting requirement for managers. **Fingerprinting for managers should be removed.** I have had extensive discussions with the clerk's office. It simply does not understand why this is important. There is no evidence that arson, sex trafficking or any of the other crimes they are checking for are associated with sober living managers or sober homes at a higher rate than the rest of the population (I would hazard a guess that these occur at lower rates than single family homes and other types of developments). Comparing sober homes to topless establishments where fingerprinting is required because sex trafficking and other types of crimes are found at a higher rate **IS NOT** be justified because we don't have any statistics to support it...In fact, at a recent presentation on sober home legislation the PV Town Attorney found crime and neighborhood disturbances occur at a LOWER rate in sober homes than other homes in the community. Fingerprinting will discourage managers and make it even harder to legally operate a structured sober home. The result will be sober homes that operate illegally. It will cost the city more in code enforcement than it's worth.

Thank you.

Washington St. We moved the meeting start time up 30 minutes to allow you to wrap a bit earlier on a Friday.

City Clerk staff also will be present at this meeting to provide an overview and answer questions about a draft Licensing program.

I will send a confirmation e-mail the week of the meeting; please update your calendars accordingly in the meantime. As always, do not hesitate to contact me if you have questions.

City of Phoenix

Phoenix, AZ 85003-1611

SUBJECT: Final Reminder – 2/16/18 Group Home Working Committee Meeting

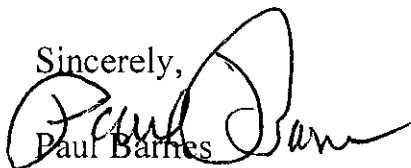

Dear Alan:

It is our understanding that the subject meeting will be focusing on the draft ordinance to regulate the licensing of Structured Sober Living Homes. The NCGP's initial review of this ordinance is favorable. We need further input from major stakeholders before reaching final conclusions.

The main purpose of this letter is to respectfully request that you or whoever is conducting the subject meeting on your behalf, distribute this letter and Wally Graham's 2/15/18 email included herewith to all attendees at the subject meeting, including City Staff members.

NCGP supports the comments contained in the three page TAP Position Paper. We are particularly supportive of the changes to the Reasonable Accommodation Committee ("The Committee") TAP is advancing at the top of page 2. The committee currently being proposed by staff is stacked against single family neighborhoods. The concern on the part of single family neighborhoods about the staff proposed makeup of The Committee is not driven by discrimination. It is driven by the desire of these neighborhoods to push back against the proliferation of units that are inhabited by paying, non-blood related inhabitants plus paid staff that by any objective analysis would reasonably be considered commercial in character,

Sincerely,

Paul Barnes

Position Paper

Take Action Phoenix (TAP) is a group of neighborhood leaders committed to the preservation of our neighborhoods. We work on issues that create impacts to our neighborhoods, advocating for change or improvements in order to maintain neighborhood integrity.

Context: For the last year, Take Action Phoenix has worked closely with the City of Phoenix, group home operators, and others to address issues that have arisen with group homes that operate within residential neighborhoods. As a result of the work of the Group Homes Committee, the city is making significant changes to its zoning ordinances and other processes that make group homes safe for residents of the home, and safe for the neighborhoods where the homes are located.

In the staff report from the city, Take Action Phoenix is in support of:

- All group homes and sober living homes with 6-10 residents will now be called Community Residence Homes.
- The new definition of a Community Residence Center is a location that will house 11 residents or more.
- The new distinction between a Community Residence Home and Community Residence Center is based on the number of residents.
- Group homes and boarding homes with more than 5 residents will only be allowed to operate in multi-family zoning districts.
- New parking standards to require a minimum of four parking spaces for sober living homes.
- 1320-foot separation and interpretation for both community residence homes and community residence centers.
- Discouraging clustering and the interpretation of Block Face.
- Portions of Reasonable Accommodation **Process** to include (see P.4 of Exhibit A).
 - The party or occupants of the home for which the request is made are required to demonstrate they are or the residents of the proposed home are individuals with disabilities as defined by zoning ordinance.
 - Public notice.
 - Written public input (see below for concerns).

In the staff report from the city, Take Action Phoenix is not in support of (or has concern with):

- The proposed Reasonable Accommodation Committee is biased and does not fairly represent the neighborhoods (see P. 5 of Exhibit A). TAP suggests a *representative* from the Planning and Development department, Neighborhood Services department, and the Equal Opportunity department serve only as non-voting, consulting members. Further, an additional neighborhood representative should be added and all three voting members will be selected by the City Council. Currently it is proposed that Council members can remove the voting members. The vote of the three members will be the final decision. If any party objects to the final decision, they will be afforded the opportunity to protest to the City Council for a council vote.
- Some of the language used is unclear or does NOT belong:
 - P. 1 of the Staff Report does not state clearly that this ordinance *does not* include zoning restrictions for families of 1-5 residents. TAP feels a statement to this effect would help clarify that the ordinance does not impact families of 1-5.
 - P.2 of the Staff Report may want to add a line that addiction is considered a disability.
 - P.3 of the Staff Report needs to clarify the definition of a Block Face to more appropriately match the diagram outlined on P.8 of the Staff Report e.g., add additional language (see below).
 - P.4 of the Staff Report under 'Structured Living Home' – TAP would like the words "typically ambulatory" to be changed to "ambulatory".
 - P.5 of the Staff Report (last sentence) add greater 'than' five....
 - P.9 of the Staff Report (3rd sentence) change 'space' to 'spacing'.
 - P.1 of Exhibit A – under Block Face – add in (abutted and both sides).
 - P.2 of Exhibit A – middle of 3rd paragraph - what is a 'sponsoring entity'?
 - P.2 of Exhibit A – last paragraph and last sentence – has a double negative (not...not...) needs to be re-written.
 - P.5, Under "311 Disability Accommodation Committee", Part A, #3 and #4 refer to Community Residence Centers (11 or more residents) and thus do NOT belong in the Reasonable Accommodation request, and should be removed.
- Oxford Homes that are sanctioned by Congress and currently do not operate in Arizona, however, this may change. TAP would like clarification on who does the annual inspection of these homes and who verifies they are in compliance. If no such entity is doing this, TAP recommends these types of homes also be licensed by the City of Phoenix (see P. 3 of Exhibit A).

3

- How is the word "relevant public input" being defined in the reasonable accommodation process? Who determines what is relevant? (see P.4 of Exhibit A).
- No maximum requests for a space reasonable accommodation within the ½ mile is provided. TAP suggest no more than ONE special request in a ½ mile radius be allowed to submit a reasonable accommodation request.
- No mention of how the public maps will be made available to the public (see P.9 of Staff Report).
- No discussion of the procedure that will be followed for existing and operating group homes (a.k.a. community residential homes) that may be residing in an area that requires a reasonable accommodation request. Will they be grandfathered in?

Your actions: Take Action Phoenix asks that the Village Committee consider this, and when voting, vote in favor of this, only with the stipulation that the changes we are requesting are considered at both the Planning Commission and with the City Council. Only then does Take Action Phoenix feel that these new changes will guard and protect the integrity and character of our Phoenix Neighborhoods.

Thank you.

***UPDATE* As of 02-19-2018**

Take Action Phoenix has updated its position on this proposed text amendment as a result of clarification by the City staff during a meeting on 2/16/2018. What follows is our new position.

Take Action Phoenix (TAP) is a group of neighborhood leaders committed to the preservation of our neighborhoods. We work on issues that create impacts to our neighborhoods, advocating for change or improvements in order to maintain neighborhood integrity.

Context: For the last year, Take Action Phoenix has worked closely with the City of Phoenix, group home operators, and others to address issues that have arisen with group homes that operate within residential neighborhoods.  - The party or occupants of the home for which the request is made are required to demonstrate they are or the residents of the proposed home are individuals with disabilities as defined by zoning ordinance.
 - Public notice.
 - Written public input (see below for concerns).

Take Action Phoenix supports the Disability Accommodation Committee as recommended in the staff report:

- The proposed Disability Accommodation Committee should consist of 5 voting members, and better represent the neighborhoods by including a representative from the neighborhoods and also the Sober Living Home industry.
- Some of the language used is unclear or does NOT belong:
 - P. 1 of the Staff Report does not state clearly that this ordinance *does not* include zoning restrictions for families of 1-5 residents. TAP feels a statement to this effect would help clarify that the ordinance does not impact families of 1-5.

- How is the word “relevant public input” being defined in the reasonable accommodation process? Who determines what is relevant? (see P.4 of Exhibit A).

Your actions: Take Action Phoenix asks that the Village Committee vote in favor of the text amendment as recommended by City staff with consideration of minor edits and comments suggested above.

Thank you.

To: City of Phoenix

On behalf of the members of AzRHA, this document outlines our position on the proposed requirements by the City of Phoenix.

In summary, these requirements are a violation of Federal Fair Housing and ADA and a deliberate attempt by the City of Phoenix and a neighborhood organization called TAP to impose illegal regulations on sober living operators and their residents. A scheme that will leave thousands of disabled people with no place to go and will render sober living homes economically unfeasible and operationally impractical. The actions proposed by the City of Phoenix will result in a public safety crisis and will nearly eliminate access to housing for those in recovery from substance abuse disorders (SUD) in Phoenix.

It has been stated several times that the good operators of sober living homes have nothing to fear. The City has been disingenuous in making this statement. These policies will cause many homes to shut down and significantly impact the operator's ability to operate. There are several violations, below are just a few examples of the City's and TAP's efforts to disguise discrimination through licensure and eradicate sober living homes from Phoenix.

1. The Fees proposed by the City will put many operators out of business which we believe to be the intent. AzRHA has communicated on several occasions the fee structure which is approximately \$150 per year per operator. Sober living homes are considered affordable housing. The fees would have to be passed onto the residents in which this housing for the disabled would no longer be affordable.
2. Five years with no dangerous felonies on record. Many people who are employed in sober living environments are in the process of rebuilding their lives. Not all felons are bad people but this requirement essentially marks them as "unemployable" regardless of how they are doing in their newly restored life.
3. GED requirement. This requirement has nothing to do with the ability to manage a home of individuals recovering from SUD being able to add or spell has very little to do with helping people in recovery from addiction.
4. Owing delinquent fines, fees or taxes. How does this requirement improve the safety of the home if that is the intent? Most people that have been in trouble or incarcerated at some point in time have owed money and are generally making financial amends. For some people that may take a long time due to amount that is owed and, in many cases, can take years to pay off. This should not be something that will disallow a person's

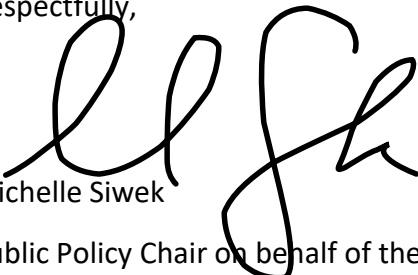

ability to manage a home.

5. Parole or probation. This requirement will significantly impact the operator's ability to hire. This is also a discriminatory practice because, as already mentioned, some individuals in recovery have been in trouble with the law and as a result have convictions. Prosecuting them for doing what the court ordered is discriminatory practice as they should have an equal right for employment in a sober living home. These individuals should not be classed as "unemployable". This requirement would make it impossible for them to get licensed for management.
6. As it relates to the zoning department registration; a public registry is a violation and that is essentially what the City has created with their registration process. Privacy is of the utmost importance and needs to be kept from public access and scrutiny. Targeting has already occurred by neighborhood organizations and the City is aware of this.
7. The Reasonable Accommodation Committee is a deliberate effort to rid neighborhoods of sober living homes. The current reasonable accommodation process is supported by AzRHA but not the proposed committee and AzRHA absolutely opposes a TAP member on the committee.
8. 24/7 awake staff requires approximately 4.2 full time employees to staff one property at all times. 24/7 coverage is a requirement of behavioral health institutions, elderly care homes and not sober living homes. This will create excessive payroll resulting in many operators closing their doors. Most operators have one manager that lives on site. If the home survives, the cost will be passed onto residents and the housing is no longer affordable housing to residents.

These are just a few of the most egregious proposed policies. As cited before, and in several working meetings over the last several months, AzRHA has firmly stated that sober living homes should be treated like any other family in single family neighborhoods and unless the City plans to implement these policies across all families, the City is incorrect in their attempt to implement these policies on a protected class.

Again, the proposed regulations will leave thousands of disabled people with no place to go and will render sober living homes economically unfeasible and operationally impractical. The actions proposed will result in a public safety crisis and will nearly eliminate all access to housing for those in recovery from substance abuse disorders, not to mention being in the middle of a deadly opioid epidemic.

Respectfully,

Michelle Siwek

Public Policy Chair on behalf of the Membership of the AzRHA, Arizona Recovery Housing Association
