

October/November 2021

The 3rd and 5th Avenues project is nearly complete!

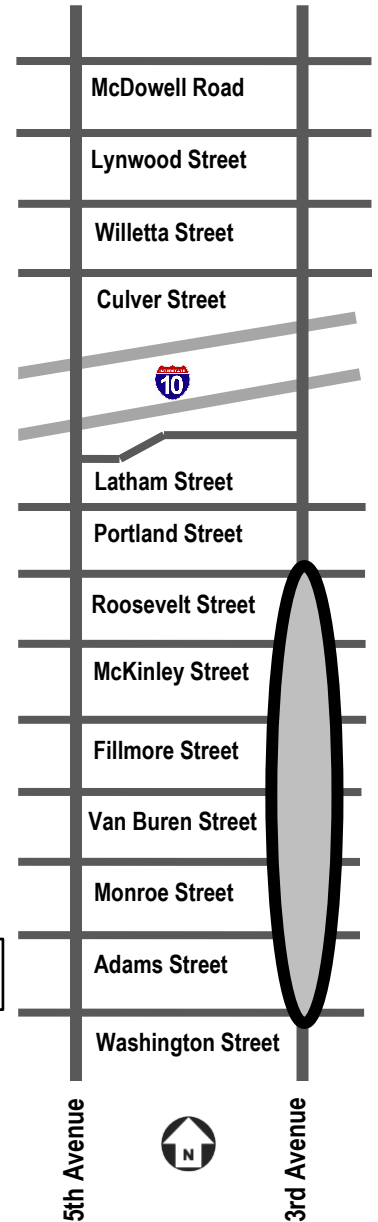

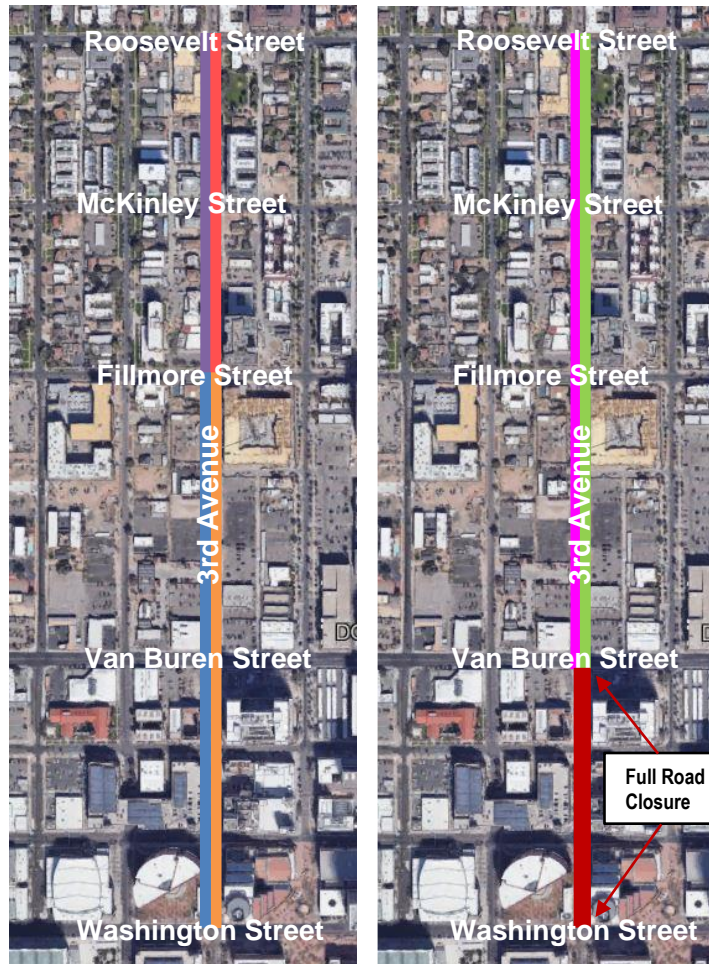

We are ready to apply new pavement. Our contractor will be milling and paving over the existing asphalt from curb to curb on 3rd Avenue between Washington Street and Roosevelt Road from October 28 to November 6. Work will be done in phases during the contractor's work hours of 7:00 a.m. to 5:00 p.m. See maps below. Weather conditions may affect the project schedule.

What to Expect:

- One lane of north bound traffic in 3rd Avenue will be maintained at all times.
- One lane of east and west bound traffic on Van Buren Street will be maintained. Left and right turns will be restricted.
- One lane of east and west bound traffic on Roosevelt Street will be maintained. Left and right turns may be restricted.
- Temporary closures will occur at intersecting streets up to one hour per intersection while milling, paving, and utility adjustment operations cross each intersection.
- No parking signs will be placed two days prior to the scheduled work. Vehicles left on the street may be towed.
- When work is scheduled, you will need to have your vehicles out of your driveway by 7:00 a.m. if you exit the neighborhood onto 3rd Avenue.
- Please do not drive on the fresh oil placed on the roadway prior to pavement application to avoid tracking material onto your vehicle and driveway.
- Please turn off sprinkler systems and avoid any watering near the street the morning of the scheduled paving operations. Any water in the street can affect the finished product.
- When cones are removed from driveways, it is safe to drive on the new pavement.
- Bike lane installation will follow pavement markings.

Schedule Map Key

MILLING		PAVING	
Thursday 10-28-21		Thursday 11-04-21	
Friday 10-29-21		Friday 11-05-21	
		Saturday 11-06-21
