

# KUBAN PARK

## PROJECT DESCRIPTION

The Kuban Park Neighborhoods Mobility Area is very similar in character to its neighbor to the west, “Durango Curve Neighborhoods,” with the majority of the properties being commercial and truck/distribution. Jack L. Kuban Elementary School is the area’s only school. Kuban Park is the only park in the area, and there are no other community services or health/care facilities.

## Mobility Project Schedule

## KEY DESTINATIONS

- Jack L. Kuban Elementary School
- Jack in the Box
- Kuban Park
- Phoenix Rescue Mission
- Los Pilares Tacos
- Maby’s Market
- Shell Station

## PHOENIX TRANSPORTATION 2050

Phoenix Transportation 2050 (T2050) dramatically expands investment in Phoenix for bus service, light rail construction and street improvements. The plan will significantly upgrade the city’s aging 5,000-mile street network and have a citywide impact on street needs providing new pavement, increasing maintenance on existing streets, and adding bike lanes, sidewalks and ADA accessible/compliant upgrades.

### Mobility Projects Program

While a portion of the new sidewalk and bicycle facilities commitments will be achieved through the pavement maintenance program and the new and expanded major streets program, the Mobility Improvements Program has allocated 15% of the

Street Transportation Department’s T2050 funds. This allocation will be utilized to meet the T2050 commitments to install 135 miles of new sidewalks and 1,080 miles of new bike lanes by 2050.

### Mobility Projects Purpose

The objective is to scope and prioritize sidewalk, bike facility, mid-block crossings, and other improvements that will improve walking and biking to key destinations within and adjacent to the study area. Upon completion of

the study, identified and prioritized mobility projects will be considered for inclusion in a 5-Year T2050 Mobility program of projects for design and construction.

Ultimately, the goal of the various mobility studies is to develop and recommend mobility solutions that will improve the safety, accessibility, and multimodal connectivity for all users, regardless of age or ability, to places of employment, schools, markets, and recreational opportunities.
