

November 2020

RESCHEDULED SPECIAL ROADWAY MICRO SEAL NOTICE

5th Avenue: The contractor will be applying a roadway surface treatment on the existing asphalt from curb to curb on 5th Avenue between Van Buren and Roosevelt Streets. During the contractor's work hours of 7:00 a.m. to 5:00 p.m., the **work will be done in phases**. See maps below. Traffic will be maintained on the opposite side of the roadway while this work occurs. If it rains, the dates will change but the work will occur in the same sequence when the roads are dry.

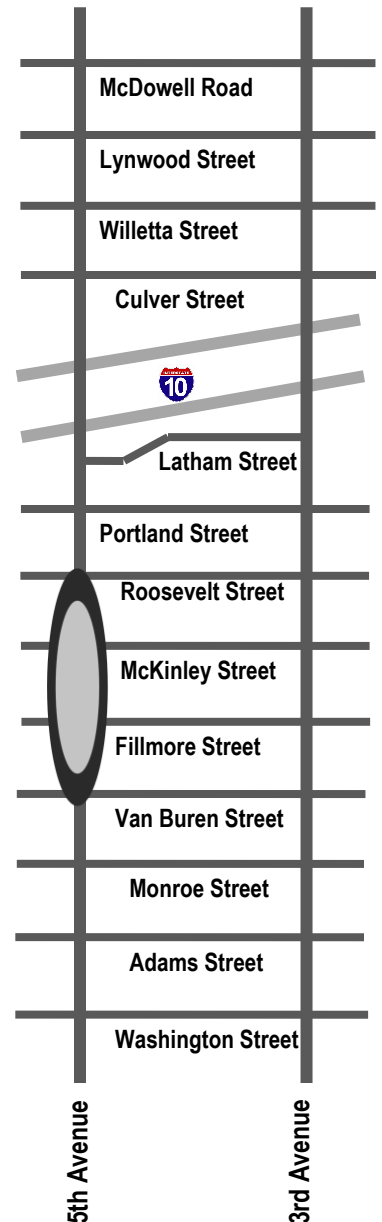

What to Expect:

- The roadway surface treatment will be applied to one side of the street at a time. Traffic will be redirected to the opposite side of the street.
- The contractor will place no parking signs on residential streets one day prior to the scheduled work on residential streets.
- When work is scheduled, you will need to have your vehicles out of your driveway by 7:00 a.m. if you need to exit the neighborhood.
- All vehicles will need to be off both sides of the street by 7:00 a.m. Any vehicle left on the street may be towed.
- Please do not drive on the fresh roadway surface treatment until the cones or barricades are removed to avoid damage to the new surface as well as tracking material onto your vehicle and driveway. **Drying time is approximately four (4) hours.** Business driveways will be sanded following the surface treatment process and driveway access will be available in approximately 15 minutes following treatment.
- Please turn off sprinkler systems and avoid any watering near the street the morning of the scheduled surface treatment on your street. Any water in the street will affect the finished product.

Schedule Map Key

- Thursday 11-19-20 █
- Friday 11-20-20 █
- Saturday 11-21-20 █
