

HOPPER'S STORMWATER ADVENTURE

DISCOVER YOUR PHOENIX STORMWATER

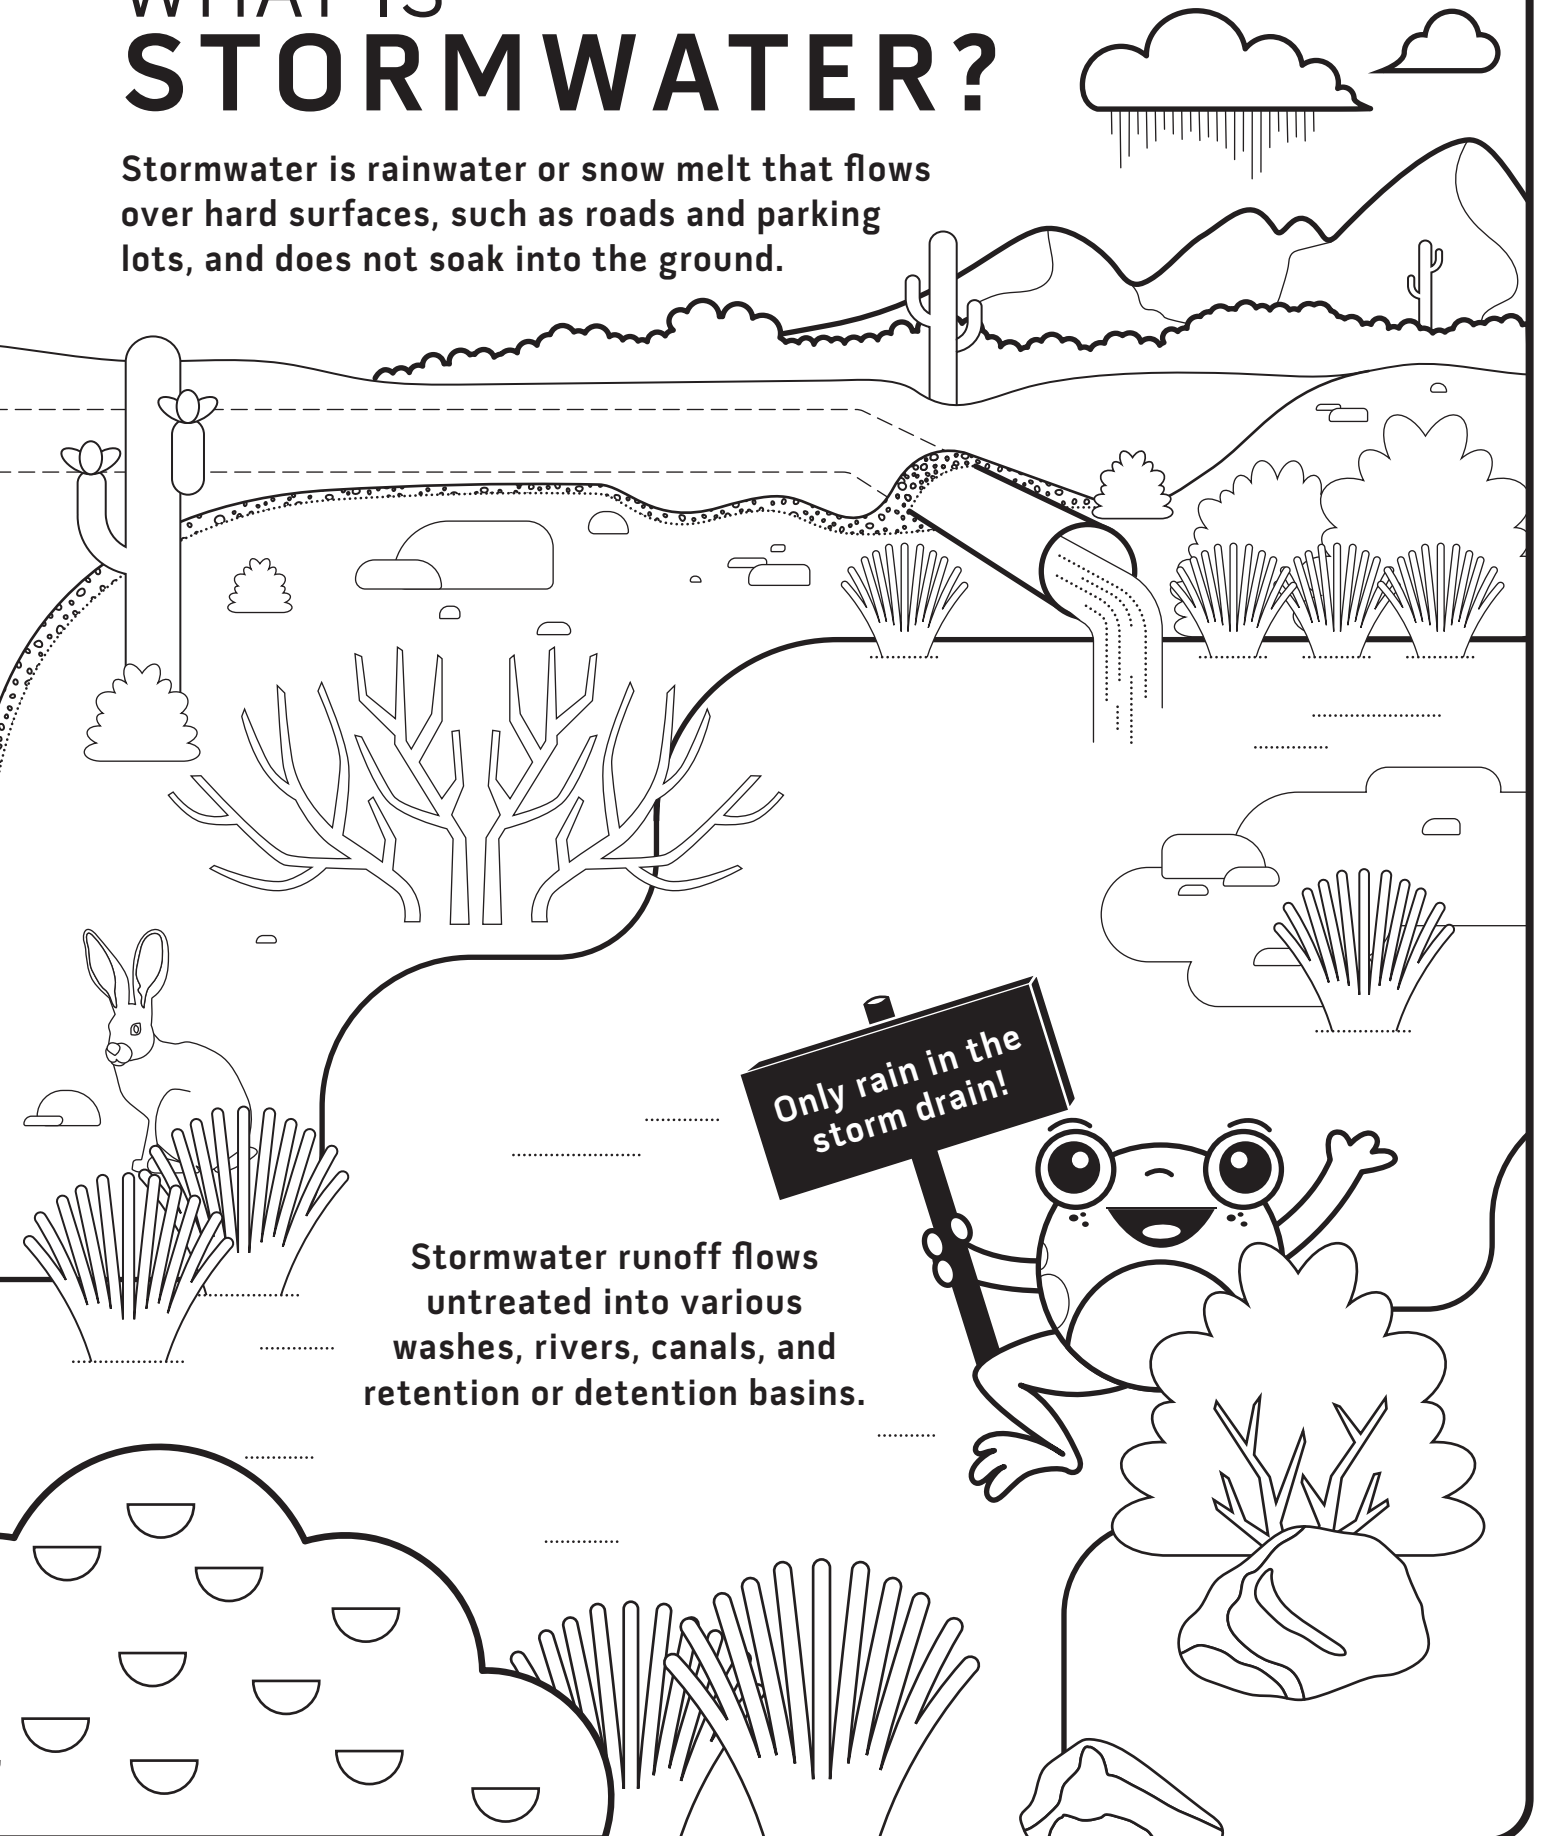

PHX
WATER
SMART

Hi, I'm Hopper, a friendly desert toad. Water is life in a desert city. We drink it. We cook and clean with it. We even play in it when it rains! But what happens to rainwater that flows into the storm drain? Join me on my journey to discover stormwater in Phoenix!

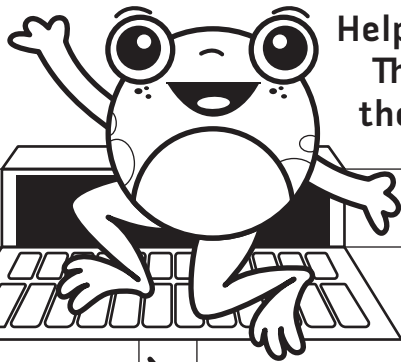

WHAT IS STORMWATER?

Stormwater is rainwater or snow melt that flows over hard surfaces, such as roads and parking lots, and does not soak into the ground.

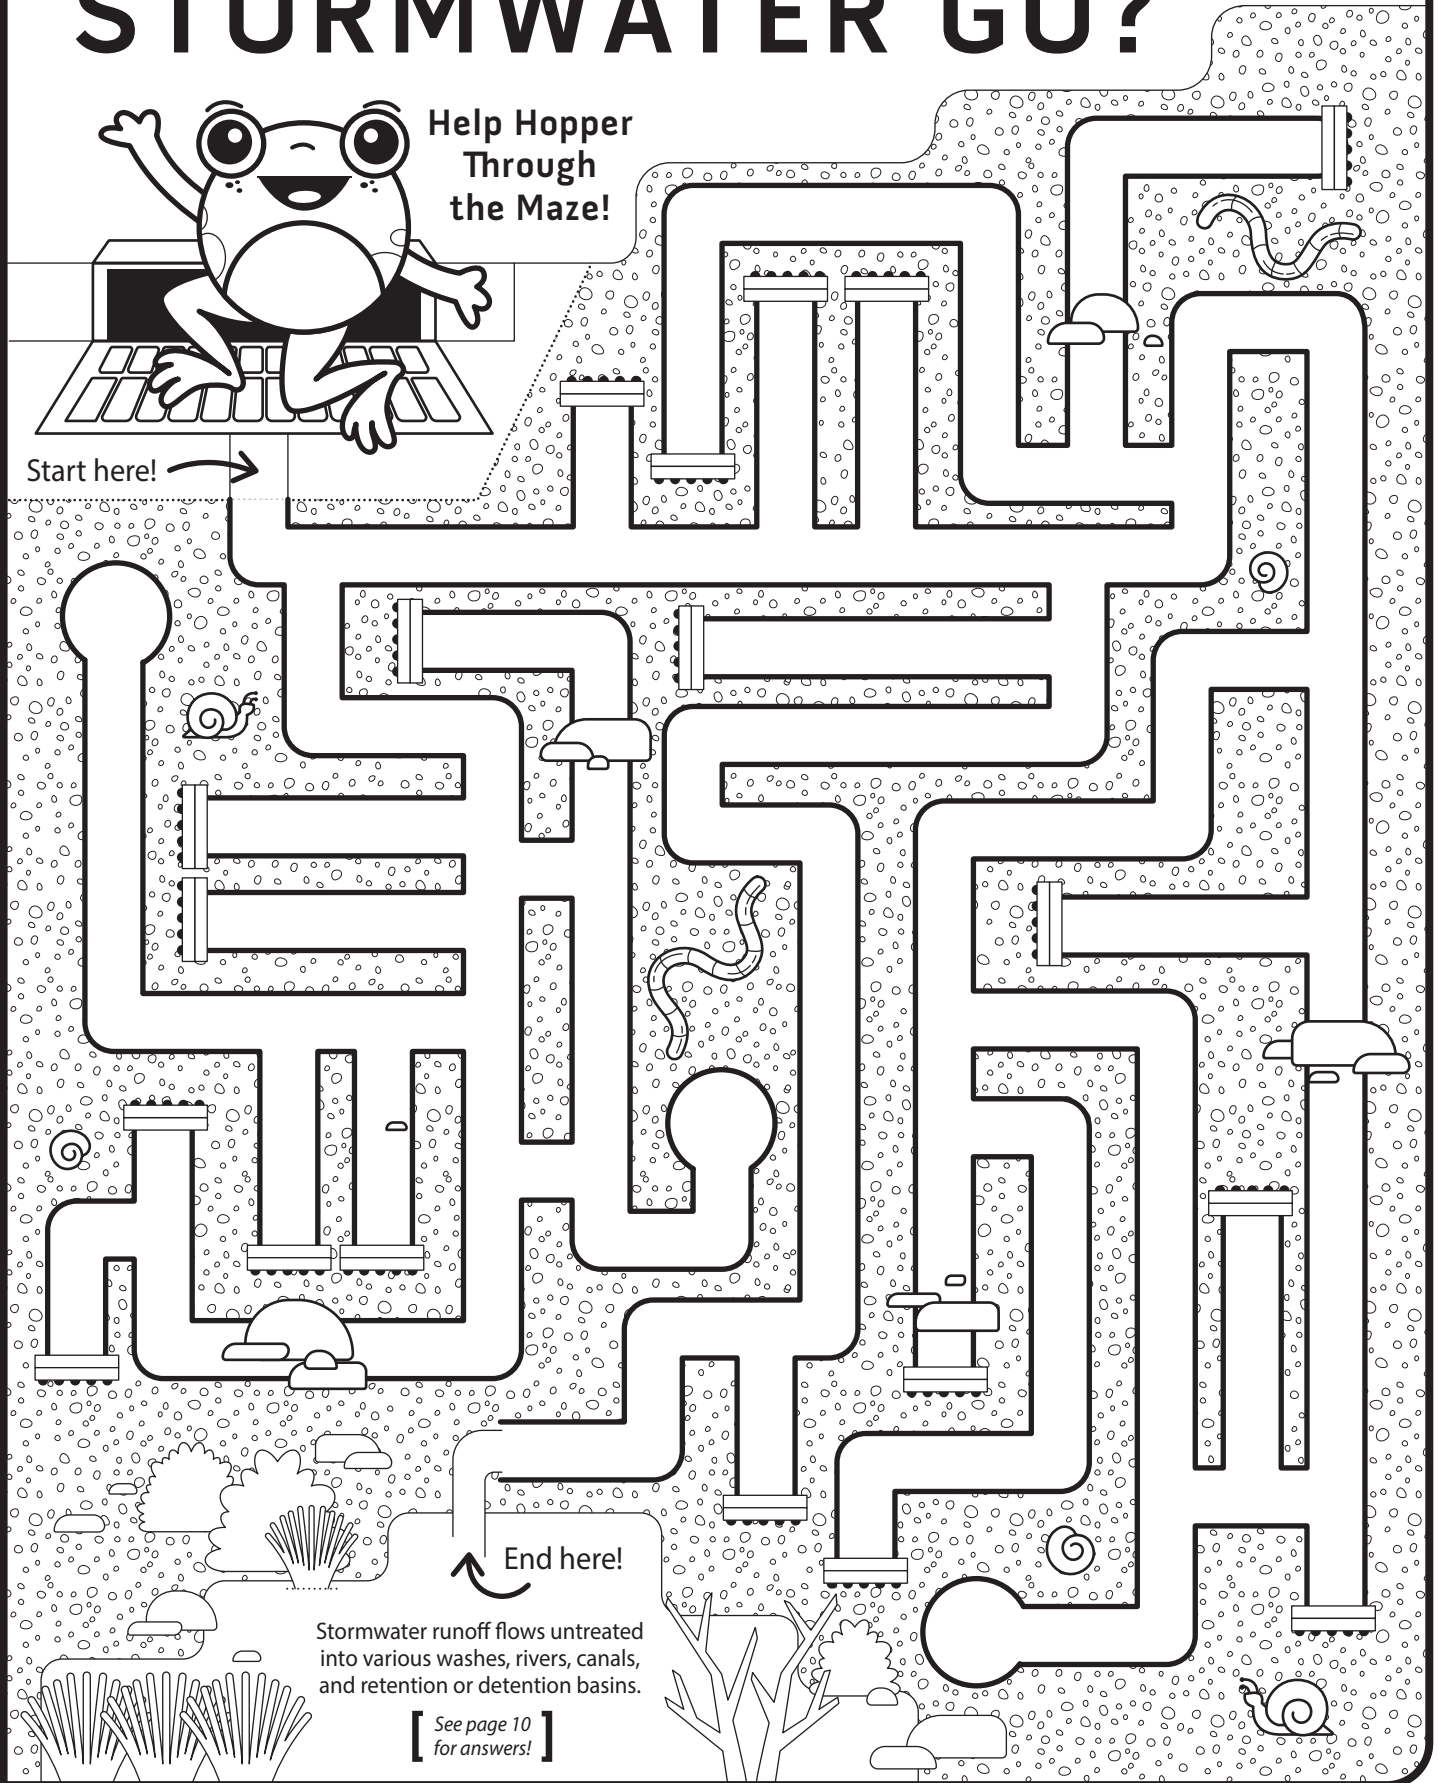

Stormwater runoff flows untreated into various washes, rivers, canals, and retention or detention basins.

WHERE DOES STORMWATER GO?
